LEGISLATIVE DEPARTMENT.

NOTIFICATIONS.

Simla, the 14th May, 1897.

No. 9.—*Corrigendum.*—In Notification No. 7, dated the 7th May, 1897, for "6th" read "7th."

No. 10.—Whereas by Resolution passed by the Secretary of State for India in Council, the provisions of the 33rd of Vict., Chap. 3, Sec. 1, were declared to be from the 1st March, 1896, applicable to Upper Burma, with the exception of the Shan States;

And whereas His Honour the Lieutenant-Governor of Burma has proposed to the Governor General in Council a draft of the following Regulation, together with the reasons for proposing the same;

And whereas the Governor General in Council has taken the draft and reasons into consideration, and has approved of the draft and the same has received the Governor General's assent on the 10th day of May, 1897:

In pursuance of the direction contained in the said section, the said Regulation is now published in the *Gazette of India*:

REGULATION NO. 1 OF 1897.

A Regulation to amend the Upper Burma Ruby Regulation, 1887.

WHEREAS it is expedient to amend the Upper Burma Ruby Regulation, 1887; It is hereby XII of 1897 enacted as follows:

1. In section 6 of the Upper Burma Ruby Regulation, 1887, as amended by Regulation No. V of 1891, after the words "before a Magistrate of the first class", wherever

Amendment of section 6, Regulation XII, 1887.

Regulation, 1887, as amended by Regulation No. XII of 1887.

they occur, the words "or, in a stone-tract, before a Magistrate of the second class, specially empowered by the Local Government in this behalf" shall be inserted.

2. In section 9, sub-section (2), of the said Amendment of sec- Regulation, for clause (b) tion 9, Regulation XII, the following shall be substituted, namely:

"(b) in a stone-tract, detain and search any person whom he has reason to believe to be guilty of any offence under section 6, and, if necessary, arrest that

person and any other person in his company;

"(c) elsewhere, detain and search any person whom he has reason to believe to be guilty of any offence under section 6, and, if that person has any store in his possession, arrest him and any other person in his company."

J. M. MACPHERSON,

Secretary to the Government of India.

SANITARY.

The 14th May, 1897.

No. 1494.—The following documents regarding quarantine and trade restrictions imposed in consequence of the existence of bubonic plague in India are published for general information:

Telegram, dated the 6th May 1897.

From—The Consul-General for the Netherlands, India, Darjeeling,

To—The Foreign Secretary, Simla.

Netherlands Indian Government wires: For vessels arriving from or having touched at Bombay and Karachi, nine days' quarantine since departure or last plague case on board. Importation of butter, victuals, rags, raw wool, hair, hides, furriery, from those places temporarily prohibited.

Telegram, dated the 7th May 1897.

From—The Secretary of State, London,

To—The Viceroy, Simla.

France.—My telegrams of 9th* February, 15th† February, 19th‡ March. Revised list prohibited articles includes only rags, fresh offal, hoofs and shoes; from infected areas will probably be condemned. Raw and manufactured wool, used and unused body linen, wearing apparel and bed linen, raw leather and fresh skins, admitted after disinfection.

* Published in the *Gazette of India* under Home Department Notification No. 449, dated the 12th February 1897.

† Published in the *Gazette of India* under Home Department Notification No. 583, dated the 19th February 1897.

‡ Published in the *Gazette of India* under Home Department Notification No. 1093, dated the 26th March 1897.

Notification of the Board of Trade (Fisheries Department), London, dated the 17th April 1897.

The Board of Trade have received, through the Secretary of State for Foreign Affairs, a copy of a despatch from Her Majesty's Representative at St. Petersburg containing the following Quarantine Regulations, *vis.*:

Rules now enforced by the Imperial Anti-Plague Commission for all vessels proceeding to the Black and Azoff Seas from plague-infected places or at which they may have touched on their passage.

All vessels can only enter and discharge at such ports of the above seas at which quarantine or quarantine agencies have been established. These ports are Theodosia, Kertch, Odessa, Sebastopol, Novorossisk, Batoum, and Poti.

On reaching any of these ports, vessels coming from, or which may have touched at, a plague-proclaimed country or port, are subjected to ten days' quarantine. After the expiration of this period, provided they prove to be in a satisfactory sanitary condition, they may discharge their cargoes.

If a portion of such cargoes consist of tea coming from plague-stricken places, the exterior packing of the chests, etc., of such tea is subjected to disinfection. All other goods may be landed without disinfection, on condition, however, that there is no good reason for supposing that any portion of them has come in immediate contact with persons suffering with plague. In this latter case the exterior covering or superficial layer of the goods is also subjected to disinfection.

The process of disinfection consists in drenching or daubing the outside of bales, chests, cases, etc., with a solution of corrosive sublimate of two pro 1,000 strength, or with that of milk of lime of the strength of ten per cent. to twenty per cent.

It must be observed that it is only the continental parts of British India that have been proclaimed by the Russian Government as plague-stricken, and that the Island of Ceylon is recognized as being to the present time free from that disease.

St. Petersburg, March 24, 1897.

JUDICIAL.

The 13th May, 1897.

No. 597.—The services of Captain L. H. Reid, Cantonment Magistrate, Agra, are temporarily replaced at the disposal of His Excellency the Commander-in-Chief, with effect from the date on which he is relieved of his present duties.

No. 599.—The services of Lieutenant R. R. Vaughan, Indian Staff Corps, 22nd Punjab Infantry, are placed at the disposal of the Government of the North-Western Provinces and Oudh for employment as an Officiating Cantonment Magistrate.

This cancels the notification of this Department No: 251, dated the 12th March 1897.

No. 601.—The services of Lieutenant H. de V. Harvest, 9th Madras Infantry, are placed at the disposal of the Government of Bombay for employment as an Officiating Cantonment Magistrate.

No. 603.—The services of Lieutenant T. S. Barton, 2nd Bengal Infantry, are placed at the disposal of the Government of Bengal for employment as an Officiating Cantonment Magistrate.

No. 605.—The services of Captain H. G. B. Raitt, 7th Bengal Infantry, are placed at the disposal of the Government of the North-Western Provinces and Oudh for employment as an Officiating Cantonment Magistrate.

LAND-REVENUE.

The 14th May, 1897.

No. 1074—184-I.—The following agreement executed under section 41 of the Land Acquisition Act (I of 1894) is published for information in accordance with section 42 of that Act :

Agreement made this third day of February one thousand eight hundred and ninety-seven between *The Indian Railway Feeder Lines Company Limited* hereinafter called the Company of the one part and *The Secretary of State for India in Council* hereinafter called the Secretary of State of the other part.

WHEREAS pursuant to and under the authority of an order made by the Governor of Bombay in Council with the previous sanction of the Governor General in Council and duly notified by the Local Government under Notification dated the ninth day of January one thousand eight hundred and eighty-nine and known as the Násik Tramway Order one thousand eight hundred and eighty-eight the Company have constructed and are now working a tramway from the Násik Road Station of the Great Indian Peninsula Railway Company to a point near Násik City AND WHEREAS the Company propose extending the said tramway into Násik City AND WHEREAS the Government of Bombay by an order dated the twenty-eighth day of November one thousand eight hundred and ninety-six and duly notified on the third day of December one thousand eight hundred and ninety-six has sanctioned the extension of the said tramway into Násik City as aforesaid AND WHEREAS for the purposes of such extension and otherwise for the purposes of their undertaking the Company have applied to the Local Government to put in force the provisions of the Land Acquisition Act one thousand eight hundred and ninety-four (Act One of one thousand eight hundred and ninety-four) in order to acquire for the Company certain lands in the schedule hereto more particularly mentioned and described AND WHEREAS the Local Government having held an enquiry and being satisfied that the proposed acquisition is needed for the construction of the said work and that such work is likely to prove useful to the public has pursuant to section forty-one of the said last mentioned Act required the Company to enter into such agreement with the Secretary of State as is herein contained. NOW THESE PRESENTS WITNESS and it is hereby agreed between and by the Company for and on behalf of themselves and their successors and assigns on the one hand and The Secretary of State for India in Council for and on behalf of himself and his successors on the other hand as follows :

1. That the Company shall and will pay to the Secretary of State through the Local Government the cost as determined by the Local Government of the acquisition of each of the several lands specified in the schedule hereto as and when possession of the same shall respectively be handed over by the Local Government to the Company.

2. That on such payment as aforesaid being made the land in respect whereof the same shall be so made shall be transferred to and legally vested in the Company subject however to the provisions of clause three of these presents.

3. That the said lands when so transferred to and vested in the Company shall be held by the Company as their own property and used for the purposes of their undertaking and in case at any time the said lands or any of them or any part thereof shall no longer be required for the purposes of their undertaking the Company shall be at liberty to sell the same or any part thereof subject to their first offering the same to the Local Government and to the Násik Municipality at a price not exceeding the price which the Company shall fix as their minimum limit for sale.

4. The work of constructing the said extension shall be completed within nine months from the date on which possession of the whole of the lands specified in the schedule shall be handed over by the Local Government to the Company. The said extension and the works appertaining thereto shall be maintained subject to the conditions prescribed by the aforesaid order dated the twenty-eighth day of November one thousand eight hundred and ninety-six sanctioning the extension of the said tramway.

5. The public shall be entitled to use the said extension and works appertaining thereto upon the conditions prescribed by the aforesaid order dated the twenty-eighth day of November one thousand eight hundred and ninety-six sanctioning the extension of the said tramway.

In witness whereof the common seal of the Indian Railway Feeder Lines Company Limited has been hereunto affixed in the presence of two Directors of the Company who have hereunto signed their names and one of the Secretaries to the Government of Bombay for and on behalf of the Secretary of State for India in Council hath hereunto set his hand the day and year first above written.

Sealed with the Common Seal of the Indian Railway Feeder Lines Company Limited in the presence of

GOVERNMENT OF INDIA. DEPARTMENT OF REVENUE AND AGRICULTURE.

INVENTIONS and DESIGNS.

Calcutta, the 14th May, 1897.

NOTIFICATIONS.

No. 1490 P.—APPLICATIONS in respect of the undermentioned inventions have been filed, under the provisions of the Inventions and Designs Act of 1888, in the office of the Secretary appointed under that Act during the week ending 8th May 1897:—

- No. 178 of 1897.—Charles William Ansell, civil and mechanical engineer, proprietor, Ansell & Sons, Darjeeling engineering works, Toong, Bengal, for improvements in rotary sifting machines for tea or other suitable substances.
- No. 179 of 1897.—Charles Day Durnford, gentleman, of Elmhurst, Shooter's hill, in the county of Kent, for improvements in gun barrels.
- No. 180 of 1897.—John Armstrong, consulting metallurgist, of Ramlé, Springfield park, Acton, London, for improvements in treating complex ores, mattes, and the like, and in furnaces therefor.
- No. 181 of 1897.—Freeman Augustus Taber, photographer, of 121, Post street, city and county of San Francisco, California, United States of America, for an improved method of producing embossed photographs.
- No. 182 of 1897.—Lucius Tuckerman Gibbs, engineer, of 5, East 27th street, New York city, United States of America, for a compressed air engine.
- No. 183 of 1897.—Francis Gascoigne Lynde, civil engineer, of Ahmedabad, in the Bombay presidency, for an improved compensator for signals worked by wires.
- No. 184 of 1897.—Albert Joisten, printer, of 31, Agrippastrasse, and Josef May, agent, of 6a, Andreashloster, both in Cologne, Germany, for improvements in platen printing presses.
- No. 185 of 1897.—Wasudeva Kashinath Kirloskar, L.M.S., medical practitioner, and Lakshman Kashinath Kirloskar, both of Sholapur, for purifying water by filtering for drinking and cooking purposes, and cooling the same to a very low temperature.
- No. 186 of 1897.—James Shannan Stevenson, tea planter, of Rothes, Hatton, Ceylon, for improvements in or connected with means or apparatus for withering and drying tea or other produce.
- No. 187 of 1897.—Khair-ud-din, son of Mahbub Alum, inhabitant of Nur Mahall, district Jullundur, for a wood floater, for floating sâl or other timber.
- No. 188 of 1897.—Paluru Sankaranarayana, M.A., retired educational officer, of 69, Swami Pillai street, Chulai, Madras, for a device for enabling the passage of a weight or parcel or any other kind of attachment along a wire or rope.
- No. 189 of 1897.—Amended application—See No. 50 of 1897.

No. 1491 P.—SPECIFICATIONS of the undermentioned inventions have been filed, under the provisions of the Inventions and Designs Act of 1888, in the office of the Secretary appointed under that Act, and copies have been sent to the Governments of Fort St. George, Bombay and Burma, and the Director of the department of and records and agriculture, North-Western Provinces and Oudh. These and other specifications are open to public inspection, from 11 A.M. to 4 P.M., at the Secretary's office (Imperial Secretariat, Government Place, West, Calcutta), on payment of a fee

of one rupee, and a certified copy of any one of them will be supplied on payment of the fixed expenses of copying :—

- No. 366 of 1895.—Bruno Wessellmann, engineer, Friedlander Weg 45, Gottingen, in the German Empire, for improvements in or relating to drilling or boring tools. (Specification filed 3rd May 1897.)
- No. 52 of 1895.—William Phillips Hall, president of the Hall Signal Co., of No. 80, Broadway, New York city, United States of America, for an improved electric signalling system. (Specification filed 3rd May 1897.)
- No. 124 of 1896.—Gerhard Ditmar, manufacturer, of 23, 25 and 27, Erdbergstrasse, Vienna, in the Empire of Austria, for an improved annular liquid-combustible burner for incandescent light. (Specification filed 30th April 1897.)
- No. 180 of 1896.—Albert Meyenberg, manufacturer, Max Wendorf, mechanic, and Siegmund Henlein, merchant, all of 61, Langestrasse, Frankfort-on-the-Main, Germany, for an incandescent lamp for the combustion of paraffin oil and other liquids. (Specification filed 30th April 1897.)
- No. 246 of 1896.—Edward Davies, architect, and Arthur Harrison, clerk, both of No. 21, King William street, Adelaide, in the province of South Australia, for an improved protector for pneumatic and other similar tyres. (Specification filed 30th April 1897.)
- No. 356 of 1896.—William Lindsay, contractor, of Ann street, Brisbane, in the colony of Queensland, for an enlarging bit for well boring by the cable or pole system. (Specification filed 30th April 1897.)
- No. 384 of 1896.—Henry William Headland, electrical engineer, of Leyton, in the county of Essex, for improvements in secondary batteries. (Specification filed 3rd May 1897.)
- No. 393 of 1896.—Pontin's Patent Butter Box Co., Ltd., of 6, Adam street, Adelphi, London, for improvements in and relating to boxes or packages for the transport of butter, fruit, or other edible substances. (Specification filed 30th April 1897.)
- No. 436 of 1896.—The Publishing, Advertising and Trading Syndicate, Ltd., of 40, King street, Cheapside, in the city of London, for improvements in the manufacture of battery cells or vessels to contain acids or other chemicals. (Specification filed 3rd May 1897.)
- No. 437 of 1896.—The Publishing, Advertising and Trading Syndicate, Ltd., of 40, King street, Cheapside, in the city of London, for improvements in the manufacture of material suitable for belting, carding cloths, soles of boots, and like uses. (Specification filed 3rd May 1897.)
- No. 438 of 1896.—Silvio Alimonda, gentleman, of Spezia, in the Kingdom of Italy, for an improved process for the tanning of skins. (Specification filed 3rd May 1897.)
- No. 459 of 1896.—Charles Halford Thompson, F.R.H.S., colonel in Her Majesty's regiment of Royal Artillery, Eastcliff, Teignmouth, in the county of Devon, for fertilized and fertilizing materials for promoting the growth of plants. (Specification filed 3rd May 1897.)
- No. 1 of 1897.—Rudolf Langhans, electrical engineer, of 12B., Elisabethstrasse, Berlin, in the German Empire, for improvements in the manufacture or production electrolytically of coatings composed of earthy oxides. (Specification filed 3rd May 1897.)

No. 1492 P.—THE undermentioned designs have been registered, under the provisions of the Inventions and Designs Act, 1888, in the office of the Secretary appointed under that Act, and copies have been sent to the Governments of Fort St. George, Bombay and Burma. These and other designs are open to public inspection, from 11 A.M. to 4 P.M., at the Secretary's office (Imperial Secretariat, Government Place, West), Calcutta, on payment of a fee of one rupee, and a certified copy of any one of them will be supplied on payment of the fixed expenses of copying :—

- No. 8D of 1897.—Pir Bakhsh, shawl weaver, of Kila' Bhungian, Amritsar, for a pattern of flowers to be worked on shawls.
- No. 9D of 1897.—Pir Bakhsh, shawl weaver, of Kila' Bhungian, Amritsar, for a pattern of flowers to be worked on shawls.
- No. 10D of 1897.—Pir Bakhsh, shawl weaver, of Kila' Bhungian, Amritsar, for a pattern of

No. 1493 P.—THE fee prescribed in Schedule 4 of Act V of 1888 has been paid for the continuance of exclusive privilege in respect of the undermentioned invention for the period shown against it:—

No. 177 of 1890.—Dadabhai Ruttonji Dalal, late public gauger at the Dadur distillery, of No. 52, Homji street, Fort Bombay, for a new and improved automatic totalisator. (From 1st February 1897 to 1st February 1898.)

No. 1494 P.—WHEREAS the inventors of the undermentioned inventions have respectively failed to pay, within the time limited in that behalf by the fourth schedule to the Inventions and Designs Act (V of 1888), the fees hereinafter respectively mentioned, it is hereby notified that under the provisions of section 8, sub-section (2), of the said Act, the exclusive privilege of making, selling and using the said inventions in British India and of authorising others so to do has ceased:—

No. 261 of 1892.—Léon Raphael Lecellier's invention for improvements in locks. (Specification filed 4th February 1893.)

No. 279 of 1892.—Walter Swain and William Philipson's invention for improvements in the construction of wheels and tyres for carriages, bicycles, tricycles, and other road vehicles. (Specification filed 4th February 1893.)

No. 329 of 1892.—Fritz Hansen's invention for improvements in electric arc lamps. (Specification filed 8th February 1893.)

Fee in respect of the continuance of an exclusive privilege—

(4) (a) After the filing of the specification and before the expiration of the fourth year from the date of the filing thereof—

The sum of ₹50 for each of the said inventions.

NOTICES.

All communications relating to Act V (the Inventions and Designs Act) of 1888 should be addressed to the "Secretary to the Government of India, Department of Revenue and Agriculture (PATENTS BRANCH), CALCUTTA."

The office of the Secretary under the Act is open for the transaction of business from 11 A.M. to 4 P.M. on all days except Sundays and gazetted holidays.

The Government of India are advised that as trade marks are not "designs" within the meaning of the Act, they cannot be registered under Part II.

The fees payable under the fourth and sixth schedules are now collected in cash, and applicants are warned that they must be responsible for any delay in cashing cheques.

Copies of the weekly notifications, and of the quarterly lists, of applications and specifications filed in the Secretary's office are now on sale to the public at one anna and eight annas a copy respectively.

Attention is requested to the rules made by the Government on the 10th October, 1895, in regard to the preparation of applications, specifications and drawings.

All applications made under the Inventions and Designs Act, V of 1888, will from this date (December 19th, 1896) lie in the visitors' room of the Patents Office for ten days from the date of the *Gazette of India* in which their filing may have been notified; or, if the tenth day is a holiday, till the evening of the office day next following.

At the time of delivering or sending an application for leave to file a specification, the applicant shall cause a duplicate copy of the application to be delivered or sent therewith to the Secretary.

A. T. PRINGLE,
Offg. Secy. under the inventions and

Offg. Chief Accountant.
Rate for Demand Loans 10 per cent.
Percentage 33'3.

By order of the Directors,
W. D. CRUICKSHANK,
Secretary and Treasurer.

CALCUTTA UNIVERSITY.

NOTICE.

SREEGOPAL BASU MALLIK FELLOWSHIP.

An election for the above Fellowship, founded for the encouragement and promotion of Sanskrit learning and Vedantic studies, will be held on or about the 26th June, 1897.

The remuneration is Rs 400 per mensem, and the first election will be for two years only. The Fellow shall not embark in, or continue in, any other occupation or profession during the term of his Fellowship.

Hindu graduates of the Calcutta University or any other Hindus, without distinction of caste, who may have made the Vedanta their especial study, are eligible as candidates.

Each candidate is to send in to the Registrar, before the 15th June, certificates of his qualifications and 15 copies of a synopsis, printed in either Bengali or English, of at least 12 lectures to be delivered by him during his two years' tenure of office in the subjects which will be found in the Regulations.

The attention of intending candidates is particularly directed to Rule 13:—

"Under no circumstances will any candidate, or any one on his behalf, be allowed to canvas directly or indirectly for his appointment, or in any way to communicate with regard thereto with any member of the Syndicate or with Babu Sreegopal Basu Mallik, or with any one acting on his behalf."

Disqualification is the penalty attached to disregard of this rule.

Copies of the Rules and Regulations can be had on application to

J. H. GILLILAND,
Registrar.

SENATE HOUSE;
The 14th May, 1897.

1.

Letter from the Royal College of Surgeons of England, to the Secretary of State for India, dated 11th March 1897.

MY LORD,

I AM directed to forward to you the enclosed address, unanimously adopted at a meeting of the Council of the College, held this day and signed by all the members present, by means of which the Council desire through your Lordship, to impress upon Her Majesty's Government the urgent need for the adoption of measures to check the prevalence of venereal disease in the Indian Army.

I am to add that the Council are desirous of assisting the Government in every way which may be possible in the furtherance of any remedial measures which they may think fit to adopt.

I have the honour to be,

My Lord,

Your obedient Servant,

EDWARD TRIMMER,

(Secretary).

(Enclosure in above.)

ROYAL COLLEGE OF SURGEONS OF ENGLAND.

MEETING OF THE COUNCIL, 11TH MARCH 1897.

WE, the Council of the Royal College of Surgeons of England, desire to impress upon Her Majesty's Government the urgent need for the adoption of measures to check the prevalence of venereal disease in the Indian Army.

The extent to which the British troops in India are shown by official reports to be now infected with venereal disease, not merely seriously impairs the efficiency of the army in that country, but constitutes, we believe, a grave danger to the health of the nation at large.

When we know that 13,000 soldiers, of whom only four per cent. are married, leave India every year, and that at least one quarter of them have been affected with constitutional syphilis during their service in India, we can realise the risks to which the civil population in this country are exposed when these men return home.

It has been shown that in 1894 only 37 per cent. of the British troops in India had never suffered from any form of venereal disease, that 28 per cent. had been treated for syphilis, and that of late years there has been a rapid increase in the frequency of both the primary and secondary forms of syphilis, and also in a marked degree, in the virulence of the disease.

In face of such facts it is difficult to over-estimate the amount of suffering which must follow, not only in the near future, but in years to come.

We therefore express our earnest hope that Her Majesty's Government may take effective means to check the ravages of a disease, which not only undermines the constitution of those who contract it in the first instance, but, by reason of the many ways in which it may be transmitted, destroys the health and happiness of countless other persons, and induces in the children of those originally infected diseases of a most formidable character.

Letter from the Royal College of Physicians, London, to the Secretary of State for India, dated 29th March 1897.

MY LORD,

I AM desired by the President and Fellows of this College to forward to you the enclosed report, and to inform your Lordship that it was adopted unanimously at a general meeting of the College held this afternoon.

I am, my Lord,
Your Lordship's obedient Servant,

EDWARD LIVEING.
(Registrar.)

(Enclosure in above.)

Report of a Committee of the Royal College of Physicians on the Contagious Diseases Acts.

Committee appointed, February 23rd, 1897 :—

"To advise the College on the desirability of making a formal declaration of opinion to the Government in favour of the re-enactment of the Contagious Diseases Acts, or some such modifications of them as may prevent the spread of these Contagious Diseases."

Members of the Committee.

Dr. WILKS, President.
Sir WILLIAM PRIESTLEY.
Sir WILLIAM ROBERTS.
Dr. CHURCH.

Sir DYCE DUCKWORTH.
Dr. PAYNE.
Dr. BOWLES.
Dr. JOHN ANDERSON.

Dr. LIVEING, Registrar.

Your Committee beg leave to report as follows :—

They have referred to a number of official and other reports and publications bearing upon the subject of the prevalence of venereal disease in the British Army in India ; and some of their number proceeded to Netley, in order to inspect the numerous patients at present under treatment in the wards of the Royal Victoria Hospital, with the view of personally ascertaining the nature and type of the disease from which they are suffering. On the day they visited the hospital it contained 752 patients, of whom 219 were syphilitic cases. The last troopship brought 312 invalids, among whom were 76 cases of syphilis. It is difficult to describe the painful impression made by the inspection of these sick soldiers. Almost every variety of constitutional syphilitic disease was represented—those of a virulent form being very numerous—and the results of the disease were in many cases deplorable, while the appearance of the sufferers was most pitiable. The records of the hospital show that the number of such cases has largely and steadily increased in recent years, and that almost all have arrived from India.

In order to discuss the statistical aspect of the question usefully and satisfactorily, it would be necessary to enter to some extent upon the recent medical history of the British Army in India. It is not proposed to do this, nor is there any need for it, because a Departmental Committee of the India Office has just issued a special report on the subject. Your Committee is quite satisfied from the evidence before it, that the amount of syphilis among the European troops serving in India has enormously increased during the last few years, whereas whilst the Contagious Diseases Acts were in full operation (1872—1884) the amount remained almost stationary.

The extent of syphilis in the British Army in India, and its rapidly increasing prevalence, are most serious. Whether this disease be regarded in relation to the large amount of inefficiency it causes in the British Army and consequent weakening of the military power at the disposal of the Government of India ; to its present, and often life-long, effect on the health and constitutions of the individual sufferers and their future wives and children ; or in relation to its remoter consequences on the

well-being of future generations, it appears to us to be a matter of serious moment, and to call for the gravest consideration.

The constitutional form of the disease is one of the most serious, insidious, and lasting of all the contagious diseases that afflict humanity. Other contagious complaints, *e.g.*, small-pox or scarlatina (which in this and other civilised countries are made the subject of legislative interference in the interest of the population at large), are transmissible only for a limited time and not by inheritance; yet the sufferers are separated during the course of the disease, and for such longer periods thereafter as experience has found to be necessary for safeguarding others from infection. With syphilitic disease it is far otherwise: it is the most lasting in its effects and most varied in the character of its specific manifestations; it frequently gives rise to consequences far removed from its initial symptoms, most seriously implicating and effecting various organs of the body; it complicates other diseases, its contagious properties extend over lengthened periods of time, during which the sufferers are often a source of danger to innocent people, while they may be, and frequently are, as parents, the source whence specific infection is transmitted to their children.

It follows, therefore, that if all reasonable measures to limit the spread of infection are justifiably taken in the case of other contagious or infectious diseases, they are far more necessary in the case of the disease in question.

About 13,000 soldiers return to England from India every year, and of these, in 1894, over 60 per cent. had suffered from some form of venereal disease. These figures are quoted as showing more forcibly than words can the risk of contamination, not only to the present population of this country, but also to its future generations. Of these men a number die, or, remaining invalids, are more or less incapacitated from earning their own livelihood, and thus become a burden on the rates.

The far-reaching effects of syphilis are so serious that it is of the first importance that the earliest indications of the disease should be medically treated without any loss of time; neglect of this measure tends to increase its virulence in all its stages.

As regards the unfortunate women who pursue their calling in a diseased condition, it is simply a matter of humanity to them that they should have the benefit of medical treatment, with rest and care in hospital, until they are cured.

In view of this lamentable prevalence of disease, your Committee makes the following recommendations and suggestions:—

That as the civil, military, and medical officers in India are best acquainted with the local conditions now existing, and affecting this prevalence of venereal disease, so they are the best judges of the most efficient means of dealing with it. Your Committee, therefore, suggests that power be given to the Government of India to take such steps for the mitigation of this evil as these officers may advise.

That, for the protection of the healthy population, venereal diseases in both sexes, in the soldiers as well as the women, be subjected to the same restrictions as are other contagious diseases; such restrictions having for their object the detection and prevention of such diseases.

With regard to the unfortunate women, such measures necessarily include examination as well as treatment; and it may be desirable in India that the examination should be performed by persons of their own sex, who have been sufficiently trained and educated for the efficient discharge of this duty.

Syphilis requires prolonged constitutional treatment, during which the sufferers should be under frequent medical supervision, although not necessarily hospital in-patients.

Your Committee also suggests that no women should be employed as coolies in or in the immediate vicinity of, the barracks, as there is evidence that such women are frequently the source of aggravated forms of venereal disease.

In making these recommendations, your Committee considers that they should apply not only to the women, but also to the men with whom they consort; and is of opinion that it would be highly advantageous if medical officers in the army found some means, by elementary reading-room lectures or otherwise, of acquainting young and inexperienced soldiers with the grave and far-reaching consequences that are likely to result from immoral conduct, as well as from the concealment of the primary symptoms of the disease, the early treatment of which is of the utmost importance.

23rd March 1897.

SAMUEL WILKS,
President.

Copy of a Despatch to the Government of India regarding the Measures to be adopted for checking the spread of Venereal Disease among the British Troops in India.

MILITARY DESPATCH FROM SECRETARY OF STATE, TO GOVERNMENT OF INDIA, No. 25, DATED 26TH MARCH 1897.

MY LORD,

I have considered in Council your Excellency's Despatch No. 184 of the 4th November 1896, forwarding statistics relative to the prevalence and increase of venereal disease among the British troops in India. You point out that whereas in the decennial period 1876—85 the rate of sick from this cause was only 258 per mille per annum, in the following decennial period it had risen to 443, while in 1895 it had reached 522·3 per mille, that is more than half the total strength of the troops. These figures include troops on field service, who are less exposed to contagion than in cantonments. For the latter the ratio of admission in 1895 amounted to 536·8 per mille. You state that you have been careful to adopt such means as lie in your power to protect soldiers from temptation likely to lead to the contraction of venereal disease, but that you are strongly convinced that, without some fresh powers, no instructions or regulations can have any material effect in mitigating this scourge.

2. As your Lordship is aware, I had, prior to the receipt of your Despatch, appointed, in communication with the War Office, a Departmental Committee* to examine the official returns of venereal disease among British troops stationed in India, and to report what changes, if any, had taken place during recent years in the prevalence of such disease and its character and intensity. The Committee were also to obtain and report any information which might be available with regard to the prevalence of venereal disease, and its character and intensity, in foreign armies. They submitted their report on the 20th February 1897, and I forward herewith a copy for the information of your Government.

3. The report discloses a most deplorable state of things. In the year 1895, an average of 45 men per 1,000, or 3,200 in a force of 71,031 British soldiers in India were constantly in hospital for venereal disease. But even these figures, striking as they are, do not include many cases which have been treated out of hospital, and which do not therefore appear in the returns. Again, "a large number of men who are nominally cured are only fit for service under peace conditions, and would break down on field service. Among 5,822 men detailed for field service with the Central Relief Force, 462, or nearly 8 per cent., had to be rejected for venereal disease; 279 more, or an additional 4½ per cent., had to be transferred from the field hospitals to the base for the same cause. In the great majority of these cases the disease had been contracted before the men crossed the frontier. On a basis of 8 per cent. rejected before starting on field service, and 4½ per cent. more subsequently invalided for disease contracted before crossing the frontier, 8,800 men out of a total force of 71,031 would have to be put down as useless, from this one cause, for field operations."

4. The report shows that not only has this disease greatly increased of late years, but that its character and virulence have been intensified. There has been a disproportionately great increase in the amount of its more serious and constitutional forms. "Of the enormous total of 522 venereal cases per thousand troops, syphilis contributed very nearly one half, that is, 259 cases per 1,000—a figure many times greater than the highest of which we can find any record in the statistics of continental armies for recent years, either at home or abroad." Of the fatal character of this form of disease the Committee, after a visit to the Military Hospital at Netley, where invalids from India are sent for treatment, have drawn a terrible picture. "During their short term of military service a great part (in some cases more than half) of their time has been spent in hospital, either in India or at home. Before reaching the age of 25 years these young men have come home presenting a most shocking appearance; some lay there having obviously but a short time to live; others were unrecognisable from disfigurement by reason of the destruction

* The Earl of Onslow, Chairman; Sir J. Peile, K.C.S.I., Surgeon-Major-General W. Taylor, M.D., Surgeon-Colonel J. Richardson; Secretary, Mr. F. W. Newmarch.

"of their features, or had lost their palates, their eyesight, or their sense of hearing ;
"others again were in a state of extreme emaciation, their joints distorted and
"diseased. Not a few are time-expired, but cannot be discharged in their present
"condition, incapacitated as they are to earn their livelihood, and in a condition so
"repulsive that they could not mix with their fellow men. Their friends and
"relatives refuse to receive them, and it is inexpedient to discharge them only to seek
"the asylum of the poor-house ; so they remain at Netley in increasing numbers,
"which, as matters now are, seem likely to continue to increase.

5. The information collected by the Committee as to the prevalence of disease among the armies of other Powers who have adopted regulations of various kinds, is remarkable, and tends to prove beyond question the effectiveness of such preventive measures. Among European forces the average ratio of admission during the three years 1890—92, for the graver form of disease, varies from 5.5 per thousand in the German army to 14.8 in the Dutch Army ; in the British army in India it was then 17.5 and has since risen to 25.9 per thousand. In the Dutch East Indian force it was 4.7 per thousand ; but this is a diminishing rate, whereas in the British army in India the rate has very greatly increased. It appears to me to be impossible, in the face of such statistics as these, to maintain that there can be any doubt as to the effect of regulations as a check on the spread of disease.

6. In summing up the results of their inquiries as to the year 1895, the Committee report :—"Venereal disease directly caused more than one-third of the total amount
"of sickness, 15 deaths in India, 348 invalidings, resulting in 130 cases in final
"discharge from the service ; the constant and total disablement of 3,200 men out of
"a force of 71,000 men, and a vast amount of partial disablement and unfitness for
"any but routine duties. Indirectly, it increased the amount of sickness and invalid-
"ing under the head of many other complaints. The military efficiency of the
"Army was most seriously impaired, and the increasing prevalence and intensity of
"contagious and inheritable disease among a body of 71,000 men, of whom many
"thousands are annually coming home to mingle with the civil population, was a
"growing danger to the health of the community." The Committee add that the
number of British soldiers returning to this country annually from India is about 13,000 ;
they point out that, according to a recent return 28 per cent. of the British Army
serving in India had suffered from syphilis in that country, and that since then the
proportion had probably increased ; and they call attention to the terrible effect on
the public health of the United Kingdom which the absorption of such a force among
the civil population at home must tend to produce.

7. It will be a satisfaction to your Government to read in the report that the
increase of venereal disease is in no way connected with or due to any want of
sanitary precautions which it was within the power of the Government of India to
enforce. On this point the Committee report that "the increase of this latter (venereal
"disease) is the more striking when contrasted with the improvement in the general
"health of the troops in India, which has been progressing ever since the Mutiny,
"and which would assuredly have been greater in recent years but for the growing
"influence of venereal disease in predisposing to, and aggravating, so many other
"complaints. Improved sanitation has had the very greatest effect upon every
"disease other than venereal ; this alone has not only been unchecked in recent years,
"but has increased to an extent which is appalling and disastrous." It is equally
satisfactory to find that the increase of this disease "does not appear to be attributable
"to increased immorality in the army. Drunkenness and crime have greatly
"diminished. The attention of successive Commanders-in-Chief in India, and of
"none more than Lord Roberts, has been given to the provision and improvement of
"recreation rooms, libraries, regimental workshops, etc., to the encouragement of
"cleanliness, and, so far as the climate admits, of active exercise and sports. Much
"also has been done by societies, such as the Army Temperance Association (which
"is aided by a Government grant of Rs. 8,000 per annum) and the Army Health
"Association, towards encouraging self-control among the soldiers."

8. In paragraph 4 of your Despatch you write, "We should be glad to see an
"independent inquiry set on foot to establish, or controvert, the connection between
"the increase of venereal disease among the class of women referred to, and
"consequently among the soldiers who consort with them, and the abolition from time
"to time of the restrictive and protective measures which formerly existed." This point
did not come within the scope of the reference to the Departmental Committee, but the

statistics furnished by them, notably those in Table I, to which I would invite attention, show clearly that there is a close connection between the withdrawal of the above measures and the increase of venereal disease, especially syphilis. In fact, they distinctly stand in the relation of cause and effect. The measures which were in existence in 1884 were modified in subsequent years, and afterwards abolished. Since that date, while non-syphilitic diseases have remained almost stationary, the cases of secondary syphilis have nearly quadrupled.

9. Her Majesty's Government cannot acquiesce in the continuance of this state of things. Common humanity, no less than their duty to the large body of British troops in India, "a body of men," as stated by the Committee, "mostly very young, and nearly all obliged by the conditions of the service to remain unmarried," requires that remedial measures should at once be adopted to restrain the prevalence of venereal disease, the increase of which has of late years been truly "appalling and disastrous." Nor is the evil confined to India alone. Every year, as I have already pointed out, some 13,000 British soldiers leave India for home, where they become absorbed in the civil population. Of these, no less than 8,190 or 63 per cent., according to the latest statistics, have suffered from some form of venereal disease. Not only is the admission rate increasing, but the more dangerous forms of the disease itself annually assume larger proportions. It cannot be doubted that the health of the civil population and of subsequent generations in this country is seriously imperilled by this annual discharge from the Army of men constitutionally diseased.

10. The Army Sanitary Committee, to whom your Despatch had been referred for their observations, have submitted a Memorandum,* copy of which I enclose for the information of your Government. They are unanimous in thinking that some restrictions upon the evils of prostitution are required, but they do not offer any detailed suggestions as to the form these measures should take. They consider that the local military, medical, and civil authorities should best be able to offer suggestions and give advice as to the mode in which restrictions could be applied in India; that the necessary measures should be taken to prevent soldiers and women in a diseased condition from spreading contagion; and they suggest whether, when women require examination and treatment, female medical assistants should not be employed for that purpose. They also repeat the opinion expressed in their previous Memorandum of the 25th January 1894, which was as follows:—"But we entirely concur in the suggestion contained in the Military Despatch from the Government of India that the authorities should have power, as in the case of other infectious diseases, to expel from cantonments women 'when they are known to be diseased and refuse to submit to treatment in hospital.' We would also strongly advocate that the power of commanding officers should be as much enlarged as practicable in the direction of diminishing the temptations to young soldiers, by preventing women, for example, from coming about the lines after dusk, and also in putting places out of bounds where soldiers are believed to have contracted disease."

11. Your Excellency will, I am confident, concur with Her Majesty's Government that in any measures which may be adopted there must be nothing that can be represented as an encouragement of vice. There must be no provision of women for the use of soldiers by any authority, civil or military. There must be no registration of prostitutes other than that which is, or should be, enforced for all inhabitants of cantonments, and no granting of licenses to practise prostitution. There must be no compulsory and periodical examination of women. Prostitutes must not be allowed to reside in regimental bazars, or to accompany regiments on the march. Subject to these restrictions, Her Majesty's Government consider that Rules 5, 6 and 7 of the Cantonment Rules† made in 1895, under Sections 26 and 27 of the Cantonment Act of 1889, should be made applicable not merely to "cholera, small-pox, diphtheria, or typhoid fever" as specified in the rules, but to all contagious and infectious diseases, including venereal disease. They consider it imperatively necessary that this disease should not be exempted from the measures adopted to prevent the spread of other contagious diseases. It may be argued that the examination of women which may, but need not necessarily, be held under these rules, is in effect compulsory. Her Majesty's Government do not share this view. But if there be any compulsion, it is precisely of the same kind as that which has been accepted as necessary and enforced without any objection in the case of diphtheria or typhoid fever. There

* Printed as a Parliamentary Paper, East India (Contagious Disease) No. 2 (1897).

† These Rules are printed on page of these papers as an Appendix.

will be no obligation on women to attend hospital, but as an alternative to doing so they will be required to leave the cantonment, and rightly so, as an almost certain cause of disease to others. Her Majesty's Government also approve of the suggestion made by the Army Sanitary Committee as to the employment of female hospital assistants under the direction of the medical officer in the examination and treatment of women.

12. There is, I find, a general concurrence of opinion that a large number of cases of venereal disease originate with the low class of women who frequent the vicinity of barracks after dusk, and are in the habit of soliciting soldiers. This is a point to which I am glad to learn your Government has directed its attention. Whatever may be possible should be done to diminish the number of women employed in various work about the soldiers' barracks.

13. I request that your Government will at an early date forward for my consideration a copy of the draft rules which you propose to issue in order to give effect to the decision of Her Majesty's Government. It is not clear to me that any legislation will be required to effect this object. Should, however, your Excellency's Government be of a different opinion, the necessary legislation should without delay be undertaken.

14. While sanctioning these measures, which will, it may be hoped, have the effect of mitigating this terrible scourge, Her Majesty's Government are of opinion that a valuable aid in checking disease will be found in renewed and extended efforts to improve the moral and physical condition of the British troops in India, and to enlarge, if possible, the means of their instruction, occupation, and recreation. I am aware that this subject has constantly engaged the attention of the Government of India and that, as pointed out by the Departmental Committee, much has been done in this direction both by Government and by societies, such as the Army Temperance Association and the Army Health Association. Any further measures which you may consider desirable and feasible will, I need hardly assure you, meet with the hearty approval and support of Her Majesty's Government. It will also, I think, be very desirable that all soldiers in India, especially the young soldiers and those newly arrived in the country, should be warned of the great virulence of disease in tropical climates, of the temptations to which they may be subject, and the consequences that may ensue from yielding to them. I understand that this is now very commonly done by regimental and medical officers, but it is desirable that the practice should be made universal, and that instructions, on this subject should be drawn up under the orders of His Excellency the Commander-in-Chief.

15. The suggestions of the Army Sanitary Committee for the medical inspection of soldiers who have been in hospital for these diseases, as also proposals which have been put forward for penal stoppages for admission to hospital on account of venereal disease and for punishment of men concealing the existence of disease, are deserving of serious consideration, and on this subject I should be glad to receive at an early date the views of your Government.

16. Lastly, I desire to invite the attention of your Government to the suggestion of the Army Sanitary Committee that some inquiry should be made into the causes which led to the large increase shown by the returns of 1895 to have taken place in the number of admissions into hospital from venereal disease at some stations, and to their decrease at others. These variations are very remarkable, not only at Cawnpore and Lucknow, the two stations mentioned by the Committee, but at many cantonments in all four Commands. In the opinion of the Committee these variations seem to suggest either that some influence was brought to bear upon the troops themselves, or that the contrast was due to differences affecting the native population in and around the cantonments. In their report, the Departmental Committee attribute these variations in some instances to bazars or cities in the neighbourhood of cantonments being temporarily placed out of bounds. The inquiry might with advantage be conducted by one or two specially selected officers, who by visiting consecutively various cantonments would be in a position to note any marked differences in their regulations or sanitary conditions which might account for the greater or less liability of the garrison to this disease, and to suggest the necessary remedial measures.

I have, etc.,

GEORGE HAMILTON,

APPENDIX.

CANTONMENT RULES OF 1895.

MILITARY DEPARTMENT, SIMLA, the 3rd May 1895.

Judicial.

No. 460.—In continuation of the notification of the Government of India in the Military Department, No. 309, dated the 22nd March 1895, and in supersession of the rules published in G. G. O. No. 617, dated the 4th July 1890, and of any rules hitherto issued which are inconsistent with the rules hereby published, the Governor General Council has been pleased to make the following rules, under Sections 26 and 27 of the Cantonments Act (XIII. of 1889), and to direct that they be put in force in all cantonments in British India:—

1. As many hospitals as may be necessary within or without the limits of the cantonment, as the cantonment authority, with the concurrence of the district magistrate, may determine, shall be maintained at the expense wholly, or in part, of the cantonment fund.
2. A medical officer, to be appointed in such manner as the Local Government may direct, shall be in charge of every such hospital.
3. A person admitted to such a hospital shall be treated gratuitously, and if such person is without means of support and is either a resident of the cantonment, or was admitted to the hospital on the request of the cantonment authority, or of any officer of that authority, shall receive from the cantonment fund such subsistence allowance, not less being than the lowest allowance for the time being fixed by the Local Government under Section 338 of the Code of Civil Procedure, as the cantonment authority may determine.
4. Every such hospital shall have attached to it one or more wards for the treatment of persons suffering from infectious or contagious disorders.
5. If the medical officer for the time being in charge of any such hospital is informed upon testimony, which he believes to be credible, that any person living in the cantonment is suffering from cholera, small-pox, diphtheria, or typhoid fever, he may by notice require such person to attend at the hospital at a time to be mentioned in such notice, and if, upon the attendance of such person in pursuance of such notice or otherwise, he shall ascertain that such person is in fact suffering from any of the above-mentioned disorders, he may require such person to remain in the hospital until he shall have been pronounced free from such disorder, or may give such other direction in the matter as may seem to him most expedient for the purpose of preventing the spread of such disorder.
6. If any person upon whom any such notice as is mentioned in the last preceding rule shall have been served, shall refuse or neglect to attend at the hospital in pursuance of such notice, he shall be deemed to be suffering from such disorder as aforesaid and to have refused to go to the hospital.
7. If the medical officer for the time being in charge of any such hospital certifies in writing to the commanding officer of the cantonment that any person living in the cantonment is or is deemed to be suffering from any of the disorders mentioned in rule 5, and that such person has refused or is deemed to have refused to go to the hospital, or that he, having gone to the hospital, has left it while still under the influence of such disorder, and that the continuance of such person in the cantonment is likely to be attended with danger to the health of the other inhabitants of the cantonment or some of them, the cantonment magistrate may, on the application of such medical officer, order such person to remove from the cantonment within twenty-four hours, and prohibit such person from remaining in or re-entering it without the written permission of such medical officer.
8. Save as aforesaid, no person shall be required to attend at or become a patient in any such hospital, nor shall any person under any circumstances be detained in any such hospital against his will, nor shall any person, except at his own request, be examined by such medical officer as aforesaid, or any other person acting under Government authority, with a view to ascertaining whether he is or is not suffering from any infectious or contagious disease.
9. If a person having been prohibited under rule 7 from remaining in or re-entering a cantonment remains in or re-enters the cantonment without such written permission as is mentioned in that rule, such person shall be punished with fine which may extend to fifty rupees, or with imprisonment for a term which may extend to eight days, for every breach of the said prohibition.
10. No person known to be a prostitute shall, under any circumstances, be permitted to reside within the limits of any regimental bazar.

E. H. H. COLLEN, *Major-General,*
Secretary to the Government of India.

CALCUTTA POST OFFICE NOTICE.

Mails for	Date of closing at Calcutta.	Route by which despatched.
1897.		
Aden, Egypt, Europe, America, Zanzibar, Mozambique, Delagoa Bay, Mauritius, Madagascar, Réunion, etc., Natal, and Cape Colony, and in general all countries served through the United Kingdom.	18th May	Per P. & O. Str. from Bombay.
Parcels for the United Kingdom and other Foreign places.	17th "	Ditto.
Australasian Colonies	15th "	Via Tuticorin and Colombo.
Ditto ditto	22nd "	Ditto.
Straits Settlements, China, and Japan.	21st "	Per Steamer <i>Suisang</i> .
Rangoon and Moulmein	20th "	Per B. I. S. N. Co.'s Steamer.
Rangoon, Moulmein, Tavoy, and Mergui.	17th "	Ditto.
Rangoon, Moulmein, Penang, and Singapore.	15th "	Ditto.
Ditto ditto ditto	22nd "	Ditto.
Akyab, Kyaukpadaung, Sandoway, and Rangoon	19th "	Ditto.
Mauritius, Réunion, Mayotte, Nossi Be, Delagoa Bay, Natal, and Cape Colony.	21st "	Via Tuticorin and Colombo.

*Although the date entered in column 2 is, as far as can be calculated, the latest safe date of posting for the next Mail steamer, full allowance being made for the steamer being in advance of her published timing, Mails for the places mentioned in column 1 are despatched daily to Colombo, so that they may proceed by any steamer that has been unusually accelerated or retarded, or by any special opportunity that may be afforded by a steamer not belonging to one of the regular lines.

The letter-box for Inland articles (including articles for Burma and Port Blair and for Ceylon by land route) will be cleared for the last time for articles without the late fee at 7-30 P.M. precisely, after which hour inland letters and papers fully prepaid and bearing an extra postage stamp of half anna will be received up to 8 P.M. and up to 8-45 P.M. with a late letter fee of 1 anna for the Chord Mail only.

On the day of despatch of the Mail for the Australasian Colonies via Tuticorin, the letter-box for Foreign articles will be cleared for the last time for articles without the late fee at 8-30 P.M., and late letters and papers fully prepaid will be received up to 9 P.M.

On the day of despatch of the Mail for Europe, the letter-box for Foreign articles will be cleared for the last time for articles without the late fee at 9 P.M., and late letters and papers fully prepaid will be received up to 9-30 P.M. On other days the letter-box for Foreign articles will be cleared for the last time for articles without the late fee at 7-30 P.M., and late letters and papers will be received up to 9 P.M. for despatch by any Foreign Mails despatched the same night. The late fee for Foreign articles is 4 annas, which must be prepaid in stamps affixed to the articles.

JOHN OWENS,

Presidency Postmaster, Calcutta.

POSTAL NOTICE.

Quarantine restrictions on parcels addressed to France having been removed, parcels may now again be accepted for that country under the usual conditions.

A. U. FANSHAW,

Director-General of the Post Office of India.
CALCUTTA;

The 7th May, 1897.

This medicine is also sold by the principal European and Native druggists in Calcutta. Postage, four annas per four-ounce tin, eight annas per eight-ounce tin, and twelve annas per pound tin, in addition to the foregoing rates.

سکونا فبري فيوج یعنی تپ بھگانے
والہ سکونا *

سکونا فبري فيوج کلکتہ کے ہوائیکل گارڈن سے
کمپنی باغ کے سپرنٹنڈنٹ صاحب سے ہر ایک ملازم
سرکاری اور ایک مشق چھ پونڈ تک لینے والا ہر آدمی
حسب نرخ ذیل خرید کر سکتا ہے — یعنی چار اونس
والا تین بقیمت در روپیہ آٹھ آنہ؛ آٹھ اونس والا
تین بقیمت پانچ روپیہ؛ ایک پونڈ والا تین بقیمت
دس روپیہ *

عام آدمیوں کو یہ دوا ہوائیکل گارڈن سے کمپنی
باغ کے سپرنٹنڈنٹ صاحب سے بقیمت نقد حسب نرخ
ذیل مل سکتی ہے — یعنی چار اونس والا تین بقیمت
تین روپیہ؛ آٹھ اونس والا تین بقیمت چھ روپیہ؛
ایک پونڈ والا تین بقیمت بارہ روپیہ *

یہ دوا کلکتہ کے بڑے بڑے دوائی اور دیسی
ہراخانوں میں بھی بکتی ہے — ماسوائے قیمت
مذکورہ بالا کے محض ذاب چار اونس والے تین
چار آنہ؛ آٹھ اونس والے تین کا آٹھ آنہ؛ اور ایک
پونڈ والے تین کا بارہ آنہ *

PURE SULPHATE OF QUININE.

*Manufactured at the Bengal Government
Cinchona Plantation.*

From 1st April, 1897, the price of this Quinine will be as follows:—

1-pound tin,	Rs 15, or, post free,	Rs 15-12.
$\frac{1}{2}$ "	Rs 7-8,	" Rs 8.
$\frac{1}{4}$ "	Rs 3-12,	" Rs 4.

Analysis shows this Quinine to be of the purest manufacture; and it is guaranteed to be free from wilful mixture with the inferior alkaloids, Cinchonine and Cinchonidine. It is for sale only to Government officers, and only for cash, and may be had from the Superintendent, Botanic Garden, Seebore, near Calcutta.

বঙ্গদেশের সর্বমোটের সিন্ধুকোনা আবাদে প্রস্তুত বিশুদ্ধ কুইনাইন।

১৮৯৭ সালের ১লা এপ্রেল হইতে এই কুইনাইনের সরলিখিত দ্বারা
হইবে, যথা—

১ এক পোত টন . ১৫, বা ডাকমাস্তুল বিনা ১৫৬

১ আধ " " ৭৫ " ৮

১ শিকি " " ৩৭৫ " ৪১০

পরীক্ষা করিয়া দেখা গিয়াছে যে এই কুইনাইন অতি বিশুদ্ধ রূপে
প্রস্তুত করা হইয়াছে। এবং ইহা যে সিন্ধুকোনাইন ও সিন্ধুকোনা-
জটিল নারক অণুভুক্ত করার সহিত ইচ্ছা পূরক বিশাল হর নাই
তাহার গারান্টি দেওয়া হইতেছে। ইহা নগদ যোগে কেবল সর্বমোট
কমজারিগণের নিকট বিক্রয় করা যাইবে, এবং কলিকাতার নিকট
শিবপুরে কোম্পানির বাগানের রপারিটেমেন্টের নিকট পাওয়া
যাইতে পারিবে।

Catalogue of Books procurable from Thomason College Book Depot, Roorkee.

Application to be made to Curator.

Principal, Thomason College, Roorkee.

THE INDIAN LAW REPORTS.

PUBLISHED UNDER AUTHORITY.

The Indian Law Reports, published under the authority of the Governor-General in Council, appear in monthly parts, published as soon as possible after the first of each month, at Calcutta, Madras, Bombay, and Allahabad, and comprise four series,—one for the Calcutta High Court, a second for the Madras High Court, a third for the Bombay High Court, and a fourth for the Allahabad High Court. The cases heard by the Privy Council on appeal from each High Court are reported in the series for that High Court. Cases heard by the Privy Council on appeal from Provinces in India not subject to any High Court are reported in the Calcutta Series.

The Calcutta Series is distributed by the Bengal Secretariat Book Depot, and the Madras, Bombay, and Allahabad series are distributed direct from Madras, Bombay, and Allahabad, respectively.

In supersession of the previous advertisements, on and from the 1st January, 1889, the terms of subscription and sale will be as follows for current issues, as well as for back numbers of the Reports from 1870:—

Terms of subscription payable annually in advance.

the complete series, including postage. R12-8

	Without postage.	With postage.
	R a. p.	R a. p.

the Calcutta Series 10 0 0 12 8 0

„ each of the Madras, Bombay, and Allahabad Series 0 0 0 7 0 0

„ a part of the Calcutta Series purchased separately, *inclusive of postage in India* 2 0 0

„ a part of each of the Madras, Bombay, and Allahabad Series purchased separately, *inclusive of postage in India* 1 0 0

The following is the rate at which deductions will be made for parts out of print and at which duplicate copies will be supplied to subscribers when required in place of copies lost in transit:—

	For town.	For mofussil.
	R a. p.	R a. p.

For the Calcutta Series; per copy 0 8 9 0 10 3

„ each of the Madras, Bombay, and Allahabad Series; per copy 0 5 3 0 5 9

„ the Calcutta Series. For the year 7 2 0 8 6 3

„ each of the Madras, Bombay, and Allahabad Series. For the year 4 4 6 4 11 3

Persons desiring to subscribe for, or purchase, the Report should apply to—

Superintendent, Government Press, Madras.

The Superintendent, Government Central Press, Bombay.

The Curator of Government Books, North-Western Provinces and Oudh.

The Officer in charge, Bengal Secretariat Book Depot.

Orders and subscriptions for 1894 should be at once registered and remitted by money-order payable to the Accountant and Treasurer, Bengal Secretariat, Calcutta.

Advertisements will be received for publication on the wrappers of the Indian Law Reports, Calcutta Series, at the following rates, payable in advance :—

Bengal Secretariat Book Depôt, Writers' Buildings, Calcutta.
Remittances to be forwarded to the Accountant and Treasurer,
Bengal Secretariat, Writers' Buildings, Calcutta.

All the wanting parts of the INDIAN LAW REPORTS (complete series) having now been reprinted, the complete Reports from 1876 to 1893 may be purchased for all the years, or for any particular year, on application to the Officer in charge of the Bengal Secretariat Book Depôt.

The subscription, Rs 2-8 per annum, should be remitted in advance to the Accountant and Treasurer, Bengal Secretariat.

NOTICE.

It is hereby notified, for general information, that subscription to the complete series of the Indian Law Reports should be registered during the first three months of each calendar year. Subscribers are therefore requested to send in their subscriptions of the complete series before the 31st March in each year. Those who register their names after that date will understand that copies will be supplied only if available.

PART III.

Advertisements and Notices by Private Individuals and Corporations.

PROMISSORY NOTES.

Lost.

The Government Promissory Note, No. 046613, of the $3\frac{1}{2}$ per cent. of 1865, for ₹1,000, originally standing in the name of Shadoo Churn Roy, the proprietor, by whom it was never endorsed to any other person. Payment of the above note and the interest thereupon have been stopped at the Public Debt Office, Bank of Bengal, and application is about to be made for the issue of duplicate in favour of the proprietor.

SHADOO CHURN ROY,

Kalighat, Taligunge Road, No. 154.

Lost or Stolen.

The upper halves of the Government Promissory Notes, Nos. B 008605, of the 4 per cent. Loan of 1842-43, for ₹500, and $\frac{B\ 563}{B\ 015080}$ of the $3\frac{1}{2}$ per cent. Loan of 1865, for ₹500, both originally standing in the name of the Bank of Bombay, and last endorsed to Robert Christian Smidt, the proprietor, by whom they were never endorsed to any other person. Payment of the above notes and the interest thereupon have been stopped at the Public Debt Office, Bank of Bengal, and the Public Debt Office, Bank

of Bombay, and application is to be made for accrued interest, and for the issue of duplicates in favour of the proprietor after six months from the date of last advertisement.

P. MCGUIRE,

Administrator,

*Estate Robert Christian Smidt, deceased,
8, Old Post Office Street, Calcutta.*

The 30th April, 1897.

NOTICE.

Notice is hereby given that, as I have sold my zemindari, etc., in the District of Purnea, to Babu Dharam Chand Lal, I, subject to the provision of the deed of debenture loan raised through Messrs. Andrew Yule & Co., Calcutta, cancelled the general power-of-attorney executed by me in favour of Mr. J. G. La Reverree and Mr. S. M. La Reverree, Managers, and as for myself, I have discharged them, and that I shall not be bound by, or be any way responsible for, the acts, if any, done by them since the 9th April, 1897, the date of the above sale.

DELAWAR REZA,

Surjapur Estate, Kisingungo.

The 17th April 1897.

SUPPLEMENT TO

The Gazette of India.

No. 20.]

CALCUTTA, SATURDAY, MAY 15, 1897.

OFFICIAL PAPERS.

A SUPPLEMENT to the GAZETTE OF INDIA will be published from time to time, containing such Official Papers and information as the Government of India may deem to be of interest to the Public, and such as may usefully be made known. The Debates of the Legislative Council of His Excellency the Governor General will in future be published in PART VI of the GAZETTE.

Non-Subscribers to the GAZETTE may receive the SUPPLEMENT separately on a payment of five Rupees per annum if delivered in Calcutta, or eight Rupees if sent by Post. The SUPPLEMENT and PART VI of the GAZETTE can also be subscribed for separately on a payment of Rupees six per annum if delivered in Calcutta or Rupees nine if sent by Post.

No Official Orders or Notifications, the Publication of which in the GAZETTE OF INDIA is required by Law, or which it has been customary to publish in the CALCUTTA GAZETTE, will be included in the SUPPLEMENT. For such Orders and Notifications the body of the GAZETTE must be looked to.

J. E. O'CONOR,

Director-General of Statistics.

T. W. HOLDERNESS,

Deputy Secretary to the Government of India.

relief works—Meiktila 2,909, Myingyan 9,013. On gratuitous relief—Meiktila 537, Myingyan 2,709, Yamethin 370. Total number on relief 15,538. Price of rice—Meiktila 5 seers 12 chittacks and Myingyan 10 seers 4 chittacks per rupee.

Assam.—*For week ending 11th May.*—Weather seasonable. Rain has done good to tea and early rice. Ploughing for late rice and planting of sugarcane in progress. Prices—common rice—Silchar, Sylhet, and Gauhati 8, Tezpur and Sibsagar 9 seers per rupee.

Mysore and Coorg.—*For week ending 10th May.*—MYSORE.—Slight rain in parts. Prices have risen in Kolar and Shimoga; fallen in Tumkur, Hassan, and Kadur. Paddy harvested in parts of Chitaldrug District.

COORG.—Rainfall 6 cents. Prices remain normal. Water and fodder for cattle are sufficient.

Berar and Hyderabad.—*For week ending 10th May.*—BERAR.—Weather hot. Breaking up of land for next monsoon crop continues. Fodder and water-supply are inadequate to wants. No material change in price of food-grains. Persons employed on relief works—Akola 9,241, Amraoti 4,700, Basim 3,312, Buldana 2,706, Ellichpur 1,975, and Wun 622. Persons afforded gratuitous relief—Akola 684, Amraoti 1,422, and Basim 1,254. Occupants of poor-houses—Akola 386. Total number on relief 26,302. Prices—*jowar*—Akola 10, Amraoti 11, Basim 11, Buldana 10, Ellichpur 8, and Wun 12 seers per rupee.

HYDERABAD.—Rain during week 2½ cents. Harvesting of hot weather rice crop continues in certain districts. Fodder, pasture, and water are scarce. Aggregate number of persons employed on relief works in Bir, Gulburga Raichur, Lingsagar, and Naldrug 17,954. Prices in affected districts—8½ seers in Bir, 9¼ in Raichur and Lingsagar, 9¼ in Gulburga, and 10 in Naldrug. 234 persons on gratuitous relief in Shorapur and 400 children in Bir. Total number on relief 18,588. Prices—wheat 6½, coarse rice 7¼, and *jowari* 12¼ seers per current sicca rupee.

Central India.—*For week ending 10th May.*—No rain fell in Central India during week. Agricultural operations completed in Gwalior and Bhopal. Spring crops being harvested in Bundelkhand; operations in other agencies completed. Crops are in good condition on irrigated land and below average on unirrigated land in Bundelkhand; elsewhere all crops harvested. Probable outturn on the whole will be below average in most agencies. Agricultural stock is in fairly good condition in all agencies, except in most parts of Gwalior. Pasturage is fair in Bhopal; good in Baghelkhand and Bhopawar; and indifferent in Bundelkhand and most parts of Gwalior. Prices are above normal in Bhopawar; steady elsewhere. Persons employed on famine relief works—in Gwalior 28,449, Bundelkhand 47,514 in six States and seven Jagirs; and Baghelkhand 60,371. On gratuitous relief—12,154 in Gwalior, 7,994 in Bundelkhand as above, and 3,664 in Baghelkhand. Total number on relief 160,146. Prices are—10 to 10½ in Gwalior, 9½ to 11½ in Bundelkhand, and 9¾ seers per rupee in Baghelkhand. Report from Malwa not received.

Rajputana.—*For week ending 12th May.*—Rainfall few cents in Bikanir. Agricultural operations in progress in Meywar; over in Karauli and Jaisulmere; satisfactory in Jhallawar, Ajmere, and Jeypore. Crop-cutting completed in Marwar and Bikanir. Harvesting continues in Jeypore and Ulwar. Harvest good in Sirohi, Marwar, Jhallawar, and Jeypore; average in Kotah and Ajmere; below average in Haraoti. Agricultural stock fair in Kherwara, Meywar, Dholepore, Bikanir, and Jaisulmere; lean in Bhurtpore; good elsewhere. Pasturage or fodder scarce in some tehsils of Jeypore; failing in Dholepore and Bhurtpore; and sufficient elsewhere. Prices are high in Haraoti; rising in Meywar, Kotah, Kishengurh, and Bikanir; falling in Jhallawar; fluctuating in Pertabgurh; steady elsewhere. Number of persons on relief works was—Marwar 1,590, Dholepore 1,511 and on ordinary work 2,652, Bikanir 7,969, Jaisulmere 912. Gratuitous relief—Marwar 1,222, Tonk 1,025, Chabra 70, Deoli 8, Bhurtpore 356, Bikanir 3,537, and Jaisulmere 155. Total number on relief 23,095. Prices—Marwar 9¼, Tonk 11½,

Deoli $13\frac{3}{8}$, Dholepore $11\frac{1}{10}$, Bhurtpore $13\frac{5}{10}$, Bikanir $9\frac{1}{10}$ and $8\frac{1}{4}$, and Jaisalmere $9\frac{2}{8}$ seers per rupee.

Kashmir.—*For week ending 11th May.*—Rain has constantly fallen. Standing spring crops are generally in good condition. Weather now fine. Prices are normal. Price—22 seers per rupee.

JAMMU PROVINCE.—*For week ending 11th May.*—No rain. Prices falling. Fodder scanty. Price— $10\frac{1}{2}$ seers per rupee.

Nepal.—*For week ending 8th May.*—Over three inches of rain fell during the week, and weather is still stormy and unsettled. Sowing of early rice and indian-corn in progress. Price— $8\frac{1}{4}$ seers per rupee.

The total numbers in receipt of relief during the preceding and present weeks are as follows:

(a) Although for convenience classed amongst state railways, this line is the property of the Bengal Central Railway Company. The working of this line has been taken over by the Company from the 1st January 1897.

(b) Includes the Bhopal-Jirasi railway.

(c) Total earnings from the 22nd February to 2nd May 1896.

(d) Includes the Godhra Rutlam-Nagda railway.

(e) Includes the Guntakal-Mysore frontier section.

(f) Includes the Tirhut state railway. Although for convenience classed amongst state railways, the company's section of this line is the property of the Bengal and North-Western Railway Company.

(g) Transferred for working to the Burma Railways Company with effect from the 1st September 1896.

(h) Includes the Jammu and Kashmir and the Hyderabad-Shadipalli railways.

(i) Includes the Wardha Coal, the Dhond-Manmad, the Khámgaon, and the Amritoli railways.

(j) Includes the Mysore-Nanjangud and the Yesvantpur-Mysore frontier sections.

(k) Total earnings from 8th April to 1st May 1897.

(l) This line is being worked by the Bombay, Baroda and Central India Railway Company as a temporary measure.

W. L. DALLAS,

Asst. Meteorological Reporter to the
Government of India.

DENZIL IBBETSON,

Secretary to the Government of India.

B

SIMLA, 14th May, 1897.

GOVERNMENT OF INDIA.

DEPARTMENT OF REVENUE AND AGRICULTURE.

Weekly Report on the state of the Season and Prospects of the Crops.

Madras.—*For week ending 8th May.*—Rainfall generally above average; no rain in Bellary, South Canara, and Travancore. Water-supply for drinking purposes insufficient in parts of affected areas; elsewhere generally sufficient, but failing in parts; for irrigation generally insufficient. Agricultural operations are progressing in parts to a limited extent, but are practically over in the Deccan. Standing crops fair to good, but are withering in parts. The harvest is generally middling. Pasture *nil* in the Deccan, generally sufficient in Ganjam, Vizagapatam, and the extreme south; elsewhere it is growing scarce. Fodder is insufficient in the Deccan; available elsewhere, but growing scarce. Cattle deteriorating in the Deccan; condition elsewhere generally good. Prices tend to rise slightly. The numbers on relief are:—relief workers—58,014 men, 111,309 women, 45,647 children; total 214,970 in the Deccan and the Circars. Test-workers—1,073 men, 1,828 women, 965 children, 77 unspecified; total 3,943 in Vizagapatam and Ganjam. Weavers—9,310 men, 7,420 women, 437 children; total 17,167 relieved at their own trade in the Deccan and the Circars. Total relief workers—236,080. Kitchen inmates in the Deccan and Circars: (dependants)—300 men, 515 women, 10,533 children; total 11,348; (others)—689 men, 1,269 women, 2,975 children; total 4,933. Otherwise gratuitously relieved—2,427 men, 4,812 women, 5,792 children; total 13,031. Total on gratuitous relief 29,312. Grand total on Government relief 265,392. Prices by which wages are regulated are:—Ganjam and Bellary 12, Kurnool 12½, Cuddapah 13, Anantapur 14, Vizagapatam 14½ seers per rupee. Loans disbursed since commencement of distress Rs. 3,87,771.

Bombay.—*For week ending 10th May.*—Rain in three talukas of Dharwar. Harvesting of late crops is nearly completed, except in Sind, Khandesh, and Nasik. Preparations for next season have commenced in parts of nineteen districts. Fodder is sufficient, except in the Deccan, Shikarpur, Belgaum, and in parts of Karachi and Baroda. Condition of agricultural stock is deteriorating in Poona, Ahmednagar, Sholapur, Bijapur, and Belgaum; healthy elsewhere, except in parts of Shikarpur, Hyderabad, Thar and Parkar, Khandesh, Ratnagiri, and Kanara. Prices are rising in Belgaum and in parts of Surat, Kolaba, Poona, Sholapur, and Bijapur; falling in parts of Surat, Kolaba, Poona and Bijapur; stationary in Khandesh and parts of Surat, Poona, and Bijapur. Prices in affected districts are:—Belgaum 10½, Bijapur 10½, Sholapur 10½, Ahmednagar 9½, Poona 9½, Nasik 9½, Satara 9½, Khandesh 9, and Dharwar 12 seers per rupee. The average daily numbers on relief works, including dependants, were:—Bijapur 62,640, Sholapur 121,137, Ahmednagar 60,644, Poona 23,596, Nasik 26,411, Satara 17,099, Khandesh 24,573, Belgaum 13,086. On test works:—Belgaum 441, Dharwar 205, Ratnagiri 156; total 355,988, of whom 281,121 are workers and 74,867 dependants. On gratuitous relief:—Bijapur 9,333, including 124 in poor-houses, Sholapur 9,009, including 63 in poor-houses, Ahmednagar 3,512, including 281 in poor-houses, Poona 5,659, Nasik 194, Satara 141, Belgaum 568, Dharwar 799; total 29,215. Total numbers on relief 385,203. Details of men, women, and children not available.

Bengal.—*For week ending 10th May.*—There was good general rain over the whole of Bengal Proper and slight local showers are reported from Bihar, Orissa, and Chota Nagpur. The present agricultural prospects are generally favourable. Ploughing and sowing are everywhere in full swing. Early rice and jute are for the most part sown and are coming up well. Sugarcane, indigo and other standing crops are promising. The harvesting of spring rice is still proceeding. The rain has improved the water-supply to some extent, but want of good drinking water is still felt in parts. The price of rice is reported to have risen in several districts. In the distressed districts the prices of the staple food-grain on

which the famine wage is based are :—Nadia, common rice $7\frac{1}{2}$ seers ; Murshidabad, common rice $8\frac{1}{2}$ seers ; Khulna, common rice 9 seers ; Rajshahi, rice 8 seers ; Patna, rice 7 to 9 seers ; Pubna, rice $9\frac{1}{2}$ seers ; Shahabad, rice at Bhabua 8 seers ; Saran, barley 12 to 13 seers ; Champaran, rice $8\frac{1}{2}$ seers and maize $9\frac{1}{4}$ seers ; Muzaffarpur, barley 12 seers and *rahar* 13 seers ; Darbhanga, rice $7\frac{1}{2}$ seers and *makai* 9 seers ; Bhagalpur, common rice 8 seers and *marua* $12\frac{1}{2}$ and 13 seers ; Sonthal Parganas, rice at Jamtara 8 seers ; Puri, common rice 10 to 12 seers ; Hazaribagh, rice 6 to $8\frac{1}{2}$ seers ; Palamau, rice 5 to 8 seers ; and Manbhum, common rice 8 seers per rupee. The numbers on relief on Saturday, the 8th May, were :—Nadia 41,092, Murshidabad 5,182, Khulna 11,247, Rajshahi 655, Patna 442, Pubna 126, Shahabad 31,107, Saran 76,845, Champaran 148,996, Muzaffarpur 114,876, Darbhanga 233,790, Bhagalpur 25,624, Sonthal Parganas 2,643, Puri 3,963, Hazaribagh 4,547, Palamau 5,077, Manbhum 10,424 ; total 716,136 against 678,215 in the preceding week. This total is distributed as follows :—relief workers—men 165,775, women 142,642, children 57,247 ; total 365,664. Dependants—men 1,382, women 660, children 31,512 ; total 33,554. Relieved in poor-houses—men 974, women 584, children 543 ; total 2,101. Otherwise relieved—men 53,870, women 158,111, children 93,571 ; total 305,552. Test workers—men 5,812, women 2,342, children 1,111 ; total 9,265. Private relief : relief workers, Darbhanga Raj—men 11,507, women 6,056, children 1,554 ; total 19,117. Hatwa—men 1,416, women 2,190, children 1,545 ; total 5,151. Sonthal Parganas—men 605, women 912, children 40 ; total 1,559. Giridih—men 175, women 120, children 60 ; total 355. Gratuitous relief—Darbhanga Raj—men 2,380, women 6,710, children 6,311 ; total 15,401. Hatwa—men 120, women 159, children 1,165 ; total 1,444. Manjha—men 149, women 31, children 15 ; total 195. Koildwa—men 36, women 104, children 14 ; total 154. Total on private relief 43,374.

North-Western Provinces and Oudh.—*For week ending 12th May.*—Light showers fell in a few districts during the week. The harvesting of the spring crops is practically completed. Threshing and winnowing continue. Opium weighments are in progress. Irrigation of cane and extra crops being carried on. The numbers in receipt of relief on Saturday, the 8th May, in eighteen districts officially recognised as distressed were as follows :—Agra 24,189, Etawah 4,639, Cawnpore 11,606, Fatehpur 13,515, Banda 226,251, Hamirpur 110,256, Allahabad 296,462, Jhansi 72,829, Jalaon 106,690, Mirzapur 48,016, Family domains, Maharajah, Benares, 10,760, Jaunpur 35,513, Gorakhpur 28,724, Azamgarh 12,354, Lucknow 57,791, Unao 31,885, Raebareli 35,342, Sitapur 4,407, Hardoi 135,059 ; total 1,266,288. This total is distributed as follows among the various methods of relief prescribed by the Famine Code which are in operation :—employed on relief works 807,449 ; relieved as dependants 155,702 ; relieved in poor-houses 21,553 ; relieved under other provisions of the Code including 25,742 from the Charitable Relief Fund 281,584. The numbers relieved in nineteen districts which are under observation and not officially recognised as distressed were on the same date as follows :—relieved on test works 10,288 ; relieved in poor-houses 4,400 ; relieved under other provisions of the Code, including 9,926 from the Charitable Relief Fund, 34,854 ; total 49,272. The grand total in receipt of relief on the last day of the week was therefore 1,315,560. Supplies are generally sufficient. Fodder is somewhat scarce in a few places. Prices are fluctuating. The price of the staple grain on which the famine wage is based varied from $9\frac{3}{4}$ to $12\frac{3}{4}$ in the districts officially recognised as distressed.

Punjab.—*For week ending 10th May.*—Rain averaging about $\frac{1}{2}$ of an inch has fallen in Ferozepore, $\frac{1}{8}$ in Amritsar and from $\frac{1}{8}$ to $\frac{3}{4}$ in the Rawalpindi Division ; also $\frac{1}{2}$ inch at Sirsa, $\frac{1}{3}$ at Lahore, and $1\frac{1}{2}$ at Peshawar. Slight drizzling has also occurred in Jullundur and in parts of Sialkot and Shahpur. Harvesting and threshing and storing of spring crops going on. Sowings of sugarcane, cotton, indigo, and great millet are in progress in some districts. Ploughings for other autumn crops have commenced. The spring crops have generally been reaped and are being threshed and garnered. Outturn is said to be good on canal land, average on well, and below average or poor on unirrigated and late sown lands. Condition of extra spring crops is good. Grain is still being imported in large quantities into Hissar. Sugarcane has been damaged from want of rain in Umballa. Hail fell in Peshawar and Dera Ismail Khan

accompanied with high winds in the latter and damaged the matured crops to some extent. High winds blew in Sialkot and locusts appeared in two tahsils of Dera Ismail Khan, but caused no damage. Cattle are still in poor condition for want of sufficient fodder, but wheat and barley straw is now available almost everywhere. Fodder is still scarce; green grass is sprouting in Shahpur owing to recent rains. The average number of relief workers, dependants, etc., was as follows:—relief workers—24,310 men, 23,781 women, 11,588 children. Dependants—322 men, 366 women, 14,490 children. Relieved in poor-houses—638 men, 931 women, 677 children. Otherwise relieved—3,199 men, 5,121 women, 5,299 children. Test workers—57 men, 30 women, 19 children. The total number of workers, etc., in the Punjab was 90,828 against 87,971 last week. The increase is mainly in Karnal where labourers have attended the works again as the harvest operations are nearly over. Relief works have been closed in Lahore and test works in Ludhiana. Prices are generally still high; they are slightly rising again in Rohtak, Shahpur, and Dera Ismail Khan; the figures are unchanged in Hissar, Karnal, Amritsar, Sialkot, and Gujranwala. In other districts they show a general tendency to fall owing to new crops coming into the market; owing to the demand for seed, prices of autumn grains are still high. Wheat is selling from $9\frac{1}{4}$ to $13\frac{1}{4}$, gram $10\frac{1}{2}$ to 13, great millet 9 to $10\frac{1}{2}$, barley 14 to 15, maize 7 to 13, rice 6 to 7, and bulrush millet 8 to 10 seers per rupee. Prices of staple food-grains on which the famine wage is reckoned are:—Rohtak, gram 10 and barley 14; Delhi, wheat 11; Umballa, maize 11; Ludhiana, wheat $11\frac{1}{2}$; Ferozepore, barley and gram 11; Lahore, indian-corn $10\frac{1}{2}$; and Gujrat, wheat flour $11\frac{1}{2}$ seers per rupee.

Central Provinces.—*For week ending 10th May.*—Weather very hot and more settled. Sky generally clear with occasional clouds in some districts. No rain during the week. Threshing and winnowing of spring crops are almost completed. Ploughing and manuring of land for autumn sowing continue. Fodder and water-supply growing scarce in parts of eight districts. Some damage has been caused to sugarcane from insects in Betul and to garden cultivation from hail in Wardha. Prices fluctuate slightly with a tendency to rise further in Wardha and Chhattisgarh; the price of gram is somewhat easier in Damoh and Betul. The numbers on relief works have increased by 23,000; the increase occurring mainly in Narsinghpur, Hoshangabad, Betul, Wardha, Raipur, and Bhandara districts. The total number on gratuitous relief has risen by 14,000. The number employed on private works has advanced by 15,000, the increase taking place chiefly in Raipur and Chanda. Numbers on relief works are—Saugor 30,283, Damoh 29,253, Jubbulpore 64,228, Mandla 22,471, Seoni 11,533, Narsinghpur 22,690, Hoshangabad 53,642, Nimar 124, Betul 10,773, Chhindwara 11,421, Wardha 6,152, Nagpur 6,722, Chanda 544, Bhandara 17,829, Balaghat 36,601, Raipur 71,187, Bilaspur 26,301, Sambalpur 2,192; total 423,946. Numbers on gratuitous relief—Saugor 17,010, Damoh 14,656, Jubbulpore 32,393, Mandla 7,669, Seoni 2,129, Narsinghpur 6,192, Hoshangabad 9,314, Nimar 531, Betul 3,559, Chhindwara 3,976, Wardha 728, Nagpur 3,111, Bhandara 4,515, Balaghat 16,479, Raipur 22,430, Bilaspur 20,994, Sambalpur 472; total 167,158. Total numbers on relief 591,104. There were also 190,576 persons employed on railway and other private works. Details of relief workers—men 134,591, women 181,742, and children 106,913. Dependants—men 3,110, women 4,600, and children 6,607 with 1,288 unclassified. Poor-houses—men 5,862, women 6,071, and children 9,129. Otherwise relieved—men 9,372, women 17,672, and children 17,517 with 23,311 unclassified. Wage prices—Chanda 11, Jubbulpore $10\frac{1}{4}$, Damoh, Narsinghpur, Nagpur, Bilaspur, and Sambalpur 10, Seoni, Wardha, and Raipur $9\frac{1}{2}$, Hoshangabad $9\frac{1}{4}$, Nimar, Betul, and Chhindwara 9, Saugor $8\frac{3}{4}$, Bhandara $8\frac{1}{2}$, Mandla $8\frac{1}{4}$, and Balaghat $7\frac{1}{2}$ seers per rupee.

Burma.—*For week ending 8th May.*—In Upper Burma several districts have received small amounts of rain during the week. Ploughing for early wet weather crops has commenced in the Ruby Mines, Sagaing, Magwe, Meiktila, Yamethin, and Myingyan districts. More rain is still required for dry weather paddy in Mandalay and Minbu. The price of paddy has risen considerably in Pegu, Prome, Bassein, and Thaton, and slightly in Thongwa, Henzada, Myaungmya, and Amherst, and fallen slightly in Mandalay; elsewhere stationary. Numbers on

GOVERNMENT OF INDIA.

DEPARTMENT OF REVENUE AND AGRICULTURE.

**Weather Review of India for the Week ending at 8 a.m. on
Saturday, May 8th, 1897.**

Perhaps the most important feature in the weather of the week under review has been the advance of what was apparently a slight rush of monsoon winds along the Tenasserim Coast. This advance commenced on Wednesday, the 5th, and continued till the close of the week, during which period heavy rain fell accompanied with a great reduction of temperature. In addition to the above, thunderstorms and duststorms gave showers to the North Punjab and the Kashmir Himalayas between the 4th and 7th, due to a shallow barometric depression, which gradually developed over North-West India. Thunderstorms in several cases, accompanied with heavyish rain, occurred over Bengal throughout the week, and numerous showers were reported from the south of the Peninsula at the commencement of the week. In other parts of the country fine hot weather prevailed, and the weather generally, except perhaps for the showers in the North Punjab, was about the average of the time of year. The heat was somewhat greater than usual—more particularly in the north-west and centre.

Daily Summary.—*Sunday, May 2nd.*—Pressure had decreased briskly over Upper Burma and increased briskly over the North Gangetic Plain, but elsewhere the changes were slight. Pressure was lowest in the north-west, and the principal abnormal feature in the weather was the easterly and south-easterly wind up the Gangetic Plain. The mean temperature was high over North-Western and Western India and also in Lower Burma, but was largely below the normal elsewhere. Over West Bengal and the east of the Central Provinces the abnormal deficiency was between 10° and 14° . Light to moderate showers had been received in the north-east, the largest rainfall being 2.00 inches at False Point. Moderate to heavyish showers had been received over the south of the Peninsula, and one or two light showers in the Central Provinces; Calicut, Mysore, Salem and Trichinopoly each received over one inch of rain.

Monday, May 3rd.—The barometer had fallen almost everywhere. The decrease had been brisk in the north-west, and the low pressure area noticed there on the 2nd had developed. An abnormal easterly and south-easterly current still blew up the Gangetic Plain and into the Punjab. The areas of high temperature noticed in the east and west of the country had increased both in intensity and extent, while the central area of relative coolness had proportionately decreased. The following were the principal variations from the normal:—Mooltan $+9^{\circ}.0$, Hazaribagh $-11^{\circ}.6$, Kindat $+7^{\circ}.8$. A few scattered rain showers had fallen over Bengal, Burma, the Central Provinces and the south of the Peninsula. At Cochin and Hazaribagh the amounts exceeded one inch.

Tuesday, May 4th.*—Pressure had again decreased generally. The depression in the north-west held steadily as also did the easterly and south-easterly current of air up the Gangetic Plain into the Punjab. The area of deficient temperature over the central portions of the Indian region still held, but

was smaller and less intense than on the 3rd. The following variations illustrate the distribution of temperature relatively to the average :—Mooltan $+12^{\circ}1$, Cuttack $-8^{\circ}0$ and Bhamo $+5^{\circ}1$. Temperature had fallen and was below the normal in Lower Burma. Rain had been fairly general over Burma, while scattered local showers had fallen over Bengal, the North Punjab and the Kashmir Himalayas.

Wednesday, May 5th.—A further general fall of the barometer had occurred. The shallow depression in the north-west was still well marked, and an arm of relatively low pressure extended from the Punjab down the Gangetic Plain. Gradients were steep, and the westerly and north-westerly winds which prevailed over Western and Central India were strong. The east and south-east current up the Gangetic Plain still held. Temperature had fallen and was very low over Burma, but was excessive over nearly the whole of India. The principal variations were $+10^{\circ}0$ at Mooltan and $-12^{\circ}6$ at Yamethin. Light to heavy rain had fallen in Burma, light to moderate rain in North Bengal, and light rain over the Kashmir Himalayas, the North Punjab and the south and east of the Peninsula.

Thursday, May 6th.—Pressure had recovered, except over the Bay area. The increase had been brisk to rapid in parts of the north-west, and the depression recently noticed had almost disappeared. Readings were lowest near Cawnpore. The easterly current up the Gangetic Plain had to a great extent broken up, while on the contrary the westerly and north-westerly current over the west and centre of India had extended. The mean temperature was low for the time of year in the North Punjab, Kathiawar, South Madras, North Bengal and Burma, but over the whole intervening region the heat was excessive. Rain had been received over North-West and North-East India and over Lower Burma. In North-East India several stations received amounts exceeding one inch.

Friday, May 7th.—Pressure had decreased briskly to rapidly over North-East India, but elsewhere the changes were slight. Pressure was highest along the West Coast, lowest over the Gangetic Plain, and the intervening gradients were steepish. The winds were southerly and south-westerly over the Bay area and generally between west and north-west elsewhere, the easterly current having practically disappeared. The general distribution of the mean temperature with regard to the normal was little changed. Rain had been received heavily in Tenasserim, lightly to heavily in North and East Bengal and Assam and lightly to moderately in the North Punjab and Kashmir.

Saturday, May 8th.—Pressure had increased very generally. Readings were lowest in Bihar and highest on the West Coast, and the intervening gradients were steep. The winds were practically unchanged. The mean temperature was lower than usual over the Punjab and Rajputana, over Tenasserim and over Assam and East Bengal and higher than usual elsewhere—more particularly over West Bengal and Oudh. The rainfall had been almost wholly confined to North-East India and Burma, but at some stations within this area the falls had been heavy.

Temperature.—At the commencement of the week under review the mean temperature was higher than usual over North-Western and Western India as well as over the greater part of Burma, while all over the intervening region,

vis., Bengal, the east of the North-West Provinces, the Central Provinces and the east of the Peninsula there existed a large area of low temperature. The changes which occurred during the week resulted in the gradual extinction of this area of relative coolness and the gradual extension over it of the high temperature area from the north-west and west. The only other important changes were the appearance of relatively low temperatures over Burma following the heavy rainfall in that province, and the appearance of cool weather over the Punjab resulting mainly from the showers over the Kashmir Himalayas.

The following table gives temperature data for the week :

PROVINCE.	MAY 1897.							Mean variation of week.
	2nd	3rd	4th	5th	6th	7th	8th	
	o	o	o	o	o	o	o	o
Burma	+1'5	+4'3	+1'4	-4'8	-1'6	+0'3	+0'7	+0'1
Bengal and Assam	-4'9	-4'3	-1'4	+1'6	+2'1	+3'5	+3'4	o
North-Western Provinces and Oudh	-0'5	-2'4	+1'2	+4'6	+6'8	+6'5	+6'5	+3'2
Punjab	+2'0	+4'4	+6'2	+5'7	+0'6	-0'9	-3'6	+2'1
Bombay	+0'8	+1'0	+2'2	+1'4	+1'4	+0'7	+1'2	+1'2
Central Provinces and Berar	-6'6	-3'4	-0'5	+3'5	+5'2	+3'6	+1'5	+0'5
Central India and Gujarat	+0'7	+1'9	+3'0	+4'5	+2'5	+1'6	+1'6	+2'3
Sind and Rajputana	+1'2	+2'9	+6'7	+5'1	+4'1	+1'0	-0'5	+2'9
Madras	-4'4	-2'3	+0'7	+0'6	+1'6	+3'1	+4'5	+0'5
Mean for whole of India	-1'2	+0'2	+2'2	+2'5	+2'5	+2'2	+1'7	+1'4

The following are the highest maximum temperatures recorded on each day :

May 2nd	113°·7 at Jacobabad.
„ 3rd	116°·1 „ „
„ 4th	117°·6 „ „
„ 5th	114°·1 „ Kotah.
„ 6th	114°·7 „ Jhansi.
„ 7th	114°·7 „ Nagpur.
„ 8th	114°·2 „ Khammamet.

Rain.—As mentioned above, the week under review has been one of fairly general showery weather over the regions which ordinarily receive rain at this season, but in addition to this normal rainfall there has apparently occurred an advance of monsoon winds along the Malay Coast and up the Andaman Sea which has occasioned exceptionally heavy rain over a large part of Lower Burma. The rainfall of the week has been almost wholly confined to Burma and North-East India, to the Punjab and to the south of the Indian Peninsula, the whole of the intervening area having been practically without rain. This is the ordinary distribution of rainfall at this season.

The table at the close of the summary shows that effective rain, that is, rain of one-tenth of an inch and over was received in twenty-nine of the rainfall divisions, a number slightly lower than was the case last week. The area of effective rainfall included all the Burma divisions, all the Assam divisions, all the Bengal divisions, except South Bihar, the hills of the North-West

Provinces, all the Punjab divisions, except the south-east and south, Malabar, Mysore, the East Coast (North and South) and Madras (South-Central, Central and South). In all other parts of the country the fall was *nil* or practically so. The heaviest average fall was 8·22 inches in Tenasserim, followed by 4·22 inches in Assam (Surma), by 3·76 inches in the Assam Hills and by 2·49 inches in Deltaic Burma, while the divisions of Central Burma, East Bengal, Assam (Brahmaputra), deltaic, central, north and hills of Bengal, Madras (South-Central) and Madras (South) all received an average actual fall of over one inch. The third column of the table shows that more rain than usual fell during the week in eighteen of the divisions. In many of these divisions the excess was small and unimportant, but in Tenasserim it amounted to 6·43 inches, in Deltaic Burma to 2·01 inches, in Deltaic Bengal to 0·87 inch, in the North Punjab to 0·67 inch and in Madras (South) to 0·65 inch. Except in the case of these eighteen divisions the rainfall was normal or deficient, the abnormal deficiency amounting to one inch or over in Arakan, Assam (Brahmaputra) and Coorg.

The three last columns of the table show that the rainfall between February 28th and date has been short of the average in Assam and East Bengal, in the Gangetic Plain, in the central parts of the Peninsula, in Central India and the Central Provinces [except the Central Provinces (East)] and in North Bombay.

The following are the principal large totals during the week under review :

Burma	Moulmein	8·22 inches.
	Toungoo	3·45 "
	Bassein	5·08 "
Assam	South Sylhet	15·73 "
Bengal	Kishoregunj (Mymensingh)	5·93 "
	Magoora (Jessore)	4·14 "
	Nowkhilla (Bogra)	5·54 "
	Govindgunj (Rungpur)	5·42 "
Punjab	Murree	1·56 "
	Swabi (Peshawar)	1·46 "
	Kohat	1·42 "
Malabar	Pentelmanna	6·60 "
	Udamalpet (Coimbatore)	3·56 "
Madras	Rajahmundry	2·88 "
	Perambalur (Trichinopoly)	5·16 "
	Dindigul (Madura)	4·47 "

NOTIFICATIONS.

Simla, the 4th May, 1897.

No. 5.—The following Statute is published for general information:

ARMY (ANNUAL) ACT, 1897.

[60 VICTORIA, CHAPTER 3.]

An Act to provide, during Twelve Months, for the Discipline and Regulation of the Army.

[29TH MARCH, 1897.]

WHEREAS the raising or keeping of a standing army within the United Kingdom of Great Britain and Ireland in time of peace, unless it be with the consent of Parliament, is against law:

And whereas it is adjudged necessary by Her Majesty and this present Parliament, that a body of forces should be continued for the safety of

the United Kingdom and the defence of the possessions of Her Majesty's Crown, and that the whole number of such forces should consist of one hundred and fifty-eight thousand seven hundred and seventy-four, including those to be employed at the depôts in the United Kingdom of Great Britain and Ireland for the training of recruits for service at home and abroad, but exclusive of the numbers actually serving within Her Majesty's Indian possessions:

And whereas it is also judged necessary, for the safety of the United Kingdom, and the defence of the possessions of this realm, that a body of Royal Marine forces should be employed in Her Majesty's fleet and naval service, under the direction of the Lord High Admiral of the United Kingdom, or the Commissioners for executing the office of Lord High Admiral aforesaid:

And whereas the said marine forces may frequently be quartered or be on shore, or sent to do duty or be on board transport ships or vessels, merchant ships or vessels, or other ships or vessels, or they may be under other circumstances in which they will not be subject to the laws relating to the government of Her Majesty's forces by sea:

And whereas no man can be forejudged of life or limb, or subjected in time of peace to any kind of punishment within this realm by martial law, or in any other manner than by the judgment of his peers and according to the known and established laws of this realm; yet nevertheless it being requisite, for the retaining all the before-mentioned forces, and other persons subject to military law, in their duty, that an exact discipline be observed, and that persons belonging to the said forces who mutiny or stir up sedition, or desert Her Majesty's service, or are guilty of crimes and offences to the prejudice of good order and military discipline, be brought to a more exemplary and speedy punishment than the usual forms of the law will allow:

44 & 45 Vict., c. 58. And whereas the Army Act will expire in the year one thousand eight hundred and ninety-seven on the following days:

- (a) In the United Kingdom, the Channel Islands, and the Isle of Man, on the thirtieth day of April; and
- (b) Elsewhere in Europe, inclusive of Malta, also in the West Indies and America, on the thirty-first day of July; and
- (c) Elsewhere, whether within or without Her Majesty's dominions, on the thirty-first day of December:

Be it therefore enacted by the Queen's most Excellent Majesty, by and with the advice and consent of the Lords Spiritual and Temporal, and Commons, in this present Parliament assembled, and by the authority of the same, as follows:

1. This Act may be cited as the Army Short title. (Annual) Act, 1897.

2. (1) The Army Act shall be and remain in force during the periods hereinafter mentioned, and force for specified times. no longer, unless otherwise provided by Parliament; that is to say,

- (a) Within the United Kingdom, the Channel Islands, and the Isle of Man, from the thirtieth day of April one thousand eight hundred and ninety-seven to the thirtieth day of April one thousand eight hundred and ninety-eight, both inclusive; and
- (b) Elsewhere in Europe, inclusive of Malta, also in the West Indies and America, from the thirty-first day of July one thousand eight hundred and ninety-seven to the thirty-first day of July one thousand eight hundred and ninety-eight, both inclusive; and
- (c) Elsewhere, whether within or without Her Majesty's dominions, from the thirty-first day of December one thousand eight hundred and ninety-seven to the thirty-first day of December one thousand eight hundred and ninety-eight, both inclusive;

and the day from which the Army Act is continued in any place by this Act is in relation to

that place referred to in this Act as the commencement of this Act.

(2) The Army Act, while in force, shall apply to persons subject to military law, whether within or without Her Majesty's dominions.

(3) A person subject to military law shall not be exempted from the provisions of the Army Act by reason only that the number of the forces for the time being in the service of Her Majesty, exclusive of the marine forces, is either greater or less than the number hereinbefore mentioned.

3. There shall be paid to the keeper of a Prices in respect of victualling house for the billeting. accommodation provided by him in pursuance of the Army Act the prices specified in the schedule to this Act.

SCHEDULE.

Accommodation to be provided.	Maximum price.
Lodging and attendance for soldier where hot meal furnished.	Fourpence per night.
Hot meal as specified in Part I of the Second Schedule to the Army Act.	One shilling and threepence half-penny each.
Breakfast as so specified	One penny half-penny each.
Where no hot meal furnished, lodging and attendance, and candles, vinegar, salt, and the use of fire, and the necessary utensils for dressing and eating his meat.	Fourpence per day.
Ten pounds of oats, twelve pounds of hay, and eight pounds of straw per day for each horse.	One shilling and ninepence per day.
Lodging and attendance for officer	Two shillings per night.

Note.—An officer shall pay for his food.

The 7th May, 1897.

No. 6.—His Excellency the Governor General has been pleased to accept the resignation by the Hon'ble Mr. G. P. Glendinning of his office of Additional Member of the Council of the Governor General for the purpose of making Laws and Regulations.

No. 7.—Mr. Kenworthy Brown, Barrister-at-Law, Reporter for the Indian Law Reports in the High Court, Madras, has been granted leave of absence for six months, with effect from the 6th May, 1897.

No. 8.—Mr. J. H. M. Ryan, Barrister-at-Law, has been appointed to officiate as Reporter for the Indian Law Reports in the High Court, Madras, during the absence of Mr. Kenworthy Brown, or until further orders.

J. M. MACPHERSON,
Secretary to the Government of India.

No. 665.—The following communication from the Consul for the Netherlands at Calcutta, notifying the prohibition of the importation of cattle (excluding horses) into certain Dutch Settlements in Asia, is published for general information :

Copy of a letter from the Consul for the Netherlands, Calcutta, to the Government of India, dated 26th April 1897.

I have the honour to inform you that I have received a telegram from the Netherlands

Indian Government, communicating me that the importation from Asia of cattle, except horses, has been prohibited in Java, Madura, Bali, and Lombok, and that the local Governments* of other parts of Netherlands India are authorized to prohibit the importation or to order a four-weeks' quarantine.

FAMINE.

The 5th May, 1897.

No. 2000—105-27-F.—With reference to Notification No. 789—105-6-F., dated the 12th March 1897, it is notified that the services of Lieutenant H. E. Norman, 2nd Regiment of Madras Infantry, are replaced at the disposal of the Military Department.

The 7th May, 1897.

No. 2016—105-29-F.—The services of the following officers are placed at the disposal of the Chief Commissioner, Central Provinces, for famine duty:

Lieutenant R. B. B. Howe, 6th Regiment of Madras Infantry;

Lieutenant C. H. B. Clark, 26th Regiment of Madras Infantry.

FORESTS.

The 7th May, 1897.

No. 411—26-10-F.—Mr. A. L. Home, Conservator of Forests, 1st grade, having returned from the privilege leave granted him in the Notification of this Department No. 153-F., dated the 5th February last, and resumed charge of the Assam Forest Circle from Mr. E. G. Chester, officiating Conservator, 3rd grade, the following reversions took effect from the 2nd instant:

- (i) Mr. Chester to his substantive appointment of Deputy Conservator, 1st grade, Bengal.
- (ii) Mr. S. Eardley-Wilmot, Conservator, 2nd (officiating 1st) grade, in charge of the Oudh Forest Circle, North-Western Provinces and Oudh, to his substantive appointment in the 2nd grade.

EMIGRATION.

The 5th May, 1897.

No. 625—31-1.—In exercise of the powers conferred by section 80 of the Indian Emigration Act, 1883 (XXI of 1883), the Governor-General in Council is pleased to make the following additions to the rules under the said Act published with the Notification of the Government of India in the Department of Revenue and Agriculture, No. 94-E., dated the 18th March 1886, and amended by the Notification of the Government of India in the same Department, No. 170, dated the 1st February 1896:

(1) In the test prescribed for lime-juice in Rule 178A, Chapter V, section III, for the words in the *Note*—

“A darkening indicates lead or copper,”

the following shall be substituted, namely:

“A darkening which disappears again almost immediately is due to iron, but a persistent darkening indicates the presence of lead or copper.”

(2) To paragraph 2 of the said *Note* the following shall be added, namely:

“As a confirmatory test the following process may be used:

“Evaporate some of the juice to dryness and ignite; then dissolve the remaining ash in Nitric Acid and divide the solution into two portions. To one of these add a little Iodide of Potassium solution: a yellow precipitate indicates lead. To the other portion add Ferrocyanide of Potassium: a chocolate precipitate indicates copper, and a white precipitate lead.”

DENZIL IBBETSON,

Secretary to the Government of India.

FOREIGN DEPARTMENT.

NOTIFICATIONS.

Simla, the 4th May, 1897.

No. 757-G.—The Governor-General in Council is pleased to recognise the appointment of Mr. C. Stubmann as acting Consul for Sweden and Norway at Akyab during the absence of Mr. F. Müller.

The 6th May, 1897.

No. 767-G.—The Governor-General in Council is pleased to recognise the appointment of Mr. V. von Rottanscher as acting Consul for the Austro-Hungarian Empire at Calcutta during the absence of Mr. D. McLaren Morrison.

No. 771-G.—Subject to the confirmation of Her Majesty's Government, the Governor-General in Council is pleased to recognise the appointment of Monsieur Harold Curjel as Consular Agent for France at Karachi, *vice* Monsieur G. Rat.

No. 1727-I-B.—Whereas it has been customary in the Hyderabad Assigned Districts for the Government to open markets and bazars for the sale of agricultural produce, to arrange for the conservancy and management thereof, to levy fees therein and to provide for the collection and disposal of the fees levied as aforesaid;

And whereas it is expedient to continue the custom aforesaid;

In exercise of the powers conferred by sections 4 and 5 of the Foreign Jurisdiction and Extradition Act (XXI of 1879) and of all other powers enabling him in this behalf, the Governor-General in Council is pleased to issue the following orders:

1. (1) These orders may be called the Berar Cotton and Grain Markets Law, 1897, and are hereinafter referred to as "this Law."

Title and commencement.

- (2) This Law shall come into force at once.

2. The Resident may, by notification in the *Hyderabad Residency Orders*, declare that any place, the property of the Government or of the public or of a Municipal Committee or District Board, is a market or bazar for the sale of agricultural produce generally, or for the sale of a particular class or classes of agricultural produce, and may from time to time amend, vary or rescind any such notification.

Notification of markets and bazars.

3. (1) The Resident may, in respect of any market or bazar notified under section 2, make rules for—

Power to make rules for markets and bazars.

- (a) the management of the market or bazar, the levy of fees therein and, subject to the provisions of section 4, the collection and disposal of such fees;

- (b) the conditions under which licenses shall be issued to brokers, weighmen and measurers using the market or bazar and the fees to be charged for such licenses;

- (c) the place or places for weighment and measuring, the description of scales, weights and measures to be used, the periodical inspection, verification and correction of such scales, weights and measures, and the seizure and confiscation of such scales, weights and measures, if used in violation of such rules; and,

- (d) generally, the guidance of such committees or persons as may from time to time be appointed for the purpose of carrying out of this Law.

- (2) All rules under this section shall be published in the *Hyderabad Residency Orders* and shall thereupon have the force of Law.

(3) In making any rule under this section, the Resident may direct that a breach of it shall be punishable with fine which may extend to fifty rupees, and, when the breach is a continuing breach, with fine which, in addition to such fine as aforesaid, may extend to five rupees for every day after the first during which the breach continues.

4. (1) All fees under the last foregoing section shall be levied at rates calculated so as to meet, as nearly as may be, the expenditure deemed necessary for the purposes hereinafter mentioned, and the collections therefrom shall be applied in the first instance to those purposes under the direction of the Resident and through such agency as the Resident may appoint in that behalf; that is to say—

- (1) the maintenance and improvement of the market or bazar in which the fees are levied, its surroundings and approaches;
- (2) the construction and repair of buildings, chabutras and other erections necessary for the purposes of such market or bazar; and
- (3) the health, convenience and safety of the persons using such market or bazar.

(2) The surplus (if any) shall, in the case of a market or bazar within municipal limits, be paid over to the Municipal Committee concerned for expenditure on the purposes specified in the Berar Municipal Law, 1886, and, in the case of any other market or bazar, to the District Board concerned for expenditure on the purposes specified in the Berar Rural Boards Law, 1885.

5. (1) No trade allowances shall be recognized in any market or bazar notified under section 2, and no Civil Court shall, in any suit arising out of a transaction entered into in any such market or bazar, have regard to any usage or trade custom or alleged usage or trade custom to the contrary.

(2) In every cotton market or bazar notified under section 2 all samples shall be paid for, and no Civil Court shall, in any suit arising out of a transaction entered into in such market or bazar, have regard to any usage or trade custom or alleged usage or trade custom to the contrary.

(3) In every transaction entered into in any cotton market or bazar notified under section 2 it shall be presumed that the parties intend that cotton shall be weighed in the sacking and that the seller guarantees that the sacking of each package shall not weigh more than ten pounds.

Explanation.—Every deduction, other than deductions on account of deviation from sample when the purchase is made by sample or of deviation from standard, when the purchase is made by reference to a known standard, or on account of a difference between the actual weight of the sacking and the standard weight, or on account of the admixture of foreign matter, shall be regarded as a trade allowance for the purposes of this Law.

6. (1) When the Resident has, by notification under section 2, declared any place to be a market or bazar for the sale of agricultural produce generally, or for the sale of any particular class or classes of agricultural produce, no new market or bazar shall, except with the sanction in writing of the Resident and subject to such conditions as the Resident may think fit to impose, be established for the like purpose within five miles of the market or bazar notified as aforesaid.

(2) Whoever establishes a market or bazar in contravention of this section or violates the conditions under which he is authorised to establish a market or bazar under this section, shall be punishable with fine which may extend to fifty rupees, and, in the case of a continuing breach, with fine which, in addition to such fine as aforesaid, may extend to five rupees, for each day after the first during which the breach continues.

7. Fees leviable in pursuance of any rules under this Law may be realized as fines under the orders of any Magistrate.

Recovery of fees.

8. The Bazar Cess, the levy of which was authorised by the notification of the Government of India in the Department of Revenue, Agriculture and Commerce, No. 11, dated the 27th January, 1875, shall cease to be levied in any market or bazar notified under section 2.

Abolition of existing Bazar Cess in markets or bazars notified under section 2.

The 7th May, 1897.

No. 1733-I.-B.—In exercise of the powers conferred by the notification of the Government of India in the Foreign Department, No. 3631-I., dated the 21st September, 1892, the Governor-General in Council is pleased to direct the transfer of the following civil appeals and applications pending before the Resident at Hyderabad, by virtue of his jurisdiction over the Cantonment of Secunderabad, to the Court of the Judicial Commissioner of the Hyderabad Assigned Districts:

MARINE DEPARTMENT.

APPOINTMENTS.

No. 28.—Chief Engineer F. O. Gadsden, Royal Indian Marine, is appointed Inspector of Machinery, Bombay Dockyard, on probation, with effect from the 30th April 1897.

DISCIPLINE.

No. 29.—At a Marine Court held at Bombay on the 2nd and following days of April 1897, Commander Gerald Edward Holland, D.S.O., Lieutenant Thomas Johnstone Walker, and Lieutenant Walter George Windham, officers of the Royal Indian Marine, were collectively arraigned on the following charge :

CHARGE SHEET.

The prisoners—

Commander Gerald Edward Holland, D.S.O., temporarily attached to the Royal Indian Marine Dockyard, Bombay ;

Lieutenant Thomas Johnstone Walker temporarily attached to the Royal Indian Marine Ship *Mayo* ;

Lieutenant Walter George Windham temporarily attached to the Royal Indian Marine ship *Mayo* ;

are charged with negligently and by default losing a vessel of the Indian Marine Service, in that,

they on board the Royal Indian Marine Ship *Warren Hastings* while on the voyage from Cape Town, Africa, to the Island of Mauritius between the 6th and 14th days of January 1897, when entrusted respectively

Commander Gerald Edward Holland, D.S.O., as Commander,

Lieutenant Thomas Johnstone Walker as Navigating Officer,

Lieutenant Walter George Windham as officer of the watch

with the safe navigation of the said vessel negligently and by default suffered the said vessel to be stranded and totally lost on the morning of the 14th day of January 1897 off Sainte Philippe on the South-East Coast of the Island of Réunion.

FINDING.

The Court find that the prisoner Commander Gerald Edward Holland, D.S.O., temporarily attached to the Royal Indian Marine Dockyard, Bombay, is guilty of the charge.

The Court find that the prisoner Lieutenant Thomas Johnstone Walker, temporarily attached to the Royal Indian Marine ship *Mayo*, is not guilty of the charge.

The Court find that the prisoner Lieutenant Walter George Windham, temporarily attached to the Royal Indian Marine ship *Mayo*, is not guilty of the charge.

SENTENCE.

The Court sentences the prisoner Commander Gerald Edward Holland, D.S.O., temporarily attached to the Royal Indian Marine Dockyard, Bombay, to be severely reprimanded.

Signed at the Royal Indian Marine Dockyard, Bombay, this 5th day of April 1897.

P. FALLE, *Captain,*
President.

Order by the Governor General in Council.

I confirm the findings of the court, but reduce the sentence from "severely reprimanded" to "reprimanded."

By Command,

P. J. MAITLAND, *Major-General,*

Secretary to the Government of India.

SIMLA ;

The 20th April 1897.

No. 30.—The Governor-General in Council is pleased to direct the publication for general information of the subjoined reports of the wreck of the R.I.M.S. *Warren Hastings* which took place on the 14th of January 1897 off Sainte Philippe on the South-East Coast of the Island of Réunion. In doing so His Excellency in Council desires to place on record his sense of the excellent conduct of Commander Holland, D.S.O., and the officers and crew of the *Warren Hastings*, after the striking of the vessel.

The coolness and judgment displayed by the Commander of the vessel, and the perfect discipline and courage of the officers and men, under circumstances of the most trying nature are worthy of high praise, as is also the admirable conduct of the troops, whose discipline stood the extreme test of inaction in the face of imminent danger. His Excellency in Council, while deploring the disaster, thinks that all on board deserve commendation for the manner in which they passed through the severe trial to which they were subjected.

From COMMANDER G. E. HOLLAND, Royal Indian Marine, D.S.O., R.I.M. Troopship *Warren Hastings*, to His Excellency the Governor of Mauritius,—(dated Mauritius, 22nd January 1897).

I have the honour to submit the following report on the loss of the R.I.M. Troopship *Warren Hastings*.

2. We sailed from Cape Town at 6 A.M. on the morning of the 6th January 1897, and all went well until the time of the disaster. The weather having been fine excepting the S.E. gale blowing when we left the Cape, and an unsettled appearance in the weather on the morning of the 13th January 1897, the barometer being then 22° lower than normal, and the wind, which in the early morning was N.N.W., force 4, shifted very suddenly to S., and blew with a force of 4 to 6 (Beaufort scale), the appearance of the weather being unsettled.
3. On the forenoon of the 13th January the sun was obscured, and observations for longitude could not be obtained. At noon the sun came out and the latitude was found by observation, and again at 3 P.M. observations of the sun enabled us to accurately fix the longitude. These observations gave us the exact position of the ship at 3 P.M., which was latitude $22^{\circ} 39' 22''$ S., longitude $53^{\circ} 33' 50''$ E. (the mean of the observations of Commander and the Navigating Lieutenant). At 3-30 P.M. the course was set by compass N. 64° E., equivalent according to last observations to N. 60° E. (true). At 3-45 P.M. the error of the compass was obtained by time azimuth using Birdwood's Tables, and found to be only 3° W.; the compass course was then accordingly altered to N. 63° E. by standard to make N. 60° E. (true). The speed of the vessel was 12.5 knots; wind S. and force 3 to 5. From then until

the vessel ran on to the rock the weather was overcast, cloudy, with rain, which latter came down in torrents at 2 A.M.

4. At 2-20 A.M., when the vessel was wrecked, the position by D. R. (from 3 P.M.) was latitude $21^{\circ} 29' 12''$ S., longitude $55^{\circ} 46' 12''$ E., which was 8.1 miles S., $4\frac{1}{2}^{\circ}$ W. of the place where the vessel struck.
5. At the time of the disaster there were on the bridge myself, Lieutenant Walker, the navigating officer, and Lieutenant Windham, the officer of the watch; Lieutenant Walker and myself having gone on the bridge at 2 A.M.
6. To all of us it appeared that we could see a distance of, at least, 1 mile or $1\frac{1}{2}$ miles, and it was only after the vessel struck that we realized how very intense the darkness was. Then, although the vessel was actually on rocks, close to very large boulders, and having, within a distance of only about 60 yards from the bow of the ship, the cliffs and high land of the island, we could see from the vessel's bridge absolutely nothing.
7. I had perfect confidence in the correctness of my observations and course from the 3 P.M. position, and, taking into consideration the great height of the land at Réunion Island, and the fact that off the south coast, if it is seen even half a mile off, a vessel is perfectly safe, the island being steep too, I considered I had no cause for anxiety. I fully expected to experience a current to the southward, and possibly to the westward as well, and I had intended to run on for an hour longer on the N. 63° E. compass course to allow well for the same before hauling up for Mauritius, if nothing was sighted.
8. I did not consider it necessary to proceed at a slow speed, there being nothing to make me anxious about the vessel's position, except the heavy rain and darkness of the night, the previous day's current having set the vessel southward 6 miles, and I am thankful now I did not slow down, for, had I done so, the vessel would have been stopped by the outside rocks, and must have gone down, in deep water, with all hands.
9. At 2-20 A.M., without warning of any kind, that is, either the least sign of land, or sound of breakers (the sound of the latter being no doubt covered by the noise made by the torrents of rain falling on awnings and decks), the vessel went on to the rocks. Speed at the time, 12.5 knots an hour. The shock was very great. The engines were immediately stopped and reversed, but, almost in the instant of doing this, I realized that the vessel must be on the rock-bound coast of Réunion, with deep water astern, and so I set the engine-going ahead full speed again to urge the vessel, if possible, further on to the rocks, and kept them going ahead as long as possible. By this means, as the

vessel was lifted by each succeeding swell, she was worked close up to the solid rock ahead.

10. The wells were immediately sounded. I found 2 feet forward; main hold dry; 2 feet of water above fore stokehold plates; and aft, 5 feet of water.
11. The boats were cleared at once, this order being very properly carried out by the crew; all the boats on board were cast loose, and ready for lowering in five or six minutes; all watertight doors were also closed, and all available steam pumps set going.
12. Soundings were then taken round the ship as follows, *viz.* :—
 Starboard side on bow by the fore rigging we found $4\frac{1}{2}$ fathoms.
 Abreast of the bridge, $7\frac{1}{2}$ fathoms.
 " " after entry port, 8 fathoms.
 On the quarter, $4\frac{1}{2}$ fathoms.
 Right over the stern, $4\frac{1}{2}$ fathoms.
 Port side bow, $5\frac{1}{2}$ fathoms.
 " abreast of bridge, 8 fathoms.
 " " engine room, 3 fathoms.
 Port side abreast of main mast, 3 fathoms.
 Port side on quarter, $4\frac{1}{2}$ fathoms.
13. As owing to the sea breaking heavily on the rocks, I found the boats could not be used to land the troops, I ordered them to be re-secured to prevent their carrying away, as the vessel was rolling and thumping heavily on the rocks: this was done at once.
14. As nothing could be seen from the bridge at 2-45 A.M., Lieutenants T. J. Walker and Windham went forward, and coming back to me reported that the vessel's bow was close to large rocks, on to which they considered it possible to get by means of ropes.
15. At 3-15 A.M., I directed Lieutenants Windham and Dobbin to get blue lights, lower themselves on the rocks, and ascertain if there was sufficient room on the rocks to disembark the troops on to them. This was done, and when these officers burnt the blue lights on the rocks, I saw that disembarkation there was possible.
16. When the vessel struck I gave orders for the troops to fall in, and sent to Lieutenant-Colonel Forestier-Walker, the Officer Commanding the troops on board, to come to me on the bridge, which he did immediately, accompanied by Captain and Adjutant Stuart-Wortley. Orders were then sent to the troops to retire from the upper deck except those on duty, in order to leave room for the necessary work of the crew, the women and children and sick to get ready to come on deck, and every one to get ready to disembark and to wait further orders.
17. At 4 A.M., everything being ready, I gave orders to commence disembarking the men. I retained the women and children, because I hoped that the vessel would remain safe until daylight, when they could be disembarked much more safely.
18. At 4-15 A.M. the vessel commenced heeling over to starboard, and the engineers and stokers were driven out of the after stokehold and engine room. The forward stokehold having been filled up, and every one driven out of it at 3-15 A.M., the watertight door between it and the after one being then closed. This bulkhead held till the end. Everyone was now ordered on deck.
19. At 4-20 A.M. the vessel commenced heeling rapidly, and as I was of opinion then that, owing to the amount of water in the vessel, and the fact that the water was very deep on the starboard side and shallow in places on the port side, the vessel was going to capsize, I ordered the disembarkation of the men to cease and the women and the children and sick to be passed out. This order was obeyed promptly; the men stood where they were, opening out a little to let the women and children pass on. When all the women and children had been passed out, the disembarkation of the men was continued.
20. At 4-55 A.M. the starboard side of the vessel's spar deck was under water and the starboard boats were swept away. At this time, daylight commencing and thinking the end near, I gave permission to any men who could swim to go over the port bow and swim ashore to land at a point on the rocks 30 yards off, where the sea was fairly smooth. The first man took a small line with him, and several other ropes were thereby made fast to the ship and shore, and many men disembarked by this means.
21. At 5-30 A.M. the disembarkation was complete, and at my request Lieutenant-Colonel Forestier-Walker left the bridge and proceeded on shore to take command of the troops and make the necessary arrangements.
22. Two lives were lost, both natives—one, the saloon cook, the other, Sub-Lieutenant de Burgh's servant. These men jumped overboard near the steam cutter on the port side, and not being good swimmers were drowned.
23. From first to last the most perfect discipline was displayed. All orders issued to the troops were obeyed instantly, without any noise or confusion. The discipline of the troops was tested twice very severely; the first time when after the wreck they were ordered to retire to the main and troop decks, and the second time when they were ordered to cease disembarking to enable the women and children to be landed.
24. The behaviour of the troops was throughout beyond praise. Had there been any

HOME DEPARTMENT.

NOTIFICATIONS.

ESTABLISHMENTS.

Simla, the 20th May, 1897.

No. 432.—Mr. G. L. Weidemann has been permitted to resign Her Majesty's Indian Civil Service, with effect from the 3rd April 1897.

MEDICAL.

The 17th May, 1897.

No. 485.—The services of Surgeon-Captain H. D. Mason, A.M.S., are placed temporarily at the disposal of the Government of Bombay for employment on plague duty, with effect from the date on which he assumed charge of his duties.

No. 487.—The services of the undermentioned officers are placed temporarily at the disposal of the Government of Bombay for employment on plague duty, with effect from the dates on which they assumed charge of their duties:

Surgeon-Lieutenant P. Evans, M.B., A.M.S.

Surgeon-Lieutenant A. E. Milner, A.M.S.

SANITARY.

The 18th May, 1897.

No. 1518.—Whereas the Governor General in Council is satisfied that there is danger of an outbreak of plague if persons assemble at Hardwār to attend fairs in the present month of May and the ensuing month of June;

In exercise of the powers conferred by section 2, sub-section (1), of the Epidemic Diseases Act (III of 1897), the Governor General in Council is pleased to direct that no tickets to travel by railway to Lakhsar, Patri, Jawālapur and Hardwār shall be sold from the 24th day of May 1897 to the 12th day of June 1897.

The 21st May, 1897.

No. 1545.—The following documents regarding quarantine and trade restrictions imposed in foreign countries in consequence of the existence of bubonic plague in India are published for general information :

Notifications of the Board of Trade (Fisheries Department).

London, April 22, 1897.

The Board of Trade have received, through the Secretary of State for Foreign Affairs, a copy of the following decree issued by the French Government relating to the Sanitary measures to be applied in France and Algeria to ships arriving from countries infected by the Bubonic Plague :

Journal Officiel, 16 Avril, 1897.

Le Président de la République française.

Sur le rapport des ministres de l'intérieur et des finances.

Vu l'article 1^{er}, de la loi du 3 Mars, 1822, sur la police sanitaire.

Vu le décret du 9 Mars, 1897, relatif aux provenances des pays contaminés de peste.

Vu les délibérations du comité consultatif d'hygiène publique de France, des 27 Février et 5 Avril, 1897.

Vu le règlement sanitaire général annexé à la convention sanitaire de Venise du 19 Mars, 1897 (chap. 2, titre IV), relatif aux marchandises ou objets susceptibles d'être prohibés à l'importation.

Décète :

Art. 1^{er}. Est interdite jusqu'à nouvel ordre l'importation en France et en Algérie des drilles, des chiffons, des débris frais d'animaux, des onglons, des sabots venant directement ou indirectement de toute localité où la peste aura été constatée.

Art. 2. Est également interdit le transit à travers la France ou l'Algérie des objets désignés à l'article 1^{er}, toutes les fois que ce transit donne lieu à un débarquement ou à une manipulation quelconque.

Art. 3. Seront admis après désinfection les laines brutes ou manufacturées venant directement de toute localité contaminée de peste, les linges de corps ayant servi ou n'ayant pas servi, les hardes ou vêtements ayant servi ou n'ayant pas servi, les objets de literie ayant servi ou n'ayant pas servi, les cuirs verts et peaux fraîches venant directement ou indirectement de toute localité où la peste a été constatée.

Art. 4. Aucun navire provenant d'une localité reconnue contaminée de peste ou portant des objets énumérés à l'article 3 ne pourra pénétrer en France ou en Algérie que par un des ports suivants : Marseille, Alger, Pauillac, Saint-Nazaire, le Havre et Dunkerque.

Art. 5. Tout colis contenant quelqu'un des objets visés aux articles 1 et 3 du présent décret et provenant d'un des ports de l'Océan Indien autre que ceux reconnus contaminés de peste, depuis Mascate, y compris les ports du golfe Persique, jusqu'au cap Comorin, doit être accompagné d'un certificat d'origine visé par un agent consulaire français.

Art. 6. Est rapporté le décret du 9 Mars, 1897, susvisé.

Art. 7. Le ministre de l'intérieur et le ministre des finances sont chargés, chacun en ce qui le concerne, de l'exécution du présent décret, qui sera publié au Journal Officiel et inséré au Bulletin des lois.

Fait à Paris, le 15 Avril, 1897.

FÉLIX FAURE.

Par le Président de la République :

Le ministre de l'intérieur,

LOUIS BARTHOU.

Le ministre des finances,

GEORGES COCHERY.

London, April 25, 1897.

The Board of Trade have received, through the Secretary of State for Foreign Affairs, a copy of a communication from Her Majesty's Consul-General at Alexandria, in which he points out that in the case of vessels touching at Egyptian ports or passing through the Suez Canal, it is of the utmost importance that all declarations required by the Regulations of the Maritime Sanitary and Quarantine Board of Egypt from masters and other responsible persons on such vessels should be made with the utmost candour and most scrupulous exactitude, and that masters of vessels should carefully observe all the sanitary rules.

London, April 26, 1897.

The Board of Trade have received, through the Secretary of State for the Colonies, a copy of a Telegram from the Governor of Gibraltar, reporting that vessels from Calcutta and other eastward Indian ports get pratique if provided with clean bill of health, and have good health on board.

Telegram, dated the 18th May 1897.

From—Secretary of State, London,
To—Viceroy, Simla.

Belgium.—Hides from infected countries will be admitted if salted and arsenicated.

Telegram, dated the 18th May 1897.

From—The Secretary of State, London,
To—The Viceroy, Simla.

Bulgaria.—My telegram of 9th* March last. Rangoon considered clean port. Direct importation of rice allowed. Jute sacks from Calcutta admitted after disinfection at Bulgarian port.

* Published in the *Gazette of India* under Home Department Notification No. 932, dated the 12th March 1897.

Telegram, dated the 19th May 1897.

From—The Secretary of State, London,
To—The Viceroy, Simla.

Réunion.—My telegram of 25th† March last. All Indian ports declared infected. Rice ships repulsed. Rice imported from Saigon.

† Published in the *Gazette of India* under Home Department Notification No. 1093, dated the 26th March 1897.

PORT BLAIR.

The 21st May, 1897.

No. 473.—Consequent on the grant of furlough for one year to Mr. W. Jessop, 5th Assistant Superintendent, Port Blair, the following appointments are made in the Port Blair Commission:

Mr. A. Brown, 7th Assistant Superintendent, and officiating as 6th Assistant Superintendent, to officiate as 5th Assistant Superintendent, *vice* Mr. W. Jessop.

Muhammad Ashiq Ali Khan, 8th Assistant Superintendent, and officiating as 7th Assistant Superintendent, to officiate as 6th Assistant Superintendent, *vice* Mr. A. Brown.

Mr. R. F. Lewis, Extra Assistant Conservator of Forests, Burma, and officiating as 8th Assistant Superintendent, to officiate as 7th Assistant Superintendent, *vice* Muhammad Ashiq Ali Khan.

Mr. P. Vaux, Head Quarter Inspector, Military Police, Port Blair, to officiate as 8th Assistant Superintendent, *vice* Mr. R. F. Lewis.

POLICE.

The 21st May, 1897.

No. 286.—The services of Lieutenant A. W. H. Lee, 16th Madras Infantry, are placed at the disposal of the Government of Burma for employment in the Burma Military Police.

J. P. HEWETT,

Secretary to the Government of India.

ECCLESIASTICAL.

The 21st May, 1897.

No. 178.—The following revised rules (1) for the care and use of Government cemeteries throughout India, except those in the Presidency Town of the Diocese of Calcutta and the Presidency Town of the Diocese of Bombay; (2) for the levy and expenditure of fees on graves and monuments in cemeteries and churches throughout India; (3) for the levy of other ecclesiastical fees; and (4) for regulating grants for the building of churches, compensation for accommodation for soldiers in chapels neither belonging to, nor rented by, Government, and for the supply of church furniture are published for general information and guidance:

I.

Rules for the care and use of Government Cemeteries throughout India, except those in the Presidency Town of the Diocese of Calcutta, and the Presidency Town of the Diocese of Bombay.

CHARGE OF THE CEMETERY.

RULE I.—(1) The Resident Chaplain of a station has charge of the general cemetery, and frames an estimate of the expenditure connected therewith in

* Appendix A.

accordance with the directions contained in paragraph 1, Home Department* Resolution Nos. 6—370-382, dated 9th November 1876.

(2) The term "Resident Chaplain" includes a Clergyman of the Additional Clergy Society so far as concerns the stations to which he stands appointed, or other clergyman of the Church of England placed in charge by the Bishop.

(3) Where there are Lay Trustees or a Church Committee they will have the same powers and responsibilities in regard to the cemetery as in regard to the Church. At stations where there are no Trustees or Committee, if there is no Resident Chaplain or during the temporary absence of the Chaplain, the charge of the cemetery belongs to the Chief Magistrate on the spot, or the senior Military Officer if the cemetery is attached to a military cantonment.

(4) At out-stations where there is a Church Committee the charge of the cemetery will belong to the Senior Member of the Committee, provided that if the station does not contain a Church which is the property of the Government, the appointment of the Senior Member of the Committee to hold charge of the cemetery will be subject to the approval of the Bishop or Archdeacon who may, if he consider it advisable, appoint some other person to the charge. At out-stations where there is no Church Committee the charge of the cemetery will belong to such person as may be nominated thereto from time to time by the Magistrate or Deputy Commissioner of the District, but subject to the control of such Magistrate or Deputy Commissioner.

RULE II.—Each cemetery is allowed a mali-chowkidar or chowkidars in accordance with the scale prescribed in paragraph 2, Home Department Resolution†

† Appendix A.

Nos 6—370-382, dated 9th November 1876. These chowkidars are paid by Government through the Resident Chaplain, by whom they are appointed and dismissed. In stations where there is no Resident Chaplain, the chowkidars are paid, appointed, and dismissed by the other officers named in Rule I.

RULE III.—Every reasonable effort should be made by the Resident Chaplain or other officer in charge under Rule I, not only to keep the cemetery in decent order, but to preserve its character as the resting-place of the remains of departed friends by providing for the necessary repairs and by planting the ground with suitable trees.

NOTE.—To meet the expenditure under this rule, see Rule I and paragraph 1 of Home Department Resolution† Nos. 6—370-382, dated 9th November 1876.

† Appendix A.

RULE IV.—The chowkidar will keep the key of the cemetery under the direction of the officer in charge.

RULE V.—The officer who has charge of the cemetery under the operation of Rule I will perform all the duties assigned to the Chaplain by Rules VII, VIII, IX, X, XI and XII, with the exception of the approval of designs of tombstones and of inscriptions to be cut on them. In the case of a tombstone in that part of the cemetery which is reserved for the Church of England, the proposed design and inscription must be forwarded to the Resident or Visiting Chaplain, or, if there be none, to the Archdeacon, and no action taken to erect the monument till his sanction has been obtained. In all other cases the design and inscription must be approved by the Minister of the particular denomination to which the deceased belonged. Should there be no Resident or Visiting Minister of that denomination, the inscription and design must be approved by the Senior Minister belonging to it in the province, or, if there be none, then by the Local Government or Administration. Should a design or inscription be disapproved, it may be referred, if those who are interested desire this, through the Ecclesiastical superior of the denomination concerned, to the Local Government or Administration for decision.

INTERMENTS BY WHOM TO BE CONDUCTED.

RULE VI.—(1) The Chaplain will bury Christians of all denominations whose friends desire his services as laid down in the orders of the Government of India in the Home Department,* No. 159, dated the 6th June 1877, using always the service of the Church of England and the consecrated portion of the cemetery.

* Appendix B.

(2) A portion of every cemetery will be set apart by the orders of Government for the use of Roman Catholic congregations, and another portion will be appropriated for the joint use of other Christians whose friends desire that they should be interred otherwise than according to the ritual of either the Church of England or of the Church of Rome, or who cannot legally be so interred.

(3) The unconsecrated portions thus set apart are not to be fenced or walled off from the rest of the cemetery, but simply divided off by a pathway, and they must be added to the existing cemetery or reserved from it. If the existing cemetery be large enough for the wants of the whole Christian community, such portions will be reserved without reference to the fact that the whole enclosure has or has not been consecrated according to the rights of the Church of England. If the cemetery be only large enough for the wants of Christians desiring to be buried with the service of the Church of England, such portions will be added. The whole cemetery thus divided is to be surrounded by a wall, to have but one gate of entrance, and to be under the care of the officer specified in Rule I.

RULE VII.—(1) Ministers of all denominations have a right to conduct the service of burial over the body of any deceased member of their respective congregations who may be buried in any fitting portion of the ground set apart for the denomination to which the deceased belonged. At least six hours' previous notice of the burial should be given to the Chaplain in charge of the burial-ground, or, in the absence of the Chaplain, to the officer who may be in actual charge. The period herein prescribed may, for special reasons, be shortened with the permission of the Chaplain, or officer in charge of the cemetery. Such Chaplain or officer will, if he thinks the circumstances of the case demand it, bring the facts to the notice of the local Magisterial authorities in time to admit of an order stopping the burial being passed if necessary.

(2) In the cases in which the deceased was in the military or civil employment of Government and the death occurred in a military station, it is the duty of the Officer Commanding the Corps or Head of the Department concerned to inform the Minister of the denomination to which the deceased belonged, of

the hour at which the funeral may be expected at the cemetery. This report is to be in addition to that required by Rule VII (1).

(3) A certificate of burial drawn up according to the required form must be sent to the Chaplain or to the Registrar of Births, Marriages, and Deaths, to be entered in the register kept up by him. The Officer Commanding the station or Regiment or the Local Head of the Department with which the deceased was connected is responsible for the submission of the certificate.

RULE VIII.—(1) No burial can, as a general rule, take place in that part of a Government cemetery which has been set apart for the use of members of the Church of England unless the service prescribed by that Church is read by the Chaplain, if there be one, or, in his absence, by the layman who officiates at the funeral. But a person may be interred in the other portions of a Government cemetery with or without the use of any services of religion.

(2) Where in that part of a Government cemetery which has been set apart for the use of members of the Church of England there is a family vault or grave, or a reserved plot of ground purchased by a member of the family, or a masonry grave prepared in immediate contiguity to such family vault or grave or reserved plot, any deceased member of a family may, if the relative, friend, or legal representative having charge of the funeral arrangements shall so desire, be interred in such family vault, grave, or reserved plot without the performance of the service for the burial of the dead according to the rites of the Church of England.

(3) The burial may take place at the option of the person having charge of the same either without any religious service or with such Christian and orderly religious service at the grave as such person shall think fit; and any person or persons who shall be thereunto invited, or be authorised by the person having charge of such burial, may conduct such service or take part in any religious act thereat.

(4) Notice of any burial which it is intended to conduct under the provisions of clauses (2) and (3) shall be given to the Chaplain or other officer in charge of the burial-ground in the manner prescribed by Rule VII.

ARRANGEMENTS FOR BURYING.

RULE IX.—Where there is a Resident Chaplain he is responsible for the arrangements for digging a grave and shall, ordinarily, arrange for the preparation of a coffin. Should he find or anticipate difficulty in making private arrangements for the preparation of a coffin, he should apply in military stations to the senior Military officer, and in civil stations to the chief local Magistrate to make the necessary arrangements; and these officers are authorized to direct any local Public Works officer to supply all that is necessary. The local Public Works officer would usually be the Executive Engineer of Military Works in military stations and the Civil Executive Engineer in civil stations; but the senior Military officer in a military station and the chief local Magistrate in a civil station may, in cases of emergency, direct the Civil Executive Engineer or the Military Works Executive Engineer, respectively, to make the necessary arrangements. The Resident Chaplain is in all such cases responsible that timely notice is given to the Government officers who may be called upon to arrange for the preparation of a coffin.

The senior Military officer in a military station and the chief local Magistrate in a civil station may, should the Resident Chaplain report that private arrangements for the preparation of coffins are not feasible, issue a general order on the Executive Engineer, Military Works, and the Civil Executive Engineer, respectively, to prepare coffins upon the requisition of the Resident Chaplain. The expenditure incurred by the Executive Engineer will be held in his miscellaneous advance account till repaid by the officer under whose special or general order it was incurred.

During the absence of the Resident Chaplain from the station the senior Military officer in a Military station and the chief local Magistrate in a civil

station shall be responsible for the arrangements for digging graves and preparing coffins.

NOTE.—The expenses incurred in connection with the burial of paupers who die within Cantonment limits will be defrayed from Cantonment Funds under the orders contained in the Circular from the Quarter Master General in India, No. 18, dated the 20th March 1884. In the case of paupers who die out of Cantonment limits, the expenses will be defrayed by the Magistrate of the District.

RULE X.—The officer in charge of the cemetery shall keep a plan of the entire cemetery to be provided by the Public Works Department, with references written upon it, in a book, in which the names of parties interred are recorded; this plan and book being kept with the Church registers.

NOTE.—The Executive Engineer prepares a plan of the cemetery showing on it all the existing graves and the spaces allotted for future graves, and giving them all consecutive numbers.

RULE XI.—The officer in charge of the cemetery may reserve grave space, as limited by Rule XII below, on the application of near relatives of persons already buried in the cemetery and for the burial of the persons named in the application. A double ground fee shall be levied in advance before granting any such application, and each grant shall be registered in a book to be kept for the purpose and indicated on the plan. The ground will then be reserved for 10 years. Before the expiry of that period, a fresh application should be made and a further double fee paid, failing which the ground will be resumed.

RULE XII.—The size of each grave, whether of masonry or not, is limited to 9' X 4', and the area of ground to be enclosed must not exceed 11' X 7' by external measurement.

RULE XIII.—(1) All graves must be at least 6 feet in depth.

(2) No body shall be buried in any vault or masonry grave which it is intended at any after time within 14 years to re-open unless the coffin be separately entombed in an air-tight manner by properly cemented stone or brick work, which shall never be disturbed.

(3) One body only shall be buried in a grave at one time, unless the bodies be those of members of the same family.

(4) No non-masonry grave or masonry grave unprovided with the separate air-tight compartment prescribed in clause (2) shall be re-opened within 14 years after the burial of a person above 12 years of age, or within eight years after the burial of a child under 12 years of age, unless to bury another member of the same family, in which case a layer of earth not less than one foot thick shall be left undisturbed over the previously buried coffin. If on re-opening the grave any soil is found to be offensive, such soil shall be left undisturbed.

(5) There shall never be less than three feet of earth between the topmost coffin in a grave and the surface of the ground.

ERECTION AND REPAIR OF MONUMENTS.

RULE XIV.—Monuments may be erected by any interested person. The inscription before being cut and the design, when the monument is other than a simple headstone, must be first approved of as laid down in Rule V.

RULE XV.—When a grave is not of masonry throughout, the only monument ordinarily allowed over it is a simple cross or headstone on an adequate masonry foundation not exceeding 3' X 2'; and the whole structure must not stand higher than 3' 6" from the ground level. But, with the permission of the officer in charge of the cemetery, a monument, such as may be erected over a masonry grave, may be placed over a non-masonry grave when adequate masonry foundations are provided on which the monument may rest.

RULE XVI.—No monument, of whatever material constructed, shall exceed 8' X 4' at the base without the previous sanction of the Local Government.

RULE XVII.—No monument of *masonry* shall stand higher than 3 feet from the ground-level.

RULE XVIII.—No cenotaph shall be more than 6 feet square at the base.

RULE XIX.—The enclosure of ground round a grave must be by a metal railing, or by chains or bars of metal supported on masonry or metal pillars. Wooden or masonry enclosures are not permitted. The previous sanction of the Archdeacon, or, in his absence, of the Bishop, is necessary to the enclosure of a non-masonry grave: and no such sanction will be given unless the fee required by Rule I of Part II has been paid.

RULE XX.—When a monument needs repairing, the officer in charge of the cemetery should communicate with the friends of the deceased, or when such communication is not possible, advertise three times in the *Gazette of India* and the *Gazette of the Province*; and if it falls into a ruinous condition, and no person will undertake to restore it, the ruined monument shall be made level with the ground during the next repairs, and any slab it contained will be placed over the grave in simple masonry, or be inserted in the wall of the cemetery.

NOTE.—(1) This rule does not apply to monuments of historical or archæological interest. Lists of such tombs should be obtained by Local Governments and Administrations, and as many of them as may be properly preserved at the public expense should be looked after by the local Public Works Department.

(2) The cost of the advertisements in the *Gazette* is met by the Government.

(3) A person other than a British soldier or a non-commissioned officer desiring to erect a monument over a grave is required to pay into the treasury a sufficient sum of money to be invested in Government securities, so that the interest on it will be sufficient to cover the cost of repairs annually. A British soldier or a non-commissioned officer is not compelled to make a deposit; but in the event of money for repairs not being forthcoming, Rule XX is held to apply. The foregoing rules shall apply *mutatis mutandis* to railings round graves, which shall not be constructed until the requisite sum has been paid to cover the cost of repairs.

Explanation.—It is optional with a person, other than a British soldier or non-commissioned officer, proposing to erect a simple cross, head-stone or slab, consisting of a single stone over an adequate foundation, to pay the endowment fee for its maintenance and repairs; but, if no such fee is paid, the cross, head-stone or slab will be liable to removal, if it should need renewal, under Rule XX. The optional endowment fee may be paid at any time after the erection of the stone.

RULE XXI.—All work connected with monuments must, as far as possible, be carried on outside the cemetery, and any undertaker not removing the debris of his work immediately upon its completion is liable to a fine of Rs. 5.

INSPECTION.

RULE XXII.—The cemetery should be inspected annually by the Chaplain in company with the Executive Engineer, the plan and book kept under Rule X being also examined, and a report made to the Archdeacon, and recorded in the ecclesiastical record-book of the station, and also in the Engineer's office.

RULE XXIII.—(1) Commissioners of Divisions should inspect cemeteries, whether closed or in use, within their respective jurisdictions, in the course of their annual tours, and should bring to the notice of the Local Government any instances of cemeteries which are negligently kept, or which the officers in charge may have allowed to fall into a state of bad repair or disorder. All cemeteries are equally subject to the visitation and supervision of the Bishop and Archdeacon.

(2) Sanitary officers in cantonments are invited to inspect cemeteries within their respective cantonments and to report to Local Governments any matter calling for notice.

MISCELLANEOUS.

RULE XXIV.—It is desirable that officers commanding regiments or detachments should be instructed to cause a report to be made to the nearest

civil officer of graves dug for soldiers on march that measures may be taken for their effectual protection and preservation. These graves and all scattered Christian graves throughout the district are under the care of the local civil authorities.

II.

Rules regarding fees in Cemeteries and Churches throughout India.

RULE I.—The following are the rates of fee chargeable:

	Rs.	a.	p.
(1) For every square foot of ground occupied by a grave, whether masonry or not	0	8	0
NOTES.—(1) This fee is independent of the actual charge for making a grave.			
(2) By the terms <i>ground occupied</i> in this rule is meant in the case of an unenclosed grave, the area actually occupied by the grave; and in the case of enclosed graves, graves with monuments or graves partly covered by monuments and partly enclosed, the area actually occupied by the grave <i>plus</i> all additional space either enclosed or occupied by a monument.			
The fee of eight annas in question is irrespective of all charges leviable under clauses (2) to (5) of this rule.			
(2) For a masonry monument, per square foot	1	0	0
(3) For a cut-stone or marble monument, per square foot	0	8	0
Provided that no fee under (2) or (3) shall be less than	5	0	0
(4) Additional fee when a cut-stone or marble monument stands higher than 3 feet from the ground-level	16	0	0
(5) For a headstone or cross over a non-masonry grave	5	0	0
(6) For a faculty for the erection of a monument in a Church	75	0	0
NOTES. (1)—A tablet on the wall of a cemetery shall be regarded as a monument.			
(2)—The term "stone or marble" does not include "slate."			
(3)—The fee of Rs. 75 levied on a faculty is in all cases to be spent in charity.			
(7) For a cenotaph, in addition to the ground fee, a special fee of	50	0	0
NOTE.—If any of the persons commemorated are interred beneath a monument, it should not be classed as a cenotaph.			
(8) For burial in a family vault	3	0	0

RULE II.—Fees are leviable over the whole cemetery, including those portions which are used by Roman Catholics and Non-Conformists.

- NOTES.—(1) The same rules in regard to fees apply to all graves, whether of Roman Catholics, of Non-Conformists, or members of the Established Church.
- (2) Where a parcel of ground used for burial by a Christian community of any particular denomination other than the Established Church of England forms no part of the general cemetery, but is separate from it, or where, although not so separate, it is clearly distinguishable and was not originally acquired, and has not been kept up at the expense of the State, then if the community by which the ground is used so desire, the Government will give up all claim to fees on the distinct understanding that it is divested of all responsibility for the maintenance of the cemetery in proper order. On the other hand, where such parcels of ground form part of a cemetery of the Established Church or the general Christian community provided and maintained by the Government, no distinction can be made as to keeping up any one part of the cemetery, nor should any exemption from fees be permitted.

EXEMPTION FROM FEES IN GOVERNMENT CEMETERIES.

RULE III.—Regimental and non-departmental warrant officers and all British non-commissioned officers and soldiers are exempted from the payment

of any fee for the construction of graves, or for the erection of monuments in burial-grounds to the memory of their comrades, wives, or children ; but not from the fees prescribed under Rule I (6) and (7). The widows and children of regimental and non-departmental warrant officers and all British non-commissioned officers and soldiers are also exempted from payment of the former class of fees in the case of their deceased husbands and parents. No monument, either regimental or private, shall exceed the dimensions prescribed in Part I of these rules.

NOTES.—(1) This rule is applicable to regimental and non-departmental warrant officers and all British non-commissioned officers and soldiers whether in military or civil employ.

Native Christians belonging to Her Majesty's army are British soldiers within the meaning of this rule.

(2) Monuments erected under this rule subscribed for partly by regimental (including non-departmental) warrant officers, non-commissioned officers and men and partly by officers are likewise exempted from the prescribed fee.

(3) Departmental warrant officers and volunteers are not exempted from payment of ecclesiastical fees.

RULE IV.—The Chunar pensioners being more or less under military control come under the category of soldiers, and are therefore entitled to the same exemptions as soldiers. But this ruling does not apply to other pensioners who are not similarly under military control.

RULE V.—The Chaplain may at his discretion reduce, or in cases of extreme poverty altogether remit, the fee leviable on the construction of graves, but not for the erection of monuments.

NOTE.—The Bishop on special occasions may sanction a reduction or remission of fees for the erection of monuments.

FEES BY WHOM TO BE COLLECTED.

RULE VI.—The Chaplain or other officer in charge of a cemetery may appoint an official mason, who may be granted a monopoly of the whole or any portion of the masonry work beneath the surface within the cemetery, subject to such conditions as may be agreed upon at the time of making the appointment ; and may, subject to the same conditions, discharge him at his discretion. When an official mason has been appointed, he shall be responsible for the collection and payment to the Chaplain or other officer as aforesaid of the requisite fees in respect of all work executed by him. Fees in respect of work in the cemetery not executed by an official mason must be paid in advance.

NOTE.—Fees on masonry graves and monuments constructed by the appointed mason or undertaker need not be paid in advance ; but in case of failure of payment their recovery must be entrusted by the Chaplain to the Magistrate or Deputy Commissioner, as the case may be.

FEES TO WHOM TO BE PAID.

RULE VII.—The fees prescribed in Rule I should be paid to the Chaplain, or, in the absence of the Chaplain, to the officer in charge of the cemetery and remitted at once to the civil treasury, except fees for monuments in churches, which should be paid over by the Chaplain to the charitable objects to which the Bishop assigns them when his faculty is issued.

CEMETERY RECEIPTS AND CHARGES.

RULE VIII.—All cemetery receipts and charges are to be regulated as laid down in paragraph 4 of Home Department Resolution* Nos. 6—370-382, dated

* Appendix A.

the 9th November 1876.

MISCELLANEOUS.

RULE IX.*—(1) A person may not purchase a portion of a Government cemetery as a burial-place for himself and his family so as to have a right to fence it with a rail or fence, and thus make it the private property of himself and family. But when such rights already exist, they are not without reason to be interfered with, and special cases as they arise may require exceptional treatment. In such special cases the Archdeacon may exercise his discretion with the sanction of the Local Government.

(2) All private rights must, however, cease if, for sanitary or other public reasons, the cemetery is closed against burials, or even that portion of it in which the private ground is situated; but in special cases the Archdeacon may exercise his discretion of giving permission to open a vault or masonry grave.

(3) No cutcha grave can be opened in any cemetery for the purpose of converting it into a masonry grave without application to the Archdeacon, which must be accompanied by a certificate from the Principal Medical Officer that this may be done without risk to public health.

* From Mr. JAMES SUTHERLAND, to the Officiating Secretary to the Government of India, dated 10, Clive Row, Calcutta, the 20th December 1877.

A Mr. Joseph Gill came out to this country with letters of introduction to me, and died very suddenly at the General Hospital, Calcutta. On a reference from the hospital authorities I had his body interred in the Catholic portion of the military burial-ground at Bhowanipur. His widow, now resident in Paris, writes to me to have his body exhumed and buried in a family vault in the Roman Catholic Church at Dhurrumtolla, but I am advised that the Garrison Chaplain, under whose care the burial ground is, requires the sanction of Government (Home Department) before permitting this to be carried out; and I would be much obliged if you would be good enough to give me the necessary sanction.

As the body will be interred in another grave without loss of time I would also be obliged if you would dispense with the necessity of a zinc coffin, which, from its imperishable nature, is likely to form a serious obstruction in a family vault.

From F. C. DAUKES, Esq., Under Secretary to the Government of India, to the Secretary to the Government of Bengal,—No. 1, dated Fort William, the 3rd January 1878.

I am directed to forward the accompanying letter, dated the 20th ultimo, from Mr. James Sutherland, asking for permission to remove the body of one Joseph Gill from the military burial-ground at Bhowanipur for re-interment in a family vault in the Dhurrumtolla Roman Catholic Church, and to enquire what is the rule or practice in such cases, and whether there is any objection to permission being granted to remove the body for re-interment.

From H. H. RISLEY, Esq., Under Secretary to the Government of Bengal, General Department, to the Officiating Secretary to the Government of India, No. 377, dated Calcutta, the 25th January 1878.

With reference to your Office letter No. 1 of the 3rd instant, and its inclosure, on the subject of the removal of the body of Joseph Gill from the military burial-ground at Bhowanipur for re-interment in a family vault in the Dhurrumtolla Roman Catholic Church, I am directed to submit herewith a copy of a letter (a) from the Venerable the Archdeacon of Calcutta, and to say that, under the conditions specified therein, the Lieutenant-Governor thinks that permission to remove the body may unobjectionably be granted.

(a) No. 702, dated 18th January 1878.

From the Venerable J. BALY, Archdeacon, Calcutta, to the Secretary to the Government of Bengal, No. 702, dated Mozufferpore, the 18th January 1878.

With reference to your note No. 122 of 8th January 1878, forwarding copy of letters relating to the removal of a body from the Bhowanipur cemetery to the Roman Catholic Church in Dhurrumtolla, I have the honour to say that there is no Government order bearing exactly on such a case, but that there is a regulation recently passed that no cutcha grave should be opened for the purpose of converting it into masonry grave or vault without previous reference to the Archdeacon and the certificate of the Principal Medical Officer that no risk would be incurred thereby to the public health.

If this is certified with respect to the removal of the body referred to, and the Roman Catholic authorities make no objection to its re-interment in the Dhurrumtolla Church, I see no particular reason why the removal should not be sanctioned. I think, however, that the coffin should certainly be cased with a zinc covering while it is being removed, which could be taken away, if necessary, when the coffin is finally deposited in the vault.

From J. O'KINEALY, Esq., Officiating Secretary to the Government of India, to Mr. JAMES SUTHERLAND, 10, Clive Row, Calcutta,—No. 44, dated Fort William, the 31st January 1878.

In reply to your letter, dated the 20th ultimo, I am directed to say that the Governor General in Council is pleased to grant permission for the removal of the body of Joseph Gill from the military burial-ground at Bhowanipur for re-interment in a family vault in the Dhurrumtolla Roman Catholic Church on the following conditions:

- (1) that you obtain a certificate from the Principal Medical Officer at the Presidency that no risk to the public health will be incurred by the removal of the body;
- (2) that the Roman Catholic authorities have no objection to the re-interment of the body in the Dhurrumtolla Church; and
- (3) that the coffin be encased in a zinc covering while it is being removed, which covering may be taken off when the coffin is finally deposited in the vault.

No. 45.

Copy to the Government of Bengal for information, with reference to letter thence, dated the 25th instant, No. 377.

No. 46.

Copy to the Venerable the Archdeacon of Calcutta for information.

RULE X.—(1) When a piece of ground is granted by Government as a cemetery to a Railway Company for the interment of its own servants, which afterwards keeps it in repair and provides the necessary establishment, so that beyond the original grant of ground Government is at no expense, the collection and application of fees accruing are left to the decision of the Railway Company which maintains the cemetery in good order and repair.

(2) The Commissioner or District or Judicial Officer, and in military stations the Officer Commanding, should inspect such cemeteries and report to Government if they find them negligently kept.

III.

Other Ecclesiastical Fees.

RULE I.—No fees are charged for the performance of the rite of baptism or burial, or for the registration of the performance of these offices.

RULE II.—In addition to the fee for the Surrogate's license, a fee of Rs. 10 shall be charged on all marriages by license, except the marriages of officers and others in the Military or Naval Service of Her Majesty.

RULE III.—The fee for a Surrogate's license shall be Rs. 50 both at the Presidency towns and in the interior. No fee shall be charged on marriages by banns.

RULE IV.*—When registers are searched and a copy of any entry given, a fee of one rupee shall be charged for the first year,† and four annas for every additional year over which the search may

† The first year shall be taken to mean any one year indicated by the applicant.

* Government of India, Finance Department, Notification No. 1603, dated the 9th June 1882.

In exercise of the powers conferred by section 8 of the Indian Stamp Act (1 of 1879), the Governor General in Council is pleased to remit the stamp duty (if any) chargeable on copies of, or extracts from, baptismal, marriage, or burial registers certified by Government Chaplains, subsidised or unsubsidised Clergymen, or Diocesan Registrars, and granted to—

(1) soldiers, sailors, or non-commissioned or petty officers;

(2) or persons in needy circumstances, in whose favour Chaplains may exercise the discretionary power vested in them by Rule IX (a) of the Ecclesiastical Fee Rules published on the 29th September 1869, and may grant exemption from the payment of fees under Rule IV (b) of those rules.

(a) Rule IV, Note (2), above.

(b) Same as Rule IV above.

Government of India, Finance Department, Notification No. 2036, dated the 30th June 1882.

Whereas copies or extracts certified to be true copies or extracts of baptismal, marriage, and burial certificates granted by Ministers and Marriage Registrars are generally furnished on printed forms for which impressed sheets of stamp paper cannot be used without inconvenience; therefore in exercise of the powers conferred by section 9 of the Indian Stamp Act, 1879, the Governor General in Council is pleased to make the following rule:

The stamp duty payable under article 22 of schedule I of the Indian Stamp Act, 1879, on copies or extracts certified to be true copies or extracts of baptismal, marriage, and burial certificates shall be denoted by means of adhesive court-fee labels.

Government of India, Home Department, Resolution Nos. 3—173-187, dated the 11th September 1882.

Read again—

Financial Department Notification No. 2036, dated the 30th June 1882, ruling that the stamp duty payable under the Indian Stamp Act, 1879, on copies or extracts certified to be true copies or extracts of baptismal, marriage, and burial certificates should be denoted by means of adhesive court-fee labels.

Financial Department Notification No. 1603, dated 9th June 1882, remitting the stamp duty (if any) chargeable on copies of, or extracts from, baptismal, marriage, and burial registers certified by Government Chaplains, subsidised or unsubsidised Clergymen or Diocesan Registrars, and granted to certain classes of persons therein specified.

Read also—

A letter from the Officiating Senior Chaplain of the Church of Scotland, No. 58-A., dated the 5th July 1882, on the same subject.

RESOLUTION.—In connection with the orders contained in the above-mentioned Notification issued by the Department of Finance and Commerce, the following questions have now been raised by the Officiating Senior Chaplain of the Church of Scotland:

(1) In what way the adhesive court-fee labels prescribed by the Notification, dated the 30th June last, should be defaced; and

(2) Whether in a case of a certificate granted to a person belonging to any of the classes exempted by the Notification, dated the 9th June last, anything should be written on the certificate to show why it has been granted without the payment of stamp duty.

2. As regards the first question, the Governor General in Council is pleased to direct that the officer issuing the certificate shall cancel the adhesive court-fee label affixed thereto by writing his name across it; and with regard to the second question, His Excellency in Council considers it desirable that a statement signed by the officer issuing the certificate should be made thereon, showing the grounds on which such certificate is issued without the payment of stamp duty.

extend, as well as a fee of one rupee for the certificate. Soldiers, sailors, and non-commissioned and petty officers are exempted from payment.

- NOTE.—(1) The amount of fees payable for marriages performed, and for searching registers kept in accordance with the provisions of Act XV of 1872 (The Indian Christian Marriage Act), is fixed by each Local Government.
- (2) The Chaplain may at his discretion reduce, or altogether remit in cases of extreme poverty, the fee for searching registers.

IV.

Rules for regulating grants for the building of Churches; compensation for accommodation for soldiers in Chapels neither belonging to, nor rented by, Government; and for the supply of Church furniture.

RULE I.—All State charges for Churches are provided from Public Works Funds.

In Civil, Military, or State Railway Stations such charges are to be dealt with under the general head “Civil Buildings.” In the case of Churches in stations where there are military cantonments and the Military Works are under the charge of the Director General, and in the case of Churches in Provinces to which the Provincial Service arrangements do not apply, the necessary funds should be provided from the ordinary grant for Imperial Works under “Civil Works.” In other cases the funds should be provided for from the allotment for Provincial Services.

NOTE.—At certain Military Stations in Madras, Bombay, and the Central Provinces where the Military Works Department has wholly replaced the Public Works Department, the expenditure on churches and cemeteries in charge of the Military Works Department is still met from Provincial funds, in accordance with terms of the Provincial contracts with the Local Governments concerned.

RULE II.—The provision of Churches from Public Works Funds is authorised under the limitations given in the following rules.

MILITARY STATIONS.

RULE III.—At all permanent Military Stations, Churches will be provided by the Government for its Protestant and Roman Catholic European British-born soldiers on the scale laid down in Rule VI.

NOTE.—The term “Protestant” includes members of the Church of England and of the Established Church of Scotland, Presbyterians, Wesleyans, and such other denominations of Christians as may from time to time be included by the Government of India.

RULE IV.—The amount of the Government grant for a Protestant Church will in no case exceed such a sum as will suffice to provide a plain substantial building of the simplest ecclesiastical design, together with such plain furniture as is essentially necessary for the proper performance of the service according to the ritual of the Church of England. It will rest with private individuals to furnish the means of imparting architectural decorations to the building should they desire to do so, and also of supplying additional furniture, including apparatus for lighting of a more costly description.

RULE V.—The same principles will regulate the grant for Roman Catholic Churches.

RULE VI.—The number of sittings to be provided will be calculated on the following scale :

Detail.	Protestant.	Roman Catholic.
	Nos.	Nos.
Regiment of British Infantry	450	340
Wing of „ Cavalry	220	170
Regiment of „ „	340	200
Wing of „ „	200	130
Troop of Horse Artillery or Light Field Battery	100	50
Heavy Field Battery	80	25
Garrison Battery	50	30

NOTE.—These numbers include soldiers’ families.

RULE VII.—Any provision that may be necessary may also be made for Staff Officers, Officers of Native Regiments, and, where no Civil Church exists, for European British-born subjects in the service of Government, or for Railway servants in accordance with the scale and terms hereinafter prescribed for Civil and Railway stations respectively.

RULE VIII.—As a rule, only one Protestant and one Roman Catholic Church will be provided; and where the number of sittings required for the troops according to the scale above given is very large, the size of the Church may be regulated so as to allow of at least one-half of the troops attending service at one time.

RULE IX.—The Government grants for Churches will be calculated on the following basis. The Executive Engineer shall prepare a ground plan, which shall afford—

- (a) accommodation for the total congregation to be provided for according to the scale laid down in Rules VI and VII, and allowing six superficial feet per sitting;
- (b) passages, chancel, vestry, porch of such moderate dimensions as may be reasonable in each case, and verandahs where necessary;
- (c) tower or belfry, as may be required according to the dimensions, general design, and locality of the building.

The Government grant will be at a rate per superficial feet of the area of (a) and (b), 25 per cent. in excess of that which prevails at the station for ordinary single-storied buildings. Where a tower is admissible, a further grant, at the above rate, may be made for it, calculated on an area not exceeding three times the area occupied by its base.

CIVIL STATIONS.

RULE X.—At the chief Civil Station of a District, where there are at least 25 European British-born subjects, Protestants or Roman Catholics, as the case may be, in the general service of Government, and where no suitable Church provision for them exists already, the Government will contribute towards Church accommodation upon the following terms:

(1) <i>Number of sittings required.</i>	(2) <i>Maximum Government grant.</i>
	Rs.
25	2,000
50	3,500
100	5,000
150	6,000
200	7,000
250	8,000
300	9,000
350	10,500
400	12,000
excess over 400	Rs. 30 per seat in excess.

NOTE.—(1) When the number of seats to be provided lies between any two numbers given in the table, the grant for the portion of the whole number of seats represented by the lower numerical figure in the table will be the grant shown against that figure, the rate per sitting for the excess number of seats over such lower figure being arrived at by dividing the difference between the maximum grant shown against the next higher figure and the said lower figure by the difference between the higher and lower figure. Thus for 110 seats the Government grant for 100 seats will be Rs. 5,000, and for the remaining 10 at the rate of $\frac{6,000 - 5,000}{150 - 100} =$ Rs. 20 per seat.

(2) As a rule, only one Protestant and one Roman Catholic Church will be provided. In the case of Protestant Churches, accommodation will ordinarily only be provided for the number willing to attend the Church of England service.

(3) In ascertaining the number of seats to be provided, women and children belonging to the families of European British-born subjects in the general service of Government, and pensioned soldiers and their families, may be taken into account: two children being counted as one adult.

(4) In cases of stations where abnormal rates prevail, special application may be made to the Government of India for an increase to the grant given by the State, but no grant for more than 200 sittings will be made except at seats of Local Governments and Administrations, or at Hill Sanatoria. In the latter case, the number of European British-born subjects in Government service must exceed (without their families) 120 to warrant the grant for a Church of greater accommodation than 200 sittings.

RULE XI.—No Government grant for a Church in a Civil Station will be made until private subscriptions have been obtained, and then the grant will not exceed double the amount thus actually realised, the maximum figure in column 2 of the table above being in any case the extreme limit of the grant towards the scale of accommodation which stands opposite in column 1. And in no case will the Government grant be allowed until these contributions, together with the grant, amount to the estimated cost of the Church.

RAILWAY STATIONS.

RULE XII.—Whenever there are at any State Railway station or dépôt so situated that other Church accommodation does not exist, or is not available with reasonable convenience, at least 25 persons in the Railway service who are of European descent, pure or mixed, retaining European habits and modes of life and professing the Christian religion, whether Protestant or Catholic, Churches will be provided by the Government for them in accordance with Rules IV, V, and VIII; the number of sittings being calculated on the principle, *mutatis mutandis* of Rule X, notes (2) and (3), and the grant being in conformity with Rule IX.

RULE XIII.—Whenever such separate Churches are not required, Church accommodation for any such persons may be provided in the plans of any Church which is about to be erected at a military or civil station; but in the case of a Church at a civil station, the restrictions in Rule X, note (4), and in Rule XI, shall not apply in respect of the numbers of, and grants for, such persons.

RULE XIV.—In cases where a State Railway station or dépôt is considered by the Railway administration to be likely to increase, such addition may be made to the number of sittings, calculated as above provided as the Government of India in the Public Works Department may, in each case, sanction.

NOTE.—Rule XII to XIV apply only to State Railways worked by the State and in other cases when the State is in the position of the employer of labour.

RULE XV.—In the case of Church accommodation for servants of a Railway not worked by State Agency and not falling within the note to Rule XIV, it will be within the discretion of the Board of Directors or other duly empowered representative of the Company, with the approval of the Government of India, to provide funds for Church accommodation under Rules XII to XIV. In such cases the cost will be chargeable to the Capital or Revenue account of the Railway as the circumstances of each case may suggest.

GENERAL.

RULE XVI.—It is desirable, whenever such a course will not be attended by inconvenience, to combine the Civil or Railway with the Military Church of a station, the grant allowed for the Church accommodation of the British troops or State Railway servants before given being supplemented by a grant according to the scale shown in Rules X and XI, or XII to XV, as the case may be. In special cases buildings may be rented for Divine Service, with the previous sanction of the Government of India, or of the Local Government or Administration, according to whether the charge is Imperial or Provincial.

RULE XVII.—In addition to Church accommodation as above prescribed, a house for the chowkidar or resident bearer may be provided. In cases, however, where the Church is distant from the bazar, and where special grounds are shown, accommodation may be provided for other duly authorized servants; but such further accommodation will be limited to shelter for day use only. These houses should, when practicable, be adjoining to, and not within, the Church compounds; but when within them, they should be erected in keeping with the other Church buildings.

RULE XVIII.—Grants from Imperial Funds will be sanctioned by the Government of India in the Public Works Department only. Grants from Provincial Funds will be sanctioned by the Local Governments and Administrations, subject to the limitations contained in these Rules.

RULE XIX.—The scales of accommodation and expense for all Churches above laid down are in no case to be exceeded without a reference to the

Government of India, even though the proposed expenditure from Public Funds may be within the powers of sanction vested in the Local Government or Administration.

RULE XX.—Church accommodation for non-official residents, either British-born Europeans or others, or for official residents other than British-born or State Railway servants, should not be sanctioned by the Local Governments or Administrations without reference to the Government of India.

RULE XXI.—When private contributions are combined with a Government grant towards building a Church, the procedure to be adopted is as follows :

(a) Under ordinary circumstances, the amount of private contributions being known, a definite design and estimate will be prepared by the Executive Engineer and submitted for sanction in the usual way, the limit by which the Executive Engineer will be guided in his designs being the aggregate of the Government grant according to the scales given in the preceding Rules, and the amount of private contributions actually realised.

(2) Before the work is commenced, the amount of the private contributions must be paid into a Government Treasury, or guaranteed by sufficient security, and carried to credit of Deposits in the accounts of the Department.

NOTE.—In the case of a grant from the Church Building Fund for the Diocese of Calcutta, a certificate instead of a cash payment in advance may be accepted, showing the amount of the contribution to be allowed. The conditions on which this certificate may be accepted are that in every case definite arrangements must be made with the Local Government or Administration concerned respecting the precise date on which the contributions will be paid, and that, until the payment is made, the Government shall have a primary lien on the funds of the Society. In case of any failure in paying up the stipulated payment on due date, the privilege herein allowed is to cease.

(3) In dealing with cases of this nature, the private contribution is to be looked upon as an addition to the Government grant, instead of the money allowed from public funds being considered as grant-in-aid of private contributions, and the responsibility of Public Works officers with respect to the preparation of estimates, and the construction of such buildings with reference to excess of expenditure over the estimate, will be as strictly enforced as where only public funds are expended.

NOTE.—In the case of State Railways, the functions assigned in this and succeeding Rules to the Executive Engineer will devolve on the Manager.

(b) In special cases, however, the Government grant for a Church at a Civil or Railway station may, with the sanction of the Government of India or of the Local Government or Administration, as the case may be, be treated as a grant-in-aid of private contributions raised for a Church intended either as a Civil or Railway Church within the meaning of these Rules, or partly for the use of non-official residents or others for whom grants are not admissible under these Rules.

(2) In such cases, the plans and specifications shall be submitted to the Executive Engineer for the approval of the proper officers in the Public Works Department, who shall sanction them on satisfying themselves that they are safe and suitable and can be executed for the estimated amount. The construction of the building may then be left to the managers or trustees of the private contributions raised, with whom must rest the responsibility for excess, if any, over the amount of this sanctioned estimate.

(3) In such cases, the grant will ordinarily not be paid in full until the Executive Engineer has certified that the building has been completed in accordance with the sanctioned plans and specifications; but the Executive Engineer may make advances out of the sanctioned grant on receiving sufficient proof that the building is proceeding satisfactorily, and on the managers or trustees certifying that all subscriptions relied on in support of the application for the grant have been paid up in full or guaranteed by sufficient security.

(4) When a grant is made under clause (b) of this Rule for a Church intended partly for the use of non-official residents and others for whom grants are not admissible under these Rules, there shall be a trust deed, duly registered—
(1) declaring that the building is granted in trust for Church purposes only;
(2) giving to Government a prior lien on the building for the recovery of the grant in the event of the former being diverted to other purposes; (3) providing

for the legal ownership of the building; and (4) indicating sufficient sources for its proper maintenance.

RULE XXII.—In any case in which a Church is built partly from private contributions and partly from a Government grant, the Government is entitled at any time to require that a proportion of the seats in the Church, not exceeding the proportion which the Government grant bears to the whole expenditure incurred in building the Church, shall be reserved for troops and other Government servants who may be allowed free seats under Rule XXVII.

RULE XXIII.—The preceding Rules shall apply, as far as may be, to the enlargement of existing Churches.

CHURCH FURNITURE.

RULE XXIV.—The supply of Church furniture will be regulated by the following Rules. All expenditure connected with the articles to be supplied by the Public Works Department will be provided for under the Rules laid down for that purpose:

(1) Each Protestant Church, Civil, Railway or Military (Cathedrals excepted), will be supplied by the Public Works Department with the following articles of furniture, the cost of which will be allowed in addition to the grant for the building. The renewal and repair of such articles will also be provided for by the Public Works Department subject to the conditions of Rule XXVII:

	Maximum cost.
	Rs.
(a) Appliances to seat the congregation, and to allow them to kneel in decent comfort—	
Officers, per seat	5
„ stool or hassock	2
Soldiers, per seat	4
„ stool or hassock	1
(b) Communion table, each	45
„ rails, per running foot	4
(c) Pulpit, each	200
(d) Reading desk and stool	60
(e) Font and cover	60
(f) Vestry almshouse	45
„ table	12
Two vestry chairs, per pair	10
(g) Two altar chairs	24
(h) Pankahs, complete, per running foot	2
Thermantidotes when necessary, each	200
(i) Lighting apparatus, per 100 seats	100
Candlesticks for pulpits, per set	40
„ for lectern	30
„ for reading desk	30
(j) Lectern	50

- (k) One bell of reasonable size to summon the congregation to Church, at a cost not exceeding Rs. 300 for a first class Church (*vis.*, those containing more than 400 sittings), and Rs. 200 for a second class Church (*vis.*, those containing not more than 400 sittings).
- (l) Chicks or bamboo blinds for doors and windows where absolutely necessary.
- (m) Matting where absolutely necessary for Churches with terraced floors.
- } At market rates.

The "reading desk" should be simply a desk (however appropriately shaped), and not an enclosure, expensive from its size and occupying needless space.

(2) The Civil Department will provide the following articles of service on the Executive Engineer's certificates of the necessity of supply. The renewal and repair of such articles will also be provided for by the Civil Department subject to the conditions of Rule XXVII, and on the production of the Executive Engineer's certificate as to the necessity for the expenditure :

	Rs.
* Suitable set of Communion plate	150
A strong box to be made in India, and which may be locally purchased for custody of communion plate, which is also to be used for records	150
* Altar cover of red embroidered cloth	150
* Bibles and prayer-book for the Clergyman	50
* Fair linen cloth and napkins for Communion service	35
* Two service books for the Communion table	30

* NOTE 1.—Where the congregation choose to contribute in order to procure any of these articles (or those mentioned in clause 1) of a richer design or material, the fixed grant may, if so desired, be paid to the Chaplain, and the purchase of the articles left to his and their joint discretion.

NOTE 2.—The cost of re-gilding articles of plate supplied under clause 2, Rule XXIV, will be met by the Civil Department subject to the conditions of Rule XXVII, and on the production of the Executive Engineer's certificate as to the necessity for the expenditure.

(3) In Cathedrals of the Church of England, the renewal and repair of furniture and articles of service shall be provided out of the fixed monthly grants made by the Civil Department towards the maintenance of service, supplemented, if necessary, by contributions from the congregation.

(4) Each Roman Catholic Church built by Government, Civil, Railway or Military, will be supplied by the Public Works Department with the following articles of furniture the cost of which will be allowed in addition to the grant for the building. The renewal and repair of such articles will also be provided for by the Public Works Department subject to the conditions of Rule XXVII :

	Maximum cost.
	Rs.
(a) One bookstand	8
(b) One almirah for altar vestments, etc., at least 4 feet long by 2 feet 5 inches broad	45
(c) Three Altar chairs for officiant and assistants	36
(d) One table and three chairs for the Vestry	27
(e) One font and cover	60

	Maximum cost. Rs.
(f) Seats and kneeling accommodation for the congregation—	
Officers, per seat	5
„ stool	2
Soldiers, per seat	4
„ stool	1
(g) Altar table	45
(h) Communion rail, per running foot	4
(i) Pulpit, each	200
(j) Punks where required, complete, per running foot	2
(k) Thermantidotes, where necessary	200
(l) Apparatus for lighting, per 100 seats	100
(m) One bell as in (k), clause I.	
(n) Chicks or bamboo blinds for doors and windows where absolutely necessary.	} At market rates.
(o) Matting where absolutely necessary for Churches with terraced floors.	

A second Altar table may be supplied to Churches intended to accommodate more than 500 persons.

(5) The following articles of service will be supplied to Roman Catholic Churches by the Military Department on the Executive Engineer's certificates of the necessity of original supply. The renewal and repair of such articles will also be provided for, subject to the conditions of Rule XXVII, and on the production of the Executive Engineer's certificate as to the necessity for the expenditure. The articles required for Churches at Military Stations will be supplied and repaired or renewed by the Military Department, and those for Churches at Civil and State Railway Stations by the Civil Department :

	Rs.
(1) One Tabernacle, inside covered with silk	150
(2) One Pyx with silver cup, inside gilt	100
(3) One Chalice	100
(4) One Monstrance	180
(5) Six Altar candlesticks and crucifix	180
(6) Two cruets and one plate	10
(7) One Altar lamp	30
(8) One Missal	25
(9) Altar Canons (one set of three)	8
(10) Altar Vestments of silk (five sets of the five colours)	300
(11) Two Copes, one white and one black, of silk	120
(12) Humeral for Benediction	30
(13) Altar linen, comprising Albs, Altar covers, Communion cloth, etc.	80

NOTE.—The cost of re-gilding articles of plate supplied under the foregoing rule will be met by the Military or Civil Department subject to the conditions of Rule XXVII, and on the production of the Executive Engineer's certificate as to the necessity for the expenditure.

(6) Churches rented by Government or Government buildings set apart temporarily as Churches, for use of European troops or European-born subjects in the service of Government, or of State Railway servants, should be supplied by the Departments concerned (*vide* clauses 1, 2, 4 and 5) with such Church furniture and articles of service as are absolutely necessary for the performance of Divine service. The number and description of the articles to be supplied should be determined by a Committee, consisting of the Chaplain, the Executive Engineer, and the Chief Local Magistrate. In the case of Churches for troops or for State Railway servants, the senior Military Officer, or the Manager of the Railway will take the place of the Chief Local Magistrate.

The articles of furniture and service should be of the plainest description, unless there is under construction by Government a Church for which Church furniture and articles of service would have to be supplied under clauses 1, 2, 4 and 5.

Articles supplied for use in temporary Churches should be returned into store when the building ceases to be used as a Church, unless they are required for supply to a permanent Church built by Government.

(7) All applications for funds for the supply to Roman Catholic Churches of the articles of service mentioned in clause 5 should be submitted through the Roman Catholic Bishop of the diocese in which the Church is situated.

(8) The following articles of furniture will be supplied by the Public Works Department for lych gates of Government cemeteries :

	Maximum cost.
	Rs.
Two benches at Rs. 9 each	18
One small table	12
Two chairs at Rs. 5 each	10
	<hr/>
TOTAL	40

RULE XXV.—The Executive Engineer will be guided, in granting the certificates alluded to in clauses 2 and 5 of Rule XXIV, by the following principles :

Class I, Churches built by Government.—The certificate should state that the Church was built by Government for the use of European troops or European British-born subjects in the service of Government, or of State Railway servants, and is still maintained for the same purpose.

Class II, Churches which have received building grants from Government.—The certificates should state that the Church received a building grant of Rs. ———, equal to the ——— part of the total cost of the building, and that the grant was made on account of European troops or European British-born subjects in the service of Government or of State Railway servants, and that the building is still used by them.

For this class of Churches a proportion of the standard cost of the articles of service will be sanctioned equal to the proportion of the grant-in-aid to the total cost of the building itself.

Class III, Churches rented by Government and Government buildings temporarily set apart as Churches.—The certificate should state that the building is wholly rented by Government or is a Government building temporarily set apart as a Church for the use of European troops or European British-born subjects in the service of Government, or of State Railway servants.

NOTE.—The required certificates should afford information as to when the article was originally supplied, and by whom, and the reason for recommending its renewal. When, however, the Government pay for the use of a certain varying number of seats in a church, the hire of the seats should include everything necessary for the performance of the service.

RULE XXVI.—When a Church, whether Protestant or Roman Catholic, is to be furnished, the Executive Engineer should communicate with the Ecclesiastical authorities concerned with a view to afford the congregation an opportunity of furnishing the Church by private subscriptions in more costly style, should they wish to do so. It is to be understood, however, that any article of furniture to which any public funds may have been applied will remain the sole property of Government, even though a portion of its cost may have been contributed by private persons. And in cases where articles of furniture are procured from England, they should be purchased through the Secretary of State in the ordinary way, with the exception of articles to which note I to clause (2) of Rule XXIV applies, which may be purchased as therein allowed.

RULE XXVII.—Government will not ordinarily undertake the cost of the renewal and repair of furniture and articles of service in Churches, which are not primarily intended for the accommodation of troops. Where pew rents are charged, the cost of such renewals and repairs will be met from the pew rent fund; where pew rents are not charged, it is expected that the cost will be met from contributions by private persons and members of the congregation. In Churches in which a portion of the seats are actually reserved by Government for troops or other Government servants entitled to free seats, the Government will pay a share of the cost of renewals and repairs equal to the proportion which the number of seats so reserved bears to the whole number of seats in the Church. Seats will be reserved by Government under this rule only for troops and Military Officers on duty with troops, and for such Government servants of the classes described in Rule X, and State Railway servants of the classes described in Rule XII, as cannot afford to pay for seats. But all Government servants (other than troops and Military Officers on duty with them), who are in a position to pay for seats, will be liable to be charged pew rents.

RULE XXVIII.—In cases in which articles of furniture belonging to a Government Church are stolen, an immediate enquiry should be held in view to ascertaining whether the loss was caused through the negligence of the person responsible for the custody of such furniture. In the case of Protestant Churches at civil or railway stations, the enquiry should be conducted by the Chaplain and the members of the Church Committee; and in the case of Roman Catholic Churches at such stations, by the Chaplain in charge and the chief civil officer of the place, or such other person or persons as the chief civil officer may nominate for that purpose. As regards Protestant and Roman Catholic Churches in cantonments, the investigation should be made by a Committee assembled under the orders of the Officer Commanding, as is the case in respect of all other enquiries into loss of Government property, the Chaplain in charge being invited either to be a member of the Committee or to give evidence before it.

(2) If the result of the enquiry should be to show that the loss was occasioned by negligence on the part of the person responsible for the custody of the furniture, such person should, if possible, be required to make good the loss; or if it should appear that the loss was due to circumstances beyond the control of the responsible officer, then the Government of India will be prepared to consider an application for the replacement, at the public expense, of the articles stolen. Such application should be submitted through the ordinary channels, and should be accompanied by a full report of the enquiry.

RULE XXIX.—The care of Church clocks is to be charged against the pew rent fund, where it exists.

RULE XXX.—The pay of chowkidars of Churches will be disbursed through Chaplains.

RULE XXXI.—Churches are under the control of the Bishop of the Diocese in respect to the erection of tablets, ornaments, etc., while in course of construction, as well as after completion and consecration.

OWNERSHIP AND REPAIR OF CHURCHES.

RULE XXXII.—All Churches built under these Rules, except Rule XXI, clause (b), shall be considered the property of the Government.

As a general rule, all Churches, whether Protestant or Roman Catholic, which have in past times been built by the Government, are the property of the Government.

Churches, whether built wholly by private contributions or by such contributions jointly with State grants, which have been borne for a series of years on the books of the Public Works Department and have been repaired and otherwise dealt with, unchallenged, as Government buildings, shall be deemed to be the property of Government.

Churches built wholly or in part by private contributions which have not been so borne, repaired or dealt with, but which may be taken over on behalf of Government, under sanction of competent authority, shall be brought on the books of the Public Works Department as the property of Government.

RULE XXXIII.—All Churches which are the property of Government shall be in charge of the Executive Engineer, and shall be repaired under the ordinary rules of the Public Works Department.

In every case in which any alteration in a Church belonging to the Government, which affect its structure or its permanent fittings, may be desired by the Chaplain or other Clergy, the Executive Engineer must be consulted and his consent obtained in writing before the alteration is carried out.

COMPENSATION FOR ACCOMMODATION IN CHURCHES NEITHER BELONGING TO, NOR RENTED BY, GOVERNMENT.

RULE XXXIV.—The rate of compensation for sittings for Protestant and Roman Catholic soldiers shall be determined by the Public Works Department with reference to the value and description of the accommodation provided, subject to a limit of Rs. 3 per seat per annum, broken periods within a year counting as a year, but when sittings are occupied consecutively for any period exceeding twelve months, payment will be made for the number of months in excess of the year, for which the sittings are so occupied, at the rate fixed for the year.

NOTE.—The payment should, as far as possible, be regulated by the official year.

RULE XXXV.—The number of sittings for which compensation is allowed will be regulated by the highest attendance at a parade service during the year of soldiers and their families (two children up to the age of 16 being counted as one adult) actually quartered in the station, subject to the following maximum limits in the case of Roman Catholics and each denomination of Protestants recognised by the Government of India (*vide* note to Rule III):

	Numbers, including soldiers' families.
Regiment of British Infantry	340 or 42 per company and 4 for the head-quarters staff of the regiment.
Wing of British Infantry	170
Regiment of Cavalry	200
Wing of Cavalry	130
Troop of Horse Artillery or Light Field Battery	50
Heavy Field Battery	25
Garrison Battery	30
Mountain Battery	34
Convalescent depôts and miscellaneous detachments per section of 100 men	32

NOTE.—One maximum should be taken for the nominal strength of the whole garrison instead of the several maxima of the several units.

RULE XXXVI.—Compensation may be charged for sittings provided for British-born Commissioned and Non-Commissioned Officers (including families) employed on the staff or with Native Regiments, in addition to the number of sittings for which compensation is admissible under Rule XXXV.

RULE XXXVII.—Compensation may, under the conditions of Rule XXXIV, be paid for Protestant or Roman Catholic State Railway servants for whom Church accommodation has not been provided by the Government ; the number of sittings for which compensation may be allowed being regulated by the highest attendance on any one occasion during the year of Railway servants and their families (two children up to 16 being taken as one adult) who are of European descent, pure or mixed, retaining European habits and modes of life and professing the Christian religion.

RULE XXXVIII.—Charges for compensation require the previous sanction of the Government of India, and must be supported by a certificate from the Officer Commanding the station or the Manager of the Railway of the numbers of soldiers or State Railway servants and their families for whom accommodation has been obtained under Rules XXXV, XXXVI and XXXVII, and by a receipt for the money paid.

Such charges as have once been approved by the Government of India need not be resubmitted annually for sanction, but may be paid on the authority of the Local Government or Administration, or Director General of Railways, as the case may be, subject to the conditions under which the original sanction was obtained.

RULE XXXIX.—Local Governments and Administrations, including the Director General of Military Works and the Director General of Railways, may delegate to Chief and Superintending Engineers the power vested in them under the foregoing rule.

RULE XL.—The outlay will appear in the Departmental Budget Estimates and Accounts under head of Civil Buildings—Repairs.

J. P. HEWETT,

Secretary to the Government of India.

APPENDIX A.

*Extract from the Proceedings of the Government of India in the Home Department,—
No. 6-370—382 (Ecclesiastical), dated Simla, 9th November 1876.*

Read Home Department Resolution Nos. 314 to 318, dated 6th October 1875, appointing a Committee to report upon the following matters connected with ecclesiastical administration :

- (1) The framing of joint estimates for expenditure on cemeteries or churches by the Executive Engineer and Clergyman in charge.
- (2) A revision of establishments for cemeteries according to their area.
- (3) The size of monuments and amount of ground that may be enclosed.
- (4) Provision for planting cemeteries and preserving them in decent order.
- (5) Mode of supply of certain articles of church furniture.
- (6) The substitution of three for two classes of churches with respect to the expenditure allowed for them by Government.

Read—

The Report of the Committee, dated 29th October 1875.

RESOLUTION.—The Report of the Committee has been considered by the Governor General in Council, who desires to express to the Committee his satisfaction at the result of their labours.

The following rules have been approved relative to the subjects referred to the Committee for report :

1. Churches and cemeteries have already been divided into two classes :

Public Works Department No. 486-A.G., dated 13th July 1874.

(1) those in stations where there are military cantonments and the military works in which are under the charge of the Inspector General of Military Works, and (2) those in other military cantonments and civil stations.

In both classes of stations joint estimates* of expenditure should be framed annually by the undermentioned officers :

(a) In the case of all expenditure connected with establishments, *e.g.*, pay of servants, alterations in their pay or number, etc.; also all expenditure by Government connected with the provision of articles of church furniture supplied by the Civil Department.

(See Financial Department Resolution No. 87, dated 9th January 1875.)

By the Chief Magistrate of the District and by the Chaplain.

(b) In the case of all expenditure connected with repairs and additions to church fabric, to church compound or cemetery walls, to cemetery gates, walks, wells, chowkidars or other church servants' houses, provision of necessary appliances for graves or for the repair of tombs or for the planting of trees and shrubs in cemeteries and keeping the same in decent order; also all expenditure by Government connected with the provision of articles of church furniture supplied by the Public Works Department.

(See Financial Department Resolution No. 87, dated 9th January 1875; No. 2024, dated 31st March 1875; and No. 675, dated 9th February 1876.)

By the Executive Engineer and by the Chaplain.

The estimates of expenditure to be prepared by the Executive Engineer and the Chaplain should show distinctly the probable charge under each of the following heads :

- (I) New works connected with additions to existing churches and improvements to church compounds.
- (II) New supplies of furniture for churches and sanctioned articles of church use.
- (III) New works connected with additions to existing burial grounds.
- (IV) Repairs to churches and church furniture and maintenance of church compounds.
- (V) Repairs to burial-grounds to be executed by Public Works Officers.
- (VI) Repairs to burial-grounds, including planting and cleaning, to be entrusted to the Chaplain or Chief Civil or Military Officer of the Station or Cantonment, under paragraph 4.

* The estimates should be for the financial year, and should be prepared in advance as is prescribed for other budget estimates.

It would be convenient if distinct estimates were prepared for each of these classes of expenditure.

The provision of funds to meet the charges above enumerated will be made in the budget estimate of the Public Works Department. The estimates for the same will be subject to the scrutiny of, and be passed by, the Superintending or Chief Engineer or Local Government or Administration, according to the rules in force in the Public Works Department.

In stations in which the churches and burial-grounds are under the Local Governments and Administrations in which the Provincial Service arrangements are in force, the charges debitable to the Public Works Department will be provided for in the Provincial Public Works Budget Estimate. In other Provinces and in the Military Works Branch the charge will be provided for in the Imperial Public Works Budget Estimate under civil buildings.

2. The following scale of establishments should be maintained at all cemeteries :

- (i) for a cemetery of which the area is five acres or less, one mali-chowkidar ;
- (ii) for a cemetery of which the area is more than 5 and less than 10 acres, one mali-chowkidar and one assistant coolie ;
- (iii) for a cemetery of which the area is more than 10 and less than 15 acres, one mali-chowkidar and two assistant coolies ; and
- (iv) for a cemetery of which the area is more than 15 acres, one mali-chowkidar and three assistant coolies.

It is left to the Local Governments and Administrations to determine the proper wages to be given to each servant. The cost of this establishment will be charged to Provincial Services in the case of those Local Governments and Administrations in which the Provincial Service arrangements are in force, and in the case of other Local Governments and Administrations and the Military Works Branch of the Public Works Department to Imperial Funds. In either case the charge will be included in the Civil Budget Estimate.

* * * * *

4. No portion of the receipts from cemeteries and church compounds should be retained by any Government officer to be directly expended by himself ; all such receipts should be paid into the Civil Treasury to the credit of the Public Works Department. In the case of receipts from cemeteries and church compounds in charge of the Military Works Branch, and under those Governments and Administrations, in which the Provincial Service arrangements are not in force, the credit will be treated in the Public Works accounts as a receipt under Imperial Public Works Revenue. In the case of the other Governments and Administrations, the credit will be raised to Provincial Service Public Works Revenue. But the amount passed upon the joint estimate framed by the Executive Engineer and Chaplain to provide for planting a cemetery and preserving it in decent order should be entrusted to the Chaplain where there is one. Where there is no resident Chaplain, the amount should be placed at the disposal of the Chief Magistrate on the spot, or of the Senior Military Officer if the cemetery is attached to a military cantonment. The necessary funds for the purpose will be advanced by the Executive Engineer concerned to the Chaplain or Civil or Military Officer. Bills for the expenditure should be rendered by the officer to whom the advance has been made, either monthly or otherwise, to the Executive Engineer, who will charge for the amount thereof in the usual way in his accounts. Until the bills are received and charged off, the advance will be placed in the Miscellaneous Advance Account of the Executive Engineer. All planting of shrubs and trees* by private persons in cemeteries should be under the control of the Chaplain if resident, otherwise

Home Department letter to the Venble the Officiating Archdeacon of Calcutta, No. 110, dated the 22nd May 1883.

* In regard to churches and cemeteries situated within the limits of a military cantonment, the Government of India have decided :

- (1) that the Chaplain is required to obtain the permission of the Officer Commanding the station before ordering a tree to be cut down in a cemetery or church compound situated within the limits of a cantonment ;

under that of the Magistrate or Senior Military Officer as the case may be. When practicable, a well should be sunk in or near every cemetery.

* * * *

5. It should be understood that the Government cannot provide cemeteries at the public expense for Native Christian communities.

NOTE.—Where their number is small, the question is of little importance and is best arranged by mutual concessions or by special provisions made locally by the parties immediately concerned. And I am to suggest for His Lordship's (Bishop's) consideration whether, if the necessity of dealing at the present time with this matter of Native Christian interment be in his judgment unavoidably established, it should not be carefully examined in consultation with the several Local Governments, having regard to the diverse needs and circumstances of the population in each separate Province.

* * * *

Extract from the Proceedings of the Government of India in the Financial Department,—No. 2202 (Expenditure), dated Simla, the 15th August 1876.

Read the undermentioned papers relative to the reduction of minor charges on account of church establishments in India :

Resolution of the Government of India (Home Department), Nos. 132 to 147, dated 6th February 1875.

Letters from the Government of Madras, Nos. 297 and 143, dated, respectively, 27th December 1875 and 6th June 1876, with enclosures.

Letter from the Chief Commissioner of Mysore, No. 9004—50, dated 10th March 1875.

Letter from the Government of Bombay, No. 3, dated 5th January 1876, with enclosures.

Letter from the Government of Bengal, No. 446, dated 15th February 1876.

Letter to the Senior Chaplain, Church of Scotland, Calcutta, No. 409, dated 14th December 1875.

Letter from the Senior Chaplain, Church of Scotland, Calcutta, No. 896, dated 29th November 1875.

Letter from the Government of the North-Western Provinces, No. 612-A., dated 3rd April 1875, with enclosure.

Letter to the Government of the North-Western Provinces, No. 199, dated 15th June 1875.

Letter from the Government of the North-Western Provinces, No. 2038-A., dated 29th October 1875.

Letters from the Government of the Punjab, Nos. 1370 and 830, dated, respectively, 6th April 1875 and 7th March 1876.

Letter from the Chief Commissioner of the Central Provinces, No. 1018—39, dated 19th March 1876.

Letter from the Chief Commissioner of British Burma, No. 1726—260, dated 7th September 1875, with enclosure.

- (2) that the Officer Commanding the station may order a tree to be cut down in the cemetery or church compound without the Chaplain's consent ;
- (3) that it rests with the Chaplain to sell the trees cut down in the cemetery or church compound, the proceeds being paid in, as required by the standing rules, to the Civil Treasury to the credit of the Public Works Department ; and
- (4) that the consent of the Commanding Officer should be obtained in respect of all repairs or alterations over which he or the Cantonment Committee may exercise control under the Cantonment Rules and Regulations, e.g., Rules 13 and 26 of Chapter IV.

These orders, however, do not interfere with the duty of the Chaplain to see that the cemetery is kept clean of rank vegetation, shrubs, and undergrowth which are not included under the designation of trees.

Letter from the Chief Commissioner of Assam, No. 1152-B., dated 16th August 1875.

RESOLUTION.—After consultation with the several Local Governments

First class (churches, the property of Government, containing more than 400 sittings at stations where there are European troops):—

	Rs.
1 Clerk	12
1 Chowkidar-bearer	6
1 Water-carrier	5
1 Sweeper	4
Lighting	20
Total	47 a month.

Second class (churches, the property of Government, containing less than 400 sittings at stations where there are European troops):—

	Rs.
1 Chowkidar-bearer	5
1 Sweeper	4
Lighting	10
Total	19 a month.

Third class (churches, the property of Government, at stations with no troops, or with only Native troops):—

	Rs.
1 Chowkidar-bearer	5 a month.

and Administrations it was decided in February 1875 to reduce the cost of church establishments in India. To carry out this decision, the scale of charges (shown in the margin) was fixed for general adoption, with the reservation that in some places somewhat higher charges might be allowed under exceptional circumstances; and that in the case of third class (non-military) churches, with fluctuating and very limited congregations, a moderate fixed allowance might be granted for lighting and sacramental elements. In accordance with this decision, the several Local Governments and Administrations were requested to submit a fresh classification of military churches, and a scale of charges in accordance with the principles thus laid down.

2. After consideration of the reports called for, the Governor General in Council is pleased to pass the following orders.

3. If a clerk is now employed in any second class military church he need not be dismissed; the full reduction of the establishment must await the occurrence of a vacancy.

4. In Madras, including Mysore, but excluding Berar, there are 56 churches* and the cost of establishments on the scale laid down by the Government of India would amount to Rs. 700 a month as against a present charge of Rs. 1,917½.

	Number of churches.
1st class (military)	8
2nd do. do.	6
3rd do. (non-military)	42
Total	56

Rs. 47 a month; that an establishment of Rs. 47 a month be allowed to the church at Black Town; and that to five of the remaining 36 3rd class non-military churches, the marginally noted special allowances be allowed. These proposals are approved with effect from 1st April 1877. A tabular statement showing the financial results of the measure, and including, as a temporary charge, the pay of such clerks as are now on the establishments of the 2nd class military churches, should be forwarded for formal sanction.

	Rs.
1 Bearer	7
1 Sweeper	5
Lighting allowance	18
Total	30 each.

5. The Government of Bombay proposes (1) to raise the pay of chowkidar-bearer; (2) to allow a peon to each Chaplain; (3) to retain clerks for 2nd class military churches; (4) to do away with water-carriers and sweepers, and provide for their duties from the contingent allowance of Rs. 20 a month for lighting for 1st class churches; and (5) to allow a small contingent allowance to poor 3rd class non-military churches. The tabular statement submitted by the Bombay Government also shows other variations from the standard scale, fixed in 1875. The Governor General in Council regrets that he is unable to sanction peons for chaplains in Bombay; but he is pleased to sanction the following

scale for adoption in the Bombay Presidency for 1st April 1877, with a request that a tabular statement showing the charges now made may be forwarded to Government for communication to the Audit Department :

	1st class military churches.	2nd class military churches.	3rd class non-military churches.
1 Clerk	A.
1 Chowkidar-bearer	7	7	7
Contingent allowance to cover lighting, and sweepers' and water-carriers' wages .	20	10	B.

A.—On the pay proposed by the Archdeacon of Bombay.

B.—A list of the poorer churches, for which a special contingent allowance is asked, should be entered in the tabular statement.

6. The proposal of the Government of Bengal in respect to the six military (1st class) churches, including the two within the Fort William, for which the authorised allowance of Rs. 47 a month is considered to be sufficient, is sanctioned with effect from the 1st April 1876; Rs. 100 a month is also allowed for each

* St. John's.
Old Church.
St. James's.
St. Thomas's.

of the four (3rd class) non-military presidency churches* from 1st April 1877, for two years, subject to reconsideration at the end of that period; and an allowance

of Rs. 55 a month is sanctioned for St. Stephen's Church, Kidderpore, and the Church at Howrah, on the same terms. Considering the peculiar character of St. Andrew's Kirk in Calcutta, and its use by the military, the recommendation of the Reverend Mr. Thomson, for an allowance of Rs. 100 when there are two chaplains and Rs. 185 a month when there is one, is approved from the same date. The necessity for so large an allowance as† Rs. 32 a month for the care of the clock must be further established. The entire services of a competent Native artisan could probably be secured for a much smaller sum.

7. In respect to the non-military (3rd class) churches in Bengal, the Governor General in Council considers that the scale laid down in February 1875, should be more closely adhered to than is proposed by the Government of Bengal. The exceptional allowances there contemplated were intended only for churches with *fluctuating and limited congregations* and not for general adoption. The churches at Dacca, Cuttack, Berhampur, and other places do not appear to be of this class. His Excellency in Council desires, therefore, that the Government of Bengal will submit a tabular statement more in accordance with the scale laid down in February 1875, and showing the financial results of the arrangements now sanctioned for church establishments in Bengal.

8. The classification of churches, submitted by the Government of the North-Western Provinces shows that there are 36‡ churches, the proposed cost for the establishments of which is Rs. 670. But it appears doubtful if this classification includes the Episcopalian and Presbyterian churches at Allahabad. This should now be made clear; and the church at Chunar should be ranked as a 3rd class (non-military) church, and not as a second class military church. The usual tabular statement should also be submitted, showing the financial result of the charges now authorized with effect from the beginning of the next financial year.

9. There are 48 churches in the Punjab, and the cost of the establishments proposed for them is Rs. 878 a month. It is also recommended that Rs. 50 a month may be placed at the disposal of the Government of the Punjab for allotments when necessary to the poorer 3rd class (non-military) churches. The

† This charge was subsequently accepted by the Government of India as an ecclesiastical charge and as part of the Church allowance which is given in consideration of the benefit derived by the public from the use of the clock.—Letter to Government of Bengal, No. 316, dated the 27th September 1877.

proposals of the Government of the Punjab are sanctioned with effect from 1st April 1877. The usual tabular statement should be submitted.

10. There are 15 churches in the Central Provinces, the cost of the establishments of which is Rs. 205 a month. Revised establishments as shown below are sanctioned for these churches, resulting in an increase of Rs. 17 a month over the existing charge:

	Existing cost per mensem.	Now sanctioned per mensem.
	Rs.	Rs.
1st class church at Kamptee	71	47 } A
Ditto at Saugor	39	47 } A
2nd class church at Jubbulpore	38	31 } B.
Ditto at Sitabuldi, Nagpur	40	31 } B.
3rd class church at Narsingpur, Nimar, and Seoni	17	18
Ditto at 1 Chanda, 2 Wardha, 3 Bhandar, 4 Raipur, 5 Hoshangabad, 6 Damoh, 7 Betul, and 8 Chindwara		48
Total	205	222
	Increase	17

A.—As detailed in paragraph 1 of this Resolution.

B.— Ditto plus the pay of a clerk, temporarily, as sanctioned in paragraph 3.

11. The Chief Commissioner of British Burma submits a list of church establishments in that Province, and recommends "that the establishments should be restricted to the scale fixed by the Government of India; but that the rates of pay should be in accordance with those which are customary throughout Burma, where the cost of living is greatly in excess of that of India." He also recommends that an allowance of Rs. 30 a month may be granted to the Roman Catholic Church at Thayetmyo. In accordance with these recommendations the establishments noted below, which are in conformity with the scale laid down in February 1875, are sanctioned for the churches in British Burma with effect from 1st April 1877:

	1st class Rangoon Church.	1st class Rangoon Town.	1st class Thayet- myo Protestant Church.	2nd class Thayet- myo Roman Ca- tholic Church.	1st class Tournoo.	3RD CLASS.				TOTAL.
	Rs.	Rs.	Rs.	Rs.	Rs.	Bassein.	Moulmein.	Akyab.	Kyauk Phyoo.	Rs.

Present cost	95-8	67-10	80	..	55	10	114	15	..	437-2

Decrease 138 8

12. In addition to the higher rates of pay for chowkidar-bearers on account of the prevalent wages in the Hyderabad Assigned Districts, the Resident at Hyderabad proposes to add 8 peons at a cost of Rs. 56 a month to the authorised scale of church establishments. The Governor General in Council regrets that he is unable to depart from the scale already fixed, but is pleased

to sanction the other proposals as shown below from the beginning of the next financial year :

	Clerk.	Chowkidar bearer.	Water-carrier.	Sweeper.	Lighting, etc.	Total.	Existing co t.	Saving.
	Rs.	Rs.	Rs.	Rs.	Rs.	Rs.	Rs.	Rs.

Total	32	64	10	12	50	170	305	175

* Till vacancy occurs.

13. The list submitted by the Chief Commissioner of Oudh shows that there are only six churches in Oudh—three of the first and three of the second class. The proposed classification of these churches is approved with effect from 1st April 1877 with a request that a tabular statement may now be forwarded.

14. The Chief Commissioner of Assam states that there are in Assam six 3rd class non-military churches, and proposes to pay the chowkidar-bearers at Rs. 10 each a month, remarking that "this is the lowest salary on which a servant can be entertained to perform the above duties in this Province." The Governor General in Council sanctions a chowkidar-bearer for each of the churches in Assam on the pay of Rs. 6 each a month from 1st April 1877, and requests that the usual tabular statement may now be forwarded.

Extract from the Proceedings of the Government of India, Department of Finance and Commerce, No. 3874, dated Simla, the 3rd November 1881.

Read again—

- (1) Resolution of the Government of India in the Financial Department, No. 2202, dated the 15th August 1876, directing a reduction of minor charges on account of Church Establishments in India, and fixing the scale of charges shown below for general adoption, with effect from the 1st April 1867 in some and from the 1st April 1877 in other cases.

FIRST CLASS.—(Churches, the property of Government, containing more than 400 sittings at stations where there are European troops.)

	Rs.
1 Clerk	12
1 Chowkidar-bearer	6
1 Water-carrier	5
1 Sweeper	4
Lighting	20
	—
	47 a month.
	—

SECOND CLASS.—(Churches, the property of Government, containing less than 400 sittings at stations where there are European troops.)

	Rs.
1 Chowkidar-bearer	5
1 Sweeper	4
Lighting	10
	—
	19 a month.

THIRD CLASS.—(Churches, the property of Government, at stations with no troops or with only Native troops.)

1 Chowkidar-bearer Rs. 5 a month.

- (2) Order No. 572, dated the 12th May 1881, forwarding a copy of the abovementioned Resolution to the Military Department for information and guidance, with the intimation that the scale of charges mentioned above (which are debitable to the Military Department on account of Roman Catholic Churches) should have effect from the 1st April 1880.

Read also—

- (3) A letter from the Military Department to the Controller of Military Accounts, Bengal, No. 1246-S. D., dated the 26th August 1881, sanctioning, as a very special case, the grant to the Roman Catholic Chaplain, Fort William, of the difference of lighting allowance between Rs. 33 and Rs. 47 a month, with arrears from the 15th August 1876 up to the 1st January 1881, and intimating that final orders in regard to the allowances admissible to Roman Catholic Churches generally will be shortly passed.

RESOLUTION.—On consideration, the Governor General in Council is pleased to declare that the Resolution of the 15th August 1876 read in the 1st section of the preamble is inapplicable to Roman Catholic Churches. Those churches are mostly not the property of Government, and it is only to churches owned by Government that the Resolution applies. Moreover, the application of the Resolution to Roman Catholic Churches would have the effect in the majority of cases of largely reducing the allowances now given to them, and the Governor General in Council does not consider that their reduction would be expedient.

2. Under this decision the increased grant passed in the Military Department for the Roman Catholic Church of St. Patrick, Fort William, should be discontinued.

No. 7, dated Fort William, the 9th January 1878.

From—J. O'KINEALY, Esq., Officiating Secretary to the Government of India,
Home Department,

To—The Secretary to the Government of Madras.

I am directed to acknowledge your letter dated the 2nd January 1877, No. 2, submitting for approval the Proceedings of the Madras Government determining the proposed scale of establishment for the Cathedral.

2. In reply I am to say that the Governor General in Council is pleased to fix a limit of Rs. 400 per mensem as the maximum grant towards the maintenance of the establishment of the Cathedral, with effect from the 1st April 1878.

No. 9, dated Fort William, the 9th January 1878.

From—J. O'KINEALY, Esq., Officiating Secretary to the Government of India,
Home Department,

To—The Secretary to the Government of Bengal.

With reference to paragraph 8 of your letter, dated the 5th February 1877, No. 376, regarding the establishment at St. Paul's Cathedral, Calcutta, I am directed to say that the Governor General in Council is pleased to comply with the recommendation of His Honour the Lieutenant-Governor, and sanctions the continuance of the Government grant of Rs. 400 per mensem at present made towards the maintenance of the Cathedral establishment.

No. 11, dated Fort William, the 9th January 1878.

From—J. O'KINEALY, Esq., Officiating Secretary to the Government of India,
Home Department,

To—The Secretary to the Government of Bombay, Ecclesiastical Department.

With reference to the correspondence ending with your letter dated the 29th November last, No. 249, regarding the establishment at St. Thomas's

Cathedral, Bombay, I am directed to observe that it appears from the papers submitted that the cost of the Cathedral establishment and contingent charges amounts to Rs. 1,084 per mensem, and the Trustees of the Cathedral object to any reduction being made, holding that under the trust deed they have an indefeasible right to claim from Government both establishment and contingent charges on the existing scale.

2. The Governor General in Council does not admit that the Trustees alone have the power to decide the question at issue, but His Excellency in Council does not desire to press the matter, and leaves it to be settled by the Bombay Government on the most favourable terms which may be found possible.

3. I am to add that a maximum grant of Rs. 400 per mensem has been fixed for the Cathedrals at Calcutta and Madras.

Extract from the Proceedings of the Government of India in the Department of Finance and Commerce, No. 4016, dated Simla, the 9th November 1881.

Read—

Office memorandum from the Military to the Home Department (Ecclesiastical), No. 1618-S. D., dated the 17th October 1881, proposing a general rule to regulate the incidence of charges on account of clerical and menial establishments for religious services in connection with the troops.

The undersigned is desired to acknowledge the receipt of the docket from the Home Department, No. 75, dated 5th May 1881, on the subject of the provision of a clerical and menial establishment for Presbyterian religious service in connection with troops. The case in point is that of the 72nd Highlanders.

Original enclose returned.

2. In reply he is to forward the correspondence marginally noted, and to suggest that as (in regard to the general question) there would seem to be some doubt as to the proper incidence of charges on account of such establishments, the present opportunity be taken to settle the question finally.

From Adjutant General in India, No. 2795-B., dated the 20th June 1881.

From Controller of Military Accounts, Bengal, No. 10642. (Return requested.)

3. The present rule as regards chaplains is understood to be as follows, viz.:

The Church of England Chaplains and the church establishments are paid in the Civil Department, even though employed in a cantonment solely for the use of the troops.

The pay of the Roman Catholic Chaplains and of the chapel establishments engaged in the service of the troops is borne by the Military Department.

The pay of Presbyterian Chaplains and of the church establishments at ordinary stations is borne by the Civil Department, but the pay of Presbyterian Chaplains with Highland regiments is a Military charge.

4. It seems, therefore, to the Military Department right that the charge on account of establishments for the church services of Highland regiments should also be a Military charge, when the chaplain employed in the services is paid by the Military Department, and that in all other cases where there is a service performed for Presbyterian troops by a civil Presbyterian, Wesleyan or other chaplain, the charge for his services and any temporary establishment should be borne by the Civil Department.

5. The Military Department consider that the above would be a clearly defined rule which would prevent the mistakes which appear to have been made on more than one occasion in regard to the debit of such charges, and the undersigned is to recommend its adoption to the Home Department.

• • • • •
RESOLUTION.—The rule proposed in paragraph 4 is sanctioned.

APPENDIX B.

*Extract from the Proceedings of the Government of India in the Home Department,—
Nos. 2—275 to 287 (Ecclesiastical), under date Simla, the 8th September 1875.*

Read the undermentioned correspondence relative to a proposed revision of the rules at present in force for the guidance of Chaplains of the Church of England in regard to the burial of such persons as have laid violent hands upon themselves; and of those who having been members of the Roman Catholic Church, have been refused burial by the Priests of that Church—

From Government of Fort St. George, No. 142, dated 12th June 1874, and No. 203, dated 28th August 1874.

To Solicitor to Government, No. 327, dated 22nd September 1874.

From ditto ditto, No. 2316, dated 26th September 1874.

From the Lord Bishop of Calcutta, dated 13th January 1875.

RESOLUTION.—The first question was raised by the refusal of the Reverend C. H. Deane, Chaplain of Bangalore, to read the funeral service over a person who was found by a Court of Inquest to have committed suicide while in a state of temporary insanity.

2. The subjoined letter * from the Reverend C. H. Deane sets forth the ground of his refusal :

* To Mr. Knox, dated 2nd January 1874.

When I answered your memorandum about the interment of the remains of the late Sergeant Spiers of the 18th Hussars, I was not aware that he had committed suicide. If, as I understand, there is no doubt that he poisoned himself, I regret to say that I shall not be able to officiate at his funeral. The Rubric before the burial service distinctly forbids it to be used for any that 'have laid violent hands upon themselves,' so that I have no option in the matter. The grave will be ready at 5 P.M., but no service can be used.

† To the Acting Chief Secretary to the Government of Fort St. George, No. 483, dated 24th March 1874.

3. The view taken of the question by the Right Reverend the Bishop of Madras is stated in the subjoined letter : †

• "I am directed by the Right Reverend the Bishop of Madras to acknowledge your communication of the 17th ultimo, forwarding copy of a letter from the Deputy Adjutant General, transmitting correspondence relative to the Reverend C. H. Deane's refusal to read the funeral service over the late Sergeant Spiers, 18th Hussars, who committed suicide.

"2. In reply I am desired to state that Mr. Deane seems to have been requested to perform the funeral without having been furnished with the customary death-report or any intimation that it was a case of suicide.

• "3. The Coroner's warrant in itself appears to be 'no more than a certificate that the body is not demanded by the law, and that therefore the relations may dispose of it as they please.'—(Wheatley on the Book of Common Prayer.) It does not, therefore, indicate the duty of a clergyman, or place him under legal obligation to give to a body Christian burial.

"4. In keeping with this view, the Government Notification in *Fort St. George Gazette*, June 11th, 1850, page 623, when it intimates that 'the Reverend Chaplains will in future consider the warrant of the Coroner for the interment of a body on which an inquest has been held to be a sufficient authority for their performance of the burial service over it,' adds, 'if it would be their duty, under ordinary circumstance, to perform that service.'

"5. What is the duty of a Clergyman when requested to bury a person who has committed suicide is to be ascertained partly from the Rubrics of our Church, which are binding upon the Clergy and have the force of law; and partly from the limitations of recognised legal commentators.

"6. The Rubric at the opening of 'the Order for the Burial of the Dead' forbids a Clergyman to use that service for any that have laid violent hands upon themselves.'

"7. In Burn's 'Ecclesiastical Law' it is laid down: 'Of this sort [suicide] are to be understood not all who have procured death unto themselves, but who have done it voluntarily, and consequently have died in the commission of a mortal sin; and not idiots, lunatics, or persons otherwise of insane mind.'

"8. In the same book it is also stated that 'the proper judges whether persons who died of their own hands were out of their senses are doubtless the Coroner's jury.'

"9. In case under consideration it appears that the Reverend Mr. Deane, having regard only to the Rubric and *foro conscientiæ* accounting himself responsible for the interpretation of it, refused to bury the corpse even when he knew that the Coroner's jury had returned a verdict of 'temporary insanity.'

"10. In this refusal, I am instructed to state that Mr. Deane has not, so far as the Bishop can ascertain, violated any law, but he has departed from a recognised custom in not accepting the verdict of the Coroner's jury as a justification for the using of the Church's Service over the remains of Sergeant Spiers.

"11. Mr. Cripps, in his 'Practical Treatise on the law relating to the Church and the Clergy' [Ed. 1869],*

* Page 793.

states 'No case appears ever to have occurred in which a clergyman who has refused to bury the corpse of one who has committed suicide in insanity has been punished by the Ecclesiastical Law.' At the same time he adds: 'It must be doubtful whether a departure from a custom of such acknowledged propriety would not be visited with ecclesiastical punishment.'

"12. In the absence of any Court competent to visit with ecclesiastical punishment, the Bishop desires me to point out that it is very painful to a laborious and conscientious clergyman, such as Mr. Deane is, to deny the last offices of the Church to one who has been under his spiritual charge, and it must, the Bishop thinks, be allowed that there was much in the circumstances of the present case to support the conclusion at which Mr. Deane arrived. I am, therefore, directed to say that His Lordship is disposed to take a lenient view of Mr. Deane's action, and the more so as those who are endeavouring to check the prevalence of intemperance in the army can ill afford to lose any aid which a clergyman in the honest discharge of his duty can lawfully render."

4. The Government of Madras referred the whole correspondence for the information and orders of the Government of India.

5. The following brief statement of the English Law will be found sufficient for the present purpose: By Common Law Christian persons are entitled to burial with the rites of the Church. The Statutes passed from time to time for the uniformity of public worship have proceeded upon, though not expressly dealing with this state of things. The 68th of the Canons of 1603 recognises it, and enjoins the Clergy to act upon it. In that Canon occurs the exception of persons excommunicated for some grievous and notorious crime, and of whose repentance no testimony could be given. The Canons of 1603 are no part of the Statute Law, and it is only in a qualified sense that they are part of the law at all. But this Canon has been taken as truly expressing the ancient Common Law of the Church. The Books of Common Prayer have been embodied into the Statute Law by the various Acts of Uniformity, and Rubrics are authoritative guides when they speak on the question when the services are or are not to be used.

6. Down to the year 1661 there was no Rubric forbidding the performance of the Burial Service over any persons except persons excommunicated. The Rubric now in force was framed in the year 1661, and received the force of law from the Uniformity Act of 1662. It prescribes that "the office is not to be used for persons unbaptised or excommunicated, or who have laid violent hands on themselves."

7. The question now is whether the expression "have laid violent hands on themselves" includes all who have committed the overt act of suicide, or only those who have done so deliberately being in their sound senses and in a state in which moral responsibility attaches to them.

* Page 793.

8. In Mr. Cripp's* Treatise the following statement is made :

The uniform practice, however, so far as it has been able to be ascertained, is in accordance with the reasoning and opinion of Dr. Burn, and it must be doubtful whether a departure from a custom of such acknowledged propriety would not be visited with Ecclesiastical punishment.

9. The opinion of Dr. Burn will be found in his work on Ecclesiastical Law, Vol. I, p. 265. After referring to the ancient Canon which forbade Christian burial to those who violently put themselves to death, and stating that this rule was understood to apply to those who did the act voluntarily, Dr. Burn intimates that the Rubric should not be construed as severer than the preceding Ecclesiastical Law, and therefore should not apply to persons of insane mind.

10. In the year 1809 the Court of Arches, speaking of the treatment of suicides, puts it on the ground that they are supposed to die in the commission of mortal sin, and to have renounced Christianity. *Kemp versus Wickes*, 3 Phillimore, pp. 272, 273.

11. The Government of India have not been referred to, and do not know of, any authority for holding that the words of the Rubric apply to persons who are not responsible for their actions. It is certain that the practice has not been to apply these words in that way.

12. Under the circumstances the Governor General in Council comes to the following conclusions :

(a) It is reasonable in this matter to regulate the conduct of Clergymen of the Church of England, who serve the Government of India, by the law and practice of the Church of England.

(b) There is no authority for holding that the Rubric under consideration applies to those who have caused their own death when in a state of mental insanity. For holding the contrary there is the authority of commentators and of judicial *dicta*. There is also the much greater authority derived from a usage which is very wide-spread and long continued, if indeed it is not quite unbroken. Testing the question by reason, it is only reasonable to hold that the framers of this Rubric did not intend as regards the burial of suicides to alter the law and practice that they found in existence or to visit with what must be considered as an ecclesiastical penalty, an act for which the doer is not responsible.

(c) Sincere respect is due to the scruples felt by conscientious men in performing a service of extreme solemnity. Nevertheless, it would not be reasonable that such scruples should prevail against the ancient law and practice of the Church of England which has been handed down to the present time, and which plainly authorises the use of the burial service over persons who have caused their own death while in a state of insanity.

13. The Governor General in Council must therefore require from all Clergymen connected with the Government their conformity to this ruling.

14. The next point for consideration is the rule requiring Chaplains to read the funeral service over the bodies of persons who, having died in the profession of the Roman Catholic faith, have been refused burial by the Priests of that Church. It is stated by the Bishops of Calcutta and Madras that the Clergy

of the Church of England look upon the rule as bearing hardly upon them, and they desire to have it reconsidered.

15. This rule was laid down in the year 1855 under the belief that the case was governed by positive law, *vis.*, the 68th of the Canons of 1603. But on reconsideration of the matter the Governor General in Council is of opinion—*1st*, that the Canon in question which is founded on the English parochial system cannot for the purpose now under consideration be applied to the very different circumstances of an Indian station; and *andly*, that even if it were applicable it would not prevent the Government from establishing a different rule of conduct for Indian Chaplains if found expedient.

16. The Governor General in Council further thinks that for the case now under review a different rule is expedient. The Chaplain of an Indian station does not stand to the residents in the station in the relation which the Parson of an English parish bears to his parishioners. It was expressly so ruled by the Court of Directors in their Despatch on this subject bearing date the 30th October 1844. Chaplains have been ordered to abstain from endeavours to influence the religious tenets of Roman Catholic soldiers, and in one case a Chaplain was compelled to resign the service for persisting in such endeavours.

17. As regards the Chaplains themselves, it does not seem consistent that they should be compelled to perform duties towards the corpse of a man whom when living they were forbidden to approach in any pastoral relation, and the Governor General in Council admits that the dissatisfaction which the Chaplains have felt with the order of 1855 rests on reasonable grounds.

18. As regards other persons, it can hardly be agreeable to the feelings of either Protestants or Roman Catholics that the Chaplain should be called in to supply a service which the Priest has refused. To Protestants it must seem that in so acting their Church is lax and careless about the performance of its solemn rites. To Roman Catholics it can hardly be otherwise than offensive that a stranger, who in their eyes has no authority, should affect to give to a member of their Church what the recognised authority of that Church has thought fit to withhold. And neither community can wish it on account of any advantage to the dead man: not Protestants, because the whole notion of such an advantage is contrary to their tenets; and not Roman Catholics, because they do not attribute any spiritual character to the Chaplain.

19. For the above reasons the Governor General in Council is pleased to revoke the order issued in the year 1855, and he will request the Military authorities to make arrangements for the decent burial of Roman Catholic soldiers to whom the rites of their Church have been refused by the Priests.

Extract from the Proceedings of the Government of India in the Home Department (Ecclesiastical), No. 159,—under date Simla, the 6th June 1877.

Read again—

Home Department Resolution No. 275—287, dated the 8th September 1875, laying down certain rules for the guidance of Chaplains of the Church of England in regard to the burial of suicides, etc.

Read also—

Office memorandum from the Military Department, No. 810, dated the 16th November 1875, forwarding, for an expression of opinion, a draft General Order which His Excellency the Commander-in-Chief proposes to issue on the subject in accordance with the above rules.

RESOLUTION.—On a reconsideration of the subject, the Government of India think it necessary to modify the rules contained in the Resolution of 8th

September 1875, so far as regards the burial of deceased Roman Catholics. The Government of India have now decided :

1st, that at stations where there is a Roman Catholic Priest drawing an allowance from Government, he shall be held bound to read the burial service over the body of every deceased Roman Catholic soldier brought for burial, unless he be excused from doing so by the Rubrics and Canons of the Roman Catholic Church : and that when the Roman Catholic Priest refuses to read the burial service over the body of a deceased Roman Catholic soldier, the military authorities shall make proper arrangements for the decent interment of the corpse ;

2ndly, that where there is no Roman Catholic Priest paid by the State, the Protestant Chaplain shall, if requested by the friends of the deceased, or by the Officer Commanding, be bound to bury the deceased according to the rites and ritual of the Church of England, except in either of the three cases in which Protestant Chaplains in India are excused from burying a deceased Protestant, *vis.*, dying unbaptised even by lay baptism ; excommunicated by the major excommunication ; or declared to be *felo de se* ; and that when a Protestant Chaplain refuses to officiate at the burial of a deceased Roman Catholic soldier, on either of the three abovementioned grounds, the military authorities shall, as in the case of refusal by a Roman Catholic Priest, make proper arrangements for the decent interment of the corpse ;

3rdly, that whenever, with or without furnishing any explanation of his reasons, a Roman Catholic Priest paid by the State or a Protestant Chaplain refuses to perform the funeral rites of his Church over the body of a deceased Roman Catholic soldier, the circumstances of the case should be fully reported by the military authorities for the consideration and orders of the Government.

2. The Governor General in Council is accordingly pleased to direct the modification in the above sense of the provisions of paragraphs 15 to 19 inclusive of the Resolution, 8th September 1875.

NOTES.—(1) The expression “proper arrangements for the decent interment of the corpse” in Rules 1 and 2 means that when both the Roman Catholic and Protestant Chaplains refuse burial in a case of suicide by a Roman Catholic soldier whilst of unsound mind, the burial service should be read over the body by the Officer Commanding the deceased’s Company.

(2) The intention of the passage “bound to bury the deceased according to the rites and ritual of the Church of England” in Rule 2 is, that the service of the Church of England should be read over the body, if the Protestant Chaplain is requested by the friends of the deceased to do so ; but the rule does not in any way re-impose on Protestant Chaplains the burden of reading the burial service over either soldiers or civilians to whom a Roman Catholic Chaplain has refused burial. There is nothing to prevent a Chaplain burying any one if he chooses to do so, provided they are not unbaptised “even by lay baptism,” excommunicated by the major excommunication, or declared to be *felo de se*, only the Protestant Chaplain is no longer bound to do so.

(3) The expression “unbaptised even by lay baptism” in Rule 2 is equivalent to “unbaptised by either clerical or lay baptism.” The meaning intended to be conveyed is that baptism, either by lay or clerical, is sufficient to prevent a person from being regarded as “unbaptised” for the purposes of the rule.

DEPARTMENT OF REVENUE AND AGRICULTURE.

NOTIFICATIONS.

FAMINE.

Simla, the 19th May, 1897.

No. 2087—157-8-F.—With reference to Public Works Department Notification No. 191, dated the 15th May 1897, placing the services of Mr. T. The 20th May, 1897.

No. 200.—The following is published for general information :

No. 147 L, dated Simla, the 14th May, 1897.

RESOLUTION—By the Government of India, Public Works Department.

Review of the Revenue Report of Irrigation Works in the Punjab for 1895-96.

Read—

Letter No. 183 A. L, dated 1st February 1897, from the Government of the Punjab, forwarding the Revenue Report of Irrigation Works in the Punjab for 1895-96 and the Resolution by that Government reviewing the Report.

OBSERVATIONS.—The Capital Outlay (exclusive of Contributions) incurred during and up to the end of the year under review is shown in the following table under the different heads of account :

	Number of works.	DURING THE YEAR 1895-96.							Total direct and indirect to end of 1895-96.
		Works.	Establishment.	Tools and Plant.	Suspense Account.	Total direct charges.	Indirect charges.	Total direct and indirect charges.	
1	2	3	4	5	6	7	8	9	10
		Rs.	Rs.	Rs.	Rs.	Rs.	Rs.	Rs.	Rs.
<i>Major Works.</i>									
Protective Irrigation Works (Account head 35) ...	1	86,953	19,998	2,556	13,205	1,22,712	2,800	1,25,512	37,62,459
Irrigation Works not charged against Revenue (Account head 49) ...	7	29,22,849	5,31,929	50,142	23,087	35,28,007	1,07,975	36,35,982	7,65,05,849
<i>Minor Works and Navigation.</i>									
Works of which Capital and Revenue Accounts are kept (Account head 43) ...	4	85,995	18,947	1,240	1,179	1,07,361	3,514	1,10,875	17,67,301
TOTAL ...	12	30,95,797	5,70,874	53,938	37,471	37,58,080	1,14,289	38,72,369	8,20,35,609

2. The total Capital Outlay of Rs. 38,72,369 is greater by Rs. 8,44,392 than that of the preceding year, the increase being mainly due to the expenditure incurred on the Chenab and Western Jumna Canals.

On the *Chenab Canal*, the Capital Outlay amounted to Rs. 26,96,235, which is the highest expenditure incurred in any year since the completion of the weir works in 1892. Good progress was made on the Main Line excavation, on the masonry works of the Gugera Branch Upper, on the Bhowani Branch and Jhang Branch Lower and on the distributaries of the Jhang Upper and Lower Branches.

On the *Western Jumna Canal* (excluding the Sirsa Branch), the expenditure charged against the open Capital Account was Rs. 5,31,072. The works in connection with the Bhiwani Rajbaha project were practically completed, and 207 miles of new channels were opened.

The Capital Outlay on the *Sirsa Branch of the Western Jumna Canal* was Rs. 1,69,652 from Imperial funds and Rs. 35,524 from Contributions. It was incurred principally on escapes and rest-house accommodation.

On the other canals the expenditure charged against Capital was as follows :

					Rs.
Bari Doab Canal	1,68,108
Sirhind Canal from Imperial funds	—14,484
Ditto from Contributions	10,274
Lower Sohag and Para Canal	13,747
Sidhnai Canal	71,652

3. The lengths of main canals and distributaries in operation in British territory at the close of the year were as follows :

				COMPLETED.	
				Miles of canals.	Miles of distributaries.
<i>Major Works.</i>					
Protective Irrigation Works	22	143
Irrigation Works not charged against Revenue	1,409	6,411
<i>Minor Works.</i>					
Of which Capital and Revenue Accounts are kept	1,777	234
Of which only Revenue Accounts are kept	878	490
Total	4,086	7,278

The decrease of 44 miles in the canal mileage, as compared with that at the close of the previous year, occurs on the Lower Sutlej and Chenab, Indus, and Muzaffargarh Canals, and is due to the abandonment of certain channels. The increase of 291 miles in the length of completed distributaries is chiefly due to the opening of the Bhiwani Rajbaha and its branches. There was no change in the length (386 miles) of navigable channels.

The length of completed canals in Native States was the same as in 1894-95, *viz.*, 258 miles, of which 46 miles are navigable. The length of completed distributaries in Native States was 2,163 miles, or an increase of 20 miles as compared with the previous year.

4. The financial results of the canals in operation are shown in the following statement :

Canal.	Total direct and indirect Capital Outlay to end of 1895-96.	GROSS REVENUE COLLECTED.			WORKING EXPENSES.			Net revenue.	Percentage of net revenue on Capital Outlay.
		Direct revenue receipts.*	Share of Land Revenue and other indirect receipts.	Total.	Direct.	Indirect.	Total.		
1	2	3	4	5	6	7	8	9	10

GRAND TOTAL, 1894-95	7,81,51,999	63,19,131	12,08,737	75,27,868	36,00,164	2,08,608	38,08,772	37,19,096	14'54

* Refunds deducted from direct revenue.

† Includes Shahpur (Provincial) canals for which there was no Revenue Account opened during 1895-96.

5. Notwithstanding an increase in Capital expenditure amounting to Rs. 38,72,369, the Punjab Canals, taken as a whole and including all works for which Capital and Revenue Accounts are kept, showed a net return of 5·62 per cent. on the Capital expenditure to the end of the year as compared with a net return of 4·54 per cent. in the previous year.

Under *Major Works* (the Capital expenditure on which stood at Rs. 8,02,57,067 at the end of the year), the net revenue amounted to Rs. 42,57,780, equivalent to a return on the Capital Outlay of 5·30 per cent. as compared with 4·33 per cent. in the previous year.

The net revenue exceeded the interest charges by Rs. 12,45,647 as compared with a surplus of Rs. 4,34,432 in the previous year, and at the close of the year under review, the net revenue to date of all Major Works exceeded the total interest charges by 263½ lakhs of rupees.

On the *Western Jumna Canal* (including the Sirsa Branch), the return on Capital Outlay was 3·28 per cent. as compared with 5·39 per cent. in 1894-95 and 2·92 per cent. in 1893-94. The falling off is attributed to diminution of gross revenue, due to the favourable rainfall during the rabi season of 1894-95, and to an unavoidable increase in working expenses.

The *Sirhind Canal* showed a considerable improvement, the percentage of net revenue on Capital Outlay being 2·90 as against 1·53 in 1894-95 and 1·94 in 1893-94.

The Western Jumna and Sirhind Canals were the only Major Works which failed to cover the interest charges of the year. On the former, however, the accumulation of net revenue in excess of interest charges up to the end of the year amounted to Rs. 3,07,29,574.

On the *Bari Doab Canal*, the percentage of net revenue on Capital Outlay was 10·29 as compared with 9·31 in 1894-95 and 9·47 in 1893-94. The accumulated surplus of revenue over interest charges amounted to Rs. 59,98,168.

On the *Lower Sohag and Para Canal*, the return was 9·62 per cent. on the Capital expenditure as compared with 4·47 and 0·75 per cent. in the two previous years.

The *Sidhnai Canal* return rose to 22·28 per cent. on the Capital Outlay.

The financial position of the *Chenab Canal* continues to be most satisfactory. The area irrigated during the year was over 100,000 acres in excess of that of the previous year, or about 150,000 acres in excess of the forecast of 1891, although the Capital expenditure was more than 10 lakhs below the forecast. The net revenue realized up to the end of the year amounted to Rs. 7,78,646, and the percentage of net revenue on Capital Outlay during the year was 4·40.

The percentages of net revenue on Capital Outlay for the Bari Doab, Chenab, Lower Sohag and Para and Sidhnai Canals are the highest yet attained on these canals.

Under *Minor Works*, for which Capital and Revenue Accounts are kept, there was an increase in net revenue of Rs. 1,13,960 as compared with the previous year, and the percentage of net revenue on Capital Outlay was 19·86 as against 14·31 in 1894-95, in which year, however, conditions were unfavourable to the canals.

6. The following statement shows the areas irrigated during the year from the various canals, and the corresponding assessments of water-rates :

Canal.	AREA IRRIGATED.		ASSESSMENT, 1895-96.				Assessment, 1894-95.	RATE PER ACRE IRRIGATED.	
	1895-96.	1894-95.	Occupiers' rate.	Owners' rate.	Share of Land Revenue and other indirect receipts.	Gross assessed revenue, excluding miscellaneous.		1895-96.	1894-95.

TOTAL ...	3,458,544	2,781,663	80,06,156	6,67,194	14,37,810	1,01,11,160	67,73,838	2·92	2·43

7. The total area irrigated during the year, which amounted to nearly $3\frac{1}{2}$ million acres, is remarkable as being the highest on record, the previous record being 2,962,415 acres in 1891-92.

The area irrigated by the Major Works, as shown in the table in paragraph 7 of the Resolution by the Local Government, does not agree with the area as shown in the tables accompanying the diagrams in the body of the report. The former excludes and the latter includes the Patiala irrigation on the Sirsa Branch of the Western Jumna Canal. The area irrigated by the Native States Branches of the Sirhind Canal is excluded both from the table in paragraph 7 of the Resolution and from the table accompanying the diagram in the body of the report.

These differences are apt to lead to complications, and the Government of India suggest for the consideration of the Punjab Government whether it might not be well that the tables should be made to agree in future, both showing the *total* area irrigated from the Major Works.

The total area irrigated under Major Works during the year, including the Patiala Section of the Sirsa Branch and the Native States Branches of the Sirhind Canal, amounted to 2,858,157 acres as against 1,855,758 acres in 1894-95 and 2,144,392 acres in 1891-92, the previous maximum on record.

The area irrigated on the Western Jumna Canal amounted to 667,609 acres and exceeded by 159,635 acres, the record area of the famine year of 1877-78. The increase is due to the construction of the Sirsa Branch and other extensions; but it is interesting to note the increase in the rabi area which was limited in both years by the supply available in the river.

The rabi area in 1895-96 amounted to 442,690 acres as against 292,839 acres in 1877-78, under approximately similar conditions of supply. The increase of 149,851 acres is therefore mainly attributable to the great improvements which have been made during the last 15 years in the arrangements for the control and distribution of the supply. The rabi area on the new extensions comprising the Sirsa Branch, Bhiwani, Bhalot and Mahmudpur Rajbahas amounted to 191,109 acres, leaving 251,581 acres as the area irrigated on the old canals, or only 41,258 acres less than in the famine year of 1877-78. The deficiency, however, is really less than this, as some of the old irrigation is taken up by the new channels. This result is very satisfactory as showing that the extensions which have been made of late years have not even in a season of intense demand seriously affected the old irrigation, the rabi area of which during the ten years preceding the opening of the Sirsa Branch average 156,405 acres only.

After a succession of five abnormally wet seasons, the irrigation on the Sirhind Canal has again been satisfactory. The total area irrigated on the British Branches was 653,483 acres, and has been exceeded only in 1891-92 when the area recorded was 685,610 acres. The slight decrease, as compared with that year, is said to be due to a deficient supply in the Sutlej; but it is observed that if the irrigation on the Native States Branches be taken into account, the total area for 1895-96 was 929,752 acres against 910,056 acres in 1892-93, so that the area now recorded is a maximum for the whole canal and approaches a million of acres.

The Bari Doab Canal area was also the highest on record in both harvests, the total for the year amounting to 617,463 acres against 592,785 acres in 1891-92.

The area on the Swat River Canal was below the average. The decrease occurred mainly in the rabi, the occupiers' rates for which harvest have been raised from Rs. 2-8-0 to Rs. 3 per acre. The short area is not, however, attributed so much to the enhancement of rates as to the unsettled relations between landlords and tenants, pending the announcement of the new settlement, and the cause is regarded as only temporary.

It is stated, however, that the area under rice has been greatly restricted in consequence of the increase in rate from Rs. 2-8-0 to Rs. 6, and that the cultivation of the crop is likely to die out altogether, the area in 1895-96 being only 121 acres against 3,274 acres in 1892-93. On sanitary grounds this is not to be regretted, as the rapid rise of the spring level in the canal tract has for some time been regarded with apprehension, and the rate for rice was enhanced with the express object of restricting its cultivation. Its place will probably be taken by cotton and maize.

The irrigated area on the Chenab Canal continues to increase very satisfactorily, and amounted to 369,935 acres in the year under review against 211,500 acres anticipated in the project forecast of 1891.

On the Minor Works, including the Shahpur Provincial Canals, the irrigated area amounted to 939,200 acres as against 1,075,192 acres in 1894-95. The year under review was generally an unfavourable one for the Inundation Canals. In many cases, owing to a low river, these canals commenced running late and with low supplies, while, owing to scanty rainfall and the absence of September floods, they closed unusually early.

8. The total assessments of the year under Major Works amount to Rs. 94,44,984 and exceed the previous record of 1891-92 by Rs. 29,25,755. The increase is distributed over all the canals, except the Swat River, which shows a slight decrease, and is a consequence of the great expansion of the irrigated area already noticed.

9. The areas irrigated in the kharif and rabi seasons are given in the following statement. The areas on the Patiala Section of the Sirsa Branch and on the Native States Branches of the Sirhind Canal and on the Shahpur Provincial Canals are included :

				Kharif.	Rabi.
				Acres.	Acres.
Major Works	991,593	1,866,564
Minor Works	477,957	461,243
				<hr/>	<hr/>
				1,469,550	2,327,807
				<hr/>	<hr/>
				3,797,357	

10. The following statement compares the areas of the principal crops irrigated during the last two years :

				1895-96.	1894-95.
				Acres.	Acres.
Sugarcane	79,693	75,374
Rice	195,385	179,542
Jowar	185,951	134,549
Maize	131,078	101,475
Wheat	1,251,985	1,063,144
Cotton	375,179	333,479

The value of the crops irrigated on the Imperial Canals alone is estimated at about 932½ lakhs of rupees.

11. The "duty" obtained on the Major Works, their discharges and the minimum discharges of the rivers from which they derive their supplies are exhibited in the following table:

Canals.	MINIMUM DISCHARGE OF RIVER DURING 1895- 6.	MAXIMUM DISCHARGE OF CANAL AS DESIGNED.	MAXIMUM DISCHARGE OF CANAL DURING YEAR.	AVERAGE DISCHARGE AT HEAD DURING YEAR.		ACRES IRRIGATED PER CUBIC FOOT OF AVERAGE DISCHARGE.	
	Cubic feet per second.	Cubic feet per second.	Cubic feet per second.	Kharif.	Rabi.	Kharif.	Rabi.
				Cubic feet per second.			
1	2	3	4	5	6	7	8
Swat River	3,432	700	655	449	475	68	106
Western Jumna (including Sirsa Branch)	3,575	4,219	4,717	3,411	3,038	66	146
Bari Doab	473	3,000	4,668	4,125	2,558	67	134
Sirhind	3,750	3,810	7,450	3,553	3,280	41	155
Chenab	6,173	8,313	2,760	2,403	2,288	64	94
Lower Solag and Para	4,516	1,067	985	whole year 985		whole year 77	
Sidhnai	River runs dry.	1,501	1,779	1,250	405	51	125

* Excluding Native States Branches.

As a consequence of the high demand, the rabi duties were all higher than in the previous year, except on the Swat River Canal, where, as noticed in paragraph 7 above, the demand was restricted owing to temporary causes.

12. The following statement shows the results of the working of the Native States Branches of the Sirhind Canal:

State.	Capital Outlay.	Gross revenue, less refunds.	Working expenses.	Net revenue.	Percentage on Capital Outlay.	Water-rates assessed.	Area irrigated.	Water-rates assessed per acre.	Working expenses per acre.
1	2	3	4	5	6	7	8	9	10
	Rs.	Rs.	Rs.	Rs.		Rs.	Acres.	Rs.	Rs.
Patiala	1,15,53,00	4,30,005	2,55,528	1,80,777	1'56	7,80,328	27,006	3'42	1'13
Nabha	12,55,30	48,450	30,947	8,511	0'68	86,011	27,100	3'32	1'47
Jhind	10,98,00	27,51	26,505	1,010	0'09	71,696	21,153	3'39	1'25
Total, 1895-96	1,30,06,40	5,15,278	3,24,980	1,90,298	1'37	9,42,015	27,268	3'41	1'18
Total, 1894-95	1,38,96,10	4,00,530	3,25,558	1,73,972	1'25	390,260	1,02,137	3'47	2'80

The area irrigated amounted to 276,268 acres, and shows a very satisfactory increase of 51,828 acres as compared with the previous record of 1891-92.

The value of the crops irrigated is estimated at 66½ lakhs of rupees, giving an average rate of Rs. 24 per acre.

13. The operations of the year in Native States have been highly satisfactory. The total area irrigated on the Patiala Branches of the Sirhind Canal referred to in paragraph 12 amounted to 75 per cent. of the full normal area deduced from that attained on the British Branches.

This percentage, although not as high as may be ultimately attained, is much above that of the years 1891-92 and 1892-93 when it stood at 58 only, and has only been exceeded in 1893-94 when the area on the British Branches was abnormally low.

On the Patiala Section of the Sirsa Branch, the area irrigated was in excess of the project forecasts and of the share nominally due to the State, while the profit to the Darbar on collections amounted to 5·34 per cent. on the Capital cost, and the assessments of the year indicate a profit of 10·88 per cent. On the old Western Jumna Canal, the Jhind irrigation amounted to 69,216 acres which is the highest area on record and exceeds by 9,216 acres, the maximum contemplated when the Jhind Rajbahs were constructed.

14. The working expenses of the several canals are shown in the following table :

Canals.	1895-96.					1894-95.
	Works.	Estab'lishment.	Tools and Plant.	Indirect charges.	Total.	Total.
<i>Major Works.</i>	Rs.	Rs.	Ri.	Rs.	Ri.	Rs.
35—Protective Irrigation Works—						
Swat River Canal	27,294	40,027	24,307	5,604	97,232	90,549
49—Irrigation Works not charged against Revenue—						
Western Jumna Canal, including Sirsa Branch	4,15,780	3,29,518	10,535	46,133	8,01,966	7,00,604
Bari Doab Canal	3,33,878	2,97,012	4,349	41,726	6,77,605	6,45,762
Sirhind Canal (British portion)	3,01,694	3,01,631	5,102	42,456	6,50,883	5,90,748
Chenab Canal	2,06,146	1,89,808	3,271	26,573	4,25,998	4,59,656
Lower Sohag and Para Canal	35,386	26,142	1	3,660	65,189	70,432
Sidhnai Canal	75,917	38,355	2,539	5,370	1,22,201	91,758
Total Major Works	13,95,315	12,22,493	50,144	1,71,522	28,40,474	26,50,549
Per acre irrigated	1 12	1 55
<i>Minor Works.</i>						
43—Works for which Capital and Revenue Accounts are kept—						
Upper Sutlej Canals	93,869	60,527	208	8,536	1,63,140	1,49,625
Lower Sutlej and Chenab Canals	3,40,003	85,974	1,821	11,539	4,39,337	4,52,808
Indus Canals	1,30,336	81,685	1,291	11,493	2,24,855	2,11,930
Shahpur Canals	29,186	25,515	239	4,254	59,194	49,971
Works of which Capital Accounts are not kept—						
Muzaffargarh Canal	1,49,338	63,582	2,771	9,008	2,24,699	2,58,570
Shahpur (Provincial) Canal	16,020	11,409	73	1,864	29,366	35,309
Total Minor Works	7,58,752	3,28,692	6,403	46,694	11,40,541	11,58,223
Per acre irrigated	1 21	1 79

15. There was an increase of Rs. 1,89,925 in the working expenses on the Major Works which in paragraph 6 of the Resolution by the Local Government is explained to be due to abnormally high expenditure on the Western Jumna and Sidhnai Canals and to an increase in the expenditure on the Sirhind Canal.

Owing to the large area irrigated, the rate per acre has fallen to Rs. 1'12 as compared with Rs. 1'55 in 1894-95.

On the Minor Works, there was a decrease in working expenses of Rs. 17,682; but as the area irrigated was less, the rate per acre is Rs. 1'21 as against Rs. 1'19 in the previous year.

The working expenses on Major and Minor Works together amounted to 45'4 per cent. of the gross revenue realized.

16. The following is a statement of the establishment charges for all the canals in the province:

				Revenue management.	Maintenance.	Total.	Percentage.
				Rs.	Rs.	Rs.	
Direction	1,01,839	1,00,900	2,02,739	13'07
Executive	8,19,416	3,47,025	11,66,441	75'20
Medical	16,119	16,119	1'04
Collection	1,64,307	...	1,64,307	10'59
Navigation	1,579	...	1,579	0'10
Total				10,87,141	4,64,044	15,51,185	100'00

The cost of revenue management amounted to 12'4 per cent. of the gross revenue realized.

17. The following are some of the principal works charged against the Revenue Accounts:

Western Jumna Canal.—Additions and improvements to buildings, bridges and falls on certain Branches and Rajbahas.

Bari Doab Canal.—Remodelling Fatehnangal Rajbaha and constructing a Minor therefrom, additions and improvements to buildings.

Sirhind Canal.—Supplying gates and lifting gear for certain Rajbaha and Minor heads, improvements to drainages and Rajbahas.

Chenab Canal.—Construction of silting reaches on the Rakh Branch, widening Marh Escape, improvements and alterations to buildings.

Lower Sohag and Para Canal.—Constructing the Faridpur Minor.

Upper Sutlej Inundation Canals.—Excavating two diversion cuts on Khanwah Canal, constructing needle weirs and permanent outlets on certain Rajbahas.

Indus Inundation Canals.—Constructing Dhundi regulator, improvements and extensions of reclamation bunds, combination of Shoria and Kasturi Canals and construction of Branch from Bāja Canal.

Shahpur (Imperial) Inundation Canals.—Construction of a new head and improvements to the Sahiwal Canal and widening first six miles of the Western Station Canal.

Shahpur (Provincial) Inundation Canals.—Constructing three stop-dams and erecting boundary pillars

18. The navigation receipts and charges are shown below :

	Receipts. Rs.	Charges. Rs.
Western Jumna Canal	79,927	7,354
Sirhind Canal (including Native States Branches) ...	7,742	13,904
Total ...	87,669	21,258

The increase in the receipts on the Western Jumna Canal is attributed mainly to an increase in the rafting dues. The maintenance charges on this canal are somewhat less than formerly.

On the Sirhind Canal, the receipts were slightly greater than in the previous year, but the maintenance charges were also Rs. 4,224 greater, as more repairs were found necessary. The net profit on navigation operations was Rs. 66,411 as against Rs. 53,976 in 1894-95.

19 The receipts on account of water-power amounted to Rs. 1,92,658 as against Rs. 1,67,924 in the previous years.

20. The value of statute labour and the sums contributed from the Fine Funds on the Muzaffargarh and Lower Sutlej and Chenab Inundation Canals were as follows :

	Lower Sutlej and Chenab Canals. Rs.	Muzaffar- garh Canals. Rs.
Value of statute labour	2,02,706	1,07,427
Contributions from Fine Fund	1,15,081	27,127
Fines inflicted	75,698	26,876
Credit balance at close of year	1,05,577	20,494

The attendance of statute labour was as follows :

	Lower Sutlej and Chenab Canals.	Muzaffar- garh Canals.
Called out	674,072	481,093
Present	514,231	418,040
Absent with sanction	26,317	11,669
Absent without sanction	133,524	51,999
Percentage of absentees	10·8	10·8

The percentage of absentees on the Lower Sutlej and Chenab Canals was 19·8 as against 22·85 in 1894-95, a satisfactory decrease.

On the Muzaffargarh Canals, the percentage of absentees (10·8) was greater than that of the previous year (9·7). The increase is attributed partly to sickness in the district and partly to closer supervision and check exercised over the attendance.

21. The work of collection continues to show satisfactory results. The unrealized balance at the beginning of the year was Rs. 1,30,605.

Including this amount and deducting remissions amounting to Rs. 3,28,697, the net demand for collection during the year was Rs. 62,46,334, of which Rs. 61,32,939 were realized, leaving at the end of the year an uncollected balance of Rs. 1,13,395.

22. The results of check measurements on the Major Works are given in Appendix II of the report. The percentages of area checked are lower than those of the previous year, but considering the much larger area irrigated are

regarded by the Local Government as satisfactory. The percentages of errors discovered are low, except in the Swat River Canal and 1st Chenab Divisions, and the matter is receiving the attention of the local authorities.

23. A distinguishing feature of the report under review which was received by the Government of India on 4th February 1897 is the additions which have been made to the diagrams which have for some years accompanied the Punjab Revenue reports.

On the daily consumption diagrams lines have been laid down, shewing the growth of the recorded area month by month during each harvest and on that for the Sirhind Canal, the progress of silt deposit and scour in the main line throughout the year has been indicated. It is satisfactory to note that the measures which have been taken to control the deposit have been so far successful and that even in the months of July and August it was possible to pass 6,000 cusecs down the canal, which is the estimated full supply, although during the period of intense demand in October as much as 7,400 cusecs was passed. Such supplies would have been impossible in 1891-92.

The additions made to the diagrams showing areas annually irrigated since 1860-61 exhibit the financial history of each Major Work and of the Major Works of the Province as a whole, and show at a glance the growth of the gross revenue and of the working expenses, and also the Capital Outlay and arrears of interest or the accumulated surplus of net revenue over interest charges at the end of each year. From these diagrams it is seen that during the period embraced there have never been any outstanding interest charges on the Major Irrigation Works of the Punjab taken as a whole. At the end of 1860-61, the Capital Outlay incurred on the Western Jumna and Bari Doab Canals amounted to Rs. 1,12,97,296, but the net revenue to the end of the same year exceeded the interest charges by Rs. 1,04,46,483, the result mainly of the revenue realized with a small Capital Outlay in first opening the old Western Jumna Canal which has since been gradually almost entirely reconstructed. At the end of 1895-96 the Capital Outlay on the Punjab Major Works had risen to Rs. 8,02,57,067, but the surplus of net revenue over interest charges to the end of the same year amounted to Rs. 2,63,35,026, although the irrigated area on the Chenab Canal is at present less than one-third of that anticipated when fully developed.

24. The financial results of the Punjab Canals may be summarized as follows :

	Capital outlay during year.	Capital outlay to end of year.	Area irrigated.	Return on Capital outlay.
	Rs.	Rs.	Acres.	
Major Works (excluding Chenab Canal) ..	10,65,259	6,26,35,343	2,149,409	5.56
Minor Works for which Capital and Revenue Accounts are kept.	1,10,875	17,67,301	630,338	19.86
Major and Minor Works, including Chenab Canal.	38,72,369	8,20,24,368	3,149,682	5.62

As the Chenab Canal is not yet in full operation, although its revenue compares very favourably with the forecasts, it may be anticipated that when this canal is fully developed the returns from the Punjab Canals, as a whole, will be even more favourable than is indicated by the percentages noted above.

25. The principal features of the seasons under review are said to be the sudden cessation of the monsoon rains by the end of August, the deficient cold weather rainfall and the low supplies in the rivers. The autumn drought occasioned a strong demand for maturing kharif and for sowing rabi, resulting in a large increase of irrigated area, though the Inundation Canals were unfavourably affected by the low supplies in the rivers.

26. The Resolution by the Local Government concludes with a cordial reference to the eminent services rendered by Mr. Higham, who held the office of Chief Engineer throughout the year, and by Colonel Jacob and Mr. Preston in their respective circles, as well as by the officers of the department generally, and the Government of India concur with the Government of the Punjab in acknowledging the valuable work done throughout the year which has so greatly contributed to the excellent results brought to notice in the Report and Resolution now under review.

ORDER.—Ordered, that copies of this Review and of the Report, and the Resolution by the Punjab Government, be forwarded to the Revenue and Agricultural Department for information.

Ordered also, that copies of the Review be forwarded to the Government of the Punjab for information and guidance, and that copies of this Review and of the Report and Resolution by the Punjab Government be forwarded to the Local Governments and Administrations in the Public Works Department noted in the margin, for information.

The Governments of Madras, Bombay, Bengal, North-Western Provinces and Oudh and Burma, Public Works Department.

The Chief Commissioners of the Central Provinces and Coorg.

The Residents at Hyderabad and Mysore.

The Agents to the Governor General in Central India, Rajputana and Baluchistan.

Ordered, further, that this Review be published in the *Gazette of India*, and that copies of this Review and of the Report and Resolution by the Punjab Government be forwarded to Her Majesty's Secretary of State for India.

No. 201.—The following is published for general information :

No. 413 R. T., dated Simla, the 15th May, 1897.

RESOLUTION—By the Government of India, Public Works Department.

Addendum to rule 22 of the rules for reporting on and investigating accidents on Indian Railways.

Read—

Section 84 of the Indian Railways Act, IX of 1890.

Government of India circular No. 7 Ry., dated the 19th April 1895, promulgating rules for reporting and investigating accidents.

Public Works Department notification No. 170, dated the 30th April 1895, publishing—in the *Gazette of India* of the 4th May 1895—the circular and the rules read above.

Read also—

Government of India circular No. 18 Ry., dated the 2nd November 1895, modifying rule 8 of the rules referred to in the circular read above.

Government of India notification No. 411, dated the 21st November 1895, publishing—in the *Gazette of India* of the 23rd November 1895—the circular and the modification of rule 8 therewith promulgated.

OBSERVATIONS.—Rule 22 of enclosure No. 1 to the Government of India circular No. 7 Ry., dated the 19th April 1895, prescribes that Government Inspectors appointed under section 4 (1) of the Indian Railways Act, IX of 1890, shall report *by telegraph* to the Government of India all accidents which occur in the course of working a railway ; which are of the nature described under rule 2 of those rules.

2. Experience has shown that a large number of the reports so received refer to minor collisions and derailments, personal injuries received during shunting operations, accidents not directly due to defects in train working, such as trespassers run over and persons falling from, or jumping out of, trains and other occurrences of similarly small administrative importance.

The immediate report of such accidents serves no useful end, and it has accordingly been decided that their report *by telegraph* to the Government of India may be discontinued.

RESOLUTION.—The Governor General in Council is pleased to issue the following addendum to rule 22 of the rules forming enclosure No. 1 to the circular No. 7 Ry., dated the 19th April 1895.

Addendum to rule 22.

After the words "*if the accident falls under rule 2 of these rules,*" add the words "*and subject to the exceptions noted below.*"

Exceptions.

The following classes of accidents falling under rule 2 of these rules may, —unless in the opinion of the Government Inspector there are especial reasons for reporting them at once either by telegraph or by letter,—be reported to the Government of India in the form of a monthly return as soon as possible after the close of each month :

I.—Persons run over and killed, or injured, by accidents other than accidents to trains.

II.—Minor collisions, or derailments, in station yards unattended by loss of life, or grievous hurt, or serious injury to property.

ORDER.—Ordered, that this resolution be communicated to the Local Governments and Administrations, and to the officers noted in the margin, for information and guidance; and to the Governments of the North-Western Provinces and Oudh, and the Punjab, the Chief Commissioner of the Central Provinces, the Agents to the Governor General for Central India and Baluchistan, and the Accountant information.

Ordered also that this resolution, together with the rules and forms referred to which have already been published in the *Gazette of India* dated the 4th May and 23rd November 1895, be further notified to railway servants, and to the public, by a copy thereof as herein modified being kept open to inspection, free of any charge, in the office of the station master of every station in the case of open lines, and of the Engineer in charge in the case of lines under construction.

Ordered further that this resolution be forwarded to the Home Department, for information, and that it be published under a notification in Part I of the *Gazette of India*.

Judicial Despatch from the Secretary of State, No. 4, dated the 11th February 1897.

RESOLUTION.

On the 30th May 1896, the Government of India circulated a proposal which had been made to them by the Government of the North-Western Provinces and Oudh that the rules published in the Notification in the Home Department No. 1, dated 2nd January 1880, for the encouragement of the study of Oriental languages among junior members of the Indian Civil Service should, so far as they relate to the High Proficiency examination in vernacular (but not in classical) languages, be made applicable to Police Officers, subject to the restriction that Police Officers should be eligible for rewards only for passing the examination in those vernaculars which are current in the Province to which they belong. In inviting the opinions of Local Governments and Administrations, the Government of India further asked that, in the event of those opinions being in favour of the proposal, they might be furnished with suggestions as to the scale on which the rewards for passing the High Proficiency examinations should be fixed.

2. The replies received show that all Local Governments and Administrations are in favour of the proposal and consider that Police Officers should be eligible, on passing the High Proficiency examination, for rewards on the same scale as those admissible to members of the Indian Civil Service. Two further suggestions have been received. In the first place the Government of Bengal has

suggested that Rule VI of the Rules of 1880, which provides that the period within which candidates must present themselves for examination shall count from the date of their first arrival in India, should, in its application to Police Officers, be so modified in the case of those officers who are appointed after an examination held in this country as to make the period count from the date of appointment in India, the date of first arrival in India holding good for officers selected in England. The second proposal has been made by the Resident at Hyderabad, who has pointed out that Marathi, the vernacular of Berar, is not one of the languages mentioned in the Rules of 1880, and has suggested that it should be specially included in the rules for Police Officers.

3. The proposal thus unanimously concurred in was submitted to Her Majesty's Secretary of State, and with his approval the Governor General in Council has now decided that, subject to the modification in Rule VI suggested by the Bengal Government, the rules published in Home Department Notification No. 1, dated the 2nd January 1880, shall in future, so far as they relate to the High Proficiency examination in vernacular (but not classical) languages, in

Bengal.
North-Western Provinces and Oudh.
Punjab.
Central Provinces.
Assam.
Coorg.
Hyderabad.

the Provinces named in the margin, apply to gazetted Police Officers not being statutory natives of India, subject to the restriction that Police Officers shall be eligible for rewards only for passing the examination in those vernaculars which are

current in the Province to which they belong. The Government of India have further decided that, in accordance with the proposal of the Resident at Hyderabad, Police Officers in the Hyderabad Assigned Districts shall also be eligible, on passing the examination in Marathi by the High Proficiency standard, for a reward of the same amount (Rs. 1,000) as is admissible to junior civilians on passing that examination under the rules in force in the Bombay Presidency.

4. The Governor General in Council will be glad if the Governments of Madras and Bombay will cause similar orders to be issued in respect of gazetted Police Officers serving in the Madras and Bombay Presidencies.

ORDER.—Ordered, that a copy of this Resolution be forwarded to Local Governments and Administrations (except Burma); that a copy be forwarded to the Finance and Commerce Department for information and also to the Foreign and Military Departments; that a copy be forwarded to the Secretary to the Board of Examiners, Calcutta, and that the Resolution be published in the *Gazette of India* for general information.

J. P. HEWETT,

Secretary to the Government of India.

GOVERNMENT OF INDIA.

DEPARTMENT OF REVENUE AND AGRICULTURE.

Memorandum on the meteorological conditions obtaining in India and the Indian Seas antecedent to the south-west monsoon of 1897, and a tentative forecast of the general character of the south-west monsoon rainfall of 1897 in India.

The present memorandum gives a brief summary of the winter snowfall in the Himalayan area and of the more important meteorological conditions in India and the adjacent seas during the past six months and a tentative forecast of the general character of the approaching south-west monsoon (based on all the available information received up to the 15th May).

Summary of snowfall reports.

The following gives a brief resumé of the snowfall reports received up to date :

AFGHAN MOUNTAINS.

1. *Hilis bordering the Dera Ismail Khan District.*—Snow fell later than usual in April and was throughout heavier than during the preceding two or three winters.

2. *Kurram.*—There was unusually early and heavy snow in November. The snowfall was also heavy in January. There were more frequent falls in March and April on the higher ranges of the Sufed Koh, and the higher passes were on the 30th April covered with snow.

3. *Khyber District.*—The snowfall of the first three months of the year is considered to be heavier than has occurred during the past five years in this district.

4. *Kabul.*—There were frequent falls in January, February and March, totalling 7 feet and 3 inches. The inhabitants of Kabul say that the snowfall was heavier than in the preceding three winters.

5. *Chitral.*—Colonel Davidson, Commanding at Chitral, writes as follows on the 9th May :—“The snowfall on the Lowarai range has been tremendous this winter. It snowed there two or three times last week, and it looks at present as if more might fall. The oldest inhabitants say they have never seen such snow, and I have never seen anything here like it. I fancy that in the main valley of the Ashreth River, rising at the Lowarai Pass (10,500 feet high), the snow must be 30, 40, 50 and 60 feet deep, and I should not be surprised if it were in places 100 feet deep. The people about Lower Chitral say that both the cold weather rain and snowfall of 1897 have been excessive and predict a very hot summer.”

KASHMIR AND PUNJAB HIMALAYAS.

1. *Murree.*—The snowfall was heavy in January and moderate in February. The following gives a comparison of the fall during the past three winters :

Station.	SNOWFALL OF THE PERIOD DECEMBER TO APRIL IN					
	1896-97.		1895-96.		1894-95.	
	Feet.	Inches.	Feet.	Inches.	Feet.	Inches.
Murree 	10	4½	7	5	11	10
Kahuta 	4	0	1	0	6	0

2. *Lahoul*.—The following gives a comparison of the total fall from the beginning of December to the end of March during the past three winters at Kailang in Lahoul:

Station.	SNOWFALL OF THE PERIOD DECEMBER TO MARCH IN					
	1896-97.		1895-95.		1894-95.	
	Feet.	Inches.	Feet.	Inches.	Feet.	Inches.
Kailang	15	5	8	8	11	8

The fall on the higher ranges is estimated at from 30 to 40 feet. The winter was not severe at Kailang, but on the higher mountains frequent storms appeared to rage, and the winds were exceptionally strong, judging by the clouds of driven snow which were occasionally seen. The fall during the past winter is considered as somewhat less than the normal by the Lahoulis.

3. *Chamba*.—The snowfall during the past winter was heavier than in the winter of 1895-96. It is considered by the natives of the district to have been barely normal on the middle elevations, but heavier than usual on the higher ranges. The season resembled to some extent the winter of 1893-94. The following gives a comparison of the total fall at five registering stations with that of the two previous winters:

	Tisa, 5,000 feet.	Bhandil, 5,500 feet.	Chanan, 6,500 feet.	Thanela, 7,000 feet.	Ka'atop, 8,000 feet.
	Feet. Inches.	Feet. Inches.	Feet. Inches.	Feet. Inches.	Feet. Inches.
Total for period December 1896 to 15th April 1897	1 8½	0 0	9 2½	15 3	11 10
Total for period December 1895 to 15th April 1896	0 8	3 10	3 10	8 11	8 6
Total for period December 1894 to 15th April 1895	3 ½	9 3	?	20 7	26 8

4. *Kulu*.—The snowfall of the past winter (up to the end of April 1897) was greater than in the year 1896. Falls were more frequent in March and April, but February was much finer than usual. The following gives the depth of snow at the end of April on five of the higher passes in each of the seven years 1891-97:

Year.	DEPTH OF SNOW ON 30TH APRIL.									
	Rotang, 13,000 feet.		Ham'ia, 14,500 feet.		Bhubhu, 10,000 feet.		Srikand, 15,000 feet.		Gargarasan, 17,000 feet.	
	Feet.	Inches.	Feet.	Inches.	Feet.	Inches.	Feet.	Inches.	Feet.	Inches.
1897	11	0	11	0	2	0	15	0	7	0
1896	16	0	9	0	0	6	8	0	1	0
1895	13	0	4	0	3	0	15	0	10	0
1894	13	0	10	0	2	0	15	0	8	0
1893	13	0	11	0	5	0	30	0	25	0
1892	3	0	2	6	<i>Nil.</i>		6	0	?	
1891	10	0	?		5	0	36	0	12	0

The depth of snow on the passes is hence about the same as the mean depth at the same period of the past five years and shows clearly that there is no abnormal accumulation of snow on the higher mountains.

5. *Poo (Upper Sutlej Valley).*—The snowfall up to the end of February was regarded as normal by the natives of the district.

6. *Kilba (in Bushahr).*—The winter began late. The snowstorms were more numerous than usual, especially in January and March, and the winter is considered by the natives to have been more rigorous and prolonged than during the preceding five years. The amount of snow on the Rupin Pass (15,000 feet high) and Bulder Pass (16,000 feet high) was large on the 15th of April, and from 15 to 20 feet in depth. There were numerous local snowstorms in April, but they were all, with one exception, local. The following gives a statement of the winter precipitation at Kilba during the past five years :

Station.	PRECIPITATION, IN INCHES OF RAIN, OF THE PERIOD DECEMBER TO MARCH IN				
	1896-97.	1895-96.	1894-95.	1893-94.	1892-93.
	Inches.	Inches.	Inches.	Inches.	Inches.
Kilba ...	17'59	2'47	13'78	20'98	15'89

NORTH-WESTERN PROVINCES HIMALAYAS.

1. *Almora.*—The latest information for this district is for the month of February. The following gives a comparative statement of the observed snowfall on three high passes in this district for the past four winters :

Period.				Fall on Pindari and Pankua Peaks.	Fall on Ralumdura and Utdhura Passes.	Fall on Malla Byans, Chandans and Dhurma.
				Feet. Inches.	Feet. Inches.	Feet. Inches.
Total fall up to 15th February 1897	...			26 0	53 6	11 6
Ditto ditto 1896	...			14 0	32 0	9 6
Ditto ditto 1895	...			29 8	71 3	18 3
Ditto ditto 1894	...			33 3	57 3	33 6

The fall during the past winter is probably about the average and considerably heavier than in the winter of 1895-96.

2. *Garhwal.*—The information for this district comes down to the end of February. It is stated that in the northern parts of the district the snowfalls were more frequent, but not so heavy as in the previous winter. In the southern part of the district the falls were neither frequent nor heavy. The snowfall was hence regarded as less than the normal.

SIKKIM AND ASSAM HIMALAYAS.

The winter began earlier than usual, but the total snowfall is stated in the two reports received about a month ago not to be above the normal. A report received today (15th May) from the Assistant Political Officer, Sadiya, states that the snowfall on the neighbouring Himalayas was heavier than for some years past. There were two heavy falls—one early in the cold season and the second unusually late in the middle of March.

Summary.—The data show clearly that the snowfall over the whole of the Western Himalayas (and probably the Eastern Himalayas also) has not been excessive, except in Chitral and the neighbouring mountain districts to the north and north-west of the Punjab. The winter was somewhat more severe than usual in March and April, and hence prolonged slightly beyond its normal date. The fall was apparently well distributed over the whole area, and the snow accumulation at the end of April was probably normal (or very slightly greater than usual). It was hence of such a character as not to impress any marked conditions upon the pressure distribution, temperature and air movement in Northern India unfavourable to the early or full extension of the monsoon currents in their progress northwards from the Equator.

Meteorological conditions in India during the past six months.—The south-west monsoon in 1896 was fairly steady during the months of July and August, but was weaker than usual. It withdrew abnormally early from the whole of Northern and Central India and the northern half of the Peninsula. The south-west monsoon rains ceased in North-Western India a month earlier than usual, and in Bengal, Bihar, the Central Provinces, Berar, North Madras and the Deccan from six to seven weeks earlier than usual. Southern India received normal to abundant rain in October and November and the first half of December. Unusually dry and fine weather prevailed generally during this period in Northern and Central India.

November was slightly more disturbed than usual in Upper India, and the mountains to the north-west and north of the Punjab received an early and heavy fall of snow during the first week of the month.

December was a very quiet month in Northern India, and little snow fell on the hills during that month.

January was somewhat more disturbed than usual. A succession of storms crossed Northern India. They gave moderately heavy snow on the Western Himalayas, and rain, chiefly in Upper India, which received more than its normal fall.

February was drier and less disturbed than usual in North-Western India. Disturbances of the hot weather type in North-Eastern India gave moderate rain (considerably in excess of the small normal fall of the month) to South Bihar, Chota Nagpur, South-West Bengal, Orissa and the eastern districts of the Central Provinces.

March was, on the other hand, more unsettled and stormy than usual, and a succession of storms of the cold-weather type crossed Northern India. Two of these storms (*vis.*, from the 20th to the 25th and the 27th to the 30th) gave very heavy and general snow on the Western Himalayas and general rain over the greater part of Northern India. The rainfall was normal in the Punjab and in moderate to large excess in North-Eastern India, but was scanty in the North-Western Provinces and practically *nil* in Rajputana, Central India and the Central Provinces.

April was, on the whole, more disturbed than usual. The disturbances were chiefly of the hot weather type, giving rise to local duststorms and thunderstorms. There were frequent snow showers in the Kashmir and Punjab Himalayas, but only one storm, *vis.*, from the 11th to the 15th, gave general snow in that area. The rainfall of the month was in considerable to large defect in Assam and in North and East Bengal and in moderate defect in Burma relatively to the normal. Elsewhere it was generally above the small normal of the period, more especially in Malabar and South India.

May.—The first fortnight of May has been unusually free from disturbance and the weather has hence been abnormally hot and dry. Temperature has been above the normal over the whole area, except the most northerly districts of the Punjab, where the low temperature is apparently a local effect due to the heavy snow in the neighbouring hills in North-East Afghanistan and Chitral. The rainfall was below the normal in Southern India and more especially in Malabar, but was above it in Lower Burma, due to a diffused cyclonic storm which passed into Burma from the Andaman Sea on the 14th.

Pressure was, on the mean of the period, in considerable defect in India, to a larger extent than in January, February and March. The local pressure conditions were similar to those of April, the deficiency in Burma being slightly more marked, and the excess in North Bombay greater, whilst that in the Punjab was smaller. The pressure conditions are hence still unfavourable for Upper India, but to a slightly less extent than at the end of April and their importance will depend chiefly upon the strength of the monsoon.

The preceding discussion has indicated that the cold-weather months of December, January and February were on the whole finer than usual, and the first two months of the hot weather, March and April, somewhat more disturbed than usual. Cold-weather conditions obtained longer than usual in March and in fact during the greater part of that month. Normal hot weather conditions set in before the end of the month and have held very steadily since. It will thus be seen that the weather conditions in India are in general agreement with the inferences drawn above respecting the winter snowfall in the Himalayan area. This is shown clearly by the temperature variations from the normal for the months of January to April and for the first-half of May—

VARIATION FROM NORMAL OF MEAN TEMPERATURE.

Province.	January.	February.	March.	April.	First-half of May.	Mean of period.
Punjab ...	−0.3	+1.3	−1.6	−1.7	+1.5	−0.2
Rajputana ...	−0.4	+0.8	−1.7	−1.5	+3.1	+0.1
North-Western Provinces ...	+1.5	+1.8	−0.5	+0.2	+3.2	+1.2
Bihar ...	+2.0	+2.2	−1.1	+0.7	+2.4	+1.2
Chota Nagpur ..	+3.1	+2.3	−0.9	−0.1	+1.4	+1.2
Bengal ..	+1.9	+2.5	−0.1	+0.9	+2.5	+1.5
Central India ..	+1.2	+2.0	−0.7	+0.8	+2.6	+1.2
Central Provinces	+3.5	+3.4	−0.5	+0.9	+1.2	+1.7
Bombay ..	+2.2	+1.5	−0.2	+0.9	+1.5	+1.2
Madras ..	+2.6	+3.9	+1.7	+0.6	+1.8	+2.1
Burma ...	+2.3	+2.8	+0.8	+1.7	−0.3	+1.5

The data show that temperature has been persistently in excess during the whole period in Burma and the Peninsula. It was normal or in excess over Northern and Central India in January and February. The disturbed weather of March reduced temperature below the normal to a moderate extent over the whole of that area. In April temperature increased more rapidly than usual, and was again above the normal over the whole of Northern and Central India, with the exception of the Punjab, Sind, Rajputana and Baluchistan. In the first-half of May it was in general and moderately large excess over nearly the whole of India. These facts hence indicate that the influence of the late snowfall in March was not large, and that it passed away from the whole area in April and the first-half of May. Hot weather conditions obtain at the present time in a more intensified form than usual.

Pressure was in general defect in the first three months of the year, but was in moderate excess in April—a result probably of the disturbed and cool weather of March. The local pressure conditions, as measured by the pressure anomalies, were small and insignificant during the first three months of the year. In April the pressure anomalies were larger and important, and if persistent will contribute to modify the extension of the monsoon currents. The chief features in April, as shown by the data of the table below, were—

- (1) moderate to considerable local excess of pressure in Upper India ;
- (2) moderate to considerable local deficiency in Southern India, Lower Burma and probably the southern half of the Bay.

Province.	MEAN 8 A.M. PRESSURE ANOMALY IN					Mean of period.
	January.	February.	March.	April.	First-half of May.

The variations from the normal of the humidity conditions and of the rainfall of the period agree fully with the above and further confirm the general inferences as to the meteorological conditions obtaining at present in India.

The conclusions from the preceding data are as follows :

- (1) The winter snowfall was about normal or in slight excess in the Kashmir and Punjab Himalayas and probably also in the Baluch mountains. It was locally in large excess in Chitral and North-East Afghanistan.
- (2) The winter closed later than usual, and there was a large fall of snow in the last fortnight of March, which exercised a considerable influence on the temperature and pressure in Northern India in March and April.
- (3) The snowfall conditions, at the present time (on the 15th May) if not distinctly favourable, are not unfavourable to the advance of a strong and early monsoon.
- (4) The pressure conditions obtaining in India in April and the first-half of May were favourable over the whole of India, except in Upper India, where they were of such a character as, if persistent up to the setting in of the monsoon, to divert the current from Upper India, and to determine it more largely to the Peninsula, North-Eastern India, and perhaps Burma. Hence conditions are at present somewhat unfavourable in Upper India.

General conditions in the Indian monsoon area and Indian Ocean.—The past five years, 1892-96, have been characterised by a cyclical variation of rainfall more prolonged in its period and of larger amount than has probably occurred during the present century. The following shows the variations of the mean annual rainfall of India, year by year, from 1876 to 1896:

Year.					Rainfall variation from normal.	Percentage variation from normal.
					Inches.	
1876	—4'49	—11
1877	—4'28	—11
1878	+6'34	+15
1879	+1'69	+4
1880	—1'56	—4
1881	+0'10	0
1882	+2'64	+6
1883	—0'12	0
1884	+1'73	+4
1885	+1'05	+3
1886	+3'02	+7
1887	+2'42	+6
1888	—1'54	—4
1889	+2'41	+6
1890	+0'68	+1
1891	—3'54	—9
1892	+5'09	+12
1893	+9'07	+22
1894	+6'47	+16
1895	—2'90	—7
1896	—4'83	—12

The large deficiency in the years 1876 and 1877 was due to drought in the former year over the greater part of the Peninsula and in the second year to drought in North-Western India (more especially the North-Western Provinces and Rajputana). From 1878 to 1891 the variations were comparatively small in amount, and the chief factors determining the strength of the monsoon and the distribution of the monsoon rainfall were the local conditions obtaining in India, of which an important one was the amount and period of the winter snowfall. The excessive snowfall of the winter of 1890-91 preceded and was undoubtedly the chief cause in producing the local drought and scarcity in Rajputana in 1891-1892 initiated a period of large annual variations in the rainfall of India. These variations cannot be explained by the local conditions in India and are

apparently due to larger and more widely spread conditions obtaining almost certainly over the whole Indian monsoon area and the Indian Ocean and perhaps over a much larger area. The available data indicate that there has been a variation of equal period in the strength of the south-east trades, the phases of which were either simultaneous with or slightly antecedent in their occurrence to the corresponding phases of the rainfall in India. Theory indicates that any large and persistent variation in the strength of the south-east trades would be reproduced in the strength of the south-west monsoon. The variations in the strength of the south-east trades have been a potent and probably the chief or primary factor in determining the strength of the south-west monsoon in India during the past five years. It is hence desirable to ascertain the strength of the south-east trades during the past three or four months, as the most important indication, at the present time, of the probable strength of the approaching monsoon. The following is a summary of the information received up to the present time, partly by telegrams from the Seychelles, Zanzibar, Mauritius, and Cape Town and partly from the logs of ships, regarding this important factor.

Seychelles.—The telegrams received from this station between the 1st and 15th show that conditions were slightly unfavourable at the commencement of the month, but that they have improved and were normal on the 12th and 13th and two following days. They also indicate that steady trade winds are blowing to the south and south-west of that station. A ship which arrived on the 15th states that she encountered a cyclonic storm in the Indian Ocean during the previous week.

Zanzibar.—The rainfall in March and April was unusually heavy, and 55 per cent. above the normal of period. Steady southerly and moderately strong southerly winds prevailed throughout April. The rains ceased in the first week of May, and weather is now drier and finer than usual with fairly strong winds.

Mauritius.—From January to April pressure was slightly ('007") below the normal and the wind velocity one mile per hour above it on the average of the period. The chief feature of the weather has been a severe drought from September 1896 to the present time, during which period the rainfall has been 15 inches, or 52 per cent. below normal. Two cyclones and two gales (about the normal number) have occurred in the Indian Ocean during the past five months. A telegram received from Mauritius on the 15th states that the drought continues and that winds are more southerly than usual and slightly stronger than the average. The barometer fell '22 inch below the normal between the 29th April and the 1st of May and again by the same amount on the 13th and 14th due to distant disturbances in the Indian Ocean.

South Australia.—The Government Astronomer writing on the 7th April says—"The drought here has only partially broken up."

Cape Colony.—Mr. Hutchins, who pointed out in April 1896 the strong probability of a weak monsoon and the consequent partial failure of the rains in India from the absence of strength in the south-east trades in South Africa at that time, has telegraphed the following information respecting the strength of the trades during the past four months:

"The wind strength of the south-east trades was in excess of the normal up to the first or second week of January. Thence to the middle of April the trades were below normal but stronger than in the same months last year. From the middle of April to date (7th May) the trades have been steady and above the normal increasing to gales on the 3rd, 4th and 5th and giving heavy rains along the south-east coast and disastrous floods at Port Elizabeth. The rainfall of the Cape Peninsula and coast districts has been this year light and normal. The south-east trades rainfall was abundant up to Christmas, since which it has been irregular, deficient over considerable areas and in excess in others. There was continued heavy rain during January in the eastern districts of the Orange Free State. The character of the rainfall in South Africa during the past four months appears to me indicative of renewed strength in the south-east trades."

Summary and Inferences.—The above gives the whole of the available information throwing light on the probable strength of the south-east trades at

the present time. The data extracted from the logs of vessels entering the ports of Calcutta and Bombay are too scanty to be of any value, but are on the whole in favour of south-east trades of at least normal strength. The preceding information appears to indicate that conditions continue somewhat abnormal in the South-East Trades Region, and that South Africa, parts of Australia, and Mauritius as well as India have suffered during the past year more or less severely from scanty rainfall and drought. These conditions are, however, so far as can be judged from the information received, passing away, and it is probable that the south-east trades are now little, if at all, below their normal strength. It is hence also probable that the south-west monsoon will be of about normal strength.

An examination of the rainfall variations at Zanzibar and Mauritius in comparison with the corresponding variations in India, indicates that the approaching monsoon rainfall will, as a whole, probably be in slight to moderate excess.

A comparison of the meteorology of India during the present year with the past 20 years indicates that there is only one year (*viz.*, 1890) with which the present (up to 15th May) bears a considerable resemblance. The years 1878, 1888 and 1892 have been suggested as possibly years of similar conditions in India. The resemblances are very slight, and the antecedent conditions of the cold and hot weathers in those years differ largely from those of the present year. The rains of the year 1890 were favourable over the whole of India with the exception of a part of Upper India. This comparison hence slightly increases the probability of a normal monsoon.

The information given above indicates that it is *very probable* the south-west monsoon will not be much below its normal strength and *probable* it will be normal, or slightly stronger, than usual. It is hence most probable that it will be of normal strength.

Conditions are at present favourable in North-Eastern and Central India and the greater part of the Peninsula, and those areas will hence, on the supposition of a monsoon of normal strength, receive at least normal rain.

On the other hand, conditions are slightly unfavourable in Upper India, and if the monsoon be not above its normal strength, it is probable that the rainfall will be more or less in defect in the greater part of the Punjab, West Rajputana and perhaps Kathiawar and Gujarat.

So far as can be at present judged, the monsoon should commence on the West Coast and also in Bengal about the normal dates in the first and third weeks of June, respectively.

It should be carefully borne in mind that these conclusions are tentative. The memorandum gives a summary of the information bearing on the probable strength of the monsoon obtained by the Department, and the chief conclusions that can be drawn in the present state of our knowledge. May is, it should however be remembered, a month of large and rapid meteorological changes in India, due to the intensity of the thermal actions, and it is hence possible, although not probable, that the actions of the next fortnight or three weeks may considerably modify the local conditions in India, and hence affect considerably the estimate of the probable character and distribution of the rainfall in India during the next four months.

JOHN ELIOT,

SIMLA, 15th May 1897.

DEPARTMENT OF REVENUE AND AGRICULTURE.

Weather Review of India for the Week ending at 8 a.m. on
Saturday, May 15th, 1897.

During nearly the whole of the week under review and over nearly the whole of the Indian region ordinary hot weather conditions have prevailed. Pressure has been steadily low over North-West India or the Gangetic Plain and high over the west and south of the Peninsula. Steepish gradients have on most occasions existed, and the westerly and north-westerly winds have been strong and dry. Over the Bay area and the surrounding districts the winds have been southerly and fairly strong, and these winds have occasioned showers over parts of Bengal and of Assam. In Burma the weather has been more unsettled and rainy than in other parts of the Indian area. On the morning of the 12th the wind there had shifted to north, with a falling barometer and some rain, and a small depression, which had apparently formed near the Andamans, subsequently advanced into Deltaic Burma, giving heavy rain to a large part of the Eastern Peninsula, and strong winds to some stations. This heavy rainfall occasioned a large and rapid reduction of temperature over Burma, where, on the last two days of the week, the mean temperature was between 3° and 13° below the normal average. In other parts of the Indian region, where dry westerly winds prevailed, the heat has been almost everywhere excessive. This was particularly the case on the 12th, on which day the mean temperature exceeded the normal in all provinces, and for the whole country was $3\frac{1}{2}^{\circ}$ higher than usual.

Daily Summary.—*Sunday, May 9th.*—The pressure changes had been slight, and readings remained low in North Bihar and high in the south-west of the Peninsula and in Tenasserim. The winds were northerly in parts of the Punjab and southerly to south-easterly in Burma, but in nearly all other places the directions varied between north-west and south-west. The force was strong over North Bombay, Rajputana and the central parts of the country. The temperature had fallen fast over the Gangetic Plain. The heat was less than usual over North-West India and over Tenasserim, but was excessive in most other places. The abnormal excess was very large in West Bengal. There had been heavy rain in Lower Burma and scattered showers in Upper Burma and North-East India, while a thunderstorm had given local heavy rain to Calicut.

Monday, May 10th.—Pressure had fallen in North-West and risen in North-East India. The area of lowest pressure had been transferred westward to the submontane districts of the Punjab, but in other respects pressure conditions were little changed. Westerly and north-westerly winds prevailed generally, except over the Bay area, where the directions were generally southerly. The mean temperature had risen in the north-west, and was now generally excessive, except in Lower Burma. The abnormal excess was again very large in Bengal. Rain had fallen generally in Lower Burma and Assam, and a few scattered showers were reported from Upper Burma and the south of the Peninsula.

Tuesday, May 11th.—There had been no important alteration in the distribution of pressure. Readings were lowest over the Gangetic Plain, high in Assam and highest in Malabar. Some easterly winds had appeared in the North Gangetic Plain, but in other respects the winds were little altered. The mean temperature was generally excessive, except over Lower Burma, Assam and the North Punjab, the area of greatest excess being still reported from Bengal. Showers had been received over parts of North-East India.

Wednesday, May 12th.—The barometer had fallen briskly to rapidly over North-West India, but there were no other large changes, though the decrease in Lower Burma was important. A slight depression was apparently forming over the south-east of the Bay, and the wind had drawn into north in Deltaic Burma. Elsewhere the winds were unchanged. The heat was less than usual over Lower Burma, the Assam Valley and the Bombay coast districts, but was excessive elsewhere. The hottest area relatively to the normal was West Bengal. Rain had fallen fairly generally over Lower Burma, Assam and North Bengal, and a few showers had been received over the North-West Himalayas and the Peninsula.

Thursday, May 13th.—Pressure had increased, except in Burma. A small diffused depression had appeared over Lower Burma and a slight high pressure area over the Punjab, but these were the only important alterations in the distribution. The wind was strong from north-west at Diamond Island. Temperature had decreased, but was still above the normal, except over North Bengal, Lower Burma, South Madras and a part of the Punjab and of North Bombay. Moderate rain had been received over Lower Burma, and dust and thunder storms had given moderate showers to Bihar and the east of the North-West Provinces.

Friday, May 14th.—The barometer had fallen briskly in Lower Burma, and the depression there had become slightly deeper. The barometer had also fallen briskly over the central parts of the Peninsula. The easterly current up the Gangetic Plain was more marked than on the two preceding days, and the cyclonic winds in Lower Burma were stronger, but elsewhere there was not much change. The temperature changes had been irregular, except in Burma, where a rapid fall had taken place. The heat was less than the normal in the same districts as on the preceding day. Heavyish general rain had been received in Burma, and showers in parts of North-East India.

Saturday, May 5th.—Pressure had increased rapidly in Lower Burma, and the depression noticed there had filled up, but in other places there had been no important change. Readings were low over the Gangetic Plain and high in Malabar, Ceylon and Tenasserim. The winds remained easterly in the North Gangetic Plain and were northerly on the Burma Coast, but elsewhere the directions were fairly normal. Temperature had on the whole risen, but the heat was still in large defect in Burma and in slight defect in the other regions mentioned on the 13th. Rain had again fallen heavily in Burma, and a few showers had been received over North-East India and the south of the Peninsula.

Temperature.—Over Bengal, the whole of the interior of India and the greater part of the Peninsula the heat, during the week under review, has been steadily excessive. In Burma there occurred a rapid fall of temperature after the

middle of the week, due to the heavy rainfall described above, while in parts of the Punjab, of the Bombay coast districts and of South Madras the temperature was unsteady during the week, and the heat was occasionally less than usual. The hottest area relatively to the normal for the whole week was Bengal, where, particularly at the commencement of the week, the heat was very great.

The following table gives temperature data for the week :

PROVINCE.	MAY 1897.							Mean variation of week.
	9th	10th	11th	12th	13th	14th	15th	
	°	°	°	°	°	°	°	°
Burma	+1.6	—1.7	+1.2	+0.1	—0.1	—5.1	—5.7	—1.4
Bengal and Assam	+6.0	+6.2	+5.1	+4.2	+3.4	+2.3	+4.2	+4.5
North-Western Provinces and Oudh	+1.0	+2.8	+4.8	+5.9	+4.2	+3.9	+4.3	+3.8
Punjab	—2.4	+1.4	+0.9	+4.8	+0.9	+0.9	+1.8	+1.2
Bombay	+1.5	+1.4	+1.6	+1.6	+1.6	+1.0	+3.0	+1.7
Central Provinces and Berar	+1.8	+1.4	+2.1	+3.1	+3.9	+3.9	+4.2	+2.9
Central India and Gujarat	+1.2	+1.5	+2.2	+2.4	+3.2	+2.1	+3.2	+2.3
Sind and Rajputana	—0.9	+2.3	+4.0	+6.0	+3.3	+6.0	+5.3	+3.7
Madras	+2.9	+3.3	+4.0	+2.8	+2.6	+3.2	+4.0	+3.3
Mean for whole of India	+1.4	+2.1	+2.9	+3.4	+2.6	+2.0	+2.7	+2.4

The mean temperature for the whole country for the whole week was $2\frac{1}{2}^{\circ}$ above the normal. The hottest day relatively to the average was the 12th, when the mean temperature of all the provinces of India was excessive, and when the excess over the North-West Provinces, Sind and Rajputana amounted to about 6° . The fall of temperature in Burma at the close of the week is very strongly marked.

The following are the highest maximum temperatures recorded on each day :

May 9th	114°·2 at Khammamet.
„ 10th	114°·2 „ Jacobabad.
„ 11th	116°·4 „ „
„ 12th	117°·1 „ „
„ 13th	116°·6 „ „
„ 14th	116°·1 „ „
„ 15th	115°·6 „ „

The above shows that the hottest area in India is now established in Upper Sind as is normally the case at this season.

Rain.—The principal feature in the rainfall returns of the week under review is the heavy fall over the extreme east and north-east, including Burma and Assam. This heavy fall was apparently connected with the advance of monsoon winds along the Malay Coast and so northward into Tenasserim and Burma, and with the small diffused storm which entered Lower Burma on the 13th. This small storm was accompanied with high winds and heavy rain—more particularly over Deltaic Burma. In other parts of the Indian region, *i.e.*, outside Burma and Assam, the rain which has occurred has accompanied or followed thunder and

dust storms, and almost everywhere this storm rainfall has been lighter and more scattered than is usually the case at this season of the year. In Burma most of the rain fell during the second-half of the week, that is to say, after the appearance of the small storm noticed above ; while, on the contrary, in Assam the rainfall occurred mainly during the first-half of the week, and was hence mainly connected with the advance of monsoon winds. In other parts of the Indian region what little rain was received fell at different times during the week, and was not connected with any particular disturbed period.

The rainfall table at the close shows that rain in effective amount was received in twenty-four of the rainfall divisions, which was a somewhat smaller number than that reported last week. The area of effective rainfall included—all the Burma divisions, all the Assam divisions, the east, north, central and hill divisions of Bengal, Orissa, Chota Nagpur, Bihar, the east submontane division of the North-West Provinces, Malabar, Madras (South-Central), Mysore and the East Coast (North, Central and South). In all the remaining divisions of India rain was either altogether wanting or was received in such small amounts as to be quite unimportant. The rainfall of the week was heaviest—5·16 inches in Deltaic Burma, followed by 4·49 inches in Central Burma, by 4·37 inches in Arakan and by 4·29 inches in Tenasserim. The rain was in excess of the normal by important amounts in Burma only, but in this region the excess ranged from two and a half to four inches. In nearly all other parts of the Indian region the amount received was less than the average. In the case of East Bengal the deficiency was as much as two inches, Deltaic Bengal of one and a half inches and Central Bengal, the Bengal Hills, Orissa and Coorg of about one inch. Elsewhere the deficiencies were generally small, as the anticipated rainfall during the week under review is also small.

The three concluding columns of the table which give the total actual and normal rainfall for the period, February 28th to May 15th, show that there has been a moderate to large seasonal excess over Burma, the greater part of Bengal (except East and Deltaic Bengal and Hills), the North Punjab, the east of the Central Provinces and part of the east and south of the Peninsula. Elsewhere the rainfall has been normal or in defect. The principal cases of deficiency are—Cachar, East Bengal, the Bengal Hills, the Gangetic Plain, the south and south-east of the Punjab, Bombay and the central parts of India and of the Peninsula.

The following are the principal large totals during the week under review :

Burma	.	.	.	Pegu	8·29 inches.
				Prome	7·54 "
				Magwe	2·56 "
				Sadoway	7·07 "
Assam	.	.	.	Cherra Poonjee	14·38 "
				Patidarang (Kamrup)	5·10 "
Bengal	.	.	.	Alipur (Jalpaiguri)	4·56 "
Madras	.	.	.	Yercand (Salem)	4·07 "
				Palur (North Arcot)	3·21 "
				Kulitalai (Trichinopoly)	3·31 "

W. L. DALLAS,

Asst. Meteorological Reporter to the

Government of India.

DENZIL IBBETSON,

Secretary to the Government of India.

SIMLA, 20th May, 1897.

GOVERNMENT OF INDIA.

DEPARTMENT OF REVENUE AND AGRICULTURE.

Weekly Report on the state of the Season and Prospects of the Crops.

Madras.—*For week ending 15th May.*—Rainfall generally below average. The water-supply for drinking purposes is generally insufficient in affected areas; elsewhere generally sufficient, but failing in parts; for irrigation it is generally insufficient. Agricultural operations are progressing in parts to a limited extent, but are practically over in the Deccan. Standing crops are fair to good, but withering in parts. Harvests are generally middling. Pasture *nil* in the Deccan, generally sufficient in Ganjam, Vizagapatam, and in the extreme south; elsewhere it is growing scarce. Fodder is insufficient in the Deccan; is available elsewhere, but is growing scarce in parts. Cattle deteriorating in the Deccan; condition elsewhere generally good. Prices are rising in the Circars and the Deccan; elsewhere steady. The Bhadrachalam Taluq of the Godavari district has been newly added to the affected area. The numbers on relief are:—relief workers—65,314 men, 123,148 women, 49,913 children; total 238,375 in the Deccan and the Circars. Test-workers—526 men, 1,034 women, 287 children; total 1,847 in Ganjam, Vizagapatam, and Godavari. Weavers—10,863 men, 7,550 women, 441 children; total 18,854 relieved at their own trade in the Deccan and Ganjam. Total relief workers—259,676. Anantapur figures incomplete. Kitchen inmates in the Deccan, Vizagapatam, and Ganjam: (dependants)—269 men, 535 women, 10,984 children; total 11,788. (Others)—992 men, 1,766 women, 4,485 children; total 7,243. Otherwise gratuitously relieved—3,771 men, 8,042 women, 9,105 children; total 20,918 *plus* 121 in Bhadrachalam unspecified. Total on gratuitous relief 40,070. Grand total on Government relief 299,146. Also 927 fed in private kitchens under Government management in Vizagapatam. Prices by which wages are regulated are:—Ganjam $11\frac{1}{2}$, Bellary 12, Kurnool $12\frac{1}{2}$, Cuddapah 13, Anantapur 14, Vizagapatam $14\frac{1}{2}$, and Bhadrachalam $12\frac{1}{2}$ seers per rupee. Loans disbursed since commencement of distress Rs. 5,00,440.

Bombay.—*For week ending 17th May.*—Rain in three talukas of Balgaum. Harvesting of late crops is nearly completed, except in Sind and Nasik. Preparations for next season commenced generally. Fodder is sufficient, except in the Deccan, Shikarpur, Belgaum, and in parts of Karachi and Baroda. Condition of agricultural stock is deteriorating in Poona, Ahmednagar, Sholapur, Bijapur, and Belgaum; healthy elsewhere, except in parts of Karachi, Shikarpur, Upper Sind Frontier, Thar and Parkar, Ratnagiri, and Kanara. Prices are rising in parts of Hyderabad, Kolaba, Poona, and Bijapur; falling in parts of Hyderabad, Surat, Poona, Sholapur, and Bijapur; stationary in parts of Surat, Kolaba, Poona, and Bijapur. Prices in affected districts are:—Bijapur $10\frac{1}{4}$, Sholapur $10\frac{1}{2}$, Ahmednagar $10\frac{1}{2}$, Poona $9\frac{7}{8}$, Nasik $9\frac{1}{2}$, Satara $9\frac{1}{2}$, Khandesh $9\frac{1}{2}$, and Dharwar $8\frac{1}{2}$, average $11\frac{1}{2}$ seers per rupee. The average daily numbers on relief works, including dependants, were:—Bijapur 59,570, Sholapur 117,159, Ahmednagar 63,936, Poona 25,053, Nasik 17,228, Satara 12,725, Khandesh 22,712, Belgaum 14,081. On test works:—Belgaum 477, Dharwar 434, Ratnagiri 138; total 343,513, of whom 270,993 are workers and 72,520 dependants. On gratuitous relief:—Bijapur 10,344, including 129 in poor-houses, Sholapur 8,759,

including 67 in poor-houses, Ahmednagar 5,717, including 329 in poor-houses, Poona 6,338, Nasik 351, Satara 163, Belgaum 553, Dharwar 824; total 33,049. Total number on relief 376,562.

Bengal.—*For week ending 17th May.*—There were scattered showers of rain in the majority of the districts during the week; the falls being heavy in some of the northern districts and in Mymensingh. The general agricultural prospects continue favourable, but more rain is required in many districts. Autumn rice and jute are still being sown and the sowing of winter rice and autumn crops has begun in some districts. Sugarcane, *cheena*, and indigo are doing well. The harvesting of spring rice is still going on. The water-supply is reported to have improved in some districts, but in parts of the Chittagong and Chota Nagpur divisions it is still very deficient. The price of common rice shows a further rise in some districts. In the distressed districts the prices of the staple food-grain on which the famine wage is based are:—Nadia, common rice $7\frac{1}{2}$ seers; Murshidabad, common rice $8\frac{1}{2}$ seers; Khulna, common rice 9 seers; Rajshahi, rice 8 seers; Pubna, rice 7 to $8\frac{1}{2}$ seers; Shahabad, rice 8 to $10\frac{1}{2}$ seers; Saran, barley 12 to 13 seers; Champaran, rice $8\frac{1}{2}$ seers and maize $9\frac{5}{8}$ seers; Muzaffarpur, *makai* $9\frac{3}{4}$ seers and *rahar* 13 seers; Darbhanga, rice $7\frac{1}{2}$ seers and *makai* 9 seers; Bhagalpur, common rice 8 and $8\frac{1}{2}$ seers and *marua* $12\frac{1}{2}$ and 13 seers; Sonthal Parganas, rice at Jamtara $7\frac{1}{2}$ to 8 seers; Puri, common rice 10 to 12 seers; Hazaribagh, rice 6 to $7\frac{1}{2}$ seers; Manbhum, common rice $7\frac{1}{2}$ to 8 seers per rupee. The numbers on relief on Saturday, the 15th May, were:—Nadia 80,269, Murshidabad 7,933, Khulna 11,270, Rajshahi 615, Pubna 546, Patna 136, Shahabad 30,941, Saran 78,034, Champaran 174,153, Muzaffarpur 128,886, Darbhanga 213,833, Bhagalpur 24,850, Sonthal Parganas 3,870, Puri 3,332, Hazaribagh 6,587, Palamau 4,909, Manbhum 11,924; total 782,088 against 716,136 in the preceding week. This total is distributed as follows:—relief workers—men 166,291, women 139,834, children 64,461; total 370,586. Dependants—men 1,255, women 562, children 37,094; total 38,911. Relieved in poor-houses—men 1,153, women 705, children 678; total 2,536. Otherwise relieved—men 59,214, women 187,663, children 112,439; total 359,316. Test workers—men 6,783, women 2,715, children 1,241; total 10,739. Private relief: relief workers, Darbhanga Raj—in Darbhanga and Muzaffarpur—men 11,847, women 6,374, children 1,479; total 19,700. Hatwa—men 1,321, women 2,069, children 1,429; total 4,819. Sonthal Parganas—men 807, women 789, children 43; total 1,639. Giridih—men 157, women 100, children 54; total 311. Gratuitous relief—Darbhanga Raj—in Darbhanga and Muzaffarpur—men 3,835, women 11,087, children 10,999; total 25,921. Hatwa—men 119, women 165, children 1,053; total 1,337. Manjha—men 38, women 9, children 10; total 57. Total on private relief 53,784.

North-Western Provinces and Oudh.—*For week ending 19th May.*—Light showers fell in a few districts; in Gorakhpur over one inch was recorded. Threshing and winnowing are near completion. Preparations for the autumn crop are in progress. Irrigation of sugarcane and extra crops is being carried on in many districts. Extra crops are doing well. The numbers in receipt of relief on Saturday, the 15th May, in eighteen districts officially recognised as distressed were as follows:—Agra 22,146, Etawah 5,610, Cawnpore 11,645, Fatehpur 14,811, Banda 265,344, Hamirpur 118,290, Allahabad 306,748, Jhansi 79,473, Jalaun 107,982, Mirzapur 54,062, Family domains,

Maharajah of Benares, 11,798, Jaunpur 39,925, Gorakhpur 27,252, Azamgarh 12,011, Lucknow 56,632, Unao 34,894, Raebareli 33,795, Sitapur 4,032, Hardoi 144,401; total 1,349,851. This total is distributed as follows among the various methods of relief prescribed by the Famine Code which are in operation:—employed on relief works 851,848; relieved as dependants—169,747; relieved in poor-houses—24,150; relieved under other provisions of the Code 304,106; total 1,349,851. The numbers relieved in nineteen districts which are under observation but not officially recognised as distressed were on the same date as follows:—relieved on test works—14,286; relieved in poor-houses—4,457; relieved under other provisions of the Code—35,772; total 54,515. The grand total in receipt of relief on the last day of the week was therefore 1,404,366. Supplies are generally sufficient. Fodder is scarce and dear in a few places. The water-supply is getting short in parts of Banda, Hamirpur, and Allahabad. Prices show a tendency to rise in most districts. The price of the staple grain on which the famine wage is based varied from $9\frac{1}{2}$ to 13 seers in the districts officially recognised as distressed.

Punjab.—*For week ending 17th May.*—No rain during week. Reaping of spring crops is nearly over. Threshing and storing are going on. Sowings of sugarcane, cotton, indigo, and great millet are in progress. Rice sowings have also commenced in Peshawar. Ploughings for other autumn crops are going on. The outturn of spring crops is reported to be good to average on irrigated and below average or poor on unirrigated land. Extra spring crops are generally in fair condition. Grain is still imported from Sindh and other tracts into Hissar. Water is insufficient in Umballa. Sugarcane has been damaged from want of rain in Umballa. Locusts passed over Umballa, Shahpur, and Dera Ismail Khan districts, but did not alight or deposit eggs; they have also visited a portion of Rawal Pindi district. Cattle are still generally in poor condition owing to insufficiency of fodder. Thirty-eight cattle died from hunger in Rohtak; their condition is said to be fair to good in Gurgaon, Umballa, Amritsar, Sialkot, and Peshawar, it is improving in Ferozepore and Gujranwala. Scarcity of fodder is still prevalent throughout the Province, but new straw is now available everywhere. The average number of relief workers, dependants, etc., was as follows:—relief workers—24,133 men, 23,464 women, 11,863 children; Dependants—216 men, 313 women, 14,783 children; Relieved in poor-houses—1,010 men, 1,229 women, 747 children; Otherwise relieved—3,045 men, 5,136 women, 3,481 children; Test workers—11 men, 23 women, 16 children. The total number of workers, etc., in the Punjab was 89,470 against 90,828 last week. The chief decreases are in Karnal and Gujrat. Prices are generally high; they are again rising in Gurgaon, Mooltan, Lahore, and Peshawar; the figures are unchanged in Hissar, Delhi, Jullundur, and Ferozepore; in other districts imports of new grains into the market made prices fall to some extent; owing to the demand for seed the prices of autumn grains are high. Wheat is selling from $10\frac{1}{2}$ to $13\frac{1}{2}$, gram $10\frac{1}{2}$ to 13, great millet 9 to $10\frac{1}{2}$, barley 13 to 14, maize 7 to 15, rice 6 to 7, and bulrush millet 8 to 10 seers per rupee. Prices of staple food-grains on which famine wage is reckoned are,—Rohtak, gram 10 and barley 14 seers; Delhi and Umballa, wheat 11; Karnal, wheat flour $9\frac{1}{2}$ and barley flour 11; Ferozepore barley and gram $11\frac{1}{2}$; Lahore, indian-corn $10\frac{1}{2}$; and Gujrat, wheat $11\frac{1}{2}$ seers per rupee.

Central Provinces.—*For week ending 17th May.*—Weather very hot with high westerly winds; clouds occasionally gather and three districts have

received a slight sprinkling of rain. Preparation for autumn sowings continue. Sugarcane doing well in Betul and Bhandara. The hot weather rice crop is being cut in the Sironcha tahsil of Chanda. Fodder and water are getting scarce in parts of ten districts. Prices are fairly steady in most districts with but slight fluctuations; but in the Nagpur country, Hoshangabad, and Bilaspur there is a rise in price of wheat of about half seer in the rupee. The numbers on relief works have increased by 39,000; mainly in Narsinghpur, Nagpur, Balaghat, Bhandara, and Raipur; the decline in Jubbulpore and Seoni is attributed to introduction of piece work system. The total number on gratuitous relief has risen by 19,000, the largest increases occurring in Balaghat and Bilaspur. The number employed on private works has fallen by 2,000, a large decrease in Bilaspur being almost counterbalanced by a considerable accession in Nagpur. Numbers on relief works are—Saugor 30,283, Damoh 30,239, Jubbulpore 61,519, Mandla 21,479, Seoni 10,270, Narsinghpur 30,933, Hoshangabad 56,673, Nimar 359, Betul 13,523, Chhindwara 13,173, Wardha 7,476, Nagpur 11,334, Chanda 475, Bhandara 22,435, Balaghat 46,548, Raipur 75,665, Bilaspur 29,371, Sambalpur 1,167; total 462,922. Numbers on gratuitous relief—Saugor 17,010, Damoh 16,713, Jubbulpore 32,197, Mandla 7,629, Seoni 3,308, Narsinghpur 7,325, Hoshangabad 10,536, Nimar 560, Betul 4,650, Chhindwara 4,198, Wardha 983, Nagpur 4,052, Bhandara 5,178, Balaghat 21,415, Raipur 23,913, Bilaspur 25,224, Sambalpur 331; total 186,222. There were also 188,170 persons employed on railway and other private works. Details of relief workers—men 146,344, women 201,212, and children 115,366. Dependants—men 2,971, women 4,846, and children 74,712 with 3,162 unclassified. Poor-houses—men 5,927, women 6,216, and children 8,925. Otherwise relieved—men 11,445, women 20,808, and children 21,825, with 25,385 unclassified. Total number on relief 649,144. Wage prices—Chanda $11\frac{1}{2}$, Jubbulpore $10\frac{1}{2}$, Damoh, Narsinghpur, Bilaspur, and Sambalpur 10, Seoni, Wardha, Raipur $9\frac{1}{2}$, Nagpur $9\frac{1}{4}$, Hoshangabad, Nimar, Betul, Chhindwara 9, Saugor $8\frac{3}{4}$, Bhandara $8\frac{1}{2}$, Mandla 8, and Balaghat $7\frac{1}{2}$ seers per rupee.

Burma.—*For week ending 15th May.*—In Lower Burma ploughing for the wet weather paddy crop has commenced in Amherst and parts of Hanthawaddy. In Upper Burma reaping of dry weather paddy still in progress in several districts. Prospects generally fair. Fair rain has fallen during the week in nearly all districts, and ploughing for early wet weather crops is in progress. The price of paddy has risen considerably in Myaungmya and Thaton, slightly in Bassein, Amherst, and Mandalay, while it has fallen slightly in Rangoon and Thayetmyo; elsewhere stationary. Numbers on relief works—Meiktila 2,775, Myingyan 8,853. On gratuitous relief—Meiktila 537, Myingyan 2,042, Yamethin 371. Total number on relief 14,578. Price of rice—Meiktila 8 seers 12 chittacks and Myingyan 10 seers 4 chittacks per rupee.

Assam.—*For week ending 18th May.*—Weather seasonable. Ploughing for late rice and planting of sugarcane are in progress. Prospects of early rice are favourable. Condition of tea generally good, except in Cachar where more rain is wanted for the crop and red spider still prevails. Prices—common rice—Silchar and Sylhet 8, Gauhati $7\frac{1}{2}$, Tezpur $8\frac{1}{2}$, and Sibsagar 9 seers per rupee.

Mysore and Coorg.—*For week ending 17th May.*—**MYSORE.**—Good rain in parts of Mysore. Prices have risen slightly in Kadur and Bangalore; stationary elsewhere. Paddy harvested in parts of Kolar and Chitaldrug.

COORG.—Rainfall 31 cents. Ploughing of rice fields has commenced in parts. Water and fodder for cattle are sufficient.

Berar and Hyderabad.—*For week ending 17th May.*—**BERAR.**—Weather hot. Ploughing of fields for next rain crop is in progress. Scarcity of fodder and water prevails in all districts. High prices for food-grains continue. The number of persons employed on relief works were—Akola 7,605, Amraoti 4,533, Basim 4,844, Buldana 2,457, Ellichpur 2,079, and Wun 827. Persons afforded gratuitous relief—Akola 653, Amraoti 1,187, Basim 1,682. Occupants of poor houses—Akola 405, Amraoti 630. Total number on relief 26,902. Prices—*jowar*—Akola 10, Amraoti 11, Basim 11, Buldana 10, Ellichpur 9, and Wun 12 seers per rupee.

HYDERABAD.—Rain during week 5 cents. The harvesting of the spring rice crop is completed. Fodder, pasture, and water are scarce. Aggregate number of persons employed on relief works in Bir, Gulburga, Raichur, Lingsagar, and Naldrug 27,237. Prices in affected districts— $8\frac{1}{2}$ seers per rupee in Bir, $8\frac{3}{4}$ in Naldrug, $9\frac{3}{8}$ in Raichur, $9\frac{5}{8}$ in Lingsagar and 10 in Gulburga. 235 persons on gratuitous relief in Shorapur. Number of persons on relief 27,472. Prices—wheat $6\frac{3}{4}$, coarse rice $7\frac{3}{4}$, and *jowari* $12\frac{1}{2}$ seers per current sicca rupee.

Central India.—*For week ending 17th May.*—Slight rain fell in Gwalior and Bundelkhand during the week. Winter crops operations completed in Gwalior, Baghelkhand, and Malwa; in progress in Bundelkhand. Hot weather crops operations started in Bhopawar and Bhopal Agencies. Probable outturn of winter crops will be below average in most agencies. Agricultural stock is in fair condition in Bhopal and two districts of Gwalior; good in Baghelkhand and Malwa; indifferent in Bundelkhand and some districts of Gwalior. Pasturage is fair in Bhopal and Malwa; indifferent in Bundelkhand; good in Baghelkhand; becoming scarce in Bhopawar; bad and indifferent in Gwalior. Prices are above normal in Malwa and Bhopawar; steady elsewhere. The number of persons employed on famine relief works were—38,004 in Gwalior, 50,699 in Bundelkhand, and 64,087 in Baghelkhand. Gratuitous relief—12,470 in Gwalior, 8,015 in Bundelkhand, and 3,598 in Baghelkhand. Total number on relief 176,873. Prices are—10 to $10\frac{1}{2}$ in Gwalior, $9\frac{1}{2}$ to $11\frac{3}{4}$ in Bundelkhand, and $9\frac{3}{4}$ seers per rupee in Baghelkhand.

Rajputana.—*For week ending 19th May.*—Rainfall 11 cents in Jeypore and showers in Marwar. Agricultural operations completed in Meywar and Jaisalmer; soil has been prepared for ploughing in Karauli; satisfactory in Jhallawar, Ajmere, and Jeypore. Crop-cutting completed in Marwar. Threshing and winnowing continue in Ulwar. Standing crops are good in Pertabgarh, Meywar, and Jhallawar. Harvest is good in Sirohi, Marwar, Jhallawar; average in Ajmere and below average in Haraoti. Agricultural stock generally good. Pasturage or fodder scarce in some tehsils of Jeypore; failing in Dholepore and Bhurtore; sufficient elsewhere. Prices are high in Haraoti; rising in Kherwara, Jhalawar, Jeypore; fluctuating in Meywar; falling in Pertabgarh, Kishengarh, and Bikanir; steady elsewhere. Number of persons on relief works was—Marwar 4,157, Dholepore 1,631 and on ordinary work 2,656, Bikanir 8,043, Jaisalmer 1,154. Gratuitous relief—Marwar 1,251, Tonk 1,925, Chabra 62, Deoli 8, Bhurtore 309, Bikanir 3,790, Jaisalmer 185. Total number on relief 22,515.

Prices—Marwar $9\frac{1}{4}$, Tonk $11\frac{1}{2}$, Chabra $9\frac{1}{2}$, Deoli 13, Dholepore 11, Bhurtpore $13\frac{1}{4}$, Bikanir $9\frac{1}{8}$ and $8\frac{1}{2}$, and Jaisalmer $8\frac{3}{8}$ seers per rupee.

Kashmir.—*For week ending 18th May.*—Weather fine. Spring crops are in good condition. Prices continue normal. Price—22 seers per rupee.

JAMMU PROVINCE.—*For week ending 18th May.*—No rain. Prices are stationary. Fodder is scanty. Price—9 seers per rupee.

Nepal.—*For week ending 15th May.*—Rain 55 cents. Weather stormy and unsettled. Sowing of early rice finished, that of indian-corn in progress. Price— $8\frac{1}{4}$ seers per rupee.

The total numbers in receipt of relief during the preceding and present weeks are as follows :

T. W. HOLDERNESS,
Deputy Secretary to the Government of India.

GOVERNMENT OF INDIA.
DEPARTMENT OF REVENUE AND AGRICULTURE.
(FAMINE.)

Return of the number of persons in receipt of relief in districts affected by scarcity.

RE.—The figures are compiled from the Local Gazettes, and give the District details of the Provincial totals published weekly in the Crop and Summary in the Gazette of India.
n-labouring children and other dependants of relief workers are classed as on relief works when distinguished in the local returns from gratuitously relieved in poor-houses or at their homes.

Name of Province and District.	FOR THE WEEK ENDING THE 24TH APRIL 1897.			FOR THE WEEK ENDING THE 1ST MAY 1897.			FOR THE WEEK ENDING THE 8TH MAY 1897.			FOR THE WEEK ENDING THE 15TH MAY 1897.

DEPARTMENT OF REVENUE AND AGRICULTURE.

INVENTIONS and DESIGNS.

Calcutta, the 20th May, 1897.

NOTIFICATIONS.

No. 1602 P.—APPLICATIONS in respect of the undermentioned inventions have been filed, under the provisions of the Inventions and Designs Act of 1888, in the office of the Secretary appointed under that Act, during the week ending 15th May 1897:—

No. 190 of 1897.—William Fredrick Singer, mechanical engineer, of New York, in the county and state of New York, United States of America, for improvements in refrigerating apparatus.

No. 191 of 1897.—Tanjore Kadambur Amirtalinga Achari, goldsmith and manufacturer, of No. 9, Gungannen street, Washermanpetta, Madras, for lifting and self-tilting water from canals, channels and other streams and tanks and wells.

No. 192 of 1897.—Henry Edward Keymer, of No. 5, Kaliprosunno Singhi's lane, Chitpore, Calcutta, for an improved machine or apparatus for the manufacture of large sized glass or other bangles or *churis*, and similar articles.

No. 193 of 1897.—Kavasji Kharshedji Mehta, Secretary of the Central India Spinning, Weaving and Manufacturing Co., Ltd., of 3, Pedder road, Bombay, and Dinshaw Pestonji Mehta, mechanical engineer, of Grant road, Bombay, for improvements in, or applicable to, cotton gins.

No. 194 of 1897.—Henry Sydney Jones, executive engineer, P. W. D., R. M. Railway, Ajmere, and Frank Jones, assistant foreman, R. M. Railway, Ajmere, for interlocking the levers used to actuate points and signals of a railway.

No. 195 of 1897.—Alfred Ridley Walsh, assistant engineer, Public Works Department, Jhelum, Punjab, for a self-registering water gauge.

No. 196 of 1897.—George Henry Grundy, photo-engraver and collotype printer, of 27, Duffield road, Derby, and George Arthur Lingard, collotype printer, of Mount Pleasant Old Normanton, near Derby, for an improved method or means of photo-colographic printing on ceramic, metallic, or other hard surfaces.

No. 197 of 1897.—Edward Anderson Blanton, junior, engineer, of 43, Threadneedle street, London, for improvements in and connected with means for securing cams, and the like, upon shafts.

No. 198 of 1897.—Alistair MacNab, merchant, of Coconada, in the Province of Madras, for an apparatus for purifying bay salt.

No. 199 of 1897.—Amended application—*See* No. 129 of 1897.

No. 200 of 1897.—Charles John Westwood, gentleman, of Blakehall, Wanstead, in the county of Essex, and John George Baxter, gentleman, of Mansion house, Wanstead, aforesaid, for improvements in buckles, and the like.

No. 1603 P.—THE specification of the undermentioned invention has been filed, under the provisions of the Inventions and Designs Act of 1888, in the office of the Secretary appointed under that Act, and copies have been sent to the Governments of Fort St. George, Bombay, and Burma, and the Director of the department of land records and agriculture, North-Western Provinces and Oudh. This and other specifications are open to public inspection, from 11 A.M. to 4 P.M., at the Secretary's office (Imperial Secretariat, Government Place, West, Calcutta), on payment of a fee of

one rupee, and a certified copy of any one of them will be supplied on payment of the fixed expenses of copying :—

No. 282 of 1896.—Joseph Heim, merchant, of Penang and Singapore, for an improvement in the construction of shingles, boards, and planks, for roofs, walls, flooring, ceiling or for any such similar purposes. (Specification filed 3rd May 1897.)

No. 1604 P.—THE fees prescribed in Schedule 4 of Act V of 1888 have been paid for the continuance of exclusive privilege in respect of the undermentioned inventions for the periods shown against each :—

No. 83 of 1889.—George Bakewell Dewhurst, of the firm of Messrs. G. & R. Dewhurst, manufacturers and merchants, of Great Marlborough street, Manchester, in the county of Lancaster, for improvements in apparatus for marking folded piece goods with trade marks, and other marks and devices, and for printing and colouring such marks and devices at a single operation, part of the said improvements being applicable to the rollers used in ordinary calico printing. (From 21st May 1897 to 21st May 1898.)

No. 274 of 1889.—Charles Swindell, bank cashier, of No. 12, Kenwood road, Sheffield, in the county of York, for improvements in chimney or ventilating caps. (From 23rd May 1897 to 23rd May 1898.)

No. 220 of 1891.—Haribai Khanduji, contractor, of No. 13, Bhandup street, Mandvi Bunder, Bombay, for a machine for decorticating or extracting the fibre from the leaves of the aloe and other fibre-bearing plants. (From 21st April 1897 to 21st April 1898.)

No. 166 of 1892.—James Gresham, director of Gresham and Craven, Ltd, engineers, of Craven iron works, Salford, Manchester, in the county of Lancaster, for improvements in injectors, and in their application to locomotives. (From 13th March 1898 to 13th March 1899.)

No. 178 of 1892.—James Gresham, director of Gresham and Craven, Ltd., engineers, of Craven iron works, Salford, Manchester, in the county of Lancaster, for improvements in and relating to apparatus for applying sand to locomotive driving-wheels. (From 13th March 1898 to 13th March 1899.)

No. 1605 P.—WHEREAS the inventors of the undermentioned inventions have respectively failed to pay, within the time limited in that behalf by the fourth schedule to the Inventions and Designs Act (V of 1888), the fees hereinafter respectively mentioned, it is hereby notified that under the provisions of section 8, sub-section (2) of the said Act, the exclusive privilege of making, selling, and using the said inventions in British India and of authorizing others so to do has ceased :—

No. 268 of 1891.—Herbert Samuel Elworthy's invention for a domestic and travellers' soda water machine and cooling apparatus (Specification filed 15th February 1893.)

No. 279 of 1891.—J. D. Pallonji's invention for improvements in the construction of the English violin for adapting it to Indian music. (Specification filed 9th February 1893.)

No. 284 of 1892.—Anthony Robert Tucker's invention for a small machine to supersede the present curry stone and muller. (Specification filed 10th February 1893.)

Fee in respect of the continuance of an exclusive privilege—

(4) (a) After the filing of the specification and before the expiration of the fourth year from the date of the filing thereof.

The sum of ₹50 for each of the said inventions.

NOTICES.

All communications relating to Act V (the Inventions and Designs Act) of 1888 should be addressed to the "Secretary to the Government of India, Department of Revenue and Agriculture (PATENTS BRANCH), CALCUTTA."

The office of the Secretary under the Act is open for the transaction of business from 11 A.M. to 4 P.M. on all days except Sundays and gazetted holidays.

ORDERS BY THE VICE-CHANCELLOR AND SYNDICATE OF THE CALCUTTA UNIVERSITY.

The undermentioned candidates have passed the F. E. Examination :—

SECOND DIVISION.

(In Order of Merit.)

1. Sen, Satischandra	Civil Engineering College, Sibpur.

*Although the date entered in column 2 is, as far as can be calculated, the latest safe date of posting for the next Mail steamer, full allowance being made for the steamer being in advance of her published timing, Mails for the places mentioned in column 1 are despatched daily to Colombo, so that they may proceed by any steamer that has been unusually accelerated or retarded, or by any special opportunity that may be afforded by a steamer not belonging to one of the regular lines.

The letter-box for Inland articles (including articles for Burma and Port Blair and for Ceylon by land route) will be cleared for the last time for articles without the late fee at 7-30 P.M. precisely, after which hour inland letters and papers fully prepaid and bearing an extra postage stamp of half anna will be received up to 8 P.M. and up to 8-45 P.M. with a late letter fee of 1 anna for the Chord Mail only.

On the day of despatch of the Mail for the Australasian Colonies via Tuticorin, the letter-box for Foreign articles will be cleared for the last time for articles without the late fee at 8-30 P.M., and late letters and papers fully prepaid will be received up to 9 P.M.

On the day of despatch of the Mail for Europe, the letter-box for Foreign articles will be cleared for the last time for articles without the late fee at 9 P.M., and late letters and papers fully prepaid will be received up to 9-30 P.M. On other days the letter-

box for Foreign articles will be cleared for the last time for articles without the late fee at 7-30 P.M., and late letters and papers will be received up to 9 P.M. for despatch by any Foreign Mails despatched the same night. The late fee for Foreign articles is 4 annas, which must be prepaid in stamps affixed to the articles.

JOHN OWENS,

Presidency Postmaster, Calcutta.

CIVIL ENGINEERING COLLEGE, SIBPUR.

SESSION 1897-98.

Candidates for admission to the Engineer Department should apply to the Principal before the 15th May, 1897. The session begins on Monday, the 7th June, 1897. Candidates must furnish proof that they have passed one of the following tests:—

- (1) The F. A. examination of the Calcutta University, or a similar standard of any Indian University recognised by the Calcutta University. The candidate's age must be under 21 years.
- (2) The B. A. examination in the B. course in physics and chemistry. The candidate's age must be under 23 years. (These students are admitted direct into the 2nd-year class.)

The number to be admitted each year is limited to 40. The position in the University examinations and the age of the candidates will be taken into consideration when selection is made, and such selection will be made by the Principal.

Ten scholarships will be awarded to students entering the Engineer Department, not being already holders of junior or senior scholarships. Every applicant before admission to the College will be examined by the College Surgeon as to his physical strength, fitness for manual labour, and eye-sight.

Further particulars will be supplied on application to the Principal.

A. MACDONELL,

Offg. Principal, Civil Engineering College.

The 8th April, 1897.

GOVERNMENT CINCHONA FEBRIFUGE.

Cinchona Febrifuge can be purchased by all Government officers, and by any one taking *six pounds* at a time, from the Superintendent, Botanic Garden, Calcutta, at the following rates—per four-ounce tin, *R2-8*; per eight-ounce tin, *R5*; per pound tin, *R10*. The general public can be supplied by the Superintendent, Botanic Garden, *for cash only*, at the under-noted rates: per four-ounce tin, *R3*; per eight-ounce tin, *R6*; per pound tin, *R12*. This medicine is also sold by the principal European and Native druggists in Calcutta. Postage, four annas per four-ounce tin, eight annas per eight-ounce tin, and twelve annas per pound tin, in addition to the foregoing rates.

سنکونا فبري فيوج يعنے ٹپ بھگانے والے سنکونا *

سنکونا فبري فيوج کلاکتہ کے بوٹانکل گارڈن سے
کمپنی باغ کے سپرنٹنڈنٹ صاحب سے ہر ایک ملازم
سرکاری اور ایک مشیت چھہ پونڈ تک لینے والا ہر آدمی
حسب نرخ ذیل خرید کر سکتا ہے — یعنی چار اونس
والا تین بقیمت در روپیہ آٹھ آنہ؛ آٹھ اونس والا
تین بقیمت پانچ روپیہ؛ ایک پونڈ والا تین بقیمت
دس روپیہ *

عام آدمیوں کو یہ دوا بوٹانکل گارڈن سے کمپنی
باغ کے سپرنٹنڈنٹ صاحب سے بقیمت نقد حسب نرخ
ذیل مل سکتی ہے — یعنی چار اونس والا تین بقیمت
تین روپیہ؛ آٹھ اونس والا تین بقیمت چھہ روپیہ؛
ایک پونڈ والا تین بقیمت بارہ روپیہ *

یہ دوا کلاکتہ کے برے برے رلپتی اور دیسی
مواخانوں میں بھی بکتی ہے — ماسوائے قیمت
مدکورہ بالا کے محصل ذاک چار اونس والے تین کا
چار آنہ؛ آٹھ اونس والے تین کا آٹھ آنہ؛ اور ایک
پونڈ والے تین کا بارہ آنہ *

PURE SULPHATE OF QUININE.

Manufactured at the Bengal Government
Cinchona Plantation.

From 1st April, 1897, the price of this Quinine
will be as follows:—

1-pound tin,	R15, or, post free,	R15-12,
½ "	R7-8, "	R8.
¼ "	R3-12, "	R4-4.

Analysis shows this Quinine to be of the purest manufacture; and it is guaranteed to be free from wilful mixture with the inferior alkaloids, Cinchonine and Cinchonidine. It is for sale only to Government officers, and only for cash, and may be had from the Superintendent, Botanic Garden, Seebpore, near Calcutta.

বঙ্গদেশের সবর্ণমেষ্টের সিনকোনা আবাদে প্রস্তুত বিশুদ্ধ কুইনাইন।

১৮৯৭ সালের ১লা এপ্রেল হইতে এই কুইনাইনের সরলিখিত দ্বারা
হইবে, যথা—

১ এক পৌণ্ড টিন .	১৫, বা ডাকবাংল দ্বারা	১৫০.
১ আণ্ড ..	"	৭৫.
১ পিকি ..	"	৩৭.৫

পরীক্ষা করিয়া দেখা গিয়াছে যে এই কুইনাইন অতি বিশুদ্ধ রূপে
প্রস্তুত করা হইয়াছে। এবং ইহা যে সিনকোনাইন ও সিনকোনা-
জাটন নামক অপকৃষ্ট কারের সহিত ইচ্ছা পূর্বক বিশাল হয় নাই
তাহার পরীক্ষা দেখিয়া বাইতেছে। ইহা নন্দ মূল্যে কেবল সবর্ণমেষ্টের
কমচারীগণের নিকট বিক্রয় করা যাইবে, এবং কলিকাতার নিকট
শিবপুরের কাম্পারির বাগানের স্থাপরিষ্টেভেটের নিকট পাওয়া
যাইতে পারিবে।

Catalogue of Books procurable from Thomason College Book Depot, Roorkee.

Application to be made to Curator.

CASH MUST ACCOMPANY ORDER. ARTICLES WILL BE SENT
BY VALUE-PAYABLE POST TO PERSONS IN GOVERNMENT
EMPLOYMENT ONLY.

It is advised that letters containing remittances be registered.

N.B.—The Revised Prices herein entered cover the cost of pack-
ing, postage, and other incidental charges (except com-
mission for Value-payable supplies), and are for all pur-
chasers other than resident College Students.
Drawing Instruments (electrum) are available at the Col-
lege Book Depot at Rs2 per box. Drawing Instruments,
drawing materials, etc., are also obtainable from the
Roorkee Workshops, and application should be made to
the Superintendent.

ROORKEE TREATISE ON CIVIL ENGINEERING IN INDIA.

Royal Octavo, with numerous Plates.

Volumes I and II are published in separate convenient sized
Sections, as below, but can be bound up if required:—

VOLUME I.*

Section I.	Building Materials (1895),	R2-0.
" II.	Masonry (1891),	R1-4.
" III.	Carpentry (1889),	R1-4.
" IV.	Earthwork (1892),	R1-4.
" V.	Tools and Plant (never published).	

VOLUME II.*

Section VI.	Buildings (1891),	R1-4.
" VII.	Bridges (in the Press),	
" VIII.	Roads (in the Press),	
" IX.	Railways (1891),	R1-4.
" X.	Irrigation Works (1873),	R1-8.

Roorkee Treatise on Civil Engineering, Vol. II (1897
edition). R3.

ROORKEE MANUAL OF APPLIED MECHANICS.

Vol. I. Direct and Transverse Strain, principally
by Analytical Methods. R8.

" II. The Stability of Structures, mostly by
Graphic Methods (in the Press).

MANUALS.

VII. Surveying (by Major Firebrace, R.E.) (6th edition),
with Curve Table (in the Press).

XIII. Drawing (by Lieut. R. Pultord, R.E.)† R8.

XIIIa. Drawing, First Principles of Geometrical (by
do.) (4th edition). R1-4.

XIV. Simple Applied Mechanics (2nd edition), Parts I
and II in one. R3.

Simple Applied Mechanics, Part II (1st edition). 8a.

XV. Examples of Estimating. Comprising a progres-
sive series of Estimates (with Plans of Buildings and
Bridges, worked in detail). By P. Keay, Esq., and
revised by C. C. Sullivan, Esq., Head Master (5th
edition) (in the Press).

* Date of Edition on sale.

† Originally published at R15, reduced to R8.

XVI. Earthwork Estimating, with Practical Tables and Diagrams. By Major A. M. Brandreth, R.E. 4a.

XVII. Specimens of Printing used in the College Drawing Course and Entrance Examinations. 6a.

Note.—The complete Treatise forms the course of the Engineer Class at the Thomason College in Civil Engineering, and the same, omitting Section X, is the course for the Upper Subordinate Class. The other Manuals are the complete course for both Classes in the several subjects of which they treat.

MISCELLANEOUS.

ENGINEERING WORKS.

Curve Tables, complete, for laying any curve. 4a.

Scantlings of Timber for Roofs. Tables and investigation of formulæ for determining size of timbers for Flat Roofs from 8 to 22 feet span, and for Trussed Roofs from 16 to 50 feet span (2nd edition). By P. Keay, Esq., Head Master. R1.

Useful Rules and Tables relating to Measurement of Timber. Rules for computing the cubic contents of Round Logs, as well as of Sawn Timbers, with Tables, etc. By Rai Kunhya Lal. R2-8.

O'Callaghan's Earthwork Tables for India, in one large sheet, 8a.; mounted on cloth and bound (in the Press). R1-12.

Tables for Computing Earthwork in Distributaries and small open Channels, in use in Irrigation Department, N.-W. Provinces. R1-4.

Tyndall's Hand-Book of Specifications. R5.

The Indian Engineer's Pocket Book. 4a.

Wooden Bridges and Designs. By Rai Kunhya Lal (in the Press).

Blasting under Water (2nd edition). 12a.

Vaugh's Instructions for Topographical Surveying. R1-4.

Analysis of Lime and Cement Stones. By Murray Thomson, Esq., M.D., F.R.S.E. 6a.

Tables for Degree Curve and Intersection Angles, from 90° to 180°, and for Fixed Tangents from 100 feet to 7,500 feet. By F. G. Brook Fox, Esq., M.I.C.E. R2-4.

Graphic Hydraulic Diagram for Channels in earth, etc. By R. G. Kennedy, Esq., Executive Engineer. R7-8.

Chart, giving by a graphic method the discharges of earthen channels up to 40 feet bed width. R1-8.

MATHEMATICAL.

Boileau's Tables of Wages and Rent, and of the value of goods. Tables for converting Seers and Chittacks into decimals of a Maund, and Annas and Pies into decimals of a Rupee. With a few others of general utility (4th edition). R1-8.

Boileau's Tables of Log sin² $\frac{1}{2}$ P (for computing time. 4a.

Cape's Logarithms, with Tables of Squares, Cubes, etc. (in the Press).

Cape's Geometry. R1-4.

Mechanics. R1.

Military Topography. 8a.

HINDUSTANI.

Elements of Hindustani Grammar (in the Press).

Technical Dialogues—English and Urdu. R1.

A Vocabulary of Common and Technical Words in English-Urdu. R1.

History of India (*Itihas Timirnāsik*), Hindi, Parts I and II, each part 4a.

Short Account of Ganges Canal (English and Urdu). 8a.

NOTE AND FIELD-BOOKS, etc.

Note-Books (Section paper), large and small. Each R1-4.

Surveying Field-Books (ruled). R1.

Levelling Field-Books (English Pattern). R1-8.

" " (Canal "). R1-8.

" " (College "). R2-0.

P. W. D. Note-Book. R1-4.

Measurement Book. R1-4.

Circular Card-board Protractors, 12 inches (exclusive of packing). R1-8.

MISCELLANEOUS.

Distributary Velocity and Discharge Table. By Capt. Allan Cunningham. 8a.

Description of Venomous Snakes. (The drawings of all the venomous snakes of Upper India, with description and all important information, extracted from the "Thanatophidia of India.") R1-8.

Ditto ditto in Urdu. R1-4.

Perspective (fully explained). By Col. A. M. Brandreth, R.E. R1-12.

Map of Roorkee. R1.

Thomason College Calendar for 1891, 1892, 1894,* and 1895,* each R2.

Ditto ditto for 1896.* R4-12.

Forms of Accounts, P. W. D., for Sub-Divisional Officers, in English (very old). 8a.

Memo. of Instructions for Road Project. R1.

Project for College Mess (sample Project). R1.

Ferrotyping Processes. 8a.

Ditto, ditto, 1896. 2a.

Irrigation by Rajbahas, 12a.

Irrigation Tract, No. I. 8a.

" " " II. 8a.

" " " III. 8a.

Land Measuring Chain Statement, Area of kucha and pukka Bighas, sheet. 4a.

Report of the Ganges Canal Committee (Major Crofton's Project for remodelling the Ganges Canal according to the views of Major-General Sir Arthur Cotton, R.E., K.C.S.I.), 1866. 8a.

Report of the Ganges Canal. By Captain J. Crofton, R.E., with Estimates and Plan—
Vol. I, Report, 1865. R1.

Vol. II, Estimates. R1.

Shakespearean Readings, vis.:—

1. Taming of the Shrew,
 2. Othello,
 3. Macbeth,
 4. Comedy of Errors,
 5. Merchant of Venice,
- } each 4a.

Graphic Hydraulic Diagrams for channels in earth, giving Discharges and mean Velocities for varying bed widths, depths, and slopes. By R. G. Kennedy, Executive Engineer. R7-8.

PLANS OF STATIONS.

Lithographed Plans of the Cantonments and Regimental Lines in the different Military Stations of India. Drawn to a uniform scale, and prepared between 1864 and 1868 for the Government of India, P. W. Department. (Useful for Executive Engineers' and Superintending Engineers' Offices.)

Bengal, 51 Plans,
Madras, 99 Plans,
Bombay, 91 Plans,
N.-W. Provinces, 104 Plans,
Oudh, 21 Plans,
Rajputana, 4 Plans,
British Burma, 19 Plans,
Central Provinces,

} each 8a.

PROFESSIONAL PAPERS ON INDIAN ENGINEERING.

(FIRST SERIES.)

Vol. I. (Quarterly Nos. 1 to 5), bound R2, original price R18.

Quarterly Nos. 1, 2, 3, 4, and 5, at R1 each, original price R4 each.

Vol. II. Quarterly Nos. 6 and 7, at R1 each.

" III, " No. 13, R1.

" V, " Nos. 18, 19, 20, and 21, R1 each.

" VI, " Nos. 22, 23, 24, and 25, R1 each.

" VII, " Nos. 26, 27, 28, and 29, R1 each.

Extra No., April 1870, R1.

(SECOND SERIES.)

Quarterly Numbers of Vols. I, II, VIII, IX, and XI of the Series at R1 each

Quarterly Number 41A of Vol. X, at R1 each.

Cloth covers for Volumes, 1st and 2nd Series, at As. 8 each.

* These include Illustration Papers for entrance to Engineer and Upper Subordinate Classes and Superior Accounts Branch, Public Works Department.

(THIRD SERIES.)

Quarterly Numbers 5, 7, 8, 11, 12, 13, 14, and 15, at Rs. each.

Index to Professional Papers and loose Papers, 1st and 2nd Series, at 2s. each.

FERROTYPE PRINTING.

Chemicals and Lithographic Paper for this process can be purchased from Thomason College Book Depot. Application to be made to the Curator.

Apparatus for Printing can be made up at the Roorkee Workshops, and all particulars obtained from the Superintendent.

CIRCULARS.

Circulars containing the Rules of admission to the following classes of the College can be obtained on application to the Curator:—

Engineer and Telegraph classes.

Upper Subordinate Classes, 1st, 2nd, and 3rd Grades.

Lower Subordinate Class.

Mechanical Apprentice Class.

Industrial Classes.

J. CLIBBORN, *Lieut.-Col., I.S.C.*,

Principal, Thomason College, Roorkee.

THE INDIAN LAW REPORTS.

PUBLISHED UNDER AUTHORITY.

The Indian Law Reports, published under the authority of the Governor-General in Council, appear in monthly parts, published as soon as possible after the first of each month, at Calcutta, Madras, Bombay, and Allahabad, and comprise four series,—one for the Calcutta High Court, a second for the Madras High Court, a third for the Bombay High Court, and a fourth for the Allahabad High Court. The cases heard by the Privy Council on appeal from each High Court are reported in the series for that High Court. Cases heard by the Privy Council on appeal from Provinces in India not subject to any High Court are reported in the Calcutta Series.

The Calcutta Series is distributed by the Bengal Secretariat Book Depot, and the Madras, Bombay, and Allahabad Series are distributed direct from Madras, Bombay, and Allahabad, respectively.

In supersession of the previous advertisements, on and from the 1st January, 1889, the terms of subscription and sale will be as follows for current issues, as well as for back numbers of the Reports from 1870:—

Terms of subscription payable annually in advance.

For the complete Series, including postage. Rs. 2-8

	Without postage.	With postage.
	R. a. p.	R. a. p.

For the Calcutta Series	10	0	12	8	0
-----------------------------------	----	---	----	---	---

.. each of the Madras, Bombay, and Allahabad Series

.. a part of the Calcutta Series purchased separately, inclusive of postage in India

.. a part of each of the Madras, Bombay, and Allahabad Series purchased separately, inclusive of postage in India	...	1	0	0
---	-----	---	---	---

The following is the rate at which deductions will be made for parts out of print and at which duplicate copies will be supplied to subscribers when required in place of copies lost in transit:—

	For town.	For mofussil.
	R a. p.	R a. p.
For the Calcutta Series; per copy	0 8 9	0 10 3
„ each of the Madras, Bombay, and Allah- abad Series; per copy	0 5 3	0 5 9
„ the Calcutta Series. For the year	7 2 6	8 6 3
„ each of the Madras, Bombay, and Allah- abad Series. For the year	4 4 6	4 11 3
Persons desiring to subscribe for, or purchase, the Report should apply to—		

Persons desiring to subscribe for, or purchase, the Report should apply to—

Superintendent, Government Press, Madras.

The Superintendent, Government Central Press, Bombay.

The Curator of Government Books, North-Western Provinces and Oudh.

The Officer in charge, Bengal Secretariat Book Depot.

Orders and subscriptions for 1897 should be at once registered and remitted by money-order payable to the Accountant and Treasurer, Bengal Secretariat, Calcutta.

Advertisements will be received for publication on the wrappers of the Indian Law Reports, Calcutta Series, at the following rates, payable in advance:—

	One page.	Half page.	Quarter page.
For one issue	R. 20	R. 14	R. 9
.. three issues	55	36	24
.. six	100	68	45
.. nine	145	96	64
.. twelve	180	120	80

Several volumes of the BENGAL LAW REPORTS, from August 1868 to December 1875, and FULL BENCH RULINGS, Parts I and II, are available at the following rates:—

	Without postage.	With postage.
	₹ a. p.	₹ a. p.
Bengal Law Reports, for one year	20 0 0	22 8 0
Single copies. ₹2 per copy.		
Full Bench Rulings, Parts I and II	20 0 0	22 8 0

Bengal Secretariat Book Depot, Writers' Buildings, Calcutta. Remittances to be forwarded to the Accountant and Treasurer, Bengal Secretariat, Writers' Buildings, Calcutta.

All the wanting parts of the INDIAN LAW REPORTS (complete series) having now been reprinted, the complete Reports from 1876 to 1893 may be purchased for all the years, or for any particular year, on application to the Officer in charge of the Bengal Secretariat Book Depot.

The subscription, Rs. 2-8 per annum, should be remitted in advance to the Accountant and Treasurer, Bengal Secretariat.

NOTICE.

It is hereby notified, for general information, that subscription to the complete series of the Indian Law Reports should be registered during the first three months of each calendar year. Subscribers are therefore requested to send in their subscriptions of the complete series before the 31st March in each year. Those who register their names after that date will understand that copies will be supplied only if available.

BOOKS AND PUBLICATIONS

NOTICE.

A General Meeting of the Wazirpore Paribarik Dhan Sanchya Company Fund, Limited, will be held on the 5th June, at 2 P.M., in the house of Babu Kailas Chandra Guha, of Wazirpore, in the district of Backergunge, for the purpose of having the account prepared by the liquidators laid before the Company and hearing any explanation that may be given by the liquidators.

BROJO BASHI, *Talukdar,*

The 3rd May, 1897.

IN THE COURT OF THE SUBORDINATE JUDGE AT OOTACAMUND.

CIVIL SUIT NO. 159 OF 1896.

Miss Helen Milliken, of Ootacamund, *Plaintiff,*
against

A. D. Larymore, of Alipore, *Defendant.*

TO A. D. Larymore, Esquire,
Superintendent of the Alipore Central Jail,
Alipore Lane, Calcutta.

WHEREAS the Plaintiff has instituted a suit against you to recover R493-0-0 for three months' salary, travelling expenses, and three months' board, under a contract for service as governess entered into in the month of December, 1895, and for interest and the costs of this suit, you are hereby summoned to appear in this Court in person or by a duly authorised attorney or pleader on the 21st day of May, 1897, to answer the abovenamed Plaintiff, and in default of your appearance on the said date the suit will be heard and determined in your absence.

Given under my hand and the Seal of the Court, this 26th day of February, 1897.

By order,
C. STANISLAUS PILLAY,
Sherestadar.

UNCOVENANTED SERVICE FAMILY PENSION FUND.

Result of votes on the question submitted in Circular No. 2, dated 15th January, 1897.

Subject.	Yes.	No.
Whether Mr. W. H. Ryland shall be admitted to pension, as proposed in the Circular .	1,024	128

By order of the Directors,
E. W. KELLNER,
Secretary.

U. S. F. P. FUND OFFICE,
Calcutta, the 7th May, 1897.

SUPPLEMENT TO
The Gazette of India.

No. 21.}

CALCUTTA, SATURDAY, MAY 22, 1897.

OFFICIAL PAPERS.

A SUPPLEMENT to the GAZETTE OF INDIA will be published from time to time, containing such Official Papers and information as the Government of India may deem to be of interest to the Public, and such as may usefully be made known. The Debates of the Legislative Council of His Excellency the Governor General will in future be published in PART VI of the GAZETTE.

Non-Subscribers to the GAZETTE may receive the SUPPLEMENT separately on a payment of five Rupees per annum if delivered in Calcutta, or eight Rupees if sent by Post. The SUPPLEMENT and PART VI of the GAZETTE can also be subscribed for separately on a payment of Rupees six per annum if delivered in Calcutta or Rupees nine if sent by Post.

No Official Orders or Notifications, the Publication of which in the GAZETTE OF INDIA is required by Law, or which it has been customary to publish in the CALCUTTA GAZETTE, will be included in the SUPPLEMENT. For such Orders and Notifications the body of the GAZETTE must be looked to.

SUPPLEMENT No. 22.

PART I.

Government of India Notifications, Appointments, Promotions, &c.

HOME DEPARTMENT.

NOTIFICATIONS.

PUBLIC.

Simla, the 28th May, 1897.

No. 906.—Her Majesty's Warrant of Precedence, dated the 18th October 1876,

* Supplementary graded list of civil offices not reserved for members of the Covenanted Civil Service, prepared under the orders of the Governor General in Council.

published with Table and* Supplementary graded list under Home Department Notification No. 2032, dated the 1st November 1877, directs

“all other persons who may not be mentioned in this Table to take rank according to general usage, which is to be explained and determined by the Governor General in Council in case any question shall arise.” In exercise of the power thus conferred, the Governor General in Council is pleased to determine that the undermentioned officers shall take rank in the entry of the Table noted against them:

1. Lieutenant-Governor of Burma, in entry No. 4 when in his own territories, and otherwise in entry No. 6.
2. Members of the Legislative Council of the Lieutenant-Governor of Burma, in entry No. 24.
3. Civil Secretaries to the Government of Burma, in entry No. 34.

MEDICAL.

The 28th May, 1897.

No. 540.—The services of Surgeon-Lieutenant N. P. O'G. Lalor, M.B., B.CH., I.M.S. (Madras), are placed temporarily at the disposal of the Foreign Department for employment on plague duty, with effect from the date on which he assumed charge of his duties.

No. 542.—The services of Surgeon-Lieutenant F. Wall, I.M.S. (Madras), are placed temporarily at the disposal of the Foreign Department for Famine duty, with effect from the date on which he assumed charge of his duties.

SANITARY.

The 28th May, 1897.

No. 1603.—The following documents regarding quarantine and trade restrictions imposed in foreign countries in consequence of the existence of bubonic plague in India are published for general information :

Telegram, dated the 24th May 1897.

From—The Secretary of State, London,

To—The Viceroy, Simla.

Switzerland.—My telegram of 16th* February last. Arsenically dried hides admitted. Revised rules will be sent 28th May next.

* Published in the *Gazette of India* under Home Department Notification No. 583, dated the 19th February 1897.

Telegram, dated the 25th May 1897.

From—The Secretary of State, London,

To—The Viceroy, Simla.

Réunion.—My telegram of 19th† May last. French Government state rules regarding rice cannot be altered.

† Published in the *Gazette of India* under Home Department Notification No. 1545, dated the 21st May 1897.

JUDICIAL.

The 25th May, 1897.

No. 655.—The services of Major A. W. D. Campbell, Cantonment Magistrate, Lucknow, were placed temporarily at the disposal of the Military Department, with effect from the date on which he was relieved of his duties as Cantonment Magistrate, until the date on which he resumed charge of those duties. With effect from this latter date, the services of Major Campbell are replaced at the disposal of the Government of the North-Western Provinces and Oudh.

No. 658.—Major A. W. D. Campbell, Indian Staff Corps, Cantonment Magistrate of Lucknow, is granted furlough out of India for eighteen months, under Article 340 (b) of the Civil Service Regulations, with effect from the 23rd May 1897, or the date on which he avails himself of the leave.

This cancels Home Department Notification No. 482, dated the 23rd April 1897.

The 28th May, 1897.

No. 687.—Major R. C. S. Macausland, Indian Staff Corps, Cantonment Magistrate of Ferozepore, is granted an extension of furlough for twelve days, under Article 677, Army Regulations, India, Volume I, Part I, with effect from the 18th March 1897.

No. 690.—Captain F. A. C. Kreyer, Indian Staff Corps, 16th Bombay Infantry, is appointed to officiate as Cantonment Magistrate at Neemuch, with effect from the date on which he assumes charge of his duties.

J. P. HEWETT,

Secretary to the Government of India.

DEPARTMENT OF REVENUE AND AGRICULTURE.

NOTIFICATIONS.

FAMINE.

Simla, the 27th May, 1897.

INDIAN STAFF CORPS.

Major Valens Congreve Tonnochy is granted the temporary rank of Lieutenant-Colonel, whilst serving as a Regimental Commandant, Indian Army. Dated 7th January 1897.

APPENDIX I.

NOTE.—This form is to be made out on one side of half sheets of foolscap, ruled lengthways, with a clear space of one inch at the head of the form.

CORPS OR DEPARTMENT.

* Roll of individuals entitled to the SUDAN MEDAL, 1896 (granted by His Highness the Khedive of Egypt), with clasps inscribed "Ferket" or "Hafir," under the terms of Army Order 43 of 1897.

No. 580.—His Excellency the Governor-General in Council is pleased to direct the publication of the following War Office Army Order for general information :

Army Order No. 43,—April 1897.

At the time the medal was earned,		Entitled to medal in silver.	Entitled to clasp inscribed "Ferket."	Entitled to clasp inscribed "Hagr."	Entitled to medal in bronze.	Remarks.
Regimental or Departmental No.	Rank.	Name.				

Dongola Expedition.—Grant of a medal by His Highness the Khedive.—1. Her Majesty the Queen has been graciously pleased to approve of the forces employed in the military operations connected with the reconquest of the Province of Dongola, accepting and wearing the silver medal granted by His Highness the Khedive of Egypt.

2. The medal will be granted to the troops serving at, and to the south of, Sarras between the 30th March and 23rd September 1896, and to the troops under Brigadier-General C. C. Egerton, C.B., D.S.O., A.D.C., serving at Suakin between the same dates inclusive.

3. A clasp inscribed "Ferket" will be granted to the troops which took part in the operations south of Akasheh on 7th June, and a clasp inscribed "Hafir," to those which took part in the operations south of Fareig on 19th September.

4. The following non-combatants will be entitled to the medal in bronze without clasps:

Civilian syces and civilian servants of officers who were present at the actions of "Ferket" and "Hafir," and authorized followers of the Indian troops at Suakin under Brigadier-General C. C. Egerton, C.B., D.S.O., A.D.C., who were present at Suakin between the 30th March and 23rd September 1896, inclusive.

5. Commanding officers and heads of departments will prepare (in accordance with the specimen in Appendix I.), nominal rolls, in triplicate, of those entitled to the medals and clasps, and forward them, as soon as possible, to the Assistant Military Secretary, War Office, Cairo; a fourth copy being sent to the Under Secretary of State, War Office, London, S.W. In the case of the Indian forces the rolls will be prepared in such manner as the Government of India may direct.

6. The names of individuals who, under Articles 613, 737, 1255, 1256, and 1258, of the Royal Warrant for Pay, etc., 1896, have forfeited the medal, are to be included in the rolls, and the cause of forfeiture is to be stated in the last column.

I certify that the individuals named in this roll were actually present at the operations for which the medal and clasp are claimed as above detailed.

Signature of commanding officer or head of department.

GOVERNMENT OF INDIA.

HOME DEPARTMENT.

**RULE PRESCRIBING THAT OFFICERS OF THE STAFF CORPS ENTERING THE
PUNJAB, BURMA AND ASSAM COMMISSIONS SHALL BE APPOINTED
ON PROBATION FOR ONE YEAR.**

Nos. 454—59.

*Extract from the Proceedings of the Government of India, Home Department
(Establishments), under date Simla, the 27th May 1897.*

Read—

Home Department Resolution No. $\frac{4\text{-Est.}}{516-21}$, dated the 3rd July 1896.

Letters to the Government of the Punjab and Chief Commissioner of Assam, Nos. 92—93, dated the 2nd February 1897.

Letter from the Government of the Punjab, No. 183, dated the 15th February 1897.

Letter from the Chief Commissioner of Assam, No. $\frac{151\text{-P. S.}}{1637\text{-G.}}$, dated the 2nd March 1897.

RESOLUTION.

In Home Department Resolution dated the 3rd July 1896, rules were laid down regulating the periods within which Officers of the Staff Corps appointed to the Punjab, Burma and Assam Commissions should be required to pass their Departmental examinations. Rule (4) of these rules prescribes that—

An officer who passes the Lower Standard examination within 18 months, or who, having failed to pass by this standard within this period, has been retained by the Local Government or Administration in civil employ, will be required to pass by the Higher Standard within three years of the date of his joining the Commission. Upon his passing by this standard, he will be confirmed in Civil employ and his name will be struck off the strength of his regiment under Article 280, Army Regulations, India, Volume I, Part I, with effect from the date on which he passes (which should be reported to the Government of India in the Military Department).

2. The rule above quoted, which permits of confirmation upon passing by the Higher Standard, was not intended to supersede the order, separately issued in 1890, which directs that Staff Corps Officers appointed to the Burma Commission should be appointed in the first instance on probation for a period of one year. It appeared to the Government of India that it would be advisable to publish the rule in force in Burma for the information of intending candidates and also to extend it to the case of Staff Corps Officers appointed to the Punjab and Assam Commissions. The Government of the Punjab and the Chief Commissioner of Assam have expressed themselves in favour of the proposed extension of the rule. The Governor General in Council accordingly directs that all Staff

Corps Officers who may hereafter be appointed to the Punjab, Burma and Assam Commissions shall be appointed in the first instance on probation for a period of one year, independently of the regulations on the subject of their passing the Departmental examinations which were promulgated by the Resolution of the 3rd July 1896; and that such officers shall not be confirmed until this period of probation is over, even though they may pass the Departmental examinations entirely at an earlier date.

ORDER.—Ordered that a copy of this Resolution be forwarded to the Governments of the Punjab and Burma and the Chief Commissioner of Assam for information; that a copy be forwarded to the Military Department for information; that a copy be forwarded to the Foreign Department for information and further necessary action; and that the Resolution be published in the *Gazette of India*.

J. P. HEWETT,

Secretary to the Government of India.

GOVERNMENT OF INDIA.

DEPARTMENT OF REVENUE AND AGRICULTURE.

Weather Review of India for the Week ending at 8 a.m. on
Saturday, May 22nd, 1897.

The barometer has been steadily low during the week over the Gangetic Plain and Upper India and steadily high over the west and south of the Peninsula and over Lower Burma. The winds accompanying this distribution of pressure have been of the ordinary character, strong north-westerly and south-westerly winds having blown over North Bombay, Rajputana and Central India, westerly and north-westerly winds over the Peninsula and the Central Provinces, southerly winds over the Bay area and easterly winds in North Bengal and part of Bihar. Within the region covered by westerly winds the weather has been fine and hot, and the only rainfall reported has been a few widely scattered showers accompanying or following dust and thunder storms. On the other hand, the southerly winds over the Bay area have brought up a good deal of moisture, and there has been fair rain almost daily in Burma, Assam and part of Bengal. As a consequence the temperature has been unsteady over North-East India and Burma, and has occasionally ruled below the normal in that area, while in other parts of the country the heat has been steadily high, the abnormal excess on some days and in some parts of the country having been very large.

Daily Summary.—*Sunday, May 16th.*—Pressure was lowest in the North Gangetic Plain and highest in Malabar. The pressure difference was greater than usual, the barometer reading below the normal average over Northern India and above over the Peninsula and Burma. Westerly winds obtained, except in Burma and Bengal, where the directions were southerly, and in the Punjab, where they were variable. The force was strong in North Bombay, Central India and the Deccan. The mean temperature was very low in Burma, normal in Lower Bengal and the North Punjab and above the average elsewhere. Rain had fallen generally in Burma, where Yamethin, Toungoo, Diamond Island, Minbu, Lashio and Thayetmyo had received over one inch. Local showers had also occurred in Bengal.

Monday, May 17th.—The barometer had fallen nearly everywhere. The fall had been greater in the north than in the south, so that though the general distribution was not much changed, the pressure differences had still further increased. The wind directions were generally the same as on the 16th, but the force had risen, and at the head of the Bay the southerly wind was blowing strongly. Temperature had risen in Burma, but was still below the normal over that province. Elsewhere the heat remained excessive—more particularly over East Rajputana and the South Gangetic Plain. Local showers had fallen in parts of Burma and of Assam.

Tuesday, May 18th.—Pressure had changed very little. The barometer read below the normal average, except in Burma, and gradients remained steep. Light cyclonic winds had appeared in Upper India, the low pressure area in that region having become better defined. In other parts of the country the winds were similar to those reported on the previous day. Temperature had fallen quickly in Assam and was largely below the average in that province, while it remained slightly low over Burma. Elsewhere the heat remained excessive. Thundershowers were reported from parts of Burma, Assam and East Bengal.

Wednesday, May 19th.—The pressure changes were again generally slight, and the general barometric conditions were practically unaltered. The southerly winds at the head of the Bay as well as the westerly winds in North Bombay, Rajputana, Central India and the Deccan were still blowing strongly. The mean temperature had again risen in part of Burma, while it had fallen over Lower Bengal. It was lower than usual over Assam, Arakan and Lower Bengal, but

was generally excessive elsewhere—most so over the Punjab and the North-West Provinces. Local duststorms had been experienced on the plains and thunderstorms on the hills of Upper India, while in Bengal and Assam thunder-showers had been heavy and general. At a few places in the Peninsula local rain had been received.

Thursday, May 20th.—Pressure changes were small generally. The distribution was little altered, and the only important alteration was that pressure had again risen above the normal over the Peninsula. The wind circulation was little changed. The mean temperature had fallen over Assam, Bengal and the east of the Peninsula, and the heat was less than usual over that area. In other places the temperature was excessive—more particularly over the North Punjab and the Gangetic Plain. Duststorms had again occurred over the plains of Upper India, and thunderstorms had given rain to parts of Burma, Assam, Bengal and North Madras.

Friday, May 21st.—The pressure changes were again generally small, and there was no change of importance to record. The only feature of importance in the winds was the lightness of the winds in the south and in Ceylon. Temperature had risen over Burma and North-East India and fallen in parts of North-West Provinces, Punjab and Madras. The heat was very excessive in the Punjab, and was generally excessive, except over Assam, North Bengal and the central part of Madras. Duststorms had again occurred over Upper India, and thunderstorms had given heavy local rain in parts of North-East India.

Saturday, May 22nd.—There was again no large change in the pressure or wind conditions, and the only important alteration in temperature was a recovery over Madras. Local showers accompanying or following dust and thunder storms had been received in Coorg, Mysore, Upper Burma, Assam, Bengal and the Upper India hill stations.

Temperature.—As stated above, dry westerly (south-west—north-west) winds have prevailed generally over North-Western, Western, Central and Southern India, and over the region covered by these winds the mean temperature has been very generally—and in the case of Upper India very largely—above the normal average. On the contrary, southerly winds bringing up much moisture have prevailed fairly steadily over Burma, Assam and Bengal. These winds have been accompanied with numerous thunderstorms and heavy rainfall with the result that the region affected by these winds has experienced a generally deficient temperature.

The following table gives temperature data for the week :

PROVINCE.	MAY 1897.							Mean variation of week.
	16th	17th	18th	19th	20th	21st	22nd	
	o	o	o	o	o	o	o	o
Burma	—5'2	—2'7	—0'6	+0'5	+1'7	+2'8	+2'1	—0'2
Bengal and Assam	+2'8	+4'0	+2'3	—1'8	—2'3	o	+0'6	+0'8
North-Western Provinces and Oudh	+4'8	+5'9	+8'2	+8'7	+6'6	+3'8	+4'2	+6'0
Punjab	+3'1	+5'1	+7'1	+6'1	+8'1	+7'0	+5'0	+5'9
Bombay	+2'1	+1'5	+2'0	+2'0	+1'8	+1'4	+1'6	+1'8
Central Provinces and Berar	+5'3	+4'9	+5'8	+4'4	+2'6	+2'0	+2'0	+3'9
Central India and Gujarat	+4'4	+4'9	+4'4	+2'8	+2'3	+2'0	+1'5	+3'2
Sind and Rajputana	+5'9	+7'6	+7'2	+4'8	+4'0	+3'7	+4'0	+5'3
Madras	+3'3	+3'9	+4'6	+2'8	+1'3	—0'1	+2'4	+2'6
Mean for whole of India	+3'0	+3'9	+4'6	+3'4	+2'9	+2'5	+2'6	+3'3

In Burma the mean was largely below the normal on the 16th, and this depression of temperature did not disappear till the 19th, when the mean went above the normal and so remained until the close of the week. On the contrary, in Bengal the first three days were warmer than usual, but when the storm rainfall spread from Burma into Bengal and Assam the abnormal heat suddenly gave way. In all other provinces of India, with the exception of Madras on the 21st, the mean temperature has been steadily excessive throughout the week. The abnormal excess has been greatest in Upper India, where, in the North-West Provinces, it amounted to 6°O , in the Punjab to 5°9 and in Sind and Rajputana to 5°3 . On the 18th, 19th and 20th, when the heat was greatest in Upper India, the following large variations were reported:—18th—Sirsa + 11°5 , Jeypore + 10°6 , Jhansi + 11°1 , Allahabad + 10°0 ; 19th—Sialkot + 11°2 , Roorkee + 12°4 and Bareilly + 10°6 ; 20th—Sialkot + 11°1 , Ludhiana + 12°0 and Roorkee + 10°2 .

The following are the highest maximum temperatures recorded on each day :

May 16th	117°·6	at	Jacobabad.
" 17th	121°·0	"	"
" 18th	120°·0	"	"
" 19th	117°·1	"	"
" 20th	118°·0	"	"
" 21st	118°·0	"	"
" 22nd	118°·5	"	"

Jacobabad is now steadily the hottest station in India.

Rain.—The conditions under which rain has occurred during the week under review have been approximately normal. There has been a steady flow of southerly winds across Burma into Assam and North Bengal. These winds have brought up much moisture, and the rainfall has been heavy and continuous over the regions affected by them. At Cherra Poonjee there has been an average fall of four inches per diem, which is a sign of a steady rain bearing current over the Eastern Peninsula and North-East India. In Ceylon and Southern India, on the contrary, there has been no sign of the advance of the monsoon current during the present week, and pressure is apparently high over the Arabian Sea at the present time. In consequence all the rainfall, which has occurred over Southern India, has accompanied slight local thunderstorms of no importance, and the fall over this area has been much less than the normal. In the Gangetic Plain and Upper India at this time there is no expectation of any rainfall, except that which falls during or after duststorms, and during the present week only scattered showers, generally of small amount, have been received. In the central parts of the Peninsula and of India as well as over Rajputana and North Bombay there has been actually or practically no rain.

The rainfall table at the close shows that rain in effective amounts, *i.e.*, of one-tenth of an inch or over was received in twenty-eight of the rainfall divisions. This number is slightly greater than that reported last week. The area over which the rainfall has been effective in amount includes the following divisions, *viz.*—all the Burma divisions, all the Assam divisions, all the Bengal divisions, except South Bihar, the Punjab Hills, Malabar, Madras (South-Central), Coorg, Mysore, Rajputana (East) and Central India (West), the East Coast (North, Central and South) and Madras (Central and South). Within the area covered by these rainfall divisions the amount of rain received ranges from 8·03 inches in the Assam Hills and 5 inches in Assam (Surma and Brahmaputra) to 0·10 inch in Rajputana (East) and Central India (West). In all other parts of the country any rain which has fallen has averaged less than one-tenth of an inch. In the great majority of cases the rainfall received has been less than the normal, but in Assam, in East, North and Central Bengal and in Ganjam the average actual rainfall has exceeded the normal fall. In Tenasserim and Lower Burma as well as in Malabar the deficiency has been considerable, but in all the other districts it has been small and unimportant.

The three concluding columns of the table exhibit the state of the seasonal rainfall, *i.e.*, from February 28th to May 22nd. The rainfall for the whole period has been in excess of the normal in Tenasserim, Lower Burma, Central Burma, Central Bengal, North Bengal, Orissa, Chota Nagpur, Bihar, the North Punjab, the east of the Central Provinces and the East Coast (North) ; it has been about normal in Arakan, the Assam (Hills), Assam (Brahmaputra), Deltaic Bengal, the North-West Provinces (East), the Central Punjab, the Punjab (Hills), the Punjab (West), Malabar, Madras (South-Central), Coorg, the Bombay Deccan, Sind, Baluchistan, the East Coast (Central) and Madras (South), while in all the remaining divisions it has been deficient. The largest cases of deficiency are in the Gangetic Plain, the south-east of the Punjab, the submontane district of the Punjab, the Konkan, the central parts of India [except the Central Provinces (East)] and North Bombay.

The following are the principal large totals recorded during the week under review :

Burma	Mindan (Thayetmyo)	5'47 inches
	Shwegu (Bhamo)	5'09 "
	Taungdaw (Kyaukse)	4'90 "
Assam	Cherra Poonjee	28'22 "
	Dhubri	14'19 "
Bengal	Feni (Noakhali)	5'38 "
	Serajgunj (Pubna)	5'44 "
	Dirhatta (Cooch Behar)	9'31 "
Malabar	Beltongody (Mangalore)	2'07 "
Madras	Perragram (Salem)	3'42 "
Mysore	Hunsur (Mysore)	5'25 "
Madras	Alamur (Godavery)	5'10 "
	Rayadrug (Bellary)	2'30 "
	Chittoor	2'28 "

W. L. DALLAS,

*Asst. Meteorological Reporter to the
Government of India.*

DENZIL IBBETSON,

Secretary to the Government of India.

SIMLA, 27th May, 1897.

GOVERNMENT OF INDIA.

DEPARTMENT OF REVENUE AND AGRICULTURE.

Weekly Report on the state of the Season and Prospects of the Crops.

Madras.—*For week ending 22nd May.*—Rainfall in excess in Vizagapatam and Godavari; deficient in the South and West Coast; elsewhere generally normal. The water-supply for drinking purposes is generally insufficient in affected areas, except in Vizagapatam; elsewhere it is generally sufficient, but is failing in parts; for irrigation it is generally insufficient. Agricultural operations are progressing in parts to a limited extent. Standing crops are fair to good, but are withering in parts. Harvests yield a limited outturn; generally middling. Pasture *nil* in the Deccan, but forest reserves have been thrown open; generally sufficient in Vizagapatam and the extreme south; elsewhere it is growing scarce. Fodder is insufficient in the Deccan; available elsewhere, but is growing scarce in parts. Cattle are deteriorating in the Deccan, but elsewhere are generally good. Prices have risen in all groups, except in the Central districts and the West Coast. The numbers on relief are:—relief workers—76,192 men, 139,625 women, 54,671 children; total 270,488 in the Deccan and the Circars. Test-workers—1,213 men, 3,640 women, 1,059 children in Ganjam and Vizagapatam *plus* 500 unspecified in Bhadrachalam; total 6,412. Weavers—12,639 men, 8,668 women, 601 children; total 21,908 relieved at their own trade in the Deccan and Ganjam. Total relief workers 298,808. Kitchen inmates in the Deccan, Ganjam, and Vizagapatam: (dependants)—249 men, 480 women, 11,857 children; total 12,595. (Others)—1,457 men, 2,838 women, 7,320 children; total 11,615. Otherwise gratuitously relieved—5,567 men, 11,965 women, 12,990 children, 1,206 unspecified; total 31,728. Total on gratuitous relief 55,938. Grand total on Government relief 354,746. Also 902 fed in private kitchens under Government management in Vizagapatam. Prices by which wages are regulated are:—Ganjam and Bellary 11½, Kurnool 12, Bhadrachalam 12½, Cuddapah 13, and Anantapur and Vizagapatam 14 seers per rupee. Loans disbursed since commencement of distress Rs. 5,54,519.

Bombay.—*For week ending 24th May.*—Rain in one taluka of Shikarpur, in Hyderabad, Bijapur, Belgaum, and Dharwar. Harvesting of late crops is nearly completed, except in Hyderabad, Upper Sind Frontier, Thar and Parkar, and Nasik. Preparations for next season have commenced generally. Fodder is sufficient, except in the Deccan, Shikarpur, and in parts of Karachi, Baroda, and Kolaba. Condition of agricultural stock is deteriorating in Poona, Ahmednagar, Sholapur, Satara, Bijapur, and Belgaum; healthy elsewhere, except in parts of Shikarpur, Upper Sind Frontier, Thar and Parkar, and Kanara. Prices are rising in parts of Kolaba, Sholapur, and Bijapur; falling in parts of Surat; stationary in Thar and Parkar and in parts of Surat, Kolaba, Sholapur, and Bijapur. Prices in affected districts are:—Belgaum 10½, Bijapur 10, Sholapur 10½, Ahmednagar 9½, Poona 9½, Nasik 9, Satara 9½, Khandesh 8½, and Dharwar 11 seers per rupee. The average daily numbers on relief works, including dependants, were:—Bijapur 52,957, Sholapur 114,116, Ahmednagar 59,540, Poona 26,786, Nasik 26,208, Satara 11,392, Khandesh 22,686, and Belgaum 13,554. On test works:—Belgaum 594, Dharwar 655, Ratnagiri 275; total 328,765, of whom 261,908 are workers and 66,855 dependants. On gratuitous relief:—Bijapur 10,721, including 142 in poor-houses, Sholapur 8,340, including 68 in poor-houses, Ahmednagar 5,910, including 938 in poor-houses, Poona 6,652, Nasik 561, Satara 184, Belgaum 659, Dharwar 969; total 33,996. Total number on relief 362,759.

Bengal.—*For week ending 24th May.*—There was more or less rain in almost all districts during the week; the falls in the eastern districts being heavy. The rain has facilitated ploughing and sowing which are going on everywhere. More rain is still required in several districts. The prospects of sugarcane and indigo are generally good and the early rice and jute where sown are coming on

well. The harvesting of *boro* or spring rice is almost over. The water-supply is said to have generally improved, but is still deficient in parts. The price of rice shows but little change during the week. In the distressed districts the prices of the staple food-grain on which the famine wage is based are :—Nadia, common rice $7\frac{1}{2}$ seers ; Murshidabad, common rice $8\frac{1}{2}$ seers ; Khulna, common rice 9 seers ; Rajshahi, common rice 8 seers ; Pubna, rice 7 to $8\frac{1}{2}$ seers ; Shahabad, rice 8 seers and pea $10\frac{1}{2}$ seers ; Saran, barley $12\frac{5}{16}$ seers ; Champaran, common rice at Motihari $8\frac{1}{16}$ seers and Bettiah $7\frac{5}{16}$ seers and maize at Motihari $10\frac{1}{2}$ seers ; Muzaffarpur, indian-corn $9\frac{1}{2}$ seers and *rahar* (*Cajanus indicus*) $12\frac{1}{2}$ seers ; Darbhanga, common rice $7\frac{1}{2}$ seers and indian-corn 9 seers ; Bhagalpur, common rice 8 seers and *marua* (*Eleusine coracana*) 13 seers ; Sonthal Parganas, rice at Jamtara $7\frac{1}{2}$ to 8 seers ; Puri, common rice 10 to 12 seers ; Hazaribagh, rice 6 to $7\frac{1}{2}$ seers ; Palamau rice 9 seers ; and Manbhum, common rice $7\frac{1}{2}$ to 8 seers per rupee. The numbers on relief on Saturday, the 22nd May, were :—Bankura 1,242, Nadia 92,987, Murshidabad 4,574, Khulna 10,373, Rajshahi 687, Pubna 820, Patna 147, Shahabad 32,981, Saran 81,511, Champaran 183,093, Muzaffarpur 127,501, Darbhanga 225,065, Bhagalpur 26,761, Sonthal Parganas 4,069, Puri 3,398, Hazaribagh 7,128, Palamau 5,037, Manbhum 14,085 ; total 821,459 against 782,088 in the preceding week. This total is distributed as follows :—relief workers—men 170,075, women 155,327, children 58,567 ; total 383,969. Dependants—men 1,509, women 566, children 35,605 ; total 35,680. Relieved in poor-houses—men 1,102, women 832, children 940 ; total 2,874. Otherwise relieved—men 63,747, women 201,244, children 122,373 ; total 387,364. Test-workers—men 7,197, women 3,158, children 1,217 ; total 11,572. Private relief : relief workers, Darbhanga Raj—in Darbhanga and Muzaffarpur—men 10,253, women 5,370, children 1,189 ; total 16,812. Hatwa—men 1,408, women 2,263, children 1,605 ; total 5,277. Sonthal Parganas—men 894, women 665, children 79 ; total 1,638. Gratuitous relief—Darbhanga Raj—in Darbhanga and Muzaffarpur—men 2,900, women 8,793, children 8,882 ; total 20,575. Saran—Hatwa—men 123, women 171, children 1,132 ; total 1,426. Manjha—men 168, women 34, children 12 ; total 214. Koildwa—men 36, women 104, children 14 ; total 154. Hazaribagh—Giridih—men 205, women 118, children 68 ; total 391. Total on private relief 46,487.

North-Western Provinces and Oudh.—For week ending 26th May.—

Light rain fell in some districts during the week ; in Agra, Saharanpur, Aligarh, Lucknow, Gonda, and Bara Banki over half an inch was recorded. Threshing and winnowing are practically completed. Preparations for the autumn crop are in progress. Irrigation of cane and extra crops continues. Extra crops are doing well. The numbers in receipt of relief on Saturday, the 22nd May, in eighteen districts officially recognised as distressed were as follows :—Agra 25,620, Etawah 4,781, Cawnpore 12,384, Fatehpur 15,220, Banda 242,390 (incomplete), Hamirpur 120,575, Allahabad 323,794, Jhansi 90,468, Jalaun 116,605, Mirzapur 56,989, Family domains, Maharajah of Benares, 14,679, Jaunpur 43,381, Gorakhpur 26,275, Azamgarh 15,839, Lucknow 56,642, Unao 37,881, Rae Bareilly 35,111, Sitapur 5,648, Hardoi 150,521 ; total 1,394,803. This total is distributed as follows among the various methods of relief prescribed by the Famine Code which are in operation :—employed on relief works—897,612 ; relieved as dependants—173,599 ; relieved in poor-houses—25,737 ; relieved under other provisions of the Code, including 22,746 from Charitable Relief Fund, 297,855 ; total 1,394,803. The numbers relieved in nineteen districts which are under observation and not officially recognised as distressed were on the same date as follows :—relieved on test works—18,066 ; relieved in poor-houses—4,438 ; relieved under other provisions of the Famine Code, including 8,520 from Charitable Relief Fund, 37,204 ; total 59,708. The grand total in receipt of relief on the last day of the week was therefore 1,454,511. Supplies are generally sufficient. Fodder is scarce and dear in places. Water is somewhat short in parts of Allahabad, Banda, and Hamirpur. Prices still show a tendency to rise in most districts. The price of the staple grain on which the famine wage is based varied from $9\frac{1}{8}$ to 13 seers in the districts officially recognised as distressed. The numbers shown as relieved from the Indian Famine Charitable Relief Fund do not represent the full operations of the fund, but merely those persons not also relieved by Government who received assistance from the fund through official agency.

Punjab.—*For week ending 24th May.*—Rain has fallen all over the Delhi Division averaging from $\frac{1}{2}$ to $1\frac{1}{10}$ inches; it has also fallen about $\frac{1}{2}$ inch in parts of Sialkot and averaging about $\frac{1}{2}$ inch in Rawal Pindi. Harvesting of the spring crops is going on. Ploughings for autumn crops are in progress. Sugarcane, cotton, indigo, and great millet are being sown. Rice sowings have commenced in Peshawar. Tobacco is being cut in Gurgaon. Extra spring crops on irrigated lands are generally in good condition. Outturn of spring crops is reported good to average on irrigated and below average or poor on unirrigated and dry lands. Insufficiency of water is still reported from Umballa. Sugarcane has been slightly benefited by the recent rain in this district. Locusts appeared in parts of Rawal Pindi and Dera Ismail Khan and deposited eggs which are being destroyed. Extra spring crops have more or less been damaged by hail in parts of Gurgaon, Karnal, and Umballa; they are also being damaged by beetles in parts of Dera Ismail Khan. Cattle are still in poor condition, but they are improving in some districts. Sixty cattle died from hunger in Rohtak. Scarcity of fodder is still prevalent throughout the Province, except on canal irrigated tracts. New straw is now available. The average number of relief workers, dependants, etc., was as follows:—Relief workers—25,261 men, 24,691 women, 12,157 children; Dependants—195 men, 285 women, 14,329 children; Relieved in poor-houses—1,250 men, 1,464 women, 798 children; Otherwise relieved—3,108 men, 5,280 women, 3,604 children; Test-workers—39 men, 22 women, 14 children. The total number of relief workers, etc., in the Punjab was 92,497 against 89,470 last week; of these 64,000 were in Hissar only. Prices are generally still high, the tendency is to rise in most districts; a fall in prices is only reported from Amritsar; the figures are unchanged in nine districts. Owing to the demand for seed the prices of autumn grains are still high and are rising; wheat is selling from $10\frac{1}{2}$ to $13\frac{3}{4}$, great millet 9 to $10\frac{1}{2}$, gram $10\frac{1}{2}$ to $12\frac{3}{4}$, barley 12 to 14, bulrush millet $12\frac{1}{2}$, maize 7 to 13, and rice 6 to 7 seers per rupee. Prices of staple food-grains on which the famine wage is reckoned are:—Rohtak, gram 10 and barley 14; Delhi, wheat $10\frac{1}{2}$; Karnal, wheat flour $9\frac{1}{2}$ and barley flour 12; Umballa, maize 11; Ferozepore, gram and barley $11\frac{1}{2}$; Lahore, indian-corn $10\frac{1}{2}$; and Gujrat, wheat flour $11\frac{3}{4}$ seers per rupee.

• **Central Provinces.**—*For week ending 24th May.*—Weather very hot and unsettled with passing clouds, occasional high winds and duststorms. There have been slight sprinklings of rain in four districts. Preparations of land for summer sowings are still in progress. Scarcity of fodder and water is being felt in parts of eleven districts. Prices are fluctuating slightly with a tendency to rise in the northern districts. The numbers on relief works have increased by 17,000 to which twelve districts have contributed; the largest increase is in Narsinghpur. The decline in Jubbulpore is due to introduction of piece work system. The total number on gratuitous relief has risen by 12,000, the largest increases occurring in Saugor, Damoh, and Bilaspur. The number employed on private works has advanced by 20,000; large increases in Bilaspur and Chanda being partly counterbalanced by decreases in Saugor, Damoh, and Nagpur. The numbers on relief works were—Saugor 35,909, Damoh 33,180, Jubbulpore 54,174, Mandla 22,299, Seoni 12,916, Narsinghpur 37,251, Hoshangabad 59,339, Nimar 328, Betul 15,911, Chhindwara 11,617, Wardha 7,076, Nagpur 13,628, Chanda 542, Bhandara 25,852, Balaghat 48,185, Raipur 75,665, Bilaspur 34,408, and Sambalpur 956; total 489,236. Numbers on gratuitous relief—Saugor 18,528, Damoh 18,010, Jubbulpore 31,853, Mandla 8,314, Seoni 4,251, Narsinghpur 8,280, Hoshangabad 11,293, Nimar 534, Betul 5,100, Chhindwara 3,601, Wardha 39, Nagpur 5,222, Bhandara 5,885, Balaghat 21,679, Raipur 23,913, Bilaspur 30,492, and Sambalpur 346; total 197,340. Total number on relief 686,576. There were also 209,000 persons employed on railway and other private works. Details of relief workers—men 149,111, women 217,096, and children 123,029. Dependants—men 3,108, women 5,263, and children 80,358 with 2,437 unclassified. Poor-houses—men 6,396, women 6,922, and children 9,504. Otherwise relieved—men 11,952, women 21,895, and children 23,122 with 26,383 unclassified. Wage prices—Chanda $11\frac{1}{2}$, Jubbulpore $10\frac{1}{2}$, Bilaspur and Sambalpur 10, Seoni, Wardha, and Raipur $9\frac{1}{2}$, Nagpur $9\frac{1}{4}$, Damoh, Narsinghpur, and Chhindwara 9, Nimar $8\frac{3}{4}$, Saugor and Hoshangabad $8\frac{1}{2}$, Mandla, Betul, and Bhandara 8, and Balaghat $7\frac{1}{2}$ seers per rupee.

Burma.—*For week ending 22nd May.*—In Lower Burma ploughing has now commenced in Pegu, Thongwa, Myaungmya, and Tavoy. In Upper Burma reaping of dry weather paddy continues in several districts and has been completed in Sagaing and Kyaukse. Good or fair rain has fallen in all districts during the week, and ploughing for early wet weather crops is in general progress in Meiktila, Yamethin, Myingan, and Magwe. Sowing of sesamum has commenced in Kyaukse. Ploughing for the main wet weather paddy crop has commenced in parts of the district. The price of paddy has risen considerably in Rangoon and in Mandalay; else-

Myingyan 9,213. On gratuitous relief—Meiktila 635, Myingyan 2,039, Yamethin 376. Total number on relief 16,849. Price of rice—Meiktila 8 seers 12 chittacks and Myingyan 10 seers 4 chittacks per rupee.

Assam.—*For week ending 25th May.*—Weather seasonable. Ploughing for late rice and planting of sugarcane continue. Early rice promises well. Condition of tea improved in Cachar, elsewhere generally good. Prices—common rice—Silchar 7, Sylhet 8½, Gauhati 7½, Tezpur 8½, and Sibsagar 8 seers per rupee.

Mysore and Coorg.—*For week ending 24th May.*—**MYSORE.**—Rain 1 inch 55 cents in Civil and Military station and good rain in parts. Standing crops are in good condition. Prices have risen in Tumkur and Mysore; fallen in Kolar district. *Ragi (Eleusine coracana)* has been sown in parts of Hassan and paddy in Shimoga.

COORG.—Rainfall 1 inch 34 cents. The rain has been favourable for coffee. Prices of food-grains are normal. Water and fodder for cattle are sufficient.

Berar and Hyderabad.—*For week ending 24th May.*—**BERAR.**—Weather warm and cloudy. Preparation of land for next monsoon crop continues. Fodder and water-supply are insufficient. Prices of food-grains are fluctuating. The number of persons employed on relief works are—Akola 7,820, Amraoti 4,148, Basim 8,340, Buldana 2,223, Ellichpur 2,429, and Wun 569. Persons afforded gratuitous relief—Akola 1,231, Amraoti 1,040, Basim 3,207. Occupants of poor houses—Akola 465 and Amraoti 644. Total number on relief 32,116. Prices—*jowar*—Akola 11, Amraoti 11, Basim 11, Buldana 11, Ellichpur 9, and Wun 12 seers per rupee.

HYDERABAD.—Rainfall during week 9 cents. Fields are under preparation for monsoon crops. Fodder, pasture, and water are scarce. Aggregate number of persons employed on relief works in Bir, Gulbarga, Raichur, Lingsagar, and Naldrug 27,065. Price—9¼ seers per rupee in Bir, 9½ in Raichur and Naldrug, 10 in Lingsagar and 10½ in Gulbarga. 235 persons on gratuitous relief in Shorapur and 1,175 children in Bir. Total number on relief 28,475. Prices—wheat 6½, coarse rice 7½, and *jowari* 12¼ seers per current sicca rupee.

Central India.—*For week ending 24th May.*—Slight rain fell in Gwalior and Bundelkhand and showers in parts of Malwa. Winter crop operations have been completed in Gwalior, Baghelkhand, and Malwa and are in progress in Bundelkhand. Hot weather crop operations have been started in Bhopal and Bhopawar. Outturn of winter crop estimated to be below average in most of the agencies. Agricultural stock are fair in Bhopal and two districts of Gwalior; good in Baghelkhand and Malwa; indifferent in Bundelkhand and some districts of Gwalior. Pasturage is fair in Bhopal; good in Baghelkhand and Malwa; indifferent in Bundelkhand and some districts of Gwalior; failing in parts of Bhopawar; and bad in the remaining districts of Gwalior. Prices are above normal in Malwa and Bhopawar; steady elsewhere. The number of persons employed on famine relief works were—40,004 in Gwalior, 59,939 in Bundelkhand, and 66,661 in Baghelkhand. On gratuitous relief—13,050 in Gwalior, 7,700 in Bundelkhand, and 3,972 in Baghelkhand. Total number on relief 191,326. Prices—10 to 10½ in Gwalior, 9½ to 11½ in Bundelkhand, and 9½ seers per rupee in Baghelkhand.

Rajputana.—*For week ending 26th May.*—Rainfall above $\frac{1}{2}$ inch in Jeypore, 48 cents in Kotah, and a few cents in Deoli, Bundi, Ajmere, Kishengarh, Karauli, Dholepore, and Ulwar. Land being prepared for autumn crops in Meywar. Standing crops are good in Meywar and Jhallawar; fair in Pertabgarh. Harvest good in Marwar and Jhallawar, and average in Ajmere. Agricultural stock lean in Bhurtpore and generally good elsewhere. Pasturage or fodder scarce in some tehsils of Jeypore; failing in Dholepore and Bhurtpore; sufficient elsewhere. Prices are high in Haraoti; rising in Pertabgarh, Jeypore, Kishengarh, and Bhurtpore; fluctuating in Meywar, Jhallawar, Bikanir, and Jaisalmer; slightly falling in Ajmere; steady elsewhere. The number of persons on relief works was—Marwar 4,549, Dholepore 1,874 and on ordinary works 2,423, Bikanir 7,525, Jaisalmer 1,246. Gratuitous relief—Marwar 1,267, Tonk 1,837, Chabra 62, Deoli 8, Bhurtpore 347, Bikanir 3,863, Jaisalmer 257. Total number on relief 22,835. Prices—Marwar $9\frac{1}{2}$, Tonk 11, Deoli 13, Dholepore $11\frac{1}{4}$, Bhurtpore 13, Bikanir $9\frac{3}{4}$ and $8\frac{1}{2}$, and Jaisalmer $8\frac{3}{8}$ seers per rupee.

Kashmir.—*For week ending 25th May.*—Rain has fallen. Standing crops are in good condition. Prices continue normal. Price—22 seers per rupee.

JAMMU PROVINCE.—Report not received.

Nepal.—*For week ending 22nd May.*—Rainfall 62 cents. Days sultry, nights stormy. Wheat is being harvested and indian-corn being sown. Price— $8\frac{1}{4}$ seers per rupee.

The total numbers in receipt of relief during the preceding and present weeks are as follows:

* Inclusive of 31,266 relieved from the Indian Charitable Relief Fund. .

† Figures incomplete for one district.

T. W. HOLDERNESS,
Deputy Secretary to the Government of India.

GOVERNMENT OF INDIA.
DEPARTMENT OF REVENUE AND AGRICULTURE.
(FAMINE.)

Return of the number of persons in receipt of relief in districts affected by scarcity.

NOTE.—The figures are compiled from the Local Gazettes, and give the District details of the Provincial totals published weekly in the Crop and Weather Summary in the *Gazette of India*.

Non-labouring children and other dependants of relief workers are classed as on relief works when distinguished in the local returns as gratuitously relieved in poor-houses or at their homes.

INVENTIONS and DESIGNS.

Calcutta, the 27th May 1897.

NOTIFICATIONS.

No. 1634 P.—APPLICATIONS in respect of the undermentioned inventions have been filed, under the provisions of the Inventions and Designs Act of 1888, in the office of the Secretary appointed under that Act during the week ending 22nd May 1897:—

No. 201 of 1897.—Amended application, see No. 152 of 1897.

No. 202 of 1897.—Alfred Martin, photographer, of Wanganui, in the colony of New Zealand, for an improved method of and devices for producing embossed or bas-relief photographs.

No. 203 of 1897.—John Martin, manager of the Phoenix Fire Insurance Company, of 60 Market Street, Melbourne, in the colony of Victoria, for improved means for automatically supplying hot air to furnaces, principally locomotive, stationary, and marine boiler furnaces.

No. 204 of 1897.—Eber Blake Tree, insurance agent, of 622, Princess Street, in the town of Woodstock, in the county of Oxford, in the province of Ontario, Canada, and Robert Henry Eldon, school teacher, of 343, Clinton Street, in the city of Toronto, in the county of York, aforesaid, for improvements in rotary engines.

No. 205 of 1897.—Anton Raky, manager, of Rupprechtsau, near Strassbourg in Alsace, Germany, for improvements in boring apparatus for deep borings.

No. 206 of 1897.—John Halson Webster, flax-spinner, of the firm of David Webster and Son, of Bervie, in the county of Kincardine, Scotland, for improvements in spinning frames.

No. 207 of 1897.—John Lowther Fletcher, gentleman, of "Ellesmere," French street, Sunbury-on-Thames, in the county of Middlesex, for a method of treating flour and the products obtained by such treatment.

No. 208 of 1897.—William Thomas Owen, and Thomas Thatcher, farmers, of 42, Lambton Quay, in the city of Wellington, in the colony of New Zealand, for an improved composition to be applied to the permanent way of railways to destroy vegetation, and to preserve the timber from decay, and the rails and fastenings from oxidation.

No. 209 of 1897.—Amended application, see No. 16 of 1897.

No. 210 of 1897.—Amended application, see No. 17 of 1897.

No. 1635 P.—SPECIFICATIONS of the undermentioned inventions have been filed, under the provisions of the Inventions and Designs Act of 1888, in the office of the Secretary appointed under that Act, and copies have been sent to the Governments of Fort St. George, Bombay and Burma, and the Director of the department of land records and agriculture, North-Western Provinces and Oudh. These and other specifications are open to public inspection, from 11 A.M. to 4 P.M., at the Secretary's office (Imperial Secretariat, Government Place, West, Calcutta), on payment of a fee of one rupee, and a certified copy of any one of them will be supplied on payment of the fixed expenses of copying:—

No. 272 of 1896.—Hugh Jorwerth Roberts, M.I.M.E., of the firm of Messrs. Burn & Co., Ltd., Howrah, for a baling press. (Specification filed 12th May 1897.)

No. 301 of 1896.—George Johnston, engineer, of 65, Eastbourne street, Liverpool, in the county of Lancaster, for improvements in automatic central buffers and couplings. (Specification filed 30th April 1897.)

No. 1636 P.—THE fees prescribed in Schedule 4 of Act V of 1888 have been paid for the continuance of exclusive privilege in respect of the undermentioned inventions for the periods shown against each :—

- No. 254 of 1889.—Sandford James Kilby, superintendent, customs preventive service and salt department, of 15, Strand, Calcutta, for a combined weighing stand, platform and hopper for facilitating the weighing and discharging of salt and other commodities. (From 28th May 1897 to 28th May 1898.)
- No. 103 of 1890.—Arthur Marie Francois Laurent-Cély, of 59, rue de Provence, Paris, and Illius Augustus Timmis, civil engineer, of No. 2, Great George street, Westminster, London, S.W., for improvements in and relating to, and in the manufacture of, electric secondary cells. (From 27th May 1897 to 27th May 1898.)
- No. 334 of 1891.—Charles Arthur Marchant, overseer, Public Works Department, attached to the Government workshop, Dehri-on-Sone, for an improved style of dredger fitted with a modification of the gear patented in his Indian patent No. 228 of 1891. (From 15th June 1897 to 15th June 1898.)
- No. 28 of 1893.—Samuel Cleland Davidson, merchant, of Sirocco works, Belfast, for improvements in apparatus for drying tea or other vegetable substances, or other material. (From 7th June 1897 to 7th June 1898.)
- No. 109 of 1893.—Charles Hodgson, engineer, of Canterbury road, Kilburn, in the county of Middlesex, for an improvement in point locks for railways. (From 14th June 1897 to 14th June 1898.)

No. 1637 P.—WHEREAS the inventors of the undermentioned inventions have respectively failed to pay, within the time limited in that behalf by the fourth schedule to the Inventions and Designs Act (V of 1888), the fees hereinafter respectively mentioned, it is hereby notified that under the provisions of section 8, sub-section (2), of the said Act, the exclusive privilege of making, selling and using the said inventions in British India and of authorising others so to do has ceased :—

- No. 174 of 1892.—Beaumont Richard Harrington's invention for a flush water hydraulic sewer. (Specification filed 21st February 1893.)
- No. 203 of 1892.—Robert Aunesley's invention for reducing faecal matter to a harmless but valuable product. (Specification filed 16th February 1893.)
- No. 296 of 1892.—John Joseph Harrison's invention for improvements in and connected with receptacles for matches and other articles, and for exhibiting advertisements, photographs, or the like. (Specification filed 20th February 1893.)
- No. 301 of 1892.—Samuel H. Brown and Michael McBarron's invention for improvements in and relating to the annealing of metals. (Specification filed 17th February 1893.)

Fee in respect of the continuance of an exclusive privilege—

- 4 (a) After the filing of the specification and before the expiration of the fourth year from the date of the filing thereof.

The sum of Rs50 for each of the said inventions.

NOTICES.

All communications relating to Act V (the Inventions and Designs Act) of 1888 should be addressed to the "Secretary to the Government of India, Department of Revenue and Agriculture (PATENTS BRANCH), CALCUTTA."

The office of the Secretary under the Act is open for the transaction of business from 11 A.M. to 4 P.M. on all days except Sundays and gazetted holidays.

The Government of India are advised that as trade marks are not "designs" within the meaning of the Act, they cannot be registered under Part II.

The fees payable under the fourth and sixth schedules are now collected in cash, and applicants are warned that they must be responsible for any delay in cashing cheques.

Copies of the weekly notifications, and of the quarterly lists, of applications and specifications filed in the Secretary's office are now on sale to the public at one anna and eight annas a copy respectively.

Attention is requested to the rules made by the Government on the 10th October, 1895, in regard to the preparation of applications, specifications and drawings.

All applications made under the Inventions and Designs Act, V of 1838, will from this date (December 19th, 1896) lie in the visitors' room of the Patents Office for ten days from the date of the *Gazette of India* in which their filing may have been notified; or, if the tenth day is a holiday, till the evening of the office day next following.

At the time of delivering or sending an application for leave to file a specification, the applicant shall cause a duplicate copy of the application to be delivered or sent therewith to the Secretary.

A. T. PRINGLE,

*Offg. Secy. under the Inventions and
Designs Act, 1888.*

CALCUTTA POST OFFICE NOTICE.

Mails for	Date of closing at Calcutta.	Route by which despatched.
Aden, Egypt, Europe, America, Zanzibar, Mozambique, Delagoa Bay, Mauritius, Madagascar, Réunion, etc., Natal, and Cape Colony, and in general all countries served through the United Kingdom.	1st June 1897.	Per P. & O. Str. from Bombay.
Parcels for the United Kingdom and other Foreign places.	31st May	Ditto.
* Australasian Colonies	29th "	Via Tuticorin and Colombo.
" Ditto ditto	5th June	Ditto.
Straits Settlements, China, and Japan.	4th "	Per Steamer Chelydra.
Rangoon and Moulmein	3rd "	Per B. I. S. N. Co.'s Steamer.
Rangoon, Moulmein, Tavoy, and Mergui.	31st May	Ditto.
Rangoon, Moulmein, Penang, and Singapore.	29th "	Ditto.
Ditto ditto ditto (Supple- mental).	30th "	Ditto.
Akyab, Kyaukpys, Sandoway, and Rangoon.	2nd June	Ditto.
Port Blair	31st May	Via Rangoon.

* Although the date entered in column 2 is, as far as can be calculated, the latest safe date of posting for the next Mail Steamer, full allowance being made for the steamer being in advance of

her published timing, Mails for the places mentioned in column 1 are despatched daily to Colombo, so that they may proceed by any steamer that has been unusually accelerated or retarded, or by any special opportunity that may be afforded by a steamer not belonging to one of the regular lines.

The letter-box for Inland articles (including articles for Burma and Port Blair and for Ceylon by land route) will be cleared for the last time for articles without the late fee at 7-30 P.M. precisely, after which hour Inland letters and papers fully prepaid and bearing an extra postage stamp of half anna will be received up to 8 P.M. and up to 8-45 P.M. with a late letter fee of 1 anna for the Chord Mail only.

On the day of despatch of the Mail for the Australasian Colonies via Tutuorin, the letter-box for Foreign articles will be cleared for the last time for articles without the late fee at 8-30 P.M., and late letters and papers fully prepaid will be received up to 9 P.M.

On the day of despatch of the Mail for Europe, the letter-box for Foreign articles will be cleared for the last time for articles without the late fee at 9 P.M., and late letters and papers fully prepaid will be received up to 9-30 P.M. On other days the letter-box for Foreign articles will be cleared for the last time for articles without the late fee at 7-30 P.M., and late letters and papers will be received up to 9 P.M. for despatch by any Foreign Mails despatched the same night. The late fee for Foreign articles is 4 annas, which must be prepaid in stamps affixed to the articles.

JOHN OWENS,

Presidency Postmaster, Calcutta.

CIVIL ENGINEERING COLLEGE, SIBPUR.

SESSION 1897-98.

Candidates for admission to the Engineer Department should apply to the Principal before the 15th May, 1897. The session begins on Monday, the 7th June, 1897. Candidates must furnish proof that they have passed one of the following tests:—

- (1) The F. A. examination of the Calcutta University, or a similar standard of any Indian University recognised by the Calcutta University. The candidate's age must be under 21 years.
- (2) The B. A. examination in the B. course in physics and chemistry. The candidate's age must be under 23 years. (These students are admitted direct into the 2nd-year class.)

The number to be admitted each year is limited to 40. The position in the University examinations and the age of the candidates will be taken into consideration when selection is made, and such selection will be made by the Principal.

Ten scholarships will be awarded to students entering the Engineer Department, not being already holders of junior or senior scholarships. Every applicant before admission to the College will be examined by the College Surgeon as to his physical strength, fitness for manual labour, and eye-sight.

Further particulars will be supplied on application to the Principal.

A. MACDONELL,

Offg. Principal, Civil Engineering College.

SIBPUR,

The 8th April, 1897.

GEOLOGICAL SURVEY OF INDIA.

FOR SALE.

Report on the Geological Structure and Stability of the hill slopes around Naini Tal, by T. H. Holland, A.R.C.S., F.G.S., Officiating Superintendent, Geological Survey of India. Price Rs. 3.

Apply to the Registrar, Geological Survey of India.

GOVERNMENT CINCHONA FEBRIFUGE.

Cinchona Febrifuge can be purchased by all Government officers, and by any one taking *six pounds* at a time, from the Superintendent, Botanic Garden, Calcutta, at the following rates—per four-ounce tin, Rs. 2-8; per eight-ounce tin, Rs. 5; per pound tin, Rs. 10. The general public can be supplied by the Superintendent, Botanic Garden, *for cash only*, at the under-noted rates: per four-ounce tin, Rs. 3; per eight-ounce tin, Rs. 6; per pound tin, Rs. 12. This medicine is also sold by the principal European and Native druggists in Calcutta. Postage, four annas per four-ounce tin, eight annas per eight-ounce tin, and twelve annas per pound tin, in addition to the foregoing rates.

سکونا فبري فیوج یعنیہ تپ بھگا
والیہ سکونا *

سکونا فبري فیوج کلاکتہ کے ہوائیکل گارٹن یعنی کمپنی باغ کے سپرنٹنڈنٹ صاحب سے ہر ایک ملازم سرکاری اور ایک مشیت چھہ پوند تک لیز والا ہر آدمی حسب نرخ ذیل خرید کرسکتا ہی — یعنی چار اونس والا ٹین بقیمت دو روپیہ آٹھہ آنہ ؛ آٹھہ اونس والا ٹین بقیمت پانچ روپیہ ؛ ایک پوند والا ٹین بقیمت دس روپیہ *

عام آدمیوں کو یہہ دوا ہوائیکل گارٹن یعنی کمپنی باغ کے سپرنٹنڈنٹ صاحب سے بقیمت نقد حسب نرخ ذیل مل سکتی ہی — یعنی چار اونس والا ٹین بقیمت تین روپیہ ؛ آٹھہ اونس والا ٹین بقیمت چھہ روپیہ ؛ ایک پوند والا ٹین بقیمت بارہ روپیہ *

یہہ دوا کلاکتہ کے بڑے بڑے ولایتی اور دیسی مراخانوں میں بھی بکتی ہی — ماسوا مذکورہ بالا کے محصل ذاک چار اونس والے ٹین کا چار آنہ ؛ آٹھہ اونس والے ٹین کا آٹھہ آنہ ؛ اور ایک پوند والے ٹین کا بارہ آنہ *

PURE SULPHATE OF QUININE.

*Manufactured at the Bengal Government
Cinchona Plantation.*

From 1st April, 1897, the price of this Quinine will be as follows:—

1-pound tin,	R15, or, post free, R15-12.
½ " "	R7-8, " R8.
¼ " "	R3-12, " R4-4.

Analysis shows this Quinine to be of the purest manufacture; and it is guaranteed to be free from wilful mixture with the inferior alkaloids, Cinchonine and Cinchonidine. It is for sale only to Government officers, and only for cash, and may be had from the Superintendent, Botanic Garden, Seepore, near Calcutta.

**বঙ্গদেশের গবর্ণমেন্টের সিন্‌কোনা আবাদে প্রস্তুত
বিশুদ্ধ কুইনাইন।**

১৮৯৭ সালের ১লা এপ্রেল হইতে এই কুইনাইনের বিলম্বিত হুলা
হইবে, যথা—

১ এক পৌণ্ড টিন .	১৫, বা ডাকমাওল বিলা ১৫৬০

১ পিকি " "	৩৬০ " ৪১০

পরীক্ষা করিয়া দেখা গিয়াছে যে এই কুইনাইন অতি বিশুদ্ধ রূপে
প্রস্তুত করা হইয়াছে, এবং ইহা যে সিন্‌কোনাইন ও সিন্‌কোনা-
মার্টন নামক অশুদ্ধতার সহিত ইচ্ছা পূরক বিশদ হয় নাই
তাহার গারান্টি দেওয়া বাইতেছে। ইহা নগদ হুলো কেবল গবর্ণমেন্টের
কম্পার্টমেন্টের নিকট বিক্রয় করা যাইবে, এবং কলিকাতার নিকটস্থ
শিবপুরে বাকশানির বাগানের স্থাপত্যিকেন্‌টের নিকট পাওয়া
যাইতে পারিবে।

**Catalogue of Books procurable from Thomason College
Book Depot, Roorkee.**

Application to be made to Curator.

CASH MUST ACCOMPANY ORDER. ARTICLES WILL BE SENT BY VALUE-PAYABLE POST TO PERSONS IN GOVERNMENT EMPLOYMENT ONLY.

It is advised that letters containing remittances be registered.

N.B.—The Revised Prices herein entered cover the cost of packing, postage, and other incidental charges (except commission for Value-payable supplies), and are for all purchasers other than resident College Students.

Drawing Instruments (electrum) are available at the College Book Depot at Rs2 per box. Drawing Instruments, drawing materials, etc., are also obtainable from the Roorkee Workshops, and application should be made to the Superintendent.

ROORKEE TREATISE ON CIVIL ENGINEERING IN INDIA.

Royal Octavo, with numerous Plates.

Volumes I and II are published in separate convenient sized Sections, as below, but can be bound up if required:—

VOLUME I.*

Section I.	Building Materials (1895),	R2-0.
" II.	Masonry (1891),	R1-4.
" III.	Carpentry (1889),	R1-4.
" IV.	Earthwork (1892),	R1-4.
" V.	Tools and Plant (never published).	

VOLUME II.*

Section VI.	Buildings (1891),	R1-4.
" VII.	Bridges (in the Press).	
" VIII.	Roads (in the Press).	
" IX.	Railways (1891),	R1-4.
" X.	Irrigation Works (1873),	R1-8.

Roorkee Treatise on Civil Engineering, Vol. II (1867 edition). R3.

* Date of Edition on sale.

ROORKEE MANUAL OF APPLIED MECHANICS.

- Vol. I. Direct and Transverse Strain, principally by Analytical Methods. R8.
II. The Stability of Structures, mostly by Graphic Methods (in the Press).

MANUALS.

- VII. **Surveying** (by Major Firebrace, R.E.) (6th edition), with Curve Table (in the Press).
XIII. **Drawing** (by Lieut. R. Pulford, R.E.)† R8.
XIIIa. **Drawing, First Principles of Geometrical** (by do.) (4th edition). R1-4.
XIV. **Simple Applied Mechanics** (2nd edition), Parts I and II in one. R3.
Simple Applied Mechanics, Part II (1st edition). 8a.
XV. **Examples of Estimating.** Comprising a progressive series of Estimates (with Plans of Buildings and Bridges, worked in detail). By P. Keay, Esq., and revised by C. C. Sullivan, Esq., Head Master (5th edition) (in the Press).
XVI. **Earthwork Estimating, with Practical Tables and Diagrams.** By Major A. M. Brandreth, R.E. 4a.
XVII. **Specimens of Printing used in the College Drawing Course and Entrance Examinations.** 6a.

Note.—The complete Treatise forms the course of the Engineer Class at the Thomason College in Civil Engineering, and the same, omitting Section X, is the course for the Upper Subordinate Class. The other Manuals are the complete course for both Classes in the several subjects of which they treat.

MISCELLANEOUS.**ENGINEERING WORKS.**

- Curve Tables, complete, for laying any curve. 4a.
Scantlings of Timber for Roofs. Tables and investigation of formulæ for determining size of timbers for Flat Roofs from 8 to 22 feet span, and for Trussed Roofs from 10 to 50 feet span (2nd edition). By P. Keay, Esq., Head Master. R1.
Useful Rules and Tables relating to Measurement of Timber. Rules for computing the cubic contents of Round Logs, as well as of Sawn Timbers, with Tables, etc. By Rai Kunhya Lal. R2-8.
O'Callaghan's Earthwork Tables for India, in one large sheet, 8a.; mounted on cloth and bound (in the Press). R1-12.
Tables for Computing Earthwork in Distributaries and small open Channels, in use in Irrigation Department, N.-W. Provinces. R1-4.
Tyndall's Hand-Book of Specifications. R5.
The Indian Engineer's Pocket Book. 4a.
Wooden Bridges and Designs. By Rai Kunhya Lal (in the Press).
Blasting under Water (2nd edition). 12a.
Waugh's Instructions for Topographical Surveying. R1-4.
Analysis of Lime and Cement Stones. By Murray Thomson, Esq., M.D., F.R.S.E. 0a.
Tables for Degree Curve and Intersection Angles, from 90° to 180°, and for Fixed Tangents from 100 feet to 7,500 feet. By F. G. Brook Fox, Esq., M.I.C.E. R2-4.
Graphic Hydraulic Diagram for Channels in earth, etc. By R. G. Kennedy, Esq., Executive Engineer. R7-8.
Chart, giving by a graphic method the discharges of earthen channels up to 40 feet bed width. R1-8.

MATHEMATICAL.

- Boileau's Tables of Wages and Rent, and of the value of goods. Tables for converting Seers and Chittacks into decimals of a Maund, and Annas and Pies into decimals of a Rupee. With a few others of general utility (4th edition). R1-8.
Boileau's Tables of Log sin² ½ P (for computing time). 4a.
Cape's Logarithms, with Tables of Squares, Cubes, etc. (in the Press).
Cape's Geometry. R1-4.
" Mechanics. R1.
Military Topography. 8a.

† Originally published at R15, reduced to R8.

HINDUSTANI.

- Elements of Hindustani Grammar (in the Press).
 Technical Dialogues—English and Urdu. **Rs. 1.**
 A Vocabulary of Common and Technical Words in English-Urdu. **Rs. 1.**
 History of India (*Itihās Timirnāsik*), Hindi, Parts I and II, each part **4a.**
 Short Account of Ganges Canal (English and Urdu). **8a.**

NOTE AND FIELD-BOOKS, etc.

- Note-Books (Section paper), large and small. Each **Rs. 1-4.**
 Surveying Field-Books (ruled). **Rs. 1.**
 Levelling Field-Books (English Pattern). **Rs. 1-8.**
 (Canal "). **Rs. 1-8.**
 (College "). **Rs. 2-0.**
 P. W. D. Note-Book. **Rs. 1-4.**
 " Measurement Book. **Rs. 1-4.**
 Circular Card-board Protractors, 12 inches (exclusive of packing). **Rs. 1-8.**

MISCELLANEOUS.

- Distributary Velocity and Discharge Table. By Capt. Allan Cunningham. **8a.**
 Description of Venomous Snakes. (The drawings of all the venomous snakes of Upper India, with description and all important information, extracted from the "Thanatophidia of India.") **Rs. 1-8.**
 Ditto ditto in Urdu. **Rs. 1-4.**
 Perspective (fully explained). By Col. A. M. Brandreth, R.E. **Rs. 1-12.**
 Map of Roorkee. **Rs. 1.**
 Thomason College Calendar for 1891, 1892, 1894,* and 1895,* each **Rs. 2.**
 Ditto ditto for 1896.* **Rs. 1-12.**
 Forms of Accounts, P. W. D., for Sub-Divisional Officers, in English (very old). **8a.**
 Memo. of Instructions for Road Project. **Rs. 1.**
 Project for College Mess (sample Project). **Rs. 1.**

 Central Provinces, }

* These include Question Papers for entrance to Engineer and Upper Subordinate Classes and Superior Accounts Branch, Public Works Department.

PROFESSIONAL PAPERS ON INDIAN ENGINEERING.

(FIRST SERIES.)

- Vol. I. (Quarterly Nos. 1 to 5), bound **Rs. 2**, original price **Rs. 18.**
 Quarterly Nos. 1, 2, 3, 4, and 5, at **Rs. 1** each, original price **Rs. 4** each.
 Vol. II, Quarterly Nos. 6 and 7, at **Rs. 1** each.
 " III, " No. 13, **Rs. 1.**
 " V, " Nos. 18, 19, 20, and 21, **Rs. 1** each.
 " VI, " Nos. 22, 23, 24, and 25, **Rs. 1** each.
 " VII, " Nos. 26, 27, 28, and 29, **Rs. 1** each.
 Extra No., April 1870, **Rs. 1.**

(SECOND SERIES.)

- Quarterly Numbers of Vols. I, II, VIII, IX, and XI of the Series at **Rs. 1** each
 Quarterly Number 41A of Vol. X, at **Rs. 1** each.
 Cloth covers for Volumes, 1st and 2nd Series, at **As. 8** each.

(THIRD SERIES.)

- Quarterly Numbers 5, 7, 8, 11, 12, 13, 14, and 15, at **Rs. 1** each.
 Index to Professional Papers and loose Papers, 1st and 2nd Series, at **2a.** each.

FERROTYPES PRINTING.

- Chemicals and Lithographic Paper for this process can be purchased from Thomason College Book Depot. Application to be made to the Curator.
 Apparatus for Printing can be made up at the Roorkee Workshops, and all particulars obtained from the Superintendent.

CIRCULARS.

Circulars containing the Rules of admission to the following classes of the College can be obtained on application to the Curator:—

- Engineer and Telegraph classes.
 Upper Subordinate Classes, 1st, 2nd, and 3rd Grades.
 Lower Subordinate Class.
 Mechanical Apprentice Class.
 Industrial Classes.

J. CLIBBORN, *Lieut.-Col., I.S.C.*,

Principal, Thomason College, Roorkee.

THE INDIAN LAW REPORTS.

PUBLISHED UNDER AUTHORITY.

The Indian Law Reports, published under the authority of the Governor-General in Council, appear in monthly parts, published as soon as possible after the first of each month, at Calcutta, Madras, Bombay, and Allahabad, and comprise four series,—one for the Calcutta High Court, a second for the Madras High Court, a third for the Bombay High Court, and a fourth for the Allahabad High Court. The cases heard by the Privy Council on appeal from each High Court are reported in the series for that High Court. Cases heard by the Privy Council on appeal from Provinces in India not subject to any High Court are reported in the Calcutta Series.

The Calcutta Series is distributed by the Bengal Secretariat Book Depot, and the Madras, Bombay, and Allahabad Series are distributed direct from Madras, Bombay, and Allahabad, respectively.

In supersession of the previous advertisements, on and from the 1st January, 1889, the terms of subscription and sale will be as follows for current issues, as well as for back numbers of the Reports from 1870:—

Terms of subscription payable annually in advance.

For the complete Series, including postage.		Rs 22-8	
		Without postage.	With postage.
		Rs a. p.	Rs a. p.
For the Calcutta Series		10 0 0	12 8 0
„ each of the Madras, Bombay, and Allahabad Series		6 0 0	7 0 0
„ a part of the Calcutta Series purchased separately, inclusive of postage in India			
„ a part of each of the Madras, Bombay, and Allahabad Series purchased separately, inclusive of postage in India		...	1 0 0

The following is the rate at which deductions will be made for parts out of print and at which duplicate copies will be supplied to subscribers when required in place of copies lost in transit :—

	For town.	For mofussil.
	R a. p.	R a. p.
For the Calcutta Series; per copy . . .	0 8 9	0 10 3
„ each of the Madras, Bombay, and Allahabad Series; per copy . . .	0 5 3	0 5 9
„ the Calcutta Series. For the year . . .	7 2 6	8 6 3
„ each of the Madras, Bombay, and Allahabad Series. For the year . . .	4 4 6	4 11 3

Persons desiring to subscribe for, or purchase, the Report should apply to—

Superintendent, Government Press, Madras.

The Superintendent, Government Central Press, Bombay.

The Curator of Government Books, North-Western Provinces and Oudh.

The Officer in charge, Bengal Secretariat Book Depot.

Orders and subscriptions for 1898 should be at once registered and remitted by money-order payable to the Accountant and Treasurer, Bengal Secretariat, Calcutta.

Advertisements will be received for publication on the wrappers of the Indian Law Reports, Calcutta Series, at the following rates, payable in advance :—

	One page.	Half page.	Quarter page.
For one issue	R 20	R 14	R 9
„ three issues	„ 55	„ 36	„ 24
	„ 100	„ 68	„ 45
„ nine „	„ 145	„ 95	„ 64
„ twelve „	„ 180	„ 120	„ 80

Several volumes of the BENGAL LAW REPORTS, from August 1868 to December 1875, and FULL BENCH RULINGS, Parts I and II, are available at the following rates :—

	Without postage.	With postage.
	R a. p.	R a. p.
Bengal Law Reports, for one year . . .	20 0 0	22 8 0
Single copies, Rs per copy.		
Full Bench Rulings, Parts I and II . . .	20 0 0	22 8 0

Bengal Secretariat Book Depot, Writers' Buildings, Calcutta.
Remittances to be forwarded to the Accountant and Treasurer, Bengal Secretariat, Writers' Buildings, Calcutta.

All the wanting parts of the INDIAN LAW REPORTS (complete series) having now been reprinted, the complete Reports from 1876 to 1893 may be purchased for all the years, or for any particular year, on application to the Officer in charge of the Bengal Secretariat Book Depot.

The subscription, Rs2-8 per annum, should be remitted in advance to the Accountant and Treasurer, Bengal Secretariat.

NOTICE.

It is hereby notified, for general information, that subscription to the complete series of the Indian Law Reports should be registered during the first three months of each calendar year. Subscribers are therefore requested to send in their subscriptions of the complete series before the 31st March in each year. Those who register their names after that date will understand that copies will be supplied only if available.

The Gazette of India.

PUBLISHED BY AUTHORITY.

CALCUTTA, SATURDAY, MAY 29, 1897.

Separate paging is given to this Part in order that it may be filed as a separate compilation.

PART III.

Advertisements and Notices by Private Individuals and Corporations.

PROMISSORY NOTES.

Lost.

The Government Promissory Notes, No. 011900, for Rs. 500, No. 011907, for Rs. 500, No. 011912, for Rs. 100, No. 011917, for Rs. 100, of the 3½ per cent. Loan of 1893-94, aggregating Rs. 1,200, which were passed for encashment by the Public Debt Office, Calcutta. The notes originally stood in the name of Durga Money Dabee and were endorsed to Manmatha Nath Mitra, Ram Charan Mitra, and Gopeynath Ghose, executors to the estate of the late Durga Money Dabee, the proprietors, by whom they were never endorsed to any other person. Payments of the above notes have been stopped at the Bank of Bengal.

RAM CHARAN MITRA.
MANMATHA NATH MITRA.
GOPEYNATH GHOSE.

Executors to the Estate of Durga Money Dabee.
23, Bechu Chatterji's Street, Calcutta.

Destroyed by fire.

The lower half of the Government Promissory Note, No. 8001945, of the 3½ per cent. loan of 1842-43, for Rs. 1,000, originally standing

in the name of Deepchund Nalchund, and last endorsed to Dinmahomed Asoodamull, the proprietor, by whom it was never endorsed to any other person. Payment of the above note and the interest thereupon have been stopped at the Public Debt Office, Bank of Bengal, and application is about to be made for the issue of duplicate in favour of the proprietor.

DINMAHOMED ASOODAMULL,
Shikarpur, Sind.

NOTICE.

A general meeting of the Hindu Bibaha Fund Company, Limited, Wozirpur, Bakergunge, will be held at the premises of Babu Kailash Chandra Guha, at 2 P.M., on the 18th of June, 1897, for the purpose of having the accounts, prepared by the liquidators, laid before the Company, and of hearing any explanations that may be given by the liquidators.

BRAJABASI TALUKDAR,
Liquidator.

WOZIRPUR,
The 13th May, 1897.

SUPPLEMENT TO

The Gazette of India.

No. 22.}

CALCUTTA, SATURDAY, MAY 29, 1897.

OFFICIAL PAPERS.

A SUPPLEMENT to the GAZETTE OF INDIA will be published from time to time, containing such Official Papers and information as the Government of India may deem to be of interest to the Public, and such as may usefully be made known. The Debates of the Legislative Council of His Excellency the Governor General will in future be published in PART VI of the GAZETTE.

Non-Subscribers to the GAZETTE may receive the SUPPLEMENT separately on a payment of five Rupees per annum if delivered in Calcutta, or eight Rupees if sent by Post. The SUPPLEMENT and PART VI of the GAZETTE can also be subscribed for separately on a payment of Rupees six per annum if delivered in Calcutta or Rupees nine if sent by Post.

No Official Orders or Notifications, the Publication of which in the GAZETTE OF INDIA is required by Law, or which it has been customary to publish in the CALCUTTA GAZETTE, will be included in the SUPPLEMENT. For such Orders and Notifications the body of the GAZETTE must be looked to.

Offg. Director-General of Statistics.

T. W. HOLDERNESS,

Deputy Secretary to the Government of India.

The Gazette of India.

PUBLISHED BY AUTHORITY.

No. 23. }

SIMLA, SATURDAY, JUNE 5, 1897.

Separate paging is given to this Part in order that it may be filed as a separate compilation

CONTENTS.

PART I.—Government of India Notifications, Appointments, Promotions, Leave of Absence, General Orders, Rules and Regulations.

PART II.—Notifications by High Court, Comptroller General, Administrator General, Paper Currency Department, Presidency Pay Master, Money Order Department, Mint Master, Secretary and Treasurer, Bank of Bengal, Superintendent of Government Printing and other Government Officers; Postal, Telegraph, and Commissariat Notices.

PART III.—Advertisements and Notices by Private individuals and Corporations.

PART IV.—Acts of the Governor General's Council assented to by the Governor General:—

Nothing for publication.

PART V.—Bills introduced in the Council of the Governor General of India for making Laws and Regulations, Reports of Select Committees presented to the Council and Bills published under Rule 22:—

Nothing for publication.

PART VI.—Abstract of the Proceedings of the Council of the Governor General of India assembled for the purpose of making Laws and Regulations:—

Nothing for publication.

SUPPLEMENT No. 23.

PART I.

Government of India Notifications, Appointments, Promotions, &c.

HOME DEPARTMENT.

NOTIFICATIONS.

ESTABLISHMENTS.

Simla, the 3rd June, 1897.

No. 466.—The services of Mr. E. Galbraith, of the Indian Civil Service, Magistrate and Collector of Farukhabad, are placed temporarily at the disposal of the Chief Commissioner of the Central Provinces.

MEDICAL.

The 31st May, 1897.

No. 557.—The furlough on medical certificate, out of India, granted to Surgeon-Captain J. Murray, M.B., I.M.S. (Bengal), Professor of Materia Medica and Pathology in the Lahore Medical College, in the Notification in this Department No. 3, dated the 4th January 1897, is extended by one month.

The 3rd June, 1897.

No. 561.—The services of the undermentioned officers are replaced at the disposal of the Military Department, with effect from the dates on which they respectively made over charge of their duties under the Government of the North-Western Provinces and Oudh:—

Surgeon-Captain J. Mulvany, I.M.S. (Bengal).

Surgeon-Captain E. H. Condon, M.B., A.M.S.

SANITARY.

The 3rd June, 1897.

No. 1642.—The following circular to Local Governments and Administrations relating to the Venice Sanitary Convention of the 19th March 1897 and a translation of the Convention are published for general information:—

Nos. 1623—1626, dated Simla, the 1st June, 1897.

From—J. P. HEWETT, Esq., C.I.E., Secretary to the Government of India, Home Department,

To—The Secretary to the Government of Bombay, General Department.

„ „ „ „ „ Madras, Local and Municipal Department.

„ „ „ „ „ Bengal, Marine Department.

„ Chief „ „ „ „ Burma.

I am directed to forward, for the information of the Government of
 Bombay
Madras
Bengal
Burma, a copy of a translation of the Convention framed at the Sanitary Conference recently held at Venice for the purpose of considering measures to prevent the spread of the plague.

2. The regulations prescribed by the present Convention are based on the conclusions of the Sanitary Conferences of Venice, 1892; Dresden, 1893; and Paris, 1894; these conclusions have been modified to meet the special peculiarities of the plague, and in accordance with modern scientific views regarding sanitary precautions for the prevention of the spread of epidemic disease.

3. The following are the most important points in which the present Convention differs from the previous Conventions on which it is based:

(i) The fact that the period of incubation in the case of plague may be considerably longer than in the case of cholera has led to several important modifications. By the Venice Conference of 1892 the period of incubation for cholera was fixed at five days. Proposals have been made to fix the period of incubation for plague as high as fifteen days, but the period which has been adopted by the Conference for the purpose of the plague regulations, is ten days.

(ii) The list of articles of commerce which may be considered "susceptible" has been considerably increased; but it has been left to the option of the Governments concerned to allow or prohibit the importation of the commodities, on the "susceptible" list, no article being subject to absolute prohibition.

(iii) It provides that the modern principles of disinfection should be substituted for the obsolete system of land quarantine, but, with a view to the protection of countries which may find it difficult to thus protect their borders, each of the Governments who are parties to the Convention is at liberty to close its frontiers to travellers and merchandise.

(iv) It embodies the provisions of the Paris Convention on the subject of the regulation of the pilgrim traffic, but in several respects those provisions have been altered in the directions for which the Government of India have contended. A separate communication will be sent on this subject.

4. The first chapter of the Convention deals with the measures for the prevention of plague which are to be adopted outside Europe. In the first place, it is laid down that the Governments who adhere to the Convention are to notify to other Governments the existence of plague within their several jurisdictions, and must communicate to them a statement of the measures of prevention that are being carried out to prevent its diffusion. This requirement as to notification is, however, subject to certain important conditions. Thus the area to be deemed infected is strictly limited to the actual district, town, village, etc., where the disease prevails; and no locality is to be deemed infected merely on account of the importation into it of a few cases of plague which have led to no diffusion of the malady.

5. The Regulations next deal with the measures to be taken on the departure of vessels from infected ports. It is laid down that every person sailing on the vessel must be examined on shore immediately before embarkation by a medical officer appointed by the Government and that the Consular authority interested in the ship may be present at the inspection. All infected and suspected articles must be subjected to careful disinfection on shore and in the presence of the Government medical officer in accordance with the rules for disinfection prescribed in Chapter III of the Annexure to the Convention and no persons showing symptoms of plague may be permitted to embark.

Rules have been issued by the Governments of Bombay, Madras and Bengal under the Epidemic Diseases Act, 1857, which have been in force for some time, prescribing precautions to be taken on the departure of vessels. The rules framed by the Government of Bombay, which are in force at the ports of Bombay and Karachi, prescribe medical inspection and the removal from the vessel of any person suspected to be suffering from dangerous epidemic disease. The rules framed by the Government of Madras, which are in force at the principal ports of the Presidency, authorize the grant of a bill-of-health after medical inspection, the removal of any person suspected to be suffering from plague or not to be free from plague infection, and the disinfection of the infected portions of the ship. The rules framed by the Government of Bengal, which are in force at the port of Calcutta, prescribe medical inspection, the removal of persons suffering or suspected to be suffering from plague, and the detention of the vessel from which such persons have been removed for a period of seven days, after the lapse of which the vessel may proceed if no fresh case has occurred.

In order that the obligations imposed by the Convention may be fulfilled at an infected port it is essential that the medical inspection and disinfection should be conducted exactly in the manner prescribed by the regulations and summarized above. The Government of India consider that it is also desirable that all non-professional attendants and relatives of any persons, who on examination appear to be suffering from plague, shall be prevented from embarking. If after the medical examination has been completed and all the passengers and crew are on board, a case of plague occurs, the patient and his non-professional attendants and relations must be landed and isolated on the first opportunity. The ship will then become an infected vessel within the definition given below in paragraph 7. Although the ports of Madras and Calcutta are not infected the Local Governments have, with the approval of the Government of India, made the special rules for medical inspection referred to above, and, in the opinion of the Governor General in Council, it is desirable that they should be assimilated, in the case of vessels sailing for ports out of India, as far as possible to those which will, under the terms of the Convention, have to be adopted at the infected ports of the Bombay Presidency.

I am to request that the rules issued by the Government of ^{Bombay}~~Madras~~^{Bengal} may be altered in accordance with these instructions. [The rules should be made applicable to all infected ports in the Bombay Presidency.] To Bombay only.

6. The rules regarding pilgrim-ships which form the next portion of the Regulations will, as stated in paragraph 3 above, be dealt with in a separate communication.

7. The regulations for the control of the general traffic in the Red Sea and the Suez Canal are based on the threefold classification of ships into healthy, suspected and infected adopted in the Venice Convention of 1892, with the modifications rendered necessary owing to the period of incubation in the case of plague having been fixed at ten days.

Healthy vessels are those which have left an infected port for ten days or more and have had no case of plague on board; suspected vessels are those on which, though cases of plague have occurred, no fresh case has occurred within twelve days; and infected vessels are those on which plague has been present within twelve days of arrival.

The period of twelve days is arrived at, as in the case of the seven days' period in the Convention of 1892, by adding two days to the period of incubation.

A healthy vessel thus becomes entitled to free pratique at a port at which it arrives ten days or more after leaving an infected port, but the adoption of this period has the serious result that fast vessels sailing from Bombay will arrive at the Suez Canal before pratique can be granted. This difficulty has been satisfactorily overcome by permitting healthy vessels to pass through the Canal

in quarantine, and to complete in the Mediterranean the ten days necessary to receiving free pratique at a port of arrival. Vessels passing through the Canal in quarantine may, subject to the use of electric light, coal in quarantine at Port Said by night as well as by day, and passengers may embark in quarantine at that port.

The rules for infected and suspected ships follow those of the Venice Convention of 1892. Vessels carrying a doctor and a disinfecting stove are allowed to pass through the Canal in quarantine after, in the case of infected vessels, landing those suffering from plague and persons who have been in actual contact with the sick or with infected articles and after disinfection of the infected compartment of the vessel. Vessels without a doctor and disinfecting stove are detained at Moses' Wells. Such vessels if suspected are detained for the period required for disinfection and for ascertaining the condition of the ship's health, while, if infected, the passengers are detained on shore under observation for a maximum period of ten days. The Medical and Sanitary staff at Moses' Wells is to be increased for the purpose of carrying out these regulations.

8. The last matter to notice in the chapter of the Regulations dealing with the measures to be adopted against the plague outside Europe is that of the measures to be taken in the Persian Gulf. The conclusions of the Conference on this question differ greatly from those embodied in the Paris Convention. Healthy vessels reaching Ormuz before the expiration of ten days since they last touched at a port infected with plague must either complete that period at Ormuz or may, after medical inspection, continue their voyage up the Gulf or the Shatt-ul-Arab, provided they do so in quarantine for such term as is required to complete the ten days. The same provision will apply to suspected vessels, that is, vessels on which there has been a case of plague, but no fresh case for twelve days, subject to submission to certain processes of disinfection, etc., at Ormuz; and infected vessels will, after landing their sick, together with those persons who have been in actual contact with them, and after disinfection of that part of the vessel deemed to be infected, likewise have permission to proceed on their voyage in quarantine. The final arrangements as to the sanitary station at Ormuz are to be a matter of agreement between the Turkish and Persian Governments, and until these arrangements are completed a temporary sanitary station will be established on one of the islands in the Straits of Ormuz.

9. The second chapter of the Regulation deals with the measures to be adopted by the European Governments who have assented to the terms of the Convention. The provisions relating to notification have been mentioned in paragraph 4 above. Allusion has also been made in paragraph 3 to the regulations regarding the importation of merchandise.

This matter requires some further notice. The following are the commodities which are classed as susceptible and the import of which may be prohibited:

- (1) Used body linen, clothes, bedding and other personal effects.
- (2) Rags, including rags compressed by hydraulic pressure and transported in bales as merchandise.
- (3) Used sacking, carpets, and old embroidery.
- (4) Green and untanned hides and skins.
- (5) Animal refuse, claws, hoofs, horsehair, hair of animals generally, raw silk and wool.
- (6) Human hair.

The prohibition of import is only to be enforced at the option of the Government concerned. The only articles which must of necessity be subjected on arrival to any precautionary measures, such as disinfection, are clothing, bedding and similar articles, which have been actually worn or used, and which are carried as ordinary luggage, if they have been brought from an infected area and are considered by the local sanitary authority to be contaminated. The Government of India do not consider it necessary to add to the list of articles, the import of which by sea from infected ports into other ports in British India is prohibited in Home Department Notification No. 513, dated the 17th February 1897, and the bringing of which from the Bombay Presidency and Sind into other parts of British India is prohibited in Home Department Notification No. 1033, dated the 22nd March 1897. This remark applies only to the import of articles from the Bombay Presidency and Sind for use in other parts of India. In reciting the obligation imposed on the countries which are parties to the Convention to confine their precautionary measures to goods coming from the infected local area, it is stated in Chapter II, Section III of the Regulations, that this obligation only

exists on the express understanding that the Government of the infected country takes the necessary measures to prevent the exportation of susceptible articles derived from the infected area. In other words a Foreign Government would be at liberty to decline to receive articles classed as susceptible coming from a clean port unless measures are taken in India to prevent the exportation from that port of susceptible articles coming from the infected area. The orders contained in the Home Department notifications of February and March last alluded to above only partly fulfil this condition since they only refer to used apparel and bedding, rags, waste paper and used gunny bags. All Foreign Governments have not, however, availed themselves of the option of prohibiting the import of all the articles classed as susceptible even from Bombay itself, and the decree of the French Government of the 16th April 1897, which was published in the *Gazette of India* of the 22nd instant under Home Department Notification No. 1545, dated the 21st instant, and is based on the Venice Convention of 1897, only prescribes prohibitory and precautionary measures against goods derived from the infected area. The decree only forbids the importation into France and Algeria of rags, animal refuse, claws and hoofs coming directly or indirectly from the infected local area. Raw and manufactured wool is admitted after disinfection, and this restriction is only imposed when the commodity comes directly from the infected area. Used and new linen, wearing apparel, personal effects and bedding and raw hides, coming directly or indirectly from the infected area, are admitted after disinfection. The decree further provides that any vessel coming from an infected area, *or having on board any of the articles coming within the description given above* may only enter certain specified ports. In these circumstances and in view of the optional nature of this part of the regulations, the Government of India do not propose at present to issue orders in addition to the orders of February and March last, with the view of prohibiting the exportation from clean ports of articles included in the "susceptible" list and coming from the Bombay Presidency and Sind. But if the Governments of Madras, Bengal and Burma, after consulting the Mercantile Community, consider that prohibitive orders should issue with regard to all or any of the susceptible articles for the protection of clean ports, the Government of India will be prepared to consider proposals with this object.

It is to be remarked that new gunny-bags are not in the list of articles classed as susceptible by the Conference.

10. The portion of Chapter II which relates to traffic by sea and the measures to be adopted at ports of arrival is of great interest, not only because of its direct bearing on the conditions of intercourse between India and Europe, but also because it contains the conclusions of the Conference on the important subject of the quarantine of vessels.

The threefold division of vessels, referred to above, is maintained in this chapter. The regulations respecting infected vessels, are that the sick are to be landed and isolated, and the remainder of those on board to be subjected, at the discretion of the local authority, either to "observation" or to "surveillance" for a period which is not to exceed ten days from the occurrence of the last case of plague. The term "observation" means the detention under observation of the person either on board a ship or in a place of segregation on shore. Persons subjected to "surveillance" are not to be isolated, but are to be allowed to proceed at once to their destination where they are to remain under medical supervision. In the case of an infected ship the dirty linen and other effects of the passengers and crew which the local Sanitary authorities may consider likely to be contaminated, must be disinfected. So also must the parts of the ship where the sick have resided, and the local authorities may require a more extensive disinfection to be carried out. Lastly the bilge-water must be thrown out after disinfection and fresh drinking-water supplied.

In the case of suspected vessels a medical inspection and the same process of disinfection, discharge of bilge-water and supply of fresh drinking water is prescribed. It is further recommended that the crew and passengers should be subjected to "surveillance" for a period of ten days from the date of arrival of the vessel. Pratique is to be given at once to healthy vessels, but it is also provided that, at the option of the local authority, the precautionary measures enforced in the case of suspected ships, except the disinfection of the vessel, may be required; and it is also recommended that the passengers and crew should be subject to "surveillance" for a period sufficient to complete a term of ten days from the date of departure of the vessel from the infected port.

11. The quarantine rules made by the Governments of Madras, Bengal and Burma under the powers conferred by section 1, Act I of 1870, with the previous sanction of the Governor General in Council to protect their ports from being regarded by the European powers as infected, prescribe fifteen

days' quarantine for all vessels in which a case of plague is found on arrival, or on which it is believed that a case has occurred during the voyage, with this exception that the rules for Calcutta apparently prescribe only eight days' quarantine in the latter case. In the Bombay Presidency all the principal ports are infected and the Government of Bombay have issued special rules regarding inspection, segregation and disinfection at these ports. Under the rules of the other Maritime Governments no communication may be held with other boats or vessels or with the shore whilst the vessel remains in quarantine, but the Health Officer may direct the removal of so many of the passengers and crew as may not be suffering from illness, and whose services may not be required on board, to places of segregation on shore where they are required to complete the period of quarantine. If a case of plague occurs whilst the quarantine is in progress, quarantine recommences for a further period of fifteen days.

The period of fifteen days' quarantine was fixed in view of the possibility that some of the Governments in Europe might not regard quarantine as effective if it were prescribed for a shorter period, but now that the Conference has authoritatively pronounced that the period of incubation may be taken at ten days, the period of observation should be reduced from fifteen to ten days. The quarantine rules in the case of vessels on which there is a case of plague at the time of arrival, or on which it is believed that a plague case has occurred during the voyage, should also be modified in accordance with the regulations framed by the Conference for infected vessels. The Government of Madras have already revised their rules in a similar direction. The Governor General in Council lays special stress upon the undesirability of detaining the sick and healthy on board-ship together. The sick should be landed and treated in an isolation hospital, and the healthy should be landed and detained under observation in suitable segregation shelter for a period of ten days from the occurrence of the last case. The disinfection and other precautionary measures prescribed by the Conference should also be complied with.

12. The quarantine rules framed by the Maritime Governments differ somewhat from one another as regards the treatment of vessels on which no case of plague has occurred during the voyage. Their general purport is to the effect that eight days' quarantine may be imposed at the absolute or limited discretion of the Health Officer unless pratique has been granted at Colombo or some other intermediate port.

The maximum period of detention of a vessel on which the Health Officer is satisfied that no case of plague has occurred should be ten days from the date of departure from the infected port. If the Health Officer is not satisfied that there has really been no case on board or if ten days have not elapsed since the date of departure from the infected port, the vessel may be detained, at his discretion, up to this period. In any case in which a vessel is given free pratique less than ten days after her departure from the infected port the Health Officer should be empowered, on the analogy of the rules for the observation of persons travelling by railway which have been framed by several of the Local Governments, to detain under observation in a suitable place of segregation, up to a maximum of ten days from the date of the departure of the vessel, any person landed from the ship whom he may consider to be in any way likely to carry infection. Any articles of clothing or other effects belonging to the persons detained or to other persons which by reason of their dirty condition or otherwise may be considered likely to be contaminated, should be disinfected. Discretion may be given to the Health Officer to apply the other provisions regarding disinfection, etc., prescribed by the Convention in the case of suspected ships. The Local Government may also make such arrangements as are possible for the surveillance of persons who are not detained, on arrival at their destination. Free pratique granted at Colombo or other intermediate port should be recognized.

I am to request that, with the permission of ^{the Governor in Council} the quarantine rules in force in ^{the Bombay Presidency} ^{the Madras Presidency} ^{Bengal} ^{Burma} may be modified in accordance with

the above remarks, and that a copy of the revised rules may be forwarded to this Department for insertion in the Government of India Gazette.

13. The Government of Bombay have at present under consideration the revision of the rules for the Port of Aden. In making this revision the conclusions of the conference should be borne in mind. In view of the position of Aden as the port of call for Europe the existing rule which refuses pratique to all vessels until ten days from the date of their departure should be maintained.

14. The remainder of the Convention does "

CONVENTION.

HER MAJESTY THE QUEEN OF GREAT BRITAIN AND IRELAND, EMPRESS OF INDIA; HIS MAJESTY THE KING OF SPAIN, AND, IN HIS NAME, HER MAJESTY THE QUEEN REGENT; HIS MAJESTY THE EMPEROR OF GERMANY, KING OF PRUSSIA, ON BEHALF OF THE GERMAN EMPIRE; HIS MAJESTY THE EMPEROR OF AUSTRIA, KING OF BOHEMIA, ETC., ETC., AND APOSTOLIC KING OF HUNGARY; HIS MAJESTY THE KING OF BELGIUM; THE PRESIDENT OF THE FRENCH REPUBLIC; HIS MAJESTY THE KING OF GREECE; HIS MAJESTY THE KING OF ITALY; HIS ROYAL HIGHNESS THE GRAND DUKE OF LUXEMBOURG; HIS HIGHNESS THE PRINCE OF MONTENEGRO; HIS MAJESTY THE SULTAN OF TURKEY; HER MAJESTY THE QUEEN OF THE NETHERLANDS, AND, IN HER NAME, HER MAJESTY THE QUEEN REGENT; HIS MAJESTY THE SHAH OF PERSIA; HIS MAJESTY THE KING OF PORTUGAL AND ALGARVA; HIS MAJESTY THE KING OF ROUMANIA; HIS MAJESTY THE EMPEROR OF RUSSIA; HIS MAJESTY THE KING OF SERVIA; THE FEDERAL COUNCIL OF SWITZERLAND,

Having decided to concert measures for the prevention of the introduction and spread of the Plague, and for the necessary sanitary supervision of the Red Sea and Persian Gulf traffic, have nominated their plenipotentiaries, as follows:—

[Here follow the names of the plenipotentiaries nominated by the several Governments.]

These plenipotentiaries, having exchanged their full powers, and found them in due and proper form, are agreed on the following regulations with regard to districts infected with plague, and with regard to arrivals from those districts:—

1. The measures described in the General Sanitary Regulations for the prevention of the introduction and spread of the plague, annexed to the present Convention, are adopted and have the same force as if they were embodied in it.

2. The proper authorities in Morocco will be requested to apply, to the ports of that country, measures in conformity with those prescribed in the above mentioned rules.

3. Those countries which have not taken part in the Conference, or which have not signed the Convention, may, on demand, be permitted to become parties to it.

The fact will be notified, through diplomatic channels, to the Italian Government, and by the latter to the other Governments who are parties to the Convention.

4. The present Convention will remain in force for five years, dating from the exchange of ratifications.

It will be renewed every five years, by tacit consent, unless one of the high contracting parties notifies, six months before the expiration of the aforesaid period of five years, its intention to withdraw from it.

In the event of one of the powers withdrawing from the Convention, this withdrawal will only effect that power.

5. The high contracting parties reserve to themselves the right of suggesting, through diplomatic channels, any modifications which they may deem necessary in the Convention or its annexures.

The Convention will be ratified; the ratifications will be deposited at Rome, as soon as possible, and, at the latest, within one year from the date of signature.

In witness whereof the respective plenipotentiaries have signed and sealed the Convention.

Executed at Venice, in eighteen parts, on the 19th March 1897.

Here follow the signatures.]

GENERAL RULES FOR THE PREVENTION OF THE INTRODUCTION AND SPREAD OF THE PLAGUE.

CHAPTER I.

MEASURES TO BE TAKEN OUT OF EUROPE.

I.

NOTIFICATION.

The Government of each country which adheres to the present Convention will notify to the Governments of the other countries, by telegram, the appearance of any case of plague in their territories in accordance with section I, Chapter II, "Measures to be taken in Europe." Sections 2, 3 and 4 of the same Chapter are also applicable out of Europe.

It is also desirable that the measures prescribed for countries in Europe in order to keep the signatories of the Convention informed of an outbreak of the plague, and also the means adopted to prevent its propagation, and importation into uninfected countries, should be applied in other countries.

II.

SANITARY MEASURES FOR SHIPS SAILING FROM INFECTED PORTS.

MEASURES APPLICABLE BOTH TO ORDINARY VESSELS AND TO PILGRIM SHIPS.

1. Compulsory individual medical inspection, by day, on shore, at the time of embarkation, during such period as may be necessary, by a doctor appointed by public authority, of each person sailing on the ship.

The Consular authority interested in the ship may be present at this inspection.

2. Compulsory and rigorous disinfection, on shore, under the superintendence of a doctor appointed by public authority, of every contaminated or suspected article in the manner prescribed in paragraph 5, Chapter III of the annexure to this Convention.

3. Prevention of the embarkation of any person showing symptoms of plague.

PILGRIM SHIPS.

1. When there is plague in the port, embarkation on board pilgrim ships must not take place, until the pilgrims collected in groups have been subjected to an inspection sufficient to ascertain that none of them are suffering from plague.

It is to be understood that in carrying out this measure each Government may take into account local considerations and conditions *

2. Pilgrims must possess the means absolutely necessary for the accomplishment of the pilgrimage, for the voyage out and for the return voyage and for the sojourn in the holy places, if local circumstances permit of this rule being enforced.

MEASURES TO BE TAKEN ON BOARD PILGRIM SHIPS.

SECTION I.—*General Rules.*

Art. 1.—The following regulations are applicable to pilgrim ships which carry Muhammadan pilgrims to or from the Hedjaz or the Persian Gulf.

* The Conference has decided, for instance, that, in the Dutch Indies, this inspection may be made on board ship at the time of departure.

Art. 2.—A ship is not to be considered a pilgrim ship although, in addition to her ordinary passengers, among whom may be included pilgrims of the upper classes, she carries pilgrims of the lowest class in a less proportion than one pilgrim per 100 tons gross.

Art. 3.—Every pilgrim ship, on entering the Red Sea and the Persian Gulf, must conform to the instructions contained in the *Rules specially prescribed for the pilgrimage to the Hedjaz* which will be published by the Constantinople Board of Health, in accordance with the principles laid down in the present Convention.

Art. 4.—Steamers only are permitted to carry pilgrims on long voyages. The carriage of pilgrims by other ships on such voyages is prohibited.

Pilgrim ships, on coasting service, intended for short passages, called "coasting voyages," must obey the instructions contained in the special Rules mentioned in article 3.

SECTION II.—*Measures to be taken before departure.*

Art. 5.—The captain, or in default the proprietor or agent of every pilgrim ship, is bound to declare to the appointed authority⁽¹⁾ of the port of departure his intention to embark pilgrims, at least 3 days before departure. This declaration must state the proposed date of departure and the destination of the vessel.

Art. 6.—On receipt of this declaration, the appointed authority will proceed, at the expense of the captain, to inspect and measure the vessel. The Consular authority interested in the ship may be present at this inspection.

The inspection need not be performed if the captain is already furnished with an official certificate of measurement, unless it is believed that this document no longer corresponds to the actual state of the vessel.

Art. 7.—The appointed authority must not permit the departure of a pilgrim ship until he has satisfied himself :—

(a) That the ship has been thoroughly cleaned and, if necessary, disinfected.

(b) That the ship is in a condition to undertake the voyage without danger, that she is properly manned, equipped and ventilated, and provided with a sufficient number of boats; that there is on board nothing that is, or is likely to become, injurious to the health or safety of the passengers, and that the upper and lower decks are of wood, or of iron sheathed in wood.

(c) That there is on board, properly stowed away, over and above the rations for the crew, sufficient food and fuel for all the pilgrims, during the declared duration of the voyage.

(d) That the drinking water is of good quality and from a source protected from contamination; that it is in sufficient quantity; that the tanks for drinking water are safe from all contamination and so closed that the distribution of water can only be made by taps or pumps.

(e) That the vessel carries a condenser, capable of distilling a minimum quantity of 1 gallon of water, per diem, for every person on board, including the crew.

(f) That the ship possesses a disinfecting stove, certified to be safe and efficacious.

(g) That, in accordance with the rules laid down in articles 11 and 23, the vessel carries a diplomaed and licensed doctor,⁽²⁾ appointed either by the Government of the country to which she belongs, or by the Government of the port where the pilgrims embark, and that she carries medical stores.

(1) The appointed authority is: in British India, an officer appointed on this behalf by the Local Government (Native Passenger Ships Act, 1887, article 7); in the Dutch Indies, the captain of the port; in Turkey the sanitary authority; in Austro-Hungary the port officer; in Italy the captain of the port; in France, Tunis and Spain, the sanitary authority; in Egypt the sanitary, quarantine, etc., authority.

(2) Except in the case of Governments without licensed doctors.

(h) That the deck is free from merchandise and all encumbrances.

(i) That the arrangements on board are such as to allow of the measures prescribed in section III being carried out.

Art. 8.—The captain will cause notices, in the languages commonly spoken by the pilgrims, to be posted up in a conspicuous place, accessible to all concerned, showing :—

1. The destination of the ship.
2. The daily ration of food and water allowed to each pilgrim.
3. The price of articles not included in the daily ration, which can be procured on extra payment.

Art. 9.—The captain must not start without having in his possession :—

1. A list, countersigned by the appointed authority, showing the name, sex, and total number of pilgrims he is authorized to carry.
2. A Bill of Health, stating the name, nationality and tonnage of the ship, the name of the captain and of the doctor, the exact number of persons embarked—crew, pilgrims and other passengers—the nature of the cargo and the port of departure.

The appointed authority will note on the certificate whether or not the authorized number of pilgrims has been embarked, and, in the latter case, the additional number of passengers the vessel is authorized to embark at subsequent ports of call.

Art. 10.—The appointed authority will take stringent measures to prevent the embarkation of any suspicious person or article ⁽¹⁾, in accordance with the rules laid down for precautions to be taken in ports.

SECTION III.—*Precautions to be taken on the voyage.*

Art. 11.—Every ship embarking pilgrims should have on board a licensed doctor, appointed by the Government of the country to which the ship belongs, or by the Government of the port, where the pilgrims are embarked. A second doctor should be carried when the number of pilgrims exceeds 1,000.

Art. 12.—The doctor must inspect the pilgrims, tend the sick, and see that sanitary rules are observed on board.

He must, in particular :—

1. Satisfy himself that the rations issued to the pilgrims are of good quality, and of the quantity agreed on, and that they are properly cooked.
2. Satisfy himself that the rules in article 20, regarding the distribution of water, are observed.
3. If not satisfied as to the quality of the drinking water, call the attention of the captain, in writing, to the rules in article 21.
4. Satisfy himself that the vessel is always kept clean, and particularly that the latrines are cleaned out, in accordance with the directions in article 18.
5. Satisfy himself that the pilgrims' quarters are kept healthy, and, in case of the occurrence of infectious disease, that disinfection is carried out in the manner prescribed in article 19.
6. Keep a diary of all sanitary matters during the voyage and submit this diary to the appointed authority at the port of arrival.

Art. 13.—The vessel must be capable of accommodating the pilgrims in the between decks.

Over and above the space required for the crew, the ship must contain at least *sixteen superficial feet and a height between decks of at least six feet* of space available for each person irrespective of age. In coasting vessels, each pilgrim must be allowed a space at least *six and a half feet wide* along the gunwales.

Art. 14.—During the voyage the deck must be kept free from encumbrances; it must be reserved, night and day, for the passengers, and placed, without charge, at their disposal.

⁽¹⁾ See Chapter IV, section 1, articles 1 and 2 of this Convention.

Art. 15.—The heavy baggage of the pilgrims must be registered, numbered and placed in the hold. Pilgrims may only keep with them such articles as are absolutely necessary.

The nature, quantity and dimensions of such articles will be decided by each Government for its own ships.

Art. 16.—The between decks must be carefully washed and rubbed with dry sand, mixed with disinfectants, every day while the pilgrims are on deck.

Art. 17.—On each side of the ship, on deck, a place should be set apart, screened from view and provided with a hand-pump, to supply sea-water, for the use of the pilgrims. One such place should be exclusively reserved for women.

Art. 18.—The ship must be provided, in addition to the latrines for the crew, with water-closets in a minimum proportion of one per hundred passengers. Some latrines must be reserved for women.

No closets must be allowed between decks or in the hold. The latrines allotted to the passengers, as well as those of the crew, must be kept clean, and should be flushed and disinfected three times a day.

Art. 19.—The ship must be disinfected in accordance with the instructions in paragraphs 5 and 6 of Chapter III of the annexure to this Convention.

Art. 20.—At least 1 gallon of drinking water must be issued daily to each pilgrim, irrespective of age, free of charge.

Art. 21.—If there is any doubt as to the quality of the drinking water, or as to the possibility of its pollution either at its source or during the voyage, it must be boiled or otherwise sterilized, and the captain is responsible for seeing that it is thrown overboard, at the first port of call, where it is possible to procure a purer supply.

Art. 22.—The ship must have two cabooses or cooking ranges provided for the use of the pilgrims. The pilgrims should be forbidden to light fires elsewhere, especially on the deck.

Art. 23.—Each ship must carry such medicines and medical stores as are necessary for the treatment of the sick. The rules drawn up for pilgrim ships by each Government will determine the nature and quantity of such stores. Attendance and medicines must be provided for the pilgrims free of charge.

Art. 24.—A hospital properly fitted up, and constructed with due attention to health and safety, must be reserved for the accommodation of the sick. It should be capable of accommodating at least 5 per cent. of the pilgrims on board, and should provide for each patient a space of 32 square feet. ⁽¹⁾

⁽¹⁾ The Conference having learned the nature of the hospital accommodation which must be provided, in accordance with rule 53 of the rules framed under the Pilgrim Ships Act by the Government of India, recommends their adoption in substitution for Article 24.

Extract—

The hospital accommodation shall be provided on the upper deck either in the poop or in a deck-house. A permanent hospital shall be provided containing not less than six bunks, and having a deck area of at least 144 superficial feet and dimensions of not less than 864 cubic feet. On every pilgrim ship on which there are 50 or more female pilgrims, there shall be a separate permanent hospital, containing not less than two bunks with a deck area of at least 72 superficial feet and dimensions of not less than 288 cubic feet, which shall be reserved for the use of women and children under 12 years of age. The hospitals shall be lighted and ventilated to the satisfaction of the Inspector and shall be provided with permanent raised floors or platforms at least 4 inches off the deck. They shall be made as secure as any other deck-house, and the roof shall be well caulked and covered with painted canvas. No case of small-pox, cholera, yellow fever or plague shall on any account be treated in a permanent hospital.

Materials shall be carried for the construction on the upper deck of a separate temporary hospital for the treatment of such cases of sickness as it may be considered desirable specially to segregate (such as small-pox, cholera, yellow fever or plague). The part of the upper deck upon which such hospital shall, if required, be erected shall be pointed out by the Inspector. It shall be constructed on the same principles as the permanent hospital, and the superficial area of the floor shall not be less than 144 square feet.

Art. 25.—The ship must be provided with the means of segregating persons attacked by plague.

The persons charged with the care of plague patients may alone have access to them, and the sick must not be brought into contact with the other passengers.

All bedding, carpets and clothes which have been in contact with the sick should be immediately disinfected.

The observance of this rule is specially enjoined in the case of the clothes of persons attending the sick, which may have been contaminated.

Those of the above mentioned articles which are not valuable should be thrown overboard, if the ship is not in harbour or in a canal, or else burnt.

Other articles should be carried to the stove in impermeable bags, washed in a solution of corrosive sublimate.

The excreta of patients must be received in vessels containing a disinfecting solution. These vessels should be emptied into the latrines, which must be rigorously disinfected each time.

The patients' quarters must be rigorously disinfected.

The disinfection must be carried out in accordance with para. 5, Chapter III, of this Convention.

Art. 26.—In the event of a death occurring during the voyage, the captain must enter the fact opposite the name of the deceased, on the list countersigned by the appointed authority at the port of departure, and must also enter in the log the name of the deceased, age, place of residence, supposed cause of death according to the medical certificate, and date of death.

In the event of a death from infectious disease, the corpse, wrapped in a shroud, impregnated with a solution of corrosive sublimate, must be thrown into the sea.

Art. 27.—The Bill of Health given at the port of departure must not be altered during the voyage.

It must be countersigned at each port of call by the sanitary authorities, who should enter:—

1. The number of passengers disembarked or embarked at the port.
2. Anything that has happened at sea affecting the life or health of the passengers.
3. The state of the health of the port of call.

Art. 28.—At each port of call, the captain must cause the list drawn up in accordance with Article 9 to be countersigned by the appointed authority.

In the event of a pilgrim disembarking during the voyage, the captain must note the fact on the list, opposite the pilgrim's name.

In the case of persons embarking, their names must be entered on the list in accordance with Article 9. This must be done previously to the list being countersigned by the appointed authority.

Art. 29.—The captain must see that all sanitary preventive measures taken during the voyage are entered in the log. This document is to be submitted by him to the appointed authority at the port of arrival.

Art. 30.—The captain must pay all sanitary charges, which should be included in the price of the tickets.

SECTION IV.—*Penalties.*

Art. 31.—Any captain convicted of a breach of his contract for the supply of water, food or fuel, will be liable to a fine of 2 pounds Turkish.⁽¹⁾ This fine will be paid to the pilgrim who has suffered from the breach of contract on proof that he demanded its fulfilment without effect.

(1) A Turkish pound is of the value of 22½ francs.

Art. 32.—Any infraction of Article 8 is punishable by a fine of 30 pounds Turkish.

Art. 33.—Any captain, who commits, or knowingly allows to be committed, any fraud with respect to the list of pilgrims, or of the Bill of Health prescribed in Article 9, is liable to a fine of 50 pounds Turkish.

Art. 34.—Any captain arriving without a Bill of Health from the port of departure, or without its being countersigned at the ports of call, or being unprovided with the prescribed list, duly kept up according to Articles 9, 27 and 28, is liable, in each case, to a fine of 12 pounds Turkish.

Art. 35.—Any captain convicted of having, or of having had, on board, more than 100 pilgrims, without the presence of a licensed doctor, in accordance with the rule in Article 11, is liable to a fine of 300 pounds Turkish.

Art. 36.—Any captain convicted of having, or of having had, on board, more pilgrims than he was authorized to carry, in accordance with the rules in Article 9, is liable to a fine of 5 pounds Turkish for each pilgrim in excess of the authorized number.

The disembarkation of the pilgrims in excess of the authorized number must be effected at the first station where there is an appointed authority, and the captain must provide the pilgrims so disembarked with sufficient money to enable them to reach their destination.

Art. 37.—Any captain convicted of having disembarked pilgrims at a place other than their destination, unless with their consent, or from unavoidable cause, is liable to a fine of 20 pounds Turkish for each pilgrim thus disembarked.

Art. 38.—All other infractions of the present rules are punishable by a fine of from 10 to 100 pounds Turkish.

Art. 39.—Any offence reported during the voyage should be entered in the Bill of Health, and in the list of pilgrims. The appointed authority will submit an official report on the offence to the proper authorities.

Art. 40.—In Turkish ports the offence is tried before and the fine imposed by the appointed authority, in accordance with the rules in Chapter V of this Convention.

Art. 41.—All agents required to assist in the execution of these rules are liable to punishment for any breach of them, according to the laws of their respective countries.

Art. 42.—These rules must be posted up in the language of the nationality of the ship, and in the languages commonly spoken by the pilgrims, in a conspicuous and accessible place, on board every pilgrim-ship.

III.

MEASURES TO BE TAKEN TO PREVENT THE IMPORTATION OF PLAGUE.

1.—BY LAND.

The measures to be taken, on land, with respect to travellers and goods from regions infected with plague, should conform to the sanitary principles laid down in this Convention. Modern methods of disinfection should be substituted for land quarantine.

For this purpose stoves and other means of disinfection should be established at selected posts on the routes followed by travellers. Similar methods should be adopted on railways, constructed or in course of construction. Merchandise should be disinfected according to the principles adopted by this Convention.

Each Government is at liberty to close its frontiers to passengers and goods.

2.—BY SEA.

A.—MEASURES TO BE TAKEN IN THE RED SEA.

Art. 1.—Healthy Ships.—(a) After the medical inspection, ships passed as healthy, will be allowed to proceed at once, whatever the nature of the Bill of Health.

The ship must, however, have completed, or must complete, ten full days from the date of departure from the last infected port at which she has touched.

The only treatment the authorities of the port of arrival may apply to such ships, consists in the measures prescribed for suspected ships (medical inspection, disinfection of soiled linen, pumping out the bilge water, and substituting good drinking water for that stored on board).

(b) *Ordinary healthy ships* will be allowed to pass through the Suez Canal, in quarantine. They will complete in the Mediterranean the 10 days' period of observation. Ships carrying a doctor and a stove will not be disinfected before the passage in quarantine.

Art. 2.—Suspected ships.—*Suspected ships* are those on board which there have been cases of plague at the time of departure, or during the voyage, but no new case for 12 days. Such ships will be treated in a different manner according as to whether or not they have on board a doctor and a disinfecting apparatus (stove).

(a) Ships having a doctor and disinfecting apparatus (stove) fulfilling the required conditions, will be allowed to pass through the Suez Canal, in quarantine, in accordance with the rules prescribed for the passage.

(b) *Suspected ships*, having neither doctor nor disinfecting apparatus (stove) on board, will, before being allowed to pass through the Canal in quarantine, be detained at Moses Wells for the time necessary to disinfect soiled linen, personal linen and other susceptible articles, and to ensure that the ship is in a sanitary condition.

Passage in quarantine will be permitted in the case of a mail boat, or steamer specially adapted for passengers, without a disinfecting apparatus (stove), but with a doctor on board, if the local authority is satisfied by an official statement, that sanitary measures and measures of disinfection have been properly carried out, either at the time of departure, or during the voyage.

Free pratique may be given at Suez, after disinfection, in the case of mail boats or steamers specially adapted for passengers without a disinfecting apparatus (stove) but with a doctor on board, if the last case of plague took place more than 14 days before the date of arrival and if the sanitary state of the ship is satisfactory.

In the case of a steamer having a healthy passage of less than 14 days, passengers for Egypt will be disembarked at Moses Wells and isolated for the time necessary to complete 10 days; their soiled linen and personal effects being disinfected. They will then obtain

free pratique. Steamers having a healthy passage of less than 14 days and requiring *free pratique* for Egypt will be detained at Moses Wells for the time necessary to complete 10 days; they will undergo the prescribed disinfection.

Art. 3.—Infected ships, that is to say, those with plague on board, or on which cases have occurred within 12 days. These are divided into ships with a doctor and disinfecting apparatus (stove), and those without a doctor, and without a disinfecting apparatus (stove).

(a) *Ships without a doctor and a disinfecting apparatus (stove)* will be detained at Moses Wells and persons suffering from plague will be disembarked and segregated in a hospital. The disinfection will be thoroughly carried out. The other passengers will be disembarked, and isolated in as small groups as possible, so that if plague breaks out in one group, the whole party will not be affected.

The soiled linen, personal effects and clothes of the crew and passengers, and the ship, will be disinfected.

It is to be understood that this does not require the discharge of the cargo, but only the disinfection of that part of the ship which has been infected.

The passengers will remain 10 days at the quarantine station at Moses Wells; when the cases of plague have occurred several days previous to arrival, the term of segregation will be diminished and will vary according to the date of the occurrence of the last case.

Thus, if the last case occurred 9, 10, 11 or 12 days before arrival, the term of observation will be 24 hours; if it took place 8 days before arrival, the observation will be for 2 days; if it took place 7 days before arrival it will be for 3 days; and so on according to the table given below.

(b) *Ships with a doctor and disinfecting apparatus (stove).*—Ships with a doctor and disinfecting apparatus will be detained at Moses Wells.

The ship's doctor will state, on oath, what persons on board are suffering from plague. These patients will be disembarked and segregated.

After their disembarkation, the soiled linen of the other passengers and of the crew will be disinfected on board.

If the plague has only attacked the crew, the disinfection will be confined to the soiled linen and bedding of the crew.

The ship's doctor will also declare, on oath, the portion or compartment of the ship occupied by the patient or patients, and the section of the hospital to which they were removed.

He will also state, on oath, what persons have been in contact with the plague patients, since the appearance of the malady, either directly or by contact with objects capable of transmitting infection. These persons only will be considered as *suspected*.

The part or compartment of the ship, and the section of the hospital in which the patients have been located, will be thoroughly disinfected. By "the part of the ship" is meant the cabin of the patient, the adjoining cabins, the passage to these cabins, the deck, and the parts of the ship in which the patient or patients have been lying.

If it is impossible to disinfect the part or the compartment of the ship, which has been occupied by persons attacked by the plague, without disembarking the persons declared to be *suspected*, these persons will either be put on another ship specially set apart for this purpose, or will be disembarked and detained in the quarantine buildings, but not in contact with the patients, who will be placed in the hospital.

The duration of this detention on board, or on land, for the purpose of disinfection, will be as short as possible, and must not exceed 24 hours.

The *suspected* persons will be kept under observation either on their own ship, or on a ship provided for this purpose; the duration of this observation will vary according to the following table:—

When the last case of plague occurred on the 12th, 11th, 10th or 9th day before arrival at Suez ...		The observation will be for 24 hours.	
If it has occurred on the 8th day before arrival at Suez ...		2	days.
"	"	7th	"
"	"	6th	"
"	"	5th or 4th day	"
"	"	3rd or 2nd	"
"	"	one day	"
			...
			3
			4
			5 or 6
			7 or 8
			9

Passage in quarantine may be permitted before the expiration of the periods stated in the above table, if the sanitary authority deems it possible; it will, in any case, be permitted on the completion of the disinfection, if the ship leaves behind, in addition to the sick, the persons classed above as *suspected*.

A pontoon, with a stove on board, may be brought alongside the ship to hasten the process of disinfection.

Infected ships seeking *free pratique* in Egypt will be detained for 10 days at Moses Wells, dating from the last case on board, and will undergo the prescribed disinfection.

The time taken in disinfecting is included in the term of observation.

Organization for carrying out the measures of observation and disinfection at Suez and at Moses Wells.

1. The medical inspection, prescribed by the Regulations, of every ship arriving at Suez will be made by one of the doctors of the station. Arrivals from infected ports will be inspected by day.

2. There will be 7 doctors—a Principal Medical Officer, 4 doctors and 2 assistants. Should this medical staff be found insufficient, the services of the naval doctors of the different Powers will be utilized, under the orders of the Principal Medical Officer of the sanitary station.

3. The medical officers must have a regular diploma, and should be selected from amongst those who have gone through a special course of epidermology and bacteriology.

4. They will be appointed by the Minister of the Interior on the recommendation of the Sanitary, Maritime, and Quarantine Board of Egypt.

5. The pay of the assistants will be at the rate of 6,000 francs a year, the pay of the four doctors will be at the rate of 8,000 francs a year rising to 12,000 francs, and the pay of the Principal Medical Officer will rise from 12,000 to 15,000 francs.

6. The disinfecting and quarantine station of Moses Wells is under the authority of the Principal Medical Officer at Suez.

7. When patients are disembarked at this place, two of the Suez doctors will be posted there, one to tend the plague patients, the other to tend persons not suffering from the plague.

8. The number of sanitary guards will be 20. One of them will be in special charge of the disinfecting apparatus at Moses Wells.

9. The disinfecting and quarantine station of Moses Wells will be provided with—

1. At least three disinfecting stoves, of which one will be placed on board a pontoon.

2. A new segregation hospital containing 12 beds, for the sick and *suspected*.

This hospital will be so arranged that the sick and *suspected*, and men and women, can be separately segregated.

3. Barracks, hospital tents, and ordinary tents, for the use of the persons disembarked.

4. A sufficient number of baths and washing-places.

5. The buildings required for the usual offices, the medical staff, the guards, etc.; a magazine and a laundry.

6. A reservoir for the water-supply.

The passage, in quarantine, of the Suez Canal.

1. Permission to pass the Canal in quarantine is granted by the sanitary authority at Suez; the Board must be immediately informed when such permission is given. In doubtful cases, the decision rests with the Board.

2. A telegram must be at once sent to the authority appointed by each Power. The telegram will be sent at the expense of the ship.

3. Each Power will prescribe penal rules for those vessels, which depart from the course declared by the captain, and enter without license one of the ports of that Power. Exception will be made in the case of absolute necessity or if the vessel is compelled to put into port for shelter.

On arrival the captain must declare if he has on board gangs of native stokers, or hired servants, of any description, not included in the roll of the crew, or the register kept for the purpose. The following questions will be put to the captains of all ships arriving at Suez from the south and must be answered on oath:—

Have you any supernumeraries, stokers or other hands not included in the ship's roll or in the special register?

What is their nationality?

Where did you embark them?

The sanitary doctors must satisfy themselves as to the presence of these supernumeraries, and if they find that any of their number are missing, they must inquire carefully into the cause of their absence.

4. A sanitary officer and two sanitary guards will go on board, and accompany the ship as far as Port Said; their duty is to prevent communication, and to see to the execution of the measures prescribed for the passage of the Canal.

5. Passengers may embark at Port Said, in quarantine, but all embarkation and disembarkation, and all transfer of passengers or cargo, is forbidden during the passage of the Canal from Suez to Port Said.

6. Ships passing, in quarantine, must make the journey from Suez to Port Said without tying up.

In case of the vessel running aground, or being compelled to tie up, the necessary operations must be carried out by the staff of the ship, all communication with the staff of the Suez Canal Company being avoided.

Transports passing through in quarantine must do so only by day.

If they are compelled to pass a night in the Canal, they must anchor in Lake Timsah.

7. Ships passing in quarantine are forbidden to stop at Port Said, except in the cases provided for in paragraphs 5 and 8. The operation of revictualling must be carried out with the means on board.

All stevedores and other persons who have come on board the ship will be isolated on the quarantine pontoon. Their clothes will there undergo the prescribed disinfection.

8. When it is absolutely necessary for ships, passing in quarantine, to coal at Port Said, they must do so at a place, to be fixed by the Sanitary Board, where the necessary isolation and sanitary supervision can be secured. When effective supervision is possible, and all contact with the people on board can be avoided, the coaling may be done by the labourers of the port. At night, the place must be lighted by the electric light.

9. The pilots, electricians, agents of the Company and sanitary guards will be disembarked at Port Said, outside the port, between the jetties, and from thence, will be taken direct to the quarantine pontoon, where their clothes will be thoroughly disinfected.

Measures to be taken in the case of ships arriving in Egypt from an infected port by way of the Mediterranean.

1. Ordinary healthy ships, coming from a European or Mediterranean infected port, wishing to pass the Suez Canal, will be allowed to do so in

quarantine. They will continue their voyage, remaining under observation for ten days.

2. Ordinary *healthy* ships, wishing to land in Egypt, can put in at Alexandria or Port Said, where the passengers will complete the period of observation, either on board, or in the Lazaretto of Gabari, as the local sanitary authority may direct.

3. The measures to be taken as regards *infected* and *suspected* ships, coming from an infected European or Mediterranean port, and desiring to call at an Egyptian port, or to pass the Suez Canal, will be settled by the Sanitary Council, in accordance with the regulations adopted by this Convention.

These measures, must, before they can be carried out, be accepted by the different Powers represented on the Board. They will regulate the conditions to be imposed with regard to ships, passengers and goods.

The Board will, similarly, submit to the Powers, a code of rules dealing with cholera.

These two codes should be submitted as soon as possible.

SANITARY SUPERVISION OF PILGRIMS IN THE RED SEA.

Sanitary rules for pilgrim ships from infected ports in the (reorganized) sanitary station of Kamaran.

Pilgrim ships coming from the south, and bound for the Hedjaz, will be detained at the sanitary station of Kamaran, and then undergo the following treatment :—

Ships declared *healthy* will, after medical inspection, and on completion of the operations detailed below, be given *free pratique*.

The pilgrims will be disembarked, they will wash or take a bath in the sea ; their soiled linen, and any portion of their personal effects or baggage, open, in the opinion of the sanitary authority, to the suspicion of being contaminated, will be disinfected. The duration of these operations, including the disembarkation and embarkation, should not exceed 72 hours. If no case of plague is reported during the operations, the pilgrims will be re-embarked immediately, and the ship will proceed to the Hedjaz.

Suspected ships, that is to say, those which have had a case of plague on board, at the time of departure or during the voyage, but no fresh case for 12 days, will be treated as follows : the pilgrims will be disembarked ; they will wash or take a bath in the sea ; their soiled linen, and any portion of their personal effects or baggage, open, in the opinion of the sanitary authority, to the suspicion of being contaminated, will be disinfected ; the bilge water will be pumped out ; and the parts of the ship inhabited by the sick will be disinfected.

The duration of these operations, including the disembarkation and embarkation, should not exceed 72 hours. If no case of plague is reported during the operations, the pilgrims will be immediately re-embarked, and the ship will proceed to Jeddah, where a second medical inspection will take place on board. If the result is favourable, and the ship's doctor declares on oath that there has been no case during the passage, the pilgrims will be at once disembarked.

If, on the contrary, cases of plague have occurred during the voyage or on arrival, the ship will be sent back to Kamaran, where she will undergo the treatment for *infected* ships.

Infected ships, that is to say, those having cases on board, or having had them within 12 days, will undergo the following treatment :—

The plague patients will be disembarked and segregated in the hospital. The disinfection will be thoroughly carried out. The other passengers will be disembarked and isolated, by groups, as small as possible, so that if the plague breaks out in one group, the whole party will not be affected.

The soiled linen, the personal effects, and the clothes of the crew, and passengers, and the ship, will be disinfected.

The local sanitary authority will declare if the discharge of the heavy baggage and cargo is necessary, and if the whole ship must be disinfected, or a portion only.

The passengers will remain at Kamaran for 12 days; when the cases of plague occurred several days before arrival, the period of isolation may be diminished and it may vary according to the date of occurrence of the last case, and the orders of the sanitary authority.

The ship will then proceed to Jeddah, where a strict individual medical examination will take place on board. If the result is satisfactory the pilgrims will be disembarked. If, on the other hand, plague has appeared during the voyage, or on arrival, the ship will be sent back to Kamaran, where she will again undergo the treatment for *infected* ships.

Improvements to be made in the station of Kamaran.

A.—Complete evacuation of the Island of Kamaran by its inhabitants.

B.—Measures to ensure safety, and to facilitate navigation in the bay of the Island of Kamaran:—

1. Provision of buoys and beacons in sufficient numbers.
2. Construction of a principal mole or quay for the disembarkation of passengers and baggage.
3. A separate pier for the embarkation of the pilgrims of each encampment.
4. A steam tug and sufficient barges for the disembarkation and embarkation of the pilgrims. The disembarkation of pilgrims from *infected* ships will be carried out with the appurtenances on board.

C.—The establishment of a sanitary station, which should contain:—

1. A system of railways, connecting the wharves with the headquarters of the Administration, the places for disinfection, and the places where the different offices and encampments are situated.
2. Quarters for the Administration and for the staff employed in the sanitary and other offices.
3. Buildings for the disinfection and washing of wearing apparel and other articles.
4. Buildings where the pilgrims can wash or take sea baths, whilst their clothes are being disinfected.
5. Separate and completely isolated hospitals for both sexes:—
 - (a) For the observation of *suspected* persons.
 - (b) For plague patients.
 - (c) For patients suffering from other contagious diseases.
 - (d) For ordinary patients.
6. The encampments should be completely separated from each other, the distance between them being as great as possible; the pilgrims' quarters should be constructed on the most approved sanitary principles, and must not contain more than 25 persons each.
7. A well situated cemetery, distant from all habitations, free from sub-surface water, and drained 20 inches below the level of the graves.

D.—Sanitary appliances:—

1. Steam disinfectors in sufficient number, constructed with due regard to safety, efficacy and rapidity.
2. Cinerators, disinfecting stoves and the necessary appliances for chemical disinfection, as described in Chapter III of the annexure to this Convention.
3. Condensing machines; apparatus for the sterilization of water by heat; ice machines.

A system of pipes and reservoirs for the distribution of drinking water, which should be closed, and only capable of being used by means of taps or pumps.

4. A bacteriological laboratory with the necessary staff.
5. An arrangement of portable vessels for the reception of fœcal matter after disinfection. Sewage farms for the disposal of fœcal

matter on the part of the island most distant from the encampments, arranged with due regard to their proper sanitary working.

6. An arrangement for the removal of dirty water from the encampments, which must prevent its stagnation and its use for drinking purposes. The dirty water of the hospitals should be disinfected with slaked lime, according to the instructions contained in Chapter III of the annexure to this Convention.

E.—The provision by the sanitary authority in each encampment of a store for food and fuel.

The tariff of prices fixed by the appointed authority should be hung up in several places in the encampment, in the languages commonly spoken by the pilgrims.

The doctor of the encampment will be responsible for the daily control of the quality and quantity of the provisions.

Water should be provided free of charge.

Improvements to be made in the sanitary stations of Abu-Saïd, Vasta, and Abu-Ali.

1. Erection of two plague hospitals, for men and women, at Abu-Ali.

2. Erection at Vasta of a hospital for ordinary cases.

3. Construction at Abu-Saïd and Vasta of masonry barracks, capable of containing 50 persons each.

4. Three disinfecting stoves to be placed at Abu-Saïd, Vasta, and Abu-Ali, with laundries and accessories.

5. Washing places to be provided at Abu-Saïd and Vasta.

6. Condensers to be provided on each of the islands of Abu-Saïd and Vasta, capable of distilling 15 tons of water per diem.

7. The rules for cemeteries, fœcal matter, and dirty water, will be the same as for Kamaran. A cemetery should be provided on one of the islands.

The rules with regard to the supply of food and water at Kamaran prescribed under heading E above will be applied to the encampments of Abu-Saïd, Vasta, and Abu-Ali.

It is desirable that the arrangements at Abu-Saïd, Vasta, and Abu-Ali should be completed as soon as possible.

Reorganization of the sanitary station of Jebel-Tor.

The Conference confirms the recommendations and views expressed on previous occasions and leaves to the Sanitary Board the duty of carrying out the improvements. The Conference also considers:—

1. That it is necessary to supply the pilgrims with good drinking-water, either from a local source or by distillation.

2. That it is desirable that all food imported by pilgrims from Jeddah and from Yembo, when there is plague in the Hedjaz, should be disinfected as a suspected commodity, or completely destroyed, if it appears to have deteriorated so as to have become dangerous.

3. That steps should be taken to prevent pilgrims bringing with them leather bottles from Jebel-Tor. They should be replaced by earthenware vessels or by metal cans.

4. That each section should be provided with a doctor.

5. That a Port Officer should be posted at El-Tor to superintend embarkation and disembarkation, and to see that the rules are observed by the captains and sarangs of the vessels.

6. That, during the pilgrim season, only pilgrims should be detained in observation at Jebel-Tor.

7. That the village of Kouroum should be evacuated.

8. That the encampment of Jebel-Tor should be connected by telegraph with the sanitary station of Sucz.

Rules for the Arabian ports of the Red Sea during the pilgrim season.

Sanitary rules to be applied to pilgrim ships coming from the North.

1. THE OUTWARD VOYAGE.

If plague is not reported to exist at the port of departure or in its neighbourhood, and if no case has occurred during the voyage, the ship is immediately given *free pratique*.

If the plague is reported to exist at the port of departure, or in its neighbourhood, or if a case has occurred during the voyage, the ship will be subjected at Jebel-Tor to the rules prescribed for ships which come from the south and stop at Kamaran.

2. THE HOMEWARD VOYAGE.

Art. 1.—Any ship coming from a port of the Hedjaz or from any other port on the Arabian coast of the Red Sea, infected with plague, having on board pilgrims or any similar collection of persons, bound for Suez or for a Mediterranean port, must proceed to El-Tor, there to undergo the prescribed observation as detailed below.

The disembarkation and disinfection of passengers, baggage, and susceptible goods will then be effected, as well as the disinfection of personal effects, and of the ship.

Art. 2.—Ships bringing back pilgrims will only be allowed to pass through the canal in quarantine. Egyptian pilgrims after leaving El-Tor must disembark at Ras Mallap, or some other place appointed by the Sanitary Board, there to undergo 3 days' observation and a medical inspection, before being given *free pratique*.

In the event of a suspicious case occurring on board during the voyage from El-Tor to Suez, the ship will be repulsed to El-Tor.

Art. 3.—Agents of Navigation Companies and captains of ships are warned, that, after the completion of the observation at the sanitary station of El-Tor and at Ras Mallap, only Egyptian pilgrims will be permitted to leave the ship, in order to return to their homes. Only pilgrims with a certificate of residence, issued by an Egyptian authority, and in accordance with the prescribed form, will be recognized as Egyptians or as residents of Egypt. Specimens of this form will be deposited with the consular and sanitary authorities of Jeddah and Yembo where agents and ships' captains can inspect them.

Non-Egyptian pilgrims, such as Turks, Russians, Persians, Tunisians, Algerians, Moors, etc., may not, after quitting El-Tor, be disembarked in an Egyptian port. Navigation companies' agents and captains are, therefore, warned that the transshipment of non-Egyptian pilgrims, either at Tor, Suez, Port Saïd, or Alexandria, is forbidden.

Vessels having on board pilgrims belonging to the nationalities mentioned in the preceding paragraph will be treated according to the rules for non-Egyptian pilgrims, and will not be permitted to enter any Egyptian Mediterranean port.

Art. 4.—If it is not reported that plague exists in the Hedjaz, or has existed during the pilgrimage, vessels will be subjected, at Jebel-Tor, to the rules prescribed at Kamaran for *healthy* ships.

The pilgrims will be disembarked; they will wash or take a sea-bath; their soiled linen, the portion of their personal effects and baggage, open, in the opinion of the sanitary authority, to the suspicion of contamination, will be disinfected; the duration of these operations, including the disembarkation and embarkation, should not exceed 72 hours.

If plague is reported to exist in the Hedjaz or to have existed during the pilgrimage, vessels will be subjected, at Jebel-Tor, to the rules prescribed at Kamaran for infected ships.

The plague patients will be disembarked, and isolated in the hospital. The disinfection will be thoroughly carried out.

The other passengers will be disembarked, and isolated by groups, as small as possible, so that if the plague breaks out in one group the whole party will not be affected.

The soiled linen, personal effects, and clothes of the crew and passengers, and the ship, will be disinfected.

The local sanitary authority will declare if the discharge of the heavy baggage and cargo is necessary, and if the whole ship must be disinfected, or a portion only.

All the pilgrims will be kept under observation for 12 full days, counting from the day on which the operation of disinfection was completed. If a case of plague occurs in any of the groups, the period of 12 days commences for that group, from the day on which the last case in the group is reported.

Art. 5.—Ships coming from an infected port of the Hedjaz or from any other port on the Arabian Red Sea coast without having embarked pilgrims or any similar collection of persons and without having had any suspicious cases during the voyage, are placed in the category of ordinary *suspected* ships. They will be subjected to the preventive measures and treatment laid down for such ships.

If they are bound for Egypt, they will be kept under observation, at Moses Wells, for 10 days, counting from the date of departure, and will, in addition, be subjected to all the measures laid down for *suspected* ships (disinfection, etc.), and will only be given *free pratique* after a favourable medical inspection.

It is to be understood that if these ships have had any suspicious cases during the voyage they will be placed under 12 days' observation at Moses Wells.

Art. 6.—Caravans of Egyptian pilgrims must, before entering Egypt, undergo rigorous quarantine at El-Tor for 12 days; they will then be sent to Ras Mallap, and there kept under observation for 5 days, after which they will only be granted *free pratique* after a favourable medical inspection, and disinfection of their effects.

Caravans of foreign pilgrims will, before returning home by land, be subjected to the same measures as Egyptian caravans, and must be accompanied by sanitary guards to the limits of the desert.

Caravans coming from the Hedjaz by way of Akabah or Moila will be subjected, on arrival at the Canal, to medical inspection, and disinfection of soiled linen and personal effects.

Art. 7.—(1) The trans-shipment of pilgrims is strictly forbidden in Egyptian ports.

(2) Ships coming from the Hedjaz or from an Arabian Red Sea port, with a clean Bill of Health, not having on board pilgrims or any similar collection of persons and on which no suspicious cases have occurred during the voyage, will be given *free pratique* at Suez, after favourable medical inspection.

Art. 8.—Ships leaving the Hedjaz with a clean Bill of Health, and having on board pilgrims bound for a port on the African coast of the Red Sea, may call at Suakin, there to undergo three days' observation, all passengers being disembarked and detained in the quarantine encampment.

Art. 9.—Caravans of pilgrims arriving by land will be subjected to medical inspection and disinfection at Moses Wells.

Sanitary measures to be taken on the departure for the South of pilgrims, from the ports of the Hedjaz.

The ports of embarkation should be provided with sufficient sanitary appliances to enable pilgrims returning to their homes to be subjected to measures similar to those which are enforced on the departure of pilgrims from ports beyond the Straits of Bab-el-Mandeb.

The application of these measures will be optional, that is to say, that they need not be applied unless the consular authority of the country to which the pilgrims belong, or the doctor of the ship on board which they embark, considers it necessary.

B.—MEASURES TO BE TAKEN IN THE PERSIAN GULF.

I.—Sanitary rules for vessels entering the Persian Gulf.

Any ship with plague on board, or on board which one or more cases have occurred within 12 days, will be considered *infected*.

Any ship on board which there has been a case of plague at the time of departure, or during the voyage, but on which no fresh case has occurred for 12 days, will be considered *suspected*.

Any ship, even though coming from an infected port, which has had no death, or case of plague on board, either before departure, during the voyage, or on arrival, will be considered as *healthy*.

Infected ships will be subject to the following rules :—

- (1) The sick will be immediately disembarked and isolated.
- (2) The other persons on board should also, if possible, be disembarked and kept under observation, for a period varying according to the sanitary condition of the ship, and the date of the last case, but which must not exceed 10 days.
- (3) The soiled linen and personal effects of the crew and passengers, which, in the opinion of the sanitary authority of the port, should be considered as infected, will be disinfected, as also the ship, or the contaminated part of the ship.

A more thorough disinfection may be ordered by the local sanitary authorities.

Suspected ships will be subjected to the following measures :—

1. Medical inspection.
2. The soiled linen and personal effects of the crew and passengers, which, in the opinion of the local sanitary authority, may be regarded as contaminated, should be disinfected.
3. Disinfection of all parts of the ship which have been inhabited by patients or suspicious cases. A more thorough disinfection may be ordered by the local sanitary authority.
4. Pumping out the bilge water, after disinfection, and the substitution of good drinking-water for the water stored on board.
5. The crew and passengers should be kept under observation for a period of 10 days, commencing from the date of the last case on board.

Healthy ships will be given *free pratique* at once, irrespective of the nature of the Bill of Health.

Such ships must, however, in all cases, have completed, or must complete, ten full days from the date of departure from the last infected port at which they have touched.

The only measures the authority of the port of arrival may apply to *healthy* ships are those prescribed for *suspected* ships (medical inspection, disinfection, pumping out the bilge water, and the substitution of good drinking water for the water stored on board).

It is to be understood that the appointed authority of the port of arrival may always demand a declaration on oath from the doctor, or failing him, from the captain, that there has been no case of plague on the ship since her departure.

In deciding on the extent to which effect is to be given to the measures prescribed above, the authorities of the port should take into consideration the fact that there is a doctor, or a disinfecting apparatus (stove) on board the ships coming under the three headings mentioned above.

Special measures may be prescribed for ships in an insanitary condition.

Goods arriving by sea should be treated in the same way as goods transported by land, as regards disinfection, prohibition of import, transit and quarantine.

Any ship objecting to submit to the obligations imposed by the authority of the port is free to put back to sea.

The disembarkation of goods may be authorized, after the following necessary precautions :—

1. Isolation of the ship, crew, and passengers.
2. Pumping out the bilge water after disinfection.
3. Substitution of good drinking water for the water stored on board.

The disembarkation of passengers wishing to land may also be authorized, on condition that they submit to the measures prescribed by the local authorities.

II.—Sanitary posts in the Persian Gulf.

There are two places in the Persian Gulf suitable for the establishment of sanitary posts—one in the Straits of Ormuz (the Island of Ormuz, the Island of Kishm, or, failing these, a place to be settled in their vicinity) ; the other at a place to be settled in the neighbourhood of Bassorah.

The sanitary post in the Straits of Ormuz should be provided with at least two doctors, sanitary officers and guards and appliances for disinfection. A small hospital should also be constructed.

A big lazaretto and apparatus for disinfecting goods should be constructed at the post near Bassorah with a medical staff of several doctors.

Before entering the Persian Gulf, ships must touch at the sanitary post in the Straits of Ormuz. They will there be subjected to the sanitary measures prescribed by the rules. If there are any plague cases on board, the sick will be disembarked.

Ships wishing to proceed at once up the Shat-el-Arab will be permitted, if the period of observation is not completed, to continue their voyage, through the Persian Gulf and the Shat-el-Arab in quarantine. A sanitary officer and two sanitary guards, taken on board at Ormuz, will keep a watch on the ship as far as Bassorah, where a second medical inspection will be made, and the necessary disinfection will be carried out.

Ships wishing to disembark passengers or goods at Persian ports will be permitted to do so at Bushire, when suitable sanitary arrangements have been made ; until then, they must land their passengers and goods at Ormuz or Bassorah.

It is to be understood that a *healthy* ship will be granted *free pratique* at the ports of the Persian Gulf ten days after the date of departure from the last infected ports at which she has touched, provided that she is shown to be *healthy* on arrival.

The sanitary posts at Ormuz and Bassorah will be under the control of the Constantinople Board of Health. The Ottoman and Persian Governments will come to an agreement with regard to the post at Ormuz.

Until the Ottoman and Persian Governments have arrived at this agreement, a sanitary post will be established as a temporary measure in one of the islands in the Straits of Ormuz, and the Board of Health will post doctors and sanitary guards at this place. These guards will accompany ships passing in quarantine up the Shat-el-Arab to the post established in the neighbourhood of Bassorah.

The Constantinople Board of Health will also organize without delay sanitary posts at Khanikin, and Kizil Dizé, near Bayazid, on the Perso-Turkish and Russo-Turkish frontiers.

CHAPTER II.

MEASURES TO BE TAKEN IN EUROPE.

Section I.—Measures to be taken to keep the Governments which are parties to the Convention acquainted with the existence of an epidemic of Plague, and with the means taken to prevent its spread and its importation into healthy countries.

Notification and subsequent communications.

The Government of an infected country must notify to the other Governments the existence of all cases of plague. This measure is essential.

It will only be of real use, if the Government of the infected country is itself informed of cases of plague and suspicious cases occurring in its territory. It cannot, therefore, be too strongly impressed on the different Governments that doctors should be obliged to report all cases of plague.

The notification should state the existence of cases of plague, the places where they have occurred, the date of their appearance, the number of cases reported, and the number of deaths.

The notification should be made to the diplomatic or consular agents in the capital of the infected country. In the case of countries not represented there, the notification should be made, by telegram, direct to the foreign Governments.

This first notification should be followed by subsequent regular communications, with a view to keep the Governments informed of the course of the epidemic. These communications should be made at least once a week.

The reports concerning the outbreak and course of the disease should be as complete as possible. They should, in particular, state the measures taken to check the spread of the epidemic and should give, in detail, the preventive measures adopted, with regard to—

sanitary or medical inspection;

isolation;

disinfection;

and the measures prescribed with regard to the departure of ships, and the export of susceptible articles.

It is to be understood that neighbouring countries reserve to themselves the right to make special arrangements, with the object of organizing an exchange of direct information between the principal administrative officers on their frontiers.

The Government of each country must publish, immediately, the measures which it decides to adopt with regard to arrivals from an infected country or local area.

The information must be at once communicated to the diplomatic or consular agent of the country affected, resident in the capital. In the absence, in the capital, of a diplomatic or consular agency, the communication should be made direct to the Government interested.

The withdrawal of the measures, or any modifications which may be made in them, must be communicated in the same manner.

Section II.—Conditions under which a local* area is to be considered infected or healthy.

Any area in which a case of plague has been officially reported to exist will be considered to be *infected*.

* A local area means a portion of the territory of a country placed under a recognized administrative authority; as, for instance, a province, a local Government, a district, a department, a canton, an island, a commune, a town, a village, a harbour, an area reclaimed from the sea, etc., whatever may be the extent and population of the portion of territory.

Any area in which plague has existed will cease to be considered as *infected*, when it is officially reported that no death or fresh case of plague has taken place for ten days after the recovery or death of the last case, provided that the necessary disinfection has been carried out.

Preventive measures will be taken in the *infected* territory as soon as cases of plague are officially reported.

These measures will be discontinued as soon as it is officially stated that the area has again become *healthy*.

It will not be necessary to apply these measures on the occurrence of a few imported cases if there is no diffusion of the malady.

Section III.—Necessity of restricting to the infected local areas the measures taken to prevent the spread of the epidemic.

The precautionary measures should be confined to the infected tract and the Governments concerned should only apply them to persons and goods from infected areas.

But the obligation to restrict precautions to the infected area exists only on the express condition that the Government of the *infected* country takes the necessary measures to prevent the exportation of susceptible articles derived from the *infected* area.

No restrictive measure should be enforced against persons and goods from an infected area, if they left it at least 5 days before the occurrence of the first case of plague.

Section IV.—Goods and articles which may be considered “susceptible” with reference to the rules regarding the prohibition of import and transit, and the rules regarding disinfection.

I.—Import and transit.

The following is a list of the susceptible articles and goods, the importation of which may be prohibited :—

1. Used linen, clothing, personal effects and bedding.

When these articles are carried as baggage, or in consequence of a change of abode (household goods), they are subjected to special treatment.

Soldiers' and sailors' kits, returned to their country, after their death, should be treated in the same way as the articles named above.

2. Rags, not excepting rags compressed by hydraulic force, which are carried as merchandise in bales.

3. Old sacking, carpets and old embroidery.

4. Raw hides, untanned and fresh skins.

5. Animals refuse, claws, hoofs, horse hair, hair of animals generally, raw silk and wool.

6. Human hair.

The transit of susceptible goods or articles packed in such a way that they cannot be handled on the way should not be forbidden.

Similarly, when merchandise or susceptible articles are transported in such a manner that they cannot have come into contact with infected objects during the journey, their transit through an infected local area should not bar their importation into the country to which they are consigned.

The rules regarding the prohibition of the import of susceptible goods and articles will not be applied in cases where it is proved to the satisfaction of the appointed authority of the country to which they are consigned that they were despatched at least 5 days before the occurrence of the first case of plague.

Merchandise must not be kept in quarantine on land frontiers.

Absolute prohibition or disinfection are the only measures which may be taken.

II.—Disinfection.

Baggage.—Disinfection will be compulsory in the case of soiled linen, wearing apparel, clothes and articles carried as personal baggage, or household goods, coming from a local area, declared *infected*, and which the local sanitary authority considers to be contaminated.

Merchandise.—Disinfection will only be enforced in the case of merchandise and articles which the local sanitary authority considers contaminated, or whose importation may be prohibited.

It rests with the authorities of the country to which the articles are consigned to settle the manner by which and place in which disinfection should be carried out.

The disinfection should be carried out so as to injure the articles as little as possible.

Each country will settle the question of the compensation to be paid for damages resulting from disinfection.

Letters and correspondence, printed matter, books, newspapers, business documents (not including parcels received through the post) should be subject to no restriction or disinfection.

Section V.—Measures to be taken on land frontiers. Railway traffic. Travellers.

Passenger carriages and mail and luggage vans should not be detained on the frontiers.

If a carriage is infected, it should be detached from the train to be disinfected, either at the frontier, or at the nearest stopping place, if this can be arranged.

Goods vans should be treated in the same way.

Land quarantine will no longer be enforced. Only persons presenting symptoms of plague should be detained.

This principle does not affect the right of each country to close, if necessary, any part of its frontiers.

The railway staff should keep a watch on the travellers' health.

Medical intervention will be confined to an inspection of the travellers and the care of the sick.

Where there is a medical inspection, it will be combined, as far as is practicable, with the custom-house inspection, so as to detain the passengers as short a time as possible. On the arrival of travellers from an *infected* area at their destination, it will be found very desirable to keep them under supervision for 10 days, counting from the date of departure.

The measures to be taken in regard to the crossing of the frontiers by the railway and the Post Office staff should be settled by the Administrations concerned. They should be arranged so as not to interrupt the regular service.

Governments reserve to themselves the right to take special measures with regard to certain classes of people, especially—

A.—Gipsies and vagabonds.

B.—Emigrants and persons travelling or crossing the frontier in large bodies.

Section VI.—Special Rule for Frontier Tracts.

The regulation of the frontier traffic, and of the questions involved in this traffic, as well as the adoption of exceptional measures of supervision, must be left to special arrangement between neighbouring countries.

Section VII.—Water-ways, rivers, canals, and lakes.

The task of regulating by special arrangements, the sanitary rules for water-ways, must be left to the Governments of the countries bordering such water-ways.

Section VIII.—Ocean traffic. Measures to be taken at ports.

Any ship with plague on board, or on board which one or more cases have taken place within 12 days, will be considered *infected*.

Any ship on board which there has been a case of plague at the time of departure, or during the voyage, but on which no fresh case has occurred for 12 days, will be considered as *suspected*.

Any ship, even though coming from an infected port, which has had no death, or case of plague on board, either before departure, during the voyage, or on arrival, will be considered as *healthy*.

Infected ships are subject to the following rules :—

1. The sick will be immediately disembarked and isolated.
2. The other persons on board should also, if possible, be disembarked and kept under observation or surveillance⁽¹⁾ for a period varying according to the sanitary condition of the ship, and the date of the last case, but which must not exceed 10 days.
3. The soiled linen and personal effects of the crew and passengers, which, in the opinion of the sanitary authority of the port, may be considered as *infected*, will be disinfected.
4. The bilge-water will be pumped out after disinfection, and good drinking-water will be substituted for the water stored on board.
5. All parts of the ship which have been inhabited by plague patients should be disinfected. More thorough disinfection may be ordered by the local sanitary authority.

Suspected ships are subject to the following measures :—

1. Medical inspection.
2. Disinfection ; the soiled linen and personal effects of the crew and passengers, which, in the opinion of the local sanitary authority, may be regarded as contaminated, should be disinfected.
3. Pumping out the bilge-water after disinfection, and the substitution of good drinking-water for the water stored on board.
4. Disinfection of all parts of the ship which have been inhabited by plague patients. More thorough disinfection may be ordered by the local sanitary authority.

It is recommended that a watch should be kept over the health of the crew and passengers for 10 days from the date of arrival of the ship.

It is also recommended that the crew should not be allowed to land, except on duty.

Healthy ships will be given *free pratique* at once, irrespective of the nature of the Bill of Health.

The only measures which the authorities of the port of arrival may enforce with regard to such ships consist in those which are prescribed in the case of *suspected* ships (medical inspection, disinfection, pumping out the bilge-water, and the substitution of good drinking-water for the water stored on board), except that the measures prescribed for the disinfection of the ship itself may not be enforced in the case of *healthy* ships.

It is recommended that the crew and passengers should be kept under medical supervision for 10 days from the date on which the ship left an infected port.

It is also recommended that the crew should not be allowed to land, except on duty.

It is to be understood that the appointed authority of the port of arrival may always demand a declaration, on oath, from the doctor of the ship, or failing him, from the captain, that there has been no case of plague on the ship since her departure.

⁽¹⁾ Note.—The expression "observation" means segregation of the passengers, either on board a ship or in a lazaretto till they have obtained *free pratique*. The expression "surveillance" means that the passengers will not be isolated ; they will at once obtain *free pratique*, but on arriving at their destination they will be kept under medical surveillance.

In deciding on the extent to which effect is to be given to the measures prescribed above, the authorities of the port should take into consideration the fact that there is a doctor, or a disinfecting apparatus (stove) on board the ships coming under the three headings mentioned above.

Special measures may be prescribed for crowded ships, particularly for emigrant ships, or any other ship which appears to be in an insanitary state.

Goods arriving by sea should be treated in the same way as goods arriving by land, as regards disinfection, prohibition of import, transit, and quarantine.

Any ship objecting to submit to the obligations imposed by the authority of the port will be free to put back to sea.

The disembarkation of goods may be authorized, after the following necessary precautions have been taken :—

1. Isolation of the ship, crew and passengers.
2. Pumping out the bilge-water after disinfection.
3. Substitution of good drinking-water for the water stored on board.

The disembarkation of passengers wishing to land, may also be authorized, on condition that they submit to the measures prescribed by the local authorities.

Each country should supply at least one port on each of its sea-boards, with the organization and equipment necessary to enable it to receive a ship, whatever its sanitary state.

Coasting vessels will be subject to special rules, to be drawn up conjointly by the countries concerned.

Section IX.—Measures to be taken with regard to ships coming from an infected port and ascending the Danube.

Until the town of Sulina is provided with good drinking-water, the sanitary condition of ships ascending the river will be subject to thorough sanitary supervision.

Over-crowding of passengers will be strictly forbidden.

Ships entering Roumania by the Danube will be detained for medical inspection, and until disinfection has been completed.

Ships arriving at Sulina must, before being permitted to ascend the Danube, undergo one or more medical inspections by day. Each morning, at a given hour, the doctor will satisfy himself as to the state of health of all persons on the boat, and will not permit it to enter the river, until he is assured that their condition is satisfactory. He will deliver, free of charge, to the captain or master, a sanitary passport, bill of health or certificate, the production of which will be demanded at the subsequent stations.

There will be a daily inspection. The detention at Sulina of *healthy* ships will not exceed 6 days. Contaminated clothes will be disinfected on arrival.

Drinking-water of good quality will be substituted for water of questionable quality that may be on board.

The bilge-water will be disinfected.

The measures above indicated will only be applied to arrivals from ports infected with the plague.

It is to be understood that a ship coming from a *healthy* port may, if it does not wish to submit to the restrictive measures indicated above, refuse to embark travellers from an infected port.

The rules for *suspected* and *infected* ships will be the same as at other European ports.

CHAPTER III.

INSTRUCTIONS REGARDING THE METHOD
OF DISINFECTION.

1. Personal effects, rags, infected bandages, papers, and other articles without value should be destroyed by fire.

2. Under-clothing, bedding, wearing apparel, mattresses, carpets, etc., which are contaminated or *suspected* should be disinfected in stoves at *normal pressure, or at a pressure of from one and a half to two degrees, with or without the presence of steam.*

Before a stove is passed as efficient for the purposes of disinfection, it should be subjected to a test, with the aid of a signal thermometer, showing the moment when the temperature in the middle of a mattress rises to at least 100° (centigrade).

To ensure that the disinfection is effective, this temperature must be maintained for from 10 to 15 minutes.

3. Disinfecting solutions—

(a) Solution of corrosive sublimate, of 1 part in 1,000, with the addition of 10 grammes of chloride of soda.

The solution should be coloured with aniline dye or indigo. It should not be placed in metal vessels.

(b) A 5 per cent. solution of pure crystallized carbolic acid, or 5 per cent. of *crude commercial carbolic acid, in a warm solution of soft soap.*

(c) Fresh slaked-lime.⁽¹⁾

4. Special instructions to be observed in the employment of disinfecting solutions.

The linen, clothing and articles soiled by the excreta of patients should be soaked in the solution of corrosive sublimate. The solution of pure carbolic acid and the solution of soap and carbolic acid are equally suited to the purpose. The articles should remain in the solution for at least six hours.

Articles which cannot be subjected to the temperature of the stove (100° centigrade) without injury, such as leather goods, wooden articles stuck together with glue, felt, velvet, silk, etc., should be washed with the solution of corrosive sublimate; coins can be disinfected with the solution of soap and carbolic acid.

Persons engaged in nursing the sick should wash their hands and faces with the solution of corrosive sublimate, or with one of the carbolic solutions.

The carbolic solutions will be useful, more particularly for disinfecting articles, such as metals, instruments, etc., which can neither be subjected to a temperature of 100° centigrade, nor placed in contact with corrosive sublimate.

Slaked-lime is particularly recommended for disinfecting excreta. Expecterated matter should be burnt.

5. Disinfection of ships with plague patients on board.

⁽¹⁾ To get very strong slaked-lime, take lime of good quality, slack it, by moistening it gradually, with half its weight of water. When the operation is completed, put the powder in a carefully corked receptacle, and place it in a dry spot. As each kilogramme of lime absorbs 500 grains of water in order to become slack, it acquires a volume of 2 litres 200, and it is sufficient to dilute it with double its volume of water, say 4 kilogrammes 400 grains to obtain a white-wash which will be of about 20 per cent. strength.

The cabin or cabins, and all parts of the ship occupied by the sick or *suspected*, should be cleared out and all articles in them should be treated as described above.

The partitions should be disinfected with the solution of corrosive sublimate with an addition of 10 per cent. of alcohol. The washing should commence from the top, horizontally, and be continued downwards, so that the whole surface of the partition becomes covered with a coating of minute drops.

The boarding should be washed with the same solution.

Two hours after, the walls and flooring should be washed over with plenty of water.

6. Disinfection of the hold of an infected ship.

To disinfect the hold, sulphate of iron, in quantity sufficient to neutralize the sulphuretted hydrogen, should first be thrown in, the bilge-water should be pumped out, and the hold washed with sea-water. Solution of corrosive sublimate should then be thrown in.

The bilge-water should not be pumped out while the ship is in port.

CHAPTER IV.

PRECAUTIONARY MEASURES RECOMMENDED FOR SHIPS ON DEPARTURE, DURING THE VOYAGE, AND ON ARRIVAL.

Note.—Plague appears to be transmitted by the excretions of the sick (from the air passages and bowels), by the morbid products of the disease (pus), and consequently by means of linen, clothing, and soiled hands.

I.—MEASURES TO BE TAKEN ON DEPARTURE.

1. The captain should be careful not to embark persons suspected to be suffering from plague. He should refuse to receive on board dirty or suspicious linen, personal effects, and bedding, and, generally, all dirty or suspicious articles.

Bedding, wearing apparel, personal effects, etc., belonging to persons suffering from plague should not be taken on board.

2. Before embarkation, the ship should be put in a state of perfect cleanliness and she should, if necessary, be disinfected.

3. It is essential that the drinking-water taken on board should be obtained from a source free from all possible contamination.

Water is not dangerous if it is distilled or boiled.

II.—MEASURES TO BE TAKEN DURING THE VOYAGE.

1. Every ship should have a special place reserved for the segregation of persons attacked by contagious disease.

2. If there is no such place on board, the cabin or other place, in which a person is attacked with plague, should be isolated.

Only those attending the patients should be admitted.

Such attendants should be cut off from all contact with the other persons on board.

3. The bedding, linen, and clothing which have been in contact with the patient should immediately, and in the patients' room, be soaked in a disinfecting solution.

The same measure should be taken in the case of the clothing of the persons who have access to the patient which may have become polluted.

Articles which are of no value should be burnt, or thrown over board, if the ship is not in port or in a canal. Other articles should be carried to the stove, in impermeable bags, sprinkled with a solution of corrosive sublimate, so as to avoid all contact with surrounding objects.

If there is not a stove on board, the articles should be soaked in the disinfecting solution for 6 hours.

2. The excreta of the sick should be collected in vessels, into which a glass of the disinfecting solution above described has been previously poured.

3. The vessels should be at once emptied into the latrines which should be disinfected each time.

4. The places occupied by the sick should be carefully disinfected according to the rules previously laid down.

5. Corpses should be wrapped in a shroud impregnated with corrosive sublimate and thrown into the sea.

6. All the preventive measures taken during the voyage should be stated in the log, which should be submitted to the sanitary authority immediately on arrival in port.

7. The measures should be applied to everything that has been in contact with the sick, irrespective of the gravity and result of the illness.

III.—MEASURES TO BE TAKEN ON ARRIVAL.

1. If the ship is *infected*, the persons attacked should be disembarked and segregated in a place set apart for the purpose.

Those who have had access to the sick should be considered as *suspected*.

2. All contaminated objects and articles such as clothes, bedding, mattresses, carpets, and other articles which have been in contact with the sick, the clothes of those who have been in attendance on them, the articles in the patients' cabin, and in any cabin and on the deck, or parts of the deck where the sick have been placed, should be disinfected.

CHAPTER V.

ADMINISTRATION AND CONTROL.

Powers of the Constantinople Board of Health (Red Sea—Persian Gulf—Perso-Turkish, and Russo-Turkish frontiers).

1. The execution and control of measures against the spread of plague, prescribed by this Convention, are entrusted, in exercise of the powers of the Constantinople Board of Health, to the Committee established by Article 1 of Annexure IV of the Paris Convention of the 3rd April 1894. It should be explained, however, that the members of this Committee will be taken exclusively from the Constantinople Board of Health, and will represent the Powers which have accepted, or may hereafter accept, the Sanitary Conventions of Venice, 1892, of Dresden, of Paris, and of Venice, 1897.

2. The proper working of the various sanitary establishments, prescribed by existing rules, is entrusted to the corps of diplomaed and duly qualified doctors, of disinfecting officers, of experienced subordinates and of sanitary guards recruited from among persons who have performed military service as officers or non-commissioned officers, as provided for in Article 2 of Annexure IV of the Paris Convention.

3. The expenses of the establishment of permanent and temporary sanitary posts, as contemplated by this Convention are, as regards the construction of the buildings, debitable to the Turkish Government. The Constantinople Board of Health is authorized, in case of emergency, to advance the necessary money from the reserve fund. In this case, it should supervise the construction of these establishments.

4. The Constantinople Board of Health should also organize, without delay, the sanitary establishments at Khanikin, and Kizil Dizé, near Bayazid, on the Perso-Turkish frontier, out of the funds which are now placed at its disposal.

5. Articles 4, 5 and 6 of Annexure IV of the Convention of Paris of 1894 may be utilized for carrying out the present rules.

Powers of the sanitary, maritime, and quarantine Board of Egypt.

6. The expenses involved in the measures prescribed for in the rules contained in this Convention may be met by the following measures, which the Conference recommends, not only to meet the new requirements at Moses Wells, but also to defray the cost of the increase of the staff under the Sanitary Board :—

(1) The prorogation, with the consent of the Powers, of the Khedival Decree of 28th December 1896 (fixing the 1st July 1897 as the date for the application of the reduced tariff for light-house dues) until the difference between the receipts of the present tariff and the reduced tariff has reached the sum of £4,000 (Egyptian). The sum thus realized will be devoted to extraordinary expenses (new arrangements at Moses Wells).

(2) For ordinary expenses (increase of staff) an annual payment by the Egyptian Government to the Sanitary Board of a sum of £4,000 (Egyptian), which can be deducted in advance from the surplus of the Light-house service fund remaining at the disposal of the Government.

From this sum, however, there will be deducted the value of a supplementary quarantine tax of P. F. 10 (piastres tariff) to be collected from each pilgrim at El-Tor.

In the event of the Egyptian Government finding difficulty in meeting its share of the charges, the Powers represented on the Sanitary Board will arrange with the Khedival Government to ensure the participation of the latter in the estimated cost.

The 4th June, 1897.

No. 1649.—The following documents regarding quarantine and trade restrictions imposed in foreign countries in consequence of the existence of bubonic plague in India are published for general information : —

Extract from the "Moniteur Belge" of the 21st April 1897, containing a report to the King of the Belgians and a Royal Decree dated the 5th April 1897, carrying out the provisions of the International Sanitary Convention signed at Venice on the 19th March 1897.

Rapport au Roi.

Sire,

Bruxelles, le 3 Avril, 1897.

En signant la Convention Sanitaire Internationale de Venise, du 19 Mars, 1897, la délégation Belge, suivant l'exemple d'autres pays, a déclaré que, vu l'urgente nécessité de se défendre contre l'invasion de la peste, le Gouvernement, pour autant que cela lui sera possible, n'attendra pas l'expiration des délais de ratification, pour appliquer, en ce qui le concerne, les dispositions de la Convention.

C'est pour donner suite à cette déclaration que j'ai l'honneur de soumettre à votre Majesté le projet d'Arrêté ci-joint.

Les mesures actuellement en vigueur, dans le but de protéger le pays contre l'invasion de la maladie, ont été décrétées par l'Arrêté Royal du 8 Janvier, 1897, rendant applicables à la peste les dispositions de l'Arrêté Royal du 15 Juillet, 1895, relatif au choléra.

D'autres mesures ont été appliquées dans la suite par la Commission Sanitaire de l'Escaut, agissant à titre provisoire.

Le nouvel Arrêté ci-joint a pour objet de mettre cet Arrêté et ces mesures en harmonie avec les principes de la Convention.

La prophylaxie de la peste, telle qu'il l'organise, comprend les mesures sanitaires à prendre dans les ports et aux frontières de terre, à l'égard des voyageurs, des marchandises, et des bagages.

Les unes ont pour objet la visite médicale, l'isolement, et la désinfection des navires, des passagers et de l'équipage; les autres, les précautions à instituer quant aux voyageurs arrivant dans le pays par voie ferrée, aux voitures et wagons de chemin de fer.

La Convention n'impose pas la prohibition absolue des marchandises qui sont considérées comme suspects. Elle reconnaît la faculté de les soumettre à des défenses d'importation et de transit ou à la désinfection.

Usant de cette faculté je propose de prohiber les marchandises et objets suivants, sauf des dérogations, autorisées par décisions motivées, et moyennant de prescrire des précautions spéciales d'emballage, de désinfection, ou autres :—

1. Les linges de corps, hardes et vêtements portés (effets à usage), les literies ayant servi, lorsque ces objets sont transportés comme marchandises ;
2. Les chiffons et les drilles ;
3. Les sacs usés ; les vieux tapis ; les broderies ayant servi ;
4. Les cuirs verts et les peaux fraîches ;
5. Les débris frais d'animaux, onglons, sabots, crins, poils, soies de porc et laines brutes .
6. Les cheveux.

Cette défense d'importation et de transit est édictée d'une manière générale pour les objets, classés sous les Nos. 1 à 3, parce qu'à raison de leur nature, de l'usage qu'on en a fait, ils ont pu être en contact avec des malades ou séjourner dans leur voisinage immédiat.

Les objets, rangés sous les Nos. 4 à 6, sont prohibés de même parce qu'ils proviennent de personnes (les cheveux) ou de certaines espèces d'animaux, tels que les rats, les souris, indubitablement sujets à contracter la peste et à la propager, les chiens, les moutons, les chèvres, les buffles, les bœufs, les porcs, que l'on suppose, sans en avoir toutefois la certitude, être susceptibles d'avoir également la maladie.

Des dispositions spéciales règlent ce qui a trait d'une part au transit des objets emballés de telle façon qu'ils ne puissent être manipulés en cours de route, d'autre part à l'importation et au transit de ceux qui n'ont pu être souillés pendant leur transport à travers une circonscription contaminée ; elles s'occupent aussi de ce qui concerne les objets qui ont été expédiés d'une pareille circonscription avant le premier cas de peste.

Il est entendu qu'il ne s'agit ici que des objets transportés comme marchandises.

Quant aux bagages, qu'ils accompagnent ou non le voyageur, la désinfection sera obligatoire pour le linge sale, les hardes, vêtements, et objets qui font partie de bagages ou de mobiliers (effets d'installation) provenant d'une circonscription territoriale déclarée contaminée et que l'autorité Sanitaire considérera comme contaminés.

Il convient de remarquer, qu'en dehors des prohibitions imposées, l'autorité Sanitaire du port a le droit de soumettre à la désinfection tous les autres objets qu'elle rangerait dans cette catégorie ; ainsi, il est de nombreux petits objets, des échantillons, des bibelots que les matelots ou les passagers introduisent avec leurs bagages, et qu'ils revendent à l'arrivée du navire. Ces objets ne proviennent pas de grands ateliers où le danger de contamination n'existe guère, mais ont pu être achetés dans des habitations peut-être infectées.

Enfin, un Article du projet d'Arrêté donne au Ministre de l'Agriculture et des Travaux Publics le pouvoir de désigner les pays ou les parties de pays à l'égard desquels le régime prévu sera rendu applicable et de régler la mise à exécution et la durée des mesures prescrites.

Je suis, &c.

Le Ministre de l'Agriculture et des Travaux Publics.

(Signé) LÉON DE BRUYN.

Léopold II, Roi des Belges, à tous présents et à venir, salut.

Vu le Décret Sanitaire du 18 Juillet, 1831, ainsi que les Règlements pris pour son exécution ;

Revu l'Arrêté Royal du* 8 Janvier, 1897, rendant applicables à la peste les dispositions de notre Arrêté du* 15 Juillet, 1895, relatif au choléra ;

Vu le texte, annexé au présent Arrêté, des Chapitres II, III, et IV du Règlement Général annexé à la Convention du 19 Mars, 1897, adoptée par la Conférence Sanitaire Internationale de Venise et relatif aux marchandises ou objets susceptibles, envisagés au point de vue des défenses d'importation ou de transit, ainsi qu'aux mesures à prendre aux frontières de terre et de mer, dans un but de protection contre l'invasion de la peste ;

Sur le rapport et la proposition de notre Ministre de l'Agriculture et des Travaux Publics,

Nous avons arrêté et arrêtons :

Article 1^{er}. Sont interdits à l'entrée et au transit par les frontières de terre et de mer les marchandises et objets suivants venant de pays ou de circonscriptions territoriales déclarés contaminés de peste :—

1. Les linges de corps, hardes, et vêtements portés (effets à usage), les literies ayant servi, lorsque ces objets sont transportés comme marchandises ;
2. Les chiffons et les drilles ;
3. Les sacs usés ; les tapis vieux ; les broderies ayant servi ;
4. Les cuirs verts et les peaux fraîches ;
5. Les débris frais d'animaux, onglons, sabots, crins, poils, soies, et laines brutes ;
6. Les cheveux.

Toutefois, des Arrêtés Ministériels pourront lever cette prohibition en ce qui concerne les laines brutes, les cuirs verts, les peaux fraîches, et certaines catégories de chiffons et de tapis, moyennant de prescrire des précautions spéciales d'emballage, de désinfection, ou autres.

Art. 2. Le transit des marchandises et objets susceptibles, désignés à l'Article 1^{er} n'est pas interdit lorsqu'il est effectué sous la surveillance de la Douane, pourvu que ces objets soient emballés de telle façon qu'ils ne puissent être manipulés en cours de route.

Art. 3. L'importation et le transit des marchandises et objets visés à l'Article 1^{er} et provenant de pays ou de circonscription territoriales non contaminés peuvent être soumis à des justifications de provenances, à la satisfaction de l'Administration des Douanes.

Ils seront admis à l'importation et au transit, même lorsqu'ils ont traversé une circonscription contaminée, s'il est démontré à la dite Administration qu'ils n'ont pas été en contact avec des objets souillés pendant leur transport à travers cette circonscription.

Art. 4. Les marchandises et objets visés à l'Article 1^{er} ne tomberont pas sous l'application de mesures de prohibition à l'entrée, s'il est démontré à l'Administration des Douanes qu'ils ont été expédiés d'une région contaminée avant le premier cas de peste.

Art. 5. Notre Ministre de l'Agriculture et des Travaux Publics désignera les pays ou parties de pays à l'égard desquels le régime prévu par les dispositions qui précèdent sera rendu applicable et réglera la mise à exécution et la durée des mesures prescrites.

Art. 6. Les mesures à prendre dans les ports à l'égard des navires considérés comme infectés, suspects, ou indemnes, ou point de vue de la visite médicale, de l'isolement, et de la désinfection seront conformes aux prescriptions du Règlement Général annexé à la Convention de Venise, préarrangée.

* Published in the *Gazette of India* under Home Department Notification No. 584, dated the 20th February 1897.

Notre Ministre de l'Agriculture et des Travaux Publics pourra appliquer aux frontières de terre et de mer les mesures jugées nécessaires, en ce qui concerne les voyageurs, les bagages, et les objets transportés à la suite d'un changement de domicile, dans les limites arrêtées par la dite Convention.

Art. 7. Sont abrogés l'Arrêté Royal susvisé du 8 Janvier, 1897, et toutes les mesures édictées par la Commission Sanitaire de l'Escaut qui sont contraires au présent Arrêté.

Art. 8. Notre Ministre de l'Agriculture et des Travaux Publics est chargé de l'exécution du présent Arrêté.

Donné à Bruxelles, le 5 Avril, 1897.

(Signé) LÉOPOLD.

Par le Roi :

Le Ministre de l'Agriculture et des Travaux Publics,

(Signé) LÉON DE BRUYN.

Notifications of the Board of Trade (Fisheries Department).

London ;

May 7, 1897.

The Board of Trade have received, through the Secretary of State for Foreign Affairs, a copy of a despatch from Her Majesty's Representative at Lisbon, enclosing the following copy of a Quarantine Notice issued by the Portuguese Government, *viz.* :

(Translation.)

From the Official Journal *Diario do Governo*, of 17th April, 1897.

NOTICE.

For the proper purposes it is hereby notified, that, by authority, and with the advice of the Consultative Board of Public Health, it has been decided, in accordance with No. 6 of Article 1 of the Regulations of the 21st of January of this year, that the notices, dated the 27th of January and the 17th and 27th of February last, are cancelled, and that, as regards the sanitary defence against arrivals from the ports of India, the "Imamato" (Imamate) of Muscat, and Macao, with reference to the bubonic plague, the rules laid down in the Regulations above quoted shall be carried out subject to the undermentioned restrictions :

1. As a rule, the subjoined goods or articles coming from the said ports are not admitted :

- (a) Hair, horsehair, and feathers, when in their natural condition or not manufactured.
- (b) Patterns and Postal Parcels of any kind.
- (c) Hides and skins, either fresh or dried—in the rough, and hides, with hairs—even if tanned.
- (d) Products or fresh fragments of animals.
- (e) Green pulse and vegetables.
- (f) Furniture already used, stuffs, and tissues for ornamenting walls, etc., already used.
- (g) Rags, shavings of wood or paper, waste filaments, and other articles of the same nature.
- (h) Clothes and wearing apparel, shoes, beds, and appurtenances, and any other articles already worn.
- (i) Cotton, hemp, wool, linen, and silk not manufactured.
- (j) Husks of olives and grapes.
- (k) Vegetable hairy substances, hay, herbs, "Sumauma" either pressed together, or in bales.
- (l) Live animals.

2. Any goods or articles from those ports, not included in the previous rule, and even those mentioned in clause (h), when forming part of any luggage, will be admitted after a rigorous disinfection.

3. The goods or articles mentioned in clauses (f), (i) and (k), or other similar articles, which may have been for a long time in any European port, without causing any sanitary harm to any one, as proved by a Consular certificate ; or whenever the same may have been transformed or modified by any industrial process, will be admitted ; without the ships, bringing the said articles, being subjected to quarantine restrictions, subject, however, to disinfection or cleansing ; and even without these operations in virtue of an Order to that effect from the Government being issued, after consulting the Board of Public Health, which Department shall consider the whole of the circumstances of the case, and record their views as to the best mode of proceeding to be adopted in the respective case.

Arthur Fevereiro.

Home Department, Lisbon, April 14, 1897.

*London ;
May 11, 1897.*

The Board of Trade have received, through the Secretary of State for the Colonies, a copy of a telegram from the Governor of Gibraltar, intimating that restrictive measures against vessels arriving from Indian ports, east of Cape Comorin, have been raised.

[See telegram from the Secretary of State, dated the 1st February 1897, published in the *Gazette of India*, under Home Department Notification No. 326, dated the 5th February 1897.]

*London ;
May 11, 1897.*

The Board of Trade have received, through the Secretary of State for the Colonies, a copy of a telegram from the Governor of Malta, stating that restrictive measures against vessels arriving from Indian ports, east of Cape Comorin, have been raised.

*London ;
May 11, 1897.*

The Board of Trade have received, through the Secretary of State for the Colonies, a copy of a Notice published by the Governor of Malta, from which it appears that paragraph 2 of the Notice, S. 1353, published in the *London Gazette* of the 13th April, has been amended by the substitution of the following paragraph :

2. Vessels which are allowed to enter the quarantine harbour to coal and to take in provisions under quarantine restrictions :

Vessels arriving from any Indian port between the Persian Gulf and Cape Comorin.

[See telegrams from the Secretary of State, dated the 19th January, 22nd January, 27th January, and 2nd February, published in the *Gazette of India*, under Home Department Notification No. 326, dated the 5th February 1897.]

*London ;
May 11, 1897.*

The Board of Trade have received, through the Secretary of State for Foreign Affairs, a copy of a despatch from Her Majesty's Representative at Berlin, intimating that in future articles specified in the Imperial Order of the 8th February last, which have been shipped in India before the outbreak of the plague and have since been warehoused in England, will be admitted into Prussian ports, on condition that proof of the above is provided under the certificate of the local Imperial Consul, or the attestation of the police officials or Chamber of Commerce in the port of lading, certified by the Consul, and that in the case of untanned, air dried hides, there is naturally no necessity for such a certificate in view of the exception made in favour of this article.

[See despatches from Her Majesty's Representatives at Berlin and Hamburg respecting quarantine in Germany, dated respectively the 11th and 13th March 1897, published in the *Gazette of India*, under Home Department Notification No. 1355, dated the 23rd April 1897.]

See also telegram from Secretary of State, dated the 6th May 1897, published in the *Gazette of India*, under Home Department Notification No. 1463, dated the 8th May 1897.]

Telegram, dated the 1st June 1897.

From—The Secretary of State, London,
To—The Viceroy, Simla.

Italy.—My telegram of 25th* March last. New regulations forbid importation of worn wearing apparel or domestic effects if carried as wholesale merchandisc, rags, raw, fresh or dry hides, raw portions animals, nails, hoofs, bristles, hair, raw wool and hair, from infected area, including all Bombay Presidency and Goa.

Despatch from Her Majesty's Secretary of State for India, No. 44 (Financial), dated the 25th February 1897, and enclosure.

RESOLUTION.—The Rules annexed to this resolution are issued in supersession of all previous rules regarding the officers entitled to exchange compensation allowance, and the following additional explanations are given as to the principles on which these Rules are to be applied.

2. It is to be borne in mind in applying the Rules that Europe includes the English-speaking colonies, and that Eurasians who are not statutory natives of India are to be reckoned as Europeans.

3. As regards *officers appointed in England*, all Europeans so appointed, whether in the military or the civil service, will be entitled to exchange compensation allowance unless their salaries are fixed in sterling, or unless they are specifically excluded from it by the terms of their engagement.

4. As regards *officers appointed in India*, they will not be eligible for Exchange Compensation Allowance if they belong to the class to which an important privilege as to appointments in India is secured by the Statute 33 Vict., cap. 3. That class is thus defined in the Statute :

"The words 'Natives of India' shall include any person born and domiciled within the dominions of Her Majesty in India of parents habitually resident in India and not established there for temporary purposes only."

5. But before officers appointed in India and not excluded by the above test are eligible for exchange compensation allowance, two further qualifications are necessary—

(1) They must have been appointed either (a) to offices in which European qualifications are held to be indispensable or (b) to services and departments in which a proportion of Europeans is held to be indispensable.

(2) They must have been appointed as Europeans, and in the second case, for the purpose of maintaining the requisite proportion of Europeans.

6. It is not possible, without some little delay, to make complete lists of offices, services or departments falling within the catégories (a) and (b) above mentioned. For the present the following orders are issued, and Local Governments and Departments are desired, as soon as possible, to make any recommendations for further inclusion in the lists, in order that definite orders may issue.

A.—Offices in which European qualifications are held to be indispensable.

7. The following are included—

- (1) Appointments limited (or practically so) to barristers, or members of the Faculty of Advocates in Scotland.
- (2) Appointments limited to persons who possess a special education or skill that is obtainable only in England, such as the higher medical appointments; appointments connected with special scientific investigation; engineering appointments in the cases where officers have been taken over from companies or specially appointed by reason of European experience (Civil Service Regulations, 703 and 709); skilled artisans with European training; appointments connected with Marine or Shipping.
- (3) Appointments in services and departments which are in all but exceptional cases restricted to members of the Indian Civil Service or officers of the army. Officers not belonging to these two classes, who have in the past been admitted to these services and departments, will be entitled to exchange compensation allowance. In most cases this kind of admission has now ceased, and a substitute for it has been found in the admission of Provincial Service officers to listed posts. Officers admitted under these new rules are not entitled, as they do not comply with the second condition abovementioned, *viz.*, they have not been admitted as Europeans.
- (4) Appointments which by practice or order are confined to men enlisted in the British Army.

B.—Services and departments in which a proportion of Europeans is held by the Government of India to be indispensable.

8. The only services and departments which have as yet been admitted within this category are those referred to in the orders of 1879 regarding appointment and promotion of Europeans. They are—

- (1) the Account Departments, Civil, Public Works and Military, and the Forest Department so far as these are filled by appointment, after examination; and
- (2) the Education Department in the case of persons appointed by the Secretary of State.

The following Departments—Opium, Salt, Customs, Survey, Mint, Public Works and Police.

These orders do not refer to appointments of which the pay is less than Rs. 200.

9. There is a further important restriction to be observed with regard to all these services and departments. Not all Europeans in these appointments are eligible, but only those who have been appointed "as Europeans" and "for the purpose of maintaining the proportion" of Europeans held to be indispensable.

10. To many of the departments named (perhaps to most of them) there are two avenues of admission. In the Account Departments there is admission by nomination and examination, and there is admission by promotion from the Subordinate Account Service. In most of the branches of the Public Works Department there is admission by appointment in England, and admission by appointment in India under regulations which are equally open to Europeans and Natives. In all these cases it is the first kind of appointment only which is designed to maintain the indispensable proportion of Europeans, and those appointed under the second method are not appointed as Europeans and for the

purpose of maintaining the proportion, and they are therefore, under the orders now conveyed, not eligible. The same is the case, as has been pointed out, with " Provincial Service " officers admitted to " listed appointments."

11. The admission of officers holding subordinate and ministerial appointments is to be decided by the criteria above explained. In the main, those who are serving in subordinate positions will not fulfil the necessary conditions ; but if there are subordinate offices, as doubtless there are, which in the public interest must at present be held by Europeans, the persons so selected for them will be entitled to draw the allowance. In the present Resolution no orders are issued for the admission of such officers (except those which are sanctioned as offices to be held by British soldiers drawing a staff pay). But Local Governments and Departments will include in the recommendations they send with reference to paragraph 6 above any subordinate or ministerial offices which they consider to come under classes A and B above.

12. Rule XIII of the annexed rules, so far as it provides for the withdrawal of the exchange compensation allowance from officers who have been admitted to it under past rules, will not be brought into force until the proposed lists of appointments are considered and determined. When that is done, the limitation prescribed must be applied to all officers who do not come within the list. But meantime no person who is not clearly admissible within the instructions now issued should be admitted to exchange compensation allowance.

ORDER.—Ordered, that the foregoing Resolution be published in the *Gazette of India*, and that it be circulated to all Local Governments and Administrations ; to Departments of the Government of India ; and to Heads of Departments subordinate to the Financial Department ; with the request that the recommendations called for in paragraph 6 be made with all possible despatch.

Ordered also, that it be communicated to all Accountants General and Comptrollers for information and guidance.

Rules regarding the grant of Exchange Compensation.

His Excellency the Governor General in Council is pleased to prescribe the following Rules in regard to the grant of Exchange Compensation, in supersession of those published with Resolution No. 3624-A., dated the 18th of August 1893, and other orders on the subject.

2. His Excellency in Council takes this opportunity of declaring that the grant of Exchange Compensation is a provisional addition to salary, calculated on the difference between the gold value of half salary at the market rate of exchange, and its value at a privileged rate which, for the present, is fixed at 1s. 6d. per rupee, subject to the condition that it shall in no case exceed in any quarter the amount of rupees by which 250% converted at the privileged rate shall fall short of the equivalent of 250% converted at the market rate.

3. The Government of India reserve to themselves full power at any time to reconsider the whole subject, without admitting any vested rights to receive the compensation in the form now sanctioned, or in any other form.

4. The object of granting Exchange Compensation is to secure certain classes of Indian public servants against serious depreciation of their emoluments by the fall in the sterling value of rupee salaries, so that they may be enabled to live according to their station, and that the public service may continue to attract recruits of the same high quality as heretofore.

RULES.

I. The grant of Exchange Compensation is deemed to be justified on the considerations stated above, in the case of those public servants only who supply the indispensable European element in the administrative body of Indian officials.

II. The officers who fulfil the above conditions are,—

(1) Europeans appointed in England ;

(2) Officers appointed as Europeans in India to offices in which European qualifications are held to be indispensable, or to services and

departments in which a proportion of Europeans is held by the Government of India to be indispensable, and for the purpose of maintaining that proportion.

Europe, in the meaning of this Rule, shall be deemed to include the English-speaking colonies.

III. The Government of India shall from time to time determine what are the offices or services in which European qualifications are deemed to be indispensable.

IV. (1) No person hereafter appointed in India to such an office or service shall be eligible for Exchange Compensation, unless, on appointment, he shall be declared eligible by a certificate granted by the Indian Government by or under which such appointment is made.

(2) The certificate will set forth the grounds upon which the holder is deemed to be a European of the Class described in Rule I.

(3) Such certificate shall not be given to any person who is qualified for appointment under 33 Vict., c. 3, sec. 6.

(4) The decision of the Government of India as to the granting or refusing of such a certificate is final

V. Exchange Compensation is not admissible to—

(a) Persons temporarily appointed to the service of Government for a specified duty only, upon allowances definitely fixed for the particular case ;

(b) Persons serving under a contract in which their allowances are definitely fixed, which is not preliminary to employment in one of the regular services of the Government, and five years of service under which have not elapsed ;

(c) Persons who are not members of any regular Service, and who are employed in a professional capacity (such as lawyers, teachers, lecturers, clergymen, medical men), without being debarred from the private exercise of their profession.

VI If any part of an officer's salary is fixed in sterling, and is converted into rupees at the rate of exchange fixed annually for the adjustment of transactions between England and India, the allowance is payable only in respect of the excess, if any, of the portion of his salary not fixed in sterling, over the portion fixed in sterling.

When a wound or good service pension due to an officer serving in India, is received by him in sterling in England, an abatement should be made from the Exchange Compensation drawn in India, the amount of the abatement being equal to the amount by which the equivalent of the sterling pension at the official rate of exchange is exceeded by that at the market rate fixed for the quarter for the payment of Exchange Compensation.

Subsidiary Rules.

VII The allowance is granted in the form of a percentage on the officer's salary, which will be calculated by the Comptroller General each quarter, and notified by him about the 15th day of the final month in the preceding quarter. Subject to the limits prescribed in clause 2, it will be based on the amount by which the average demand rate of exchange in Calcutta during the quarter ending on the date named falls short of the privileged rate of exchange.

VIII. The percentage fixed for any quarter is applicable to all payments of salary falling due during that quarter. Thus the percentage for the July to September quarter applies to salary payable between the 1st of July and 30th of September, which ordinarily is the salary for June, July and August.

When salary is drawn for a portion of a month Exchange Compensation is admissible only for that portion of the month, and the maximum monthly limit, if applicable, must be proportionately reduced.

IX. The allowance is payable, month by month, with pay, and under the rules under which pay is drawn ; and it will be charged as pay, but under a

separate detailed head. In the case of officers whose emoluments are governed by the Civil Service Regulations, the allowance is admissible only on salary as defined in Article 47. In the case of officers whose emoluments are governed by the Indian Army Regulations, it is admissible only on pay, Indian allowances, and Staff pay.

Deputation allowance does not come within the definition of "salary" in Article 47 of the Civil Service Regulations and consequently Exchange Compensation is not admissible in respect of it. But if in any case deputation allowance has been specially permitted to count as salary for calculating leave allowance it may also count for Exchange Compensation.

X. Exchange Compensation is admissible on leave allowances fixed in rupees and drawn in India.

XI. Exchange compensation is not admissible, under the orders of the Government of India, to Government officers in foreign service. The Government of India, however, so far as they are concerned, agree to the grant of it to such officers under the present rules and restrictions. But it is in each case for the foreign employer to decide in the first instance whether he is willing to grant the allowance or not. If he signifies his desire to give the allowance the sanction of the Local Government by whom the officer's services were lent should be applied for, with a full statement of the grounds on which the officer considers himself to be eligible for the allowance.

XII. Family remittances of pay are not permissible to any officer who is, at the time in respect of which the pay is due, in receipt of Exchange Compensation.

XIII. These Rules shall come into force with effect from the 1st of April 1897, provided that officers to whom Exchange Compensation would not be admissible under these rules, but who have been admitted to it under the rules previously in force, will continue to draw it to the extent of the salaries they were drawing on the 1st of April 1897; but any increase in their salary after that date will be taken in reduction and ultimately in extinction of the claim to the allowance.

MILITARY ACCOUNTS DEPARTMENT.

No. 602.—Conductor T. O. Drake is appointed a Deputy Examiner, 2nd grade, Military Accounts Department.

CANTONMENTS.

REGULATIONS.

No. 603.—In exercise of the powers conferred by section 25 of the Cantonments Act, 1889 (XIII of 1889), the Governor-General in Council is pleased to extend to the Cantonments of St. Thomas' Mount, Poonamallee, Pallavaram and Vizianagaram, respectively, portion of the provisions of section 3 and the provisions of sections 129 to 142 (both inclusive) of the Madras District Municipalities Act, 1884 (Madras Act IV of 1884), as amended by the Madras District Municipalities Act Amendment Act, 1897 (Madras Act III of 1897), in the modified form hereinafter set forth, namely:

1. The Cantonment Committee shall make provision for the gratuitous vaccination of all persons residing within the Cantonment—

Section 129.

- (i) by employing an adequate staff of duly qualified vaccinators, and
- (ii) by making suitable provision for, and defraying the charges of maintaining, a supply of vaccine-lymph and such public vaccinating stations as may be necessary.

Section 3 (xix). *Explanation.*—In these regulations,—

- (1) "vaccinator" means a public or private vaccinator;
- (2) "public vaccinator" means any vaccinator employed by the Cantonment Committee; and

- (3) "private vaccinator" means any person licensed by the Governor in Council to perform the operation of vaccination in the Cantonment.

2. The Governor in Council may, by a written license, authorize any medical practitioner or other person to perform the operation of vaccination in the Cantonment, and may at any time suspend or cancel any such license.

Section 130.

- 3. (1) No fee or remuneration shall be charged by any public vaccinator for any vaccination performed or certificate given under these regulations:

Section 131.

Provided that the Cantonment Magistrate may, upon application by any person and upon the payment by such person of such fee as the Cantonment Committee may have prescribed, direct a public vaccinator to perform vaccination, or to make an inspection as hereinafter provided, at the private residence of such person.

- (2) If the application mentioned in the proviso to sub-section (1) is made in respect of a female who, according to the customs of the country, does not appear in public, the same shall be complied with and no fee shall be charged.

- 4. (1) The parent or guardian of any child successfully vaccinated

Section 132.

may require from the public vaccinator a certificate to the effect that the child has been successfully vaccinated, and the public vaccinator shall furnish such certificate.

- (2) If the public vaccinator is of opinion that a child which has been three times unsuccessfully vaccinated, is insusceptible of successful vaccination, he shall deliver to the parent or guardian of such child a certificate to that effect.

Section 3 (xvii)
(xviii).

Explanation.—In these regulations,—

- (1) "parent" means the father of a legitimate child and the mother of an illegitimate child; and

- (2) "guardian" means any person to whom the care, nurture or custody of any child falls by law, or by natural right or recognized usage, or who has accepted or assumed the care, nurture or custody of any child, or to whom the care or custody of any child, has been entrusted by any lawful authority.

- 5. Vaccination shall be compulsory in the Cantonment with effect from such date as shall be

Section 133.

proclaimed by the Cantonment Committee by beat of drum in the Cantonment and by notification in the District Gazette; and shall thenceforth continue to be compulsory until such proclamation is, with the previous sanction of the Governor in Council, in like manner cancelled or modified.

- 6. (1) The parent or guardian of any unprotected child who is six months

Section 134.

old but is under ten years of age, and who has resided within the Cantonment for a period of six months after the date with effect from which vaccination therein has been proclaimed to be compulsory under section 5 of these regulations, shall take the child or cause the child, to be taken, to a vaccinator or

shall procure the vaccination of the child by a vaccinator. (2) The Cantonment Magistrate may direct the vaccination of any unprotected child under six months of age when such child is exposed to infection in consequence of residence in a house infected by small-pox.

Explanation.—In these regulations,—(1) “unprotected child”

means a child who has not been protected from small-pox by having had that disease either naturally or by inoculation or by having been successfully vaccinated, and who has not been certified in the manner provided by section 4, sub-section (2) of these regulations, to be insusceptible of successful vaccination; and (2) “inoculation” means any operation performed with the object of producing the disease of small-pox by means of variolous matter.

7. (1) The vaccinator shall if he finds such child in a state unfit for vaccination, deliver to

Section 135. the parent or guardian a certificate to the effect that the child is in a state unfit for vaccination.

(2) A certificate granted under this section showing the unfitness of a child for vaccination shall remain in force for such period not exceeding three months as shall have been stated therein; and on the termination of that period the parent or guardian of such child shall take the child, or cause the child to be taken, to a vaccinator to be vaccinated or procure the vaccination of the child at his own house by a vaccinator, and shall subsequently cause the child to be inspected in the manner hereinafter prescribed:

Provided that, if the child is still found to be in a state unfit for vaccination, the certificate shall be renewed.

8. The vaccinator shall, if he finds the child to be in a state fit for

Section 136. vaccination, vaccinate the child and deliver to the parent or guardian a memorandum stating the date on which the vaccination has been performed, and the date on which the child is to be inspected in order to ascertain the result of the operation.

9. (1) The parent or guardian of every child who has been vaccinated

Section 137. under the last foregoing section, shall, on the date of inspection stated in the memorandum take the child, or cause the child, to be taken, to a vaccinator for inspection, or shall procure the inspection of the child by a vaccinator; and such vaccinator shall then append to the memorandum a certificate stating that the child has been inspected and the result of such inspection.

(2) When it is ascertained, at the time of inspection under this section, that the vaccination has been successful, a certificate shall be delivered by the vaccinator to the parent or guardian of the child to that effect, and such child shall thereafter be deemed to be protected.

(3) When it is ascertained that the vaccination has been unsuccessful, the parent or

guardian shall, if the vaccinator so directs, cause the child to be forthwith again vaccinated, and shall subsequently cause the child to be inspected in the manner provided in sub-section (1).

(4) If the vaccinator is of opinion that a child who has been three times unsuccessfully vaccinated, is insusceptible of successful vaccination, he shall deliver to the parent or guardian of such child a certificate to that effect; and the parent or guardian shall thenceforth not be required to cause the child to be vaccinated.

10. (1) The Cantonment Magistrate, or some person or persons authorized

Section 138. by him in that behalf, shall ascertain which children under the age of ten years within the Cantonment are unprotected; and for the said purpose the Cantonment Magistrate may require any parent or guardian to forward to him within a specified time a list in writing signed by him of the number and ages of the children under his guardianship. If the Cantonment Magistrate or any person authorized as aforesaid has reason to believe that the parent or guardian of any unprotected child is bound by the provisions hereinbefore contained to procure the vaccination or inspection of such child and has omitted so to do, he shall go to the house of such parent or guardian and there make inquiry; and shall, if the fact is proved to his satisfaction, forthwith deliver to such parent or guardian, or cause to be affixed to his house, a notice requiring that the child be vaccinated or inspected, as the case may be, at a time and place to be specified in the notice.

(2) If such notice is not complied with, the Cantonment Magistrate shall summon the parent or guardian of the child and demand his explanation and shall, if such explanation is not satisfactory, sentence such parent or guardian to pay a fine not exceeding fifty rupees.

(3) If the Cantonment Magistrate finds the explanation given by the parent or guardian of the child to be satisfactory, he shall make an order in writing directing such parent or guardian to comply with the notice given under sub-section (1) before a date to be specified in the order; and if, on such date, the said order has not been obeyed, the Cantonment Magistrate shall again summon the parent or guardian to appear before him and proceed as before.

(4) No penalty shall be imposed under this section, if it is proved that the parent or guardian has demanded the use of animal vaccine-lymph and that such lymph has not been available.

11. Notwithstanding anything hereinbefore

Section 139. contained, if any unprotected child or the parent or guardian of such child is a female who, according to the customs of the country, does not appear in public, the Cantonment Magistrate, or any person authorized by him in that behalf, shall direct a vaccinator to visit the house of such parent or guardian and there to deal with the child in accordance with section 6, 7, 8 or 9 of these regulations.

12. Whoever, not being a vaccinator within

Section 140. the meaning of these regulations, wilfully signs or makes a certificate purporting to be a certificate under

these regulations while a proclamation under section 5 thereof declaring vaccination to be compulsory in the Cantonment is in force, shall be liable to a fine not exceeding five hundred rupees.

13. Whoever, being a vaccinator, wilfully

Section 141. signs or makes, or procures the signing or making of, a false certificate, or, being bound to grant a certificate under these regulations, refuses or neglects to grant the same, shall be liable to a fine not exceeding one hundred rupees.

14. (1) Inoculation in the Cantonment is hereby prohibited; and no person who has undergone the operation of inoculation shall enter the Cantonment before the lapse of forty days from the date of inoculation without a certificate from a medical practitioner of such class as the Governor in Council may from time to time by written order authorize to grant such certificates, stating that such person is no longer likely to produce small-pox by contact or near approach.

(2) Whoever contravenes the provisions of this section shall be liable to simple imprisonment for a term not exceeding three months, or to a fine not exceeding two hundred rupees, or to both.

P. J. MAITLAND, *Major-General,*

Secretary to the Government of India.

PUBLIC WORKS DEPARTMENT.

NOTIFICATIONS.

Simla, the 4th June, 1897.

No. 213.—The services of Lieutenant-Colonel H. R. LeM. Carey, I.S.C., Examiner of Public Works Accounts, Bengal, are replaced at the disposal of the Military Department, with effect from the afternoon of the 28th June 1897, under the operation of the rule in Article 684 of the Civil Service Regulations.

TELEGRAPH.

The 3rd June, 1897.

No. 211.—The Governor General in Council is pleased to order the following reversions in the Superior Establishment of the Indian Telegraph Department, with effect from the date specified :

Names.	From	To	Date.
Mr. W. C. N. Jones	Chief Superintendent, Class IV, temporary.	Superintendent, Class V, 1st Grade.	} 15th April 1897.
Mr. H. E. Chappel	Superintendent, Class V, 2nd Grade, temporary.	Assistant Superintendent, Class VI, 1st Grade.	

The 4th June, 1897.

No. 212.—The following is published for general information :

No. 160 I., dated Simla, the 31st May, 1897.

RESOLUTION—By the Government of India, Public Works Department.

Review of the Revenue Report of Irrigation Works in the Bombay Presidency (excluding Sind) for the year 1895-96.

Read-

Letter No. 207 I., dated the 4th March 1897, from the Government of Bombay, forwarding the above report and the Resolution of the Local Government reviewing it.

OBSERVATIONS.—The number of works in operation for which Capital and Revenue Accounts are kept was 36 as in the previous year and the results of the principal operations of the year may be summarized as follows :

Class of Works.	Capital outlay during year.	Capital outlay to end of the year.	Area irrigated.	Percentage of net revenue on Capital outlay.
	Rs.	Rs.	Acres.	
Protective Irrigation Works ...	82,124	77,23,986	26,934	0.46
Irrigation Works not charged against Revenue ...	35,131	1,08,71,463	23,055	2.18
Minor Works of which Capital and Revenue Accounts are kept ...	25,426	73,71,142	26,140	0.43

2. The Capital outlay incurred on the works for which Capital and Revenue Accounts are kept—during and up to the end of the year was as follows :

	Number of works.	DURING THE YEAR 1895-96.						Total direct and indirect to end of 1895-96.
		Works.	Establishment.	Tools and Plant.	Total direct charges.	Indirect charges.	Total direct and indirect charges.	
1	2	3	4	5	6	7	8	9
MAJOR WORKS.		Rs.	Rs.	Rs.	Rs.	Rs.	Rs.	Rs.
Protective Irrigation Works (Account head 35)	2	22,847	5,022	—2,269	25,600	36,574	82,124	77,23,986
Irrigation Works not charged against Revenue (Account head 49)	7	28,013	5,785	—309	33,489	1,642	35,131	1,08,71,463
MINOR WORKS.								
Works of which Capital and Revenue Accounts are kept (Account head 43) —								
Imperial	26	8,047	1,601	—2,562	7,086	1,633	8,719	61,59,559
Provincial	1	14,033	2,127	249	16,409	268	16,707	17,11,583
TOTAL	36	72,910	14,535	—4,891	82,584	60,097	1,42,681	2,59,66,591

3. The greater portion of the Capital expenditure during the year was on the Nira Canal, a Protective Work, and on the Mutha Canals, a Productive Work.

The work on the Nira Canal was chiefly in connection with the Bhatghar Reservoir. Three training walls were constructed and all the gates on the South weir were erected and in working order before the monsoon.

The greater portion of the expenditure on the Mutha Canals was incurred on alterations and improvements to the Poona Water-supply Works.

4. The financial results of the works in operation are shown in the following statement :

CANAL.	Total direct and indirect Capital outlay to end of year.	GROSS REVENUE COLLECTED.			WORKING EXPENSES.			Net revenue.	Percent- age of revenue on Capital outlay.
		Direct revenue receipts.	Share of Land Revenue.	Total.	Direct	Indirect.	Total.

* Refunds deducted from direct revenue receipts.

5. The gross revenue collected from the Major Works was Rs. 24,732 greater than in the previous year, while the working expenses showed a satisfactory decrease of Rs. 25,016.

The net revenue derived from the Major Works was Rs. 2,73,072 as against Rs. 2,23,324 in the previous year and the percentage of net revenue on capital outlay was 1.46 as against 1.21 in 1894-95.

On the Mhasvad Tank and Pravara River Works the gross revenue collected failed to cover the working expenses.

The balance of interest charges on the Major Works amounted to Rs. 4,33,386 during the year under review and to Rs. 1,05,23,586 up to the end of the year.

The net revenue realised from the Minor Works for which Capital and Revenue Accounts are kept amounted to Rs. 31,480 as compared with a deficit of Rs. 10,768 in the previous year. The working expenses of 8 of these Minor Works exceeded the gross revenue collected from them.

Compared with the previous year there was an increase in gross revenue collected of Rs. 10,625 and a decrease in working expenses of Rs. 31,623.

The net revenue derived from Minor Works for which only Revenue Accounts are kept was Rs. 3,11,852 as compared with Rs. 2,68,519 during the previous year.

6. The details of direct Revenue for the Major and Minor Works for which Capital and Revenue Accounts are kept were as follows :

	Rs.
Water-rates directly paid	4,20,737
Plantations	5,016
Water-power	10,816
Miscellaneous	1,41,717
	<u>5,85,186</u>
Deduct—Refunds from water-rates	802
	<u>5,84,384</u>

The indirect receipts on account of share of Land Revenue from the same works amounted to Rs. 14,455.

The miscellaneous receipts include Rs. 1,06,423 derived from water supplied from the Mutha Canals to the City, Cantonment and Civil station of Poona.

7. The following table compares the areas irrigated by Major and Minor Works during 1895-96 and 1894-95 with the assessments for those years :

Irrigation Works.	AREA IRRIGATED.		ASSESSMENT, 1895-96.			Assessment, 1894-95.	RATE PER ACRE IRRIGATED.	
	1895-96.	1894-95.	Occupier's rates.	Share of land revenue.	Total assessment, excluding miscellaneous.		1895-96.	1894-95.

* Does not include 1,206 acres on which consolidated assessment is levied.

† Does not include 1,157 acres on which consolidated assessment was levied.

8. Including areas on which consolidated assessment is levied, the area irrigated was 9,367 acres less than in the previous year, the decrease occurring almost entirely on the Major Works.

Notwithstanding the decrease in irrigated area the total assessments amounted to Rs. 35,273 more than in the previous year.

The increase in assessments occurs principally on the Mutha Canals and is due chiefly to higher rates having been introduced for perennial crops.

9. The balance of unrealised demands rose from Rs. 40,417 at the beginning to Rs. 81,016 at the close of the year. It is stated that the greater portion of these outstandings has since been realized.

10. The areas of the principal crops irrigated from the Major Works and the Minor Works for which Capital and Revenue Accounts are kept were as follows:

						Acres.
Jowar	18,581
Ground-nut	7,874
Wheat	8,315
Sugarcane	11,897
Bajri	6,869

The total estimated value of the crops irrigated from these works amounted to 49½ lakhs of rupees.

11. The working expenses of the Canals in operation are shown in the following table:

IRRIGATION WORKS.	1895-96.					1894-95.
	Works.	Establishment.	Tools and Plant.	Indirect charges.	TOTAL.	TOTAL.
	2	3	4	5	6	7

Works of which Capital and Revenue Accounts are kept—						
Imperial ...	33,700	41,220	1,144	5,257	82,030	1,14,573
Provincial ...	2,466	3,488	209	329	6,492	5,662
TOTAL MINOR WORKS ...	36,166	44,708	1,443	5,586	88,522	1,20,235
Per acre irrigated	3.55	3.11
TOTAL MAJOR AND MINOR WORKS ...	1,22,502	1,47,403	6,069	17,413	2,94,197	3,50,926
Per acre irrigated	3.93	4.16
Minor Works of which only Revenue Accounts are kept ...						
...	1,01,568	1,27,821	5,489	...	2,16,878	2,78,006
Per acre irrigated	1.61	1.94

The total working expenses of the Major and Minor Works for which Capital and Revenue Accounts are kept was Rs. 56,639 less than during the previous year and the rate per acre irrigated from these works was Rs. 3.93 against 4.16 in 1894-95.

12. Details of the establishment charges on works for which Capital and Revenue Accounts are kept are given in the following table :

					Revenue management.	Maintenance.	Total.
					Rs.	Rs.	Rs.
Direction	7,098	2,977	10,075
Executive	86,466	27,300	1,13,766
Civil Officers	23,295	...	23,295
Medical	267	267
TOTAL					1,16,859	30,544	1,47,403

The charges for Revenue management amount to 19.5 per cent. of the gross revenue realized. The rate for Revenue management per acre irrigated was Rs. 1.53 as against Rs. 1.59 in the previous year.

13. Under Works for which only Revenue Accounts are kept there was a slight improvement in revenue and a decrease in expenditure. The expenditure on extensions and improvements and maintenance and repairs indicates in a measure the attention paid to the efficient maintenance and improvement of these old works, so that a decrease in expenditure is not necessarily a satisfactory feature.

14. The results of the year as a whole show a considerable improvement. Increased assessments and decreased working expenses contribute to a satisfactory increase in the net earnings.

15. The report was received by the Government of India on the 8th March 1897. It has been correctly prepared and is accompanied by the usual series of maps.

ORDER.—Ordered, that copies of this Review and of the Report be forwarded to the Revenue and Agricultural Department for information.

The Governments of Madras, Bengal, the North-Western Provinces and Oudh, the Punjab and Burma.

The Chief Commissioners of the Central Provinces and Coorg.

The Agents to the Governor General in Central India, Rajputana and Baluchistan.

Ordered also, that copies of this Review be forwarded to the Government of Bombay and to the Local Governments and Administrations in the Public Works Department noted on the margin for information.

Ordered further, that this Review be published in the *Gazette of India*, and that copies be forwarded to Her Majesty's Secretary of State for India.

W. S. S. BISSET, *Colonel, R.E.,*

Secretary to the Government of India.

GOVERNMENT OF INDIA.

DEPARTMENT OF REVENUE AND AGRICULTURE.

Memorandum on the snowfall in the mountain districts bordering Northern India and the abnormal features of the weather in India during the past year, with a forecast of the probable character of the south-west monsoon rains of 1897.

The present memorandum is drawn up in accordance with the practice of the past thirteen years, and includes, firstly, a brief summary of the information received from various officers relating to the snowfall of the past winter or cold weather in the Afghan mountains and the Himalayan area; secondly, a statement of the chief peculiarities or abnormal features of the meteorology of India during the past year; and, thirdly, a forecast of the probable character of the approaching south-west monsoon rains based on this information.

The forecast is based in part on the snowfall information and on the abnormal features of the weather during the past five months, and in part on a comparison with the meteorology of the previous twenty years, so far as it is available. It is necessary to point out that the forecast is a statement of probabilities and not of certainties, and that it is liable to error from the limitation and uncertainty of part of the data on which it is based. It has been drawn up after a consideration of all the available information, but it should, to use the words of the Famine Commission Report, "*be used with due caution.*"

The monsoon forecasts, as at present issued, necessarily leave out of consideration two important points on which the agricultural value of the monsoon rainfall largely depends, *viz.* :

- (1) the probability of the occurrence of a prolonged break in the rains in July or August;
- (2) the probability of the unusually early termination of the rains in Upper India or Bengal;

and are hence imperfect every year to that extent.

The chief features or conditions which influence and determine the extension and general strength of the south-west monsoon currents are as follows :

- 1st.—The amount and time of occurrence of the cold-weather snowfall in the mountain districts adjacent to Northern India.
- 2nd.—The local peculiarities of the weather in India immediately antecedent to the advance of the monsoon currents across the coasts of Bombay and Bengal into the interior, and which it is found are generally initiated during the hot weather, and are frequently more or less persistent in character. These abnormal features are, on the whole, best estimated by means of the variations of pressure from the normal.
- 3rd.—Local peculiarities in the Bay of Bengal and Arabian Sea over which the monsoon currents pass before they reach India and probably also the Indian Ocean, which is the source of the massive current of the south-west monsoon in India.

The first of these conditions or factors is mainly influential in determining the northern limits of the monsoon rains, heavy and prolonged snowfall in the Western Himalayan area either preventing or delaying the extension of the monsoon current over Upper India during the rainy season. Heavy and untimely snowfall in April and May specially exercises a very powerful influence in this way.

The second factor determines those large local district or provincial variations of rainfall during the monsoon which are evidently due to persistent local conditions or peculiarities, and not to general causes influencing the whole of India more or less.

The third and last factor is at least of equal importance with the preceding two, but it is that on which information is most difficult to obtain and is least in amount and longest in being received. In fact, information respecting the weather conditions in the Arabian Sea, Bay of Bengal or the Indian Ocean has hitherto been rarely received in time to be utilized in drawing up the annual forecasts. Special arrangements were made this year to obtain information from Zanzibar, Mauritius and South Africa, in the hope that it might throw some light upon the conditions at present prevailing in the south-east trades region in the Indian Ocean.

Reports of snowfall on the Afghan mountains and Himalayas during the winter of 1896-97.

The whole of the information referring to the snowfall in the mountain districts bordering Northern India for each month of the year is now published as it is received in the India Monthly Weather Reviews.

The following gives a brief summary of the information relating to the snowfall of the past cold weather obtained up to date, together with certain special reports received during the past fortnight, which are given in full :

I.—AFGHAN MOUNTAIN DISTRICTS.

(1) HILLS WEST OF DERA ISMAIL KHAN, INCLUDING WAZIRISTAN.

November.—There was an unusually early and heavy fall of snow on the 27th and 28th, when snow fell down to 5,500 feet.

December.—Moderate snow fell on the 29th and 30th on the highest peaks. The month was fine and warmer than usual.

January.—Snowstorms occurred on the 5th, 10th, 13th and 31st.

February.—Snow fell on the 2nd, 4th and 5th of this month on the Marwattai hills. The fall of the 5th descended to 4,500 feet.

March.—Light snow fell on the 8th, 20th, 25th, 26th and 31st on the Marwattai hills.

April.—Light snow fell on five days on the Marwattai hills (elevation 10,000 feet), *viz.*, on the 3rd, 21st, 22nd, 25th and 26th.

The snowfall of the past winter was heavier than that of the two previous winters.

(2) KURRAM.

October.—Snow fell on the 2nd on the higher ranges of the Sufed Koh.

November.—Abnormally early and heavy snow fell from the 26th to the 28th, which closed all the higher passes.

December.—No snow fell during the month, and the greater part of the snowfall of the previous month melted and disappeared. The passes were covered with snow at the end of the month, but were open.

January.—Unusually heavy snow fell during the month. There were light falls on the 5th, 9th, 25th and 31st, and a very heavy fall from the 12th to the 14th. The higher passes were closed during the month, and at the end of the month it is reported that there was 7 to 10 feet of snow on them.

February.—Light falls occurred on the 5th, 11th and 23rd.

March.—A storm gave light snow on the 8th. The higher passes were still closed, as snow lay deep on them during the whole month.

April.—Snow fell on the higher ranges of the Sufed Koh on the 21st, 22nd, 24th and 25th, on which days heavy continuous rain fell in the valley. The higher passes were closed at the end of the month.

The following special report has been received from the officer on special duty in Kurram :

"The winter has this year undoubtedly been abnormally prolonged and severe in the Kurram Valley and the neighbouring hills of Afghanistan. The monthly snowfall reports will show that the first fall of snow was recorded on the Sufed Koh range on the 2nd of October. Following this, on the 26th and 27th November heavy snow fell, 9 inches being recorded in the cantonments of Para Chinari. On the 28th of this month a further fall was recorded. During December no snow fell, and a large portion of the snow which had fallen had melted, but in January abnormally heavy snow fell on the 5th, 9th, 12th, 13th, 14th, 25th and 31st, snow lying in the valley for several days as low as 2,000 feet, while in the upper valley itself from 2 to 3 feet remained on the ground for over a week. During February further falls were reported on the 5th, 11th and 23rd, snow lying on all hills as low down as 4,000 feet. During March, although snow fell on the higher ranges of the Sufed Koh on several occasions, 1 inch only was recorded in the valley, on the 8th of March. During April no snow fell in the Kurram Valley, but falls were recorded on the Sufed Koh down to 8,000 feet on the 21st, 22nd, 24th and 25th, with corresponding storms of heavy and continuous rain in the valley. 7·24 inches of rain have been registered in Para Chinari from the 1st of April to date in the valley, which considerably reduced the temperature. Roughly speaking, in the Kurram Valley itself 66·5 inches of snow fell during the year, while on the higher ranges it is impossible to estimate the actual snowfall; but even now from 14 to 19 feet of snow is, on reliable information, said to be lying on the higher passes.

"The opinion of all reliable natives is that such an abnormal and prolonged winter has not been known in Kurram for the last twenty years* (this apparently, according to their account, was just before the Afghan War), and they all agree that they have never known such continuous and heavy rain at this season (end of April to 15th May) in any previous year. These storms have melted and washed down a great deal of snow which was lying from 7,000 feet to 9,000 feet, but there is still a vast quantity even on the southern slopes. The season is an unusually late one in consequence, and the Kurram River has been in heavy flood for nearly a month.

"Heavy storm clouds and low temperature, with an occasional bright and very hot day, have been noted for the last fifteen or twenty days. Clouds have mostly come up from the west, but when accompanied by violent thunderstorms and hail they have come mostly from the south-east and south. In short, the weather can only be described as abnormally unsettled and unseasonable."

(3) KABUL.

November and December.—No snow fell.

January.—Snow fell on ten days, totalling 3 feet 2 inches. The heaviest fall was on the 10th and 11th, when 20 inches were received.

February.—There was snow on eight days. The total fall was 2 feet 10 inches.

March.—Light snow fell on the 1st and heavy snow on the 9th and 10th at Kabul. It is reported that 5 feet fell at Koh Chakrai. Snow also fell on the 26th on the higher hills near Kabul.

The hills in the neighbourhood of Kabul were free from snow at the end of March. The winter was unusually cold—more especially the month of January. The snowfall was heavier than during the previous three winters.

(4) KHYBER PASS DISTRICTS.

The following special report has been received from Lieutenant-Colonel Mohamad Aslam Khan, Political Officer, Khyber Pass, of the snowfall in that area during the period from the 16th December to the 15th May :

"Snow fell first in the last week of December, but was of short duration. The fall was heavier in the middle of January, the depth varying from 5 inches to 3 feet.

"At the end of January the fall in Tirah and in the Shinwari hills was still heavier, the depth reported being from 1 to 4 feet.

"In February snow fell also, but not so heavily as in the preceding month. In Tirah the snow was reported 2 feet deep, while on the Shinwari hills the depth was some 8 or 9 inches.

"The fall in March and April was insignificant, only from 1 to 4 inches being reported. The snowfall, on the whole, in the year under report has been unusually heavy. This was

* The winters of 1876-77 and 1877-78 were very severe in the Western Himalayas, and the reference is probably to these years.—F. E.

due to the heavy though late snow and rain which kept on falling in the period under report. This is proved by the fact that the winter, which generally ends at the end of March, this year dragged on till the first week of this month (May). The temperature was also low. The sky has been misty, overcast with clouds, and the weather in Tirah and at Landi Kotal has been remarkably cold, such as the people say they have not experienced during the past five or six years.

"In my opinion the unusual snowfalls of this year have been the chief cause in keeping the weather so far unusually cold and cloudy. Snow accumulations were observed during January and February, but none in April and May."

(5) CHITRAL.

Colonel Davidson, Commanding at Chitral, writes as follows of the snowfall in Chitral during the past winter in the following terms :

"The snowfall on the Lowarai range has been tremendous this winter. The oldest inhabitants say they have never seen such snow.

"I fancy that in the main valley of the Ashreth River, rising at the Lowarai Pass (10,500 feet high), the snow at this moment must be 30, 40, 50, 60 feet deep, and I should not be surprised if it were in places 100 feet deep.

"The oldest inhabitants of Chitral tell me that, although of late years it has been unusual to have so much snow as has fallen in 1896-97, they remember that twenty years ago snow used to fall in as great quantity as has fallen during the last six months.

"The people about Lower Chitral say that both the rain and snowfall of 1897 have been excessive, and predict a very hot summer.

"I may note that snow fell very early in the autumn of 1896 in the Upper Chitral Valley.

"On the 1st September 1896 it fell on the high hills quite close to Drosh. Between the 15th October and 1st November we had snow on several days in the Upper Turipho Valley and near the Baroghil Pass. On the 26th October some of us crossed the Rich Janali Pass, 14,200 feet, finding $1\frac{1}{2}$ to 2 feet of snow on it. On the 29th October we were on the Baroghil Pass, about 12,500 feet, and found about the same quantity of snow. It had fallen unusually early and heavy.

"On the 7th November we found about a foot of snow on the Shandew Pass (about 12,200 feet high).

"The following statement of snowfall during the past winter in Chitral has been sent by Surgeon-Lieutenant F. H. Watling, Chitral :

The first fall of snow occurred on the 28th November. It snowed for thirty hours, the total fall measuring about 10 inches.

December was fine throughout.

The following gives the falls in January and February :

January. 3rd.—Snow fell about half an inch.

5th.—Weather was cloudy on the 4th, but it began to snow at 5 A.M. on the 5th and continued fitfully all day, the total fall of snow being $3\frac{1}{2}$ inches.

9th.—It began to snow at 4-30 P.M. and continued till the 11th. The total fall measured about 15 inches.

12th.—It began to snow again at 5 P.M. and continued till 5 P.M. of the 15th. The total fall of snow was about 20 inches.

20th.—Half an inch of snow fell.

24th.—Snow began to fall at about 11-45 A.M. and continued till 8-45 A.M. of the 25th. The total fall of snow was about 6 inches.

26th.—Snow fell half an inch in depth during the night.

27th.—Snow began to fall at about 11-30 A.M. and ceased at about 5 A.M. of the 28th, the total fall being 4 inches.

February. 2nd.—Snow fell half an inch.

6th.—Rain fell 0.30 inch.

23rd.—It began to snow at 8 P.M.; changed to rain at about 6 A.M. of the 24th. The total fall of snow was 6 inches and the total rainfall was 1.5 inches.

25th.—Snow fell 1 inch.

March.—Rain fell on fourteen days of the month and snow (to the depth of 2 inches) on the 10th. The total rainfall of the month was 4.50 inches.

April.—Rain fell on fourteen days, totalling 4.20 inches in amount.

May.—Rain fell on the 4th, 6th and 7th during the first week of the month.

"December was fine and clear and dry throughout. January, February, March and April were unusually damp, with frequent falls of rain or snow. The mean direction of the wind was—in December "S," in January "E. S. E.," in February "N. N. E.," in March "S. E.," in April "S." and in May "N. E." Hence during January, March and April the wind blew chiefly from the south and east, and during these months the snowfall and rainfall were greatest.

"The total snowfall for the period from the 28th November to the 7th May was 71½ inches. The total rainfall for the same period was 11·17 inches, and hence the total rainfall, including snow, was 17·07 inches.

"The exact amount of snow on the higher passes cannot be accurately ascertained, but it was very considerable.

"The snowfall this last winter has been far in excess of the snowfall in the winters of 1894-95 and 1895-96."

The following statement of the amount of snow on several of the passes in Chitral and Hunza was drawn up by Moulvie Pir Baksh, Hospital Assistant, Mustuj, at the instance of Colonel Davidson, and is given in the form in which it was prepared :

Name of Pass.	Chief periods of snow-falls.	The probable fall of snow on the higher ranges.	The extent and depth of the winter accumulation.	Depth of snow on the higher passes in the beginning or middle of May.	Whether the lower passes were much later in being opened for traffic than usual.
Baroghil . . .	From 15th September to 10th May.	7 feet .	From Saryar Khan to Sarhad-i-Wakhan, about 25 miles long, depth 2½ yards.	4 feet on 15th May 1897.	One month later than last year.
Shundoor . . .	From 1st October to 20th April.	4 " .	From Sarsaspur to Ghizar, about 24 miles, depth 5 feet.	3 feet on 15th May 1897.	Twenty days later than last year.
Chumar Kund . . .	From 20th September to 1st May.	7 " .	From Chapari to Ghizar, about 20 miles, depth 8 feet.	4 feet . . .	One month later than last year.
Durah . . .	From 20th September to 1st May.	7½ "	7 " . . .	Twenty days later than usual.
Thoi . . .	From 1st September to 1st January.	12 " .	From Shah Salim to Singhils, 8 feet of snow.	9 feet on 15th May 1897.	Forty days later than last year.
Mustuj . . .	From 25th November to 10th April.	1½ "	Nil on 1st May 1897.	Open for traffic throughout whole winter.

II.—HIMALAYAS.

(A) THE PUNJAB AND KASHMIR HIMALAYAS.

(1) MURREE.

The following tables give statements of the snowfall as measured at Murree and on the hills near Kahuta during the past and preceding winters for comparison :

Station.	TOTAL FALL OF SNOW IN THE MONTH OF						Total during corresponding period of 1895-96.	
	December 1896.	January 1897.	February 1897.	March 1897.	April 1897.	Total of period.		
	Ft. In.	Ft. In.	Ft. In.	Ft. In.	Ft. In.	Ft. In.	Ft. In.	
Murree . . .	Nil	6 6	2 11	0 9½	0 2	10 4½	7 5	
Kahuta . . .	Nil	4 0	Nil	Nil	Nil	4 0	1 0	

Station.	TOTAL FALL OF SNOW FROM JANUARY TO MARCH IN										Average of nine years.									
	1897.		1896.		1895.		1894.		1893.			1892.		1891.		1890.		1889.		
	Ft.	In.	Ft.	In.	Ft.	In.	Ft.	In.	Ft.	In.		Ft.	In.	Ft.	In.	Ft.	In.	Ft.	In.	
Murree	10	2½	7	5	11	10	15	9	29	4	0	5	29	0	3	8	7	3	12	9
Kahuta	4	0	1	0	6	0	5	0	18	0	Nil		5	3	0	9	4	3	4	11

The data show that the snowfall was slightly below the normal and was comparable in amount with the fall in the cold-weather of 1895.

(2) KASHMIR.

The following very interesting report on the snowfall in Kashmir during the past few months has been received from Dr. Mitra, Meteorological Reporter to the Kashmir Darbar :

"The snowfall in and around the Kashmir Himalayas during the last winter has been more than in the six preceding years, but not so much as in the winter of 1894-95. In ordinary years snow usually falls on the higher passes during the first week of November and in the valley of Kashmir by the end of December. During this year the snow fell much earlier than usual on the higher passes. In the valley a good deal of snow fell in January. In Srinagar the frost lasted longer than in any previous year that I remember.

"The chief periods of snowfall on the higher passes have been from November to April and in Srinagar from 1st January to 28th February.

"On the higher ranges a good deal of snow has fallen. At this time of the year (last week of May) there is scarcely any snow—for instance, on the Banihal Pass. This year at present there is 2 feet of snow over 4 miles on the top. At Gulmarg there is a foot of snow; over the Zojila (11,300 feet) there is about 6 feet of snow; and a traveller who recently crossed the Rajdangan Pass (11,800 feet) says that there is about 15 feet of snow over it. All the hills around Kashmir are covered with deep snow. Only a week ago fresh snow fell on hills above 2,000 feet above the valley.

"The lower passes were much later in being opened for traffic than usual.

"The general impression is that last winter we had a snowfall a little above the average in the valley, but from all accounts it appears that on the higher ranges snow fell earlier than usual and more than the average, and the snow is lying on the higher as well as the lower passes longer than usual. In the valley it is colder than usual, and there is much more rain and bad weather than in other years.

"On the Jhelum Valley road telegraphic communication was interrupted for days by heavy snow. There have been several avalanche accidents in several places on the Gilgit road, and now a vague rumour has just reached us that thirty coolies and a traveller have perished on the Leh route by an avalanche. These facts show that there has been exceptionally heavy snow on the higher ranges.

"The spring commenced in Kashmir with a good deal of rain. The river Jhelum is high and the western portion of the valley is flooded. The snow is not melting, otherwise with this rain we should have had a very big flood. I am afraid if it rains like this in June, that we shall have as heavy a flood as in June 1893. We can see that while it is raining in Srinagar it is snowing over all the hills surrounding us. The prolonged cold and prolonged spring rains are the special features we notice this year. There was snowfall at Domel (2 feet) and Kohala (1 foot). Snow was hitherto almost unknown in the latter place."

The following notes have been supplied by Diwan Kashi Ram, Observer, Srinagar Observatory :

"The weather during the past winter has been unusually cold, the air very damp and the amount of cloud greater than usual.

"Though the period of snowfall was longer than usual, yet the winter was not so severe as that of 1894-95.

"The most severe storm of the season was that of the 13th and 14th January. It was accompanied by unusually strong winds and heavy snow. The river rose suddenly on

15th January, about 4½ feet—a very unusual occurrence at that time of the year. The following is the snowfall return for the year 1896-97 :

Month.	Ft.	In.
December 1896	0	7
January 1897	5	10
February „	1	2
March „	0	8
Total	8	3

“ A telegraphic inquiry on the 15th May elicited the information that the Tragbal Pass had then about 8 feet of snow and the Burzil much more. Both passes are at present closed for pony traffic.”

(3) LAHOUL.

The following gives a statement of the snowfall registered at the observatory at Kailang in Lahoul :

Month.	SNOWFALL, 1896-97.		SNOWFALL, 1895-96.		SNOWFALL, 1894-95.		SNOWFALL, 1893-94.	
	Number of days on which snow fell.	Total snowfall of month.	Number of days on which snow fell.	Total snowfall of month.	Number of days on which snow fell.	Total snowfall of month.	Number of days on which snow fell.	Total snowfall of month.
		Ft. In.		Ft. In.		Ft. In.		Ft. In.
December	?	1 9	7	4 0	2	0 3
January	?	5 8	?	1 2	11	3 6	17	3 6
February	?	1 2	?	3 1	0	2 0	14	4 3
March	?	6 10	?	0 10	13	3 6	11	5 4
April	?	?	4	1 6	3	2 1
Total	15 5	...	5 1	41	14 6	47	15 5

The snowfall of the past winter was hence practically the same in amount as in the winters of 1893-94 and 1894-95, but considerably greater than during the preceding winter of 1895-96.

The Superintendent describes the winter in the following terms :

“ The snowfall up to the middle of March on the higher ranges was probably about normal. The fall on the passes from 11,000 feet to 13,000 feet high is estimated at about 30 feet to 40 feet. A feature of the winter has been the very stormy winds which have frequently prevailed on the higher ranges, giving rise occasionally to clouds of driven snow. Skies were clouded to an unusual extent and were very seldom clear.

“ The snowfall during the period 26th March to 15th May has, on the other hand, been most extraordinary, 11½ inches of melted snow having been registered at Kailang, about equal to 11 feet of snow, 1 foot of snow giving about 1 inch of water. The fall on the higher elevations during this period probably exceeded 25 or 30 feet. Till the 10th of May the fields at Kailang were still covered with snow to some extent, and only since the 14th has the snow melted so far that the fields can be ploughed and sown. In normal spring weather ploughing commences always at the beginning of May. In several villages situated on the northern slopes the fields are even now (16th May) still under snow at a height of about 10,500 feet above sea. Near Kailang, at exposed heights of about 12,500 feet, the snow lies still many feet deep.

"The maximum temperature during the first fifteen days in May averaged 52° as compared with an average of 64° for the corresponding period of 1896. This shows how much colder the first fifteen days of May of the present year have been than the first half of May last year. The weather was very snowy and wet during the period from the 26th March to the 15th May. On twenty-two days snow fell, whilst the remaining days were, with a very few exceptions, always cloudy and cold. For many years the natives say such a spring has not happened in Lahoul."

(4) CHAMBA.

September.—Snow fell on the higher ranges from the 11th to the 13th down to 14,000 feet and between the 25th and 29th to 12,000 feet.

October.—On about twelve days in the month there were falls of snow on the higher and inner ranges, and the snow descended to 7,500 feet at the end of the month, but soon melted away up to 11,000 feet.

November.—There were snowfalls on the 5th, 6th and 22nd and 23rd which were pretty general over the country down to 8,000 feet. On the 28th and 29th a snowstorm occurred on the west side of the state in the Bhandal Valley and apparently passed over into Pangi. On the 22nd snow fell at 8,500 feet on the outer (Dalhousie) range.

December.—Snow fell from the 8th to the 10th down to 6,500 feet and again from the 28th to the 30th, when it descended to 5,000 feet on the outer ranges and to 4,000 feet in the interior.

January.—There were snowstorms on the 2nd, from the 12th to the 14th, the 19th and 20th, 26th and 27th and 30th and 31st. Snow fell as low down as 3,000 feet in the first storm and 5,000 feet in the remaining storms of the month.

February.—Snow fell on the 5th, 6th, 10th, the 12th and 13th, the 16th and 24th. The only general and severe snowstorm was on the 12th and 13th, when snow fell down to 2,500 feet. This was the most severe storm of the winter in Chamba.

March.—Light snow fell on the 10th and heavy and general snow on the 21st and 28th. Snow fell down to 5,500 feet on the 21st and to 4,500 feet on the 28th. The snowfall in this month was heavier than usual and descended to unusually low altitudes.

April.—There was a heavy fall of snow in the main Ravi Valley on the 5th, which descended to comparatively low levels.

The following special report regarding the snowfall in the Chamba State has been received from the Deputy Conservator of Forests :

Statement of the snowfall measured.

Month.	DALHOUSIE NEIGH- BOURHOOD.			WEST OF STATE.	TISA RANGE, NORTH OF STATE.			VALLEY OF THE RAVI.					
	Kalatop, 8,000 feet.	Surkhigalli, 5,000 feet.	Banikhet, 4,500 feet.	Bhandal, 6,000 feet.	Tisa, 5,000 feet.	Thanela, 7,000 feet.	Chanan, 6,500 feet.	Chamba, 3,000 feet.	Bassu, 5,500 feet	Chitral, 6,000 feet.	Oiansa, 7,000 feet.	Barmant, 7,000 feet.

"The total snowfall of the recording stations during the winter of 1896-97 was in excess of that of the previous winter, but generally less than that of the winter of 1894-95. The snowfall on the higher ranges was, however, probably greater than that of the winter of 1894-95, that is to say, at elevations about 9,000 feet. This is borne out by the snowfall measured at Barmaur, a place at the extreme east of the state and nearly surrounded by high ranges.

"The principal storms which caused snow to fall generally over the state came from a westerly direction, and were preceded by high winds and rain at low elevations. These storms occurred on the 28th to the 30th December, the 12th to 14th, 19th, 20th, 27th, 30th and 31st January, the 12th and 13th February and the 21st and 28th March.

"The chief feature of the snowfall of the winter under report was the late fall in March at comparatively low elevations, and even in April at places at the foot of high ranges. The last fall of importance at elevations over 9,000 feet was as late as the 7th May.

"The heaviest general fall of snow occurred on the 12th and 13th February, when the snow line descended to 2,500 feet.

"The weather was unusually cold during March, April and up to the 15th of May, and the amount of cloud much greater than usual. This has resulted in the accumulation of snow in the middle of May being greater than in normal years, and its presence in large quantities at much lower elevations than usual. The accumulation of snow on the higher passes seems to be undoubtedly greater than is usual in the middle of May, and the Sâch Pass is not open yet.

"Although the late snowfalls and unusual accumulation in May no doubt have resulted in a lower temperature than usual, the real cause seems to be due to the series of storms accompanied by high winds which have reached this part of the country from the west. Between these storms, local ones of less importance have occurred, which are probably due to the snowfall, and amount of cloud ensuing from the former and the falls of rain during April and May at low elevations have been above the normal for those months."

(5) KULU.

January.—Snow fell on eleven days in the Kulu Tahsil and on nine days in the Plach Tahsil. The falls in the beginning of the month descended to 3,500 feet.

February was, on the whole, less stormy than January. Snow fell on seven days during the month. The most severe storm was on the 12th, when snow fell down to 2,650 feet. The high passes were all, with the exception of Jalori, closed throughout the month.

March.—Snowstorms occurred on seven days in the Kulu and Plach Tahsils. The falls were generally on the higher elevations above 11,000 feet, but in the storm of the 20th and 21st snow fell down to 8,000 feet.

April.—The snow fall was much heavier than usual. Snow fell on twelve days in both Tahsils, and descended on the 25th to a height of 7,000 feet.

The snowfall of this winter is considered by the natives of the district to be somewhat greater than in the previous winter.

The following gives the depth of snow at the end of each month from January to May 1897 and also on the 25th May of the past six years on seven of the passes in this district for comparison:

Tahsil.	Name of Pass.	Elevation.	DEPTH OF SNOW IN					DEPTH OF SNOW ON THE 25TH MAY						
			January 1897.	February 1897.	March 1897.	April 1897.	May 1897.	1896.	1895.	1894.	1893.	1892.	1891.	1890.
		Feet.	Feet.	Feet.	Feet.	Feet.	Feet.	Feet.	Feet.	Feet.	Feet.	Feet.	Feet.	Feet.
Kulu	Hamta . .	14,500	14	13½	14½	11	6	1	3	6	7	½	12	6
	Rotang . .	13,000	14	12	12	11	7	8	6	9	9	1	9	5
	Bhubhu . .	10,000	6	6	5	2	1	Nil	Nil	1	1	?	Nil	Nil
	Gargarasan . .	17,000	10	12	8	7	4	2	2	2	4	1	4	2
Plach	Srikand . .	15,000	12	12	18	15	8	7	10	12	15	4	3½	12
	Bashleo . .	11,000	9	9	4	3	Nil	Nil	Nil	Nil	Nil	Nil	1	Nil
	Jalori . .	10,500	9	8	4	3	Nil	Nil	Nil	Nil	Nil	Nil	1	Nil

The Assistant Commissioner, Kulu, writing on the 26th May, says:

"The general opinion seems to be that the snowfall of the present year is in amount very little, if anything, above the normal, though it certainly exceeds last year's fall. I am inclined to think this opinion correct from my own observation. The snow is lying very late this year. I should say from what I have seen that the season is a full fortnight later than usual owing to the frequent rain and hailstorms in March and April. As to whether there is any connection between the depth of snow accumulation and the amount of cloud I am unable to say. Temperature has certainly been much lower throughout Kulu than is usual at this time of the year."

(6) SIMLA HILL DISTRICTS AND UPPER SUTLEJ VALLEY.

September.—There was a heavy fall of snow above 10,000 feet on the 22nd and 24th.

October.—Heavy snow fell on the 4th above 9,500 feet and again on the 29th above 9,000 feet. The latter fall was estimated at from 2 to 3 feet in depth at 10,000 feet.

November.—A heavy fall of snow occurred on the 7th above 10,000 feet and again on the 22nd and 23rd above 9,000 feet.

December.—There were slight falls on the 8th and 18th and heavy falls on the 25th, 29th and 31st. Snow fell down to 5,700 feet on the 25th to 7,000 feet on the 29th and to 5,700 feet on the 31st.

The fall on the 25th was 3 feet in depth above 10,000 feet.

January.—Frequent snowstorms occurred during the month—more especially on the 3rd, 6th, 11th, 12th, 15th, 16th, 19th, 25th, 26th and 27th. The depth of snow on the Rupin Pass was reported to be 8 to 9 feet and on the Buldar Pass 10 to 12 feet at the end of the month.

February.—There were snowstorms on the 1st, 6th, 7th, 12th, 13th, 24th and 25th. The heaviest fall was on the 12th, when snow fell to 5,700 feet. The depth of snow at Kilba was $1\frac{1}{2}$ feet. The snowfall in the storms of the 24th and 25th did not extend below 10,000 feet.

March.—There were more frequent storms than usual, and snow fell on the higher ranges on the 4th, 10th, 18th, 20th and 21st and from the 27th to the 29th. The last storm (from the 27th to the 29th) was very severe and gave an unusually heavy fall. Snow fell as low down as 5,700 feet. The depth of snow on the Rupin and Buldar Passes was estimated at between 15 and 20 feet.

April.—Snow fell daily from the 19th to the 28th on the higher ranges above 10,000 feet. The falls were generally light.

May.—Snowstorms occurred on the 6th, 7th, 9th, 11th, 12th and 13th on the higher elevations above 10,000 feet.

The following gives the depth of accumulation of snow on the various passes in the district on the 15th of May:

Name of Pass.	Elevation.	Approximate depth of snow.
		Ft.
Harung	13,000	6
Buldar	16,000	25 to 30
Rupin	15,000	15
Brinda	15,000	15 to 20
Runang	14,000	10 to 15
Moral Ridge	12,000	6

The following gives a comparative statement of the winter precipitation at Kilba in the Upper Sutlej Valley (height about 7,500 feet) during the past six years :

Station.	TOTAL RAINFALL FROM DECEMBER TO MARCH IN					
	1897.	1896.	1895.	1894.	1893.	1892.
	Inches.	Inches.	Inches.	Inches.	Inches.	Inches.
Kilba	17.59	2.47	13.78	20.98	15.89	4.31

The following additional remarks have been sent as a special report for the season by the Deputy Conservator of Forests :

"The accumulation on the upper slopes appears to be very large, much more so than usual in normal years. The last heavy fall on the 24th March started several snow avalanches which descended into the valley, and on this date over the Sutlej below Mehbar, 6,000 feet, there is a snow bridge at least 10 feet thick, and another over the Baspa, 6,000 feet. Between Chargaon and Kilba snow avalanches descended down the Tikru, Phinla and Tempan Valleys and for some time bridged the Sutlej."

(B) NORTH-WESTERN PROVINCES HIMALAYAS.

(1) KUMAON.

The following is a statement of the estimated snowfall in this district, measured in the same manner as in former years in accordance with arrangements made in the year 1890 :

Month.	Fall on Pindari and Pankua Peaks.	Fall on Rajm-dhura and Uta-dhura Peaks.	Fall on Malla Byans, Chandan and Darma.
	Ft. In.	Ft. In.	Ft. In.
16th November to 15th December 1896	3 0	6 0	2 0
16th December 1896 to 15th January 1897	12 6	16 6	5 0
16th January to 15th February 1897	10 0	31 0	4 6
16th February to 15th March 1897	Reports not received.		
March 1st to 15th, 1897			
Total fall in winter of 1897
Total fall in winter of 1896	14 0	32 0	9 6
Total fall in winter of 1895	29 8	71 3	18 3
Total fall in winter of 1894	33 3	57 3	33 6

The snowfall of the past winter in Kumaon was probably about normal, but was considerably larger than in the winter of 1895-96.

(2) GARHWAL.

A report received from the Deputy Commissioner gives a brief account of the snowfall up to the end of February. In that it is stated that in the northern parts of the district the snowfalls were more frequent, but not so heavy as in the previous winter. In the southern part of the district the falls were neither frequent nor heavy. The snowfall was hence regarded as less than the normal.

(C) ASSAM HIMALAYAS.

Hills north of Darrang District.—The hill people who have come down this year report that the snowfall of the past winter was heavier than in the preceding winter.

Hills north of Kamrup.—The snowfall is stated to be considerably smaller in amount than in the preceding winter.

Hills north of Saidiya.—The snowfall in these hills was heavier than for some years past. There were two heavy falls—one early in the season, and the second late in March.

PERSIA.

The data for this area are very scanty. Weather was less disturbed than usual—more especially in November and December—and the rainfall at Baghdad and Bushire was less than the normal. So far as can be judged from the imperfect data, the snowfall on the higher elevations was also much below the normal.

Summary of the snowfall data.

The winter commenced earlier than usual in Afghanistan and the Upper India hill districts. The first important snowfall of the season in that area occurred on the 26th to the 28th November, and was very heavy on the Sufed Koh mountains and in Chitral. December was finer than usual, on the whole, in these hills, and the snowfall in that month was moderate in amount.

A number of disturbances affected Northern India in January, but they were, with one exception, of slight intensity and somewhat abnormal in character. They gave normal to heavy snow on the higher elevations of the Western Himalayas, and slightly heavier rain than usual in the Punjab and lower elevations of the Western Himalayas. The snow did not fall to such low elevations as is frequently the case. February was less disturbed than usual. There was a very heavy fall in Chamba on the 12th and 13th, stated to be the heaviest of the whole season. The general character of the precipitation in the hills was similar to that of the preceding month.

The chief feature of the winter was the abnormally frequent and heavy snowfall in the months of March and April, and the winter did not terminate until the middle or end of May in the interior or higher valleys (as, for example, at Leh, Dras, Kailang, Poo, etc.).

There were abnormally general and heavy falls on the 21st and 28th of March and the 24th and 25th of April. The last week of March was unusually disturbed over the whole length of the Himalayas, and more or less heavy snow fell in the Assam and Sikkim Himalayas as well as the Punjab Himalayas during this period.

More or less heavy snow appears to have fallen over a part, if not the whole, of the Kashmir Himalayas in the fourth week of May, as the latest weather reports from Dras show that nearly 5 feet of snow fell during the stormy weather of the 21st to the 24th of May.

The chief features of the snowfall of the cold weather season were:

- (1) The winter commenced considerably earlier than usual in Afghanistan, Chitral and Kashmir.
- (2) The number of cold weather disturbances from November to February was somewhat smaller than usual and the storms were of slight intensity, and the snowfall up to the end of February was probably below the normal on the whole and was nowhere excessive.
- (3) The number of storms in March, April and May (and more especially in March) was unusually large, and the snowfall of this period was more or less considerably in excess over probably the whole Himalayan area, but more especially in the Western Himalayas and North Afghanistan. The snowfall of the whole season was hence in considerable to perhaps large excess on the higher

elevations of Afghanistan, Chitral, Kashmir and the Punjab Himalayas. The winter was severe and prolonged considerably beyond its normal date of closure.

- (4) The total fall of the period was most largely in excess on the higher ranges and was probably in large excess on elevations above 15,000 feet. It was about normal in the Punjab Himalayas at elevations below 10,000 feet.
- (5) The snowfall of the past season was, so far as can be judged from the data, normal in Baluchistan and in moderate to considerable excess in Afghanistan. A considerable amount of snow is still lying at the end of May on the higher ranges of the Sufed Koh and the higher ranges of North Afghanistan, but the extent is probably not much larger than usual. This snow accumulation is hence probably not an important factor.
- (6) The fall in Chitral and Kashmir was much above the normal during the whole period from November to May, and unusually frequent and heavy snow has fallen during the past three months in these regions, so that the winter has been prolonged at least a month beyond its normal date. The fall of the past winter has hence been much above the normal, and is, in the opinion of the natives of these districts, similar to that of the winters of 1876-77 and 1877-78. The snowfall of the past two months, it should, however, be remembered, has occurred chiefly on the higher elevations, and hence, although there is a much greater depth of snow than usual, there is probably no large and abnormal extension of snow-clad surface.
- (7) The fall in the Punjab Himalayas has apparently been heavier than usual, chiefly due to the frequent snowstorms of March and April. So far as can be judged from the actual data received, the accumulation on the higher elevations in Chamba and Kulu does not appear to be excessive and is probably about normal. It is probably in slight to moderate excess in the Simla hill districts.
- (8) The data for Gurhwal and Kumaon show that the snowfall in these areas up to the end of February was considerably below the normal.
- (9) The data for Sikkim are practically *nil*, as the observatory at Gnatong ceased to send daily weather telegrams in November.
- (10) The information relative to the snowfall in the Assam Himalayas is as usual very scanty, but appears to indicate that the fall was larger than usual and that a heavy and late general fall was received in March.

The data hence establish that there has been more snow than usual during the past winter over the whole of the Western Himalayas and in North Afghanistan and Chitral. The winter commenced early and terminated much later than usual, and was characterized throughout by the occurrence of frequent light and moderate falls. Over the Eastern and Central Himalayas, it is almost certain that the snowfall was probably not above the normal and that there is no excessive accumulation. In the Western Himalayas, from Chamba to Kumaon and Garhwal, the information indicates that the snowfall in the early part of the winter was not above the normal, except perhaps on the highest ranges. Frequent snow fell in March and April, but the chief effect of this has been to increase the depth of the snow accumulation above the permanent snow line. It is hence probable that there is at the present time no large extension of snow-clad surface, and hence the conditions in those mountain areas are not of the kind which exercise a large influence in modifying the strength and extension of the monsoon currents. On the other hand, there has been prolonged and heavy snow in the mountain area, including North Afghanistan, Chitral and Kashmir, more especially the northern districts, and the general consensus of opinion is that it is the most severe winter experienced in these areas since the severe winters of 1876-77 and 1877-78. It is hence the most important factor in the snowfall conditions and must be taken carefully into account.

Abnormal features of the meteorology of India during the previous eighteen months.

The winter of 1895-96 commenced earlier than usual in October in the Afghan area. Weather was less disturbed than usual in December and January, and the snowfall of the period was less than the normal. Several storms occurred in February, but only one, that of the 23rd to the 27th, gave heavy snow in the Western Himalayas. Temperature was, as in January, more or less in excess over the whole of Northern and Central India. March and April were unusually dry, and temperature was steadily above the normal by amounts varying on the mean of the period between 2° and 4° over nearly the whole of Northern and Central India. Assam received frequent series of thunderstorms, which gave larger rain totals for the period than usual. Weather was, on the other hand, less disturbed by hot weather storms in Bengal, and the rainfall was scanty—especially in April.

May was characterized by exaggerated hot weather conditions over the whole of India. The weather was excessively hot and dry throughout, and temperature was in moderate to large excess over the whole of Northern and Central India. The excess was greatest in the Punjab ($+4^{\circ}8$) and Chota Nagpur ($+3^{\circ}8$).

The abnormal conditions of great dryness and excessive temperature which held steadily in North-Western India from the beginning of February to the end of May reduced the winter accumulation of snow much more rapidly than usual, and in April and May the depth and extent of snow on the Western Himalayas were undoubtedly much less than usual.

At the end of May 1896 conditions in India were similar to those which obtained in May 1895.

The monsoon currents were established on the Malabar and Bombay Coasts from a week to a fortnight later than usual, but advanced with unusual rapidity (as in 1893, 1894 and 1895) across Central India and Rajputana to the South-East Punjab.

The monsoon currents were of normal strength during the last fortnight of June and gave general rain, moderate in amount, over the whole of Northern and Central India and the North Deccan.

They were of moderate strength, but very unsteady in July and August. They held during this period without any prolonged break, but a succession of cyclonic storms formed at the head of the Bay and passed westwards through Orissa, the Central Provinces and the western states of Central India, into North Bombay. The indraught to these storms deprived Northern India of rainfall, and gave cyclonic downpours to the areas over which the storms passed. As these storms approached Western India, the indraught from the Arabian Sea increased considerably and gave strong winds and heavy rain to Kathiawar, Gujarat and the Bombay coast districts of Colaba, Thana, Broach, Bombay and Surat.

The distribution of the rainfall of these two months was hence chiefly determined by the tracks of these storms.

The rains ceased in the fourth week of August over nearly the whole of North-Western India, including the Punjab, Rajputana and the western districts of the North-Western Provinces.

The distribution of the rainfall in September 1896 resembled that of October rather than that of September. The rainfall was restricted chiefly to the Peninsula and North-Eastern India. The rains ceased in the northern half of the Peninsula and Bengal in the first and third weeks of September respectively. A remarkable and sudden change in the pressure conditions occurred in that month. Pressure increased abnormally rapidly in the Deccan and Central India and was excessive over that area.

Throughout October and the greater part of November the effect of the accumulation of pressure was to divert the retreating monsoon currents from that area and the Deccan and North Madras received little or no rain during this period. Lower Burma received favourable rain—more especially in October and the first half of November—and South India throughout the whole period from the beginning of October to the middle of December.

The rainfall of the south-west monsoon proper (*i.e.*, from June to September) was in excess in a broad belt of country at the head of the Peninsula, including Orissa, the Central Provinces, Gujarat and Kathiawar, and was more or less seriously in defect over the whole of Northern India, Rajputana and the eastern districts or states of Central India. The rainfall of the retreating south-west monsoon was favourable in Lower Burma and Southern India, but was very scanty in other districts. The following gives data showing the distribution of the rainfall of the two periods :

Province or Division.	SOUTH-WEST MONSOON PERIOD, JUNE TO SEPTEMBER 1896.				RETREATING SOUTH-WEST MONSOON PERIOD, OCTOBER TO DECEMBER 1896.

Burma	104'90	106'02	— 1'12	— 1	7'15	9'41	— 2'26	— 24

The most remarkable feature of the south-west monsoon rains of 1896 was their disastrously early termination over the whole of India, with the exception of Coorg, Mysore, South and Central Madras (or of Southern India) and Lower and Central Burma. It affected the crops in the areas in the north of the Peninsula, which had received heavy rain in the height of the monsoon during July and August, as seriously as in the districts of Northern India, which had obtained more or less scanty supplies of rain. The following table gives the approximate date of the commencement and termination of the monsoon rains in each of the larger provinces in India and the normal date of these events :

Province.	BEGINNING.			TERMINATION.		
	Mean date of beginning of south-west monsoon rains, 1896.	Normal or average date of commencement of south-west monsoon rains.	Variation from normal.	Mean date of termination of south-west monsoon rains, 1896.	Normal or average date of termination of south-west monsoon rains.	Variation from normal.
Bombay	14th June	5th June	9 days later	31st August	15th October	45 days earlier.
Central Provinces	17th „	10th „	7 „ „	31st „	15th „	45 „ „
Central India	21st „	15th „	6 „ „	28th „	30th September	33 „ „

North-Western Provinces.	21st „	25th „	4 „ earlier	30th August	30th September.	31 „ „
East Punjab	25th „	1st July	6 „ „	22nd „	15th „	24 „ „

Whence the monsoon was later in commencing in the coast districts, but spread more rapidly into the interior than usual, so that, although its advent was delayed upwards of a week in the Bombay coast districts, it began nearly a week earlier in Upper India.

On the other hand, it terminated much earlier than usual, from three weeks in Upper India to six weeks over the important rice-growing districts of Bengal, Bihar, Bombay and the Central Provinces.

The late or retreating south-west monsoon rains terminated in Southern India slightly earlier than usual in the middle of December. The cold weather rains began unusually early in the North Punjab and the mountain districts to the north and north-west.

November was slightly more disturbed than usual in Upper India, and the mountains to the north-west and north of the Punjab received an early and heavy fall of snow during the last week of the month.

December was a very quiet month in Northern India, and little snow fell on the hills during that month.

The following is a brief summary of the chief features of the meteorology of India during the past five months:

January was somewhat more disturbed than usual. A succession of storms crossed Northern India. They were, with one exception, of very slight intensity, but gave moderately heavy snow on the Western Himalayas and rain, chiefly in the Punjab, the Central Provinces and North-Western Provinces, which received more than the normal fall.

Temperature was above the normal, except in the North Punjab, Sind, Cutch, Kathiawar and South-West Rajputana. The excess was most pronounced in the Deccan, where it averaged 4° . The air was much drier than usual, more especially in the Peninsula and North-East India.

February was less drier and less disturbed than usual in North-Western India. Disturbances of the hot weather type in North-Eastern India gave moderate rain (considerably in excess of the small normal fall of the month) to South Bihar, Chota Nagpur, Orissa and the eastern districts of the Central Provinces. The mean temperature of the month was in excess over the whole of Burma and India, except Lower Sind, Cutch and Kathiawar. The excess was, as in January, greatest in the Deccan, but was more pronounced, averaging 5° .

March was, on the other hand, more unsettled and stormy than usual, and a succession of storms of the cold weather type crossed Northern India. Two of these storms (*viz.*, from the 20th to the 25th and the 26th to the 30th) gave very heavy and general snow on the Western Himalayas and general rain over the greater part of Northern India. The rainfall was normal in the Punjab, and in moderate to large excess in North-Eastern India, but was scanty in the North-Western Provinces and practically *nil* in Rajputana, Central India and the Central Provinces. The unsettled weather of the month reduced temperature below the normal over the whole of India north of a line joining Karwar, Chanda, Calcutta and Dacca. The deficiency was greatest in the North Punjab, Cutch, Kathiawar and South-West Rajputana, in which it was slightly over 2° on the mean of the month. Temperature was in slight excess in Burma and in slight to moderate excess in the South Deccan and Southern India.

April was, on the whole, more disturbed than usual. The disturbances were chiefly of the hot weather type, giving rise to local duststorms and thunderstorms. There were frequent snow showers in the Kashmir and Punjab Himalayas, but only one storm—*viz.*, from the 21st to the 25th—gave general snow in that area. The rainfall of the month was in considerable to large defect in Assam and East Bengal and in moderate defect in Burma relatively to the normal. Elsewhere it was generally above the small normal of the period, more especially in Malabar and South India.

The variations of the temperature conditions from the normal were smaller than in the preceding three months. Temperature was in excess over the whole area, except the Punjab, Sind, North Rajputana and Baluchistan. The deficiency was marked in the Punjab hills and North Punjab, in which it ranged between 2° and 5° . Temperature was most largely in excess in Burma by

amounts averaging 2° . The unsettled weather of the month hence only affected temperature in the hill districts and Upper India. It also caused a considerable excess of pressure in that area, whilst the continued high temperature in Southern India and Burma reduced pressure locally, and the deficiency was moderately large in both areas.

May.—The mean pressure of the Indian area was slightly below the normal ($\cdot 005$ inch). Pressure was, relatively to the general condition, more or less considerably in defect in Northern India and in excess in the Peninsula, Central India, North Bombay and Burma. This contrast of conditions, it may be noted, almost invariably obtains in years of strongly marked hot weather conditions—more especially after milder winters than usual in the Western Himalayas. The contrast was less marked than in May 1896 and May 1895. The local deficiency was most marked in Central Bihar, the North-Western Provinces and the South Punjab, and the local excess was greatest in the west coast districts from Bhuj to Karwar. The following gives data for stations in these areas of greatest excess and deficiency of pressure :

Station.	PRESSURE ANOMALY IN MAY		Station.	PRESSURE ANOMALY IN MAY	
	1897.	1896.		1897.	1896.
	Inch.	Inch.		Inch.	Inch.
Jacobabad	— $\cdot 028$	— $\cdot 021$	Bhuj	+ $\cdot 022$	+ $\cdot 023$
Mooltan	— $\cdot 027$	— $\cdot 031$	Rajkot.	+ $\cdot 027$	+ $\cdot 041$
Ludhiana	— $\cdot 033$	— $\cdot 031$	Bombay	+ $\cdot 024$	+ $\cdot 031$
Sirsa	— $\cdot 025$	— $\cdot 023$	Ratnagiri	+ $\cdot 033$	+ $\cdot 037$
Roorkee	— $\cdot 027$	— $\cdot 021$	Goa	+ $\cdot 034$	+ $\cdot 041$
Agra	— $\cdot 023$	— $\cdot 025$	Karwar	+ $\cdot 028$	+ $\cdot 033$
Lucknow	— $\cdot 023$	— $\cdot 023$	Khandwa	+ $\cdot 022$	+ $\cdot 032$
Patna	— $\cdot 029$	— $\cdot 023$	Indore	+ $\cdot 025$	+ $\cdot 037$
Gaya	— $\cdot 029$	— $\cdot 023$			

The pressure variations in May 1887, May 1894, May 1895 and May 1896 were very similar to those of the corresponding month of the present year, the chief difference being that they were slightly more marked in these years.

The combination of increased pressure in Western India and diminished pressure in Northern India displaced the trough of low pressure from the south of the Gangetic Plain to the centre. On the mean of the month its axis was defined by the stations of Hazaribagh, Gaya, Lucknow, Cawnpore, Meerut and Montgomery.

Temperature was excessive over nearly the whole of India, but was in slight defect in Assam and Lower Burma, which areas received frequent showers during the month ; and it was most largely in excess in the area including the South Punjab, Rajputana, North-Western Provinces, Bundelkhand, South Bihar, Baghelkhand and the greater part of Chota Nagpur, in which the mean temperature of the month ranged between 4° and $5\frac{1}{2}^{\circ}$ above the normal.

Frequent rain was received in Burma, Assam and Bengal. The greater part of the rain accompanied thunderstorms, series of which occurred almost

daily throughout the month in Assam and Bengal. The rainfall of the month was favourable in its distribution in these two areas, and in slight to moderate excess. Weather was frequently disturbed with duststorms in North-Western India during the month, but the rainfall was practically *nil* in the plains of Upper India.

The meteorology of India during the past five months has been characterized by strongly-marked abnormal features. The following states the most important:

(1) Pressure was from January to March and in May below the normal over the Indian area, as is shown by the following statement:

Month.	MEAN 8 A.M. PRESSURE ANOMALY OF INDIAN AREA.			
	1897.	1896.	1895.	1894.
	Inch.	Inch.	Inch.	Inch.
January .	— '003	— '003	— '009	— '020
February .	— '036	— '012	+ '009	+ '010
March .	— '020	— '022	— '018	— '017
April .	+ '038	— '032	+ '013	— '019
May .	— '005	+ '013	— '007	— '023

The increased pressure in April was apparently an after effect of the heavy snow of the preceding month in the Upper India hills.

(2) Pressure has been throughout in slight local defect in North-Eastern India, and was in local defect from February to April in Southern India, as is shown by the following data:

Division.	MEAN 8 A.M. PRESSURE ANOMALY IN				
	January.	February.	March.	April.	May.
	Inch.	Inch.	Inch.	Inch.	Inch.
Burma	— '009	+ '004	+ '009	— '023	+ '012
Assam	— '019	+ '002	+ '010	— '004	— '007
Bengal and Orissa	— '008	— '005	+ '004	— '001	— '005
Bihar	— '008	— '002	— '003	+ '008	— '019
Chota Nagpur	+ '008	+ '007	— '009	+ '014	— '017
South India	+ '004	— '010	— '002	— '012	+ '004

(3) Pressure has been generally in local excess in the west of the Peninsula, Central India and the Deccan. The area of greatest excess has varied considerably from month to month, but in April lay over the North Punjab and in May over the west coast districts between Bhuj and Karwar.

The following gives data :

Division.	MEAN 8 A.M. PRESSURE ANOMALY IN				
	January.	February.	March.	April.	May.
	Inch.	Inch.	Inch.	Inch.	Inch.
Central India	+ '010	+ '004	+ '002	+ '015	+ '001
Central Provinces and Berar	— '002	— '012	+ '005	+ '004	+ '009
Bombay Coast	+ '013	+ '021	+ '019	— '015	+ '030
Bombay Deccan	+ '001	— '001	+ '007	— '013	+ '018
Malabar	0	+ '007	+ '007	— '026	+ '011

(4) A most important effect of the hot weather actions in the month of May has been to increase pressure locally in Burma and to decrease it in the Punjab and Rajputana. This is best seen by the following data for typical station in these three areas :

Station.	MEAN 8 A.M. PRESSURE ANOMALY IN		
	March.	April.	May.
	Inch.	Inch.	Inch.
Diamond Island	+ '006	— '035	+ '005
Toungoo	+ '008	— '036	+ '014
Akyab	+ '011	— '015	+ '012
Jacobabad	— '005	+ '025	— '028
Sirsa	— '012	+ '036	— '025
Lahore	— '028	+ '033	— '020
Mooltan	— '038	+ '024	— '027
Sialkot	— '014	+ '038	— '006

Ajmere	— '013	+ '010	— '010
Jeypore	— '005	+ '018	— '006

(5) Pressure has been generally in relative defect at the hill stations, or the vertical pressure anomalies have been positive from January to May. The following gives data for four pairs of stations :

Pair of stations.	MEAN 8 A.M. VERTICAL PRESSURE ANOMALY IN				
	January 1897.	February 1897.	March 1897.	April 1897.	May 1897.
	Inch.	Inch.	Inch.	Inch.	Inch.
Leh and Lahore	— '026	+ '059	— '017
Simla and Ludhiana	— '004	+ '015	+ '002	— '019	+ '054
Darjeeling and Dhubri	+ '024	+ '019	+ '001	+ '014	+ '028
Quetta and Jacobabad	— '018	— '010	— '003	— '013	+ '050

(6) Temperature has, on the mean of the whole period, been more or less considerably in excess over the whole of Northern and Central India and the northern half of the Peninsula. It was in general excess in January and February. The disturbed weather of March reduced it below the normal to a slight or moderate extent in Northern and Central India. It was again normal or in excess over that area (except the Punjab) in April and was in general excess in May. As is the usual rule in the cold and hot weather seasons, the excess has been somewhat more strongly marked in the day than the night temperature. The following gives comparative data of the variations of the mean maximum, mean minimum and mean daily temperatures for the whole of Burma, Northern and Central India and the north of the Peninsula, month by month, from January to May 1896.

Maximum temperature.

Temperature has been steadily above the normal during the past five months over the Peninsula and in Burma. The variations in Northern and Central India are very interesting, as they throw light upon the probable accumulation of snow in the mountain area of Northern India.

Heavy general snowfall in the Western Himalayas always reduces temperature considerably in Northern and Central India. Excessive and prolonged snowfall in the winter in that area is almost invariably associated with lower temperature than usual during the hot weather, and the character of the reduction of temperature on the whole, *i.e.*, its amount, extent and period, is a fair estimate of the influence of the snowfall on the meteorology of India. Viewed from this stand-point, the general excess of temperature in January and February is in agreement with the snowfall of these two months, which was undoubtedly generally below that of the period. The general reduction of temperature in Northern and Central India in March was evidently a result of the heavy and general snowfall of the month. The influence of this snowfall and that of April decreased rapidly, and the area of diminished temperature contracted to Upper India on the mean of the month in April and to the North Punjab in the first half of May and disappeared in the second half of the month.

The diminishing influence of the winter snowfall is shown very clearly by the temperature variations at the hill stations in Upper India given below :

(7) The air has been much drier than usual during the period over nearly the whole of the interior, and more especially in the Gangetic Plain, Rajputana, Central India, Berar and the Central Provinces. This feature of increased dryness is less marked than in the corresponding period of 1896. The following gives comparative data for eleven representative stations :

(8) The distribution of the cold and hot weather rainfall has been unusual. The rainfall of both seasons was slightly above the normal in the Punjab and in considerable defect in Rajputana, the North Western Provinces and the greater part of Bengal. It was in marked excess in both seasons in Chota Nagpur, Orissa and the Central Provinces. The following gives comparative data, showing its distribution in both seasons :

Summary.—The following is a summary of the chief features of the meteorology of India during the past six months, which are most likely to influence the advance of the monsoon currents and the distribution of the monsoon rainfall :

- (1) The snowfall of the past winter is probably normal in amount and distribution in the Eastern and Central Himalayas. The winter was more prolonged than usual in the Punjab Himalayas. The snowfall was slightly below the normal in December, January and February, but was frequent and heavy in March and April. This, however, tended to increase the snow accumulation on the higher ranges, but not to give an abnormal extension of snow-clad surface. The snowfall has been unusually heavy in North Kashmir and Central and North Afghanistan throughout the whole season, but the chief feature has been the excessive fall from the beginning of March to the present time (May 25th). This is the only area in which the snowfall conditions are likely to exercise any considerable effect on the meteorology of North-Western India.
- (2) The pressure conditions in India are generally favourable. There has been throughout a tendency to higher pressure in the Punjab, West Rajputana, Sind and Gujarat. It was very slightly shown in January, February and March, but became prominent in April. It was, less marked in the Punjab in May, a favourable change for rainfall in the East Punjab. If the monsoon be not strong, this accumulation of pressure (in part at least a result of the excessive snow to the north of the Punjab) will undoubtedly tend to divert the monsoon currents away from Upper India.
- (3) The temperature conditions in India are as favourable as at the end of May 1893-96, and show that the influence of the winter snowfall has been slight, and was in April restricted to Upper India and in May to the Kashmir and Chitral hill districts and the northern districts of the Punjab.
- (4) This distribution of the rainfall in India during the past five months is, on the whole, favourable, as are also the humidity conditions.
- (5) The air movement has been more vigorous than usual, due to the intensified thermal conditions of the period in the interior of India, thus further confirming the inference given above that the heavy snowfall in the north of the Punjab has exercised no large influence on the meteorology of India during the past two months.
- (6) Hence, as stated in the preliminary forecast, the snowfall in the Himalayan area has been of such a character as not to impress any marked conditions upon the pressure distribution, temperature and air movement in Northern and Central India unfavourable to the early or full extension of the monsoon currents in their progress northwards from the Equator.

Comparison with previous years.

During the past twenty-one years the snowfall was excessive and much above the normal in the years 1877, 1878, 1885 and 1891.

The following gives a brief statement of the chief features of the meteorology of these years :

1877.—There was heavy snowfall during the months of January, February, March and April in the Western Himalayas. It appears to have been very excessive only in the Garhwal and Kumaon Himalayas. Pressure was steadily in excess at this period in India. It was during the pre-monsoon period locally in defect in Bombay and the Deccan and was locally in excess in Northern and Central India—more especially the Punjab, Rajputana and Central India. Temperature was very considerably below the normal in North-Western India from February to May, the deficiency being very large in April (when it averaged 6° in the Punjab). The monsoon rains were very late in the Peninsula, but were, on the whole, abundant and brought the Madras famine of 1876-77 to a close. They were very largely deficient in the North-West Provinces and considerably in defect in the Punjab, Rajputana, Berar and the Central Provinces. There was, on the other hand, a large excess in Bengal and Burma.

1878.—Very heavy snow fell in the Kashmir and Punjab Himalayas in January, February, April and May, and there was an enormous accumulation of snow in the Kashmir Himalayas at the end of May. Temperature in North-Western India was above the normal in February and March, and was slightly below it in April and very largely below in May (4° to 7° in the Punjab). The chief feature of the cold weather was the excessive snowfall in Kashmir in the latter part of May, which occurred during a period of very stormy weather generally in Upper India. Pressure was steadily in defect in the Peninsula, Central India, Rajputana, and Sind during the pre-monsoon period, the deficiency being greatest on the west coast, and was considerably in excess locally in Bengal and Assam.

The rains were much later than usual on the Bombay Coast. The rainfall was generally above the average in Northern India (except the southern districts of the North-West Provinces and Bundelkhand) and the Peninsula, but was considerably in defect in Burma. The rains terminated slightly earlier than usual in North-Western India.

1885.—There was very heavy snow in the North-Western Himalayas in the months of January, February, April and May. The whole cold weather season was, on the other hand, drier than usual in North-Eastern India.

Temperature was below the normal in Northern India in January, March, April and May, the deficiency reaching its maximum in May, when it ranged from 6° to 11° in the Punjab. Pressure was locally in excess in North-Western and Central India, the excess being greatest on the North-West Frontier, and was in defect in Assam, Burma and the Peninsula.

The rains were greatly delayed on the Bombay Coast, and did not set in fully until the end of June. They were very deficient in North-Western India in June, July and September, and were generally excessive in August. The rains were normal or in excess over the greater part of India, excepting the greater part of North-Western India, where, moreover, they commenced late and terminated early.

1891.—The snowfall in the mountain regions of Baluchistan and Afghanistan was very much above the average. The winter began early in November and continued unusually late, and snow fell at frequent intervals and in large amounts during the whole of that period.

The winter was exceptionally severe and prolonged in the Western Himalayas (bordering the Punjab and North-Western Provinces). The first considerable snowfall occurred in November, and snow fell more or less steadily throughout the whole season up to nearly the end of May. The amount received in the lower ranges was generally (except in the North Punjab) not much greater than usual, but on the higher and interior ranges it was excessive, and over the greater part of the area heavier than the snowfall of 1885, and also than that of 1877 and 1878.

Pressure was steadily in excess from January to May 1891 over the Indian area by amounts averaging $\cdot 017$ inch. Pressure was locally in excess in North-Western India, the excess increasing from January to May. The excess was most pronounced in the Indus Valley and Baluchistan. Pressure was, on the other hand, locally in defect in Burma, Assam and the Peninsula.

The temperature conditions were as marked as the pressure conditions. Temperature was during the period January to May steadily below the average in Northern and Central India and above it in Burma and the Peninsula. The deficiency in Northern India increased until the month of March, in which month it was 6° in defect over the greater part of North-Western India. It decreased throughout April and May, and at the end of the latter month it was slightly above the average in North-Western India and increasing rapidly. The excessive temperature over the Peninsula and North-Eastern India was most marked in Burma, and the excess increased from January until May, when the mean of the month was upwards of 4° above the normal over the greater part of that province.

The south-west monsoon of 1891 was greatly delayed and was not fully established on the Bombay Coast until nearly the end of June. In the North-West Provinces and East Punjab the rains did not set in properly until the last week of July. Notwithstanding this prolonged delay in the establishment of the

monsoon currents in Upper India, the rainfall of the monsoon period was very largely in excess in the large area including the North-Western Provinces, the eastern districts of Rajputana, Central India and the Central Provinces, due chiefly to steady heavy rainfall in the months of August and September.

The great indraught of the monsoon currents to this area of excessive rainfall diminished the rainfall in the remainder of India—more especially in West and Central Rajputana and North Bengal and Bihar—and the rains practically failed in West and Central Rajputana. The rains ceased almost simultaneously over the whole of Northern and Central India at the beginning of the second week of October (from the 5th to 8th), and the area of heavy general rainfall was immediately transferred to South Madras, which continued to receive moderate to heavy rain during the next two months. The intermediate area, including the South Deccan, Mysore and the North Madras coast districts, which usually obtain general rain in October and November from the retreating south-west monsoon, hence suffered severely from drought during this period. The south-west monsoon finally withdrew from the Bay in the fourth week of December.

Summary.—The preceding comparison indicates that the snowfall of the past winter in the mountains to the north of Upper India was similar in amount to that of the winters of 1876-77, 1877-78, 1884-85 and 1890-91. It, however, occurred chiefly on the higher ranges, and heavy rain in April and May has helped, as in 1888-89, to reduce the accumulation on the middle ranges, so that there appears to be no large extension of snow-clad surface in May 1897, as there undoubtedly was in the corresponding months of 1877, 1878, 1885 and 1891. This is further confirmed by the temperature and pressure conditions in North-Western India, which are opposite in character to those in May of these years. The winter snowfall of 1896-97 has hence not been of such a character as to affect the meteorological conditions unfavourably for the extension of the monsoon currents over nearly the whole of Northern India. The only years in which the May conditions resemble those of the present year are 1883 and 1884, and the monsoon rains were in both years favourable as a whole. The snowfall conditions are hence not unfavourable to any marked extent.

General conditions in the Indian monsoon area and Indian Ocean.—The past five years, 1892-96, have been characterised by a cyclical variation of rainfall more prolonged in its period and of larger amount than has probably occurred during the present century. The following shows the variations of the mean annual rainfall of India, year by year, from 1876 to 1896:

Year.	Rainfall variation from normal.	Percentage variation from normal.
	Inches.	
1876	— 4'49	—11
1877	— 4'28	—11
1878	+ 6'34	+15
1879	+ 1'69	+ 4
1880	— 1'56	— 4
1881	+ 0'10	0
1882	+ 2'64	+ 6
1883	— 0'12	0
1884	+ 1'73	+ 4
1885	+ 1'05	+ 3
1886	+ 3'02	+ 7
1887	+ 2'42	+ 6
1888	— 1'54	— 4
1889	+ 2'41	+ 6
1890	+ 0'68	+ 1
1891	— 3'54	— 9
1892	+ 5'09	+12
1893	+ 9'07	+22
1894	+ 6'47	+16
1895	— 2'90	— 7
1896	— 4'83	—12

The large deficiency in the years 1876 and 1877 was due to drought in the former year over the greater part of the Peninsula and in the second year to drought in North-Western India (more especially the North-Western Provinces and Rajputana). From 1878 to 1891 the variations were comparatively small in amount, and the chief factors determining the strength of the monsoon and the distribution of the monsoon rainfall were the local conditions obtaining in India, of which an important one was the amount and period of the winter snowfall. The excessive snowfall of the winter of 1890-91 preceded and was undoubtedly the chief cause in producing the local drought and scarcity in Rajputana in 1891. 1892 initiated a period of large annual variations in the rainfall of India. These variations cannot be explained by the local conditions in India, and are apparently due to larger and more widely spread conditions obtaining almost certainly over the whole Indian monsoon area and the Indian Ocean and perhaps over a much larger area. The available data indicate that there has been a variation of equal period in the strength of the south-east trades, the phases of which were either simultaneous with or slightly antecedent in their occurrence to the corresponding phases of the rainfall in India. Theory indicates that any large and persistent variation in the strength of the south-east trades would be reproduced in the strength of the south-west monsoon. The variations in the strength of the south-east trades have been a potent and probably the chief or primary factor in determining the strength of the south-west monsoon in India during the past five years. It is hence desirable to ascertain the strength of the south-east trades during the past three or four months, as the most important indication, at the present time, of the probable strength of the approaching monsoon. The following is a summary of the information received up to the present time, partly by telegrams from the Seychelles, Zanzibar, Mauritius and Cape Town and partly from the logs of ships, regarding this important factor:

Seychelles.—The telegrams received from this station between the 1st and 15th show that conditions were slightly unfavourable at the commencement of the month, but were normal on the 12th and 13th and two following days. Winds have been very light and unsteady from the 15th to the 31st, pressure considerably below the normal and weather showery. The observations at the end of the month show that the conditions were not favourable for the early advance of the monsoon winds northward across the Equatorial belt, and were in fact even more unfavourable than at the end of May 1896.

Zanzibar.—The rainfall in March and April was unusually heavy and 55 per cent. above the normal of period. Steady southerly and moderately strong southerly winds prevailed throughout April. The rainfall was also unusually heavy in May. The total fall of the three months March to May was 40·35 inches, or 12·9 inches above the normal. The rains at Zanzibar commenced early and were excessive throughout. They have now closed, and winds which were weak at the commencement of May are now (31st May) blowing strongly.

Mauritius.—From January to April pressure was slightly (·007 inch) below the normal and the wind velocity one mile per hour above it on the average of the period. The chief feature of the weather has been a severe drought from September 1896 to the present time. During the period from January to April the rainfall was 15 inches, or 52 per cent. below normal. Three cyclones and two gales (about the normal number) have occurred in the Indian Ocean during the past five months. A telegram received from Mauritius on the 15th May states that the drought continued and that winds were more southerly than usual and slightly stronger than the average. The barometer fell ·22 inch below the normal between the 29th April and the 1st of May and again by the same amount on the 13th and 14th, due to distant disturbances in the Indian Ocean.

The following later information has been received:—The mean pressure of the month of May was ·012 inch above the normal and the mean temperature 0°·8 below it. Winds ranged in May between east-south-east and south-east by east, and the velocity of the mean air movement of the month was 1·6 miles per hour above the normal. The drought still continues, the rainfall of the month being only ·66 inch as compared with a normal of 4·28 inches. Strong south-east trades prevail to the south of Mauritius.

South Australia.—The Government Astronomer, writing on the 7th April, says:—"The drought here has only partially broken up."

Cape Colony.—Mr. Hutchins, who pointed out in April 1896 the strong probability of a weak monsoon and the consequent partial failure of the rains in that year in India from the absence of strength in the south-east trades in South Africa at that time, has telegraphed the following information (on the 7th May) respecting the strength of the trades during the past four months :

“ The strength of the south-east trades was in excess of the normal up to the first or second week of January. Thence to the middle of April the trades were below normal, but stronger than in the same months last year. From the middle of April to date (7th May) the trades have been steady and above the normal, increasing to gales on the 3rd, 4th and 5th and giving heavy rains along the south-east coast and disastrous floods at Port Elizabeth. The rainfall of the Cape Peninsula and coast districts has been this year light and normal. The south-east trades rainfall was abundant up to Christmas, since which it has been irregular ; deficient over considerable areas and in excess in others. There was continued heavy rain during January in the eastern districts of the Orange Free State. The character of the rainfall in South Africa during the past four months appears to me indicative of renewed strength in the south-east trades.”

A later telegram, dated 26th May, states that the south-east rainy season lasted longer than usual, but has at length broken up, and the concluding weather was, in Mr. Hutchins's opinion, distinctly favourable for a good monsoon in India.

Logs of ships.—The information derived from this source is unusually scanty. Vessels proceeding from Zanzibar to the Seychelles and Bombay report generally the prevalence of strong and steady south-east trades to the south of Lat. 5° S. Their logs also show that there was during the first three weeks of May a belt of light variable airs and calms, about 200 miles in width, over the Equatorial belt, to the north of which in the Arabian Sea light to moderate north-east to north-west winds prevailed.

Summary.—The preceding has shown that there has been a cyclical variation of rainfall of India during the past five years which has formed the dominating feature of the meteorology of that period. The first three years (1892-94) of the period were characterized by excessive rain. The second year, *viz.*, 1893, was the culminating year of the excessive rainfall. The rainfall was in excess in each of the four periods of the year. The south-west monsoon commenced early and terminated unusually late in Northern India (at least a month after its normal date) in the Gangetic Plain, and the excess was the largest on record (*viz.*, 22 per cent. for the whole year). This period of excessive rain has been followed by two years of deficient rainfall, and last year (1896) was characterized by features the opposite to those of 1893. In other words, the rainfall of that year was practically in defect in all seasons, the monsoon commenced late and withdrew unusually early from Northern and Central India, and the total rainfall of the year was very deficient (12 per cent.). A consideration of these figures shows clearly in the first place that the years 1895-96 were the opposite phase of a cyclical variation to that of the preceding three years, and that the period of this phase will probably include the present year. There is hence a considerable antecedent probability from these figures that the present year will be one of deficient rainfall and be the last year of the cycle.

It is also certain that this large cyclical variation, the dominating feature of the meteorology of the past five years, has been produced by some large and general persistent abnormal actions or features, probably over a much wider area than India. That the period has been very anomalous over a much larger area than India has been shown by the occurrence of drought in the Cape Colony, Western Australia and Mauritius, and by the remarkable northward extension of icebergs during the past two years in the Antarctic Ocean, and their unusual prevalence to the east and south of South Africa. A knowledge of the cause or actions originating this cyclical variation would assist materially in determining whether the cycle will persist to the end of the present year or not. Calculation shows that it is very probable (independent of a knowledge of the cause) that the cyclical period will include the present year. The figures, however, show that the negative phase of the variation is much less marked than the

positive phase, and suggest that the deficiency of the rainfall in the probable last year of the cycle will, as judged from the above, be small.

The present year is hence probably the last year of the negative phase of a period of large variations of rainfall, due to some general, but as yet unknown, causes affecting a much larger area than India. The consideration of the character of this cyclical variation, as disclosed by the figures, indicates that the present year will be much less unfavourable than last year, and that the rainfall of the year may be in defect, but at the utmost by a small amount, probably less than 5 per cent.

The same general actions which have given the cyclical variation of rainfall to India have probably also been the determining factor in producing a cyclical variation of the strength of the south-east trades of corresponding period, and hence the probable strength of the south-east trades at the present time is a most important factor in judging the probable strength of the south-west monsoon and the general character of the accompanying rainfall.

The information from South Africa, Mauritius and Zanzibar is favourable on this point, and indicates that the south-east trades are at least of normal strength and probably somewhat stronger than usual. The information from the Seychelles is less satisfactory, and appears to indicate that there will be some delay in the advance of the trades across the Equator determining the setting in of the south-west monsoon in the Indian Ocean. The previous observer at the Seychelles—a most enthusiastic observer—died suddenly on the 12th May, and the conditions under which the observations are at present taken are not fully known, and hence there is an element of doubt about the later weather telegrams (from the 12th to the end of the month), which makes them less valuable than was anticipated when they were started in the beginning of May.

It may be noted that previous experience shows that very deficient rainfall in Mauritius from September to May is in at least four cases out of five followed by favourable and heavier monsoon rainfall than usual in India, and that excessive rainfall in Zanzibar in the same period is in about three years out of four followed by favourable rains in India. There is hence a strong probability from the character of the rainfall of the past six months in Mauritius and Zanzibar that the rainfall of the approaching monsoon in India will be at least normal in general character and average amount.

Forecast of the south-west monsoon of 1896 in India.

In the preceding pages have been given in full for future reference the whole of the available data upon which the following forecast is based.

Brief summaries have also been given at the end of each section pointing out the chief features of the meteorology of India, the Indian seas and the south-east trades region likely to influence the character of the south-west monsoon of 1897. These will be found in pages 1383, 1387, 1397, 1399, 1401, and 1402.

The consideration of the cyclical period through which India is passing indicates that the present year is probably the last year of what may be termed the "negative phase," and that the mean rainfall of the year will probably be slightly below the normal. On the other hand, the strength of the south-east trades, which is an important factor, is probably above the normal.

This, together with the character of the rainfall at Mauritius and Zanzibar, indicates that very probably the monsoon currents will not be below their normal strength and probably above it. It hence appears most probable from the combination of these data that the monsoon currents will be of about normal strength.

The summary of the snowfall information, further confirmed by the summary of the temperature and pressure conditions during the past five months in India, indicates that the heavy snowfall to the north of the Punjab will probably exercise little influence in modifying the distribution of the monsoon rainfall. Excessive and untimely snow in April and May chiefly affects the Bombay current. It usually retards the advent of that current more or less and affects its strength unfavourably during the early stages (chiefly in the month of June). It is probable the snowfall conditions will exercise a slight influence in both directions.

The observations taken at Mauritius and Zanzibar from January to March (those for April have not yet been received) also indicate the probability of at least normal south-east trades. On the other hand, the observations taken at the Seychelles show that the conditions there from the 20th May to the 3rd June were more unfavourable than those of the same period of the two previous years, and indicate a probability of some delay in the permanent establishment of the monsoon currents in the Indian seas and India.

Taking all these facts into consideration, it is probable the monsoon currents will be of normal strength, but that there may be slight delay in their establishment and also slight weakness during June in the Bombay current.

It is, however, just possible that the Seychelles observations may be more significant than is assumed in the previous statement, and that the monsoon currents may be, as in 1895 and 1896, feeble.

It is, therefore, necessary to accept the inferences given below with greater reserve than usual, and if it should result that the monsoon currents are (notwithstanding the presence of favourable conditions on the whole in India) as much below their normal strength as they were in 1895 and 1896 (when the antecedent conditions in India were almost as favourable as in the present year), the inferences will require to be suitably modified.

Judging only from the conditions in India itself and the known conditions in the Indian seas, it is, on the whole, most probable that the monsoon currents will be of normal strength, and that the Bay current is more likely to be above its normal strength than the Bombay current, especially in the early part of the monsoon.

Assuming that the currents will be of normal strength, the comparison with previous years (more especially 1883, 1884, 1887, 1890 and 1892) indicates that it is probable they will set in about the normal time on both the Bengal and Bombay coasts. The Seychelles observations, on the other hand, make it almost certain there will be some delay as in June 1895 and June 1896. The Bombay current is more likely to be retarded than the Bengal current, and there is a slight probability it may be not so strong as usual in June.

The rains will hence probably commence not earlier than the second week of June on the Bombay Coast and the third week on the Bengal Coast.

The following is a statement of the inferences respecting the character and distribution of the south-west monsoon rains of 1897 from the comparison of the antecedent conditions of the present year with those of previous years, and based chiefly on the facts and data stated above:

- (1) Snowfall conditions in the Western Himalayas and the Afghan mountains and the pressure conditions in India are not unfavourable to the establishment of at least normal monsoon currents in India. There has been heavy snowfall in the mountains north of the Punjab and Kashmir Valley. The usual effect of heavy snowfall in Upper India is to retard the Bombay current and also to weaken it—more especially in June. The influence of this snowfall is showed by the temperature conditions of Upper India to be small, and hence it will probably only very slightly affect the strength and advent of the Bombay current.
- (2) The conditions in the Indian seas are imperfectly known, but appear to indicate the currents will probably be of at least normal strength, and the forecast is drawn up on that supposition. The Arabian Sea current will probably be established on the Bombay Coast slightly later than usual in the second week of June; and there is a slight probability it may be weak during the month of June. The current will, however, as in 1896, probably advance into the interior more rapidly than usual.
- (3) Conditions are, on the whole, favourable to the prevalence of monsoon currents of at least normal strength in the Bay of Bengal. The rains will probably be established about the normal period in Bengal (the third week of June).

- (4) Conditions are very slightly unfavourable in Burma, and it is, on the whole, probable that the rainfall will not be above the normal in that area. It is more likely to be in defect in Upper than in Lower Burma, as conditions in Upper Burma are similar to those obtaining in Assam.
- (5) Pressure conditions are, on the whole, favourable in Bengal. The general conditions are more favourable in West and Central Bengal than in East and North Bengal. It is probable that the rainfall will be normal or in slight excess on the average of the whole area, but may be in slight defect in North and East Bengal. It is very probable that it will be normal or in slight to moderate excess in Orissa, and probable that it will be normal or in slight defect in Assam, where conditions are similar to those of North and East Bengal.
- (6) Conditions in Bihar, Chota Nagpur and the North-Western Provinces are favourable. The rainfall on the average of the whole area will very probably be at least normal. The rainfall will probably be in excess in Bihar and the eastern and submontane districts of the North-Western Provinces and normal or in slight defect in the south-western and western districts.
- (7) Conditions are, on the whole, favourable in the eastern districts of the Punjab, but are somewhat unfavourable in the western, northern and central districts (as indicated by the pressure conditions in North Bombay and South-West Rajputana and also in the North Punjab). The rainfall will probably be less than usual in the south-western and perhaps the central districts, but be normal or in slight defect in the submontane and southern districts of the Punjab. The character of the rainfall in this area, however, depends chiefly on the general strength of the monsoon and not on the local conditions, and these conclusions should be suitably modified if the monsoon turns out to be weak, in which case the rainfall may be considerably in defect in the West and Central Punjab and in slight to moderate defect in the East Punjab.
- (8) Conditions are somewhat unfavourable in Sind, Cutch, Kathiawar and West Rajputana, indicated chiefly by the excess of pressure in North Bombay. The rainfall will probably be more or less in defect in these areas. The rainfall in these areas, as in the Punjab, depends chiefly on the general strength of the monsoon, and hence, if the Bombay monsoon current be weak, the deficiency may be considerable to large in amount. In Eastern Rajputana the rainfall will either be normal or in slight defect, depending upon the actual strength of the Bombay current.
- (9) Conditions are nearly as favourable in Central India as in the North-Western Provinces and Bihar, and it is hence probable that area will receive at least normal rainfall. The rainfall is more likely to be in excess in the eastern than the western states.
- (10) Conditions are favourable in the Central Provinces and to a slightly less extent in Hyderabad. It is hence probable that they will receive at least normal rainfall. The conditions are most favourable in the eastern and northern districts of the Central Provinces, and is hence probable they may receive rainfall in moderate excess of the normal.
- (11) Conditions are not quite so favourable in Berar and Khandesh, and the rainfall in these areas will probably not be above the normal and may be in slight defect. They are also slightly unfavourable in the West Deccan, and that area will very probably not receive more than its normal fall and will probably obtain less.
- (12) The conditions in the west coast districts are such as are, in normal monsoons associated with at least normal rainfall. It is hence very probable that the rainfall of the present year's south-west monsoon

will be at least normal in those districts, and probable it may be in slight to moderate excess.

- (13) The variations of the rainfall in the North Madras coast districts are in at least five years out of six similar to those of Orissa and the Central Provinces. Conditions appear to be favourable, and it is probable those districts will receive at least normal rain.
- (14) A comparison of the conditions in Southern India and the Carnatic with those of similar years indicates that the rainfall will probably be normal or in slight defect—more especially in the southern districts. It is, however, very difficult to forecast for this part of India, as rain in Southern India during the monsoon proper occurs chiefly during the intervals of breaks during the rainy season of Northern India, and is hence essentially of irregular occurrence. The variations of the rainfall in Southern India during the south-west monsoon are usually inverse to those in Northern India.

It should be carefully noted that the preceding probabilities are obtained on the assumption that the currents will be approximately normal in strength.

The general conclusion is that the rainfall may be deficient to an extent depending chiefly upon the strength of the monsoon in Sind, Cutch, the North and West Punjab and West Rajputana; that it will very probably be at least normal in amount in Central India, Bengal and the northern half of the Peninsula, except perhaps Berar, Khandesh and the West Deccan, and may be in moderate excess in the eastern half of the North-Western Provinces, Bihar, West Bengal, the Central Provinces and the eastern states of Central India. It will probably be normal or in slight defect in Burma, Assam and perhaps in East and North Bengal.

It is too early to estimate the probability of a longish break in the rains in July or August; but there are no indications at present of such an event.

JOHN ELIOT,

Meteorological Reporter to the

Government of India.

SIMLA, 4th June 1897.

DENZIL IBBETSON,

Secretary to the Government of India.

GOVERNMENT OF INDIA.

DEPARTMENT OF REVENUE AND AGRICULTURE.

**Weather Review of India for the Week ending at 8 a.m. on
Saturday, May 29th, 1897.**

As was the case last week the barometer has been low over North-West India, the Gangetic Plain and part of Bengal and of the Central Provinces, while it has been high over the west of the Peninsula, Ceylon and Lower Burma. During the greater part of the week the barometric pressure was generally higher than usual. The abnormal excess was greater in the north than in the south, and hence the pressure differences over India were less than usual at the end of May. In addition the pressure changes from day to day were irregular, so that the weather was feebly unsettled and disturbed by the occurrence of series of hot weather storms. These storms were experienced mainly over North-East and North-West India and the west of the Peninsula, the east of the Peninsula and the central parts of the country largely escaping. They were generally slight and gave but light rain in North-West India, they were moderate and gave rain, amounting on occasions to two inches, over the west of the Peninsula, and they were most severe and gave the heaviest rainfall over the north-east of India and more particularly over Assam. This rainfall, even in the north-east, where it was heaviest, exercised only a slight and passing influence on the mean temperature, which, for the whole week, was excessive in all the provinces of India.

Daily Summary.—*Sunday, May 23rd.*—The pressure changes had been irregular and in places brisk. Readings were lowest over the Western desert and relatively low over the Gangetic Plain. The winds were irregular with a cyclonic tendency over North-West India, they were more easterly than usual over the Gangetic Plain and lighter and more unsteady than usual in Southern India. The mean temperature was generally excessive, but the heat was less than usual over Bengal and Assam, part of the North-West Provinces and the Bombay and Madras Coasts. The hottest area relatively to the normal was the South Punjab. Thunderstorms had given rain to Assam, Bengal, North Bihar and to parts of the Deccan and the North-West Provinces. Hailstorms had occurred at Cherat, Chakrata and Lucknow, and duststorms were reported from many stations.

Monday, May 24th.—The barometer had decreased in north-eastern and increased in other parts of India. The general distribution of pressure was generally the same as on the 23rd, except that, owing to the barometric changes in the north-west, the depression over the Western desert was more strongly marked. Pressure was lower than usual within the depression area, but was above the normal elsewhere. Northerly winds prevailed over the Punjab and light irregular winds over the Gangetic Plain, but elsewhere the directions were fairly normal, though the force was below the average in the south. The mean temperature was generally excessive, but regions of relatively low temperatures were reported from Assam and Bengal, from the west of the North-West Provinces, from the Indus Valley and from the south of the Peninsula. Light to moderate showers had been received in Upper Burma, Assam and part of Bengal, light showers in parts of Upper India and of Kashmir, and moderate to heavy showers over the south-west of the Peninsula.

Tuesday, May 25th.—Pressure had risen over Northern India and Burma and fallen over the Peninsula. A shallow depression lay over West Bengal and the east of the North-West Provinces, while readings were high in Ceylon and Burma. The winds were easterly in Upper Burma and feebly cyclonic around the depression noticed above, but elsewhere the directions were fairly normal. The force was unusually low in the south and west. The distribution of temperature relatively to the normal was irregular. North-East and North-West India again reported thunderstorms accompanied with more or less rain, and light showers had been received in Ceylon and at one or two western stations.

Wednesday, May 26th.—Pressure changes had been small, and the general distribution was about the same as on the 25th. The winds were little changed,

except that the easterly current up the north side of the Gangetic Plain and over the Punjab had largely given way. The mean temperature had generally risen, and the areas of relatively low temperature noticed on the 25th had decreased both in size and intensity. Assam reported moderate to heavy rain, Ceylon moderate rain, and the west of the Peninsula some scattered showers. The rainfall in the north-west had ceased and the weather cleared.

Thursday, May 27th.—Pressure had given way briskly in the Punjab, but had changed slightly elsewhere. Readings were lowest in the South Punjab. The winds were variable over Upper India, southerly over the Bay area and generally between west and north-west elsewhere. The force was abnormally low in Southern India. The mean temperature had again risen, except over the Peninsula, where it had fallen slightly. The changes which were noticed on the previous day and which were obliterating the areas of low temperature were hence still progressing. Over Northern India practically the only rainfall was in Assam, but over Southern India showers were general in Malabar and Mysore.

Friday, May 28th.—Pressure had continued to give way briskly in the north-west, but elsewhere the changes were slight. Readings were low over the Punjab and the Gangetic Plain, but, except in these areas, the barometer read above the normal average. The easterly wind up the north side of the Gangetic Plain was re-appearing, but otherwise there was little change to record. The mean temperature was low in part of Bengal and Madras and in Assam, but elsewhere the heat was excessive. Scattered showers had occurred over Burma, Assam, Bengal and the Peninsula, but elsewhere the weather was fine.

Saturday, May 29th.—Pressure had fallen almost everywhere. The fall had been greater in Sind than in other parts of Northern India, and the ordinary hot weather depression lay over the Western desert. The southerly winds at the head of the Bay were increasing and the easterly wind held steadily up the Gangetic Plain. In Western and Southern India the wind force remained low. The mean temperature was high, except in Assam and part of Madras. Rain had fallen during thunderstorms in Burma, Assam, Bengal, Malabar, the Konkan, Mysore and parts of the Deccan, the rainfall was generally local, and light or moderate in amount.

Temperature.—The mean temperature of the whole country was above the normal average on each day of the week. Between the 23rd and 25th there was a slight general fall, but after the 25th the heat rose, and at the close of the week the mean temperature was $3\frac{1}{2}^{\circ}$ higher than usual. As mentioned above, rain occurred almost daily in parts of North-East India and fell occasionally over North-West India and over the Peninsula. Hence the excess in the case of Bengal and Assam, of the North-West Provinces, of the Punjab and of the Peninsula was less than in the case of the central parts of the country, and the mean temperature on some days was lower than usual in these areas.

The following table gives temperature data for the week :

PROVINCE.	MAY 1897.							Mean variation of week.
	23rd	24th	25th	26th	27th	28th	29th	
	o	o	o	o	o	o	o	o
Burma	+1'9	+2'9	+1'6	+2'7	+3'3	+2'5	+2'3	+2'4
Bengal and Assam	—0'3	+0'3	+0'7	+2'9	+4'0	+1'9	+2'4	+1'7
North-Western Provinces and Oudh	+0'8	+1'1	—0'6	+2'0	+3'0	+2'2	+4'9	+1'9
Punjab	+4'2	—0'4	—1'3	—0'3	+1'5	+4'4	+7'3	+2'2
Bombay	+2'3	+1'0	+0'8	+2'8	+1'6	+2'4	+2'3	+1'9
Central Provinces and Berar	+3'2	+4'5	+1'6	+4'4	+4'1	+5'0	+3'8	+3'8
Central India and Gujarat	+1'4	+1'9	+1'1	+2'0	+3'4	+3'7	+3'6	+2'4
Sind and Rajputana	+3'8	+3'6	+3'8	+2'6	+4'0	+6'2	+4'9	+4'1
Madras	+1'4	+1'5	+1'8	+1'9	+1'2	+1'3	+1'2	+1'5
Mean for whole of India	+2'1	+1'8	+1'1	+2'3	+2'9	+3'3	+3'6	+2'4

The following are the highest maximum temperatures recorded on each day :

May 23rd	118°·0	at Jacobabad.
" 24th	111°·8	" Sirsa.
" 25th	113°·2	" Jhansi.
" 26th	115°·2	" Allahabad.
" 27th	114°·7	" "
" 28th	117°·1	" Jacobabad.
" 29th	119°·0	" "

Rain.—There has been no advance of monsoon winds during the week under review, hence the regions which ordinarily receive rain from temporary rushes of the monsoon at the end of May, *viz.*, the south of the Peninsula and Burma, have received considerably less rain than is usually the case at this season. On the other hand, the local southerly winds which ordinarily blow from the head of the Bay into North-East India have been stronger than the average, and have carried much moisture inland which has been deposited in the more or less hilly districts of Assam, North Bengal and Chota Nagpur. In all the remaining portions of the country the rainfall of the week has been connected with and generally fallen during thunder and dust storms. These storms appear to have been less general and less severe than usual, as, on the whole, the total rainfall of the week has been less than the normal average. The returns show that in Burma and Assam rain fell on most days of the week, in Bengal the fall was scattered throughout the week, in Upper India the rainfall was generally on the first two days of the week, in the west of the Peninsula the showers were scattered irregularly throughout the period, while in other parts of the country the rainfall was light and unimportant. The concluding table shows that rain in appreciable amount fell in thirty-six of the rainfall divisions. This number is slightly greater than the number reported last week and considerably greater than in the case of the week before. These thirty-six divisions covered the following regions—*viz.*, the whole of Burma, the whole of Assam, the whole of Bengal, except South Bihar, the North Oudh, west, west submontane and hill districts of the North-West Provinces, the south-east, submontane, hill and north divisions of the Punjab, the whole of the west of the Peninsula, Khandesh, the east of the Central Provinces, the East Coast (North and Central), Hyderabad (South) and Madras (Central), while all other parts of the country, including several divisions in Upper India, most of the central divisions, the whole of North Bombay and of Baluchistan and the southern divisions of Madras, were actually or practically without rain. The heaviest actual average rainfall during the week was 9·50 inches in the Assam (Hills), followed by 5·23 inches in Assam (Brahmaputra), by 4·60 inches in Assam (Surma), by 4·40 inches in North Bengal, by 2·12 inches in Deltaic Burma and by about 1·0 inch in Central Burma, Arakan, East Bengal, Central Bengal, the North-West Provinces (Hills), Malabar, Coorg, Mysore and the Bombay Deccan. There were only sixteen divisions in which the actual average, exceeded the normal average, rainfall, *viz.*, the three Assam divisions, North Bengal, Chota Nagpur, North Oudh, the west submontane and hill districts of the North-West Provinces, the south-east and submontane districts of the Punjab, Coorg, Mysore, the Konkan, the Bombay Deccan, the Central Provinces (East) and Hyderabad (South). In most cases the amount of this excess was trifling and unimportant, but in the Assam Hills it reached to 5·80 inches, in Assam (Brahmaputra) to 2·82 inches and in Assam (Surma), Bengal (North) and the Bombay Deccan to over 1 inch. In Burma, but particularly in the Tenasserim and Arakan divisions, the deficiency in the week's rainfall was large, and in the Bengal Hills and Malabar it was considerable.

The concluding columns of the table exhibit the state of the seasonal rainfall, *i.e.*, the rainfall from February 28th to May 29th. These three months include the whole of the spring storm rainfall, and with the present return this storm period ceases. The figures show that the storm rainfall has been excessive, *i.e.*, 20 per cent. or more above the average in Central Burma, the Assam (Hills), Central Bengal, North Bengal, Orissa, Chota Nagpur, North Bihar, North

Punjab, the Bombay Deccan, the east of the Central Provinces and the East Coast (North); it has been about normal in Tenasserim, Deltaic Burma, Assam (Surma and Brahmaputra), Deltaic Bengal, South Bihar, the North-West Provinces (East), Oudh (North), the Central, Submontane, Hill and West Punjab, Madras (South-Central), Mysore, Sind, Baluchistan, the East Coast (Central) and Madras (South), while in all the remaining divisions it has been deficient. The abnormal deficiency has been large in some of the divisions in the Gangetic Plain, in Bengal (Hills), in parts of Bombay and in Central India and Rajputana.

The following are the principal large totals recorded during the week under review:

Burma	.	.	.	Kyaukton (Rangoon)	.	.	.	3'61 inches.
				Minhla (Thayetmyo)	.	.	.	4'50 "
Assam	.	.	.	Cherra Poonjee	.	.	.	25'37 "
				Dhubri	.	.	.	13'64 "
Bengal	.	.	.	Netrakona (Mymensingh)	.	.	.	8'94 "
				Natore (Rajshahi)	.	.	.	5'00 "
				Cooch Bihar	.	.	.	10'72 "
N.-W. P.	.	.	.	Ukhimath (Garhwal)	.	.	.	1'96 "

W. L. DALLAS,

Asst. Meteorological Reporter to the

Government of India.

A, 3rd June, 1897.

DENZIL IBBETSON,

Secretary to the Government of India.

GOVERNMENT OF INDIA.

DEPARTMENT OF REVENUE AND AGRICULTURE.

Weekly Report on the state of the Season and Prospects of the Crops.

Madras.—*For week ending 29th May.*—Rainfall slightly in excess in Kurnool and Bellary; deficient in the Carnatic and Central and South districts; normal elsewhere. Water-supply for drinking purposes is generally insufficient in affected areas, except in Vizagapatam; elsewhere it is generally sufficient, but is failing in parts; for irrigation it is generally insufficient. Agricultural operations are progressing in parts to a limited extent. Standing crops are fair to good, but are withering in parts. Harvests yield a limited outturn, generally middling. Pasture *nil* in the Deccan, but forest reserves have been thrown open; generally sufficient in Vizagapatam and in the extreme south; elsewhere growing scarce in parts. Fodder is insufficient in the Deccan; generally available elsewhere, but is growing scarce in parts. Cattle are deteriorating in the Deccan, but elsewhere are generally in good condition. Prices are rising in the Circars, Deccan, and south; elsewhere they are generally steady. The numbers on relief are:—relief workers—86,089 men, 155,409 women, 59,690 children, 4,448 unspecified; total 305,636 in the Deccan and Circars. Test-workers—848 men, 1,161 women, 741 children in Ganjam, Vizagapatam, Anantapur, and Cuddapah *plus* 500 unspecified in Bhadrachalam; total 3,250. Weavers—12,590 men, 10,316 women, 879 children; total 23,794 relieved at their own trade in the Deccan and Ganjam. Total relief workers 332,680. Kitchen inmates in the Deccan, Ganjam, and Vizagapatam: (dependants)—305 men, 371 women, 13,071 children; total 13,747. (Others)—1,488 men, 2,946 women, 7,518 children; total 11,952. Otherwise gratuitously relieved—6,829 men, 15,217 women, 17,799 children, 2,637 unspecified; total 42,482. Total on gratuitous relief 68,181. Grand total on Government relief 400,861. Also 997 fed in private kitchens under Government management in Vizagapatam. Prices by which wages are regulated are:—Ganjam 11, Bellary 11½, Kurnool 12, Bhadrachalam 12½, Cuddapah 13, Anantapur and Vizagapatam 13½ seers per rupee. Loans disbursed since the commencement of distress Rs. 595,481.

Bombay.—*For week ending 31st May.*—Rain throughout Kanara, Dharwar, Belgaum, Satara, Ratnagiri, except one taluka, Poona, except three talukas, in eight talukas of Bijapur, seven of Ahmednagar, six of Sholapur, three of Shikarpur, and two of Khandesh. Harvesting of late crops is completed, except in Sind and Kaira. Preparations for next season have commenced generally. Sowing operations have begun in Karachi, Hyderabad, Kolaba, Ratnagiri, Belgaum, Dharwar, and Kanara. Fodder is sufficient, except in the Deccan, Shikarpur, and in parts of Karachi, Baroda, and Kolaba. Condition of agricultural stock is deteriorating in Poona, Ahmednagar, Sholapur, Bijapur, and Belgaum; healthy elsewhere, except in parts of Shikarpur, Upper Sind Frontier, Thar and Parkar, Ratnagiri, and Kanara. Prices are rising in parts of Panch Mahals, Kolaba, Sholapur, and Bijapur; falling in Hyderabad and in parts of Surat and Kolaba; and stationary in Thar and Parkar, and parts of Surat, Kolaba, and Bijapur. Prices in affected districts are:—Belgaum 10½, Bijapur 9½, Sholapur 10, Ahmednagar 9½, Poona 9½, Nasik 9, Satara 9, Khandesh 8½, and Dharwar 11¼ seers per rupee. The average daily numbers on relief works, including dependants, were:—Bijapur 51,250, Sholapur 108,235, Ahmednagar

56,136, Poona 25,620, Nasik 25,488, Satara 11,296, Khandesh 23,177, and Belgaum 11,889. On test works—Belgaum 514, Dharwar 612, Ratnagiri 262; total 314,479, of whom 249,805 are workers and 64,674 dependants. On gratuitous relief—Bijapur 10,974, including 202 in poor-houses, Sholapur 8,152, including 76 in poor-houses, Ahmednagar 6,194, including 240 in poor-houses, Poona 7,802, Nasik 629, Satara 195, Belgaum 580, Dharwar 997; total 35,523. Total number on relief 350,002.

Bengal.—*For week ending 31st May.*—There was general rain during the week, except in South Bihar and parts of Orissa. The present agricultural prospects continue favourable. Ploughing and sowing are proceeding everywhere, but more rain is required in parts. Early rice and jute have for the most part been sown and are coming on well. In parts of Tippera and Noakhali insects are said to be doing injury to the young rice plants. The sugarcane crop is good all round. The harvesting of *boro* or spring rice is almost over and that of *cheena* millet is still going on. The price of rice is reported to be rising still in several districts. In the distressed districts the prices of the staple food-grain on which the famine wage is based are:—Nadia, common rice $7\frac{1}{2}$ seers; Murshidabad, common rice $8\frac{1}{2}$ seers; Khulna, common rice 9 seers; Rajshahi, common rice 8 seers; Pubna, rice 7 to $8\frac{1}{2}$ seers; Shahabad, rice 8 seers and pea $10\frac{1}{2}$ seers; Saran, barley 11 seers 11 chittacks; Champaran, common rice 8 seers and maize 9 seers 13 chittacks; Muzaffarpur, indian-corn $9\frac{1}{2}$ seers and *rahar* (*Cajanus indicus*) 12 seers; Darbhanga, common rice $7\frac{1}{2}$ seers and indian-corn 9 seers; Bhagalpur, common rice 8 to $8\frac{1}{2}$ seers and *marua* (*Eleusine coracana*) 13 seers; Sonthal Parganas, rice at Jamtara $7\frac{1}{2}$ to 8 seers; Puri, common rice 10 to 12 seers; Hazaribagh, rice $6\frac{1}{2}$ to 8 seers; Palamau, rice 9 seers; and Manbhum, common rice $7\frac{1}{2}$ to 8 seers per rupee. The numbers on relief on Saturday, the 29th May, were:—Bankura 8,868, Nadia 91,327, Murshidabad 8,540, Khulna 11,188, Rajshahi 360, Pubna 694, Patna 145, Shahabad 33,488, Saran 83,093, Champaran 192,975, Muzaffarpur 121,790, Darbhanga 235,799, Bhagalpur 10,037, Sonthal Parganas 2,631, Puri 4,036, Hazaribagh 7,344, Palamau 5,168, and Manbhum 15,964; total 833,447 against 821,459 in the preceding week. This total is distributed as follows:—relief workers—men 176,967, women 154,511, children 55,692; total 387,170. Dependants—men 1,517, women 230, children 35,229; total 36,976. Relieved in poor-houses—men 1,154, women 906, children 1,317; total 3,377. Otherwise relieved—men 65,795, women 195,929, children 129,024; total 390,748. Test-workers—men 8,658, women 4,938, children 1,580; total 15,176. Private relief: relief works, Darbhanga Raj—in Darbhanga and Muzaffarpur—men 8,899, women 4,165, children 1,056; total 14,120. Hatwa—men 1,178, women 1,935, children 1,344; total 4,447. Sonthal Parganas—men 952, women 770, children 89; total 1,811. Gratuitous relief—Darbhanga Raj—in Darbhanga and Muzaffarpur—men 3,371, women 10,298, children 9,998; total 23,667. Hatwa—men 125, women 176, children 1,156; total 1,457. Manjha in Saran—men 175, women 31, children 17; total 223. Hazaribagh—Giridih—men 240, women 174, children 131; total 545. Total on private relief 46,270.

North-Western Provinces and Oudh.—*For week ending 2nd June.*—Rain fell in many districts during the week. In Dehra Dun, Saharanpur, Agra, Basti, and Gonda over half an inch was recorded, while in Garhwal, Muzaffarnagar, and Pilibhit over one inch fell. Preparations for the autumn crop are in progress. Irrigation of cane and extra crops continues. Extra crops are doing well. The numbers in receipt of relief on Saturday, the 29th May, in eighteen districts officially recognised as distressed were as follows:—Agra 26,597,

Etawah 5,234, Cawnpore 12,323, Fatehpur 16,786, Banda 297,476, Hamirpur 127,557, Allahabad 329,724, Jhansi 97,421, Jalaun 123,688, Mirzapur 58,072, Family domains, Maharajah of Benares, 13,736, Jaunpur 43,262, Gorakhpur 27,463, Azamgarh 18,075, Lucknow 56,510, Unao 39,289, Rae Bareilly 35,207, Sitapur 4,328, Hardoi 150,850; total 1,483,598. This total is distributed as follows among the various methods of relief prescribed by the Famine Code which are in operation:—employed on relief works—964,711; relieved as dependants—180,298; relieved in poor-houses—27,789; relieved under other provisions of the Famine Code, including 48,124, assisted either exclusively or partly from the Charitable Fund, 310,800; total 1,483,598. The numbers relieved in nineteen districts which are under observation and not officially recognised as distressed were on the same date as follows:—relieved on test works—19,766; relieved in poor-houses—5,095; relieved under other provisions of the Famine Code, including 11,739 from Charitable Funds, 36,266; total 61,127. The grand total in receipt of relief on the last day of the week was therefore 1,544,725. Supplies are generally sufficient. Fodder is somewhat scarce in a few places. Water is getting short in Banda and in parts of Hamirpur and Allahabad. Prices show a tendency to rise in most districts. The price of the staple grain on which the famine wage is based varied from $9\frac{5}{8}$ to $12\frac{1}{8}$ seers the rupee in the districts officially recognised as distressed. The numbers shown as relieved from the Indian Charitable Relief Fund represent the operations of the fund so far as they are carried out through official agency.

Punjab.—*For week ending 31st May.*—Rain averaging about $\frac{1}{4}$ of an inch has fallen in Gurgaon, $\frac{2}{5}$ in Amritsar and $\frac{1}{5}$ in Rawal Pindi and Peshawar; it has also fallen about $\frac{2}{5}$ of an inch in parts of Rohtak and Karnal; $\frac{1}{6}$ in Lahore and $\frac{1}{3}$ in Gujranwala; there has also been a slight drizzle in Umballa, Jullundur, Shahpur and Dera Ismail Khan. Threshing and winnowing of spring crops, sowing of sugarcane, cotton, indigo, etc., and ploughings for other autumn crops are going on. Spring grain is being collected and stored. Chillies are being sown. Tobacco is being cut in places; in Gurgaon it has suffered from hail. The outturn of spring crops is generally reported to be good to average on irrigated and below average on land dependent on rain. Standing crops are in good condition. Insufficiency of water is reported from Umballa. Recent rain has benefited sugarcane slightly in this district. Grain is being imported from other parts of the Punjab into Hissar, where local stocks are exhausted. Locusts appeared in parts of Gujranwala, but did no damage; young locusts have appeared and deposited eggs in parts of Rawal Pindi and Dera Ismail Khan, but are being destroyed. Cattle are generally in poor condition for want of green fodder; 109 cattle died from hunger this week in Rohtak. Fodder is still generally scarce; new straw is now obtainable in most districts, but is dear; green grass is only procurable on the canal irrigated tracts. The average number of relief workers, dependants, etc., was as follows:—relief workers—26,869 men, 25,277 women, 12,931 children; Dependants—183 men, 272 women, 14,810 children; Relieved in poor-houses—1,224 men, 1,539 women, 783 children; Otherwise relieved—3,285 men, 5,452 women, 3,698 children; Test-workers—43 men. The total number of relief workers, dependants, etc., in the Punjab was 96,366, or 3,869 more than last week; of these 67,000 were in Hissar against 64,000. There is also an increase in Umballa and Karnal and slight decrease in Rohtak and Delhi districts. Prices are generally still high, they are rising in Lahore and Amritsar; the figures are unchanged in Ferozepore, Mooltan, Gujranwala, and Shahpur. The imports of new grain into the market made prices generally fall in most districts; owing to demand for seed

the prices of autumn grain are daily rising; wheat is selling from $10\frac{3}{4}$ to $13\frac{1}{2}$, great millet $8\frac{1}{4}$ to 11, gram $10\frac{1}{2}$ to $12\frac{1}{2}$, barley 12 to $14\frac{1}{2}$, bulrush millet 8 to 10, maize 7 to 13, and rice 6 to 7 seers per rupee. Prices of staple food-grains on which the famine wage is reckoned are:—Hissar—gram and barley flour $10\frac{1}{4}$ seers on North Ghaggar, great millet $9\frac{1}{2}$ on South Ghaggar, and 10 on Bir Ditch; barley $11\frac{1}{2}$ on Ramgoi; Rohtak, gram 10 and barley $13\frac{1}{2}$; Delhi, wheat $10\frac{1}{2}$; Karnal, wheat flour 10 and barley flour $11\frac{1}{2}$; Umballa, maize 11; Ferozepore, barley and gram $11\frac{1}{2}$; and Gujrat, wheat flour $11\frac{3}{4}$ seers per rupee.

Central Provinces.—*For week ending 31st May.*—Weather continues excessively hot. Conditions are unsettled with passing clouds, occasional duststorms, and high winds. A few drops of rain have fallen in five districts. Raipur and Bilaspur received more than $\frac{1}{2}$ an inch and Sambalpur more than one inch. Ploughing and manuring of lands for autumn sowings are almost completed in Wardha; elsewhere in progress. Sowing of inferior rice has commenced in parts of Raipur and Sambalpur. Cutting of rice crop completed in Sironcha tahsil of Chanda. There is a scarcity of fodder and water in parts of eleven districts. In Hoshangabad tahsil the cattle are being fed on leaves. Prices are rising almost everywhere, but are fairly steady in Nimar, Chhindwara, Balaghat, Bhandara, and Sambalpur. The quotation at Balaghat is $7\frac{1}{2}$ seers per rupee. Jubbulpore rates have been raised by Mandla demand. The numbers on relief works have increased by 6,000, to which seven districts have contributed. The total number on gratuitous relief has risen by 5,000, the largest increases occurring in Saugor and Raipur. The number employed on private works has fallen by 26,000, the decrease occurring mainly in Raipur and Bilaspur. The number on relief works were—Saugor 38,162, Damoh 36,060, Jubbulpore 53,152, Mandla 24,243, Seoni 12,372, Narsinghpur 42,154, Hoshangabad 55,988, Nimar 342, Betul 15,341, Chhindwara 12,866, Wardha 7,076, Nagpur 14,052, Chanda 128, Bhandara 25,172, Balaghat 41,310, Raipur 81,266, Bilaspur 34,607, and Sambalpur 1,009; total 495,300. Numbers on gratuitous relief—Saugor 20,151, Damoh 17,963, Jubbulpore 30,508, Mandla 8,726, Seoni 4,369, Narsinghpur 9,998, Hoshangabad 10,160, Nimar 544, Betul 4,800, Chhindwara 4,015, Wardha 39, Nagpur 3,993, Bhandara 6,554, Balaghat 19,550, Raipur 30,512, Bilaspur 29,933, and Sambalpur 343; total 202,158. Total number on relief 697,458. Details of relief workers—men 150,004, women 222,568, and children 122,728. Dependants—men 2,717, women 4,692, and children 78,782 with 3,352 unclassified. Poor-houses—men 6,977, women 7,626, and children 10,032. Otherwise relieved—men 12,791, women 23,253, and children 23,963 with 27,973 unclassified. There were also 182,865 persons employed on railway and other private works. Wage prices—Chanda 11, Jubbulpore, Bilaspur, and Sambalpur 10, Nagpur $9\frac{3}{4}$, Wardha $9\frac{1}{2}$, Damoh, Seoni, Narsinghpur, Nimar, Chhindwara, and Raipur 9, Saugor, Hoshangabad, and Bhandara $8\frac{1}{2}$, Betul 8, and Balaghat and Mandla $7\frac{1}{2}$ seers per rupee.

Burma.—*For week ending 29th May.*—In Lower Burma ploughing for the wet weather paddy crop continues in the five districts previously reported; not yet commenced in the rest. In Upper Burma reaping of dry weather paddy still continues in some districts. Fair outturns are being obtained. Rain has fallen in all districts during the month, but only very small amounts have been received in Meiktila and Sagaing. Cultivation of early wet weather crops and preparation of the land for the main wet weather crops are in progress. Prospects are hitherto favourable. The price of paddy has risen considerably in Akyab, Rangoon, and Yamethin and slightly in Thongwa, Henzada, Myaungmya, and Tounghoo, while it has fallen considerably in the Upper Chindwin; elsewhere

stationary. Numbers on relief works—Meiktila 4,322 and Myingyan 10,290. On gratuitous relief—Meiktila 760, Yamethin 363, Myingyan 2,542. Total number on relief 18,277. Price of rice—Meiktila 8 seers 12 chittacks and Myingyan 10 seers 4 chittacks per rupee.

Assam.—*For week ending 1st June.*—Weather seasonable. Heavy rain has fallen in the Surma Valley, Goalpara, and Garo Hills; moderate rain in other districts. Preparation of land for late rice and planting of sugarcane continue. Early rice and tea promise well. Prices—common rice—Silchar $7\frac{1}{2}$, Sylhet 9, Gauhati 7, Tezpur $8\frac{1}{2}$, and Sibsagar 8 seers per rupee.

Mysore and Coorg.—*For week ending 31st May.*—**MYSORE.**—One inch 9 cents in Civil and Military station and good rain in parts. Prospects are favourable. Prices have slightly risen in Kolar and Tumkur; fallen in Kadur district. *Ragi (Eleusine coracana)* sown in Mysore and Hassan; paddy harvested in parts of Chitaldroog.

COORG.—Rainfall 3 inches 27 cents. Ploughing for rice continues. Prices of food-grains are normal. Water and fodder for cattle are sufficient.

Berar and Hyderabad.—*For week ending 31st May.*—**BERAR.**—Weather cloudy occasionally and very hot. Ploughing of fields for the monsoon crop is in progress. Scarcity of fodder and water prevails. Prices still show a tendency to rise in three districts. The number of persons employed on relief works were—Akola 8,520, Amraoti 2,069, Basim 7,745, Buldana 3,522, Ellichpur 1,955, and Wun 844. Numbers on gratuitous relief—Akola 1,348, Amraoti 390, and Basim 2,960. Occupants of poor-houses—Akola 457 and Amraoti 662. Total number on relief 30,472. Prices—*jowar*—Akola 10, Amraoti $10\frac{1}{2}$, Basim 11, Buldana 11, Ellichpur 9, and Wun 12 seers per rupee.

HYDERABAD.—Rainfall during week 20 cents. Fields are under preparation for monsoon crops. Fodder, pasture, and water are scarce. Aggregate number of persons employed on relief works in Bir, Gulburga, Raichur, Lingsagar, Naldrug, and Mahbubnagar 37,725. Prices in affected districts—9 seers in Lingsagar, $9\frac{1}{2}$ in Bir and Naldrug, $9\frac{1}{2}$ in Raichur and Mahbubnagar, and 10 seers per rupee in Gulburga. 331 persons on gratuitous relief in Shorapur and Shahpur and 2,481 children in Bir. Total number on relief 40,537. Prices—wheat $6\frac{1}{4}$, coarse rice $7\frac{1}{2}$, and *jowari* $12\frac{3}{4}$ seers per current sicca rupee.

Central India.—*For week ending 31st May.*—No rain fell in Central India during the week. Winter crop operations completed in Gwalior and Malwa. Hot weather crop operations in progress in Bhopal; finished in other agencies. Agricultural stock fair in Bhopal and two districts of Gwalior; good in Baghelkhand and Malwa; bad and indifferent in the remaining districts of Gwalior. Pasturage is fair in Bhopal and Malwa; bad and indifferent in Gwalior; good in Baghelkhand and failing in Bhopawar. Prices are above normal in Baghelkhand, Malwa, and Bhopawar; steady elsewhere. The number of persons employed on famine relief works were—44,110 in Gwalior and 67,082 in Baghelkhand. On gratuitous relief—13,188 in Gwalior and 4,074 in Baghelkhand. Total number on relief 128,454. Prices 10 to $10\frac{1}{2}$ in Gwalior and $9\frac{1}{2}$ seers per rupee in Baghelkhand. Report from Bundelkhand not received.

Rajputana.—*For week ending 2nd June.*—Rainfall 38 cents in Deoli, 60 in Bundi, a little rain in Tonk, Ajmere, Kishengarh, and in parts of Ulwar and of Bikanir. Land being prepared for autumn crops in Meywar and Karauli. Agricultural operations satisfactory in Jhallawar, Ajmere, and Jeypore. Standing crops are good in Meywar and Jhallawar; fair in Pertabgarh. Harvests are good

in Marwar, except gram in Jhallawar; average in Ajmere. Agricultural stock lean in Bhurtpore; in fair or good condition elsewhere. Pasturage or fodder is scarce in one or two tehsils of Jhallawar and in some parts of Jeypore and Kotah; failing in Dholepore and Bhurtpore; sufficient in other States. Prices are steady in Sirohi, Marwar, Kherwara, Ajmere, Jaisalmer, Jeypore, and falling in Kishengarh; fluctuating in one State; rising elsewhere. Number of persons on relief works was—Marwar 5,394, Dholepore not reported, Bikanir 6,441, Jaisalmer 1,524. On gratuitous relief—Marwar 1,269, Tonk 1,837, Chabra 62, Deoli 8, Bhurtpore 346, Bikanir 3,674, and Jaisalmer 95. Total number on relief 20,650. Prices—Marwar $9\frac{1}{4}$, Tonk $11\frac{1}{4}$, Deoli 13, Dholepore $10\frac{3}{4}$, Bhurtpur $12\frac{5}{8}$, Bikanir $9\frac{3}{4}$ and $8\frac{1}{2}$, and Jaisalmer $8\frac{3}{8}$ seers per rupee.

Kashmir.—*For week ending 1st June.*—Rain has fallen. Standing spring crops are in good condition. Prices continue normal. Price—22 seers per rupee.

JAMMU PROVINCE.—*For week ending 1st June.*—No rain. Prices stationary. Fodder scanty. Price— $9\frac{1}{2}$ seers per rupee.

Nepal.—*For week ending 29th May.*—Rain 17 cents. Weather windy and unsettled. Indian-corn still being sown; wheat has been harvested; out-turn very good. Price—8 seers per rupee.

The total numbers in receipt of relief during the preceding and present weeks are as follows:

NAME OF PROVINCE.	PRECEDING WEEK.			PRESENT WEEK.			Increase or decrease.

Matter intended for publication in the Supplement should reach the Press not later than Thursday.

WM. ROSS,

Publisher, Gazette of India.

GOVERNMENT OF INDIA.
DEPARTMENT OF REVENUE AND AGRICULTURE.

INVENTIONS and DESIGNS.

Calcutta, the 3rd June 1897.

NOTIFICATIONS.

No. 1677 P.—APPLICATIONS in respect of the undermentioned inventions have been filed, under the provisions of the Inventions and Designs Act of 1888, in the office of the Secretary appointed under that Act, during the week ending 29th May 1897:—

No. 211 of 1897.—William Burt Flockhart, engineer, Sonajuli tea estate, Tezporé, Assam, for improvements in tea rolling machine tables, to be called "Flockhart's solid reversible well casting and plates for tea leaf rolling machine lower tables."

No. 212 of 1897.—Joseph Herold, manufacturer, of Brunn, and Carl Herold, manufacturer, of Konigsfeld, Moravia, Austria, for improvements in circular looms.

No. 213 of 1897.—Josiah Burnham Anderson, merchant, of No. 3 Cottage place, Malden, county of Middlesex, state of Massachusetts, United States of America, for an improved marine safe float.

No. 214 of 1897.—James Albert Bonsack, mechanical engineer, and Hugo Bilgram, machinist and mechanical engineer, both of the city of Philadelphia, state of Pennsylvania, United States of America, for an automatic feed mechanism for cigarette fillers.

No. 215 of 1897.—Jessop & Co., Ltd., engineers, 93 Clive street, Calcutta, for binders for binding bales of any description.

No. 1678 P.—SPECIFICATIONS of the undermentioned inventions have been filed, under the provisions of the Inventions and Designs Act of 1888, in the office of the Secretary appointed under that Act, and copies have been sent to the Governments of Fort St. George, Bombay, and Burma, and the Director of the department of land records and agriculture, North-Western Provinces and Oudh. These and other specifications are open to public inspection, from 11 A.M. to 4 P.M., at the Secretary's office (Imperial Secretariat, Government Place, West, Calcutta), on payment of a fee of one rupee, and a certified copy of any one of them will be supplied on payment of the fixed expenses of copying:—

No. 375 of 1896.—John Malvern Dame, agent to Messrs. T. Cosser & Co., engineers, etc., Lahore, for a patent fuel economiser for locomotive engines, to be called "Dame's patent fuel economiser for locomotive engines." (Specification filed 26 April 1897.)

No. 389 of 1896.—Henry Vander Weyde, artist and electric light photographer, of 182 Regent street, London, for an improved method of and apparatus for producing, branding and packing for transport blocks of ice, sub-divided or sub-divisible into cubes. (Specification filed 21 May 1897.)

No. 403 of 1896.—The Military Equipment Stores and Tortoise Tents Co., Ltd., manufacturers, of 7 Waterloo place, Pall Mall, in the county of London, for a portable cooking stove. (Specification filed 21 May 1897.)

No. 404 of 1896.—The Right Hon'ble Douglas MacKinnon Baillie Hamilton Cochrane, Earl of Dundonald, of No. 34 Portman square, in the county of London, for an improvement in pocket stoves. (Specification filed 21 May 1897.)

No. 405 of 1896.—John Poyser, engineer, of Bolehill, Wirksworth, near Derby, for improvements in battens for weaving looms. (Specification filed 21 May 1897.)

No. 111 of 1897.—Donald Black, engineer, of No. 2 Ross road, Howrah, for an improved swing door hinge, to be known as "the improved gravity door hinge."
(Specification filed 22 May 1897.)

No. 1679 P.—WHEREAS the inventors of the undermentioned inventions have respectively failed to pay, within the time limited in that behalf by the fourth schedule to the Inventions and Designs Act (V of 1888), the fees hereinafter respectively mentioned, it is hereby notified that under the provisions of section 8, sub-section (a) of the said Act, the exclusive privilege of making, selling, and using the said inventions in British India and of authorizing others so to do has ceased:—

No. 26 of 1892.—Gopinath Janardan Athalye's invention for drawing water. (Specification filed 27 February 1893.)

No. 72 of 1892.—P. Donaldson's invention for a hygienic latrine for natives of India. (Specification filed 27 February 1893.)

No. 190 of 1892.—P. Donaldson's invention for a hygienic latrine pan and water flush for natives of India. (Specification filed 28 February 1893.)

No. 204 of 1892.—William Henry Parkes' invention for improvements in train couplings. (Specification filed 23 February 1893.)

No. 209 of 1892.—William Banks Gwyther's invention for constructing ventilated roofs and floors. (Specification filed 24 February 1893.)

No. 221 of 1892.—Kottangulam Gopala Nayakar's invention for an improved waterlift. (Specification filed 27 February 1893.)

No. 235 of 1892.—Beaumont Richard Harrington's invention for a smoke annihilator. (Specification filed 27 February 1893.)

Fee in respect of the continuance of an exclusive privilege—

(4) (a) After the filing of the specification and before the expiration of the fourth year from the date of the filing thereof.

The sum of ₹50 for each of the said inventions.

No. 173 of 1890.—Edward Jamison O'Brien's invention for cotton seed linters. (Specification filed 24 February 1892.)

Fee in respect of the continuance of an exclusive privilege—

(4) (b) After the expiration of the fourth year and before the expiration of the fifth year from the date of the filing of the specification—

The sum of ₹50 for the said invention.

NOTICES.

All communications relating to Act V (the Inventions and Designs Act) of 1888 should be addressed to the "Secretary to the Government of India, Department of Revenue and Agriculture (PATENTS BRANCH), CALCUTTA."

The office of the Secretary under the Act is open for the transaction of business from 11 A.M. to 4 P.M. on all days except Sundays and gazetted holidays.

The Government of India are advised that as trade marks are not "designs" within the meaning of the Act, they cannot be registered under Part II.

The fees payable under the fourth and sixth schedules are now collected in cash, and applicants are warned that they must be responsible for any delay in cashing cheques.

Copies of the weekly notifications, and of the quarterly lists, of applications and specifications filed in the Secretary's office are now on sale to the public at one anna and eight annas a copy respectively.

RESIDENT IN MYSORE.

List of Candidates who passed the Lower Secondary Examination held in the Civil and Military Station of Bangalore in December, 1896.

N.B.—The following letters denote the subjects noted against each of them.

No.	Previous Register number, if any	Name of the candidate.	Whether male or female.	Name of the candidate's father or guardian.	Whether private or pupil, and, if pupil, the School from which sent up.	1st compulsory language.	Second optional language.	Subjects in which he subjects in which he passed. *Although the date entered in column 2 is, as far as can be calculated, the latest date of posting for the next Mail steamer, full allowance being made for the steamer being in advance of her published timing, Mails for the places mentioned in column 1 are despatched daily to Colombo, so that they may proceed by any steamer that has been unusually accelerated or retarded, or by any special opportunity that may be afforded by a steamer not belonging to one of the regular lines.

The letter-box for inland articles (including articles for Burma and Port Blair and for Ceylon by land route) will be cleared for the last time for articles without the late fee at 7-30 P.M. precisely, after which hour inland letters and papers fully prepaid and bearing an extra postage stamp of half anna will be received up to 8 P.M. and up to 8-45 P.M. with a late letter fee of 1 anna for the Chord Mail only.

On the day of despatch of the Mail for the Australasian Colonies via Tuticorin, the letter-box for foreign articles will be cleared for the last time for articles without the late fee at 8-30 P.M., and late letters and papers fully prepaid will be received up to 9 P.M.

On the day of despatch of the Mail for Europe, the letter-box for foreign articles will be cleared for the last time for articles without the late fee at 9 P.M., and late letters and papers fully prepaid will be received up to 9-30 P.M. On other days the letter-box for foreign articles will be cleared for the last time for articles without the late fee at 7-30 P.M., and late letters and papers will be received up to 9 P.M. for despatch by any Foreign Mails despatched the same night. The late fee for Foreign articles is 4 annas, which must be prepaid in stamps affixed to the articles.

JOHN OWENS,

Presidency Postmaster, Calcutta.

GEOLOGICAL SURVEY OF INDIA.

This medicine is also sold by the principal European and Native druggists in Calcutta. Postage, four annas per four-ounce tin, eight annas per eight-ounce tin, and twelve annas per pound tin, in addition to the foregoing rates.

سکونا فبري فیوج یعنی تپ بھگانے

والہ سکونا *

سکونا فبري فیوج کلکتہ کے برٹانکل گارڈن یعنی کمپنی باغ کے سپرنٹنڈنٹ صاحب سے ہر ایک ملازم سرکاری اور ایک مشق چھ پونڈ تک لینے والا ہر آدمی حسب نرخ ذیل خرید کرسکتا ہے — یعنی چار اونس والا ٹین در روپیہ آٹھ آنہ؛ آٹھ اونس والا ٹین بقیہ پانچ روپیہ؛ ایک پونڈ والا ٹین بقیہ مس روپیہ *

عام آدمیوں کو یہ دوا برٹانکل گارڈن یعنی کمپنی باغ کے سپرنٹنڈنٹ صاحب سے بقیہ نقد حسب نرخ ذیل مل سکتی ہے — یعنی چار اونس والا ٹین بقیہ تین روپیہ؛ آٹھ اونس والا ٹین بقیہ چھ روپیہ؛ ایک پونڈ والا ٹین بقیہ بارہ روپیہ *

یہ دوا کلکتہ کے بڑے بڑے دکانی اور دھبی دھالوں میں بھی ملتی ہے — ماسوائے قیمت مذکورہ بالا کے محض ذاک چار اونس والا ٹین کا چار آنہ؛ آٹھ اونس والا ٹین کا آٹھ آنہ؛ اور ایک پونڈ والا ٹین کا بارہ آنہ *

PURE SULPHATE OF QUININE.

*Manufactured at the Bengal Government
Cinchona Plantation.*

From 1st April, 1897, the price of this Quinine will be as follows:—

1-pound tin,	R15, or, post free,	R15-12.
½ "	R7-8, "	R8.
¼ "	R3-12, "	R4-4.

Analysis shows this Quinine to be of the purest manufacture; and it is guaranteed to be free from wilful mixture with the inferior alkaloids, Cinchonine and Cinchonidine. It is for sale only to Government officers, and only for cash, and may be had from the Superintendent, Botanic Garden, Seebpore, near Calcutta.

**বঙ্গদেশের গবর্ণমেন্টের সিন্ধুকোনা আবাদে প্রস্তুত
বিশুদ্ধ কুইনাইন।**

১৮৯৭ সালের ১লা এপ্রিল হইতে এই কুইনাইনের নিম্নলিখিত মূল্য
হইবে, যথা—

১ এক পৌণ্ড টিন .	১৫, বা ডাকমাতুল বিনা ১৫০০
½ আদ " "	৭৫ " ৮
¼ পিকি " "	৩৭৫ " ৪০

পরীক্ষা করিয়া দেখা গিয়াছে যে এই কুইনাইন অতি বিশুদ্ধ এবং
প্রস্তুত করা হইয়াছে, এবং হইতেছে যে সিন্ধুকোনা হইতে সিন্ধুকোনা-
ভাইন নামক অপকৃত্ত কারের সাহিত ইচ্ছা পূরক সিগান হয় নাই
ভাষায় গারান্টি দেওয়া বাহ্যেও হইতেছে। হইতেছে যে কেবল গবর্ণমেন্ট-
কম্পানীর নিকট বিক্রয় করা যাইবে, এবং কলিকাতার নিকট
নিবসুবেব কোম্পানীর বাগানের স্থাপারিতেও নিকট পাতরা
বাটতে পাঠাবে।

**METEOROLOGICAL PUBLICATIONS
FOR SALE.**

At the Meteorological Office, No. 5, Russell Street, Calcutta, at the prices specified below:—

Hand-book of Cyclonic Storms in the Bay of Bengal for the use of Sailors, describing the phenomena of Cyclonic Storms and Cyclones in the Bay of Bengal, and giving a brief account of six typical Bay of Bengal Cyclonic Storms. It also gives practical hints to sailors respecting Cyclonic Storms in the Bay. Demy, 212 pages, 29 plates (showing diurnal oscillation of barometer at different Latitudes and Longitudes, mean monthly barometric height, tracks of different Cyclonic Storms, etc., etc.) R5.

Rainfall Map of India in two sheets, scale 64 miles to one inch, showing the annual distribution of rainfall in India (in colours). R3.

Instructions to Observers of the India Meteorological Department, in which are described in detail the various Meteorological instruments in use at the Meteorological observatories, with full instructions how to read them, etc. Demy, 103 pages. R3.

Tables for the Reduction of Meteorological Observations in India. This book contains tables for reducing barometric observations taken at different heights, and for calculating humidity and vapour tension, etc., etc. R2.

Barometer, Wind and Current Charts of the Bay of Bengal and adjacent sea, north of the equator. R5.

Charts of the Bay of Bengal and adjacent sea north of the equator, showing the specific gravity, temperature, and currents of the sea surface. R1-8.

Barometer, Wind and Current Charts of the Arabian Sea and the adjacent portion of the North Indian Ocean. R5.

Monthly Weather Review of India, giving a summary of the chief features of the weather in India and containing discussions on, atmospheric pressure, barometric

depressions, temperature of the air, winds, rainfall, etc. It also contains all available information about snowfall in the mountain districts to the north and north-west of India, and an abstract of observations taken at about 200 observatories in India. Published monthly. R1 per month or R12 per annum. Postage 1s. 6p. for each copy outside Calcutta.

India Daily Weather Report and Chart, containing observations recorded at 8 A. M. at 147 observatories, with a Chart showing the distribution of atmospheric pressure and rainfall all over India, and a brief summary of the chief features of the weather of the day. Issued daily from the Simla Meteorological Office. Monthly subscription R2, and postage annas 8.

JOHN ELIOT,

Meteorological Reporter to the Govt. of India.

List of Books for sale at the Library of the Asiatic Society of Bengal, No. 57, Park Street, Calcutta, and obtainable from the Society's Agents, Messrs. Luzac & Co., 46, Great Russell Street, London, W. C., and Mr. Otto Harrassowitz, Bookseller, Leipzig, Germany.

Complete copies of those works marked with an asterisk cannot be supplied—some of the Fasciculi being out of stock.*

ROORKEE TREATISE ON CIVIL ENGINEERING IN INDIA.

Royal Octavo, with numerous Plates.

Volumes I and II are published in separate convenient sized Sections, as below, but can be bound up if required:—

VOLUME I.*

- | | | |
|---------|---------------------------------------|-------|
| Section | I. Building Materials (1895), | R2-0. |
| " | II. Masonry (1891), | R1-4. |
| " | III. Carpentry (1889), | R1-4. |
| " | IV. Earthwork (1892), | R1-4. |
| " | V. Tools and Plant (never published), | |

VOLUME II.*

- | | | |
|---------|------------------------------|-------|
| Section | VI. Buildings (1891), | R1-4. |
| " | VII. Bridges (in the Press), | |
| " | VIII. Roads (in the Press), | |
| " | IX. Railways (1891), | R1-4. |
| " | X. Irrigation Works (1873), | R1-6. |

Roorkee Treatise on Civil Engineering, Vol. II (186 edition). R3.

* Date of Edition on sale.

ROORKEE MANUAL OF APPLIED MECHANICS.

- Vol. I. Direct and Transverse Strain, principally by Analytical Methods. R8.
 " II. The Stability of Structures, mostly by Graphic Methods (in the Press).

MANUALS.

- VII. Surveying (by Major Firebrace, R.E.) (6th edition), with Curve Table (in the Press).
 XIII. Drawing (by Lieut. R. Pullford, R.E.)† R8.
 XIIIa. Drawing, First Principles of Geometrical (by do.) (4th edition). R1-4.
 XIV. Simple Applied Mechanics (2nd edition), Parts I and II in one. R3.
 Simple Applied Mechanics, Part II (1st edition). 8a.
 XV. Examples of Estimating. Comprising a progressive series of Estimates (with Plans of Buildings and Bridges, worked in detail). By P. Keay, Esq., and revised by C. C. Sullivan, Esq., Head Master (5th edition) (in the Press).
 XVI. Earthwork Estimating, with Practical Tables and Diagrams. By Major A. M. Brandreth, R.E. 4a.
 XVII. Specimens of Printing used in the College Drawing Course and Entrance Examinations. 6a.

Note.—The complete Treatise forms the course of the Engineer Class at the Thomason College in Civil Engineering, and the same, omitting Section X, is the course for the Upper Subordinate Class. The other Manuals are the complete course for both Classes in the several subjects of which they treat.

MISCELLANEOUS.

ENGINEERING WORKS.

- Curve Tables, complete, for laying any curve. 4a.
 Scantlings of Timber for Roofs. Tables and investigation of formulae for determining size of timbers for Flat Roofs from 8 to 22 feet span, and for Trussed Roofs from 10 to 50 feet span (2nd edition). By P. Keay, Esq., Head Master. R1.
 Useful Rules and Tables relating to Measurement of Timber. Rules for computing the cubic contents of Round Logs, as well as of Sawn Timbers, with Tables, etc. By Rai Kunhya Lal. R2-8.
 O'Callaghan's Earthwork Tables for India, in one large sheet, 8a.; mounted on cloth and bound (in the Press). R1-12.
 Tables for Computing Earthwork in Distributaries and small open Channels, in use in Irrigation Department, N.-W. Provinces. R1-4.
 Tyndall's Hand-Book of Specifications. R5.
 The Indian Engineer's Pocket Book. 4a.
 Wooden Bridges and Designs. By Rai Kunhya Lal (in the Press).
 Blasting under Water (2nd edition). 12a.
 Waugh's Instructions for Topographical Surveying. R1-4.
 Analysis of Lime and Cement Stones. By Murray Thomson, Esq., M.D., F.R.S.E. 6a.

J. CLIBBORN, Lieut.-Col., I.S.C.,

Principal, Thomason College, Roorkee.

THE INDIAN LAW REPORTS.

PUBLISHED UNDER AUTHORITY.

- The Indian Law Reports, published under the authority of the Governor-General in Council, appear in monthly parts, published as soon as possible after the first of each month, at Calcutta, Madras, Bombay, and Allahabad, and comprise four series,—one for the Calcutta High Court, a second for the Madras High Court, a third for the Bombay High Court, and a fourth for the Allahabad High Court. The cases heard by the Privy Council on appeal from each High Court are reported in the series for that High Court. Cases heard by the Privy Council on appeal from Provinces in India not subject to any High Court are reported in the Calcutta Series.

- The Calcutta Series is distributed by the Bengal Secretariat Book Depot, and the Madras, Bombay, and Allahabad Series are distributed direct from Madras, Bombay, and Allahabad, respectively.

- In supersession of the previous advertisements, on and from the 1st January, 1889, the terms of subscription and sale will be as follows for current issues, as well as for back numbers of the Reports from 1870:—

Terms of subscription payable annually in advance.

For the complete Series, including postage. R22-8

Without postage. R20-8
 With postage. R22-8

For the Calcutta Series R10-0-0
 " each of the Madras, Bombay, and Allahabad Series R6-0-0

" a part of the Calcutta Series purchased separately, inclusive of postage in India R7-0-0

" a part of each of the Madras, Bombay, and Allahabad Series purchased separately, inclusive of postage in India R7-0-0

The following is the rate at which deductions will be made for parts out of print and at which duplicate copies will be supplied to subscribers when required in place of copies lost in transit :—

	For town.	For mofussil.
	R a. p.	R a. p.
For the Calcutta Series; per copy	0 8 9	0 10 3
„ each of the Madras, Bombay, and Allahabad Series; per copy	0 5 3	0 5 9
„ the Calcutta Series. For the year	7 2 6	8 6 3
„ each of the Madras, Bombay, and Allahabad Series. For the year	4 4 6	4 11 3

Persons desiring to subscribe for, or purchase, the Report should apply to—

Superintendent, Government Press, Madras.
The Superintendent, Government Central Press, Bombay.
The Curator of Government Books, North-Western Provinces and Oudh.
The Officer in charge, Bengal Secretariat Book Depôt.

Orders and subscriptions for 1894 should be at once registered and remitted by money-order payable to the Accountant and Treasurer, Bengal Secretariat at Calcutta.

Advertisements will be received for publication on the wrappers of the Indian Law Reports, Calcutta Series, at the following rates, payable in advance :—

	One page.	Half page.	Quarter page.
For one issue	R 20	R 14	R 9
„ three issues	„ 55	„ 36	„ 24
„ six „	„ 100	„ 68	„ 45
„ nine „	„ 145	„ 96	„ 64
„ twelve „	„ 180	„ 120	„ 80

Several volumes of the BENGAL LAW REPORTS, from August 1868 to December 1875, and FULL BENCH RULINGS, Parts I and II, are available at the following rates :—

	Without postage.	With postage.
	R a. p.	R a. p.
Bengal Law Reports, for one year	20 0 0	22 8 0
Single copies, R2 per copy.		
Full Bench Rulings, Parts I and II	20 0 0	22 8 0

Bengal Secretariat Book Depôt, Writers' Buildings, Calcutta.
Remittances to be forwarded to the Accountant and Treasurer, Bengal Secretariat, Writers' Buildings, Calcutta.

All the wanting parts of the INDIAN LAW REPORTS (complete series) having now been reprinted, the complete Reports from 1876 to 1893 may be purchased for all the years, or for any particular year, on application to the Officer in charge of the Bengal Secretariat Book Depôt.

The subscription, R22-8 per annum, should be remitted in advance to the Accountant and Treasurer, Bengal Secretariat.

NOTICE.

It is hereby notified, for general information, that subscription to the complete series of the Indian Law Reports should be registered during the first three months of each calendar year. Subscribers are therefore requested to send in their subscriptions of the complete series before the 31st March in each year. Those who register their names after that date will understand that copies will be supplied only if available.

Ditto. Urdu version. Royal 8vo., stiff boards. 6s.

A Dictionary of the Economic Products of India.

By Dr. GHO. WATT, C.I.E.,

Reporter on Economic Products.

The first five volumes and Volume VI, Parts I, II, III, & IV of the Dictionary are ready at the Office of the Superintendent of Government Printing, No. 8, Hastings Street, Calcutta, and will be supplied to non-subscribers on receipt of the price for the complete set, which is R45 in India, and 3 guineas in England (exclusive of the index, for which a separate charge will be made): packing and postage, in India, 8 annas per volume; for England, 2 rupees 6 annas per volume. For copies bound in half calf or half morocco, R6 and 8 shillings, respectively, will be charged extra for the whole set.

The Dictionary is intended to deal with the products of India—animal, vegetable, and mineral; each product being treated after a uniform plan, the paragraphs of which give the scientific, vernacular, and European names; habitat or source; history; properties and uses (both chemical and industrial); trade statistics; markets, etc. The work is arranged alphabetically according to scientific nomenclature, but commercial and important vernacular names are also given as cross-references, so that little difficulty need be experienced in finding the account of a product even when its scientific name is unknown to the reader.

An important feature of the Dictionary consists in the fact that derived information is in every instance given under quotation marks, and with a reference to the original publication. Numerous contributors have, however, furnished the results of new discoveries, and confirmed the vernacular names, so that the Dictionary is not only a complete compilation of published information, but has been brought abreast of the most recent inventions and discoveries.

Volume I contains the letters A and B, and consists of 559 royal 8vo pages; Volume II embraces the letter C in 689 pages; Volume III contains the letters D, E, F, and half of G; Volume IV, latter half of G to middle of L; and Volume V contains the latter half of L to end of O; Vol. VI (which consists of four parts), Part I, contains letters P to R. The whole work completed in nine volumes (including Parts II to IV of Vol. VI), but a tenth volume may also be issued, consisting of an Index to all the vernacular and other names contained in the Dictionary. The Index will practically be a glossary of the vernacular and European names of the plants, animals, and minerals of India, and, as such, will be a work of reference, which, it is hoped, may prove of considerable value.

Technical Art Series published up to 1894, together with their explanatory Text—

1886-87, 6 Plates with Text. R1-8 a set (4s.)

1888-89, 18 Plates with Text. R4-8 a set (8s.)

SUPPLEMENT TO

The Gazette of India.

No. 23. } CALCUTTA, SATURDAY, JUNE 5, 1897.

OFFICIAL PAPERS.

A SUPPLEMENT to the GAZETTE OF INDIA will be published from time to time, containing such Official Papers and information as the Government of India may deem to be of interest to the Public, and such as may usefully be made known. The Debates of the Legislative Council of His Excellency the Governor General will in future be published in PART VI of the GAZETTE.

Non-Subscribers to the GAZETTE may receive the SUPPLEMENT separately on a payment of five Rupees per annum if delivered in Calcutta, or eight Rupees if sent by Post. The SUPPLEMENT and PART VI of the GAZETTE can also be subscribed for separately on a payment of Rupees six per annum if delivered in Calcutta or Rupees nine if sent by Post.

No Official Orders or Notifications, the Publication of which in the GAZETTE OF INDIA is required by Law, or which it has been customary to publish in the CALCUTTA GAZETTE, will be included in the SUPPLEMENT. For such Orders and Notifications the body of the GAZETTE must be looked to.

GOVERNMENT OF INDIA.
PUBLIC WORKS DEPARTMENT.

ACCOUNT.
General.

REVIEW OF THE REVENUE AND EXPENDITURE RECORDED UNDER THE HEAD
"CIVIL WORKS" IN THE ACCOUNTS OF THE GOVERNMENT OF INDIA FOR THE
OFFICIAL YEAR 1895-96.

No. 97-A. G., dated Simla, the 22nd May, 1897.

RESOLUTION—By the Government of India, Public Works Department.

READ

Note by A. R. Becher, Esq., Officiating Accountant General, Public Works Department, upon the accounts of Revenue and Expenditure recorded under the head "Civil Works" in the accounts of the Government of India for 1895-96.

RESOLUTION.—The total transactions under the head "Civil Works" in 1895-96 amounted to Rx. 5,557,649, the total revenue being Rx. 664,133 and the total expenditure Rx. 4,893,516.

2. The total revenue—Rx. 664,133—was greater by Rx. 31,310 and Rx. 35,673 than that of 1894-95 and of 1893-94 respectively.

Of the 20 sources of revenue in India, detailed in paragraph 2 of the Accountant General's note, 6 show a decrease as compared with 1894-95, but these are more than balanced by the increases, especially under Sales of buildings, Ferry receipts, and Rents of buildings.

3. The receipts under "Rents of Buildings" amounted to Rx. 58,655 as compared with Rx. 55,990 in 1894-95. The net return on the capital cost of buildings set apart as residences, excluding those allotted rent free was 2.11 per cent as compared with 2.31, 1.80 and 1.64 per cent. in the three preceding years.

4. The largest items of revenue are shown under the heads of "Ferry receipts" and "Tolls on roads;" under the former there was an increase of Rx. 13,182 and under the latter decrease of Rx. 2,442 as compared with the previous year.

5. Of the expenditure of Rx. 4,893,516, Rx. 152,000 were expended in England, and the balance in India, Rx. 3,386,074 by officers of the Public Works Department, and Rx. 1,355,442 by officers of other Departments.

6. Exclusive of outlay from "Excluded Local Funds" and "Contributions" the actuals of the year were as follows:—

	Rx.
Imperial	763,458
Provincial	2,063,159
Local	1,777,957
Total	4,604,574

7. Including the sum of Rx. 4,077 expended in England on stores supplied to India, which is included in the outlay upon the works concerned, the amount expended by Public Works officers stands at Rx. 3,390,151, which is made up as follows:—

	Rx.	Rx.
Civil Buildings, new works	864,951	
Communications, "	429,464	
Miscellaneous Public Improvements, new works	196,142	
Total new works		1,490,537
Civil Buildings, Repairs	287,112	
Communications "	807,727	
Miscellaneous Public Improvements, Repairs	71,969	
Total Repairs		1,166,808
Establishment	727,949	
Tools and Plant	38,821	
Suspense	33,984	
Total		732,786
GRAND TOTAL		3,390,151

8. The total of Rx. 1,355,442 expended by officers of other Departments is made up as follows:—

	Rx.	Rx.
Civil Buildings, new works	71,343	
Communications	218,651	
Miscellaneous Public Improvements, new works, 141,127		
Total new works		431,121
Civil Buildings, Repairs	50,853	
Communications	604,297	
Miscellaneous Public Improvements, Repairs	57,177	
Total Repairs		712,327
Establishment	174,389	
Tools and Plant	7,836	
Miscellaneous	29,709	
		211,994
GRAND TOTAL		1,355,442

9. On the whole Rx. 936,294 were expended on new Civil Buildings, Rx. 648,115 on new works of communication and Rx. 337,269 on new works of Miscellaneous Public Improvement. On the other hand Rx. 337,965 were expended on Repairs to Civil Buildings, Rx. 1,412,024 on Repairs to existing communications and Rx. 129,146 on Repairs to works of Miscellaneous Public Improvement.

10. The percentage of establishment to works and repairs amounted in the case of expenditure by Public Works officers to 29·86 per cent. as compared with 31·69 per cent. in the preceding year, and with 27·39 the average for the four years—1891-92 to 1894-95.

11. Of the total outlay under Public Works Department officers, 26 per cent. was spent on new buildings, 13 per cent. on new roads, and 24 per cent. on repairs to existing roads. The establishment charges for work carried out by Public Works officers was 21 per cent. of the total outlay and, in the case of outlay under officers of other Departments, the corresponding charge was 13 per cent.

12. The net debit on account of the Thomason Civil Engineering College, Roorkee, amounted to Rx. 11,010 as compared with Rx. 14,346 in 1894-95 and Rx. 13,232 in 1893-94.

13. The direct charge to the State under the head "Civil Works" on account of the Royal Indian Civil Engineering College at Coopers' Hill was £1,765. In addition, the salaries of passed students in England amounted to £3,999 and the passage money to India of officers on appointment to £656. These three items amount in all to £6,420 as compared with a corresponding total of £6,060 in 1894-95. There was a decrease of £455 in expenditure during 1895-96 in connection with this College, but the income also fell short of that of the previous year by £618.

The Governments of Madras and Bombay (General), Bengal, the North-Western Provinces and Oudh, the Punjab, and Burma.
The Chief Commissioners of the Central Provinces, Assam, and Coorg.

The Resident at Hyderabad.
The Agents to the Governor General for Central India, Rajputana, and Baluchistan.

The Superintendent of Port Blair and Chief Commissioner, Andaman and Nicobar Islands.

The Accountant General, Public Works Department.
The Director General of Military Works.

ORDER.—Ordered that the foregoing, with a copy of the note, be forwarded to the local Governments, Administrations and Officers noted in the margin for information.

Ordered also, that a copy of the Resolution and note be forwarded to the Finance Department, and that the papers be published in the Supplement to the *Gazette of India*.

W. S. S. BISSET, Colonel, R.E.,
Secretary to the Govt. of India.

Documents accompanying.

Note by Accountant General, Public Works Department, with accompaniment.

Accompaniment to P. W. D. Resolution No. 97-A. G., dated 22nd May 1897.

Note by A. R. Becher, Esq., Officiating Accountant General, Public Works Department, upon the accounts of Revenue and Expenditure recorded under the head "Civil Works" in the accounts of the Government of India for 1895-96.

The amount of *Revenue* and *Expenditure* exhibited in these accounts and reviewed in the following paragraphs is:—

	COLLECTED OR EXPENDED BY			TOTAL
	Public Works Officers.	Officers of other Departments.	Collected or expended in England.	
	Rx.	Rx.	Rx.	Rx.
Revenue	202,976	417,649	43,508	664,133
Expenditure	3,386,074	1,355,442	152,000	4,893,516*

* Includes outlay amounting to Rx. 288,942 from Excluded Local Funds and contributions.

REVENUE.

1. The *Revenue* credited in the accounts of the Government of India for 1895-96 under the head "Civil Works" amounted to Rx. 664,133. Of this sum—

Rx.
202,976 were realized by Public Works Officers in India;
417,649 by officers of other Departments in India; and
43,508 in England.

TOTAL . 664,133

2. The sources of revenue and the amounts collected were:—

For details by Provinces, see page of account	V	VI	VI	...	V	VI	VI	...	VI

A comparison of the actual revenue derived from "Civil Works" with the Budget and Revised Estimates is given below :—

YEAR.	Budget Estimate.	Revised Estimate.	Actuals.
	Rx.	Rx.	Rx.
1895-96	606,600	648,700	664,133

The increases of Rx. 57,533 over the Budget Estimate and of Rx. 15,433 over the Revised Estimate are chiefly due to the sale of the Saw Mills at Pegu, and to sale of certain buildings in Bengal, Punjab and Madras; to an improvement in the ferry tolls in Bengal and Madras; and to the receipt of larger contributions from Municipalities and private parties in Bengal and Bombay.

3. *Rents of buildings, Rx. 58,655.*—The receipts from this source compare as follows with the realizations in the four preceding years :—

YEARS.	By Public Works Officers.	By Officers of other Departments.	TOTAL.
	Rx.	Rx.	Rx.
1891-92	38,908	4,066	42,974
1892-93	41,640	4,195	45,835
1893-94	49,973	4,405	54,378
1894-95	49,092	4,898	53,990
1895-96	58,720	4,935	58,655

The net return on capital cost of buildings set apart as residences, excluding those allotted rent-free, is 2.11 per cent., as shown below, against 2.31 per cent. in the previous year. Considerable sums were expended on rent-free buildings, especially in the Provinces of Bengal and Bombay :—

CAPITAL COST OF BUILDINGS FROM EXAMINER'S ACCOUNTS.					COST OF REPAIRS.				Percentage of net return on Capital cost excluding rent-free buildings.	
Year of the account.	AMOUNT.			Rents realized.	Rent-free buildings.	Other buildings.	Net return excluding repairs to rent-free buildings.			
	* Rent-free build-ings.	Other build-ings.	TOTAL.

4. The receipts from the Thomason Civil Engineering College, Roorkee, amounted to Rx. 2,679. This College was transferred to the Civil Department, with effect from 1st April 1896.

* Excluding buildings occupied as residences by Heads of Local Governments and Administrations.

(a) The Capital and Revenue Accounts for 1895-96 not having been received, the figures for the previous year have been included.

The financial results of the working of this College were :—

<i>Income</i> during 1895-96	Rx. 2,679
<i>Outlay</i> " " —	
Salaries	12,046
Office Establishment	605
Book Depôt and Press	166
Repairs to Buildings	872
TOTAL	13,689
Net debit	11,010
Against in 1894-95	14,346
" " 1893-94	13,232
" " 1892-93	12,614

5. *Ferry Receipts, Rx. 316,347*.—This is the largest source of revenue credited under the head "Civil Works:" the major portion of it, amounting to Rx. 309,214, was realized by Civil Officers.

The realizations under this head during the last four years are shown in the following table :—

YEARS.	By Public Works Officers.	By Civil Officers.	TOTAL.
	Rx.	Rx.	Rx.
1892-93	7,914	286,060	293,974
1893-94	7,258	293,383	300,641
1894-95	6,268	296,897	303,165
1895-96	7,133	309,214	316,347

The Provinces which mainly contributed towards the increase of Rx. 13,182 in 1895-96 over the receipts of the preceding year were Assam, the North-Western Provinces and Oudh, and Madras.

The largest sums were collected in the following Provinces :—

PROVINCES.	Amount.
	Rx.
Bombay	16,854
Assam	16,187
Punjab	35,077
North-Western Provinces and Oudh	59,408
Bengal	67,140
Madras	95,951

The incidence of the revenue is—

	Rx.
Imperial	Nil.
Provincial	111,836
Local	204,511
TOTAL	316,347

EXPENDITURE.

6. *The Expenditure* recorded in the accounts for 1895-96 under the head "Civil Works" amounts to Rx. 4,893,516. Of this sum—

Rx. 3,386,074	were expended by Officers of the Public Works Department ;
" 1,355,442	by Officers of other Departments ;
" 4,741,516	
" 152,000	in England, including exchange, but exclusive of Rx. 4,077, the value
" ————	of stores supplied to India, included in the outlay upon the works
	concerned.
" 4,893,516	in all.

7. The following table compares the actuals of the year (exclusive of outlay from Excluded Local Funds and Contributions) with the Budget and Revised Estimates :—

Funds.							Budget Estimate.	Revised Estimate.	Actuals.
							Rx.	Rx.	Rx.
Imperial	796,300	774,200	763,458
Provincial	2,077,000	2,086,500	2,063,159
Local	1,777,400	1,746,600	1,777,957
TOTAL							4,650,700	4,607,300	4,604,574

Imperial outlay, Rx. 763,458.

The outlay was less than the Budget Estimate by Rx. 32,842. Compared with the Revised Estimate there was a lapse of Rx. 10,742, mainly due to an over-estimate of expenditure in Assam and Bengal.

Provincial outlay, Rx. 2,063,159.

The lapses from the Revised and Budget Estimates were due to an over-estimate of the requirements of the year.

The following table shows the lapses, distributed under Departmental and Civil Officers :—

							Departmental Officers.	Civil Officers.	TOTAL.
							Rx.	Rx.	Rx.
Budget Estimate	1,949,100	127,900	2,077,000
Actuals	1,900,298	162,861	2,063,159
Lapse							48,802	—34,961	13,841
Revised Estimate	1,947,900	133,600	2,086,500
Actuals	1,900,298	162,861	2,063,159
Lapse							47,602	—24,261	23,341

Incorporated Local Fund outlay, Rx. 1,777,957.

The actual outlay by Departmental and Civil Officers is compared with the Budget and Revised Estimates in the following :—

							Departmental Officers.	Civil Officers.	TOTAL.
							Rx.	Rx.	Rx.
Budget Estimate	597,600	1,179,800	1,777,400
Actuals	595,759	1,182,198	1,777,957
Lapse							1,841	—2,398	—557
Revised Estimate	600,000	1,146,600	1,746,600
Actuals	595,759	1,182,198	1,777,957
Lapse							4,241	—35,698	—31,357

The total expenditure of the year has been charged in the accounts in the following manner:—

	Rx.
New works	1,921,678
Repairs	1,879,135
Tools and plant	46,657
Decrease in stores, etc.	—33,984
Miscellaneous (Contributions to Municipalities, etc.)	29,769
Establishment	902,338
Add—	4,745,593
In England	147,823
TOTAL	4,893,516 (a)

8. The following table exhibits the services on which this sum was spent and the funds out of which it came. The outlay from Excluded Local Funds and Contributions, Rx. 288,942, represents money expended mainly on works requiring professional skill, by the agency of the Public Works Department for local bodies and institutions:—

ENGLAND.					
Royal Indian Civil Engineering College, Cooper's Hill					28,489
Other charges in connection with the training of officers, absentee and furlough allowances of Military and Civil officers, employed in the Public Works Department, etc., etc.					57,569
TOTAL ENGLAND at two shillings per rupee					84,058
EXCHANGE					68,866
GRAND TOTAL					(a) 4,893,516

(a) The figures in this statement include £2,317 on account of English stores, plus exchange thereon.

9. *Outlay in England.*—The outlay in England, exclusive of the value of stores charged to works in these accounts, compares as follows with the actuals of the previous four years :—

DETAILS.	1891-92.	1892-93.	1893-94.	1894-95.	1895-96.
	£	£	£	£	£
Salaries of President, Professors, etc., and other charges of the Royal Indian Civil Engineering College, Cooper's Hill .	28,017	28,184	30,330	26,944	26,489
Salaries, etc., of passed students detained in England .	4,334	4,537	3,683	3,847	3,999
Passage to India of Officers on appointment	761	761	611	611	656
Furlough pay and absentee allowances of officers of the Public Works Department .	48,639	49,203	49,729	47,091	52,749
Salaries, etc., of Indian Officers of the Public Works Department undergoing training in England	434	479	354	87	165
Remuneration for professional services	167	368	379
	82,352	83,532	85,086	78,580	84,058
Exchange	35,763	50,255	55,294	65,377	63,865
TOTAL	118,115	133,787	140,380	143,957	147,923

10. The direct charge to the State under the head "Civil Works" on account of the Royal Indian Civil Engineering College at Cooper's Hill was—

	Charge in sterling.	Income in sterling.	Net charge.
	£	£	£
In 1895-96	26,489	24,724	= 1,765
" 1894-95	26,944	25,342	= 1,602
" 1893-94	30,330	25,828	= 4,502
" 1892-93	28,184	27,704	= 480
" 1891-92	28,017	27,197	= 820
" 1890-91	24,905	24,878	= 27
" 1889-90	25,602	25,172	= 430

There has been a small decrease in expenditure during 1895-96 in connection with this College; but the income has also fallen short of the previous year.

11. The distribution of the outlay in India by Provinces is shown in the following table:—

12. Omitting the outlay from Excluded Local Funds and Contributions in regard to which the Public Works Department is merely the executive agency employed to carry out the work, the outlay in India on "Civil Works" during 1895-96 compares as follows with that incurred during the four preceding years :—

HEADS OF SERVICE.	1891-92.	1892-93.	1893-94.	1894-95.	1895-96.

Establishment	166,441	177,354	170,596	186,741	174,389
TOTAL OFFICERS OF OTHER DE- PARTMENTS	1,252,752	1,291,764	1,211,939	1,247,342	1,355,442
GRAND TOTAL	4,877,090	4,516,672	4,489,900	4,200,974	4,456,651(a)

(a) The figures in this statement include £2,317 on account of English stores, plus exchange thereon.

13. The expenditure on Establishment bears the following ratio to the total outlay by Public Works Officers, exclusive of Establishment, and to the outlay on works and repairs only :—

	Percentage of Establishment on total outlay exclusive of Establishment.	Percentage of Establishment on outlay on works and repairs only.
1891-92	21·83	22·44
1892-93	26·96	27·48
1893-94	27·73	27·98
1894-95	31·66	31·69
1895-96	29·82	29·86

There has been a small decrease in the percentage as compared with the previous year.

14. The provinces showing unfavourable results are :—

	Percentage on total outlay exclusive of Establishment.	Percentage on outlay on works and repairs.
Central India	50·69	50·72
Rajputana	38·84	39·38
Upper Burma	29·65	30·01
Lower Burma	29·37	28·80
North-Western Provinces and Oudh	39·00	38·22

15. The following table shows the percentages of the total money expended in each Province under the different departmental and service heads :—

13 " of the total outlay was recorded under Establish-				
ment	.	.	15 "	14 "
2 " under Miscellaneous, and	.	.	2 "	3 "
1 " of the outlay on Tools and Plant	.	.	1 "	1 "

17. Of the total outlay by Public Works Officers, 26 per cent. was spent on new buildings against 13 per cent. on new roads.

The Provinces or departments showing a high percentage of new Civil Buildings were the Military Works Department, Hyderabad, Port Blair, Baluchistan, Upper and Lower Burma, Bengal, Madras, and Bombay. The expenditure by the Military Works Department, as stated in previous reviews, was incurred almost solely upon churches in cantonments; that in Hyderabad and Port Blair on buildings only. In regard to new roads, the largest expenditure has again been incurred in Assam. The other provinces showing large expenditure were the Central Provinces, Upper and Lower Burma, North-Western Provinces, the Punjab, and Bombay.

Central India, owing to peculiar circumstances, still continues to carry a high percentage for establishment; the percentage for the year under review being for Rajputana 28 and Central India 34.

The major portion of the outlay by Civil Officers was again on maintenance of roads, and was incurred mainly in Baluchistan, the Central Provinces, Upper Burma, Bengal, the North-Western Provinces and Oudh, Madras, and Bombay.

The maintenance of roads, it will be observed, absorbed 45 per cent. of the total outlay. New roads took 16 per cent., while the amount expended on establishment, which this year absorbed 13 per cent., was on the whole moderate.

18. The *Imperial* outlay was incurred in the under-noted Provinces upon the objects detailed as:—

	Military Works.	Rajputana.	Central India.	Coorg.	Mysore.	Hyderabad.	Port Blair.	Kashmir.	Central Prov. & Berar.	Burma.	Assam.	Bengal.	North-Western Provinces and Oudh.	Punjab.	Madras.	Bombay.	Total.

19. In Upper Burma the large outlay of Rx. 299,939 was due to the opening out of the Province generally. The other Provinces showing heavy outlay were Assam, Baluchistan, Bengal and the Punjab. The principal works on which outlay was incurred were:—

In Baluchistan—

Buildings—New block of Public Offices, Quetta.

New Residency, Quetta.

Roads—Chor Khel Dhana road.

Kuch Ziarat Tonga road.

In Bengal—

New office for Comptroller of Post Offices.

Servants' Quarters, Government House, Calcutta.

Leaf Godown, Gulzerbagh.

In Upper Burma—

Roads—Myingyan-Fort Stedman, Thabyetkin-Mogok, Baumouk-Mansi, Fort Stedman-Kengtung, Myitkyina-Sadon, Kalewa-Kyigon, Alon-Ye-u Cart-road.

In Assam—

Road from Nichuguard to Manipur.

In North-Western Provinces and Oudh—

Buildings—Constructing buildings for a Bacteriological Laboratory at Mukhtesur.

In Punjab—

Buildings—Constructing Militia lines, Para Chinar, Kurram Valley.

Civil buildings at Para Chinar, Kurram Valley.

The largest outlay on repairs of buildings was in Upper Burma and was due to the large increase in the number of Police buildings.

More than half of the total outlay on the up-keep of roads was incurred in Upper Burma: Central India, Coorg, Baluchistan, Rajputana and Assam absorb most of the remainder.

The outlay incurred to the end of 1895-96 on the construction of the North-West Frontier road from Dera Ismail Khan to Khusalgarh was as follows:—

	Estimate.	Outlay.	Excess.
	Rx.	Rx.	Rx.
Works	325,331	323,275	—2,056
Establishment	65,897	70,070	+4,173
Tools and Plant	12,600	9,407	—3,193
TOTAL	403,828	402,752	—1,076

In addition to this, outlay to the extent of Rx. 6,684 was incurred on this work and debited to the grant for 44—Military Works.

20. The *Provincial* outlay was incurred in the under-noted Provinces upon the objects specified below :—

	7	5	3	10	53	12	7	3	100

22. The outlay by Officers of the Public Works Department was incurred in the following proportions :—

	Against	
	1894-95.	1893-94.
29 per cent. on new Buildings	29 per cent.	30 per cent.
7 „ „ Roads	9 „	10 „
3 „ „ Works of Miscellaneous Public Improvement	2 „	1 „
10 „ „ on repairs to Buildings	9 „	9 „
24 „ „ „ to Roads	24 „	24 „
1 „ „ „ to Works of Miscellaneous Public Improvement	1 „	1 „
26 „ of the total outlay has gone in payments to Establishment	27 „	24 „
1 „ on Tools and Plant	1	1 „

23. The outlay by Public Works Officers was Rx. 557,784 on new Buildings, as compared with Rx. 142,662 on new Roads.

24. Variations in the percentages are noticeable. In Madras the percentage of outlay on new buildings was 57 against only 3 per cent. on new roads. Bombay carries the same percentage on new roads with 31 per cent. on new buildings. Lower Burma, Bengal, and the North-Western Provinces and Oudh also show considerably larger outlay on new buildings than on new roads. Assam, on the other hand, shows a larger percentage of outlay on new roads than on new buildings. The outlay by Officers of other Departments was comparatively small, and no matter of special interest is noticeable. The bulk of the outlay was incurred on works of Miscellaneous Public Improvement.

25. *Repairs* of Buildings and Roads have taken up the undernoted percentages of the total outlay:—

PROVINCES.	PERCENTAGE OF TOTAL OUTLAY INCURRED ON REPAIRS.		
	Buildings.	Roads.	Miscellaneous Public Improvements.
PUBLIC WORKS OFFICERS.			
Central Provinces	6	27	...
Lower Burma	8	26	...
Assam	6	31	1
Bengal	10	19	2
North-Western Provinces and Oudh	11	29	...
Punjab	9	39	1
Madras	10	6	1
Bombay	12	25	1
OFFICERS OF OTHER DEPARTMENTS.			
Central Provinces
Lower Burma
Assam
Bengal	10	41	9
North-Western Provinces and Oudh	17	7	34
Punjab
Madras	2	7	11
Bombay

26. The principal works under construction on which outlay was incurred were:—

In Central Provinces—

Buildings—Additions and alterations to Jail at Narsinghpur.
Special Repairs, Additions, etc., to Police Lines, Nagpur.
Roads—Arang-Khariar.
Mandla-Dindori.
Mandla-Bilaspur.
Mul-Mooramgaon.

In Lower Burma—

Buildings—Jail at Promé.
New Government House, Rangoon.
New Public Offices, Rangoon.
Lunatic Asylum, Rangoon.
Reformatory at Insein.
Deputy Commissioner's Court House at Myaungmya.
Record and Treasury Strong Room, Hanzada.
Roads—Tavoy to opposite Yebyu.
Shwegyin-Hlaingbwe.
Thonzeik-Bilin.
Thayetmyo-Mindon.

In Assam—

Roads—Changail Road, Duarband to Aijal.
 Bridges on the Companyganj-Salutikar road.
 Improving bridges on Northern Trunk road.

In Bengal—

Buildings—New Wing to the Opium Godown, Calcutta.
 Zenana Hospital, Bunkipur.
 New Stamp and Stationery Office, Calcutta.
 Court House, Barisal.
 Additional accommodation for Museum, Calcutta.
 New Block Stamp and Stationery Office.
 Kurseong School.
 Anatomical block, Medical College.
 Boarding-house, Madrasa College.
 Eden Hindu Hostel, Calcutta.
 Lady Elliott's Hostel, Sealdah.
 Roads—Fore-hore Road, Howrah.
 Ranchi-Chaibassa.
 Bridge over the Balasan.

In North-Western Provinces and Oudh—

Buildings—Offices for Deputy Commissioner, Naini Tal.
 Gorakhpur Jail.
 Gohna Lake Protective measures, Garhwal.
 Protective Works, Sher-ka-Danda Hill.
 Roads—Tonga Road from Brewery to Naini Tal.

In Punjab—

River Protective Works, Dera Ghazi Khan.
 Simla Water-works.
 Montgomery Jail.
 Combined Boarding-house for the Central Training College, Normal School, and the Model School, Lahore.
 Amballa Jail.
 Amballa City Water-supply.

In Madras—

Buildings—Additions and improvements to Government House, Ootacamund.
 Collectors' Offices at Calicut and Cuddalore.
 New Law College, Madras.
 Public Office at Tanjore.
 Additions and improvements to Penitentiary, Madras.
 Connemara Library and Victoria Technical Institute, Madras.
 Quarters for ten men of His Excellency the Governor's band.
 Record room in Collector's Office in Thirumala Naick's Palace.
 Additions and alterations to old High Court Buildings to accommodate Stamps, Stationery, Collectors' Offices, Madras.
 Additions to the Presidency College.
 Roads—Vayittiri to Gudalur.
 Iron bridge at Mahasingi.
 Rattikota to Boyaruni.

Miscellaneous Public Improvements—Improvements to Ootacamund Lake.

In Bombay—

Buildings—Central Jail, Hyderabad.
 Civil Hospital and Medical School at Hyderabad.
 City Police Lines, Poona.
 Distillery buildings at Kotri.
 Subordinate Judges and Small Cause Courts at Poona.
 Adding a wing to Public Works Buildings, Bombay.
 Head-Quarters, Police Offices and Lines, Bombay.
 Rao Bahadur Govindrao Ramchandra Garud High School, Dhulia, Khandesh District.
 Roads—Hukeri-Gokak.
 Nipani-Mahalingpur.
 Neri-Ajanta.
 Bridge at Dapuri on Mulla River.
 Miscellaneous Public Improvement—Strengthening the existing dry rubble store pitching from Colaba to opposite Marine Lines Station.

27. The money obtained from *Incorporated Local Funds* has been expended on the underno objects:—

28. The major portion of the outlay by Public Works Officers was incurred on "Communications," of which 28 per cent, was on new works, chiefly in the Central Provinces, Lower Burma, Assam, the North-Western Provinces and Oudh, and Bombay, and 39 per cent. on Repairs, for the most part carried out in Lower Burma, Assam, the North-Western Provinces and Oudh, the Punjab, and Bombay.

The outlay on "New Buildings" was comparatively small, being 6 per cent. on the total outlay, and the expenditure under this head occurred chiefly in Lower Burma, the North-Western Provinces and Oudh, and the Punjab.

29. The major portion of the total outlay from Incorporated Local Funds was, it will be observed, administered by officers of other Departments, and the bulk of the outlay, *viz.*, 50 per cent., was expended on repairs to "Communications." Bengal and Madras, with Rx. 232,084 and Rx. 249,704, respectively, show the largest outlay.

30. The money assigned to public works from Incorporated Local Funds was expended in the following proportions upon Buildings and Communications and other works of Miscellaneous Public Improvement :—

PERCENTAGE ON TOTAL OUTLAY.

PROVINCES.	CIVIL BUILDINGS.		COMMUNICATIONS.		MISCELLANEOUS PUBLIC IMPROVEMENTS.		Establishment.	Tools and Plant.	Suspense.	Miscellaneous.	TOTAL
	Works.	Repairs.	Works.	Repairs.	Works.	Repairs.

84. The principal works in progress were:—

In Assam—

Roads—Improving Natwanpur Road.

Sylhet-Muktapurghat.

Pagla-Gobindganj.

Sunamganj-Pagla.

Gauripur-Roha.

Sylhet-Lalabazar to Sherpur.

Lakhipur Road.

Natwanpur-Jaintiapur.

In North-Western Provinces and Oudh—

Roads—Bajinath and Hawalbagh Cart Road.

Moradabad-Sambal Road.

Azamgarh and Mow Road.

Mow-Gurserai and Punch Road.

In Bombay—

Roads—Ahmedabad-Bareja.

Mirya Bay-Sindgi.

Kudchi-Terdal.

Nadiad-Kapadvanj.

Havin-Hippargi-Telgi.

Dhondaicha-Sháháda.

Amalner-Chopda.

Tapti-Chopda.

Nasik-Dindori and Kalvan.

Amalner-Párola.

Kalekhind-Palaspe.

Manor-Váda.

Indi-Sindgi.

In Lower Burma—

Bridge over Akyaw Chaung.

35. The names of works and localities on which outlay by officers of other Departments was incurred cannot be given, as accounts are not received in sufficient detail.

36. The works carried out by the Public Works Department from money assigned from Excluded Local Funds in the various Provinces are classified below :—

88. The principal contribution works on which outlay was incurred during 1895-96 were :—

In Central Provinces—

Balram Dass Water-works, Raipur.

Jubbulpore Water-works.

In North-Western Provinces and Oudh—

Sewerage-works, Naini Tal.

In Central India—

Feeder Road from Jaora Railway Station to Piploda town.

In Punjab—

Delhi Water-works.

Delhi Sewerage-works.

Amballa Water-supply.

New girder bridge across the Jhelum at Kohala.

River Protective works, Dera Ghazi Khan.

In Bombay—

Maharashtra Female High School.

New Cathedral High School.

Ráo Bahádur Govindrao Ramechandra Garud High School, at Dhulia, Khándesh.

Lunatic Asylum at Nawpada.

Gujarat College at Ahmedabad.

89. The suspense balances and objectionable expenditure outstanding at the close of 1895-96 are separately reviewed.

CALCUTTA ;

The 10th March 1897.

A. R. BECHER,

Offg. Accountant General, P. W. Dept.

Documents accompanying.

Abstract and detailed accounts of Revenue and Expenditure recorded under the head Civil Works during 1895-96.

Accountant General, Public Works Department, memorandum No. 196G., dated 10th March 1897.

Submitted to the Secretary to the Government of India, Public Works Department,

Accompaniment to Accountant General, P. W. D., No. 196G., dated 10th March 1897.

ABSTRACT by Funds, Departmental Heads, and Agency of Collection and Disbursement, Revenue and Expenditure recorded under the head CIVIL WORKS during 1895-96, compared with the Budget and Revised Estimates of the year and the Actuals of the year 1894-95.

Lieutenant S. K. B. Rice, 35th (Sikh) Regiment of Bengal Infantry;

Lieutenant N. G. B. Strong, 1st Regiment of Madras Lancers.

FORESTS.

The 9th June, 1897.

No. 524—102-9-F.—*Erratum.*—In the notification of this Department No. 397-F., dated the 30th April last, regarding Mr. Dickinson's furlough, for "18th April 1897" read "17th

April 1897" in the first clause and "afternoon of 17th April 1897" in the second clause.

No. 527—107-9-F.—With reference to the notification of this Department No. 322 F., dated the 10th March last, the services of Mr. E. M. Coventry, Assistant Conservator of Forests, 1st grade, North-Western Provinces and Oudh, are replaced at the disposal of the Government of the Punjab, with effect from the 1st July next.

LAND-SURVEYS.

The 11th June, 1897.

No. 1339—53-3.—*Appointments.*—Mr. T. E. M. Claudius, Extra Assistant Superintendent, 3rd grade, Survey of India Department, to be Extra Assistant Superintendent, 1st grade (Supernumerary), with effect from the 4th February 1897, on which date Colonel Rogers, Superintendent, 1st grade, retired from the Department.

DENZIL IBBETSON,

Secretary to the Government of India.

FOREIGN DEPARTMENT.

NOTIFICATIONS.

No. 2206-I. A.

Simla, the 10th June, 1897.

His Excellency the Viceroy and Governor-General, accompanied by His Honour the Lieutenant-Governor of the Punjab, His Excellency the Commander-in-Chief and the Members of the Governor-General's Council, will attend Divine Service at Christ Church, Simla, at 11 o'clock on Sunday, the 20th June 1897, the day appointed for the General Thanksgiving to Almighty God for the protection afforded to Her Most Gracious Majesty Queen Victoria, Empress of India, during the sixty years of Her Auspicious Reign.

Officers of Her Majesty's services, Civil and Military, are invited to attend. Admission will be by tickets, which will be issued by the Venerable the Archdeacon of Lahore to all seat-holders. Others who desire to attend should apply to the Venerable the Archdeacon for accommodation.

On Tuesday, the 22nd June 1897, His Excellency the Viceroy and Governor-General will receive at the Town Hall the Deputations assembled at Simla, bearing Congratulatory Addresses, for transmission to Her Majesty. His Excellency will arrive at the Town Hall at 11 A.M.

The Governor-General in Council invites the attendance at this Ceremonial of His Honour the Lieutenant-Governor of the Punjab, His Excellency the Commander-in-Chief in India, the Additional Members of the Council of the Governor-General for the purpose of making Laws and Regulations, the Right Reverend the Bishop of Lahore, the Secretaries to the Government of India, all Heads of Departments, all officers of Her Majesty's Services, Civil and Military, not on duty, and all loyal subjects of Her Majesty resident in Simla.

As space is limited, admission can only be granted by tickets which will be issued on application to the Chief Secretary to the Government of the Punjab.

At the Special Divine Service on Sunday, the 20th, and at the Cere-
monial at the Town Hall on Tuesday, the 22nd June 1897, full dress will be
worn by all Officers entitled to wear uniform; morning dress by Gentlemen
not entitled to wear uniform.

The maintenance of order and the supervision of the arrangements will be
carried out under the orders of His Honour the Lieutenant-Governor of
the Punjab.

The 7th June, 1897.

No. 2139-I. A.—With reference to the notification of the Home Department, No. 180
(Medical) dated the 11th March 1897, the services of Surgeon-Major Jamshedji Khurshedji
Kanga, I.M.S. (Madras), are replaced at the disposal of the Military Department, with effect
from the date of his relief by Surgeon-Lieutenant N. P. O'G. Lalor, I.M.S.

The 9th June, 1897.

No. 2173-I. A.—In exercise of the powers conferred by section 56 of the Indian
Christian Marriage Act, 1872 (XV of 1872), the Governor-General in Council is pleased
to appoint the Registrar-General of Births, Deaths and Marriages for the Punjab, for the
time being to be the officer to whom Marriage Registrars in the Native States of Patiala
and Nalagarh shall send the certificates mentioned in section 54 of the said Act.

No. 2175-I. A.

THE BANGALORE MUNICIPAL LAW, 1897.

CONTENTS.

CHAPTER I.

PRELIMINARY.

SECTIONS.

1. Short title, extent and commencement.
2. Repealing and saving clauses.

Notices.

- 182. Authentication, service and validity of notices.
- 183. Mode of giving notice to owner or occupier of property.
- 184. Publication of public notice.

Exemption of local areas.

- 185. Effect of exemption of local area from provisions of this Law.

Collection of sums due to the Commission.

- 186. Recovery of sums due to the Commission.

Miscellaneous.

- 187. Precautions to be observed in entering dwellings.
- 188. Obligation of municipal servants to discharge their duties.
- 189. Brothels.
- 190. Relief to agents and trustees.
- 191. Decision of question as to whether persons are inhabitants.
- 192. Police officers to report offences to Commission and assist generally.

A Law to provide for the better management of the municipal affairs of the Civil and Military Station of Bangalore.

Whereas it is expedient to make better provision for the administration of the municipal affairs of the Civil and Military Station of Bangalore; It is hereby ordered as follows:—

CHAPTER I.

PRELIMINARY.

1. (1) This Law may be called the Bangalore Municipal Law, 1897.
Short title, extent and commencement.

(2) It extends to the Civil and Military Station of Bangalore as defined for the time being by notification under this Law; and

(3) It shall come into force at once.

2 (1) The Regulations published with the Repealing and saving Notification of the Government of India in the Foreign Department No. 319-I., dated the 9th February, 1882, and amended by subsequent

notifications, are hereby repealed, but not so as to affect the validity of any thing done or suffered thereunder, or any right, privilege, obligation or liability acquired, accrued or incurred thereunder, before this Law comes into force.

(2) All Municipal Commissioners and officers of the Municipal Commission of the Civil and Military Station of Bangalore appointed, elected or nominated, and all bye-laws or rules prescribed, limits defined, budgets passed, assessments, valuations, measurements and appointments made, elections held, powers conferred, salaries fixed, notifications published, notices issued, taxes, tolls, rates, cesses and fees imposed or assessed, contracts entered into and suits instituted under any Act or Regulation hitherto in force relating to the matters herein-after dealt with, shall, so far as may be, be deemed to have been respectively appointed, elected, nominated, prescribed, defined, passed, made, held, conferred, fixed, published, issued, imposed, assessed, entered into and instituted under this Law.

3. In this Law, unless there is anything repugnant in the subject or context,—
Definitions.

(1) "Station" means the Civil and Military Station of Bangalore as defined for the time being by notification under section 4:

(2) "Resident" means the Resident in Mysore:

(3) "Commission" means the Municipal Commission of the Station:

(4) "President," "Vice-President," "Secretary" and "Commissioner" mean, respectively, the President, a Vice-President, the Secretary and any member of the Commission:

(5) "inhabitant" includes any person ordinarily residing or carrying on business, or owning or occupying immovable property, in the Station:

(6) "owner" includes the person for the time being receiving the rent or profits of lands and buildings or either of them, whether on his own account or as agent or trustee for any person or society or for any religious or charitable purpose, or who would so receive the same if the land or building were let to a tenant:

(7) "street" includes any way, road, lane, square, court, alley, passage or open space, whether a thoroughfare or not, over which the public have a right of way, and also the road-way and foot-way over any public bridge, or cause-way:

(8) "explosive"—

(a) means gun-powder, nitroglycerine, dynamite, gun-cotton, blasting powders, fulminate of mercury or of other metals, coloured fires, and every other substance, whether similar to those above mentioned or not, used or manufactured with a view to produce a practical effect by explosion, or a pyrotechnic

*The Bangalore Municipal Law, 1897.**(Chapter I.—Preliminary.—Sections 4-7. Chapter II.—The Commission.—Sections 8-10.)*

(b) includes fog-signals, fireworks, fuzes, rockets, percussion-caps, detonators, cartridges, ammunition of all descriptions and every adaptation or preparation of an explosive as above defined :

(9) "petroleum" includes also the liquids commonly known by the names of rock oil, Rangoon oil, Burma oil, kerosine, paraffine oil, mineral oil, petroline, gasoline, benzol, benzoline, benzine and any inflammable liquid which is made from petroleum coal, schist, shale, peat or any other bituminous substance, or from any products of petroleum ; but it does not include any oil ordinarily used for lubricating purposes and having its flashing point at or above two hundred degrees of Fahrenheit's thermometer :

(10) "notification" means a notification published under this Law in the local official Gazette :

(11) "notified" means published as aforesaid :

(12) "rule" means a rule under this Law : and

(13) "bye-law" means a bye-law made at a special meeting of the Commission under this Law.

4. The Governor General in Council may, from time to time, by notification, declare what, for the purposes of this Law, shall be the area and limits of the Station and may, at any time, in like manner, alter such area and limits.

5. Subject to the provisions of the next following section and of section 70, this Law shall not apply to any barracks, hospitals, guard-rooms, barrack-yards, hospital enclosures or other buildings or lands in exclusive possession of the Military authorities for Military purposes, and notified as such by the Governor General in Council.

6. The Governor General in Council may, by notification, exempt any local area, buildings, or lands in the Station from the operation of all or any of the provisions of this Law or of the rules and bye-laws thereunder, and may, in like manner, apply all or any of the said provisions to any of the buildings or lands described in section 5 or to any other local area.

7. Notwithstanding any thing contained in this Law, the Governor General in Council may, by notification, apply all or any of the provisions of any Cantonment Act or Regulation or of any rules thereunder to the Station or to any buildings, lands or local area comprised in the Station, and

CHAPTER II.

THE COMMISSION.

Municipal constitution.

8. (1) The municipal affairs of the Station shall be administered by a Municipal Commission body to be styled the Municipal Commission of the Civil and Military Station of Bangalore and consisting of a President and twenty-five other Commissioners.

(2) Subject to the provisions of section 16 and of section 19, sub-section (2), the Commissioners shall be appointed by the Resident either by name or by office, or shall be elected from among the inhabitants in accordance with rules made under this Law, or shall be partly appointed and partly elected as aforesaid according as the Resident may, by notification, direct :

Provided that,—

(a) if the Resident has directed that the elected members shall constitute the whole or any portion of the Commission, he shall not afterwards direct that they shall constitute any smaller proportion thereof except in compliance with the request of a majority of the electors for the time being, or for some reason which the Resident may deem to affect the public interests, and,

(b) unless the Governor General in Council otherwise directs, the appointed members who are salaried officers of Government, shall not exceed one-third of the whole Commission.

(3) When, under a direction issued under sub-section (2), any places on the Commission are required to be filled by election and a sufficient number of Commissioners are not elected to fill such places, the Resident may fill them by appointment.

9. (1) If a Commissioner is appointed by office, the person for the time being holding the office shall be Commissioner until the Resident otherwise directs.

(2) The term of office for which all other Commissioners shall be appointed or elected, as the case may be, shall be fixed by the Resident by rule, and may be so fixed as to provide for the retirement of Commissioners by rotation, but shall not exceed three years.

(3) An outgoing Commissioner may, if otherwise qualified, be re-elected or re-appointed.

10. (1) Any Commissioner wishing to resign shall forward his written resignation through the President to the Resident.

(2) When the acceptance of such resignation

The Bangalore Municipal Law, 1897.

(Chapter II.—The Commission.—Sections 11-21.)

11. (1) The Resident may, by notification, remove any Commissioner,
Powers of the Resident as to removal of Commissioners.

- (a) if he refuses to act, or becomes, in the opinion of the Resident, incapable of acting, or has been declared a bankrupt or an insolvent or convicted of any such offence, or subjected by a Criminal Court to any such order, as implies, in the opinion of the Resident, a defect of character which unfits him to be a Commissioner;
- (b) if he has been declared by notification in any Government Gazette to be disqualified for employment in, or has been dismissed from, the public service;
- (c) if he has absented himself for more than three consecutive months from the meetings of the Commission;
- (d) if his continuance in office is, in the opinion of the Resident, dangerous to the public peace or order; or,
- (e) in the case of a salaried officer of the Government, if his continuance in office is, in the opinion of the Resident, unnecessary or undesirable.

(2) A person removed under this section shall be disqualified for election unless and until the Resident otherwise directs.

12. (1) Whenever a vacancy occurs by the death, resignation or removal of any elected Commissioner, a new Commissioner shall be elected in accordance with the rules to fill the vacant place:
Filling of casual vacancies.

Provided that the Resident may direct in any such case that the vacancy shall be left unfilled.

(2) Upon the death, resignation or removal of any appointed Commissioner, the Resident may, if he thinks fit, appoint a new Commissioner to fill the vacant place.

(3) Every person elected or appointed to fill a casual vacancy shall hold his seat for the time for, and subject to the conditions upon, which it was tenable by the person in whose place he has been so elected or appointed, and no longer; but he may, if otherwise qualified, be re-elected or re-appointed.

13. Every election and appointment of a Commissioner, shall be notified by the Resident.
Notifications of elections, appointments and vacancies.

14. (1) The Commission shall be a body corporate by the name of the Municipal Commission of the Civil and Military Station of Bangalore; it shall have perpetual succession and a common seal, with power to acquire and hold property, both moveable and immoveable, and, subject to the provisions of this Law, to transfer any property held by it and to contract and to do all other things necessary for the purpose of its constitution; and it may sue and be sued in its corporate name.
Incorporation of Commission.

15. Every Commissioner shall be deemed to be a Municipal Commissioner within the meaning

16. (1) The office of President shall be held, unless otherwise ordered by the Governor General in Council, by the District Magistrate for the time being of the Station.
District Magistrate of the Station to be ordinarily the President.

17. The Commission may, from time to time, elect one or two of the Commissioners to be Vice-President or Vice-Presidents, and every Vice-President so elected shall, if approved by the Resident, hold the office of Vice-President for such term as the Resident may by rule fix:

Provided that, if the Commission, instead of electing a Vice-President, applies to the Resident to nominate a Vice-President from among the Commissioners, or if no election has been made within one month from the occurrence of a vacancy in the office of Vice-President, or if the Resident does not approve the Vice-President elected, the Resident may, if he thinks fit, appoint one of the Commissioners to be a Vice-President for the like term.

18. Upon the occurrence of any vacancy in the office of Vice-President, a new Vice-President shall be elected or appointed in the manner provided by section 17.
Casual vacancies in office of Vice-President.

19. (1) The Resident may appoint from time to time such officers of the Commission as he may think necessary for the due performance of the various duties assigned to it, and may at his pleasure suspend or remove them. Such officers shall receive out of the Municipal Fund such allowances as the Resident, after consulting the Commission, may fix:
Officers to be appointed by the Resident, such as a Medical Officer, an Engineer and a Secretary.

Provided that there shall always be a Medical Officer, an Engineer and a Secretary among the officers of the Commission; and that no other salaried officer shall be created by the Resident without the consent of the Commission.

(2) The Medical Officer shall be *ex-officio* a Commissioner. The Engineer and the Secretary may be appointed, but shall not be elected, Commissioners.

20. Subject to the provisions of this Law and any rules thereunder, the Commission may employ, in addition to the officers who may be appointed under section 19, such other officers and servants on salaries, not exceeding in any case three hundred rupees per mensem, as may be necessary or proper for the efficient execution of its duties, and may remove or dismiss any officer or servant so employed.
Other officers to be appointed by the Commission.

Pensions.

21. (1) All officers and servants of the Commission entertained in permanent employment on or after the first day of January, 1892, shall be entitled to pensions or gratuities in accordance with the rules contained in the Civil Service Regulations. Such pensions or gratuities shall be granted by order of the Resident, and shall be paid by the Commission
Pensions and gratuities to officers and servants.

*The Bangalore Municipal Law, 1897.**(Chapter II.—The Commission.—Sections 22-32.)*

charges a deduction of five per cent. shall be made from the salaries of all such officers and servants.

(2) The provisions of sub-section (1) shall be extended to officers and servants who entered the service not more than five years before the first day of January, 1892, provided that a deduction of five per cent. shall have been made from the salaries of such officers and servants from the date on which this system came into force, that is to say, from the first day of October, 1892.

(3) The said provisions may also be extended to officers and servants who entered the service of the Commission more than five years, but not more than fifteen years, before the first day of January, 1892, provided that they shall have contributed by deduction from their salaries, with effect from the date on which this system came into force, that is to say, from the first day of October, 1892 ten per cent. of their salaries for the number of years by which their previous service exceeded five years, and afterwards five per cent.

22. The Commission may, with the sanction of the Resident, give a gratuity to, or purchase an annuity for, any officer or servant retiring from their service who is not entitled to pension or gratuity under section 21.

Committees.

23. (1) The Commission shall appoint from among its members a standing Health Committee to advise and report upon matters relating to sanitation, conservancy, food and water-supply, the registration of vital statistics, vaccination and other matters pertaining to the health of the Station.

(2) The Medical Officer shall be a member and *ex-officio* Chairman of the Health Committee.

24. The Commission may from time to time appoint from among its members such other Committees consisting of such number of persons as it thinks fit to advise and report on any matters connected with the purposes of this Law other than those mentioned in the last foregoing section.

25. (1) The Commission may, by bye-law, delegate the executive powers of Commission, any of its duties to a Vice-President, Committee or officer of the Commission, and may, in like manner, resume such administration:

Provided that, when a bye-law has been passed delegating any powers of the Commission as aforesaid, it shall not be rescinded except on a vote of a majority of all the Commissioners.

(2) In all matters of which the executive administration has not been delegated as aforesaid, it shall vest in the President.

Conduct of business.

26. (1) The Commission shall meet for the transaction of business at least once in every month at such time as may, from time to time, be fixed by bye-law.

(2) The President, or, in his absence, a Vice-President, may, whenever he thinks fit, and shall, on a requisition made in writing by not less than one-fifth of the Commissioners, convene either an ordinary or a special meeting at any other time.

27. (1) Every meeting of the Commission Ordinary and special shall be either ordinary meetings. or special.

(2) Any business may be transacted at an ordinary meeting unless required by this Law or the rules to be transacted at a special meeting.

28. (1) The quorum necessary for the transaction of business at a Quorum. special meeting of the Commission shall be one-half of the Commission.

(2) The quorum necessary for the transaction of business at an ordinary meeting of the Commission shall be such number or proportion of the Commissioners as may, from time to time, be fixed by bye-law, but shall not be less than six:

Provided that, if at any ordinary or special meeting of the Commission a quorum is not present, the chairman shall adjourn the meeting to such other day as he may think fit, and the business which would have been brought before the original meeting if there had been a quorum present, shall be brought before, and transacted at, the adjourned meeting, whether there is a quorum present thereat or not.

29. At every meeting of the Commission the Chairman of meeting. President, or, in his absence or during the vacancy of his office, the senior Vice-President present, and if there be no President or Vice-President present, then such one of their number as the Commissioners present may elect, shall preside as chairman.

30. Subject to the provisions of this Law and of any rules there- Vote of majority de- cative. under, all questions which come before any meeting of the Commission, shall be decided by a majority of the votes of the Commissioners present, the chairman of the meeting, in case of an equality of votes, having a second or casting vote.

31. (1) Minutes of the proceedings at each meeting of the Commission Record and publica- shall be drawn up and re- tion of proceedings. corded in a book to be kept for the purpose, shall be signed by the chairman of the meeting, shall be published in such manner as the Resident may direct, and shall, at all reasonable times and without charge, be open to inspection by any inhabitant.

(2) A copy of every resolution passed at any meeting of the Commission shall, within three days from the date of the meeting, be forwarded to the Resident.

32. (1) The Commission may, from time to time, make bye-laws, con- Bye-laws. sistent with this Law and with any rules thereunder, as to—

(a) the time and place of meetings.

*The Bangalore Municipal Law, 1897.**(Chapter II.—The Commission.—Sections 33-38.)*

(b) the manner in which notice of ordinary and special meetings and adjourned meetings shall be given;

(c) the quorum necessary for the transaction of business at ordinary meetings;

(d) the conduct of proceedings at meetings and the adjournment of meetings;

(e) the custody of the common seal and the purposes for which it shall be used

(f) the person or persons to be primarily responsible for the current executive administration and his or their powers; that is to say, what portion of the executive authority shall be exercised by the President, by a Vice-President, by Committees and by officers of the Commission;

(g) the persons by whom receipts shall be granted on behalf of the Commission for money received under this Law;

(h) the appointment, duties, leave, suspension and removal of its officers and servants; and

(i) all other similar matters.

(2) No bye-law made under clause (c) or clause (f) of sub-section (1) shall take effect until it has been approved by the Resident.

(3) Every bye-law made under this section shall be published in such manner as the Resident may direct.

33. In case of emergency the President, or, Extraordinary powers of President and Vice-President in case of emergency. in his absence or during any vacancy in his office, the Vice-President, may direct the execution of any work or the doing of any act which the Commission is empowered to execute or do, and the immediate execution or doing of which is, in his opinion, necessary for the service or safety of the public, and may direct that the expense of executing such work or doing such act shall be paid from the Municipal Fund:

Provided that—

(a) he shall not act under this section in contravention of any order of the Commission; and

(b) every direction given under this section shall be reported to the next following meeting of the Commission.

Defects in constitution and irregularities.

34. No act done or proceeding taken under this Law shall be questioned on the ground of irregularities not to invalidate proceedings. merely of the existence of any vacancy in the Commission or on account of any defect or irregularity not affecting the merits of the case.

Contracts.

35. (1) The Commission may, subject to the Authority to contract. provisions of this Law, delegate to one or more of the Commissioners the power of entering on its behalf into any particular contract whereof the value or amount does not exceed five hundred rupees, or into any class of such contracts.

(2) No contract by or on behalf of the Commission whereof the value or amount exceeds five hundred rupees, shall be entered into until it has been sanctioned at a meeting of the Commission.

36. (1) Every contract made by or on behalf of the Commission whereof Mode of executing contract and transfers of property. the value or amount exceeds one hundred rupees shall be in writing, and shall be signed by the President, or a Vice-President, and by one other Commissioner, and countersigned by the Secretary:

Provided that, when the power of entering into any contract on behalf of the Commission has been delegated under the last foregoing section, the signature or signatures of the Commissioner or Commissioners to whom the power has been delegated, shall be sufficient.

(2) Every transfer of immoveable property belonging to the Commission must be made by an instrument in writing, executed by the President, or Vice-President, and at least two other Commissioners, whose execution thereof shall be attested by the Secretary.

(3) No contract or transfer of the description mentioned in this section executed otherwise than in conformity with the provisions of this section shall be binding on the Commission.

37. (1) If any Commissioner or any officer or servant of the Commission is, without the permission in writing of the Resident, directly or indirectly interested in any contract made with the Commission, he shall be deemed to have committed an offence punishable under section 168 of the Indian Penal Code, as XLV of 188 applied to the Station.

(2) No Commissioner or officer or servant of the Commission shall, by reason only of his being a shareholder in, or a member of, any incorporated or registered company, be deemed to be interested in any contract entered into between such company and the Commission; but no such person as aforesaid shall take part in any proceedings of the Commission relating to any such contract.

Privileges and liabilities.

38. No suit shall be instituted against the Suits against the Commission or against Commission and its any officer or, servant of officers. the Commission in respect of any act purporting to be done in its or his official capacity, until the expiration of one month next after notice in writing has been, in the case of the Commission, delivered or left at its office, and, in the case of an officer or servant, delivered to him or left at his office or place of abode, stating the cause of action, and the name and place of abode of the intending plaintiff; and the plaint shall contain a statement that such notice has been so delivered or left:

Provided that nothing in this section shall apply to any suit instituted under section 54 of the Specific Relief Act, 1877, as applied to 1 of 1877- the Station.

The Bangalore Municipal Law, 1897.

(Chapter II.—The Commission.—Sections 39-40. Chapter III.—Taxation.—Sections 41-44.)

39. Every person shall be liable for the loss, waste or misapplication of any money or other property belonging to the Commission, if such loss, waste or misapplication is a direct consequence of his neglect or misconduct while a Commissioner; and a suit for compensation for the same may be instituted against him by the Commission with the sanction of the Resident, or by the Secretary of State for India in Council, in such Court as the Resident may direct.

Acquisition of land.

40. Where any land within the limits of the Station is required for the purposes of this Law, the Resident may, at the request of the Commission, proceed to acquire it under the provisions of the Land Acquisition Act, 1894, as applied to the Station, and, on payment by the Commission of the compensation awarded under that Act and of any other charges incurred in acquiring it, the land shall vest in the Commission.

CHAPTER III.

TAXATION.

General provisions.

41. (1) Subject to any general or special orders which the Governor or General in Council may make in this behalf, and to any rules under this Law, the Commission may, from time to time, for the purposes of, and in the manner directed by, this Law, impose in the whole or any part of the Station any of the following taxes and tolls, namely:—

(A) with the previous sanction of the Resident:—

(a) a tax on buildings and lands

(i) not exceeding 10 per cent. on the annual value, or

(ii) not exceeding one anna per square yard of the ground area, or

(iii) not exceeding three rupees per running foot of frontage in streets or bazaars;

(b) a tax on persons practising any profession or art or carrying on any trade or calling in the Station

(c) a tax on all or any vehicles, animals used for riding, driving, draught or burden, and dogs, when the vehicles, animals used as aforesaid, and dogs, are kept in the Station;

(d) a toll on vehicles and animals used as aforesaid entering the Station and not liable to taxation under the last foregoing clause;

(e) an octroi on animals or goods or both brought within the octroi limits, for consumption or use therein; and,

(B) with the previous sanction of the Resident and of the Governor General in Council, any other tax:

Provided that any person may compound for exemption from all tolls leviable in respect of any animal or vehicle under clause (d) by paying the tax which would have been leviable in respect thereof under clause (c), if the same had been kept in the Station:

Provided, also, that no tax or toll shall be levied in respect of—

(i) any buildings, lands, vehicles or animals belonging to the Government of India, the Mysore Government or the Commission; or

(ii) any cavalry horses or horses being chargers of military officers.

(2) In this section "annual value" means the gross annual rent for which buildings and lands liable to taxation may reasonably be expected to let, and, in the case of houses, may be expected to let unfurnished:

Provided that, in the case of land assessed to land-revenue or of which the land-revenue has been wholly or in part released, compounded for, redeemed or assigned, the annual value shall, if the Resident so direct, be deemed to be double the amount of the land-revenue for the time being assessed on the land, whether such assessment is leviable or not, or when the land-revenue has been wholly or in part compounded for or redeemed, double the amount which, but for such composition or redemption would have been leviable.

42. When the Commission has, in exercise of the powers conferred by this Law, undertaken the house-scavenging of any house or building, it may charge the owner or occupier of such house or building, in respect of the house-scavenging done therein with a tax imposed in the manner directed by this Law at such rate as it may think fit.

43. (1) Besides the taxes mentioned in the foregoing sections, the Commission, with the previous sanction of the Governor General in Council, may, for the purpose of constructing or maintaining works for the supply of water to the Station or paying the principal or interest of any loan raised for the construction of such works, impose, in the manner directed by this Law, a tax, to be called the water tax, upon buildings or lands which are so situated that their occupiers can benefit by the works.

(2) The rate or amount of the water tax imposed on different buildings or lands may be determined with reference, among other considerations, to their distance from the nearest point at which the water is deliverable by the works, and to their level, but in fixing it regard shall be had to the principle that the total net proceeds of the tax, with the estimated income from payments for water-supply from the works under special contracts, should not exceed the amount required for the said purposes.

44. (1) The Commission may, at a special meeting, pass a resolution proposing the imposition of any tax under section 41, section 42 or section 43.

*The Bangalore Municipal Law, 1897.**(Chapter III.—Taxation.—Sections 45-51.)*

(2) When such a resolution has been passed the Commission shall publish a notice, defining the class of persons or description of property proposed to be taxed, the amount or rate of the tax to be imposed and the system of assessment to be adopted.

(3) Any inhabitant objecting to the proposed tax may, within thirty days from the publication of the said notice, submit his objection in writing to the Commission, and the Commission shall, at a special meeting, take his objection into consideration.

(4) If no such objection is received within the said period of thirty days, or if all such objections, having been considered as aforesaid, are deemed insufficient, the Commission may forward its proposal to the Resident, with the objections (if any) which have been submitted as aforesaid, and its decision thereupon.

(5) The Resident on receiving such proposal may sanction or refuse to sanction the same, or return it to the Commission for further consideration.

(6) When any such proposal which requires the further sanction of the Governor General in Council, has been sanctioned by the Resident, he shall submit the same to the Governor General in Council, with the objections (if any) received through the Commission; and the Governor General in Council may sanction the proposal or refuse to sanction it, or return it to the Resident for further consideration.

(7) When any proposal of the Commission has been sanctioned by the Resident, or by the Resident and the Governor General in Council, as the case may be, the Commission may, at a special meeting, direct the imposition of the tax in accordance with such proposal.

(8) In giving such direction, the Commission shall fix a date on which the tax shall come into force:—

Provided that—

(a) no tax shall come into force until its imposition has been notified:

(b) no tax shall come into force before the expiration of three months from the date of the meeting at which its imposition is directed:

(c) a tax leviable by the year shall come into force on the first day of January or on the first day of April or on the first day of July or on the first day of October in any year, and, if it comes into force on any day other than the first day of April, shall be leviable by the quarter till the first day of April then next ensuing.

(9) A notification of the imposition of a tax under this Law shall be conclusive evidence that the tax has been imposed in accordance with the provisions of this Law.

45. The Commission may, by a resolution Power to abolish or reduce tax. passed at a special meeting and confirmed by the Resident, abolish or reduce in amount any tax imposed under the foregoing sections.

46. (1) The Commission may exempt, in whole Power to exempt or in part, from taxation. or in part, for any period not exceeding one year, from payment of any such tax any person who by

reason of poverty may, in its opinion, be unable to pay the same, and may renew such exemption as often as may be necessary.

(2) The Commission may, by resolution passed at a special meeting and confirmed by the Resident, and the Resident may, by order, exempt in whole or in part from the payment of any such tax any person or class of persons or any property or description of property.

47. No assessment and no charge or demand Taxes not invalid for defect of form. of any tax made under this Law shall be impeached or affected by reason of any mistake in the name, residence, place of business or occupation of any person liable to pay the tax, or in the description of any property or thing liable to the tax, or of any mistake in the amount of assessment or tax, or by reason of any clerical error or other defect of form; and it shall be enough in any such tax on property, or any assessment of value for the purpose of any such tax, if the property taxed or assessed is so described as to be generally known, and it shall not be necessary to name the owner or occupier thereof.

48. Any tax imposed under this Law and Taxes when payable. payable periodically shall be payable on such dates and in such instalments (if any) as the Commission may from time to time direct.

49. For all sums paid on account of any tax Receipts to be given. under this Law a receipt, stating the amount and the tax on account of which it has been paid, shall be given by the person receiving the same, on request by the person making the payment.

50. (1) An appeal against the assessment or Appeals against taxation. levy of any tax under this Law shall lie to the officer holding the appointment of District Judge unless that officer is himself a Commissioner, when it shall lie to the First Assistant to the Resident or such other officer, not being a Commissioner, as may be empowered by the Resident in this behalf.

(2) The Resident may call for a report of the proceedings in any case in which it appears to him that there has been an illegality or material irregularity in the assessment or levy of any tax under this Law, and may pass such orders thereon as he thinks fit.

(3) In every appeal or revision the costs shall be in the discretion of the officer deciding the appeal or revision.

(4) Costs awarded under this section to the Commission shall be recoverable by the Commission as though they were arrears of a tax due from the appellant.

(5) If the Commission fails to pay any costs awarded to an appellant within ten days after the date of the order for payment thereof, the officer awarding the costs may order the person having the custody of the balance of the Municipal Fund to pay the amount.

51. (1) No appeal shall lie in respect of a tax Limitation of appeal. on any land or building, unless it is preferred within seven days after the publication of the notice prescribed by section 57 (2) or section 59 or

*The Bangalore Municipal Law, 1897.**(Chapter III.—Taxation —Sections 52-59)*

after the date of any final order under section 58, as the case may be, and no appeal shall lie in respect of any other tax unless it is preferred within seven days from the time when the demand for the tax is made:

Provided that an appeal may be admitted after the expiration of the period prescribed therefor by this section if the appellant satisfies the officer before whom the appeal is preferred, that he had sufficient cause for not presenting the appeal within that period.

(2) No appeal shall be entertained unless the appellant has paid all taxes due under this Law from him to the Commission up to the date of such appeal.

52. No objection shall be taken to any valuation or assessment, nor shall the liability of any person to be assessed or taxed be questioned, in any other manner or by any other authority than is provided by this Law.

53. (1) The Commission may, by notice, call upon any inhabitant of the Station to furnish such information as may be necessary in order to ascertain whether such inhabitant is liable to pay any tax under this Law.

(2) If any inhabitant so called upon to furnish information omits to furnish it or furnishes information which is untrue, he shall be punishable with fine which may extend to one hundred rupees.

Taxes on immoveable property.

54. (1) The Commission shall cause an assessment-list of all buildings and lands on which any tax is imposed to be prepared containing—

- (a) the name of the street or division in which the property is situated;
- (b) a designation of the property, either by name or by number, sufficient for its identification;
- (c) the names of the owner and occupier, if known;
- (d) the annual value, area or length of frontage on which the property is assessed; and
- (e) the amount of the tax assessed thereon by the Commission.

(2) For the purpose of preparing the list, the Commission may require the owners or occupiers of the buildings or lands to furnish it with the returns of the measurements and of the rent or annual value.

55. When the assessment list has been completed, the Commission shall give public notice thereof and of the place where the list or a copy thereof may be inspected; and every person claiming to be either the owner or the occupier of property included in the list and any authorized agent of such person, shall be at liberty to inspect the list and to make extracts therefrom without charge.

56. (1) The Commission shall, at the time of the publication of the assessment-list, give public notice of a time, not less than one month thereafter, when it will proceed to revise the valuation and assessment; and in all cases in which any property is for the first time assessed, or the assessment thereof is increased, it shall also give notice of the fact to the owner or occupier of the property.

(2) All objections to the valuations and assessments shall be made in writing before the time fixed in the notice.

57. (1) After the objections (if any) made have been inquired into and the persons making them have been given an opportunity of being heard either in person or by authorized agent, as they may think fit, and the revision of the valuation and assessment has been completed, the amendments made in the assessment-list shall be authenticated by the signatures of not less than two Commissioners, who shall at the same time certify that no valid objection has been made to the valuation and assessment contained in the list, except in the cases in which amendments have been entered therein; and, subject to such amendments as may thereafter be duly made, the tax so assessed shall be deemed to be the tax for the year commencing on the first day of April next ensuing, as also, in the case of a tax then imposed for the first time, for the period between the commencement of the tax and such first day of April.

(2) The list when amended under this section shall be deposited in the Commission's office and shall there be open during office hours to all owners or occupiers of property comprised therein, or the agents of such persons, and a public notice that it is so open shall forthwith be given.

58. (1) The Commission may at any time amend the assessment-list by inserting the name of any person whose name ought to have been inserted, or by inserting any property which ought to have been inserted, or by altering the assessment on any property which has been erroneously valued or assessed through fraud, accident or mistake, after giving notice to every person interested in the amendment of a time, not less than one month from the date of service of such notice, at which the amendment is to be made.

(2) Any person interested in any such amendment may tender his objection to the Commission in writing before the time fixed in the notice, and shall be given an opportunity of being heard in support of the same in person or by authorized agent, as he may think fit.

59. It shall be in the discretion of the Commission to prepare a new assessment-list every year or to adopt the valuation and assessment contained in the list for any year, with such alterations as may in particular cases be deemed necessary, as the valuation and assessment for the year following, giving the same notice of the valuation and assessment as if a new assessment-list had been prepared.

*The Bangalore Municipal Law, 1897.**(Chapter III.—Taxation.—Sections 60-67.)*

60. (1) When any property assessed to a tax under section 41, sub-section (1), division A, clause (a), or under section 43, which is payable by the year or by instalments has remained unoccupied and unproductive of rent throughout the year or the period in respect of which any instalment is payable, the Commission may remit the amount of the tax or of the instalment, as the case may be:

Provided that no such remission shall be granted unless notice in writing of the circumstances under which it is claimed has been given to the Commission within the first month of the period in respect of which it is so claimed.

(2) When any such property as aforesaid—

(a) has not been occupied or productive of rent for any period of not less than sixty consecutive days, or

(b) consists of separate tenements one or more of which has or have not been occupied or productive of rent for any such period as aforesaid, or

(c) is wholly or in greater part demolished or destroyed by fire or otherwise,

the Commission may remit such portion (if any) of the tax or instalment as it may think equitable.

(3) The burden of proving the facts entitling any person to claim relief under this section shall lie upon him.

(4) For the purposes of this section neither the presence of a caretaker nor the mere retention in an otherwise unoccupied dwelling house of the furniture habitually used in it shall constitute occupation of the house.

(5) For the purposes of this section a house shall be deemed to be productive of rent if let to a tenant who has a continuing right of occupation thereof, whether it is actually occupied by such tenant or not.

61. (1) A tax payable under section 41, sub-section (1), division (A), clause (a), shall be paid by the owner of the property in respect of which it is payable.

(2) A tax payable under section 43 shall be paid by the owner or the occupier of the property in respect of which it is payable, according as the Commission shall determine.

62. The provisions of sections 54 to 59, both inclusive, shall be applied, as far as may be, to the assessment of any tax levied under section 41, sub-section (1), division (A), clause (b).

Octroi and tolls.

63. (1) Every person bringing or receiving any article liable to octroi shall, when required by an officer authorized by the Commission in this behalf, and so far as may be necessary for ascertaining the amount of tax chargeable,—

(a) permit that officer to inspect, examine, weigh and otherwise deal with the article; and

(b) communicate to that officer any information and exhibit to him any bill, invoice or document of a like nature which he may possess relating to the article.

(2) If any person bringing or receiving any conveyance or package within the octroi limits of the Station refuses, on the demand of an officer authorized by the Commission in this behalf, to permit such officer to inspect the contents of the conveyance or package for the purpose of ascertaining whether it contains any article liable to octroi, such officer may cause the conveyance or package to be taken without unnecessary delay before any Magistrate or Commissioner, who shall cause the inspection to be made in his presence.

64. Every officer demanding octroi by the authority of the Commission shall tender to every person introducing or receiving any article on which the tax is claimed, a bill specifying the article taxable, the amount claimed and the rate at which the tax is calculated.

65. (1) In case of non-payment of any octroi or of any toll on demand, the officer empowered to collect the same may seize any article on which the octroi is payable, or any vehicle or animal on which the toll is chargeable, or any part of the burden carried by such vehicle or animal which is of sufficient value to satisfy the demand.

(2) The Commission may cause any property so seized or so much thereof as may be necessary, to be sold by auction to satisfy the demand with the expenses occasioned by the seizure, custody and sale thereof, unless the demand and expenses are in the meantime paid after the lapse of five days from the seizure, and after the issue of a proclamation fixing the time and place of sale:

Provided that, by order of the President or a Vice-President, articles of a perishable nature which could not be kept for five days without serious risk of damage, may be sold after the lapse of such shorter time as he may, having regard to the nature of the articles, think proper.

66. If goods passing within the octroi limits of the Station are liable to the payment of octroi, then every person who, with the intention to defraud the Commission, causes or abets the introduction of, or himself introduces or attempts to introduce, within the said octroi limits, any such goods upon which payment of the octroi due on such introduction has neither been made nor tendered, shall be punishable with fine which may extend either to ten times the value of such octroi or to fifty rupees, whichever may be greater.

67. (1) The Commission may, with the sanction of the Resident, which shall be notified, require any person selling any article liable to octroi to obtain from the Commission a license for that purpose, and to pay therefor such fees as shall from time to time.

*The Bangalore Municipal Law, 1897.**(Chapter IV.—Municipal Fund and Property.—Sections 68-70.)*

with the approval of the Resident, be fixed in that behalf.

(2) After notification of such sanction,—

- (i) any person selling or keeping for sale any such article without a license or having in his possession any such article on which octroi has not been paid, shall be liable, on conviction before a Magistrate, to a fine not exceeding rupees one hundred, and to confiscation of all such articles in his possession; and
- (ii) any officer of the Commission authorized by the Commission in this behalf, if he has reason to believe that any such article on which octroi has not been paid, is kept or concealed in any premises, may, after obtaining the warrant of a Magistrate, enter and search at any time such premises, and, if he finds any such article on which octroi has not been paid, may seize any such article and arrest any person in possession of the same;

Provided that any article or person so seized or arrested shall be produced before a Magistrate exercising jurisdiction within the Station within twenty-four hours from the time of such seizure or arrest:

Provided also that nothing in this section shall apply to any such articles not exceeding rupees two hundred in value purchased by any person for his private use or sold by auction consequent on the owner dying or quitting the Station:

- (iii) the provisions of the Code of Criminal Procedure, 1882, as applied to the Station, shall, so far as may be, apply to all searches and arrests effected under this section.

(3) The Resident may by notification at any time revoke the sanction given by him under sub-section (1), and thereupon a license for the sale of such article as aforesaid shall not be necessary and the other provisions of this section shall in respect of such article cease to have any effect.

CHAPTER IV.

MUNICIPAL FUND AND PROPERTY.

68. There shall be formed for the Station a Constitution of Municipal Fund. Municipal Fund, and there shall be placed to the credit thereof—

- (a) all sums received by, or on behalf of, the Commission under this Law or otherwise;
- (b) all fines realised in cases in which prosecutions are instituted under this Law or any rules thereunder or under section 34 of Act V of 1861, as applied to the Station; and
- (c) the balance (if any), standing at the credit of the Municipal Fund of the Station at the commencement of this Law.

69. (1) The Commission shall set apart and Application of Municipal Fund. apply out of the Municipal Fund

- (a) first, such sum as may be required for the payment of any amounts falling due on any loan legally contracted by it; and
- (b) secondly, such sum as may be required to meet the charges of its own establishment.

(2) Subject to the charges specified in sub-section (1) and to such rules as the Resident may make with respect to the priority to be given to the several duties of the Commission, the Municipal Fund shall be applicable to the payment, in whole or in part, of the charges and expenses incidental to the following matters, namely:—

- (a) the construction, maintenance, improvement, cleansing and repair of streets and of public bridges, embankments, drains, latrines, tanks and water-courses;
- (b) the watering and lighting of streets or any of them;
- (c) the construction, establishment and maintenance of schools, hospitals, dispensaries and other institutions for the promotion of education or the benefit of the public health, and of rest-houses, chattrams, poor-houses, markets, encamping-grounds, pounds and other works of public utility, and the control and administration of public institutions of any of these descriptions;
- (d) grants-in-aid to schools, hospitals, dispensaries, poor-houses, leper asylums and other educational or charitable institutions;
- (e) the training of teachers and the establishment of scholarships;
- (f) the giving of relief and the establishment and maintenance of relief works in time of famine or scarcity;
- (g) the supply, storage and preservation from pollution of water for the use of men or animals;
- (h) the planting and preservation of trees and plants;
- (i) the taking of a census, the registration of births, marriages and deaths, public vaccination and any sanitary measure;
- (j) the holding of fairs and industrial exhibitions; and
- (k) all other acts and things which are likely to promote the safety, health, welfare or convenience of the inhabitants, or expenditure whereon may be declared by the Commission, with the sanction of the Resident, to be an appropriate charge on the Municipal Fund.

70. The Commission may receive from the Contribution by military authorities. military authorities such annual contribution (if any) as the Governor General in Council may be pleased from time to time to fix in respect of

*The Bangalore Municipal Law, 1897.**(Chapter IV.—Municipal Fund and Property.—Sections 71-75. Chapter V.—Powers for sanitary and other purposes.—Sections 76-79.)*

all municipal institutions, streets, works, establishments or arrangements maintained, executed, entertained or effected from the Municipal Fund, which contribute to the safety, health, welfare or convenience of the inhabitants of the buildings and lands exempted by section 5 from the operation of this Law.

71. The Municipal Fund shall be lodged with the branch Bank of Madras or such other bank or public treasury as may be hereafter selected by the Commission with the sanction of the Resident.

72. (1) The Commission may, from time to time, with the previous sanction of the Resident, invest any portion of the Municipal Fund in securities of the Government of India or such other securities as the Governor General in Council may approve in this behalf, and may, from time to time, with the like sanction, realize such investments or vary them for others of a like nature.

(2) The income resulting from the securities and the proceeds of the sale of the same shall be credited to the Municipal Fund.

73. Subject to the provisions of sections 5 and 6, all property of the Commission, nature hereinafter in this section specified and situated within the Station shall be vested in and belong to the Commission, and shall, with all other property which may become vested in the Commission, be under its direction, management and control, and shall be held and applied by it for the purposes of this Law, that is to say:—

(a) all public town-walls, gates, markets, slaughter-houses, manure and night-soil depots, and public buildings of every description which have been constructed or are maintained out of the Municipal Fund;

(b) all public streams, tanks, springs, wells and works for the supply, storage and distribution of water for public purposes, and all bridges, buildings, engines, materials and things connected therewith or appertaining thereto, and also any adjacent land (not being private property) appertaining to any public tank or well;

(c) all public sewers and drains, and all sewers, drains, culverts and water-courses in, alongside or under any street and all works, materials and things appertaining thereto;

(d) all dust, dirt, dung ashes, refuse, animal matter or filth or rubbish of any kind, or dead bodies of animals, collected by the Commission from the streets, houses, privies, sewers, or elsewhere, or deposited in places fixed by the Commission under section 112;

(e) all public lamps, lamp-posts and apparatus connected therewith or appertaining thereto;

(f) all land or other property transferred to the Commission by the Government or by gift, purchase or otherwise for local public purposes;

(g) all streets and the pavements, stones and other materials thereof, and also all trees, erections, materials, implements and things provided for such streets.

74. (1) The direction, management and control of every public institution maintained out of the Municipal Fund shall vest in the Commission:

Provided that the extent of the independent authority of the Commission in respect of any such institution may be prescribed by the Resident.

(2) When any public institution has been placed under the direction, management and control of the Commission, all property, endowments and funds belonging thereto shall be held by the Commission in trust for the purposes to which such property, endowments and funds were lawfully applicable at the time when the institution was so placed.

75. The Commission may, with the sanction of the Resident, transfer to Her Majesty any property vesting in the Commission under section 73 or section 74, but not so as to affect any trusts or public rights subject to which the property is held.

CHAPTER V.

POWERS FOR SANITARY AND OTHER PURPOSES.

Streets and buildings.

76. When any land is required for a new street, or for the improvement of an existing street, the Commission may proceed to acquire, in addition to the land to be occupied by the street, the land necessary for the sites of the buildings to be erected on both sides of the street.

77. The Commission may close temporarily any street or any part thereof for the purpose of repairs, or for the purpose of constructing or repairing any sewer, drain, culvert or bridge, or for any other public purpose; and may divert, discontinue or close permanently any street, and sell the land or such part thereof as may not be required for the purposes of this Law.

78. The Commission may grant permission in writing for the temporary occupation of any street or land vesting in it for the purpose of depositing any building materials or making any temporary excavation therein or erection thereon, subject to such conditions as it may prescribe for the safety or convenience of persons passing by or dwelling or working in the neighbourhood, and may charge fees for such permission, and may at any time in its discretion withdraw any permission granted as aforesaid.

79. The Commission may attach to the outside of any building brackets for lamps in such manner as not to occasion any injury thereto or inconvenience

*The Bangalore Municipal Law, 1897.**(Chapter V.—Powers for sanitary and other purposes.—Sections 80-83.)*

80. (1) The Commission may cause a name to be given to any street, and to be affixed on any building in such place as it may think fit, and may also cause a number to be affixed to any building; and in like manner may, from time to time, cause such names and numbers to be altered.

(2) Whoever destroys, pulls down or defaces any such name or number or puts up any different name or number from that put up by order of the Commission, shall be punishable with fine which may extend to twenty rupees.

81. The Commission may direct that within certain limits, to be fixed by it, the roofs and external walls of huts or other buildings shall not be made or renewed of grass, mats, leaves or other highly inflammable material without its written permission; and it may, by notice, require any person who has disobeyed any such direction, to remove or alter the roofs and walls so made or renewed as it may think fit.

82. (1) If any building or part of a building projects beyond the regular line of a street either existing or determined on for the future, or beyond the front of the building on either side thereof, the Commission may, whenever such building or part has been either entirely or in greater part taken down or burnt down, or has fallen down, by notice, require such building or part, when being rebuilt, to be set back to or towards the said regular line or the front of the adjoining buildings; and the portion of the land added to the street by such setting back or removal shall become part of the street and shall vest in the Commission:

Provided that the Commission shall make full compensation to the owner for any damage he may sustain in consequence of his building or any part thereof being set back.

(2) The Commission may, on such terms as it may think fit, allow any building to be set forward for the improvement of the line of the street.

83. (1) Whoever intends to erect or re-erect any building shall, if required to do so by any bye-law, give notice in writing in the manner hereinafter prescribed of his intention to the Commission, and the Commission may within six weeks after the receipt of such notice either refuse to sanction the said building or may sanction the said building either absolutely or subject to any written directions which the Commission may deem fit to issue in respect of all or any of the matters following, namely:—

- (a) the free passage or way in front of the building;
- (b) the space to be left about the building to secure the free circulation of air and facilitate scavenging, and for the prevention of fire;
- (c) the ventilation and the provision and position of drains and privies, and the situation of wells;

(d) the level and width of foundation, the level of lowest floor and the stability of the structure; and

(e) the line of frontage with neighbouring buildings, if the building abuts on a street.

The person erecting or re-erecting any such building as aforesaid shall obey all such written directions:

Provided that the Commission shall make full compensation to the owner for any damage which he may sustain in consequence of the prohibition of the re-erection of any building, or of its requiring any land belonging to him to be added to the street.

(2) Every person giving notice to the Commission under sub-section (1) shall, if required to do so by any bye-law, forward along with his notice a plan and specification of the building which he intends to erect or re-erect, together with a site-plan of the land of such character and with such details as the bye-law may require, and no such notice shall be valid until such plans and specification have been supplied.

(3) In any case to which sub-section (2) does not apply, the Commission may, within fifteen days after the receipt of a notice under sub-section (1), require a person who has given such notice to submit within one week of the receipt of the requisition a sufficient plan and specification of the building which he intends to erect or re-erect, together with a site plan of the land, with such reasonable details as the Commission may prescribe in its requisition; and the notice shall not be valid until such plans and specification have been supplied.

(4) If any such building is begun or erected without notice, or without the submission of such plans and specification as aforesaid, or in contravention of any lawful order of the Commission issued within six weeks of receipt of a valid notice under sub-section (1), the Commission may, by notice to be delivered within a reasonable time, require the building to be altered or demolished as it may deem necessary.

(5) If the Commission neglects or omits for six weeks after the receipt of a valid notice under sub-section (1) to make and deliver to the person who has given such notice, any order in respect thereof, it shall be deemed to have sanctioned the proposed building:

Provided that the erection or re-erection be otherwise in accordance with the provisions of this Law.

(6) Every sanction for the erection or re-erection of any building given or deemed to have been given by the Commission shall remain in force for one year from the date on which the notice shall have become valid and complete, and no longer, and, if the building so sanctioned has not been begun by the person who has obtained such sanction, or some one lawfully claiming under him, within such year, it shall not be begun without fresh sanction: but such person as aforesaid.

*The Bangalore Municipal Law, 1897.**(Chapter V.—Powers for sanitary and other purposes.—Sections 84-88.)*

in the manner hereinbefore prescribed, and thereupon the provisions hereinbefore contained shall apply to such notice.

(7) Nothing in this section shall apply to any buildings erected or to be erected on land owned or occupied by the Government of India.

84. (1) The Commission may, by bye-law regulate in respect of the erection or re-erection of any building within the Station—

- Power of Commission to make bye-laws as to mode of construction of buildings.
- (a) the materials and method of construction to be used for external and party walls, roofs, floors, doors, fire-places and chimneys;
 - (b) the position of fire-places, chimneys, drains, privies and wells;
 - (c) the height and slope of the roof above the uppermost floor upon which human beings are to live or cooking operations are to be carried on;
 - (d) the number and height of the storeys of which the building may consist;
 - (e) the means to be provided for egress from the building in case of fire; and
 - (f) the manner in which notice shall be given to the Commission under section 83, sub sections (1) and (2):

Provided that the Commission may, by resolution passed at a meeting, dispense with the under this section in regard to the erection or re-erection of any building specified in the resolution.

(2) If in and during the erection or re-erection of any building any bye-law under this section is contravened, the Commission may, by notice, to be delivered within a reasonable time, require the building to be altered or demolished within the space of thirty days as it may deem necessary:

Provided that no such notice shall issue in respect of the contravention of any bye-law of which the observance has been dispensed with under the proviso to sub-section (1).

85. The expression "erect or re-erect any building" includes—

Definition of expression "erect or re-erect any building."

- (a) any material alteration or enlargement of any building;
- (b) the conversion into a place for human habitation of any building not originally constructed for human habitation;
- (c) the conversion into more than one place for human habitation of a building originally constructed as one such place;
- (d) the conversion of two or more places of human habitation into a greater number of such places;
- (e) such alterations of the internal arrangements of a building as effect an alteration of its drainage or sanitary arrangements or affect its security; and

(f) the addition of any rooms, buildings, out-houses or other structures to any building.

86. (1) It shall not be lawful, without the written permission of the Commission, for the owner or occupier of any building to add to, or place against or in front of, the building any projection or structure over-hanging, projecting into, or encroaching on, any street, or into or on any drain, sewer or aqueduct therein.

(2) The Commission may, by notice, require the owner or occupier of any building to remove or alter any such projection or encroachment as aforesaid:

Provided that, in the case of any projection or encroachment lawfully in existence at the commencement of this Law, the Commission shall make reasonable compensation for any damage caused by the removal or alteration.

(3) The Commission may, by resolution passed at a meeting, give permission to the owners or occupiers of buildings in any particular street to put up open verandahs, balconies or rooms projecting from any upper storey thereof to an extent beyond the line of the plinth or basement wall and at a height from the level of the ground or street, to be specified in the resolution.

Water pipes, privies and drains.

87. The Commission may, by notice, require the owner of any building or land adjoining any street to put up and keep in good condition proper troughs and pipes for receiving and carrying the water from the building or land and for discharging the same so as not to inconvenience persons passing along the street.

88. (1) The Commission may, by notice, require the owner of any building or land to remove any cess pool or to remove or provide any drain, privy or receptacle for filth, or provide any additional drains, privies or receptacles as aforesaid which should, in its opinion, be provided for the building or land, in such manner as the Commission may direct, or to make to the reasonable satisfaction of the Commission and maintain in good order a drainage connection with any public sewer or drain not situated more than one hundred feet from such building or land as aforesaid:

Provided that such owner shall not be liable for any default in making or maintaining such drainage connection, if the land through which the said drainage connection is required to pass, does not belong to him and he can prove that the default was caused by the act of the owner or occupier of such last-mentioned land.

(2) The Commission may, by notice, require any person employing more than twenty workmen or labourers to provide such latrines and urinals as it may think fit and to cause the same to be kept in proper order and to be daily cleansed.

(3) The Commission may, by notice, require the owner or occupier of any building or land to have any privy provided for the same shut out by a sufficient roof and wall or fence from the

*The Bangalore Municipal Law, 1897.**(Chapter V.—Powers for sanitary and other purposes.—Sections 89-99.)*

view of persons passing by or dwelling in the neighbourhood, or to remove or alter, as the Commission may direct, any door or trap-door of a privy opening on to any street or drain.

89. (1) The Commission may, by notice, require the owner or occupier of any building or land to repair, alter or put in good order any drain or privy or to close any drain or privy belonging thereto.

(2) The Commission may, by notice, require any person who constructs any new drain or privy without its permission in writing or contrary to its directions or bye-laws or to any of the provisions of this Law, or who constructs, rebuilds or opens any drain or privy which it has ordered to be demolished or stopped up or not to be made, to demolish the drain or privy or to make such alteration therein as it may think fit.

90. The Commission may, by notice, require any person who, without its permission in writing newly erects or rebuilds any building over any sewer, drain, culvert, water-course or pipe vested in the Commission, to pull down or otherwise deal with the same as it may think fit.

Dangerous buildings and places.

91. If any building, or any well, tank, reservoir, pool, depression or excavation is, for want of sufficient repair, protection or enclosure, dangerous to persons passing by or dwelling or working therein or in the neighbourhood, the Commission may, by notice, require the owner or occupier thereof to repair, protect or enclose the same; and if it appears to it to be necessary in order to prevent imminent danger, the Commission shall forthwith take such steps to avert the danger as may, in its opinion, be necessary.

92. If any building, wall or structure or anything affixed thereto, or any bank or tree, is deemed by the Commission to be in a ruinous state or in any way dangerous, it may, by notice, require the owner or occupier thereof forthwith either to remove the same or to cause such alterations or repairs to be made thereto as it may deem necessary for the public safety; and, if it appears to it to be necessary in order to prevent imminent danger, the Commission shall forthwith take such steps to avert the danger as may, in its opinion, be necessary.

Buildings and lands in unsanitary condition.

93. The Commission may, by notice, require the owner or occupier of any land to clear away any land to clear away noxious vegetation, and remove any thick vegetation or under-growth which may appear to it to be injurious to health or offensive to the neighbourhood.

94. The Commission may, by notice, require the owner or occupier of any land to cut or trim hedges and trees to be trimmed, within three days the hedges growing thereon and bordering on any street or any branches of trees going thereon

which overhang any street and obstruct the same or cause danger thereto, or which so overhang any well, tank or other source from which water is derived for public use as to be likely to pollute the water thereof.

95. If the owner or occupier of any building or land offers the same to be in a filthy or unwholesome state, the Commission may, by notice require him within twenty-four hours to cleanse it or otherwise put it in a proper state.

95. If any building, or any part of any building, appears to the Commission to be unfit for human habitation in consequence of the want of proper means of drainage or ventilation or for any other sufficient reason, the Commission may, by notice, prohibit the owner or occupier thereof from using the same for human habitation, or suffering it to be so used, until it has been rendered fit for such use to the reasonable satisfaction of the Commission.

97. The Commission may, by notice, require the owner, or part-owner, or person claiming to be the owner or part-owner, of any building or land which, by reason of abandonment or disputed ownership or other cause, has remained untenanted and become a resort of idle and disorderly persons or otherwise a nuisance, to secure or enclose the same within a reasonable time, fixed in the notice.

93. (1) The Resident may, on the report of the Commission that the cultivation of any description of crop or the use of any kind of manure or the irrigation of land in any specified manner in any place within the limits of the Station is injurious to the health of persons dwelling in the neighbourhood, by notification prohibit the cultivation of such crop, the use of such manure or the use of the method of irrigation so reported to be injurious, or impose such conditions with respect thereto as may prevent the injury:

Provided that, when on any land to which such notification applies, the act prohibited has, in the ordinary course of husbandry, been practised during the five years next preceding the date of the notification, compensation shall be paid from the Municipal Fund to all persons interested therein for any damage caused to them by the effect of such notification.

(2) Whoever disobeys any notification issued under sub-section (1) shall be punishable with fine which may extend to fifty rupees and with a further fine which may extend to five rupees for every day after the first during which the offence is continued.

Sources of water-supply.

99. The Commission may, by notice, require the owner or occupier of any land or building to cleanse, repair, temporarily close, cover, fill up or drain off any private well, tank, reservoir, pool, depression or excavation therein which may

*The Bangalore Municipal Law, 1897.**(Chapter V.—Powers for sanitary and other purposes.—Sections 100-104.)*

appear to the Commission to be likely to be injurious to health or offensive to the neighbourhood :

Provided that, if for the purpose of effecting any drainage under this section it should be necessary to acquire any land not belonging to the same owner or to pay compensation to any person, the Commission shall provide such land or pay such compensation.

100. The Commission may, by notice, require any owner or occupier on whose land any drain, latrine, urinal or receptacle for filth or refuse for the time being exists within fifty feet of any spring, well, tank, reservoir or other source from which water is, or may be, derived for public use, to remove or close the same within one week from the date of service of such notice.

101. The Commission may set apart suitable places for the purpose of bathing, and may specify the times at which, and the sex of the persons by whom, such places may be used, and may also set apart suitable places for the washing of animals or clothes, or for any other purpose connected with the health, cleanliness or comfort of the inhabitants; and may, by public notice, prohibit bathing, or the washing of animals or clothes, in any public place not so set apart, or at times or by persons other than those specified, and any other act by which water in public places may be rendered foul or unfit for use.

Articles of food and drink.

102. The Commission may, by bye-law,—

Power for Commission to regulate manufacture, preparation and sale of food and drink.

- (a) prohibit the manufacture, production or preparation for sale of any specified articles of food or drink in any premises not licensed by the Commission;
- (b) regulate the grant and withdrawal of licenses to premises for the manufacture, production or preparation for sale of such specified articles of food or drink;
- (c) regulate the hours and manner of transport within the Station of any specified articles of food or drink;
- (d) fix the places in which any specified article of food or drink may be sold or exposed for sale or the places in which it may not be sold or exposed for sale;
- (e) provide for the inspection and control of any premises or places licensed or fixed under clauses (b) and (d);
- (f) prohibit the sale of milk and butter by persons not licensed by the Commission;
- (g) prohibit the import into the Station for sale of milk and butter by persons not licensed by the Commission; and
- (h) fix the conditions on which licenses under clauses (f) and (g) are to be granted and may be revoked:

Provided that no person shall be punishable for breach of any bye-law made under clause

(a) or clause (d) of this section by reason of the continuance of such manufacture, preparation or exposure for sale or sale upon any premises which are at the time of the making of such bye-law used for such purpose, until he has received from the Commission six months' notice to discontinue such manufacture, preparation or exposure for sale or such sale in such premises.

Offensive and dangerous trades.

103. (1) The owner or occupier of every place within the Station used for any of the following purposes, namely:—

- depositing or washing soiled clothes;
- boiling paddy;
- melting tallow or sulphur;
- boiling or storing bones, offal, blood or rags;
- washing or drying wool or hair;
- as a soap house, camphor or oil boiling house, dyeing house or tannery;
- as a brickkiln, pottery or limekiln;
- as any other manufactory or place of business from which offensive or unwholesome smells arise;
- as a yard or dépôt for trade in hay, straw, thatching-grass, wood, coal or other dangerously inflammable material;
- as a store-house for any explosive or for petroleum or any inflammable oil or spirit;

shall in April every year or, in the case of a place newly opened, before the opening of the same, apply to the Commission for a license for the use of such place for any of the purposes aforesaid.

(2) The license shall not be withheld unless the Commission considers that the business which it is intended to establish or maintain, would be offensive or dangerous to persons residing in, or frequenting, the immediate neighbourhood.

(3) The Commission may charge fees, according to a scale to be approved by the Resident, for such licenses, and may impose such conditions in respect thereof as it may think necessary.

(4) Whoever, without such a license, uses any such place for any such purpose as aforesaid, shall be punishable with fine which may extend to fifty rupees and with a further fine not exceeding ten rupees for every day during which the offence is continued after he has been convicted of such offence.

104. (1) Whenever it is shown to the satisfaction of the Commission that any place licensed under the last foregoing section is a nuisance to the neighbourhood or likely to be dangerous to life, health or property, the Commission may, by notice, require the occupiers thereof to discontinue the use of such place, or to use it in such manner as will, in the opinion of the Commission, render it no longer a nuisance or dangerous.

(2) Whoever, after any such notice has been given, uses such place or permits it to be used in such a manner as to be a nuisance to the

*The Bangalore Municipal Law, 1897.**(Chapter V.—Powers for sanitary and other purposes.—Sections 105-113.)*

neighbourhood or dangerous, shall be punishable with fine which may extend to two hundred rupees and with a further fine not exceeding forty rupees for every day during which the offence is continued after he has been convicted of such offence.

Slaughter-places.

105. (1) The Commission may fix places for the slaughter of animals for sale, or of any specified description of such animals, and may grant and withdraw licenses for the use of such places, or, if they belong to the Commission, charge rent or fees for the use of the same.

(2) When any such places have been so fixed, no person shall slaughter any such animal for sale at any other place.

(3) Whoever slaughters for sale any such animal in contravention of sub-section (2), shall be punishable with fine which may extend to twenty rupees.

106. (1) The Commission may, by bye-law, fix places in which the slaughter of animals of any particular kind not for sale shall be permitted, and may prohibit, except in case of necessity, such slaughter elsewhere:

Provided that no such bye-law shall apply to animals slaughtered for any religious purpose.

Burial and burning grounds.

107. (1) The Commission may, by public notice, order any burial or burning ground which is, in its opinion, dangerous to the health of persons living in the neighbourhood to be closed from a date to be specified in the notice, and shall, in such case, if no suitable place for burial or burning exists within a reasonable distance, provide a fitting place for the purpose.

(2) Private burial places in such burial grounds may be excepted from the notice, subject to such conditions as the Commission may impose in this behalf:

Provided that the limits of such burial places are sufficiently defined, and that they shall be used only for the burial of members of the family of the owners thereof.

(3) No burial or burning ground, whether public or private, shall be made or formed after the commencement of this Law without the permission in writing of the Commission.

(4) Whoever buries or burns or causes or permits to be buried or burnt any corpse in any burial or burning ground made or formed contrary to the provisions of this section, or after the date fixed thereunder for closing the same, shall be punishable with fine which may extend to fifty rupees.

108. The Commission may, by public notice, prescribe routes for the removal of corpses to burial or burning grounds.

Inflammable materials.

109. The Commission may, where it appears to it to be necessary for the prevention of danger to life or property, by public notice, prohibit all persons from stacking or collecting wood, dry grass, straw or other inflammable material, or placing mats or thatched huts or lighting fires in any place or within any limits specified in the notice.

110. The Commission may, by bye-law, prohibit the lighting of fires in the top storey of any building which, by reason of its contiguity to other buildings, might be a source of danger to the latter in the event of a fire breaking out within it, and the walls of which storey do not exceed seven feet in height, or the placing of stands for lamps and candles in any position which the Commission may deem to be dangerous to the public safety.

111. The Commission may, by bye-law, prohibit the storage of more than a fixed maximum quantity of any explosive, petroleum, spirit, naphtha or other inflammable material in any building not licensed under section 103:

General conservancy.

112. The Commission may fix places within the Station for the deposit of refuse, rubbish or offensive matter of any kind or for the disposal of the dead bodies of animals, and may, by public notice, give directions as to the time, manner and conditions at, in and under which such refuse, rubbish or offensive matter or dead bodies of animals may be transported along any street and deposited at or removed from such places.

113. (1) Whenever any animal in the charge of any person dies, otherwise than by slaughter either for sale or for some religious purpose, the person in charge thereof shall within twenty-four hours either—

(a) convey the carcase to a place (if any) fixed by the Commission under the last foregoing section for the disposal of the dead bodies of animals, or

(b) give notice of the death to the Commission, whereupon the Commission shall cause the carcase to be disposed of.

(2) Whoever, being bound to act in accordance with sub-section (1), fails so to act, shall be punishable with fine which may extend to ten rupees.

(3) In respect of the disposal of the dead body of an animal under clause (b) of sub-section (1), the Commission may charge such fee as it may, by bye-law, prescribe.

Explanation.—In this section the word “animal” includes all horned cattle, elephants, camels, horses, ponies, asses, mules, deer, sheep, goats, swine, &c.

*The Bangalore Municipal Law, 1897.**(Chapter V.—Powers for sanitary and other purposes.—Sections 114-124)**House-scavenging.*

114. The removal of filth, rubbish, ordure or other offensive matter from a privy or common receptacle for such matter in, or pertaining to, a house, building or enclosure is called house-scavenging.

115. (1) The Commission may at any time undertake the house-scavenging of any house, building or enclosure on the application or with the consent of the occupier.

(2) The Commission may, by public notice, undertake the house-scavenging of any houses, buildings or enclosures from any date not less than two months after issue of the notice.

(3) The occupier of any house, building or enclosure affected by the notice may at any time after the issue thereof apply to the Commission to exclude that house, building or enclosure from the notice.

(4) The Commission shall consider and pass orders upon every such application within six weeks of the receipt thereof, and may by any such order exclude such house, building or enclosure from the notice.

(5) In deciding whether to exclude any house, building or enclosure from the notice, the Commission shall consider, among other matters, the efficiency of the arrangements for house-scavenging made by the occupier (if any) and the purpose to which he applies the matter dealt with in house-scavenging.

116. Notwithstanding anything, in the last foregoing section, the Commission shall not, except in accordance with the provisions of this Chapter, without the consent of the occupier, undertake the house-scavenging of any house, building or enclosure occupied by an agriculturist who himself cultivates land within the Station.

117. When once the Commission has undertaken the house-scavenging of any house, building or enclosure under this Chapter, it may continue to perform such house-scavenging with or without the consent of the occupier for the time being of such house, building or enclosure.

118. When the Commission has undertaken the house-scavenging of any house, building or enclosure, it shall be bound to perform the same properly until it shall have relieved itself of the obligation by an order under section 115, sub-section (4).

119. The officers and servants of the Commission employed in connection with house-scavenging may at all reasonable times do all things necessary for the proper performance of any house-scavenging undertaken by the Commission under this Chapter.

120. All matter removed by the servants of the Commission in the course of house-scavenging

121. (1) If any agriculturist who himself cultivates land within the Station fails to provide for the proper house-scavenging of any house, building or enclosure occupied by him, the Commission may make a complaint in respect of such failure to any Magistrate of the first class.

(2) The Magistrate receiving the complaint shall hold an inquiry, and if it appears to him that the agriculturist has not provided for the proper house-scavenging of the house, building or enclosure, he may pass an order empowering the Commission to undertake the same, and thereupon the Commission shall be entitled to undertake such house-scavenging.

(3) Every order passed by a Magistrate under sub-section (2) shall be final.

Diseased animals.

122. (1) The Commission may, by any person authorized by it in this behalf, destroy or cause to be destroyed, or confine or cause to be confined for such period as the Commission may direct, any dog suffering from rabies or reasonably suspected to be suffering from rabies.

(2) No damages shall be payable in respect of any dog destroyed under this section.

123. Every person within whose premises any case of anthrax, glanders, rinderpest or any other such disease affecting horses or cattle occurs, shall give immediate notice of the fact to the Commission and use such sanitary or other precautionary measures as he may, by notice from the Commission, be directed to adopt, to prevent the disease spreading, and, if necessary, shall remove any such animal.

Diseases dangerous to the public health.

124. (1) Whoever,—

- (a) being a medical practitioner or person openly and constantly practising the medical profession in the station and in the course of such practice becoming cognizant of the existence of any disease dangerous to the public health in any dwelling other than a public hospital, or, in default of such medical practitioner or person practising the medical profession,
- (b) being the owner or occupier of such dwelling, and being cognizant of the existence of such disease, or, in default of such owner or occupier,
- (c) being the person in charge of or in attendance on any person suffering from such disease in such dwelling, and being cognizant of the existence of the disease therein,

fails to give information, in such manner as the Commission shall by bye-law direct, or gives false information to the Commission, respecting the existence of such disease, shall be punishable with fine which may extend to fifty rupees.

*The Bangalore Municipal Law, 1897.**(Chapter V.—Powers for sanitary and other purposes.—Sections 125-133)*

default of some other person, shall not be punishable if it is shown that he had reasonable cause to suppose that the information had been or would be duly given.

(2) In this Chapter, the expression "disease dangerous to the public health" means any disease declared by the Commission, from time to time, by notification with the previous sanction of the Resident, to be such a disease.

125. When any person suffering from any disease dangerous to the public health is—
Removal to hospital of persons suffering from diseases dangerous to the public health.

- (a) without proper lodging or accommodation, or
- (b) living in a chattram or other public hostel, or
- (c) living in a room or house which he neither owns nor pays rent for, or
- (d) living in premises occupied by members of two or more families,

the Commission may, by any person authorised by it in this behalf, on the advice of any medical officer or rank not inferior to that of an Assistant Surgeon,

remove the patient to any hospital or place at which persons suffering from such disease are received for medical treatment, and may do anything necessary for such removal.

126. The Commission may, by any person authorised by it in this behalf, by notice, direct all buildings, or any part of any building in which there has recently been any person suffering from any disease dangerous to the public health to be forthwith internally or externally lime-washed, or otherwise cleansed or disinfected.

127. The Commission may, by any person authorised by it in this behalf, by notice, direct the destruction or disinfection of bedding, clothing or other articles likely to be contaminated by any disease dangerous to the public health:

Provided that compensation shall be paid from the Municipal Fund for the articles so destroyed.

128. Every owner or driver of a public conveyance shall provide for the disinfection of the conveyance immediately after it has to his knowledge conveyed any person suffering from any disease dangerous to the public health, and, if he fails to do so, shall be liable to a penalty not exceeding fifty rupees:

Provided that no such owner or driver shall be required to convey any person suffering from any such disease without payment or tender of a sum sufficient to cover the loss and costs which he must under this section incur for the purpose of disinfecting such conveyance, anything in this Law relating to public conveyances for the time being in force to the contrary notwithstanding.

129. Whoever lets a house or other building or part of a house or building, in which any person has to his knowledge been suffering from a disease dangerous to the public health without having such house, or other building or part thereof, and all articles therein liable to retain infection, disinfected to the satisfaction of a medical practitioner, as testified by such officer's certificate, shall be liable to a penalty not exceeding two hundred rupees.

Explanation.—For the purpose of this section a hotel or lodging house-keeper shall be deemed to let part of his house to any person admitted as a guest into his hotel or lodging-house.

130. If the Commission considers that the water in any well, tank or other place is likely, if used for drinking, to engender or cause the spread of any disease dangerous to the public health, it may, by public notice, prohibit the removal or use of such water or temporarily close the well.

Powers of entry.

131. (1) The Commission may, by any person authorised by it in this behalf, at any time between sunrise and sunset enter into any building or upon any land, and inspect any drains or privies therein or thereon, and may cause the ground to be opened where such person as aforesaid may think fit, for the purpose of preventing or removing any nuisance arising from the drains or privies.

(2) If, on such inspection, it appears that the opening of the ground was necessary for the prevention or removal of a nuisance, the expenses thereby incurred shall be paid by the owner or occupier of the land or building; but if it is found that no nuisance exists, or but for such opening would have arisen, the ground or portion of any building, drain or other work (if any) opened, injured or removed for the purpose of such inspection shall be filled in, restored and made good by the Commission.

(3) No building other than a latrine shall be entered under this section until six hours' notice in writing has been given to the occupier of the building by the Commission or by the person authorized by the Commission to make the entry.

132. The Commission may, by any person authorised by it in this behalf, at any time enter any building in which any disease dangerous to the public health is reputed or suspected to exist, for the purpose of preventing the spread of the same.

133. The Commission may, by any person authorised by it in this behalf, after giving twenty-four hours' notice to the occupier or, if there is no occupier, to the owner of any building or land, at any time between sunrise and sunset—

- (a) enter on and survey and take levels of any land;
- (b) enter, inspect and measure any building for the purpose of valuation.

*The Bangalore Municipal Law, 1897.**(Chapter V.—Powers for sanitary and other purposes.—Sections 134-137.)*

- (c) enter into any building or on any land for the purpose of examining works under construction, of ascertaining the course of sewers or drains or of executing or repairing any work which it is by this Law empowered to execute or maintain.

134. The Commission may, by any person authorized by it in this behalf, at any time between sunrise and sunset enter and inspect any stable, coach-house or other place wherein there is reason to believe that there is any vehicle or animal liable to taxation under this Law for which a license has not been duly taken out.

135. The Commission may, by any person authorized by it in this behalf, at all reasonable times enter into and inspect any market, building, shop, stall or place used for the sale of food or drink for man, or for the slaughter of animals or for the sale of drugs and inspect and examine any food or drink, animal or drug which may be therein; and if any article of food or drink or any animal therein appears to be intended for the consumption of man and to be unfit therefor, may seize and remove the same, or may cause it to be destroyed or to be so disposed of as to prevent its being exposed for sale or used for such consumption; and, if it is reasonably suspected that any drug is adulterated in such manner as to lessen its efficacy or to change its operation or to render it noxious, may remove the same, giving a receipt therefor, and may cause the owner thereof to be brought before a Magistrate for inquiry as to whether any offence has been committed in respect thereof, and for orders as to its disposal.

136. (1) The Commission may by any person authorized by it in this behalf, at any reasonable time enter upon and inspect any house or building which is suspected to contain petroleum, explosives or other inflammable material, in excess of the quantity permitted to be kept in such house or building under this Law or any rule, bye-law or public notice made or published thereunder.

(2) If any excess quantity as aforesaid of such material is discovered, it may be seized and held subject to such orders as a Magistrate may pass with respect to it.

(3) If the Magistrate decides that the material seized was stored in the house or building contrary to the provisions of this Law or of any rule, bye-law or public notice made or published thereunder, he shall pass an order confiscating the same.

(4) Subject to any general rules for the time being applicable thereto, the material so confiscated may be sold by order of the Magistrate, and the proceeds, after defraying the expenses of such sale, shall be credited to the Municipal Fund.

(5) No order of confiscation under this section shall operate to bar any other criminal or

the material in excessive quantity may be liable under any other law for the time being in force:

Provided that such person shall not be punished twice for the same offence.

Power to make bye-laws.

137. (1) The Commission may, by bye-law, —

- (a) render licenses necessary for the proprietors or drivers of vehicles or animals kept or plying for hire or for profit within the Station, and fix the fees payable for such licenses and the conditions on which they are to be granted and may be revoked;
- (b) limit the rates which may be demanded for the hire of any carriage, cart or other conveyance, or of any animal hired to carry loads, or for the services of persons hired to carry loads, and the loads to be carried by such conveyances, animals or persons when hired within the Station for a period not exceeding twenty-four hours, or for a service which would ordinarily be performed within twenty-four hours;
- (c) provide for the proper registration of births, marriages and deaths, and for the taking of a census;
- (d) fix, and from time to time vary, the number of persons who may occupy a building or part of a building which is let in lodgings or occupied by members of more than one family, and provide—
 - (i) for the registration and inspection of such building,
 - (ii) for promoting cleanliness and ventilation in such buildings,
 - (iii) for the notices to be given and the precautions to be taken in the case of any disease dangerous to the public health breaking out in such buildings, and
 - (iv) generally for the proper regulation of such buildings;
- (e) provide—
 - (i) for the inspection and proper regulation of encamping-grounds, pounds, chattrams, markets, dhobis' ghats, flour-mills and slaughter-houses,
 - (ii) for keeping in proper repair or preventing the disfigurement of any building or wall adjoining a street,
 - (iii) for preventing injury to any public property
 - (iv) for the holding of fairs and industrial exhibitions within the station or under the control of the Commission, and for fixing fees to be levied thereat,
 - (v) for controlling and regulating the use and management of burial and burning grounds, and
 - (vi) for the supervision and regulation of public wells, tanks, springs or other sources from which water is or may be

*The Bangalore Municipal Law, 1897.**(Chapter V.—Powers for sanitary and other purposes.—Sections 138-141.)*

reservoirs, stand pipes or other works connected with a water-supply ;

(f) where the collection of an octroi has been sanctioned, fix octroi limits for the purpose of collecting the same, the routes by which articles liable to octroi shall be brought within those limits, and the octroi posts at which they shall be liable to inspection, examination and weighing under section 63, sub-section (1) clause (a) ;

(g) regulate the exhibition of tables of octroi, the system under which refunds are to be made on account thereof when the animals or goods on which the octroi has been paid are again exported, and the custody or storage of animals or goods declared not to be intended for use or consumption within the Station ;

(h) require and regulate—

(i) the exhibition of tables showing the rates of tolls chargeable on vehicles and animals entering the Station,

(ii) the appointment by owners of buildings or lands in the Station who are not resident in the Station, of persons residing within or near the Station to act as their agents for all or any of the purposes of this Law or of any rule, bye-law or notice made or issued thereunder ;

(i) regulate the assessment and collection of any tax imposed under this Law and the fees payable in respect of notices of demand or of distraint ;

(j) control and regulate the admission within the Station, for the purpose of sale, of the flesh (other than cured or preserved meat) of any cattle, sheep, goat or swine slaughtered at any place not maintained or licensed under this Law

(k) provide for and regulate the destruction or segregation of stray dogs and of horses and cattle suffering from anthrax, glanders, rinderpest or any other such disease ; and

(l) generally provide for carrying out the objects and purposes of this Law.

(2) Bye-laws under clause (g) may, among other matters, provide a period of limitation after which no claim for refund of octroi shall be entertained, and also that no such refund shall be made when the amount thereof would be less than one rupee.

138. (1) In making any bye-law under this Chapter, the Commission may direct that a breach of it shall be punishable with fine which may extend to fifty rupees, and when the breach is a continuing breach with a further fine which may extend to five rupees for every day after the first during which the breach continues.

(2) In lieu of or in addition to such fine or fines as aforesaid, the Magistrate may require the offender to remedy the mischief in so far as lies within his power.

Supplemental.

139. (1) No bye-law under this Chapter shall come into force until it has been confirmed by the Resident and published for such time and in such manner as the Resident may prescribe in this behalf.

(2) The Resident may cancel his confirmation of any such bye-law, and thereupon the bye-law shall cease to have effect.

140. (1) When any notice under this Chapter requires any act to be done for which no time is fixed by this Law, it shall fix a reasonable time for doing the same.

(2) Whenever it is provided by this Law that any notice may be given to the owner or occupier of any land or building, and the owner and occupier are different persons, such notice shall be given to the one of them primarily liable to comply with such notice, and in case of doubt to both of them ;

Provided that in any such case, where there is no owner resident within the Station, delivery of such notice to the occupier shall be sufficient.

(3) Whenever the terms of any notice duly given under this Law have not been complied with, the Commission may, after six hours' further notice, cause the act to be done by its officers.

141. (1) Where, under this Law, the owner or occupier of property is required by the Commission to execute any work and default has been made in complying with the requirement, and the Commission has executed the work, the Commission may recover the cost of the work from the person in default.

(2) As between themselves and the Commission both owner and occupier shall be deemed to be in default for the purposes of this section, but that one of them shall be deemed to be primarily in default upon whom, as between landlord and tenant, the duty of doing the required act would properly fall either in pursuance of the contract of tenancy or by law.

(3) When the person primarily in default is the owner, and the Commission has recovered the whole or any part of the cost from the occupier, or the occupier has paid the same upon its demand, the occupier may deduct the sum so recovered or paid from the rent from time to time becoming due from him to the owner, or may otherwise recover it from such owner :

Provided that no occupier shall be required to pay under sub-section (3) any sum greater than the amount for the time being due from him to the owner, either in respect of rent due at the date of such demand as aforesaid or thereafter accruing, unless he has refused on application made to him by the Commission, truly to disclose the amount of his rent and the name and address of the person to whom it is payable ; but the burden of proof that the sum so demanded by the Commission from the occupier exceeds the rent due at the time of the demand, or which has since accrued due, shall lie on the occupier.

(4) All money recoverable by the Commission under this section may be recovered in the manner provided in section 186.

*The Bangalore Municipal Law, 1897.**(Chapter V.—Powers for sanitary and other purposes.—Sections 142-143.**(Chapter VI.—Offences affecting the public health, safety or convenience.—Sections 144-151.)*

(5) Nothing in this section shall affect any contract between an owner and an occupier.

142. (1) The Commission may make compensation out of the Municipal Fund to any person sustaining any damage by reason of the exercise of any of the powers vested in the Commission, its officers and servants, under this Law, and shall make such compensation where the person sustaining the damage was not himself in default in the matter in respect of which the power was exercised.

(2) If any dispute arises touching the amount of any compensation which the Commission is required by this Law to pay for injury to any building or land, it shall be settled in such manner as the parties may agree, or, in default of agreement, in the manner provided by the Land Acquisition Act, 1894, as applied to the Station, with reference to the acquisition of and payment of compensation for land for public purposes, so far as it can be made applicable.

143. (1) Any person aggrieved—

(a) by the prohibition by the Commission under section 83 of the erection or re-erection of a building, or

(b) by a notice from the Commission under section 83, sub-section (4) or section 84, sub-section (2) requiring the alteration or demolition of a building, or

(c) by any order made by the Commission under the powers conferred upon it by sections 96, 104 or 107,

may appeal within thirty days from the date of such prohibition, notice or order to the officer holding the appointment of District Judge, and no such prohibition, notice or order shall be liable to be called in question otherwise than by such appeal:

Provided that, if the said officer is himself a Commissioner, the appeal shall lie to the First Assistant to the Resident or such other officer, not being a Commissioner, as may be empowered by the Resident in this behalf.

(2) The appellate authority may, if it thinks fit, extend the period allowed by sub-section (1) for appeal.

(3) The Resident may call for a report of the proceedings in any case in which it appears to him that there has been an illegality or material irregularity in the issue of any such prohibition, notice or order as aforesaid and may pass such orders thereon as he thinks fit.

CHAPTER VI.

OFFENCES AFFECTING THE PUBLIC HEALTH, SAFETY OR CONVENIENCE.

144. Whoever, without the permission of the Commission or in disregard of its orders, throws or deposits, or permits his servants or members of his household under his control to throw or deposit, earth or materials of any description, or refuse, rubbish or offensive mat-

ter into any public sewer or drain or any drain communicating therewith, shall be punishable with fine which may extend to twenty rupees.

145. Whoever, without the permission of the Commission, causes or negligently discharges sewage, knowingly or negligently allows the water of any sink or sewer or any other offensive matter, to flow, drain or be put upon any street or public place, or into any public sewer or drain not set apart for the purpose, shall be punishable with fine which may extend to twenty rupees.

146. Whoever, being the owner or occupier of any building or land, keeps or knowingly or negligently allows to be kept,—

(a) for more than twenty-four hours, or

(b) otherwise than in some proper receptacle,

any dirt, dung, bones, ashes, nightsoil or filth or any noxious or offensive matter in or upon such building or land, or suffers any such receptacle to be in a filthy or noxious state, or neglects to employ proper means to cleanse and purify the same, shall be punishable with fine which may extend to fifty rupees.

147. Whoever, without the permission of the Commission, makes or causes to be made, or alters or causes to be altered, any drain leading into any public sewer or drain shall be punishable with fine which may extend to fifty rupees.

148. Whoever, without the permission of the Commission, makes or keeps for a longer time than one week after notice under section 100 any drain, latrine, urinal or receptacle for filth or refuse within fifty feet of any spring, well, tank, reservoir or other source from which water is or may be derived for public use, shall be punishable with fine which may extend to twenty rupees, and, after service of notice, with a further fine not exceeding five rupees for each day during which the offence is continued after the lapse of the period allowed for removal.

149. Whoever keeps any swine in disregard of any orders which the Commission may give to prevent them from becoming a nuisance, or keeps any other animal so as to be injurious to the health of the inhabitants or of animals generally, or so as to become a nuisance, shall be punishable with fine which may extend to twenty rupees and with a further fine which may extend to five rupees for every day after the first during which the offence is continued.

150. Whoever feeds or allows to be fed any animal which is kept for dairy purposes or may be used for food, on deleterious substances, filth or refuse of any kind, shall be punishable with fine which may extend to fifty rupees.

151. Whoever drives any vehicle after dark in any street at more than a walking pace, unless the vehicle is properly supplied with lamps or there is sufficient moon-

*The Bangalore Municipal Law, 1897.**(Chapter VI.—Offences affecting the public health, safety or convenience.—**Sections 152-164. Chapter VII.—Prevention and extinction of fire.—Section 165.)*

punishable with fine which may extend to twenty rupees.

152. Whoever discharges fire-arms or lets off fire-works or fire-balloons, or engages in any game in such a manner as to cause, or be likely to cause, danger to persons passing by or dwelling or working in the neighbourhood, or risk of injury to property, shall be punishable with fine which may extend to twenty rupees.

153. Whoever, being in charge of any elephant, camel or bear, omits, on being requested to do so, to remove as far as may be practicable his elephant, camel or bear to a safe distance on the approach of a horse, whether ridden or driven, shall be punishable with fine which may extend to twenty rupees.

154. Whoever, contrary to any orders of the Commission, takes an elephant along a street, shall be punishable with fine which may extend to twenty rupees.

155. Whoever, being the owner or person in charge of any dog which is likely to annoy or intimidate persons passing by, neglects to restrain it so that it shall not be at large without a muzzle in any street, shall be punishable with fine which may extend to twenty rupees.

156. Whoever, without the permission of the Commission, alters, obstructs or encroaches upon any street, or any public sewer, drain or water-course, or displaces, takes up or alters the pavement or other materials or the fences or posts of any street, or deposits building-materials or makes any hole or excavation on or in any street, or removes material from beneath any street so as to occasion risk of surface subsidence, shall be punishable with fine which may extend to fifty rupees.

157. Whoever quarries, blasts, cuts timber or carries on building operations in such a manner as to cause, or to be likely to cause, danger to persons passing by or dwelling or working in the neighbourhood, shall be punishable with fine which may extend to fifty rupees.

158. Whoever, contrary to the orders of the Commission, pickets animals or collects carts on any public ground, or uses any such ground as a halting place for vehicles or animals of any description or as a place of encampment, or causes or permits animals to stray, shall be punishable with fine which may extend to twenty rupees.

159. Whoever carries a corpse along a route prohibited by the Commission, or in a manner likely to cause annoyance to the public, shall be punishable with fine which may extend to ten rupees.

160. Whoever, without being authorized by the Commission, defaces or disturbs any direction-post or lamp-post, or extinguishes any light

provided and maintained in any public place by the Commission, shall be punishable with fine which may extend to ten rupees.

161. Whoever disobeys any lawful direction given by the Commission by public notice under the powers conferred upon it by the last foregoing Chapter, or any written notice lawfully issued by it under the powers so conferred, or fails to comply with the conditions subject to which any permission was given by the Commission to him under those powers, shall, if the disobedience or omission is not an offence punishable under any other section, be punishable with fine which may extend to fifty rupees, and, in the case of a continuing breach, with a further fine which may extend to five rupees for every day after the first during which the breach continues :

Provided that, when the notice fixes a time within which a certain act is to be done and no time is specified in this Law, it shall rest with the Magistrate to determine whether the time so fixed was a reasonable time within the meaning of this Law.

162. Whoever obstructs or molests the Commission or any person employed by it, or any person with whom it has entered into a contract under this Law, in the performance of their or his duty, or who obstructs any person from doing anything which he is empowered or required to do by virtue of this Law, or removes any mark set up for the purpose of indicating any level or direction incidental to the execution of any work authorized by this Law, shall be punishable with fine which may extend to two hundred rupees.

163. When any order of the kinds specified in section 104, section 107 and section 161 is subject to appeal, and an appeal has been instituted against it, all proceedings to enforce such order and all prosecutions for any breach thereof shall be suspended pending the decision of the appeal, and, if such order is set aside on appeal, disobedience thereto shall not be deemed to be an offence.

164. If the flesh of any cattle, sheep, goat or swine is brought within the Station in contravention of any bye-law under section 137, it may be seized by any officer of the Commission authorized in that behalf, and may be destroyed or otherwise disposed of as the Commission may direct.

CHAPTER VII.

PREVENTION AND EXTINCTION OF FIRE.

165. For the prevention and extinction of fire the Commission may establish and maintain a fire-brigade and may provide any implements, machinery or means of communicating intelligence which the Commission may think necessary for the efficient discharge of their duties by the brigade.

*The Bangalore Municipal Law, 1897.**(Chapter VIII.—Prevention and Extinction of Fire—Sections 166-167.**Chapter VIII.—Control.—Sections 168-173.)*

166. (1) On the occasion of a fire in the Station any Magistrate, the Field Officer of the week of the Bangalore Garrison, the District Superintendent of Police, the Secretary of the Commission, any Commissioner any member of fire-brigade maintained by the Commission then and there directing the operations of men belonging to the brigade and (if directed so to do by a Magistrate or by the District Superintendent of Police) any Police-officer above the rank of constable, may—

- (a) remove or order the removal of any person who by his presence interferes with or impedes the operations for extinguishing the fire or for saving life or property;
- (b) close any street or passage in or near which any fire is burning;
- (c) for the purpose of extinguishing the fire, break into or through or pull down, or cause to be broken into or through or pulled down, or used for the passage of hose or other appliances, any premises;
- (d) cause mains and pipes to be shut off so as to give greater pressure of water in or near the place where the fire has occurred;
- (e) call on the persons in charge of any fire-engine to render such assistance as may be possible; and,
- (f) generally, take such measures as may appear necessary for the preservation of life or property.

(2) No person shall be liable to pay damages for any act done by him under sub-section (1) in good faith.

(3) Any damage done in the exercise of a power conferred, or a duty imposed, by this section shall be deemed to be damage by fire within the meaning of any policy of insurance against fire.

167. The powers conferred by the last foregoing section shall be subject to any regulations, conditions or restrictions which may be imposed by rule.

CHAPTER VIII.

CONTROL.

168. The Resident may at all times call for such reports and statistics connected with the working, income and expenditure of the Commission as he may think fit; and the Commission shall forthwith comply with such requisition.

169. The Resident may, by order in writing, suspend the execution of any resolution or order of the Commission, or prohibit the doing of any act which is about to be done, or is being done in pursuance of or under cover of this Law, if, in his opinion, the resolution, order or act is in excess of the powers conferred by law, or the execution of the resolution or order, or the doing of the act, is likely to lead to a breach of the peace or to cause injury or annoyance to the public or to any class or body of persons.

170. (1) In cases of emergency the Resident may provide for the execution of any work, or the doing of any act, which the Commission is empowered to execute or do, and the immediate execution or doing of which is, in his opinion, necessary for the service or safety of the public, and may direct that the expense of executing the work or of doing the act shall be forthwith paid by the Commission.

(2) If the expense is not so paid, the Resident may make an order directing the person having the custody of the balance of the Municipal Fund to pay the expense, or so much thereof as may from time to time be possible, from that balance in priority to all other charges against the same.

171. (1) In the event of the Station being threatened with an outbreak of any dangerous disease, or in the event of anthrax, glanders, rinderpest or any other such disease affecting horses or cattle breaking out, in, or being likely to be introduced into, the Station, the Resident, if he thinks the ordinary provisions of this Law or of any other law at the time in force are insufficient for the purpose, may—

- (a) order the Commission to take such special measures and,
- (b) by public notice, prescribe such temporary regulations to be observed by the public or by any person or class of persons, as he may think necessary to prevent the outbreak of such disease or the spread thereof.

(2) The Resident shall forthwith report to the Governor General in Council any orders and any regulations issued or prescribed by him under sub-section (1).

172. (1) When the Resident, after due inquiry, is satisfied that the Commission has made default in performing any duty imposed upon it under this Law, he may, by an order in writing, fix a period for the performance of that duty; and, if it is not performed within the period so fixed, he may appoint some person to perform it and may direct that the expense thereof shall be paid within such time as he may fix by the Commission.

(2) If the expense is not so paid, the Resident may make an order directing the person having the custody of the balance of the Municipal Fund to pay the expense, or so much thereof as may from time to time be possible, from that balance in priority to all other charges against the same.

173. (1) The Resident shall be bound to require that the proceedings of the Commission shall be in conformity with law and with the rules in force under any enactment for the time being applicable to the Station generally or to the areas over which the Commission has authority.

*The Bangalore Municipal Law, 1897.**(Chapter VIII.—Control.—Sections 174-175. Chapter IX.—Supplemental.—Section 176.)*

(2) The Resident may exercise all powers necessary for the performance of this duty, and may, among other things, by order in writing, annul or modify any proceeding which he considers not to be in conformity with law or with such rules as aforesaid.

174. (1) If the Commission is incompetent to perform, or persistently makes default in the performance of the duties imposed on it by or under this or any other enactment, or exceeds or abuses its powers, the Resident may, with the previous sanction of the Governor General in Council, by a notification in which the reasons for so doing shall be stated, declare the Commission to be superseded:

Provided that, in case of public emergency, such a notification as aforesaid may be issued without the previous sanction of the Governor General in Council, but shall be forthwith reported to the Governor General in Council and shall be subject to his orders.

(2) When the Commission is superseded under sub-section (1), the following consequences shall ensue:—

- (a) all Commissioners shall, from the date of the notification, vacate their seats;
- (b) all powers and duties of the Commission may, until the Commission is reconstituted, be exercised and performed by such person or persons as the Resident may appoint in that behalf;
- (c) all property vested in the Commission shall, until the Commission is reconstituted, vest in Her Majesty.

(3) The Resident may, if he thinks fit, at any time constitute another Commission in the place of the Commission superseded under this section.

175. (1) The Resident may frame forms for any proceeding of the Commission for which the Resident considers that a form should be provided, and may make rules, consistent with this Law, —

- (a) with respect to the powers and duties of the Commission;
- (b) as to the division of the Station into wards, or of the inhabitants into classes, or both;
- (c) as to the number of representatives proper for each ward or class;
- (d) as to the qualifications of electors and of candidates for election;
- (e) as to the registration of electors;
- (f) as to the nomination of candidates, the time of election and the mode of recording votes;
- (g) generally for regulating all elections under this Law;
- (h) fixing the term of office of Commissioners;
- (i) as to the constitution, powers and duties of the Health Committee;
- (j) prescribing the qualifications requisite in the case of persons appointed by the

Commission to offices requiring professional skill;

- (k) as to the priority to be given to the several duties of the Commission;
- (l) as to the procedure to be observed for the punishment or dismissal of servants of the Commission;
- (m) as to the conditions on which land vested in the Commission may be transferred by sale, mortgage, lease, exchange or otherwise;
- (n) as to the preparation of plans and estimates for works to be constructed at the expense of the Commission and as to the person by whom, and the conditions subject to which, such plans and estimates are to be sanctioned;
- (o) as to the accounts to be kept by the Commission, the conditions on which such accounts are to be open to inspection by inhabitants paying any tax under this Law, the manner in which such accounts are to be audited and published, and the power of the auditors in respect of disallowance and surcharge;
- (p) as to the preparation of estimates of the income and expenditure of the Commission and the person by whom, and the conditions subject to which, such estimates are to be sanctioned;
- (q) as to the returns, statements and reports to be submitted by the Commission;
- (r) as to the publication of notices; and
- (s) generally for the guidance of the Commission and public officers in carrying out the objects and purposes of this Law and for all other matters necessary or incidental to the due administration of this Law.

(2) Rules under clause (g) of sub-section (1) may, among other matters, provide—

- (i) for the investigation of allegations of corrupt practices or intimidation at elections;
- (ii) for making void the election of any person proved to the satisfaction of the Resident to have been guilty of corruption or intimidation or to have connived at or abetted the exercise of corruption or intimidation on his behalf by any other person;
- (iii) for rendering incapable of municipal office either permanently or for a term of years any person whose election may have been made void as aforesaid for corruption or for connivance at or abetment of the same; and
- (iv) for the definition of the practices at municipal elections which are to be deemed to be corrupt or to amount to intimidation.

CHAPTER IX.

SUPPLEMENTAL.

Prosecutions.

176. No Court shall take cognizance of any Authority for prosecution punishable un-

*The Bangalore Municipal Law, 1897.**(Chapter IX.—Supplemental.—Sections 177-182.)*

bye-law thereunder except on the complaint of the Commission or of some person authorized by the Commission in this behalf.

Explanation.—The Commission may authorize persons to prosecute either generally in regard to all offences against this Law and the rules or bye-laws thereunder or particularly in regard only to specified offences or offences of a specified class. The person authorized may be authorized by office, if he is the President or a Vice-President, but in other cases the authority must be personal. The authority must in all cases be in writing and may at any time be cancelled by the Commission.

177. (1) The Resident may empower the Commission, or the President, a Vice-President or the Secretary or any other officer of the Commission or any Committee appointed under section 23 or section 24 or the chairman thereof, to accept from any person against whom a reasonable suspicion exists that he has committed an offence against this Law or any rule or bye-law thereunder, a sum of money by way of composition for such offence.

(2) On payment of such sum of money the suspected person if in custody shall be discharged, and no further proceedings shall be taken against him in regard to the offence or alleged offence so compounded.

(3) Sums paid by way of composition under this section shall be credited to the Municipal Fund.

(4) Power under sub-section (1) may be given either generally in regard to all offences under this Law and the rules and bye-laws thereunder, or particularly in regard only to specified offences or offences of a specified class, and may at any time be withdrawn by the Resident.

(5) The Resident may make rules to regulate the proceedings of persons empowered under sub-section (1).

178. The Magistrate or Judge by whom any fine is imposed under this Law or any rule or bye-law thereunder, may award any portion, not being more than one-half thereof, to the informer, and the remainder, or, if he makes no award to the informer, the whole, of such fine shall be paid to the Commission, to be by them applied to the purposes of this Law.

179. No Judge or Magistrate shall be deemed to be a party to, or personally interested in, any prosecution for an offence punishable under this Law or any rule or bye-law thereunder, or under any other law for the time being in force, within the meaning of section 555 of the Code of Criminal Procedure, 1882, as applied to the Station, by reason only that he is a Commissioner by the order, or under the authority, of whom it has been instituted.

Commissioner not to be deemed interested in prosecution.

Law or any rule or bye-law thereunder, or under any other law for the time being in force, within the meaning of section 555 of the Code of Criminal Procedure, 1882, as applied to the Station, by reason only that he is a Commissioner by the order, or under the authority, of whom it has been instituted.

Rules and bye-laws.

180. (1) The authority empowered to make Procedure for making any rules or bye-laws

than bye-laws under section 25 or section 32, shall, before making such rules or bye-laws, publish, in such manner as may, in its opinion, be sufficient for giving information to persons interested, a draft of the proposed rules or bye-laws with a notice specifying a date on or after which the draft will be taken into consideration; and such authority, as also, in the case of bye-laws, the Resident whose confirmation is required, shall, before such rules or bye-laws are made, consider any objection or suggestion which may be received from any person with respect to the draft before the date so specified.

(2) If, on such consideration, any modification is made in the draft, the Resident shall determine whether or not the draft shall be republished under this section.

(3) Every such rule or bye-law shall be notified in English and in such other language or languages as the Resident may direct; and such notification shall be conclusive proof that such rule or bye-law has been made as is required by this section.

181. (1) A copy of all rules and bye-laws made under this Law shall be kept at the Commission's office, and shall be open during office hours without charge to the inspection of any inhabitant.

(2) Copies of all such rules and bye-laws shall be kept at the Commission's office for sale to the public at a price not exceeding one rupee.

Notices.

182. (1) Every notice issued by the Commission under this Law or under any rule or bye-law thereunder shall be in writing signed by the President, Vice-President or Secretary or by the members of any Committee specially authorized by the Commission in that behalf, and may be served on the person to whom it is addressed or delivered or left at his usual place of abode or business with some adult male member or servant of his family, or, if it cannot be so served delivered or left, may be affixed to some conspicuous part of his place of abode or business.

(2) When the place of abode or business of the person to whom such notice is addressed is not within the Station, the notice may be served by posting it in a registered cover addressed to his usual place of abode.

(3) If the owner of any property has no place of abode or business within the Station, every such notice addressed to him as such owner may be served on the occupier.

(4) When the place of abode or business of the occupier of any property is not known, every such notice addressed to him as such occupier may be served by affixing it to some conspicuous part of the property.

(5) No notice issued by the Commission under this Law or under any rule or bye-law thereunder shall be invalid for defect of

*The Bangalore Municipal Law, 1897.**(Chapter IX.—Supplemental.—Sections 183-190.)*

183. When any notice is under this Law to be given to, or served on, the owner or occupier of any property and such owner or occupier is unknown, it may be given or served—

Mode of giving notice to owner or occupier of property.

(a) by delivering a written notice to some person on the property, or, should there be no person on the property to whom it can be delivered, by affixing it to some conspicuous part of the property; or,

(b) by putting into the post a pre-paid letter containing a written notice, and addressed by the description of the "owner" or "occupier" of the property (naming it) in respect of which the notice is given, without further name or description.

184. Every public notice issued by the Commission under this Law or under any rule or bye-law thereunder shall be published by proclamation or in such other manner as the Resident may, by rule, direct.

Exemption of local areas.

185. When any local area has under section 6 been exempted from the operation of any of the provisions of this Law or of any rules or bye-laws thereunder, the Governor General in Council shall, after consulting the Commission, frame a scheme determining in what manner the liabilities arising, or the advantages derived, therefrom shall be apportioned between the Commission and the Secretary of State for India in Council.

Collection of sums due to the Commission.

186. When any sum is due to the Commission under this Law by any person, the Commission may recover such sum in the following manner, namely:—

(a) by causing a bill for the sum, stating the nature of the demand, to be served on the person liable to pay the same, in the manner provided in section 182;

(b) if the sum is not paid within seven days from the service of such bill, by causing a notice of demand to be served on such person;

(c) if such person does not within seven days from the service of such notice pay the sum due, with any fee leviable for the notice, or show sufficient cause for non-payment, by distraining and selling the moveable property of such person in the manner provided in the Code of Civil Procedure, as applied to the Station;

(d) by suing such person in the Civil Court, in which case any sum awarded by the Court shall, subject to any claim on behalf of Her Majesty, be a first charge on the property (if any) in respect of which it is payable.

Miscellaneous.

187. When any building used as a human dwelling is entered under this Law, due regard shall be paid to the social and religious sentiments of the occupiers; and before any apartment in the actual occupancy of any woman who, according to custom, does not appear in public, is entered under this Law, notice shall be given to her that she is at liberty to withdraw, and every reasonable facility shall be afforded to her for withdrawing.

188. (1) In the absence of a written contract to the contrary every sweepster or scavenger employed by the Commission shall be entitled to one month's notice before discharge or to one month's wages in lieu thereof, unless he is discharged for misconduct or was engaged for a specified term and discharged at the end of it.

(2) Whoever, being a sweepster or scavenger employed by the Commission, in the absence of a written contract authorizing him so to do and without reasonable cause, resigns his employment or absents himself from his duties without giving one month's notice to the Commission, or neglects or refuses to perform his duties or any of them, he shall be liable to imprisonment which may extend to two months.

(3) The Resident may, by notification, direct that, on and from a date, to be specified in the notification, the provisions of sub-sections (1) and (2) with respect to sweepsters and scavengers shall apply also to any specified class of servants employed by the Commission whose functions intimately concern the public health or safety.

189. On the complaint of five or more inhabitants of the Station that a house in their immediate neighbourhood and within the limits of the Station is used as a brothel or by disorderly persons of any description, to the annoyance of the respectable inhabitants of the vicinity, any Magistrate of the first class having, as such, jurisdiction in the place where the house is situated may summon the owner or tenant of the house to answer the complaint; and, on being satisfied that the house is so used, and is a source of annoyance and offence to the neighbours, may order the owner or tenant to discontinue such use of it; and, if he shall fail to comply with such order within five days, may impose upon him a fine not exceeding twenty-five rupees for every day thereafter on which the house is so used.

190. (1) When any person, by reason of his receiving the rent of immoveable property as agent or trustee, or of his being as agent or trustee the person who would receive the rent if the property were let to a tenant, would, under this Law, be bound to discharge any obligation imposed by this Law on the owner of the property and for the discharge of which money is required, he shall be bound to discharge the obligation only to the extent of such funds as he has, or but for his own improper act or default might

*The Bangalore Municipal Law, 1897.**(Chapter IX.—Supplemental.—Sections 191-192.)*

(2) The burden of proving the facts entitling an agent or trustee to relief under this section shall lie on him.

(3) When any agent or trustee has claimed and established his right to relief under this section, the Commission may give him notice to apply to the discharge of such obligation as aforesaid, the first moneys which shall come to his hands on behalf or for the use of the owner, and, if he fails to comply with such notice, he shall be deemed to be personally liable to discharge such obligation.

191. If any question arises as to whether any person or specified class of persons is or are an inhabitant or inhabitants, within the meaning of this Law, of a local area in the Station, the decision thereon of the

192. It shall be the duty of every Police-officer to give information to the Commission of any offence committed against this Law or the rules or bye-laws thereunder, and to assist all Commissioners and officers or servants of the Commission in the exercise of their lawful authority.

The 10th June, 1897.

No. 458 R. T., dated Simla, the 2nd June, 1897.

RESOLUTION—By the Government of India, Public Works Department.

General Rules of 1895 for working railways open for traffic.

Read—

Section 47 of the Indian Railways Act, 1890.

Government of India, Public Works Department, notification No. 267, dated the 11th June 1890, appointing the Director General of Railways as the officer who, under section 47 of the Indian Railways Act, 1890, is to make General Rules for railways administered by the Government.

Government of India, Public Works Department, notification No. 118, dated the 21st March 1895, publishing—in the *Gazette of India* of the 23rd March 1895—the Government of India circular No. 6 Railway, dated the 12th March 1895, and the General Rules, therewith promulgated, for all open lines of railway in British India administered by the Government.

Government of India, Public Works Department, notification No. 257, dated the 28th May 1896, publishing—in the *Gazette of India* of the 30th May 1896—the Government of India circular No. 3 Railway, dated the 22nd May 1896, and the amended rules therewith promulgated.

Government of India, Public Works Department, notification No. 301, dated the 9th July 1896, publishing—in the *Gazette of India* of the 11th July 1896—the Government of India resolution No. 515 R. T., dated the 6th July 1896.

Government of India, Public Works Department, notification No. 310, dated the 15th July 1896, publishing—in the *Gazette of India* of the 18th July 1896—the Government of India resolution No. 528 R. T., dated the 10th July 1896.

Government of India, Public Works Department, notification No. 325, dated the 22nd July 1896, publishing—in the *Gazette of India* of the 25th July 1896—the Government of India resolution No. 535 R. T., dated the 14th July 1896.

Government of India, Public Works Department, notification No. 453, dated the 27th October 1896, publishing—in the *Gazette of India* of the 31st October 1896—the Government of India resolution No. 835 R. T., dated the 23rd October 1896.

Government of India, Public Works Department, notification No. 55, dated the 5th February 1897, publishing—in the *Gazette of India* of the 6th February 1897—the Government of India circular No. 3 Railway, dated the 3rd February 1897, and the addenda and corrigenda to the rules therewith promulgated.

Letter from the Director General of Railways, No. 225 T., dated the 26th May 1897.

OBSERVATIONS.—The Director General of Railways has applied that the General Rules for working open lines of railway in British India administered by the Government, which have been published under the Government of India, Public Works Department, notification No. 118, dated the 21st March 1895 (*vide* the *Gazette of India* of the 23rd March 1895), as modified by the Government of India circular No. 3 Railway, dated 22nd May 1896, which was published under Public Works Department notification No. 257, dated the 28th May 1896 (*vide* the *Gazette of India* of the 30th May 1896), with such other modifications as may, for the time being, be in force on the Eastern Bengal State railway, may be made applicable to the Rajbari-Faridpore branch of that railway from such date as the branch may be opened for the public carriage of passengers.

RESOLUTION.—The Governor General in Council is pleased to sanction the application of the General Rules for working open lines of railway which may, for the time being, be in force on the Eastern Bengal State railway, to the Rajbari-Faridpore branch of that railway from such date as the branch may be opened for the public carriage of passengers.

ORDER.—Ordered, that this Resolution be published under a notification in Part I of the *Gazette of India*, as required by section 47, sub-section (3), of the Indian Railways Act, 1890; also that the General Rules cited in the foregoing observations—which have already been published in the *Gazette of India*—be kept at railway stations as directed by sub-section (6) of the same section.

Ordered, also, that this resolution be communicated to the Director General of Railways, for information and guidance.

W. S. S. BISSET, Colonel, R.E.,

Secretary to the Government of India.

The Registration Reports of the several Local Governments and Administrations for the three years ending 1895-96.

RESOLUTION.

OBSERVATIONS.—The last full reports on the administration of the Registration Department were submitted for the period of three years ending with the year 1892-93. The reports for the ensuing triennial period have now been received and the following remarks on the various provincial reports briefly indicate the more salient features. In the statement attached to this Resolution the statistics for the past five years are compared for each province.

2. In the Madras Presidency, the continued advance in the number of documents registered, which had been maintained from year to year up to 1892-93, received in 1893-94 a check which was followed by a further decline in each of the next two years. The number of documents registered in 1892-93 was 873,161; the corresponding figure in 1893-94, 859,036; and the numbers in the next two years 852,319 and 844,943 respectively. The decrease occurred almost entirely in optional registrations, and was mainly caused by a continuous decline in the number of registrations of mortgages of immoveable property of the value of less than Rs. 100. This decline, subject to the result of further enquiries, is attributed by the Inspector-General to the improvement in the seasons and the consequent decline in grain prices which occurred after 1892-93. The number of documents registered during the triennium under review was, however, in excess of the number registered in the preceding triennium by 115,192 or 4·72 per cent. Of the documents registered in 1895-96, 800,769 related to immoveable property, and of these 560,373 were compulsory and 240,396 optional registrations. The number of documents affecting moveable property registered during the year was 41,248 of which all but 113 were optional. The aggregate value of the property affected by the documents registered, which was 1,674½ lakhs in 1893-94, rose to 1,887½ lakhs in 1895-96, of which 1,733½ lakhs represent immoveable and 154½ moveable property. The value of the property affected by registered documents amounted during the triennium ending 1895-96 to Rs. 53½ crores compared with Rs. 48½ crores in the corresponding period ending with the year 1892-93. The average value of each document registered in the triennium under review rose to Rs. 209 from Rs. 202 in the preceding triennium. The average value of sales and mortgages of property above Rs. 100, in regard to which deeds of sale and mortgages were registered, has steadily increased during the past five years, the value of sales and mortgages below Rs. 100 remaining about the same. The Local Government considers that this fact affords a proof of general prosperity and shows that forced alienations by the poorer ryots are decreasing and that the value of land has suffered no depreciation, notwithstanding the fall in prices since 1891-92.

The receipts of the Department in 1895-96 amounted to Rs. 12,14,443 compared with Rs. 11,89,510 in 1893-94, the first year of the triennial period under review, and Rs. 13,10,757 in 1892-93, the last year of the preceding triennium. The expenditure has gradually increased from Rs. 8,76,644 in 1893-94 to Rs. 10,09,846 in 1895-96. The percentage of expenditure to receipts rose from

73·7 in 1893-94 to 83·2 in 1895-96. The surplus of receipts over charges was Rs. 2,04,597 in 1895-96. The expenditure incurred on each document registered rose from Rs. 1-0-4 in 1893-94 to Rs. 1-3-1 in 1895-96; while the net receipts per document registered fell from Re. 0-5-10 in 1893-94 to Re. 0-3-10 in 1895-96.

3. In the Bombay Presidency, there has been a steady advance in the number of documents registered, though the figures still compare unfavourably with those of Madras and Bengal. The number of documents registered which was 177,170 in 1892-93 reached 203,543 in 1895-96. The number registered annually for the triennial period under review averaged 198,427 compared with 167,419 in the preceding triennial period only. There has been a continuous increase in the number of compulsory registrations of documents relating to immoveable property, and concurrently with this increase a material decrease has occurred in the number of optional registrations of such documents. The number of the former class of documents registered which was 144,669 in 1892-93, rose to 180,039 in 1895-96, while the number of optional registrations, which was 26,487 in 1892-93, fell to 16,725 in 1895-96. The decline in the latter class of registrations has been due to the extension in 1893 to the whole of the Presidency except Sind and Aden of the provisions of the Transfer of Property Act, and the consequent transfer to the compulsory class of certain instruments, the registration of which was previously optional. The number of optional instruments affecting moveable property, though it has increased year by year, still continues very small, and in 1895-96 only amounted to 5,318 compared with 4,653 in 1892-93. The aggregate value of property affected by registered documents, which was 887 lakhs in 1892-93, amounted to 1,028 lakhs in 1894-95, but fell to 1,025 lakhs in 1895-96. The aggregate value of the immoveable property affected fell from 996 lakhs in 1894-95 to 994½ lakhs in 1895-96; and that of the moveable property, from about 32 lakhs to 30½ lakhs.

The receipts of the Department have gradually increased from Rs. 5,42,471 in 1893-94 to Rs. 5,84,912 in 1895-96. The expenditure, which was Rs. 2,80,291 in 1893-94, fell to Rs. 2,78,753 in 1894-95, but rose again to Rs. 2,86,046 in 1895-96. The surplus during 1895-96 was Rs. 2,98,866 against Rs. 2,48,429 in 1892-93. The cost incurred on each document registered amounted to Rs. 1-7-2 in 1893-94, and to Rs. 1-6-6 in each of the two following years. The net receipts per document registered rose from Rs. 1-5-8 in 1893-94 to Rs. 1-7-6 in 1895-96.

The number of documents registered under the Deccan Agriculturists' Relief Act has steadily increased during the triennial period under review. The total number registered in 1895-96 was 144,956 against 142,575 in 1894-95 and 139,513 in 1893-94. As in the preceding triennium, the increase was confined to the case of documents relating to immoveable property, the number of documents relating to moveable property having shown a decrease. The latter class of documents numbered 29,774 in 1895-96 against 35,181 in 1893-94. The financial results of registration under this Act continue to show a deficit; but the amount of deficit has gradually decreased from Rs. 7,914 in 1892-93 to Rs. 4,347 in 1895-96. It is hoped that the system will in the course of a few years be self-supporting.

4. In Bengal there has been an increase in the number of documents registered during the triennial period under review as compared with the preceding triennium, but the increase has not been progressive. The number of documents registered was largest in 1894-95, when it reached 1,202,675; but it fell to 1,144,508 in 1895-96. The annual average during the three years ending 1895-96 was 1,172,312 compared with 996,033, the average for the preceding three years. The number of compulsorily registrable documents affecting immoveable property, which was 732,259 in 1892-93, rose to 793,837 in 1894-95, but there was a considerable fall to 762,304 in 1895-96. The number of optionally registrable documents affecting such property which were brought for registration was 207,395 in 1892-93, 238,115 in 1894-95 and 215,579 in 1895-96. The aggregate value of property transferred by registered documents, which was 1,773½ lakhs in 1892-93, gradually increased during the three years, and in 1895-96 amounted to 2,018½ lakhs.

There has been a steady increase in the operations under the Muhammadan Marriage Registration Act, I (B.C.) of 1876. The number of such operations was 23,380 in 1895-96 against 12,175 in 1892-93. The number of districts in which the Act was in force in 1895-96 was 25 against 19 in 1892-93. These

statistics point to the conclusion that registration under the Act is gradually becoming popular.

There has been a steady decline in the revenue of the Department since 1892-93. The receipts amounted in that year to Rs. 14,35,541, but have gradually fallen during the three years, and in 1895-96 amounted to Rs. 13,43,588. The Government of Bengal observes that the decline is largely due to the reduction from 12 to 8 annas of the minimum *ad valorem* fee, leviable on documents not exceeding Rs. 50 in value, which was effected in July 1893. The smaller number of registrations in 1895-96 also partly accounts for the decrease in that year. The expenditure has gradually increased from Rs. 7,6,771 in 1892-93 to Rs. 8,03,745 in 1895-96. The average annual surplus during the triennial period was 5½ lakhs or nine-tenths of a lakh less than the average surplus in each of the preceding three years. It was Rs. 5,39,843 in 1895-96. The cost per document registered, which was Re. 0-10-7 in 1892-93, rose to Re. 0-11-3 in 1895-96; in the intermediate years it amounted to Re. 0-10-9 in 1893-94 and Re. 0-10-8 in 1894-95. The net receipts per document registered fell from Re. 0-10-3 in 1892-93 to Re. 0-7-7 in 1895-96.

5. In the North-Western Provinces and Oudh the number of documents registered was 207,162 in 1892-93, and 230,268 in 1895-96. During the triennium the number of documents relating to immoveable property which are compulsorily registrable rose from 125,571 in 1893-94 to 135,371 in 1895-96. The increase in the number of such documents which were optionally registrable was from 33,020 to 43,197. The number of documents affecting moveable property which were registered was 48,500 in 1893-94, 49,666 in 1894-95 and 50,157 in 1895-96. The number of optional registrations was about 41 per cent. of the total number of documents registered.

The policy of substituting departmental for *ex officio* Sub-Registrars has made considerable progress during the period under review. Only 54 *ex officio* Sub-Registrars remain and they for the most part are in charge of unimportant registration sub-districts where the receipts are not large enough to pay for a separate officer. Another change introduced during the period was the complete reorganization of officers in the Province of Oudh, which has resulted in the reduction of the total number of officers in the North-Western Provinces and Oudh from 337 to 289 and of officers from 337 to 293.

The receipts of the Department rose from Rs. 4,10,413 in 1892-93 to Rs. 4,40,042 in 1895-96, and the expenditure from Rs. 2,20,080 to Rs. 2,30,008, the surplus of receipts over expenditure being Rs. 2,10,034. The cost per document registered fell from Rs. 1-1-1 in 1893-94 to Re. 1 in 1895-96; and the net receipts per document registered, from Re. 0-15-0 to Re. 0-14-7.

6. In the Punjab there has been an increase in the number of documents registered from 124,120 in 1892-93 to 125,701 in 1895-96; but the number fell in the intermediate years, *viz.*, to 114,786 in 1893-94 and to 108,090 in 1894-95. The number of documents affecting immoveable property which are compulsorily registrable rose from 78,215 in 1893-94 to 80,491 in 1895-96, but the increase was not progressive, as the number in 1894-95 was 70,918. The number of optional registrations, however, shows a steady increase. It was 26,847 in 1893-94, 27,598 in 1894-95 and 35,101 in 1895-96. The value of immoveable property transferred by registered deeds has risen from Rs. 4,46,87,042 in 1893-94 to Rs. 4,60,89,255 in 1895-96, and that of moveable property so transferred, from Rs. 18,52,604 to Rs. 21,71,376. In 1894-95 the value of immoveable and moveable property transferred was Rs. 4,13,63,136 and Rs. 17,63,022 respectively.

The income was Rs. 3,16,983 in 1895-96 as compared with Rs. 2,77,656 in the previous year and Rs. 3,00,392 in 1893-94. The expenditure has increased from Rs. 1,17,514 in 1893-94 to Rs. 1,18,416 in 1894-95 and Rs. 1,27,382 in 1895-96. The surplus of receipts over expenditure was Rs. 1,89,601. The cost per document registered was Rs. 1-0-3 in 1895-96 as compared with Rs. 1-1-6 in 1894-95 and Rs. 1-0-5 in 1893-94. The net receipts per document registered amounted to Rs. 1-9-6 in 1893-94, Rs. 1-7-7 in 1894-95 and Rs. 1-8-2 in 1895-96.

7. The number of documents registered in the Central Provinces rose from 31,103 in 1892-93 to 37,941 in 1895-96. The increase is ascribed to two causes, *viz.*, the opening up of the more backward parts of the province, and the special stimulus given to sales and mortgages of land by the continued bad harvests of

the three years. Sales and mortgages accounted for 72 per cent. of all registrations during the period under review. The value of property affected by registered documents rose from Rs. 1,28,28,929 in 1893-94 to Rs. 1,32,71,022 in 1894-95 and to Rs. 1,50,95,762 in 1895-96.

The receipts of the Department rose from Rs. 1,12,129 in 1892-93 to Rs. 1,37,294 in 1895-96, while the expenditure fell from Rs. 48,413 in 1892-93 to Rs. 42,761 in 1893-94 and rose again to Rs. 44,648 in 1894-95 and Rs. 46,933 in 1895-96. The surplus of income over expenditure was Rs. 90,361 in 1895-96. The cost per document registered fell gradually from Rs. 1-4-9 in 1893-94 to Rs. 1-3-10 in 1895-96. The net receipts per document registered amounted to Rs. 2-6-4 in 1893-94 and to Rs. 2-6-1 in each of the two following years.

8. There has been a decrease in Lower Burma since 1892-93 in the number of documents registered, the number of documents registered in 1895-96 having been 15,705 compared with 17,369 in 1892-93. The decrease occurred mainly in the case of documents relating to immoveable property, the number of such documents registered in 1895-96 being only 13,451 as compared with 14,199 in the previous year and 15,652 in 1892-93. It is attributed to the reduction in the market value of land caused by the fall in the price of paddy, and to some extent also by the assessment at full rates of fallow lands held by non-cultivators. The decrease shows, it is said, that some check has been imposed upon land-jobbing and the wholesale transfer of land to non-agriculturists in the delta districts. The number of documents relating to immoveable property of the compulsory class amounted only to 12,784 in 1895-96, against 15,023 in 1892-93. The number of optionally registrable documents relating to immoveable property registered was 667 in 1895-96 against 629 in 1892-93.

The total number of documents relating to moveable property registered was 2,221 in 1895-96 against 1,678 in 1892-93. The aggregate value of immoveable property transferred (which was 196 lakhs in 1892-93) fell from 227 lakhs in 1894-95 to 182½ lakhs in the following year; while the value of moveable property during those years rose from 28 lakhs to nearly 29 lakhs, although the number of documents registered was less in 1895-96 than in the preceding year.

The gross income of the Department amounted to Rs. 54,980 in 1895-96 against Rs. 55,699 in the preceding year and Rs. 51,372 in 1893-94. The expenditure amounted to Rs. 24,367 in 1895-96 against Rs. 24,840 in 1894-95 and Rs. 22,949 in 1893-94. The cost per document registered rose from Rs. 1-6-8 in 1893-94 to Rs. 1-8-10 in 1895-96; and the net receipts per document registered from Rs. 1-12-1 to Rs. 1-15-2.

In Upper Burma the number of documents registered in 1895-96 and the value of property transferred were 2,862 and Rs. 16,09,869 respectively as compared with 2,874 and Rs. 11,13,336 in 1894-95 and 2,515 and Rs. 9,32,720 in 1893-94. The average number of registrations and their average aggregate value, during the triennial period ending 1892-93, were 2,015 and Rs. 10,19,918 respectively, while the corresponding figures for the past triennial period are 2,750 and Rs. 12,18,642. The increase under most heads in 1895-96 is attributed to the fact that registration of nearly all kinds of assurances relating to immoveable property has now been made compulsory throughout the greater part of Upper Burma.

9. The total number of instruments registered in Assam was 38,217 in 1895-96 against 30,993 in 1892-93; in the intermediate years the registrations numbered 34,147 in 1893-94 and 34,834 in 1894-95. Out of the 38,217 documents of all classes registered during the year 1895-96, 33,102 related to immoveable property, 5,029 to moveable property and 86 to wills and authorities to adopt, the last class of documents showing a decrease as compared with the previous year when 115 were registered. Of the total number of documents registered during the year, 33,768 or 88·36 per cent. were registered in the Surma Valley, 4,366 or 11·42 per cent. in the Assam Valley and 83 or 0·22 per cent. in the Hill Districts. The aggregate value of the transactions in 1895-96 was Rs. 68,70,557 against Rs. 60,46,678 in 1894-95 and Rs. 56,81,592 in 1893-94 and the average value of each transaction during those years was Rs. 185, 179 and 171 respectively.

The receipts of the Department have gradually increased from Rs. 47,153 in 1893-94 to Rs. 47,617 in 1895-96. The increase in the revenue in the last-named year, however, was not proportionate to the increase in the number of deeds registered owing to the fact that the minimum fee leviable has been reduced from 12 to 8 annas. The expenditure during 1895-96 amounted to Rs. 26,737 against Rs. 26,565 in 1894-95 and Rs. 25,981 in 1893-94. The cost per document

registered, which amounted to Re. 0-12-2 in each of the first two years of the triennium, fell to Re. 0-11-2 in 1895-96. The net receipts per document registered fell gradually from Re. 0-9-11 in 1893-94 to Re. 0-8-9 in 1895-96.

10. In Coorg there has been an increase, though it has not been progressive, in the number of documents registered during the triennial period. The number of documents registered in 1895-96 (2,280), though smaller than that in 1894-95 (2,447), was in excess of that in 1893-94 (2,130). Optional registration has shown a steady increase. From 619 in 1892-93 it rose to 845 in 1895-96. The aggregate value of the property transferred by registered documents, which was 18 lakhs in 1893-94, fell to 17½ lakhs in 1894-95 and to 13 lakhs in 1895-96.

The revenue, owing to the decrease in values, fell from Rs. 9,948 in 1892-93 to Rs. 6,766 in 1895-96, the expenditure remaining throughout about the same, *vis.*, Rs. 3,467 in 1893-94, Rs. 3,792 in 1894-95 and Rs. 3,446 in 1895-96. The cost per document registered fell from Rs. 1-12-9 in 1892-93 to Rs. 1-8-2 in 1895-96; and the net receipts per document registered, from Rs. 3-5-4 to Rs. 1-7-4.

11. In the Hyderabad Assigned Districts the number of documents registered rose from 32,140 in 1892-93 to 35,598 in 1895-96; in the intervening years it was 36,148 in 1893-94 and 36,084 in 1894-95. The number of documents relating to immoveable property has steadily increased, while the number of registrations affecting moveables has remained almost stationary. The aggregate value of property transferred, which was a little above 98 lakhs in 1892-93, amounted to about 121½ lakhs in 1895-96.

The income of the Department has risen from Rs. 78,846 in 1892-93 to Rs. 89,787 in 1895-96. The expenditure has grown from Rs. 48,833 to Rs. 52,757. The cost and the net receipts per document registered amounted in 1895-96 to Rs. 1-7-9 and Rs. 1-0-8, respectively, as compared with Rs. 1-8-4 and Re. 0-14-1 in 1892-93.

In Secunderabad, the documents registered during the years 1894-95 and 1895-96 amounted to 1,096 and 1,092 respectively. The receipts during those two years amounted to Rs. 3,533 and Rs. 3,768 and the expenditure to Rs. 1,287 and Rs. 1,408.

12. A comparative view of the various Provinces shows that in Madras there were 419 registration offices at the end of 1895-96, all of which were under special officers excepting 15 stations where, owing to paucity of registrations, the work was entrusted to Revenue officers as *ex officio* Sub-Registrars. In the Madras Presidency there is now one registration office for every 179 miles of assessed or arable area and for every 81,948 of the population. In Bombay at the close of 1895-96 there were 26 registry and 223 sub-registry offices; all of the latter save 16 were in charge of special or full-time men. The number of offices open in Bengal in 1895-96 was 397. Two Inspectors are entertained, and there are 43 special Sub-Registrars, each of whom performs a certain number of inspections. In the North-Western Provinces and Oudh the total number of registration offices of all kinds open in 1895-96 was 289. During the triennium, departmental had largely been substituted for *ex officio* Sub-Registrars. There were in 1895-96, 29 *ex officio* Registrars, 54 *ex officio* Sub-Registrars, and 210 departmental Sub-Registrars. Proposals for appointing special Registration Inspectors such as exist in Bengal are under consideration. In the Punjab there were at the end of 1895-96, 283 offices, *vis.*, Registrars 31, *ex officio* Sub-Registrars 59, *ex officio* Joint Sub-Registrars 83, Non-official Sub-Registrars 86, and Non-official Joint Sub-Registrars 24. In the Central Provinces there were 18 Registrars *ex officio* (the Senior Assistant or Extra Assistant Commissioner being as a rule in every District the District Registrar). There were 35 *ex officio* Sub-Registrars, 12 of them being Schoolmasters and 23 Tahsildars, etc., and 36 special Sub-Registrars, 2 being unsalaried. Special Sub-Registrars are being gradually substituted for executive Revenue officials. In Lower Burma there were 115 offices open at the end of 1895-96, and 29 in Upper Burma. There was no change in the number of registration offices in Assam during the triennium—the total number open being 25—an increase in the number of rural sub-registry offices has been under consideration. In the Hyderabad Assigned Districts the following were the number of offices open in 1895-96: District Registrars 6, salaried Sub-Registrars 46, Tahsildars or *ex officio* Sub-Registrars 2, Honorary Magistrate Sub-Registrar 1, rural Sub-Registrars 13: total number of offices 68. There is 1 Sub-Registrar's office to every 285·77 square miles and 46,734 of the population: excluding the Melghat, the figures are 263·53 and 46,729.

13. In the Madras Presidency the percentage in 1895-96 of documents registered on the day of presentation and following days was as follows: Registered on the day of presentation 60·1; on the second day 29·1; on the third day 5·1; afterwards but within a week 4·5; after a week from presentation 1·2. Corresponding information is not given in most Provincial reports, but in Assam it is stated that the maximum average delay allowed in any office is 4 days, and that this was only slightly exceeded in a single office in 1895-96; in most offices registration is carried out within two days. In Coorg the time occupied in completing the registration of documents is stated to have ranged between 4 hours and one day. In the Hyderabad Assigned Districts in 1895-96, 31,253 documents (or 92 per cent.) were registered on the day of presentation, 1,205 on the next day, 864 within a week, and 620 after one week.

14. The number of appeals presented to District Registrars in Madras during the triennium was 1,262, *viz.*, 454 in 1893-94, 409 in 1894-95, and 399 in 1895-96. In Bombay the number of appeals or applications arising out of 600 refusals to register during the year 1895-96 was 101. In Bengal in 1895-96 registration was, on appeal, ordered and refused in 337 and 237 cases respectively. In the North-Western Provinces and Oudh, out of 2,290 refusals in 1895-96, 484 were appealed and 309 appeals were successful: it is stated that the variations in the figures from year to year are not large. In the Punjab the number of registrations ordered on appeal in 1893-94, 1894-95, and 1895-96 were 169, 139, and 128 respectively, the number of appeals rejected being 83, 73, and 88. In the Central Provinces in 1895-96 there were 338 refusals to register and 94 appeals against refusals: registration was ordered in 76 cases, but the Inspector General points out that in many of these the original refusal to register may have been justified by the absence of an executant. In Lower Burma there were 82 refusals to register in 1895-96, and only 8 appeals, in 7 of which registration was ordered. In Assam in 1895-96, out of 585 refusals to register by Sub-Registrars, appeals were preferred in 110 cases, and in 84 registration was ordered. In Berar there were 232 refusals in 1895-96, being in the proportion of 68 to 10,000 documents registered; 27 appeals were presented, and in 21 of these cases registration was ordered.

15. The causes to which the various Governments attribute an increase or decrease of registration generally may be briefly noticed. The Government of Madras, while thinking that the great increase in that Presidency in perpetual leases and in long leases of higher values perhaps indicates that land is becoming a more favourite form of investment, notice that the number of registrations is usually less in a good agricultural season and more in a bad one. In the Bombay Presidency—apart from the decline in optional and increase in compulsory registrations due to the application in 1893 of the provisions of the Transfer of Property Act to the greater portion of the Presidency—an increase in registrations is in some cases attributed to an unusually large number of marriages, in others to bad harvest: while a decline is ascribed to a favourable agricultural year, or to the cultivating class availing themselves of the advantages afforded by the Agriculturists' Loans and Land Improvement Acts. In Bengal also a decline in registrations is ascribed, generally, to better harvests: the Inspector General states that indirectly the Bengal Tenancy Act has had a considerable effect in increasing the number of registrations. In the North-Western Provinces and Oudh the rapid increase which took place in number of registrations is attributed to the indifferent harvests and consequent agricultural depression. The Inspector General of Registration, Punjab, considers that the cause of permanent and gradual increase in registration business is that the money-lending classes are learning to rely more and more on written deeds for evidence of their transactions, in preference to oral contract, but that sudden increases or decreases are to be referred to a disastrous or prosperous agricultural season. In the Central Provinces, where the average annual number of registrations was 35,325, against 29,652 in the preceding triennial period, the increase is ascribed partly to the opening-up of the more backward parts of the Province, and partly to the special stimulus given by the bad seasons of the last three years. In Lower Burma the total number of registrations decreased considerably: it is stated that the market value of land was reduced by several causes, and that this resulted in a decrease in the number of documents relating to transfers of immoveable property. In Upper Burma an increase resulted from the orders making the registration of most assurances relating to immoveable property compulsory from January 1896. In Assam an increase partly resulted from orders

reducing the minimum fee on the registration of a document. The Inspector General ascribes a decrease in registration in Cachar to the increased prosperity of the people. It appears from the above summary that the principal cause to which all authorities ascribe an increase in registrations, as between year and year, is a bad harvest, while conversely a good one produces a decrease in registrations.

16. The system of identification by finger-prints has been introduced in 96 registration offices in Madras. The executants of documents are required to affix impressions of their right thumb to the documents and to a register in the office. In Bombay the system had not been adopted during the triennium, but the Inspector General states that he is strongly disposed to believe in its efficacy and intends to recommend its introduction, on a limited scale at first. In Bengal the system has been generally introduced, and all District Registrars are unanimous in reporting that it is a great safeguard in ensuring correct registration. Evidence leading to conviction of false personation has been provided by means of it in several cases. The introduction of the system is under consideration in the North-Western Provinces and Oudh, where it is reported that during the triennial period the result of prosecutions was extremely unsatisfactory. In the Punjab it is stated that the system of identification by thumb-prints has been successfully introduced in the Jullundur and Ludhiana Districts, and will shortly be experimentally introduced in all offices. No prosecutions are mentioned in the Central Provinces and Burma, and in Burma the system of identification by finger-prints has not yet been brought into use. It is also not mentioned in the Assam Report, though there were several prosecutions for false personation during 1895-96 and no conviction is reported. It appears to the Governor-General in Council that this method of identification may, when its use has become more general, be expected to afford a powerful protection against fraud.

17. There has, as the figures summarized above show, been an increase during the triennial period in the total number of documents in India, but it has not been progressive. The number of documents registered in 1895-96 (2,678,704), though smaller than in 1894-95 when it reached 2,712,157, was in excess of that in 1892-93 (2,597,477). The increase in the number in 1895-96 as compared with 1892-93 was common to all provinces except Madras and Lower Burma. The receipts of the Department fell from Rs. 42,92,960 in 1892-93 to Rs. 42,36,412 in 1895-96; in the intermediate years they amounted to Rs. 41,58,460 in 1893-94 and Rs. 41,74,619 in 1894-95. The expenditure of the Department gradually rose from Rs. 23,02,831 in 1892-93 to Rs. 26,11,267 in 1895-96. The percentage of expenditure to receipts rose steadily from 53·6 in 1892-93 to 61·6 in 1895-96.

The Governor-General in Council agrees with the Local Governments and Administrations in considering that the working of the Registration Department during the triennial period under review has been on the whole satisfactory, although the rise in the number of operations has not been large. The attention of the Government of Burma has already been given to the decline in the number of registrations in Lower Burma, a result which, if it is really due to the diminution of transactions regarding the transfer of land, affords cause for satisfaction. The steady decline in the receipts of the Registration Department in Bengal, accompanied, as it has been, by an increase in the expenditure, calls for attention, but the net surplus is still large. The percentage of expenditure to receipts has now become very high in the Madras Presidency.

ORDER.—Ordered, that a copy of the Resolution be forwarded to the

Madras.
Bombay.
Bengal.
N. W. P. and Oudh.
Punjab.

Burma.
Central Provinces.
Assam.
Coorg.
Hyderabad.

Local Governments and Administrations marginally noted, and to the Finance and Foreign Departments and the Department of Revenue and Agriculture for information,

and that the Resolution be published in the *Gazette of India*.

[TRUE EXTRACT.]

J. P. HEWETT,

Secretary to the Government of India.

GOVERNMENT OF INDIA.

DEPARTMENT OF REVENUE AND AGRICULTURE.

Weather Review of India for the Week ending at 8 a.m. on Saturday, June 5th, 1897.

Ordinary hot weather conditions have prevailed over the greater part of India during the week under review. These conditions have been accompanied with the usual thunderstorms and rainfall in the north-east and south of India, and the only region, where there has occurred a marked divergence from the usual weather conditions at the end of May and beginning of June, is North-West India. On the first day of the week pressure was steady, and the usual hot weather depression existed over Sind, but on the 31st the barometer rose quickly in the Indus Valley, and the depression was transferred suddenly to the South-East Punjab. This change was accompanied with very unsettled weather over the North-West Himalayas, where rain fell on the outer ranges and snow on the higher elevations. These conditions continued up to June 3rd, when the sky cleared and a northerly wind from the snows set in and reduced temperature over North-West India. In the Punjab this cooling effect was very strongly marked, and on the afternoon of the 3rd the only station in the Punjab, which recorded a maximum temperature of over 100°, was Delhi. In the north-east of India and the south of the Peninsula thunderstorms and showers continued throughout the week, though the amount and extent of the rainfall varied considerably from day to day.

Daily Summary.—*Sunday, May 30th.*—Pressure was steady generally, and readings ranged from 29·83 inches in the west of the Peninsula to 29·49 inches at Jacobabad. The wind was southerly over the Bay, easterly over Northern India and generally westerly elsewhere. At Colombo the wind was from south-west and the force moderate. The mean temperature was low over Assam and parts of Burma, Bengal and Madras, but was excessive generally. In Upper and Central India the abnormal excess was between 5° and 7°. Thunderstorms had given light to moderate rain over Bengal and Assam as well as in Mysore, Coorg and Malabar.

Monday, May 31st.—Pressure had increased briskly to rapidly over the Indus Valley and decreased slightly over the east of the Punjab. The low pressure area had been transferred eastward to the neighbourhood of Ludhiana, but this was the only change of importance. The winds were feebly cyclonic over the Punjab, but were little changed in other parts of the country. Temperature had fallen somewhat, but the general conditions relatively to the normal were little altered, except that the heat had fallen below the average in the north of the Punjab. The weather had become feebly unsettled near the depression area, and showers were falling over the North-West Himalayas and the submontane districts of the Punjab. Thunderstorms had continued to give showers to North-East India and the south-west of the Peninsula.

Tuesday, June 1st.—The barometer had fallen briskly over West Bengal and the east of the North-West Provinces, and the lowest pressure had been transferred to that area, while a high pressure area was appearing over the north of the Punjab. The barometer read higher than usual, except within the depression area. The winds were about normal in direction, but were above the average force both at the head of the Bay and at Colombo. The mean temperature, compared with the average, was low over Assam and the adjacent parts of Burma and of Bengal, over the Punjab and over the south of the Peninsula. Light showers had occurred at several stations both on the plains and hills of North-West India, while rain had been general over Assam and Burma and had fallen at a few stations in Bengal and Malabar.

Wednesday, June 2nd.—Pressure had increased very generally, but more particularly over Bengal. A small local depression had appeared over Sind, while the depression over West Bengal, etc., had largely filled up. The winds were unchanged, but the force was remarkably low along the Arabian Sea coasts.

Temperature was very low relatively to the normal over North-East and North-West India and excessive elsewhere. Showers had occurred over Burma, Bengal and Assam and also over the North-West Himalayas and the Punjab, while thunderstorms had occurred at the Malabar Coast stations.

Thursday, June 3rd.—Pressure was high over the Punjab and over the south of the Indian region, low in the intervening region, with shallow depressions over the Western desert and over the Gangetic Plain. Pressure exceeded the normal, except in the south. The winds were variable in the north, between west and north over the Peninsula and southerly around the north of the Bay and in Lower Bengal. The mean temperature was very low in the Punjab and slightly below the normal in Assam and part of Madras. Scattered showers had been received over North-East India, fairly general light to moderate rain over North-West India and showers over the northern half of Madras.

Friday, June 4th.—The barometer had fallen over the Peninsula and been steady elsewhere. The barometer read above the normal in the north and below in the south, so that readings were more uniform than usual. The winds were southerly over the Bay area and variable elsewhere. The mean temperature was low over North-West India, Assam and the Madras Coast districts. Scattered showers had been received over Burma, Assam, the North-West Himalayas and the south-west of the Peninsula.

Saturday, June 5th.—Pressure had decreased over the west of the Peninsula and increased elsewhere. Moderate gradients existed over the Bay area and very uniform pressures elsewhere. Pressure was in large excess of the normal, except over the west and south of the Peninsula. The winds were variable, except over the Bay, where they blew steadily from south. The mean temperature remained low over the same areas as on the 4th. Moderate rain had fallen over the south-west of the Indian region, and a few light local showers had been received over North-East India.

Temperature.—Unusually hot weather has prevailed during the week under review all over the central parts of the Indian region. In North-East India, where a series of thunderstorms has given almost daily moderate rain, temperature has been low over Assam and parts of Bengal and of Burma during the week, while the unsettled rainy weather which prevailed from the 31st May to the 3rd of June, and the subsequent cool winds which blew out from the North-West Himalayas produced a large reduction of temperature over the Punjab and neighbouring districts. In the coast districts of Madras, where thundershowers were received during the latter parts of the week, there was also some local depression of temperature. The abnormally hottest region was the Central Provinces, where, on some days and at some stations, the abnormal excess was between 8° and 10°.

The following table gives temperature data for the week :

PROVINCE.	MAY 1897.		JUNE 1897.					Mean variation of week.
	30th	31st	1st	2nd	3rd	4th	5th	
	o	o	o	o	o	o	o	o
Burma	+0'4	+1'3	+0'8	+1'5	+2'3	+3'2	+4'9	+1'9

Madras	+1'2	+1'4	+1'4	+2'5	+1'7	+1'1	+1'6	+1'6
Mean for whole of India	+3'6	+2'6	+1'9	+1'5	+0'7	+1'2	+2'0	+1'9

The mean temperature of the whole country was excessive on each day, and the mean temperature of every province, except the Punjab, averaged above the normal on each day of the week. In the Punjab the mean, which, on the 30th May had been $6\frac{1}{2}^{\circ}$ above the normal, fell to $2^{\circ}7$ below on the 1st of June and to $10^{\circ}1$ below on the 3rd, after which a slow recovery set in, and the abnormal defect was $5^{\circ}7$ on the last day of the week.

The following are the highest maximum temperatures recorded on each day :

May 30th	116°6	at Jacobabad.
" 31st	116°8	" Lucknow.
June 1st	114°7	" Nagpur and Jhansi.
" 2nd	114°7	" Jhansi.
" 3rd	112°2	" Chanda.
" 4th	114°4	" Bickaneer.
" 5th	114°2	" Allahabad.

Rain.—The most important feature in the weather of the week under review has been the absence of any advance of monsoon winds and the continuance in a strong accentuated form of hot weather conditions with their usual accompaniment of heavy local thunderstorms and showers. The 5th of June, which is the last day included in the present return, is the date on which the monsoon is ordinarily supposed to commence on the Bombay Coast, but up to that date the current had not appeared even as far south as Ceylon. As a consequence the areas which ordinarily receive monsoon rainfall, *viz.*, the west and south-west of the Peninsula and Burma have received less rain than usual. On the other hand, the storm rainfall which ordinarily ceases about the time of the setting in of the monsoon was unusually heavy, thus the Punjab, East and North Bengal, Assam, Chota Nagpur, Mysore, Coorg and the Madras Coast districts all had more frequent and more severe storms than usual, and the rainfall over these regions was heavier than the average. The storm over the Punjab was important, not only for the extra rainfall which it gave to a large part of the Punjab plains, but still more for the fall of snow which occurred on the higher elevations of the Himalayas, a fall which exercised an important effect in modifying the pressure and temperature conditions over North-West India. In Assam, East and North Bengal and Chota Nagpur the storms were of daily occurrence and rain fell in each day, in the Punjab the rainfall occurred generally between June 1st and 3rd, in Malabar daily and in Mysore and the Madras Presidency generally on May 30th or June 5th. The concluding table shows that rain fell in appreciable amount during the week under review in forty of the rainfall divisions, while seventeen had either no rain whatever, or only a trifling fall. The regions, with actually or practically no rain, included the following divisions :—the North-West Provinces (East, Central, West and East Submontane), Oudh (South), the Punjab (South-East), Khandesh, Berar, the Central Provinces (West and Central), Gujarat, Kathiawar, Sind, Baluchistan, Central India, Rajputana (East) and Hyderabad (South). In all other parts of the Indian region, as mentioned above, appreciable rain fell. In Assam (Surma) the average actual rainfall averaged over 12 inches, in the Assam (Hills) over 8 inches, in North Bengal over 4 inches, in Arakan, Assam (Brahmaputra) and Coorg over 3 inches and in Tenasserim, East Bengal and Malabar over 2 inches, while in North Oudh and West Rajputana the fall averaged only 0·11 inch and in the South Punjab 0·13 inch. The actual average fall was in excess of the normal in nineteen of the rainfall divisions. In the case of Assam (Surma) the abnormal excess was as much as 6·61 inches, in the Assam (Hills) 2·76 inches and in the North Punjab 1·61 inches, but elsewhere the excess was only small. The deficiency was large over Burma, the Bengal Hills, Malabar, the Konkan and Hyderabad (South), but elsewhere it was more or less unimportant.

The three concluding columns give the same information as the first three columns. The percentage statement shows that the rainfall relatively to the normal was heaviest in the Punjab and rather heavy in parts of Assam, of Chota Nagpur and of Mysore.

The following are the principal large totals recorded this week :

Burma	.	.	.	Kyaikto (Thatôn)	.	.	.	9'46 inches.
				Sagaing	.	.	.	4'91 "
				Sadoway	.	.	.	5'02 "

W. L. DALLAS,

Asst. Meteorological Reporter to the

Government of India.

DENZIL IBBETSON,

Secretary to the Government of India.

SIMLA, 10th June, 1897.

GOVERNMENT OF INDIA.

DEPARTMENT OF REVENUE AND AGRICULTURE.

Weekly Report on the state of the Season and Prospects of the Crops.

Madras.—*For week ending 5th June.*—Rainfall generally normal, except in Ganjam, Tanjore, South Canara, and Travancore, where it is deficient. Water-supply for drinking purposes is generally insufficient in affected areas, except in Vizagapatam; elsewhere it is generally sufficient, but low in parts; for irrigation it is generally insufficient. Commencement of agricultural operations general. Standing crops thriving generally, but are failing in parts. Harvests yield a limited outturn, generally middling. Pasture *nil* in the Deccan, but forest reserves have been thrown open generally; sufficient in Vizagapatam and in the extreme south; elsewhere it is growing scarce in parts. Fodder is insufficient in the Deccan; elsewhere available, but is growing scarce. Cattle are deteriorating in the Deccan, elsewhere are generally in normal condition. Prices have risen sharply in Ganjam and Vizagapatam; slightly elsewhere. The numbers on relief are:—relief workers—95,928 men, 173,207 women, 66,578 children; total 335,713 in the Deccan and Circars. Test-workers—847 men, 1,305 women, 654 children in Ganjam, Vizagapatam, and Cuddapah, *plus* 430 unspecified in Bhadrachalam; total 3,256. Weavers—11,901 men, 10,508 women, 1,346 children; total 23,755 relieved at their own trade in the Deccan and Ganjam. Total relief workers 362,724. Kitchen inmates in the Deccan and Circars: (dependants)—284 men, 413 women, 14,831 children; total 15,528. (Others)—2,071 men, 4,129 women, 10,320 children; total 16,520. Otherwise gratuitously relieved—8,587 men, 21,214 women, 21,108 children, 3,480 unspecified; total 54,389. Total on gratuitous relief 86,437. Grand total on Government relief 440,61. Also 1,100 fed in private kitchens under Government management in Vizagapatam. Prices by which wages are regulated are:—Ganjam 10, Bellary and Kurnool $11\frac{1}{2}$, Cuddapah, Vizagapatam, and Bhadrachalam $12\frac{1}{2}$, and Anantapur 14 seers per rupee. Loans disbursed since the commencement of distress Rs. 6,63,274.

Bombay.—*For week ending 7th June.*—Rain throughout Dharwar, Kanara, Poona, except in two talukas, Belgaum, except in one, in eight talukas of Satara and Bijapur, in three of Sholapur and Shikarpur, in one of Hyderabad, Kolaba, and Ratnagiri. Harvesting of late crops completed, except in Hyderabad, Upper Sind Frontier, and Thar and Parkar. Preparations for next season commenced generally. Sowing operations begun in Karachi, Kolaba, Ratnagiri, Satara, Belgaum, Dharwar, and Kanara. Fodder is sufficient, except in the Deccan, Shikarpur, and in parts of Karachi, Baroda, and Kolaba. Condition of agricultural stock is deteriorating in Poona, Ahmednagar, Sholapur, and Bijapur; healthy elsewhere, except in parts of Shikarpur, Upper Sind Frontier, Thar and Parkar, Ratnagiri, and Kanara. Prices are rising in parts of Surat, Kolaba, Sholapur, and Bijapur; falling in parts of Hyderabad and Kolaba; stationary in Panch Mahals and in parts of Surat, Sholapur, and Bijapur. Prices in affected districts are:—Belgaum $10\frac{1}{2}$, Bijapur $9\frac{7}{8}$, Sholapur $9\frac{1}{2}$, Ahmednagar $9\frac{3}{4}$, Poona $9\frac{1}{2}$, Nasik 9, Satara $8\frac{7}{10}$, Khandesh $8\frac{1}{4}$, and Dharwar 11 seers per rupee. The average daily number on relief works, including dependants, was:—Bijapur 52,153, Sholapur 111,087, Ahmednagar 64,233, Poona 24,171, Nasik 22,623, Satara 10,234, Khandesh 24,169, Belgaum 10,294, and Dharwar 331. On test works—Belgaum 492, Dharwar 229, and Ratnagiri 382; total 3,039, of whom 254,296 are workers and 66,102 dependants. On gratuitous relief—Bijapur 11,658, including 281 in poor-houses, Sholapur 7,838, including 76 in poor-houses, Ahmednagar 6,514, including 235 in poor-houses, Poona 8,351, Nasik 664, Satara 211, Belgaum 636, Dharwar 898; total 36,770. Total number on relief 357,168.

Bengal.—*For week ending 7th June.*—There was rain in almost all districts during the week. More rain is required in several parts, but generally the present agricultural prospects are favourable. Ploughing and sowing are every-

where proceeding. Early rice and jute are for the most part sown, and the sowing of late rice is going on. Spring rice is almost all gathered in and *til* oil-seeds and millets are being harvested. Sugarcane and indigo are in good condition. The price of rice is still reported to be rising in places. In the distressed districts the prices of the staple food-grain on which the famine wage is based are:—Bankura, common rice 8 to 9½ seers; Nadia, common rice 7½ seers; Murshidabad, common rice 8½ seers; Khulna, common rice 8½ seers; Rajshahi, common rice 7½ seers; Pubna, rice 7 to 8 seers; Shahabad, rice 8 seers and pea 10½ seers; Saran, barley 11 seers and Champaran 9½ seers; Muzaffarpur, barley 11½ seers; and *rahar* (*Cajanus indicus*) 11½ seers; Darbhanga, common rice 7½ seers and *makai* (indian-corn) 9 seers; Bhagalpur, common rice 8 to 9 seers; Sonthal Parganas, rice 7½ to 8 seers; Puri, common rice 10 to 12 seers; Hazaribagh, rice 6½ to 9 seers; Palamau, rice 8 seers; and Manbhum, common rice 7½ seers per rupee. The numbers on relief on Saturday, the 5th June, were:—Bankura 5,197, Nadia 51,807, Murshidabad 6,651, Khulna 11,347, Rajshahi 275, Pubna 444, Patna 140, Shahabad 32,711, Saran 77,709, Champaran 191,444, Muzaffarpur 133,652, Darbhanga 252,629, Bhagalpur 4,384, Sonthal Parganas 6,187, Puri 3,686, Hazaribagh 8,525, Palamau 5,654, and Manbhum 13,043; total 845,485 against 833,447 in the preceding week. This total is distributed as follows:—relief workers—men 174,467, women 147,306, children 51,396; total 373,169. Dependents—men 2,741, women 240, children 37,790; total 40,771. In poor-houses and kitchens—men 1,938, women 1,851, children 5,936; total 9,725. Otherwise relieved—men 67,113, women 216,333, children 127,291; total 410,737. Test-workers—men 6,729, women 3,226, children 1,208; total 11,083. Private relief—Darbhanga Raj—in Darbhanga and Muzaffarpur—men 9,196, women 4,469, children 1,181; total 14,846. Hatwa—in Saran—men 791, women 1,558, children 1,032; total 3,381. Jamtara—in Sonthal Parganas—men 927, women 822, children 89; total 1,838. Deoghur—in Sonthal Parganas—men 531, women 299, children 114; total 944. Gratuitous relief—Darbhanga Raj—in Darbhanga and Muzaffarpur—men 3,694, women 11,303, children 11,197; total 26,194. Hatwa—in Saran—men 137, women 189, children 731; total 1,057. Manjha—in Saran—men 62, women 17, children 8; total 87. Hazaribagh—Giridih—men 271, women 185, children 183; total 639. Total on private relief 48,986.

North-Western Provinces and Oudh.—*For week ending 9th June.*—Light rain fell in many districts; in Dehra Dun over one inch was recorded. Preparations for the autumn crops continue. Irrigation being carried on in places. Extra crops doing well. The numbers in receipt of relief on Saturday, the 5th June, in eighteen districts officially recognised as distressed were as follows:—Agra 27,648, Etawah 6,353, Cawnpore 12,311, Fatehpur 17,692, Banda 298,767, Hamirpur 118,904, Allahabad 328,970, Jhansi 92,766, Jalaun 122,163, Mirzapur 54,429, Family domains, Maharajah of Benares, 14,992, Jaunpur 39,267, Gorakhpur 29,327, Azamgarh 19,675, Lucknow 57,474, Unao 40,124, Rae Bareilly 37,251, Sitapur 5,425, Hardoi 152,264; total 1,475,802. This total is distributed as follows among the various methods of relief prescribed by the Famine Code which are in operation:—employed on relief works—948,719; relieved as dependents—180,682; relieved in poor-houses—29,257; relieved under other provisions of the Famine Code, including 46,780 from Charitable Relief Fund, 317,144; total 1,475,802. The numbers relieved in nineteen districts which are under observation and not officially recognised as distressed were on the same date as follows:—relieved on test works—24,360; relieved in poor-houses—5,529; relieved under other provisions of the Famine Code, including 13,278 from Charitable Relief Fund, 38,676; total 68,565. The grand total in receipt of relief on the last day of the week was therefore 1,544,367. Supplies are generally sufficient. Fodder is somewhat scarce in places. Water is getting short in Banda and in parts of Allahabad and Hamirpur. The price of the staple grain on which the famine wages is based varied from 9½ to 12 seers in the districts officially recognised as distressed. The numbers shown as relieved from the Famine Charitable Relief Fund represent the operations of the fund so far only as they are carried out through official agency.

Punjab.—*For week ending 7th June.*—Rain averaging about two inches has fallen in Rawal Pindi; $\frac{1}{2}$ of an inch in Dera Ismail Khan; $\frac{1}{2}$ in Sialkot and Gujranwala; $\frac{1}{2}$ in Gurgaon; $\frac{1}{2}$ in Ferozepore; and $\frac{1}{2}$ in Hissar, Amritsar, and Peshawar. There has also been a fall of $\frac{1}{10}$ of an inch in parts of Rohtak and Karnal; a slight drizzle is reported from Jullundur, Mooltan, Lahore, and Shahpur districts. The harvesting of spring crops is nearly over. Ploughings and sowings of autumn crops are in progress. Weeding of cotton and sugarcane is going on. More rain is needed. Outturn of spring crops is generally reported good to average on lands irrigated by canals and wells and below average to poor on inundated lands and those dependent on rain. Prospects of standing crops are reported good to average. Water is said to be insufficient in Umballa. Grain is being imported from other parts of the Punjab, into Hissar, where the stocks have run short. Young locusts are still being destroyed in Dera Ismail Khan. Condition of cattle is generally poor for want of green fodder; it has improved slightly in some districts, where new straw is freely obtainable; the cattle are dying from hunger in Hissar and Rohtak. Fodder is still scarce, though new straw is obtainable in most districts, especially in the irrigated tracts. The average number of relief workers, dependants, etc., was as follows:—relief workers—29,273 men, 26,744 women, 12,863 children. Dependants—154 men, 204 women, 14,272 children. Relieved in poor-houses—532 men, 711 women, 534 children. Otherwise relieved—3,909 men, 6,148 women, 3,567 children. Test-workers—33 men. The total number of relief workers, dependants, etc., in the Punjab was 98,944 against 96,366 last week; of these 72,000 or 5,000 more than last week were in Hissar. There is a decrease in almost all other districts. Prices are generally high; they have risen again in Gurgaon, Delhi, Jullundur, Ferozepore, and Rawal Pindi and fallen slightly in Amritsar and Sialkot; the figures are unchanged in other districts; wheat is selling from $10\frac{1}{2}$ to $13\frac{1}{2}$, barley $13\frac{1}{2}$ to $14\frac{1}{2}$, great millet 9 to $10\frac{1}{2}$, gram $10\frac{1}{2}$ to $12\frac{1}{2}$, bulrush-millet $7\frac{1}{2}$ to 10, maize 7 to 13, and rice 7 to $7\frac{1}{2}$ seers per rupee. Prices of staple food-grain on which the famine wage is reckoned are:—Hissar—North Ghaggar, barley flour $10\frac{1}{2}$; South Ghaggar, great millet flour $9\frac{1}{2}$; Bir Ditch, barley flour $9\frac{1}{2}$, and Ramgoi, barley 11; Rohtak, gram 10 and barley $13\frac{1}{2}$; Delhi, wheat $10\frac{1}{2}$; Karnal, wheat flour 10 and barley flour $11\frac{1}{2}$; Umballa, maize 11; Ferozepore, barley and gram $11\frac{1}{2}$; and Gujrat, wheat and barley flour $13\frac{1}{2}$ seers per rupee.

Central Provinces.—*For week ending 7th June.*—Weather very hot, cloudy, and unsettled; high winds generally prevail. Slight showers of rain in five districts, but Nagpur and Bilaspur received amounts exceeding half an inch. The preparation for summer sowings continues, and some land is being sown in Bhandara and Chhattisgarh. Sugarcane is suffering from the great heat and want of sufficient moisture. Scarcity of fodder and water is being experienced in parts of thirteen districts. Cattle are falling into a low condition in Mandla and Hoshangabad. Prices have risen again almost everywhere. The total numbers on relief works have contracted by 23,000, the decrease being shared by most districts except Chhindwara and Bhandara. Various reasons assigned are the prevalence of cholera, the introduction of piece work system, while in Jubbulpore agriculturists are returning to their fields. The total number on gratuitous relief has hardly varied. The numbers employed on private works have decreased by 25,000; the fall occurring mainly in Chanda, Raipur, and Bilaspur. Numbers on relief works were:—Saugor 37,778, Damoh 33,226, Jubbulpore 44,431, Mandla 23,998, Seoni 11,453, Narsinghpur 41,977, Hoshangabad 48,408, Nimar 302, Betul 15,341, Chhindwara 14,248, Wardha 7,076, Nagpur 14,020, Chanda 119, Bhandara 30,879, Balaghat 41,310, Raipur 74,639, Bilaspur 31,573, and Sambalpur 1,241; total 472,019. Numbers on gratuitous relief:—Saugor 19,783, Damoh 17,751, Jubbulpore 29,745, Mandla 8,451, Seoni 4,254, Narsinghpur 9,919, Hoshangabad 10,209, Nimar 616, Betul 4,800, Chhindwara 3,992, Wardha 39, Nagpur 2,760, Bhandara 10,495, Balaghat 19,550, Raipur 27,712, Bilaspur 30,561, and Sambalpur 426; total 201,063. Total number on relief 673,082. There were also 157,902 persons employed on railway and other private works. Details of relief workers:—men 142,003, women 212,951, and children 117,060. Dependants—men 2,781, women 4,470, and children 74,394 with 4,406 unclassified.

Poor-houses—men 7,528, women 8,050, and children 10,773. Otherwise relieved—men 13,228, women 24,355, and children 23,986 with 27,092 unclassified. Wage prices—Chanda 11, Wardha and Bilaspur 10, Jabulpore 9½, Nagpur and Sambalpur 9¼, Damoh, Seoni, Narsinghpore, Nimar, Chhindwara, and Raipur 9, Hoshangabad and Bhandara 8¾, Saugor and Betul 8, Mandla and Balaghat 7½ seers per rupee.

Burma.—*For week ending 5th June.*—In Lower Burma ploughing has commenced in Thaton and is now in progress in seven districts. In Upper Burma good rain has fallen during the week in Mandalay, Shwebo, Sagaing, Lower Chindwin, Thayetmyo, Meiktila, Yamethin, and Myingyan and cultivation of sesamum, cotton, and other early wet weather crops is progressing satisfactorily. No rain fell in Magwe, and only small amounts in Pakokku and Minbu. In parts of Yamethin nurseries are being sown. The price of paddy has risen largely in Tharrawaddy; considerably in Pegu, Thongwa, Bassein, Amherst, Tavoy, and Toungoo, and slightly in Akyab, Henzada, Thaton, Mandalay, and Thayetmyo; elsewhere stationary. Numbers on relief works—Meiktila 4,623 and Myingyan 7,841. On gratuitous relief—Meiktila 843, Myingyan 1,944, and Yamethin 365. Total number on relief 15,616. Price of rice—Meiktila 8 seers 12 chittacks and Myingyan 10 seers 4 chittacks per rupee.

Assam.—*For week ending 8th June.*—Weather seasonable. Some damage has been done to jute and early rice crops by excessive rain in Goalpara. Prospects of early rice elsewhere good. Sowing of late rice nurseries has commenced in Assam Valley. Planting of sugarcane continues. Tea promises well. Prices—common rice—Silchar and Sylhet 7½, Gauhati 7, and Tezpur and Sibsagar 8 seers per rupee.

Mysore and Coorg.—*For week ending 7th June.*—**MYSORE.**—Four inches 94 cents in Civil and Military station and good rain in parts. Standing crops are in fair condition. Prices have fallen in Bangalore, Mysore, Chitaldroog, and Shimoga; slightly risen in Kolar. Paddy has been harvested in parts of Chitaldroog; sown in Shimoga.

COORG.—Rain 4 inches 4 cents. Ploughing for rice continues. Coffee berries are swelling. Prices of food-grains are normal. Water and fodder for cattle are sufficient.

Berar and Hyderabad.—*For week ending 7th June.*—**BERAR.**—Weather very hot and occasionally cloudy. Breaking up of land for sowing operations is in progress. Fodder and water are scarce in all districts. No material change in high prices of food-grains. Relief workers—Akola 8,097, Amraoti 1,436, Basim 4,623, Buldana 2,686, Ellichpur 2,222, and Wun 6,546. Numbers on gratuitous relief—Akola 1,537, Amraoti 288, and Basim 1,696. Occupants of poor-houses—Akola 518 and Amraoti 649. Total number on relief 30,298. Prices—*jowari*—Akola 10, Amraoti 11, Basim 11, Buldana 10, Ellichpur 8, and Wun 12 seers per rupee.

HYDERABAD.—Slight rainfall reported in all districts during the week but exact fall not reported for certain districts. Fields are under preparation for monsoon crops. Fodder, pasture, and water are scarce. Aggregate number of persons employed on relief works in Bir, Gulburga, Raichur, Lingsagar, Naldrug, and Mahbubnagar 24,024. Prices in affected districts—9 seers per rupee in Lingsagar and Mahbubnagar, 9¼ in Bir and 9½ in Gulburga, Raichur, and Naldrug. 374 persons on gratuitous relief in Lingsagar and 333 children in Bir and 696 in Naldrug. Total number on relief 25,427. Prices—wheat 6¼, coarse rice 7¼, and *jowari* 12½ seers per current sicca rupee.

Central India.—*For week ending 7th June.*—Slight scattered showers in Bhopawar Agency during week. Agricultural operations continue in Bundelkhand; completed in other agencies. Agricultural stock in good condition in Baghelkhand and Malwa; fair in Bhopal and Malwa; indifferent and bad in Bundelkhand and parts of Gwalior. Pasturage good in Baghelkhand; fair in Bhopal and Malwa; bad and indifferent in Bundelkhand, Bhopawar, and parts of Gwalior. Prices are above normal in Baghelkhand, Malwa, and Bhopawar; steady in other agencies. The number of persons employed on relief works were—44,044 in Gwalior, 43,919 in Bundelkhand, and 66,820 in Baghelkhand. On gratuitous relief—13,969 in Gwalior, 5,124 in Bundelkhand, 4,492 in Baghelkhand. Total number on relief 178,368. Prices 10 to 10½ seers per rupee in Gwalior, 9½ to 10½ in Bundelkhand, and 9¼ in Baghelkhand.

Rajputana.—*For week ending 9th June.*—Rainfall 10 cents in Marwar, 4 in Bikanir, and 3 in Ajmere, and showers in five tehsils of Ulwar. Agricultural operations satisfactory in Ajmere, Jeypore, and Jhallawar, and have commenced in Kotah in places. State of crops is fair in Pertabgarh; good in Meywar and Jhallawar. Outturn of harvest is good in Marwar, except gram in Jhallawar; average in Ajmere. Agricultural stock is fair to good, but lean in Bhurtpore. Pasturage or fodder is generally sufficient, but scarce in some tehsils of Jeypore and failing in Dholepore and Bhurtpore. Prices are generally above normal; falling in Jeypore and Marwar; rising in Pertabgarh, Dholepore, Bhurtpore, Jhallawar, and slightly in Serohi; fluctuating in Bikanir. The number of persons on relief works was—in Marwar 6,080, Dholepore 1,801, Bikanir 6,065, Jaisalmer 1,364, on ordinary works in Dholepore 2,579, Bhurtpore 9,006, and Bikanir 482. On gratuitous relief—Marwar 1,312, Bikanir 3,160, Tonk 1,953, Chabra 62, Deoli 8, Bhurtpore 350, and Jaisalmer 266. Total number on relief 22,421. Prices—Marwar $9\frac{9}{16}$, Bikanir $9\frac{1}{4}$ and $8\frac{1}{2}$, Tonk $11\frac{1}{4}$, Deoli 13, Dholepore $10\frac{1}{8}$, Bhurtpore $12\frac{3}{8}$, and Jaisalmer $8\frac{3}{8}$ seers per rupee.

Kashmir.—*For week ending 8th June.*—Rain has fallen. Standing spring crops are in excellent condition. Rice sowings in progress. Prices continue little below normal. Price—22 seers per rupee.

JAMMU PROVINCE.—*For week ending 9th June.*—Slight rain. Prices stationary. Fodder scanty. Price— $9\frac{1}{2}$ seers per rupee.

Nepal.—*For week ending 5th June.*—Weather warm and sultry. Rain is required for rice and indian-corn crops. Price— $7\frac{1}{2}$ seers per rupee.

The total numbers in receipt of relief during the preceding and present weeks are as follows:

THE WEEK ENDING
12 5TH JUNE 1897.

Return of the number of persons in receipt of relief in districts affected by soar

NOTE.—The figures are compiled from the Local Gazettes, and give the District details of the Provincial totals published weekly in the Summary in the *Gazette of India*.

Non-labouring children and other dependants of relief workers are classed as on relief works when distinguished in the figures as gratuitously relieved in poor-houses or at their homes.

(a) Although for convenience classed amongst state railways, this line is the property of the Bengal Central Railway Company. The working of this line has been taken over by the Company from the 1st January 1897.

(b) Includes the Bhopal-Itāri railway.

(c) Total earnings from the 22nd February to the 30th May 1896.

(d) Includes the Godhra-Rutlam-Nāgdā railway.

(e) Includes the Guntakal-Mysore frontier section.

(f) Includes the Tirhoot state railway. Although for convenience classed amongst state railways, the company's section of this line is the property of the Bengal and North-Western Railway Company.

(g) Transferred for working to the Burma Railways Company with effect from the 1st September 1896.

(h) Includes the Jammu and Kashmir and the Hyderabad-Shadi-palli railways

(i) Includes the Wardha Coal, the Dhond-Manmād, the Khāmgaon, and the Amrāoti railways.

(j) Total earnings from the 1st to the 29th May 1897.

(k) Includes the Mysore-Nanjangūd and the Yesvantpur-Mysore frontier sections.

(l) Total earnings from the 8th April to the 29th May 1897.

(m) This line is being worked by the Bombay, Baroda and Central India Railway Company as a temporary measure.

G. A. ANDERSON,

Under Secretary.

SIMLA, the 18th June, 1897.

NO. VIII OF 1897-98.
STATEMENT OF APPROXIMATE GROSS EARNINGS OF INDIAN RAILWAYS.
N.B.—As regards the figures in column Total earnings from 1st April 1897, audited figures have been used as far as possible

INVENTIONS and DESIGNS.

Calcutta, the 10th June 1897.

NOTIFICATIONS.

No. 1730 P.—APPLICATIONS in respect of the undermentioned inventions have been filed, under the provisions of the Inventions and Designs Act of 1888, in the office of the Secretary appointed under that Act during the week ending 5th June 1897:—

- No. 216 of 1897.—Eugen Hornung, gentleman, and Stefan Hansel, manufacturer, both of Vienna, for improvements in the treatment of india-rubber, gutta-percha, and their compositions.
- No. 217 of 1897.—Maria Benno von Donat, merchant, of No. 15 Albrechtstrasse, Berlin, for a new method of preparing albuminous cocoa, chocolate and similar matter.
- No. 218 of 1897.—Vittorio Turati, manufacturer, of Nos. 23 to 29 Via Bramante, Milan, in the kingdom of Italy, for improvements in colour-printing machines.
- No. 219 of 1897.—John Edward Glenister, engineer, of 133 Bow road, in the county of London, for an improved manufacture of night lights and candles.
- No. 220 of 1897.—William Augustus Bailey, a lieutenant in the 36th Sikhs Native Infantry Regiment, and at present cantonment magistrate at Cawnpore, for improvements in portable latrines.
- No. 221 of 1897.—Edward Herbert Stone, civil engineer, Allahabad, for a pneumatic apparatus for use with well foundations.
- No. 222 of 1897.—Aëratators Limited, manufacturers, of Broad street avenue, in the city of London, for improvements in apparatus for aërating liquids.
- No. 223 of 1897.—Thomas George Cuyper, builder and engineering contractor, of Nos. 3 and 4 Metcalfe street, in the town of Calcutta, for an improved manufacture of iron or other metal vessels or bowls known by the natives of India as *karai* and extensively used by them for various purposes.

No. 1731 P.—SPECIFICATIONS of the undermentioned inventions have been filed, under the provisions of the Inventions and Designs Act of 1888, in the office of the Secretary appointed under that Act, and copies have been sent to the Governments of Fort St. George, Bombay and Burma, and the Director of the department of land records and agriculture, North-Western Provinces and Oudh. These and other specifications are open to public inspection, from 11 A.M. to 4 P.M., at the Secretary's office (Imperial Secretariat, Government Place, West, Calcutta), on payment of a fee of one rupee, and a certified copy of any one of them will be supplied on payment of the fixed expenses of copying:—

- No. 249 of 1896.—Peter Donaldson, superintendent of the Presidency jail, Calcutta, for an improved oil mill, to be designated "Donaldson's patent oil mill." (Specification filed 31 May 1897.)
- No. 142 of 1897.—George Filewood Dewdney, engineer of Dumball's road, Cardiff, Glamorganshire, for an improved method of constructing metal chests and tanks. (Specification filed 28 May 1897.)

No. 1732 P.—THE fees prescribed in Schedule 4 of Act V of 1888 have been paid

for the continuance of exclusive privilege in respect of the undermentioned .
for the periods shown against each :—

- No. 121 of 1889.—La Société des Générateurs à vaporisation instantanée, (Système Serpol. engineers, of Paris, for improvements in apparatus for generating steam. (From 6 June 1897 to 6 June 1898.)
- No. 155 of 1891.—The Vacuum Brake Company, Limited, of 32 Queen Victoria street, in the city of London, for improvements in or applicable to automatic vacuum-brake apparatus, having reference more especially to the ejector and brake-controlling mechanism. (From 1 October 1897 to 1 October 1898.)
- No. 107 of 1892.—Jabez Turton, metallurgist, of No. 9 Norfolk street, strand, in the county of London, for a process for extraction of metals from ores and minerals containing them. (From 23 June 1897 to 23 June 1898.)
- No. 129 of 1892.—The Vacuum Brake Company, Limited, of 32 Queen Victoria street, in the city of London, for improvements in or applicable to automatic vacuum brake apparatus. (From 1 August 1897 to 1 August 1898.)
- No. 179 of 1892.—The Vacuum Brake Company, Limited, of 32 Queen Victoria street, in the city of London, for improved means applicable for use in railway trains fitted with pneumatic brakes for enabling passengers to signal the drivers and guards. (From 26 October 1897 to 26 October 1898.)
- No. 303 of 1892.—Charles James Fauvel, assayer and mining engineer, of 15 George street, Mansion house, in the city of London, for an improved furnace and method for the treatment of refractory ores. (From 12 July 1897 to 12 July 1898.)

No. 1733 P.—WHEREAS the inventors of the undermentioned inventions have respectively failed to pay, within the time limited in that behalf by the fourth schedule to the Inventions and Designs Act (V of 1888), the fees hereinafter respectively mentioned, it is hereby notified that under the provisions of section 8, sub-section (2) of the said Act, the exclusive privilege of making, selling and using the said inventions in British India and of authorising others so to do has ceased :—

- No. 32 of 1892.—Frances Joseph Edward Spring, and Harry James Thompson's invention for a pneumatic attachment for foundation sinking. (Specification filed 3 March 1893.)
- No. 162 of 1892.—Henry Donald Rosseter's invention for improvements in gear for use in connection with vanishing targets for rifle practice. (Specification filed 3 March 1893.)
- No. 229 of 1892.—Henry Stainforth's invention for a punkah twitch. (Specification filed 4 March 1893.)
- No. 241 of 1892.—Henry Stainforth's invention for an improved punkah. (Specification filed 4 March 1893.)

Fee in respect of the continuance of an exclusive privilege—

- 4 (a) After the filing of the specification and before the expiration of the fourth year from the date of the filing thereof.

The sum of Rs50 for each of the said inventions.

NOTICES.

All communications relating to Act V (the Inventions and Designs Act) of 1888 should be addressed to the "Secretary to the Government of India, Department of Revenue and Agriculture (PATENTS BRANCH), CALCUTTA."

The office of the Secretary under the Act is open for the transaction of business from 11 A.M. to 4 P.M. on all days except Sundays and gazetted holidays.

The Government of India are advised that as trade marks are not "designs" within the meaning of the Act, they cannot be registered under Part II.

The fees payable under the fourth and sixth schedules are now collected in cash, and applicants are warned that they must be responsible for any delay in cashing cheques.

Copies of the weekly notifications, and of the quarterly lists, of applications and specifications filed in the Secretary's office are now on sale to the public at one anna and eight annas a copy respectively.

Attention is requested to the rules made by the Government on the 10th October, 1895 in regard to the preparation of applications, specifications and drawings.

All applications made under the Inventions and Designs Act, V of 1888, will from this date (December 19th, 1896) lie in the visitors' room of the Patents Office for ten days from the date of the *Gazette of India* in which their filing may have been notified; or, if the tenth day is a holiday, till the evening of the office day next following.

At the time of delivering or sending an application for leave to file a specification, the applicant shall cause a duplicate copy of the application to be delivered or sent therewith to the Secretary.

A. T. PRINGLE,
*Offg. Secy. under the Inventions and
Designs Act, 1888.*

ADMINISTRATOR GENERAL OF BENGAL.

NOTIFICATION.

Calcutta, the 8th June, 1897.

No. 107.—Under section 42 of Act I of 1894 the following is published :—

J. G. H. GLASS,
Secretary.

MEMORANDUM OF AGREEMENT made and entered into this fifteenth day of May one thousand eight hundred and ninety-seven *Between the Bengal Provincial Railway Company Limited* incorporated under the Indian Companies Act 1882 and having its registered office at No. 300 Bow Bazar Street in the town of Calcutta (hereinafter called the Company) of the one part and *the Secretary of State for India in Council* (hereinafter called the Secretary of State) of the other part WHEREAS by order of the Government of Bengal acting in the premises for and on behalf of the Secretary of State published in the *Calcutta Gazette* of the twentieth day of January one thousand eight hundred and ninety-two and being notification No. 14 the Company were empowered to make a Steam Tramway or light Railway starting from a point about sixteen feet north from the edge of the platform of the Tarkeswar station of the Tarkeswar Railway and running along its own alignment to the Mugragunj near the Mugra Station of the East Indian Railway being a distance of $30\frac{1}{4}$ miles upon the gauge and in the manner described and in accordance with the provisions contained in the now reciting order and a copy of the Agreement entered into between the promoters on behalf of the Company and the local authority was set forth in the Schedule B annexed to the now reciting order AND WHEREAS the said Steam Tramway was duly constructed and opened for traffic on the second day of April one thousand eight hundred and ninety-five AND WHEREAS the Company are desirous of extending the said Steam Tramway from the East Indian Railway Bridge No. 102 to the Mugra Station of the East Indian Railway and the Government of Bengal acting in the premises for and on behalf of the said Railway have sanctioned such extension AND WHEREAS the Company have applied to the Government of Bengal for the acquisition by the Government for the Company under the provisions of the Land Acquisition Act I of 1894 of such land as is required for the purposes of the said extension and by Notification No. 33 of the Government of Bengal Railway Department dated the twenty-third day of March one thousand eight hundred and ninety-six and published in the *Calcutta Gazette* of the same date it has been declared that for the purpose of the said extension a piece of land measuring more or less 62 bighas 17 cottas and 5'88 chittacks of standard measurement corresponding to 20 acres 3 roods and 5'27 poles as nicked out on the ground required within the villages of Mugragunge, Kola and Shaikpara in Pargana Pownan, Zilla Hooghly AND WHEREAS the Government of Bengal in pursuance of section 41 of Act I of 1894 have called upon the Company to enter into such Agreement with the Secretary of State as is hereinafter contained *Now these presents witness* that it is hereby mutually covenanted and agreed between and by the said parties hereto for themselves their successors and assigns in manner following that is to say :—

1. The Company shall pay to the Government of Bengal before the land to be acquired for the purpose of the said extension is transferred to the Company the costs of the said land and all proper costs of the acquisition proceedings including the costs of any references and appeals to Court and the charges for the necessary establishment (an estimate of the charges for such establishment which is only to be treated as an approximate estimate and not as limiting the powers of the Secretary of State his successors or assigns to employ a larger establishment if found necessary is annexed hereto and marked Schedule A) and the Company shall by way of securing such payment and immediately upon the amount being made known to them deposit with the Government of Bengal the amount that may be estimated by the Collector or Officer to be appointed under Act I of 1894 to make the acquisition as the cost of the land and the costs of the said proceedings and the Government of Bengal shall use and apply the monies so deposited in paying and satisfying the same costs and the Company shall from time to time deposit such further sum as may be required by the Collector to bring the amount in deposit up to the estimated cost of the land and of the acquisition proceedings respectively.

2. On payment or satisfaction in full by application of the monies deposited for the cost of such land and the proper costs of the acquisition proceedings and by payment of any balance remaining unsatisfied after such application the land shall at the cost of the Company be conveyed and transferred to the Company by the Secretary of State.

3. The land shall be held by the Company upon and subject to all the terms and provisions set out in the above recited order as if the said extension had formed part of the alignment referred to in the said order the Company hereby agreeing with and to the Secretary of State that this Agreement shall take effect in all respects as if the terms provisions and conditions referred to in this clause had been particularly set out at length in this Agreement in relation to the said land in place of being incorporated herein by reference to the said order.

SCHEDULE A.

Estimate of cost of land required for the extension of the Tarkeswar-Mugra Steam Tramway from the East Indian Railway Bridge No. 102 to the Mugra Station of the East Indian Railway in the villages of Mugragunge, Kola and Sheikpur, Pargana Panduah, District Hooghly.
